

AN INTRODUCTION TO HOUGHTON COUNTY

Named after Douglass Houghton, the state geologist who first promoted the fact that copper existed in the Cooper County it was established in 1845 and organized in 1846. The copper mines needed laborers and immigrants were early attracted to the area. The first groups of immigrants were the: Cornish, French Canadians, Germans, and Irish. They were quickly followed by thousands of immigrants from a variety of nations. By1917 a National Geographic writer noted that when you traveled from Houghton (city) to Calumet, a distance of ten miles it was like going from the United States to a foreign country. By 1920 the outward migration to Detroit was underway.
