

ALGER COUNTY TOWNSHIPS & MUNISING

AN INTRODUCTION TO ALGER COUNTY

The history of European visitation to Alger County goes back to the seventeenth century, possibly back to the 1620s when Etienne Brule visited Lake Superior and probably camped and rested in Alger County. In subsequent years various locations were stopping points for the French explorers, Jesuit missionaries, and fur traders. Pictured Rocks were described by many of these early expeditions.

At first settlement in the county developed around a non-Native cluster of homes on Grand Island. Later a furnace was constructed and operated at Christmas. In the 1880s the Detroit and Marquette Railroad was completed through the county and it along with its successors would be the means to give immigrants access to the county. The county was created in 1885 and consists of 913 square miles. The timber and related industries like bowl and paper manufacturing attracted immigrants. Fishing especially out of Grand Marais was an important industry. Good farmland in the area of Chatham area brought more immigrants especially Finns. Around 1907 the Cleveland Cliffs Iron Company actively sought immigrants to purchase it's cut-over lands in the county. The results of this activity are inconclusive. A sizeable Slovenian community attracted by the timber industry settled at Traunik. Today descendants of these immigrants continue to reside in the county. The Polish community has a special "polka Mass" and ethnic banquet at Sacred Heart Catholic church in Munising.
