NEUBERGER'S.

HUNDRED A MINUTE.

People Viewing the Remains of the Dead Commander Have to Hurry Up Rather Lively.

The Military Telegraphers Held a Telegraphic Meeting Yesterday at Which They Enjoyed Grant.

At Appomattox the House in Which the Terms of Surrender were Signed is Draped in Memory of Grant.

VIEWING THE REMAINS. EARLY CALLERS.

NEW YORK, Aug. 6.—People loitered in the city hall park all night, to be first in line, and soon after 6 o'clock this morning began filing past the remains of Gen. Grant, whose they lay in the city hall. There were no great throngs awaiting admission. Those who waited at six o'clock were not more than a thousand persons. Inspector Steers was in charge. He had ordered that one hundred and fifty policemen should report to him at the city hall at an early hour this morning. At 6 o'clock, the hour fixed for admitting the public, the inspector's officers were still filing into the plaza. The complement was present, and soon two lines of policemen were placed across the plaza from the city hall to the fountain. These two lines formed a passage-way through which four men might walk abreast, and along which all day the visitors to the remains should pass, in the first minute only 24 persons passed the casket. This rate of passage would never answer.

WOULD NEVER ANSWER. When a dense crowd should be in waiting outside. The people were hastened. They were hurried through at 10 1/2 minutes, then the pressure was increased to 10 1/4 minutes. This was better. The procession was almost a lock step, and the tramp was quick. The tide was easily formed of persons who came from the cars or who were passing through Mall street, and were drawn into the stream by a desire to see the dead. It was 6:25 a. m., and the pulse of curiosity had sunk to 56 to the minute. At 6:40 the running average per minute was 91 and the tide of the crowd was between 2,700 and 2,800 persons, with no clogging or crowding. The hour from 7 to 8 o'clock was employed by working-men, women, and children, and the tide was 110 a minute, and at 8 o'clock 42,000 persons had viewed the remains, seven hours having been occupied in so doing.

THE FORMAL OPENING of the board of aldermen was set up during the morning beneath the rotunda dome, where the light streamed down on it. The central column rose ten feet, and was flanked by stands of colors, while the base was a bed of ferns and palms, among which were placed huge rows of white birds. The passage of people at the casket was averaging about 110 a minute, and at 8 o'clock 42,000 persons had viewed the remains, seven hours having been occupied in so doing.

AT 2 P. M. the procession extended in a crescent across the park, and along the sidewalk to Chambers street, and along Chambers street to Broadway. The Fifth relief detail of the thirteen veterans of U. S. Grant post, G. A. R., came on guard around the casket at 2 P. M. The passage of the multitude in the hall

was greatly hastened during the afternoon by the police and the veterans in charge of the body, by permitting no loitering, and telling the people to stop lively, and hurry up, so that sometimes they had scarcely a chance to see the face of the dead general.

A DENSE PROCESSION. NEW YORK, Aug. 6.—The Grant family spent a quiet day at the Fifth avenue hotel. Gen. Sherman called in the evening, but there were no visitors during the day. At 9 P. M. the procession of people to the hall was more than at any time during the day, and was composed principally of working people.

HONORING THE DEAD. MILITARY TELEGRAPHERS. CHICAGO, Aug. 6.—Pursuant to call of William B. Plann, president of the society of military telegraphers of the late war, throughout the United States, to take action on the death of Gen. Grant, by kind courtesy of the Western Union telegraph company, a telegraphic meeting of the survivors of the corps was held today.

MR. Plann presiding, at Chicago; Wm. B. Somerville, at New York; Robt. B. Lines, president of the District of Columbia branch, at Washington; J. A. Davin, at Boston; W. B. Willson, at Philadelphia; Joseph Anderson, at Buffalo; Geo. Cole, at Columbus, O.; T. E. Moreland, at Pittsburgh; L. C. Wier, at Cincinnati; L. A. Somers, at Cleveland; D. T. Bacon, at Indianapolis; E. M. Sharp, at Milwaukee; J. McMichael, at Minneapolis; C. W. Hammond, at St. Louis; L. H. Kortz, president of the western branch, at Omaha; D. E. Martin, president of the Kansas City branch, at that place; Col. R. C. Clowry, of San Francisco.

RESOLUTIONS. The president submitted resolutions, which had been prepared for the purpose, to the members assembled at the above-named cities, and others on various telegraphic circuits, and received a most hearty and unanimous endorsement thereof. At some of the local meetings he was advised by the local presidents. Many feeling addresses were made. The following is a copy of the resolutions:

WHEREAS, for a quarter of a century we have watched with pride the career of Ulysses S. Grant, and ever found in him the elements of a successful general, and of a true citizen devotedly attached to his country and follows, as well as his family, and whereas, during the rebellion, the military telegraph corps was an important department of the army in the field, and was used to an extent greater than before, or since, and whereas Gen. Grant kindly reminded of our services has testified to the efficiency and integrity of the corps of military telegraphers, and whereas it is fitting that we, who were honored by his friendship and great confidence, should have a place in the general expressions of grief at the loss of one whose pure and lovable character added lustre to the fame of America's greatest citizen and soldier, therefore be it

Resolved, That our secretary be instructed to purchase a portrait of our great commander, cause these resolutions to be written thereunder, and frame, drape and produce the same at our expense.

FULL OF RUMORS.

The Political World is Awaiting With Interest the Outcome of the Meeting of the Two Emperors.

Our Southern Sister Republics, Mexico, Peru and Colombia, are Suffering from Rebellion and Yellow Fever.

In Spain and France the Cholera is Constantly Increasing in Virulence, and People Flying From Their Homes.

ENGLAND. THE EMPERORS' MEETING.

LONDON, Aug. 6.—Europe is full of rumors concerning the coming meetings of emperors and premiers. The latest report is that the marquis of Salisbury and prince Bismarck will meet at Yargin. The Cologne Gazette publishes an article similar to the one which recently appeared in the North German Gazette. It advises the maintenance of friendship between England and Germany, and warns France against a policy of revenge.

AUSTRIA. THE EMPERORS' MEETING.

VIENNA, Aug. 6.—The Abendpost says that the meeting of emperor William and emperor Francis Joseph, at Gastein, will strengthen the close friendship already existing between Germany and Austria, and will be a sure guarantee of the peace of the world.

GERMANY. IMPERIAL KISSES.

GASTEIN, Aug. 6.—Emperor Francis Joseph and empress Elizabeth arrived here this evening. Emperor William received them at the entrance of the Badeschloss with greetings of affection, kissing the Austrian emperor three times. William wore the Austrian uniform and Francis Joseph wore the Prussian uniform. The town is illuminated and thronged with people.

THE EAST-AFRICAN COMPANY. BERLIN, Aug. 6.—Admiral Heuk, of the German naval retired list, is to be proceeded to Zanzibar, where he will act as political agent of the German East-African company.

MEXICO. YELLOW FEVER. CITY OF MEXICO—Via Galveston—Aug. 6.—Yellow fever has appeared at Mazatlan and Tehuantepec. At the former place the disease is not violent, and the physicians have good success in treating it. Strong efforts are being made by the municipal authorities to stamp out the fever. Many persons deny the efficiency of Dr. Carmona's vaccination process, and the doctor is expected to publish soon a defence of his system.

PERU. ANTI-MASONIC. LIMA—Via Galveston, Aug. 6.—The bishop of Lopez, in a letter to the president, declared that the progress of freemasonry was an evidence of shameless neglect of duty on the part of the government, and he called upon the president to suppress the order. In reply the president said that freedom of thought should be supported.

COLUMBIA. PANAMA'S TROUBLES. PANAMA, Aug. 6.—Late news from the theatre of war is not such as to inspire hope of an early conclusion of the struggle. The rebels abandoned their camp on the island opposite Colomar, whence they had made several attacks on the government forces, and moved up the river. An intercepted letter from their commander, Comargo, says that he had determined to change completely his plan. This letter formed, although the Massachusetts militia were so curiously contrasted with the exultant and exciting that the annual town meeting or an occasional circus show.

MASSACHUSETTS. A BATTLE. BOSTON, Aug. 6.—The annual town meeting of the independent companies was so curiously contrasted with the exultant and exciting that the annual town meeting or an occasional circus show.

THE SANITARY CONDITION of the isthmus has not improved. The condition of the colonies is something terrible, and a perfect plague seems to have struck the place. There are sometimes as many as 25 deaths a day, in a population of less than 10,000.

IRELAND. A CONTROVERSY. DUBLIN, Aug. 6.—A bitter political and personal controversy is going on between Michael Davitt and Wm. O'Brien, editor of United Ireland, Mr. Parnell's organ. Mr. Davitt accuses the United Ireland of maliciously attempting to place him in a false position before the country, and O'Brien warmly denies it.

THE CHOLERA. ST. PAUL, Aug. 6.—The panic caused by the rapid spread of the cholera in the country is increasing. Entire villages have been deserted by their inhabitants, who have fled for safety from the dreaded disease. In many cases the doctors and municipal authorities have been attacked by the scourge, and the sick have been abandoned, and the dead left unburied. Reports from several places state that it is impossible to obtain provisions or medicines. The misery throughout the country is great.

MADRID, Aug. 6.—There were 4,232 new cases of cholera reported through the kingdom yesterday, and 1,638 deaths from cholera.

FRANCE. MARSEILLES, Aug. 6.—The sanitary council of this city telegraphed today to M. Legrand, minister of the interior, a statement certifying that the cholera in Marseilles was sporadic only. This action is known to have been resorted to for the purpose of concealing the alarm felt by the council, and avoid being held responsible for the sanitation, which has caused a recurrence of cholera in that city. The municipal council of Marseilles are much perplexed from the want of funds. They have no appropriation available for expenditure for cholera purposes, and dare not ask for funds for fear of creating an alarm by the implied acknowledgment of the existing cholera in an epidemic form.

MARSEILLES, Aug. 6.—Thirty-three deaths from cholera reported in this city today.

ITALY. ROME, Aug. 6.—Vessels arriving at Italian ports from French ports will be quarantined one week, if they have clean bills of health, and three weeks if they have unclean bills. Railway travelers suspected of being infected with cholera will be imprisoned.

GREECE. ATHENS, Aug. 6.—The Greek government has increased the quarantine yesterday ordered against arrivals from Marseilles from five to eleven days.

VICE PRESIDENT HENDRICKS.

He Talks About Grant, Civil Service Reform and Postmaster Aguila Jones.

CHICAGO, Aug. 6.—Vice president T. A. Hendricks, accompanied by Mrs. Hendricks, arrived here this evening. Mr. Hendricks informed a representative of the press that he was on his way to New York to take part in the Grant obsequies. "I have been at Ashland, and up around Lake Superior, with Mrs. Hendricks, for a fortnight, on a trip for pleasure and recreation," said he, "and we have had an enjoyable time." I heard of Gen. Grant's death with a feeling of deep sorrow, although I had been anticipating his demise ever since the last session of the senate, last spring. I always had

REGARD FOR GEN. GRANT as a man, and great admiration for his ability as a soldier and a statesman, a man of his time, always composed, firm and self-reliant in battle, in high places of responsibility, and even up to the moment of his death. He never made a speech, even if but one or two lines in length, that was not full of wisdom. He developed a new quality when he undertook the writing of his books. They are smooth and quite finished productions considering the difficulties under which he wrote. His fame will make their sale unprecedented.

DO YOU THINK so-called, has become firmly enough to be called an established fact?"

He set silent a moment, and then said, with some emphasis, "I do not; nothing can be called an established fact about which there is still argument, discussion and division of opinion." "It has been intimated," the reporter said, "in newspapers that there is not the cordiality and sameness of purpose between Hendricks and yourself, and you are naturally expected to characterize the first democratic administration in twenty-five years." "Our relations, when we meet, are decidedly cordial. I have not seen the president since I do meet him it will be on terms of the most cordial democratic fellowship."

"Have you paid any attention to the outcome of the investigation by the civil service commission of the postmaster?"

"Yes, I read their report, exonerating him, with great satisfaction. Mr. Jones is an able and honorable man, and is not much of a lawyer, but a good business man, and will do what is right in the office, performing his duties to the public in a satisfactory manner, while conforming strictly to the letter of the law. I am glad on his account that the committee returned a report about which fair-minded people will not cavil."

MR. Hendricks took his departure this afternoon for New York.

SOLDIERING IN FORMER DAYS. A Boston "Training Day"—The Awkward Squads and the Fun They Created.

Boston has always been noted for attention to military matters and the soldier-like qualities of its citizens. Ever since the establishment of the Ancient and Honorable Artillery company, in 1638, this martial spirit has prevailed, and from time to time new independent companies have been formed, although the Massachusetts militia, revived and thoroughly organized by Adj. Gen. Sumner, under instruction from Governor Levi Lincoln, in 1832, made a very perfect and efficient system. The general members of the various divisions, which occur every year, were events of great interest, especially to country people, who before the advent of railway communication were seldom treated to anything more novel and exciting than the annual town meeting or an occasional circus show.

May training day was also an event of considerable interest, and in the country towns was conscientiously observed, yet in Boston the fine uniforms and brilliant manœuvres of the independent companies were so curiously contrasted with the exultant and exciting that the annual town meeting or an occasional circus show.

On arriving at the rendezvous a motley assemblage would be seen. Well-dressed merchants, professional men and clerks were mingled in with shabby and sometimes very dirty individuals, yet it added to the picturesque of the scene, and some of the roughest fellows contributed to the fun of the occasion their full share. One would appear equipped with a rusty old gun on which was fastened an iron padlock, a skimmer for a priming wire and a well-worn clothes-brush for the regulation articles. A single musket would do duty, with dexterous handling, for two or three men, particularly as the inspecting officer would walk at these minor branches of discipline, knowing that he would be remembered after the adjournment at the nearest hotel. The calling of the roll was indescribably funny, the responses of "yaas," "hears," and "right," in every tone of voice, from rough bass to falsetto in nasal shout, was vastly amusing, while the chaffing of officers and constables was incessant.

The American Tooth Fast Disappearing. (Harper's Bazar.) The American tooth fast dentist tells us, is something fast disappearing. What is to take its place they leave to conjecture. Whether a toothless race is on its way, or whether a new animal is to be evolved from the present human creature on this continent, is perhaps an open question. What ever it is that may come to pass, the fancy records appal the prospect. Children of 12 years often have \$100 worth of gold in their mouths, others possessing as much quite as badly, but unable to afford the outlay; children of 15 often wear complete sets of false teeth; and other children unnumbered have teeth that are decayed before they penetrate the gum, and that have to be filled as soon as they are in sight, the crumbling material and thin enamel even then going but little to work upon.

At first it was thought that all this resulted from ignorance, from early-eating, from want of care and cleanliness. But it is understood now that in most cases the fault is inherent in the quality of the teeth, and the only remedy so far suggested is a diet calculated with special reference to the making of sound bone. This is supposed to be found in the coarse grains and food of similar character, and the most confirmed beef-eater alive yields to the superiority at this point of the little kernel of grain that feeds his beef itself.

KELLY NOT WANTED.

The Austrian Government Positively Declines to Receive Him as United States Minister to that Country.

His Case was Discussed at the Cabinet Meeting Yesterday, but the Secretary Was Uncommunicative.

President Cleveland Makes Another Big Batch of Appointments, Including Many Postmasters—Miscellaneous.

THE NATIONAL CAPITAL. DON'T WANT KELLY.

WASHINGTON, Aug. 6.—The department of state is in receipt of a cablegram from Mr. Lee, secretary of the American legation at Vienna, saying that the Austrian government has positively declined to receive Mr. Kelly as United States minister. The authorities of Austria give no reason for their action, and merely say that they will not receive the official. Mr. Kelly is now in Paris where he has been for some weeks. He also has been informed of the decision of the Austrian authorities. Mr. Lee has been designated to act as charge d'affaires for the present.

NOTHING TO SAY. There was a full cabinet meeting today, but the session was short. The Kelley matter, it is understood, was discussed. The secretary of state, when asked this afternoon about the matter, said there was nothing to say.

APPOINTMENTS. The president today made the following appointments:

To be collectors of internal revenue: Jno. Dawlin, for the Twenty-second district of Pennsylvania; Frank Schlandacker, for the Nineteenth district of Pennsylvania.

To be surveyors of customs: Jno. T. Gathright, for the port of Louisville, Ky.; Leon Trousdale, for the port of Nashville, Tenn.

To be timber agent of the land office, Joseph Colburn, of Denver, Col.

Adolf Erdman, of Missouri, and James Dugan, of Mississippi, were to day appointed special examiners of the pension office.

To be postmasters: Wm. S. Evans, at La Grange, Ga.; Joe Jno. C. Beall, suspended; Lee Beal, at Rich Hill, Mo.; vice G. P. Huckleby, suspended; Frederick A. Verburg, at North Vermont, Ind.; vice W. S. Prather, suspended; Richard Holmes, at Natchez, Miss.; vice Wm. McCarver, suspended; Michael Boland, at DeKalb, Ill.; vice Geo. W. Gordon, suspended; Wm. Gay, at Wilson, N. C.; vice Mrs. Virginia Sharp, suspended; J. E. Jones, at Portage, Wis.; vice V. E. Brewer, declined; Willis E. Isbell, at Westville, Conn.; vice Geo. L. Finney, resigned; Chauncey M. Freeman, at Broadwood, Mo.; vice A. A. Arbutnot, resigned; R. P. Hitchcock, at Tomah, Wis.; vice P. Beardsley, resigned.

FURNISHING THE MAILS. The Italian postmaster general has notified the postoffice department that owing to the prevalence of cholera in that part of the French territory, through which mails from the United States destined for Italy must pass, all mails of the ordinary kind will be fumigated.

MISCELLANEOUS. The secretary of the navy has ordered the chiefs of the various bureaus, and commander McCalla, to attend the funeral of Gen. Grant.

Gen. Leor Wallace, ex-minister to Turkey, closing his accounts with the department.

MARINE NEWS. CHICAGO. CLEVELAND, O., Aug. 5.—Arrived: Empire State, Duluth, merchandise; A. A. Turner, Bay City, lumber; Sandusky, Marquette, ore; Camden, Two Harbors, ore; Pathfinder, Escanaba, ore; Ironton, Two Harbors, ore; A. Walter, Saginaw, lumber.

Daily Mining Journal.

PUBLISHED BY THE MINING JOURNAL COMPANY. A. P. SWINERD, JAS. RUSSELL, A. HORNSTEIN.

THE DAILY MINING JOURNAL is published every week-day morning, at Marquette, Mich., and is the Associated Press dispatches, in addition to original special dispatches from all points in the upper peninsula. It circulates throughout the entire iron and copper districts of this peninsula, and advertisers will find it an unrivaled medium for placing their announcements before the people of this region.

SUBSCRIPTION RATES. One year, \$5.00. Six months, \$3.00. Three months, \$1.50. By carrier, per week, 20.

Advertising rates reasonable, and furnished upon application to parties desiring space. The paper will be for sale at the newsstands in all the towns and locations in the district, also on the different railway trains.

A. HORNSTEIN, Business Manager. JAMES RUSSELL, Managing Editor. CLAS N. HOWELL, Associate Editor.

MARQUETTE, MICH., AUG. 7, 1885.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

ASHLAND has a population of something less than 5,000, and nearly a hundred saloons engaged in the arduous task of keeping its people from suffering the pangs of unalloyed thirst. Nice town to live in, surely.

THE Republic still leads the list of shipping mines, with the sturdy old Lake Superior a close second and the Cleveland a good third. Those three are the only mines that have turned the first hundred thousand tons as yet this season.

DULUTH's democratic club sits in the shadow of blighting disappointment. Anticipating a visit from vice-president Hendricks, the club arranged to receive him with great ceremony, and entertain him elegantly during his stay in the ambitious young metropolis at the head of the lake, but he stopped short of Duluth on his trip, the necessity of being in New York to change his plans, compelling him to change his plans, and took to the rail at Bayfield on his return journey. This was quite unfortunate both for the vice-president and his party friends at Duluth, but the latter will probably survive if they are properly remembered in the distribution of official favors.

DURING the week ending with and including Wednesday, the 6th, there were shipped from the lake ports of this district 95,861 gross tons of iron ore, of which quantity 52,683 tons were shipped from Escanaba, 36,736 tons from Marquette, and 6,442 tons from St. Ignace. No shipments are being made from L'Anse at present. Up to and including the date given, the total shipments by lake amounted to 1,074,061 gross tons, this being 381,189 tons less than had been sent to market by lake on the corresponding date last season. There is every reason to expect that the falling off will increase, rather than diminish, from this time until the close of the shipping season.

Six of the larger mines of this district have produced 618,076 gross tons, of the 1,074,061 tons of ore shipped by lake this season. These, with their shipments, are as given in the following table: Republic, 123,295; Lake Superior, 121,322; Cleveland, 108,234; Champion, 87,147; Chaplain, 90,717; Vulcan, 77,782. Total, 618,076. The four first on the above table are Marquette mines, their combined product being 438,578 tons, the other two being Menominee mines, whose joint product is 177,500 tons. A comparison of the figures reveals that the older mines are doing very much the larger share of the business this year, and are steadily driving their weaker competitors to the wall.

WEDNESDAY morning the thriving town of Marinette was visited by a disastrous fire which entirely destroyed the new Stephenson block, and partially ruined the Stephenson bank building, in which were located the Stephenson bank and the Eagle printing establishment. In the new block were a number of stores and offices, also the post-office, and the loss was consequently very large, being estimated at fully \$80,000. The insurance carried will about half cover the losses, in most cases. Among the heavy sufferers by the fire were the Messrs. Noyes, proprietors of the Eagle, whose loss was \$12,000, the insurance being only about one-third that amount. They have our sincerest sympathy in their misfortune, which must be doubly provoking, coming, as it does, just after they had made valuable additions to their outfit and dressed their paper elegantly. For the present the Eagle will be issued from the Herald office at Menominee, but will soon be again established in quarters of its own, machinery and type having already been ordered.

In the Wall Street Indicator of the 4th is printed a number of interviews with business men of high standing in New York regarding the trade prospects, also quotations from leading papers throughout the country on the same important topic, all of which concur in predicting a gradual, healthy improvement from this time forward. The popular belief appears to be that the lowest level of the industrial depression has been reached, and that the upward movement has already set in. Capital is still timid, and may not be readily coaxed into new enterprises, but the country is full of money, and when the feeling of confidence grows strong enough to alay the fears of those who control the wealth, means will be furnished freely and in abundance for all legitimate business ventures. A good crop and fair prices this year would quickly lift the country out of the mire of depression in which it has been

stalled since 1882. As there is a fair assurance of an excellent harvest, and a strong likelihood of better prices for our surplus than was obtained last year, the hopeful feeling noted is not wholly without warrant in the existing conditions affecting our industries and commerce.

ORE SHIPMENTS.

Below is given a tabulated statement showing the amount of iron ore and pig iron shipped from the lake ports of this district for the season, up to and including Wednesday, Aug. 6th:

Table with columns for District, Name of Mine, and Tons. Includes Marquette-Marquette District, Escanaba-Menominee District, and St. Ignace-Marquette District.

ISHPEMING.

The farmers complain that there is a lack of good haying weather.

The advertisement of F. Austin & Co. on this page, merits reading by all good housekeepers and heads of families who preach or practice economy.

No arrangements have yet been made for a fitting celebration of the 5th of August, and it looks as though the matter would be let go by default.

Our base ball club doesn't seem to be playing the national game very extensively of late. Brace up, boys, and send a challenge to some club or other—to the Negaunee, for instance.

The McGibney family will be greeted here by a very large audience, and from the reputation of the family in the east, where they have played during the larger part of the past twelve years, the entertainment will be worthy of the attendance.

Taleen, Johnson & Co.'s store is all torn up, and its business impeded by the putting in of a new floor. The work will soon be done, when, with a new floor, fresh paint and kalsomine and an enlarged store, the firm will have a business place that they needn't blush to own.

Nearly one hundred persons have already subscribed for season tickets for the course of entertainments, comprising Camilla Urs, Helen Potter and the Vesuvius concert company, to take place during the next four weeks, at Austin's hall. The matter has not been pushed much, either. Those who wish to secure good seats should subscribe early.

F. P. Tilson, manager and lessee of Austin's hall, will purchase a fine piano within a few weeks, and place it in the hall for the use of dancing parties. The floor of the hall is the finest in the city for dancing purposes, and Mr. Tilson will endeavor to bring the appointments of the hall generally up to a standard that will leave no room for criticism.

A party of pleasure seekers, including W. F. Swift, B. M. Colwell, C. S. Bundy, and others, left the city yesterday for a cruise down the Escanaba river. They proceeded to the headwaters, and are now doubtless floating leisurely down the stream in a couple of miniature U. S. war boats. The boats are a peculiar make, embracing all the beauty of a scow, grace of outline of a ferry boat, and security of a schooner.

The Nelson House has a photograph of the Nelson House taken this week, which shows that magnificent hostelry at its best advantage. It is the work of the manager of Child's art gallery here, and is, of course, artistically perfect. The Nelson House is the largest, and one of the best of the many large and fine hotels of the upper peninsula, and summer tourists who come here from below can find all the conveniences of the best metropolitan hostelry, including steam heating, electric bells, gas, a fine table, the best of bath, bar and sample rooms, and, in short, everything that they could desire, and much more than they might expect.

Mr. W. T. Cole, Boiler Maker. As will be seen by the notice in another column, the partnership heretofore existing between Cole Bros., the boiler makers, has been dissolved. Mr. W. T. Cole will continue the business alone.

As will be seen by the notice in another column, the partnership heretofore existing between Cole Bros., the boiler makers, has been dissolved. Mr. W. T. Cole will continue the business alone. The firm has always enjoyed the reputation of doing first-class work at reasonable prices, and with dispatch. Many of their boilers are now doing excellent service in this and adjoining counties, and repairing jobs are always well done. With the assurance that they can get good work at home and at low prices, there is no reason why mining companies, or others, should be compelled to send east or to Milwaukee or Chicago for work in this line, and the reporter is pleased to note that very many of them don't do it.

A lady has been in the city several days, visiting the saloon-keepers and others, giving them a temperance tract and urging them to repent the folly of their ways before too late. A few suspicious people think that she is an advance guard of the Salvation Army, but that may be set down as an impossibility, for she is too lady-like and well-behaved a person to be connected with any such hoodlum crowd as the salvation warriors have proved themselves to be on a hundred fields, and in the vulgar jungles of numbers of towns of the east. The upper peninsula was threatened with both the salvation army and the boy preacher, the venerable Thomas Harrison. Fortunately both the indignities have been spared us. The people of northern Michigan are not a goddess lot, but they do object to the burlesques upon religion and decency which are committed by the Salvation Army.

PERSONAL.

James Willett, who has been in the employ of N. Losselyon for some time, has decided to go to Hessemer, where he has secured a lucrative position.

NEGAUNEE.

Mr. Bartholomew Dillon and Miss Mary King were married Thursday. Not a drunk or disorderly character, or other offender, has been taken in by the officers this week.

The display of fruits in front of Mueller & Koesler's Red Front store is a tempting one. The firm undoubtedly keeps the finest line of fruits to be found in the county.

Unless all the signs were wrong, a recently married couple were treated to a charivari last night. At least the artillery, tin horns, and other things were in readiness for it yesterday afternoon.

A package was sent to the Little Laco campers yesterday by several practical jokers of the city. It was addressed to J. C. Dougherty, and the only regret of the senders was that they couldn't be there to see him open it.

Some excursionists from the city who are camping down on the line of the C. & N. W., sent back two one-gallon jugs to be filled with milk yesterday. They

were sent to a drug store to be filled, though, and it is evident that the campers have laid themselves liable to grave suspicion as to whether the jugs were filled with a lacteal or spirituous beverage.

Samuel Beifern yesterday broke ground for his new house on Main street, immediately adjoining the property of J. M. Gannon. Lots in that part of the city are desirable property, and are in good demand.

The practice of bathing in the western end of Toal Lake is one which has been indulged in by the small boys since the water works were first opened, and it doesn't seem to harm the quality of the water much, for Toal Lake is of goodly size. Putrid fish, killed by the lawless use of dynamite, will in time impair the purity of the water, and a stop should be put to the practice of killing fish by the use of explosives.

No steps have been taken to properly observe the day of Gen. Grant's funeral. Negaunee patriotism is great in the abstract, but when it comes to a case of this kind not a house is draped in mourning, and the city flag is not even placed at half-mast, because there is no flagstaff. It is no credit to Negaunee that this state of affairs should prevail here, and that both Marquette and Ishpeming should distance it by paying suitable respect to the memory of the nation's dead hero.

The Lutheran Church. Capt. Henry Merry and Dr. L. D. Cyr have kindly donated a lot on Cyr street, next to Snow, to the members of the Scandinavian Lutheran church society of this place. The lot is a fine, large one, very desirably located, and is in all respects a desirable site for the proposed new church. The kindness of the donors is fully appreciated by the church society.

About \$1,200 in cash has already been raised for the church, and plans and specifications will be drawn up, and bids for construction of the edifice invited during the early part of next week. The efforts of the members to raise a sufficient fund to begin building have been nobly aided by the people of the city and the church will surely be erected this season.

Great Agricultural Possibilities. That much can be done in the agricultural way on the sandy soil surrounding Negaunee has been abundantly shown in more ways than one. The fine vegetable gardens and potato patches of industrious citizens show this to be true. Hay is also a considerable export a staple article of farm produce. In this connection the surprising results achieved by two grangers last Monday and Tuesday should be duly set forth.

The two men labored two days each, and so successfully that four eighths of beer and two quarters of snake-poison from the stone jug, besides an immense amount of provender, were disposed of. All the neighbors looked on, and it is thought some of them helped get away with the refreshments. At the end of that time they had on hand 1,183 pounds of the best timothy hay. Again we repeat, Negaunee has great agricultural possibilities.

Base Ball. The writer is in receipt of a communication from J. H. Delaney, manager of the Hancock base ball club, in which he says that the game at Marquette on August 22nd will be played, and that the Hancock will be glad to meet the Negaunee in a friendly game there.

He also says that he will try to arrange for a series of three games between the clubs, if he can do so satisfactorily and without any unseemly wrangling; also that he would like to have the Negaunee club go to Hancock next Sunday, and play the first of the three games, and the second on the 22nd at Marquette.

Our base ball club probably cannot get away for a game next Sunday, but we commend the idea of the series of three games to the earnest consideration of the home club. The manager of the Hancock has shown every inclination to match the two clubs fairly, and to settle the question of superiority on the diamond field. His efforts should be fairly and manfully met by the home nine. The three games should be arranged for, dates set, umpires chosen, and then all three played, regardless of which side heats. This will strike every fair-minded person as a square and honest proposition.

Ishpeming Business Notices.

NOTICE OF DISSOLUTION. Notice is hereby given that the partnership heretofore existing between Cole Bros., boiler makers, is this day dissolved by mutual consent. Henry H. Cole retires. The business will be continued by W. T. Cole, who will collect all bills, and pay all claims.

For SALE.—House and lot on Fourth street. Will be sold cheap. Inquire of J. GLEASON, Cleveland Mine Office.

ROTHSCHILD & BENDING WHOLESALE DEALERS IN CHOICE OLD WHISKIES WINES and CIGARS MARQUETTE, MICH.

Special attention to PINE LANDS, any where in the Upper Peninsula.

A BLACK VIEW

Of Democratic Prospects in Ohio in the Pending State Election.

But as it Comes from the Republican gubernatorial Candidate's Law Partner, the Reader May Take it With a Grain of Allowance.

Other Matters of General Interest Briefly Discussed by a Distinguished Visitor to the Metropolis of the Upper Peninsula.

The presence in Marquette of L. C. Black, of Cincinnati, law partner of Judge Foraker, the republican candidate for governor of the Buckeye state, suggested to a MINING JOURNAL reporter that a great deal of interesting information regarding things political in Ohio could be obtained from one so closely associated with the chosen leader of the republican forces in the "pivotal state."

With this thought in mind, the reporter called upon Mr. Black, at the office of Mr. A. Mathews, whose guest he will be during his short stay in the city, and found him not only willing to submit to an interview, but a most affable gentleman, a ready talker, and full of information regarding not only political but also business matters in the great state from which he hails.

"The campaign proper," said Mr. Black, in reply to a question, "has not opened, one reason being that the democrats have not as yet put their gubernatorial candidate in the field. Mr. Foraker, having been chosen as the republican leader, has as a matter of course, placed himself at the service of his party, and is already being called upon to address public meetings of one kind and another."

"When will the democrats likely make their nominations for the state officers?" "Well, they will have to be making them before long now, as our election occurs in October. The democratic state central committee is to meet, I think, the 21st of this month, for the purpose of setting the date for and calling the state convention. The democrats, however, seem to be moving rather slowly this year. I don't think they regard the outlook for them as at all hopeful, which may have something to do with their lack of push and enthusiasm. In but a very few localities have they even made their county nominations."

"Who will they probably nominate for governor?" "Oh, there is no reason now to doubt that Mr. Hoody will be renominated. He really did not want to run again this fall, and at one time it was given out that he would not be a candidate. No other prominent democrat, however, cared to invite political oblivion by accepting the nomination when republicans feel confident of success, and conservative democrats concede that their defeat is a foregone conclusion, notwithstanding this is an "off year." This being the case, Mr. Hoody, since making a visit to Washington, and having a talk with president Cleveland, has informed the faithful that he will lead the democratic forces. It is claimed by those who ought to know, that the president convinced Mr. Hoody that his candidacy at this time not only was a necessity, but it was a duty he owed his party. This exhortation, coupled with the assurance that he will be taken care of if he is defeated, which he evidently considered certain, in all probability is what induced the present governor to consent to a re-nomination."

"On what do the republicans base their confident expectations of victory?" "Well, nearly everything seems to be in favor of our party this fall. In fact, but one contingency that we consider there is anything depending on at all, and that is the prohibition vote. Of course, the stronger the more we learn it does us and the more it helps the democracy. But what may be considered the conservative element of the prohibition party has become thoroughly disgusted with the way things have been going there lately, so that there is not the slightest probability that the prohibitionists will poll any more votes than they did last year, and if they do not we will carry the state, easily, by from fifteen to twenty thousand majority."

"Name some of the weak points of the democracy, as affecting the strength of the party in this campaign?" "There are two things in particular, either one of which alone would weaken the democrats greatly at this time. One is the failure of Scott liquor law, for which the democratic party is responsible. The effect of the law, the justice of which no one questions, had it remained in force, would have been to raise some two million dollars in taxes from a class of business which now pays little or no taxes and which could amply afford to pay what the law imposed. A majority of the supreme court of the state being democratic, however, the law was declared by them to be unconstitutional, notwithstanding the fact that there is no tenable ground for the decision. This decision the democratic party is properly held responsible for, and a very large majority of the taxpayers of the state are offended at it, the number directly benefited by the overthrow of the law being very small compared with the total tax-paying population of the state. The law was a very popular one with the people."

"Another complaint is one of a good deal the same character, and consists in the reckless way in which the democratic legislature last winter passed laws which increased local taxation throughout the state in a wonderful manner. Then there is the scandal connected with the election of senator Payne. It is generally conceded that money was used freely to secure his election. The democrats themselves don't deny the imputation very emphatically."

"How about the senatorial outlook there—senator Sherman's success?" "That is really the point for which the democrats will make their fight this fall. Having virtually conceded to the republicans the governor, they will bend all their energies towards the election of a democratic legislature, with a view of securing the United States senatorship. But they are badly divided even on that question. The fight which laid the talented Pendleton on the shelf, to make way for the Standard Oil senator, has left a bitterness

of feeling that will be felt for a long time to come. As for the republicans, they are all right on the senatorial question, for the simple reason that senator Sherman says that, if the people see fit to elect a republican legislature, he will consent to become his own successor. Were anything to occur which would take Mr. Sherman out of the field, ex-Gov. Foster will come in as a close second. Foster, of course, would like to go to the senate, but as long as Sherman remains there that will work to his disadvantage, for the reason that he is on the same part of the state."

"According to that, Gov. Foster must be quite a prominent factor in Ohio politics again?" "Yes, sir; he has recovered to a certain extent from the effect of his advocacy of rather his alleged advocacy of the Ford liquor law, which hurt him greatly among the German voters. He is taking an active part in politics this year, and has the respect and confidence of his party associates. His days of usefulness as a party leader are not over yet, in my opinion. In fact, were Sherman to withdraw from politics now, Foster would fall heir to the leadership of the republican party in Ohio. Sherman's consent to be his own successor, however, is very gratifying to a large majority of the republicans, and I may remain in political life many years."

"The democrats, on the contrary, you say, are at loggerheads?" "Yes, indeed. There are what are called the 'kids,' or the 'cool oil gang,' headed by John R. McLean, and his Cincinnati Enquirer. They abused and defeated 'Gentleman George' Pendleton, and secured the election of Payne to succeed him. The old-time democrats, like Thurman, Pendleton, Geo. L. Converse, and such men, are known as the moss-backs, and there is little doubt but they have greater voting strength than the 'kids.' This was illustrated in a small way, by the last Cincinnati municipal election, at which Amor Smith, the republican candidate for mayor, was elected by more than four thousand majority over the democratic candidate put up by the 'kids.' Had the moss-backs put up a man, the republicans would have had no such 'walk-away' as that. And we shall hope for nothing better than that the 'kids' may get control of the next democratic state convention, and make the nominations. In that case, the republicans will carry things with a rush. The 'kids' are active and hard workers, but they wouldn't be able to get the 'old timers' out."

"What democrats are most prominently mentioned in connection with the U. S. senatorship?" "No candidates, as a matter of fact, are announced. The mossbacks are holding up Thurman, but he will not be a candidate. From my personal acquaintance with him I know that he is getting old, and suffers considerably from rheumatism, so that public duties have become very burdensome and distasteful to him. McLean, of course, is known to have senatorial aspirations, but nothing short of a miracle would enable him to succeed now. If the legislature should be democratic, and the mossbacks have control, Geo. H. Pendleton undoubtedly would become Sherman's successor. In case of a close vote, Geo. L. Converse, or Judge S. W. Geddes, would be very likely to come to the front, and one of them be elected."

"Judge Foraker is rather a young man, isn't he?" "For a man of his prominence, yes. Let's see—he is six months older than I am, which would make him thirty-nine last month."

"What brought him into prominence?" "In the state he became known to fame as judge of the superior court of Cincinnati. His national reputation dates from his candidacy for the governorship two years ago, and his prominence as the leader of the Sherman forces, at Chicago, during the last national convention no doubt made his fine abilities better known to the nation."

"Where was he educated?" "At Cornell university. He was a member of the first class, which numbered but three, to graduate from that institution. One of the other two was Judge M. L. Bookwalter, of the common pleas court of Cincinnati. The other one I do not just now recall, but they have turned out to be a distinguished class. Mr. Foraker is a farmer's son, a man of fine appearance, magnetic, and as the saying is, self-made. His opponent, two years ago, and his probable rival this campaign, Gov. Hoody, is about fifty-two, and possessed of large wealth. Mr. Foraker is a man of only moderate means, which he has made out of his practice. He is a growing public man, and already has displayed many of the qualities necessary to a successful party leader. He and Gov. Hoody live in the same ward in Cincinnati, and he no doubt will soon succeed Mr. Hoody as governor of Ohio."

"Dropping politics, Mr. Black, how is the outlook for the iron industries in your state?" "I am glad to say that it has improved greatly in the past six weeks. Several of the largest mills have started up again at Cincinnati, and the general feeling in iron circles is a great deal better than it was. To speak in figures, I should say that there has been an improvement of at least 15 per cent in the iron business. If the next congress will just handle the silver question properly—in a business-like manner—I think that nothing will prevent the country from enjoying a period of flush times. It only requires now the assurance that gold will not be allowed to bring a premium, and thereby become a marketable commodity, instead of the chief medium of exchange, to insure a great revival in all branches of business throughout the country."

"The Mesnard Horse Hop." The hop given under the management of Messrs. Bennett, Packard and Blake, at the Mesnard House, last evening, was pronounced by all who participated as one of the most pleasing events of the season. The hop was given in honor of the guests of the house, and to many outside friends here in the city. The evening was cool and all that could be asked for, the spacious dining room brilliantly lighted, the floor waxed to perfection, and in the neighborhood of thirty couples thoroughly enjoyed themselves "tripping the light fantastic." Professor Bailey's deservedly popular orchestra furnished the music, eighteen numbers being rendered. The very elaborate printed program used

at the hop was mainly the original idea of Mr. Packard, who had said idea put into execution by a well known artist of this city. Dancing was indulged in until shortly after 1 o'clock.

GRANT MEMORIAL CELEBRATION. List of Societies Participating—Committees Appointed—The Line of March.

At the meeting last night of the general committee on the Grant memorial celebration, to be held at the city park Saturday, August 8th, the committee on invitation reported that the following societies had signified their intention of participating in the march and ceremonies: Marquette Lodge No. 108, L. O. O. F., North Star Camp No. 14, L. O. O. F., Teutonia Lodge No. 236, L. O. O. F., Societe Jeanne Baptiste, German Aid Society, Morse Home Company, Marquette Chasseurs, Albert Jackson Post, G. A. R.

The Masonic societies will turn out in a body as citizens, not in regalia. From the A. O. U. W., the A. O. H., and the city council no answer has been received. The Brotherhood of Locomotive Engineers sent word that they could not attend. By an oversight the Scandinavian Society, of this city, did not receive an invitation, but will be invited on to-day.

The committee on speaker, Messrs. J. E. Ball, Frank Moore and C. A. Eggers, reported that Mr. F. O. Clarke had consented to deliver the oration. The committee was further instructed to request two clergymen to deliver the opening prayer and the benediction. The committee on music, Mr. W. H. Volk, reported that the services of the Chequamegon band had been secured for the occasion.

The following new committees were appointed: On Finance—Dr. Northrup, C. A. Eggers and A. W. Bernier. On Speakers—Stand-R. R. French, J. E. Reau and Henry Siegel. On Ceremonies—C. D. Blanchard, E. A. Wetmore, S. M. Billings, A. W. Bernier and Eugene Krige.

On Carriages—W. H. Volk. On Exercises—L. S. Rasmussen, Frank Tuck, A. W. Bernier, C. A. Eggers and J. E. Ball. The committee on exercises reported the following program: 1.—Music. 2.—Prayer. 3.—Music. 4.—Oration. 5.—Music. 6.—Benediction.

Mr. G. M. Smith, the chief marshal, announced the appointment of the following assistant marshals: E. A. Merritt, H. E. Warner, J. E. Reau, J. F. Dunnebecher. All societies will assemble promptly at 1:30 p. m. Saturday, as the procession will start at 2 p. m. sharp. Albert Jackson Post will meet at their hall at 1 p. m.

The line will start on Superior, between Front and Third streets, right westing on Third. Following is the line of march: Superior to Fourth, over Fourth to Rock, down Rock to Front, up Front to Ridge, down Ridge to Cedar, over Cedar to Arch, up Arch to Front, down Front to Ridge, up Ridge to Third, down Third to Washington, up Washington to the park.

The general committee appeals, through the MINING JOURNAL, to the citizens of Marquette to appropriately drap their houses, especially on the line of march, on the day that the old commander is borne to his last resting place. Citizens, in carriages or on foot, are respectfully requested to join the procession, and to form on the street designated as the place of assembly.

The Glibin Self-Acting Fire Extinguisher. Messrs. W. K. Stafford & Co. have been appointed agents for the Glibin self-acting fire extinguisher. It is pronounced to be by far the best fire extinguisher of the kind that is manufactured, the hand grenade being much inferior.

A public test of this fire extinguisher was made on Front street a short time ago, and the fire was entirely put out in ten seconds. It consists of a glass bottle, filled with liquid having the power of taking up two thousand times its volume of the gas employed for extinguishing the fire. The gas used is the most perfect non-supporter of combustion known to chemistry. Within the glass vessel is a tube, with an explosive agent, connecting with all that is necessary is to toss the extinguisher into the fire, when the vessel is exploded by means of the fuse and explosive agent, and the contents scattered over the fire. The gas thus set at liberty acts as a blanket to smother the fire, and also rapidly takes oxygen from the air to itself, depriving the fire of oxygen, without which fire cannot exist.

The Glibin fire extinguisher is having an immense sale, especially in Wisconsin, where it is manufactured. Every business concern and dwelling should have some on hand. Messrs. W. K. Stafford & Co. have the agency for the entire upper peninsula, north of Escanaba, and will soon have agents at all points. Invest at once.

CONDENSED CITY NEWS ITEMS. The McGibeny family this evening. The First National bank will be closed tomorrow afternoon. Reserved seats for to-night's entertainment for sale at Conkling's. The steambarge Rome, yesterday in port, is one of the largest on the lakes. The tug Adams was expected in from Grand Marais last night with the barge Mentor. The general health of the people of Marquette and vicinity seems to be most excellent. Society members can secure mourning badges at Vanmier's news depot by leaving orders to-day. Quite a party of campers were brought in yesterday forenoon from up the lake shore by the tug Douglas. "John R.," one of the trotting horses which George Hossick was charged with stealing, was shipped on the City of Duluth, yesterday, to Chicago. J. B. Housse evidently intends that Marquette shall not suffer from a broom famine soon, having received a shipment of a couple of wagon loads yesterday. It is announced that there will be no party at the Clifton house to-morrow evening, out of deference to the McGibeny family, who appear at the Casino rink to-morrow night. A large amount of handsome valanzined cornice is lying at the merchandise pier, addressed to H. Gregory, presumably for the new buildings at the corner of Front and Spring streets.

The excursion over the D. M. & M. and H. & O. roads, Sunday, to Au Train promises to be one of the most pleasant of any of the many popular trips with which the people of this section are being favored this season.

Black and white bunting is rapidly being festooned from the various business houses in this city, as a last tribute to the nation's greatest hero. We trust that every public building in town will be so draped by Saturday morning.

A camping party, composed of the families of J. M. Longyear, F. W. Read and S. W. Bronson, now have tents pitched at Little Presque Isle. The weather permitting, the party intends to spend several weeks at this beautiful spot.

Yesterday the merchants and business men more generally draped their establishments, so that Marquette now begins to wear the external emblems of woe, as at heart her citizens mourn with all civilized people the death of the old commander, who to-morrow is to be laid away in his final resting place at Riverside park, New York city.

Mr. O. F. Conrad, of Dexter, this state, now stopping at the Clifton, had his leg broken between the knee and hip yesterday afternoon, while skating at the roller rink. Mr. Conrad is nearly sixty years of age, and the misfortune is consequently unusually severe. Doctors Tabb and McQuillen set the broken bone. Mr. Conrad's family was telegraphed for last evening.

The McGibeny family having leased the rink for to-night, it will, of necessity, be closed to skaters. It will be open as usual this afternoon. To-morrow afternoon the rink will be closed on account of the Grant memorial services. It will be open to the public at the usual hour in the evening.

The McGibeny family, which is to appear at the Casino rink to-night, and in Charlevoix one evening last week, and the Journal at that place this speaks of the performance given: This famous musical company gave one of their unrivaled entertainments at the opera house Tuesday evening. Every chair was occupied, on account of the Grant memorial putting it mild. Every child is a natural musician, and the performance of every member of the company will bear the severest criticism.

A violin recital, by Camilla Urso, the first in the series of entertainments to be given under the management of the Marquette Musical association, will take place Friday evening, the 14th inst., at the rink. A diagram of the rink will be on view at King's Jewelry store Saturday (to-morrow) morning, at 9 o'clock, and subscribers to the course may then and there secure their choice of seats. Those who cannot attend on Friday evening offered will find a subscription paper at Mr. Conkling's store which they may sign at any time.

Deer are said to be plentiful on the peninsula this year, and many a hopeful hunter is leaving his order for shells in anticipation of the season that opens up on the 15th of the present month. Parties may be shot from the first day of September until the last day of December. It is unlawful to transport, at any time, any deer, or any part of the carcass of deer, beyond the limits of this state. Deer can only be shipped from the upper to lower peninsula from the first of October until the 15th of November. Sportsmen should be on their guard against transgression.

Marquette has many desirable qualities that recommend her to the tourist. Hotels are well kept and willing to treat a traveler as a human being, at a reasonable price. Hay fever is not common here, and our city is free from an old sufferer may rest assured of immunity from it while here. Our summer climate is not to be excelled, and trout fishing within easy reach is abundant. Add to that row and sail boats of every possible size and shape, and one of the handsomest and most complete in the west. The city is clean, and you have a place to that would do your heart good to come to.

A very pleasant picnic party was arranged by Mrs. Pearce, of Negaunee, and Mrs. Volk and Mrs. Mages, of this place, Wednesday, for the Chequamegon, dinner being served at the old Iron Mountain location, after taking the "Iron Cliff" drive. The day was very pleasant and every thing passed off in the most charming manner. The Negaunee ladies in the party were Mrs. Pearce, Mrs. Frank Pearce, Miss Annie Pearce and Miss Lelia Jones. The ladies from Marquette were Mrs. Volk, Mrs. Brown, Mrs. Mages, Miss Adie Mages, Miss Amy Volk, Miss Hattie Wood and Miss Fannie Cain.

Manager Hornby, of the M. H. & O. R. R., has been furnishing the people of the iron and copper countries with a great luxury this season, Sunday last a train from Lake Mills (below Negaunee) brought to Houghton about 600 people. We understand that there will be one excursion from Marquette to Houghton and one from Houghton to Marquette before the season closes.—Hancock Herald.

You can rest assured there will be, it is accommodating and energetic manager is reasonably certain that any considerable number of people at those points or along his line want to ride. Judging from the excursions heretofore given, others in the future will be well patronized.

In these days of frequent railroad excursions and picnicking parties, the following suggestions, made by one who claims to be an authority on the subject, may be serviceable to some of the MINING JOURNAL's readers. "In putting up sandwiches for a traveling lunch basket it is a good plan to wrap each sandwich separately in paraffine or wax paper, the kind that tourists use. It prevents the butter from coming through and keeps the bread and meat remarkably fresh, being airtight. Next best to these is the Japanese paper napkins for wrapping up eatables. These are in dainty tissue paper, and add very much to the appearance and comfort of a lunch."

"Dog days" is an expression which signifies a period of about five weeks duration, and the advent of which is always dreaded by the majority of those living in the hotter climates. The inhabitants of Marquette and the entire Lake Superior region, however, have no occasion to anticipate with misgivings this period, which begins on the 19th of July and ends the 21st of August. However, dog days—being with its largely augmented mortality list—are the loveliest of the year, only now and then the heat of the sun during the midday hours becoming in the least oppressive. The term dog days is derived from the fact that in the month of August the dog star rises at the same time that the king of day does. To this conjunction antiquity and the prophecies of modern astrology ascribed the most malignant influences. If there is no foundation in fact for the belief, it is a superstition of long standing.

The MINING JOURNAL reporter thought it was bad enough when the report came that the Marquette base ball club was defeated by the Hancock club, last Sunday, by a score of eighteen to five, but now comes the Herald of that place and cruelly remarks that "where seems no plausible reason why the Marquettes were not denied four of the five runs they wanted, unless it is that Shea, the pitcher, didn't want to be too hard on them, as he allowed four men in succession to take bases on playing balls. This was the only remarkable play

during the game, which was too one-sided to be of much interest to the three hundred persons in attendance." "Boys," this is a hard racket. It's what you got, though, for attempting to play ball on Sunday. With the Hancock "fellers" it's different, for it seems evident that they were not playing ball. They simply had a nice, quiet Sunday picnic.

Mr. J. H. Sweet yesterday shipped to Escanaba the entire outfit, consisting of tables, counters and other fixtures, for the equipment of Godfrey's elegant new drug store at that place. The work is substantially and handsomely done. When store fixtures of such quality and finish can be turned out by a Marquette concern, there is no reason for those getting anything in that line sending elsewhere for what they want.

PERSONAL MENTION. Judge Wesley Hyde, of the United States district court, Grand Rapids, is at the Mesnard.

Mr. W. C. Busch has been confined to his room at the Mesnard Hotel with bilious fever for a couple of days past.

Charming Au Train. A large party of summer tourists now at Au Train, apparently, have been captivated with Au Train and its surroundings. The following dispatch, received last evening, is what inspires the above remark: Au TRAIN, Aug. 6, 1885. Unlimited enjoyment is being indulged in here by a large array of campers and sportsmen, representing fully a dozen states of the union. In the early part of the week a number of eastern gentlemen, with their families, arrived. They speak nothing but words of delight and praise of this beautiful spot. They say the quantity and quality of pleasure to be had here more than sustains the reputation it has abroad. The hotel here is well appointed, and capable of taking care of a large number of people. Some who have visited here have already taken steps toward making Au Train their permanent abode during the heated term of summer.

They have written to their friends and expect large accessions during the coming week. With one accord they pronounce it to be the most beautiful pleasure resort they have ever visited in all their ramblings.

A REMARKABLE ESCAPE. Mrs. Mary A. Duley, of Tunkhannock, Pa., was afflicted for six years with asthma and bronchitis, during which time the best physicians could give no relief. Her life was despaired of, until she was cured by a bottle of Dr. King's New Discovery, when immediate relief was felt, and by continuing its use for a short time she was completely cured, gaining in flesh 50 lbs. in a few months. Free trial bottles of this certain cure of all throat and lung diseases at H. H. Stafford & Son's drug store. Large bottles \$1.

Ask your grocer for Marble Soap. THESE ARE SOLID FACTS. The best blood purifier and system regulator ever placed within the reach of suffering humanity, truly is Electric Bitter, the purity of the liver, biliousness, jaundice, constipation, weak kidneys, or any disease of the urinary organs, or whoever require an aperient, tonic or mild stimulant, will always find Electric Bitter the best and only certain cure known. They act surely and quickly. Every bottle guaranteed to give entire satisfaction or money refunded. Sold at 50 cents a bottle by H. H. Stafford & Son.

ROCKLEN'S ARNICA SALVE. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by H. H. Stafford & Son. Marble Soap—None better.

BUSINESS LOCALS. If the truth is to be known, L. Neuberger has by far a more complete line of clothing and gents' furnishing goods than all other houses in town combined. To select anything you have got to have something to select from besides conversation. Hard Coal, per ton, \$6.50. Soft Coal, per ton, \$5.50. Hard Wood, per cord, 4.50. Soft Wood, per cord, 3.00. P. B. SPEAR, 7-61.

When you look for gents' wearing apparel, and to the interest of your pocket book, go to Neuberger's. Use Marble Soap. FURNITURE SALE. A Turkish parlor suit, covered in plush, must be sold at once. Cost a few months ago \$135.00; will sell for \$70 cash. Party going to leave the city. For further particulars call on HAGGE & JOHNSON.

If a gentleman should desire a respectable hat, or a pair of clean cuffs, or a collar, or a fine shoe, or a respectable suit of garments of any kind—business or dress—take a hint and go to L. Neuberger's. Marble Soap—Purest, Best. Teachers' Institute. By order of the Supt. of Public Instruction the Teachers' Institute for Marquette county will be held at Negaunee, commencing Aug. 24th. Chas. Kelsey, Conductor; John Northmore, Instructor. Other well-known educators will be invited to take part. Lectures and addresses will be a prominent feature in the evenings. Teachers, please rally. JOHN NORTHMORE, Secretary. 8-7-2.
