

DICKINSON COUNTY TOWNSHIPS & TOWNS

## **AN INTRODUCTION TO DICKINSON COUNTY**

Dickinson County was built on iron and timber and some farming in the valley of the Menominee River. Iron ore was first discovered in 1878 and mining developed. Major railroads going through the county allowed immigrants to migrate to the area and find employment. The city of Iron Mountain had one of the larger ethnic populations in the Upper Peninsula and some saw it rival the Copper Country with its immigrants. This was especially true of the Italian immigrants and the Italians from Austria-Hungary known as the Trentino Italians. The county was established in 1891.
