Combined Health Services currently represents seven voluntary health agencies and the United Way of Michigan, to provide service to the Upper Peninsula of Michigan.

### American Heart Association of Michigan

Promotes and supports research, professional and public education, and community services to prevent cardiovascular disease and stroke. AHA/MI conducts nutrition and CPR classes, community service programs including hypertension screening, and community health education.

### Arthritis Foundation, Michigan Chapter

A voluntary health agency which supports research on both a state and national level as it relates to rheumatic diseases. Provides programs in professional and public education as well as patient services which include referrals to physicians and other health professionals, arthritis self-help courses, and mutual support groups.

### Epilepsy Center of Michigan

An outpatient research facility in Detroit's Medical Center, serving residents of Michigan. Provides information and consultation on medical and social issues to individuals and families living with epilepsy. A quarterly newsletter is available upon request.

### Kenny Michigan Rehabilitation Foundation

Dedicated to the needs of Michigan's physically disabled population. It provides specialized care, patient services, ~~and information, communication, and medical research.~~ information, communication, and medical research.

### Mental Health Association in Michigan

Works for continuous improvement of treatment services for mentally ill in state hospitals, general hospital psychiatric units, and community mental health programs.

### National Multiple Sclerosis Society, Michigan Chapter, Inc.

Promotes health education, recreation, and social programs for persons with multiple sclerosis. Also provides individual and family consultation, referral services, and loan prescribed orthopedic equipment.

### United Cerebral Palsy Association

Assists with the implementation of new or expanded rehabilitation programs in communities to serve the cerebral palsied and others with related developmental disabilities. Provides consultation pertaining to patient care, program development and community organization. Promotes public and professional education.

### United Way of Michigan

Functions as a voluntary not-for-profit, statewide federation of 25 state and national agencies which provide individual and systems services to Michigan citizens. Combined health Services provides representation to the Upper Peninsula on behalf of the United Way of Michigan, and is an available resource to local United Ways.

## ABOUT COMBINED HEALTH SERVICES

Combined Health Services was formed in 1964 as a special project of the United Way of Michigan. Its purpose was to make it possible for UWM-funded agencies to provide services to people in the Upper Peninsula. The project began with three UWM agencies, expanding to seven by 1979. The following agencies are currently members of CHS:

American Heart Association of Michigan  
Arthritis Foundation, Michigan Chapter  
Epilepsy Center of Michigan  
Kenny Michigan Rehabilitation Foundation  
Mental Health Association in Michigan  
National Multiple Sclerosis Society, Michigan Chapter, Inc.  
United Cerebral Palsy Association of Michigan, Inc.  
United Way of Michigan

In January of 1986, Combined Health Services incorporated and became an independent nonprofit agency governed by a Board of Directors comprised of professional, community and consumer representatives from across the Upper Peninsula. Since 1987, CHS has been funded directly by the agencies contracting for service rather than by the United Way of Michigan.

### BENEFITS OF CONTRACTING WITH COMBINED HEALTH SERVICES

#### Leadership & Supervision:

Combined Health Services has extensive experience in program development and working with volunteers. The Board and administration provide accountability and supervision of the work being done on behalf of each contracting agency.

#### Staff:

CHS offers a diverse staff in terms of both education and experience in service provision. The professional staff has certification in the fields of counseling, social work, teaching, nursing, health education, and law, with work experience in advocacy, aging, mental health, developmental disabilities, home health care, public relations, volunteerism, fund raising, health education for community, schools, professionals, and special populations, and in work with those who have physical limitations or disabilities. Along with our field staff, we have a highly skilled and knowledgeable office staff.

#### Networks:

Combined Health Services has been serving the Upper Peninsula of Michigan for over 24 years and is widely recognized by professionals, consumers, and a wide variety of agencies. CHS has contacts and working relationships with many community leaders and agencies across the U.P.

#### Location:

The CHS office is located in the Marquette Medical Dental Center. The center houses over 100 physicians, numerous allied health services, and both profit and nonprofit health agencies. It is an ideal location for CHS because of the close proximity to physicians, its modern and barrier-free design, and easy identification for most people in the Upper Peninsula. It is also close to Marquette General Hospital, Northern Michigan University, and county offices of Community Mental Health and the Intermediate School District.

#### Shared Costs:

By sharing staff and resources, Combined Health Services is able to provide a modern, well-equipped, and professional office which is available to the public at regular working hours Monday through Friday. Even in the absence of the assigned agency representative, a member agency's program continues through the work of other professional staff and ongoing support staff activity.

REFERENCE: Comments given during County Commission Meeting of November 1, 1988.

SUBJECT: Michigan Department of Corrections Proposal for a Minimum Security Prison at the Old Acocks Medical Facility on County Road 492.

Concerned citizens from throughout the County have continued to sign petitions saying no to the Department of Corrections proposal for a minimum security prison at Acocks. These signatures were obtained through efforts of concerned residents informing the public of the Department of Corrections proposal for Acocks. Total petitions now stand at 2,054. Petitions submitted at the Public Hearing of October 19, 1988 of 1,596 plus 458 submitted tonight.

There have been comments from some people in the community that information presented by residents of Marquette County at the Public Hearing was not factual. If there are questions concerning the information presented at the public hearing, we will discuss these issues with anyone at any time. There was one item I would like to clear up. There were comparisons made between the existing prison facility in Marquette County and the Department of Corrections proposal for Acocks. I would like to clarify this issue. The following information was obtained in telephone conversations with local Department of Corrections personnel on October 26, 1988. (Attachment No. 1)

Marquette Branch Prison - 634 inmates, maximum security - lockdown facility and cells, security barriers, armed gun towers.

Marquette Branch Trustee - 238 inmates, minimum security - more guards due to higher percentage assaultive prisoners, surrounded by a security fence, more security personnel available due to location adjacent to maximum security facility, the three dorms housing these inmates are overlooked by the armed gun towers from the maximum security facility.

Magnum Prison Farm - 60 inmates, minimum security prison - surrounded by a security fence.

A review of the history of the local minimum security facility's escapes was well documented at the Public Hearing. Several violent crimes have been committed by escapees from these facilities.

The Department of Correction proposal for Acocks is a minimum security facility for 300 inmates. There will not be any armed gun tower at Acocks like the trustee division. There will also be fewer guards. There will be a 12 foot fence and not a armed guard on the site. The Department of Corrections proposal for Acocks would be much less secure facility than the Trustee Branch, but may be similar to the Magnum farm except five times its size.

As stated by residents of Marquette County at the Public Hearing concerning the Department of Corrections plan for Acocks, no formal proposal had been submitted to the County. We would like to know if a formal proposal has been received to date?

We are also concerned about the alternative use the county was proposing for Acocks. We would like to review this information. On the County Commission October 4th meeting agenda, there was a topic concerning Acocks. I believe this topic concerned moving some of the county offices and heating a portion of the structure through the winter. What is the status of this item?

Also, on October 4, a Mining Journal article stated that Jack Van Tassel, President of the Marquette County Economic Development Corporation and Marquette County Administrator Dennis Aloia are seeking an additional maximum security prison in Marquette County. (Attachment No. 2) Are you the County Commissioners supporting these activities to seek additional prisons? Is the maximum security prison site selection and the Department of Corrections proposal for this facility going to spring on local residents in a similar manner that the Acocks proposal did on September 30, 1988? Are the two proposed correction facilities connected? Does the Department of Corrections want both facilities in Marquette County?

Has anybody in the County government asked the people of the County how many prisons and prisoners they want?

Let's look at the present numbers of prisoners in Marquette County. (From telephone conversations with local Department of Corrections personnel- Attachment No. 1) There are presently 932 prisoners in Marquette County. The population of Marquette County from 1982 census was 73,000. (Table No. 1) Based on this information at present there is 1 prisoner for every 78 residents. Adding the Acocks facility of 300 inmates and a maximum security prison similar in size to the present Alger County facility under construction for 400 inmates, would bring the Marquette County prisoner population to 1632. The ratio decreases to 1 prisoner to 45 residents. This is a lower ratio than the ratio of guards to prisoners in the minimum security prison at present. The present guard to prisoner ratio is 1 to 55 or greater. We think Marquette County residents should be made aware of and be able to voice their opinion on this issue before County government pursues additional prisons.

Let's look at the larger picture of Marquette County as part of the Upper Peninsula. Current Department of Corrections plans would have 6,447 plus prisoners in sites across the entire U.P. by the end of 1990. (Attachment No.1) This will be 25% or plus percentage of the total number of prisoners in the State of Michigan. Is this economic progress or short sited planning? Will this attract new industry? Will this promote tourism? Will this improve the quality of life in the U.P.? There has been 22 walk-a-ways from minimum security camps alone this year already in the U.P. (escapes of 22 from camps only does not include walk-a-ways from other facilities. These numbers are presently being researched.) Double the population and this number in all likelihood will also double. This is 3 to 4 escapees per month in the Upper Peninsula. Is this safe for residents? Does this encourage tourism?

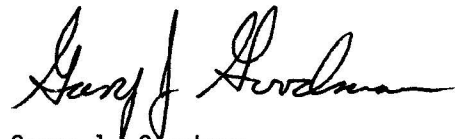

The location of prisons in the Upper Peninsula is far from the major population centers from which the offenders originated. We believe siting of additional prisons in the Upper Peninsula is contrary to the D.O.C.'s own prison siting criteria as outlined in the Comprehensive Plan For Correctional Facilities, revised April 10, 1986. The Department of Correction is being opposed on prison sites in many areas of the lower peninsula. Are prisons something lower Michigan residents do not want so the U.P. gets them? If prisons were such an economic boom with great positive effects on the community, would the U.P. still be selected for sites? Are there other sources for economic development besides the quick fix the D.O.C. offer? We believe so. Example: Our

own county is the largest land mass county in the State. With a large forest industry, but few wood processing plants. Why aren't wood processing plants being sought? There are plants being built throughout the U.P. in Quinnesec, Escanaba, Sagola, and Munising and are processing wood fiber from our county. What would be better for residents and local employment - wood processing facilities or prison facilities?

The Marquette County Commissioners cannot say no to prisons in surrounding communities, but is must be aware of the impact the Department of Correction's present and planned facilities will have on its own County residents and surrounding Upper Peninsula residents. Also, long term effects of prisons on public safety, new industry growth and tourism should be analyzed.

We have told you, the Commissioners, why we oppose the D.O.C. proposal for the Acocks at the Public Hearing of October 19, 1988 for many reasons. Please review these concerns. Safety is our main concern. As stated in the Senate Select Committees report on Safe Streets in Michigan, dated December 30, 1986 (Page 59), escapes take place from minimum security facilities such as being proposed at Acocks. Commissioners, take a broad look at negative impact of future prisons on Marquette County and on the Upper Peninsula. Is the Department of Corrections only telling the positive side of their proposal?

I believe Marquette County has met its civic responsibility to the State of Michigan on housing prisoners since 1889 when the maximum security prison was established. We oppose the Department of Corrections proposal for Acocks.

# EDC is supporting proposal for another county prison

By MARCIA GOODRICH  
Journal Staff Writer

MARQUETTE — Having already won a prison plum for itself, the Alger County Economic Development Corp. threw its support Monday to efforts to woo a second maximum-security facility to the Marquette area.

The Alger EDC unanimously agreed to support the Marquette Area Chamber of Commerce's bid for a prison, noting that economic development in Marquette would have a spinoff effect in Alger County and that Marquette had similarly supported Alger's successful bid for a state prison.

"Marquette County is actively involved in trying to get a new correctional facility," said Joe VanDine of Marquette, a member of the Marquette Chamber of Commerce board.

"We're trying to broaden our base

of support to include some outlying areas. We wanted to see if the folks in Alger County would support one here."

"Wherever a facility is located, it will help all the surrounding counties," he added.

"Alger County is demonstrating its support to us, as we supported them in the past. I think it's an excellent example of inter-community cooperation in seeking economic growth.

The old Acocks Medical Care Facility on County Road 492 in Marquette Township is being proposed as a site for a full security prison, he said, although several other locations may be under consideration.

The state Department of Corrections is also looking at Acocks for possible use as a minimum security prison camp.

"We're delighted to hear of the endorsement," said Jack Vantassel, president of the Marquette County Economic Development Corp.

Vantassel said no firm site for the maximum security facility has been determined, but "We have been working in concert with county administration for a number of years in terms of development of a new prison here."

Marquette County administrator Dennis Aloia said the Alger EDC's support would be helpful in landing one of two more maximum-security facilities the state may build in the U.P. in addition to new prisons already planned in the Mufising and Baraga areas. Marquette has long been home to the maximum-security Marquette State Prison.

Each of those prisons will create about 300 jobs, cost about \$42 million to build and create an annual economic impact estimated at \$40 million.

"We really appreciate Alger County's support," Aloia said. "It will improve our chances and be good economically for both counties."

# Corrections chief likes Alger work

By B.G. BRADLEY  
Journal Munising Bureau

MUNISING — The Michigan Department of Corrections Deputy Director Jim Curran said he was impressed with the work done on the Alger County Prison proposal, following a meeting with Alger officials Thursday.

Curran said that Alger Economic Development Corporation Director Jack Krueger has done "a terrific job in putting together the proposal and meeting the requirements."

"I think it's probably the most organized of the proposals I've seen," he added.

Several U.P. and northern lower Michigan counties are currently competing for placement of a new state prison in their areas. One new prison has already been slated for construction at Chippewa County's Kinross.

Curran said he had anticipated prior to his visit to the U.P. this week that some of the counties would have been hard put to meet the "utility requirements" needed for development of a new prison. He said, however, that

all of the counties he visited this week — including Alger, Marquette, Iron, Gogebic, Houghton, Baraga, Ontonagon and Luce — had the required electric, sewer and water and other utilities necessary at proposed sites.

"That makes it a more difficult choice," said Curran.

Curran also confirmed Thursday that Marquette County has expressed an interest in development of a new prison. The deputy director met with Marquette County Administrator Dennis Aloia Wednesday on the Marquette proposal.

More enthusiasm has been expressed regarding development of a new prison than in northern Lower Peninsula counties, he said.

"There haven't been the public endorsements," said Curran of Lower Peninsula interest.

A tour of northern Lower Peninsula counties by Curran is likely in September. Curran said he would examine proposals in Mansitee, Presque Isle and Alpena counties.

Curran also said Thursday that counties which have been given less state support in the past might be in a better position for a new prison than counties where the state has already had a large impact in the form of institutions and programs.

Asked about the feasibility of the Alger County plan to construct a fish processing plant as a work program for the proposed prison, Curran said that his main interest was the availability of utilities.

He added, however, that locating a prison in the U.P. would provide a better opportunity for "creative industries" related to such areas as forest products and fishing.

Curran also told Alger officials that the distance for transporting prisoners from Lower Peninsula penal institutions would be a consideration.

An independent engineering firm hired by the corrections department will be touring proposed sites in October, according to Curran.

Alger officials met with Curran at Munising City Hall Thursday morning then took him on a tour of the proposed Munising Industrial Park prison site.

Following the meeting with Curran, Alger officials were guardedly optimistic about their chances.

"The hardest part will be between now and the time the decision is made," said Krueger. "We're going to continue to try to make our project stronger."

Krueger said that during the private meeting at Munising City Hall Thursday, county officials were provided with a list of state needs.

"We feel our county includes all those," said Krueger.

Krueger downplayed his contribution to the prison efforts so far, commenting, "A lot of people have been involved in this one."

Munising Township Supervisor Bob McQuisten emphasized that if a prison were located in Alger County it would benefit Schoolcraft, Marquette and other counties in the central U.P.

## County officials also meet

By ERIC LUTTINEN  
Journal Staff Writer

MARQUETTE — Saying he didn't want "to close the door on our chances," Marquette County Administrator Dennis Aloia confirmed he had met with a state Department of Corrections official to discuss another prison site within the county.

"Our posture is that we certainly welcome a prison in Marquette County and we'll do everything we can to get another prison in the area," Aloia said.

Several Upper Peninsula counties are lobbying for a prison site, with the legislature already having committed another state prison to the Sault Ste. Marie area. Ontonagon, Baraga, Iron, Houghton, Gogebic, Marquette and Alger counties are making their best offers to the Department of Corrections to obtain the other site.

Already having the Marquette State Prison within its boundaries, Aloia said Marquette County "offers distinct advantages which no other site offers."

Shared employment with the current facility, as well as joint purchasing, are the major advantages, with mental health and other rehabilitation facilities in the area being prime considerations as well, Aloia said.

While it may be a blessing to have the existing prison in Marquette, it could be a severe problem. Jim Curran, deputy director of the Department of Corrections, told The Mining Journal the state would not likely place a prison in an area where current state facilities exist. "All things being equal, we're likely to go to the place that has worked the hardest and is the most desirous," Curran said.

"Mr. Curran basically said that, but on the other hand, he said they would have great interest in placing it in an area where there would be more cultural activities for the employees," Aloia said.

Alger County has been making the strongest bid so far for the other prison site, but Aloia thinks a prison anywhere in the area will have good effects on the economy in supportive services and spin-off businesses.

"We're as interested about getting one (a prison) in the central U.P. as in Marquette County," Aloia said.

7. Questions by County Board to organizations or individual presentations.
8. Discussion continued. (Recommendation?).
9. ADJOURNMENT.

October 19, 1988

Marquette County Board of Commissioners  
241 Courthouse Annex  
Marquette, Mi.

Dear Commissioners:

My name is Matt Riipi. I live with my wife and daughter at 1 Pinehurst Drive adjacent to County Road 492 approximately 2.2 miles from Acocks.

My family and I are opposed to locating a prison camp at the Acocks facility.

We feel this action would subject our family to undue danger and stress.

We built our house two years ago at a substantial investment to our family and continually try to improve our property.

We feel that placing a prison camp at the Acocks site would have a detrimental effect on adjacent property values and also cause a curtailment of expansion in the area.

We hope the Commission will consider our plea and look for and consider alternative uses of the Acocks facility.

Respectfully submitted,

M. W. Riipi

Mr. Dave Roberts  
Marquette County Clerk  
County Courthouse  
Marquette, MI 49855

Dear Dave:

Enclosed you will find Resolution of the Negaunee Township Board regarding proposed Minimum Security Prison at the Acocks Medical Facility. I would appreciate it if you would present it to the County Commissioners at their informational hearing on Wednesday, October 19, 1988.

Thank you.

Yours truly,

Mary Grobar, Clerk

OF  
TOWNSHIP OF NEGAUNEE

At a Regular Meeting of the Board of the Township of Negaunee, held on October 12, 1988. The Resolution below was presented and adopted by unanimous vote.

Board Members present: Wes Larson, Glenn Binoniemi, Darrel Fezatt, Ruth Rivers and Mary Grobar.

WHEREAS it is in the best interest of the Citizens of Negaunee Township, that the Acocks Medical Facility be used for a Community-involved Project;

And WHEREAS the Citizens of Negaunee Township feel the proposed Minimum Security Prison at the Acocks Facility would pose a real danger to the people;

Now be it therefore resolved that the Negaunee Township Board is officially opposed to the Plan for a Minimum Security Prison at the Acocks Facility.

Mr. Tim Lowe, Chairman  
Marquette County Commission  
City Court House  
Marquette, Michigan 49855

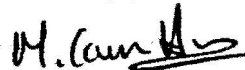

Dear Mr. Lowe:

I am writing to you to express my deep concern regarding the proposal to place a prison facility at the old Acocks Medical Facility on County Road 492. As a property owner in the general area of the proposed facility, I have some major concerns regarding the type of individual that will be placed in the facility and also the security measures that will be taken. At this point in time, I do not feel that there has been sufficient assurances given by the Department of Corrections regarding the facility. I was surprised to read of the proposal in a copy of the Mining Journal some two weeks ago, and since that time, I have not received any assurance that appropriate steps will be taken to allay my concerns.

While I think that we are all cognizant of the need for additional prison facilities, I am not yet convinced that remodeling a medical facility to meet correctional needs is either a good idea or economically feasible in the long run. As a parent, I am extremely concerned about the security factors associated with the conversion of a medical facility to a correction facility. It would seem to me that money would be better spent in designing and building a new facility specifically addressing correctional needs as opposed to converting current facilities to a use that they were never intended. Admittedly, the dollars saved in construction might appear to be significant but this illusion must be waived in terms of the need for additional personnel to monitor the facility which in the long run would probably significantly increase the operating costs.

I would, therefore, strongly urge you to seriously consider supporting this project especially in light of some of the comments that I have made. Your careful consideration of this issue would be greatly appreciated.

Sincerely,

M. Cameron Howes

September 12, 1988

Mr. Dennis Aloia, Administrator  
Marquette County Courthouse  
234 West Baraga  
Marquette, MI 49855

Dear Mr. Aloia:

The Alger County Prison Impact Task Force strongly endorses the efforts of Marquette County to expand existing Correctional facilities.

In March of 1987 the CUPPAD Regional Commission passed the enclosed resolution unanimously. In June of 1987 the Department of Corrections announced two new prisons for the U.P. and more recently four new minimum security camps.

The extensive research conducted by the Alger Prison Task Force found Corrections Facilities make good neighbors - and they provide excellent employment. Expanded operations in Marquette County would benefit several U.P. counties.

Criminal Justice courses are now being taught across the entire peninsula as labor forces are gearing up for new careers. The U.P. is committed to Corrections.

Sincerely,

A handwritten signature in cursive script that reads "William Mazzali, Jr.".

William Mazzali, Jr., Chairman  
Alger County Prison Impact Task Force

WHEREAS the people of the State of Michigan have through their respective legislators endorsed a prison expansion program exceeding \$650,000,000, and

WHEREAS at this time the only specific expansion plans which include the Upper Peninsula are limited to one facility located in the eastern end of the peninsula, and

WHEREAS the entire Upper Peninsula is and has been for many years suffering an economic depression, and

WHEREAS in contrast to public sentiment toward Corrections that exists in the metropolitan areas, the people of the Upper Peninsula have expressed an earnest and true desire to work with and for the Department of Corrections in a harmonious relationship, and

WHEREAS the local units of government by a vast majority support and are eager to accommodate new prison construction, and

WHEREAS existing infrastructure and low land cost make construction economically attractive for the tax payers of the State of Michigan

BE IT THEREFORE RESOLVED that the Central Upper Peninsula Regional Planning Commission strongly recommend to the Department of Corrections, members of the House of Representatives and the Senate that in all fairness to the people of the Upper Peninsula at minimum \$100,000,000 be utilized for prison construction in the Upper Peninsula in addition to funds committed for the expansion project at the eastern end of the peninsula.

# MARQUETTE AMBASSADORS

October 13, 1988

Dear Commissioner Corkin:

At its October 13, 1988 meeting the Marquette Ambassadors voted overwhelmingly to support the location of a minimum security correctional facility on the present Acock's site. The Michigan Department of Corrections has been a good neighbor in the past, specifically the Marquette Branch Prison and the Mangum Farm. These facilities have provided good steady employment for many county citizens through good times and bad. The new jobs created would benefit the county providing good jobs. Also, a possible problem property for the county would be placed in capable hands.

We urge your support of this project.

Sincerely,

A handwritten signature in cursive script that reads 'Thomas P. Bulluk'.

# Marquette Area Chamber of Commerce

October 19, 1988

Mr. Tim Lowe, Chairman  
Marquette County Board of Commissioners  
Marquette County Courthouse  
Marquette, Michigan 49855

Dear Chairman Lowe:

The Board of Directors of the Marquette Area Chamber of Commerce, representing over 600 members from the business and professional community in the Marquette area, would like you to be aware of their support for the minimum security correctional facility at the Acocks facility. Indeed, this support came after some lengthy discussion, however, the Board feels their support is consistent with earlier conceptual support given this summer for other correctional facilities in Marquette County. The Board feels the creation of such a prison at Acocks will continue to stabilize the area economy by the creation of more jobs and by making use of a facility badly in need of purpose.

Past experience with the State Department of Corrections has always been quite favorable and we continue to expect the best of them while operating the facility at Acocks.

We urge the members of the Commission to support the proposal from the Department of Corrections.

Sincerely,

Michael Roche  
Executive Vice President

Dear Mr. Aloia:

The Alger County Economic Development Corporation endorses Marquette County's efforts to attract a new correctional facility.

We look forward, in Alger County, to the new jobs and enhanced economy that the Alger Correctional Facility will bring, knowing that these benefits will spill over into several U.P. counties. And we know that a new facility in Marquette County will, in turn, be of benefit to the central U.P.

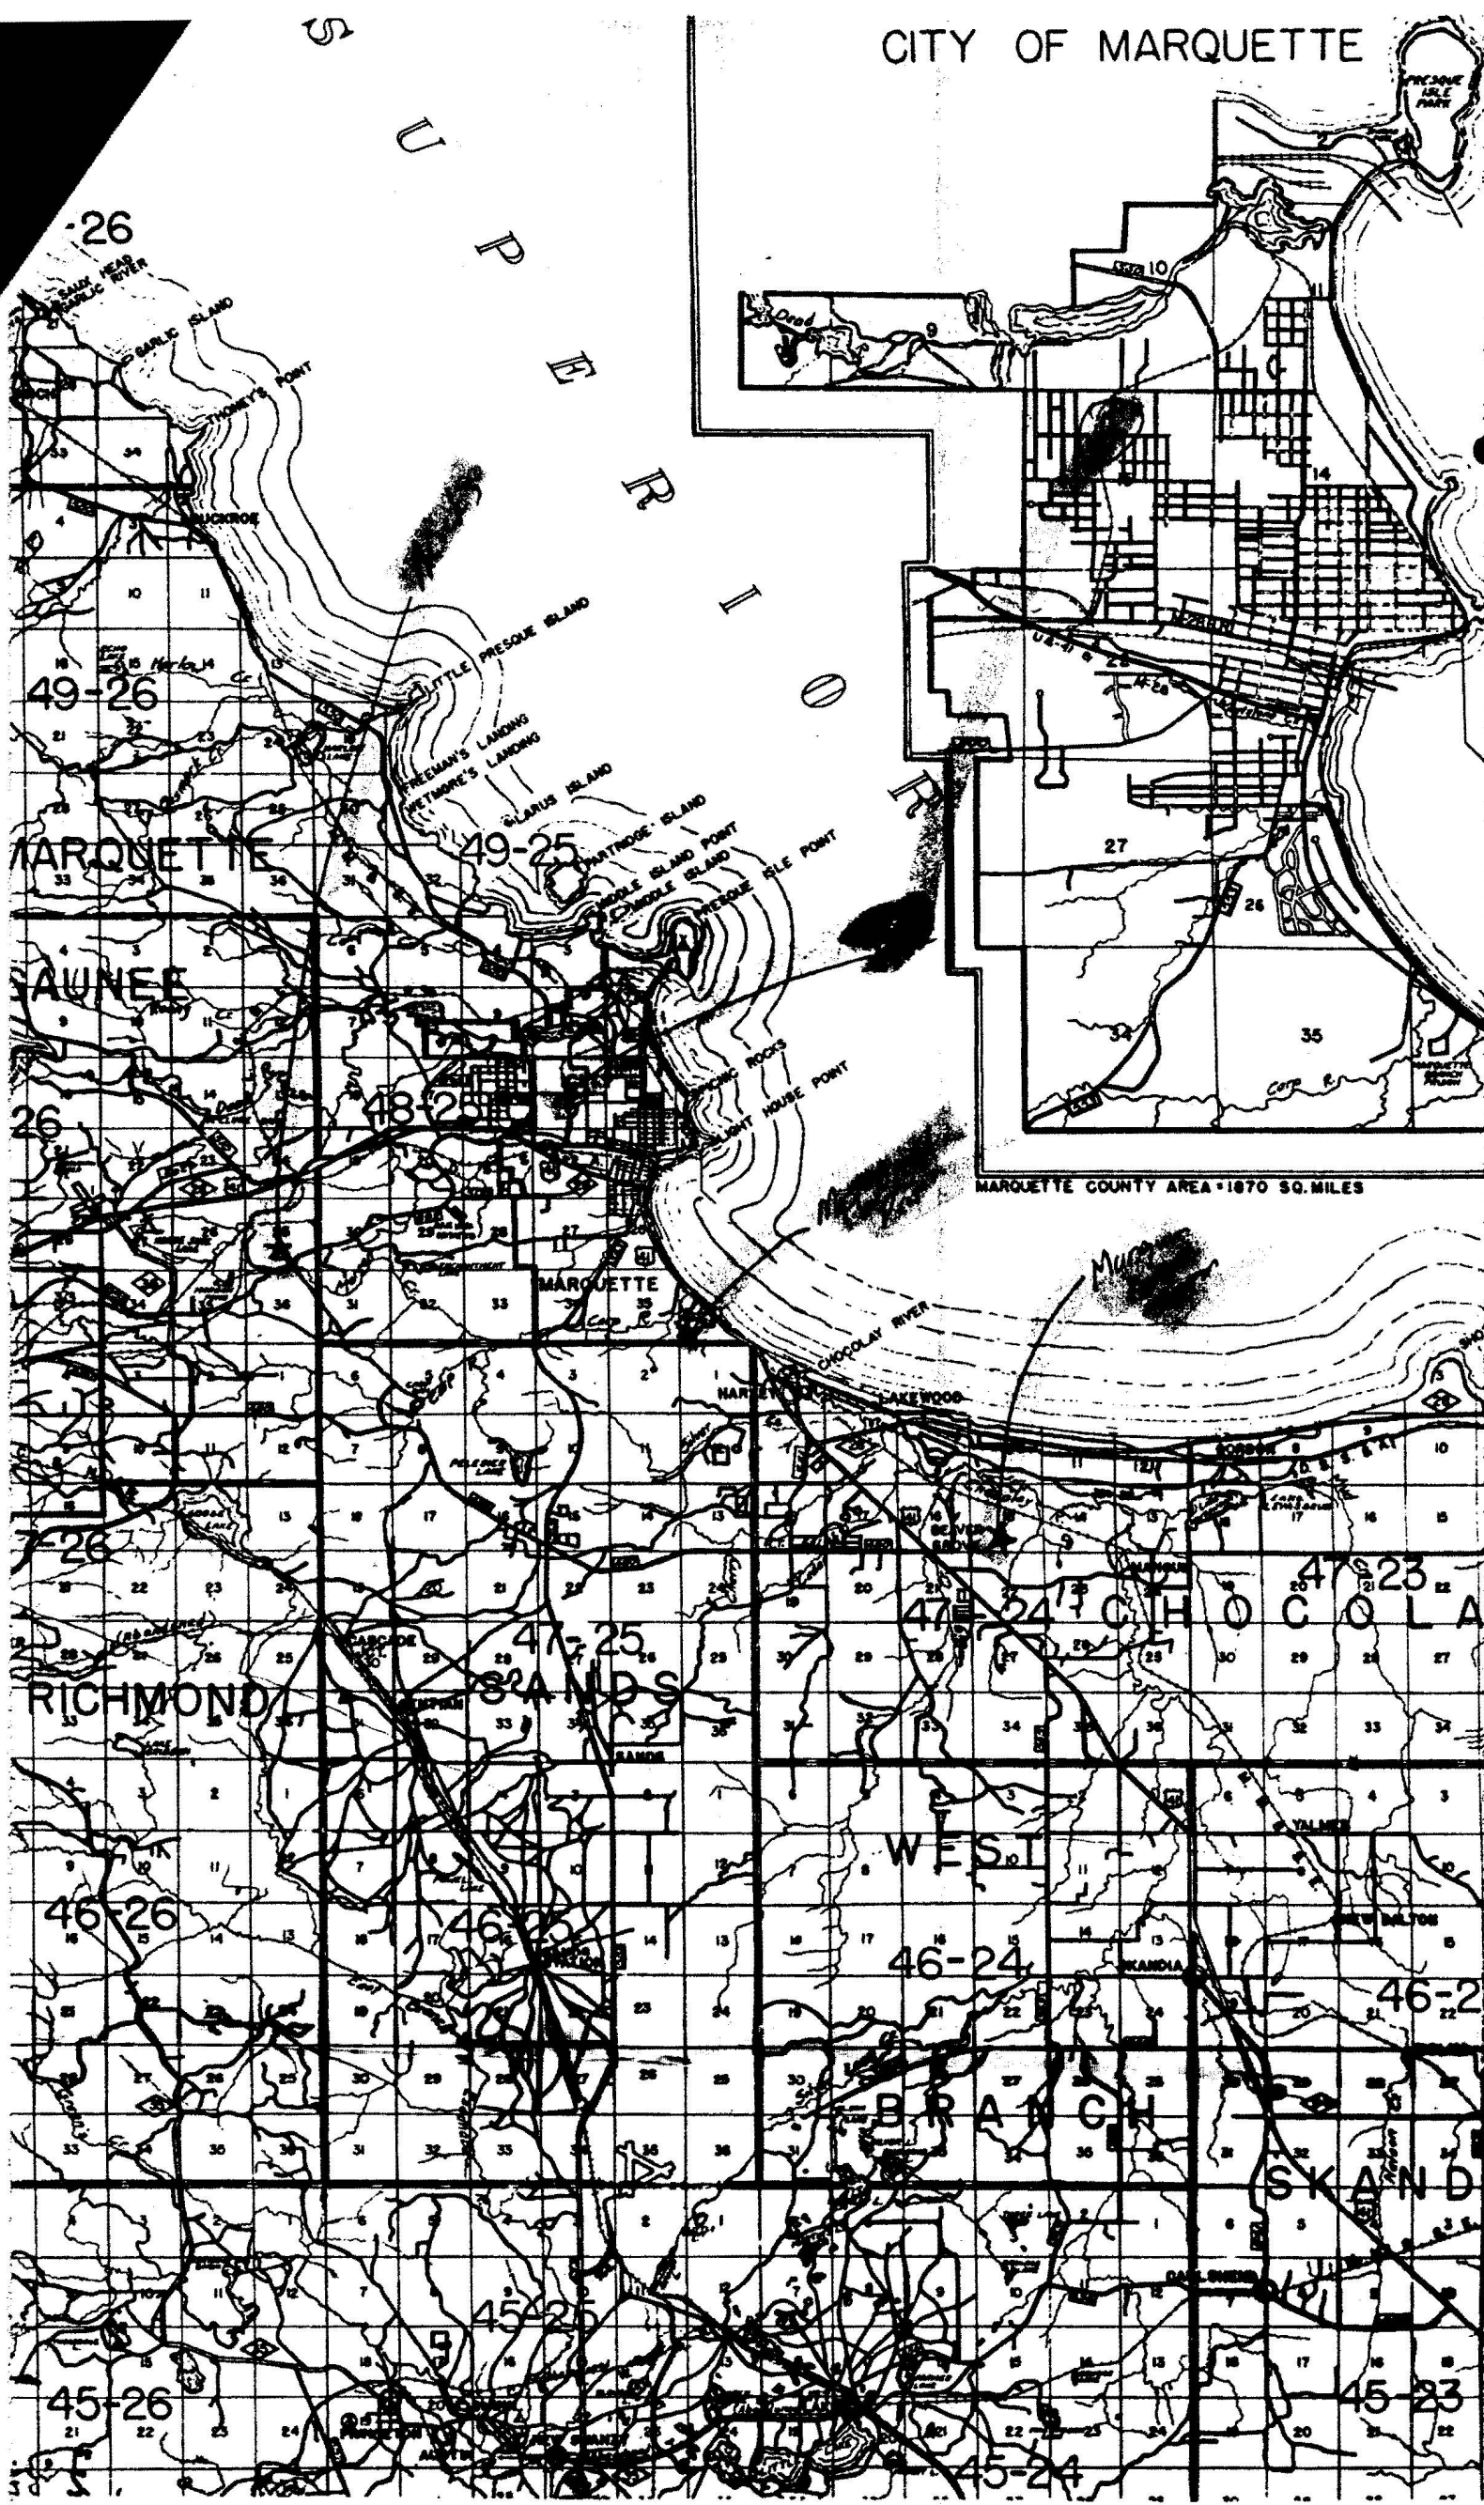

The Upper Penninsula is sorely in need of these economic spin-offs, and we trust that new jobs in one county will strengthen us all, wherever we are in the U.P.

Sincerely,

call police - count - the copin escape -  
get out dogs.

? by Detant - How many guards on  
work crews? - Crews 870 prisoners -  
1 supervisor -

? by Corbin - Can state change rules  
at anytime? Some rules are law - can't

change - some are policy - more prisoners  
AD up than last, about 30 walkaways  
per year.

? by Defant - How many are caught?  
JK Not sure. Most of them head for home.

? by A - What do workways do?

JK. Experience shows, much less on impulse  
but plan to be picked up.

W.S. says most want to go home. Must  
use Wisconsin route rather than bridge.

? by A - Notification? Time Frame?

OSAP - Up to 1:59 during daylight hours.

Jim Kurion,

? by S - Who's going to be hired?

Some lateral transfers. Some new

? by D - Public works? What kind?

By policy & practice no other job done  
by Public works employees. Do things  
that wouldn't be done. Work with  
state agencies

? by C - Rock Bluff? Will not be  
used as part of security.

? by J - Economy impact? What has  
been experience. Most stuff in comp  
is made ourselves. Those businesses that  
get on state bidder list. It is a  
bid process. No commitment. Pistobles,  
small equipment,

? by S - Arocks by office for prison  
and training area - JK - will  
work with county after pressing need  
of bid process, for other options.

? by D - Arocks? How does it  
compare? Make shift? JK - always would  
prefer new, however, have experience in converting  
(Arocks will be expensive to operate)
