Sixty nine miles of 166 miles of the western extension of the DSS&A road is laid. Work now progresses east and west from Dogwood, junction with the Milwaukee, Lake Shore and Western.

The DSS&A pay car passed over the road yesterday.

The South Shore has bought a chunk of land at St. Ignace and the folks at that point would give all their old boots to know whether it is to be used as a site for railroad shops or as a gravel pit.
