

AN INTRODUCTION TO LUCE COUNTY

Luce County was created in 1887. It was a center of the logging industry which began during the Civil War. In 1882 the Newbery Lumber and Chemical Company Plant was created as a charcoal kiln and iron furnace operation. By the 1890s the process had been improved and wood alcohol and lime acetate were produced. In 1910 a sawmill was added. At one point Dutch muck farmers developed celery cultivation which proved successful. Hundreds of immigrants were attracted to the county because of the lumber industry.
