The New Special Delivery System by Messenger, Which Takes Effect October 1st, Will Prove Beneficial.

Lt. Greely Will Probably be Allowed to Finish His Report on the Arctic Expeditions.—Miscellany.

THE NATIONAL CAPITAL.

WASHINGTON, Aug. 12.—A hearing lasting several hours was accorded by secretary Lamar to-day to counsel in what are known as the Ontonagon land cases in Michigan.

The parties in interest are the original pre-emptors of the one hand, and on the other certain cash purchasers, who hold that the land was not open to settlement under the pre-emption law, and that the entries were illegal.

SPECIAL DELIVERY STAMPS.

WASHINGTON, Aug. 12.—A circular relating to the immediate delivery system, which is to be put in operation on October 1st, has been prepared and will be sent to postmasters at once.

It has accordingly been decided to introduce the special delivery system on the 1st of October, 1885, at all postoffices at which it is permitted by law.

The design by J. P. Rinn, of Boston, was the only one to be considered. This design was accepted, and a committee appointed to prepare the regulations.

Under no circumstances are they to be used in the payment of postage of any description, or of the registry fee, nor can any other stamps be employed to secure special delivery, except the special delivery stamps.

HELP FOR POSTAGE.

Even though bearing a special delivery stamp and the registry fee required by the law and the regulations, the special delivery stamps must be affixed to each letter bearing a special delivery stamp.

From the post office, at all other special delivery offices. Postmasters at fourth-class offices are not entitled to commission, on special delivery stamps in any case.

No effort will be spared to expedite the mailing of letters bearing special delivery stamps addressed to special delivery offices, and postmasters are urged to use all available means for furnishing the public with information in regard to the special delivery system.

RIOTING AND CYCLONES. COSTA RICHA TO DISPERSE THE BAY CITY RIOTERS, but It Proved an Effective Measure.

A Terrible Cyclone in Northern New York Causes Loss of Life and Considerable Property.

AT BAY CITY, ANOTHER RIOT. He responded with a number of deputies, and reached the scene as the strikers were leaving the grounds.

ISHPEMING.

Vacation is almost over, only about two weeks more of play remaining for the kids and lassies.

The McGibeny family will appear at the opera house to-night. Don't fail to be there to hear them.

"Honest John Mills" has finished the work of moving the M. H. & O. depot, and has done a very creditable job.

Mr. Tillson is still selling seats daily for the star course of entertainments to take place here this month and next.

One Joseph Johnson is circulating a subscription list setting forth his infirmities, and soliciting funds to take him home to his native land.

Geo. Vover, proprietor of the Opera House rink, which flourished here last winter, has sold his old skates to the Champion roller rink. Good bargain for George.

A number of ladies from Cleveland avenue enjoyed the beauties of nature yesterday in the vicinity of Saginaw, and the Goodrich mine. They picked berries, and had a picnic there.

It is commonly thought that clothes line thieves are the worst of any known variety of crooks, but when they return the stolen articles, as they did here recently, the offense is not so bad. But don't let it be repeated.

The advertisement of F. M. Sackrider, offering for sale 250 shares of Bopos gold stock, appears on another page. Mr. Sackrider offers a very favorable opportunity for investment in what will soon be a richly paying property.

The Irish nationalists expect to have a very large crowd at Marquette on August 22nd, which is the date of the demonstration and picnic to be held there. The special trains from Escanaba and the copper country will add largely to the attendance, and also to the enjoyment of the day.

It may be called a cold day, metaphorically speaking, when from ten to fifteen young boys and girls don't call at the door of every well-to-do householder, selling luckleberries and raspberries. This is one of the chief sources of revenue of Ishpeming's juvenile population, and it worked vigorously while the berry season lasts.

A neighbor of Mr. William Malmborg's says that Mr. M. took a large party of ladies to his farm at Greenwood yesterday, for a picnic excursion. Mr. Malmborg was not visible in the city yesterday, so it is supposed that with his well-known generosity he did furnish his grounds at Greenwood for the use of the ladies. Mr. Malmborg has a very fine farm there, which is well worth looking at by all.

The Police Docket. Police matters were quiet yesterday. Only one criminal case was tried, that of the people against Joseph Coviau, Jr. The complaint charged that the defendant seriously injured Jerry Donovan, while putting him out of Coviau's saloon, on Division street, several weeks ago. In consideration of the good reputation of the defendant, he was let off with a light fine by Justice Carlson.

The Wife Beater. John Uren, the cowardly wife beater, was before Justice Kennedy Tuesday, but the trial was adjourned till Friday, as Mrs. Uren was unable to appear in court, being dangerously ill from the effects of the blow that he struck her with a chair Monday night. This community has no use for such characters, and his sentence cannot be made too heavy to suit the majority of people. Wife beaters are rare here, and should be made well more so.

Good Sewerage. F. Braasat & Co. are having a sewer put under their Cleveland avenue meat market. Nels Mahjannan, who is building the city sewer, is doing the work. The branch sewer will be about four feet deep, and it is expected, will effectively drain all the ground on which the store stands. A small launder has also been placed under the second street sidewalk, adjoining the general merchandise store of the firm.

Cleveland avenue residents have been much bothered in the past by water which stood on the street, and invaded cellars. The main sewer, with a few additional drains, will effectively dispose of that unpleasant state of affairs.

Cash Railway. The Rapid Service Street Railway, with four stations, was yesterday placed in the Rock Store, and can now be seen by all interested in such matters. The advantages of a cash railway in an extensive general merchandise house like the Rock Store are numerous. First is the saving in point of time, and second the fact that clerks can return goods to the shelves while change is being made, and not leave them piled in confusion on the counter, for dishonest customers to pick from.

This system of cash railways has the double advantage of simplicity and neatness. James R. Dee & Bro., of Marquette and Houghton, are the agents for the Upper Peninsula.

Business Matters. The MINING JOURNAL representative in his travels among the business men of this and adjacent cities has come to see that there is a more hopeful feeling prevailing now than existed a few months ago. One man who has an extensive trade here said yesterday that he did not remember of a time when business was on a sadder basis than at present in his opinion. While it is far from booming, business has reached that point where a dollar buys a larger amount of goods than ever before, and people who are earning little have the consolation that the necessities of life are cheap. Business is undeniably quiet, but it is on a firm basis, and the general feeling is that next year will see a very marked improvement in trade and manufacturing.

Ishpeming Foundry. The machine shop of the Ishpeming foundry was closed for a few days, the beginning of the week, and it was currently reported that it had been permanently shut down. Mr. A. C. Osborn, business manager of the foundry, was seen yesterday, and said that the machine shop would start up again this morning. The men working only eight hours a day. The foundry has been closed down since last November, and only the machine shops have been running since, principally on repair work. All casting and foundry work is done at the Iron Bay furnace, Marquette. Mr. Osborn said that hereafter steam would not be kept up when there was not sufficient work to keep the men busy. When there is no work the shops will be closed, and the men will be laid off until there is enough on hand to give them a days work of eight hours.

This is hard both on the owners of the foundry and the workmen. The latter are not disposed to grumble, however, as they are doing as well as the average of machinists and laborers through the country.

The Fishing Party. The fishing party that left last Thursday for a trip down the Escanaba river returned Tuesday, bronzed from exposure, bearing many mosquito bites, but happy over the catch of fish. The party was five days in going from a point on the Escanaba river near Saginaw to the Cheshire mine, and numerous portages were made. The boats, as could be seen from their peculiar construction, were equally fitted for land and water navigation. Trout were so numerous that one could catch a couple of dozen an hour, and was enough for a square meal for two—that is, according to the report brought in by the fishermen. The party was so successful that another will be made up to take the same course in a short time.

PERSONAL. Miss Clara Siller, of Houghton, is visiting friends in the city.

A. W. Noble, of Hancock, formerly a merchant of Ishpeming, is a visitor to our town.

Mrs. A. C. Willey, of Cheboygan, arrived in the city Tuesday evening. She will reside here permanently.

The mother of Mrs. Nels Mahjannan, and two of her children, arrived in this city Monday from the old country. They make Ishpeming their home henceforth.

Mr. Harry Brady, of Deer Lake, was seen in the street yesterday for the first time in several weeks. He had had a narrow escape from a bad case of typhoid fever.

NEGAUNEE. Stewart, of soap fame, has returned to the city, but with what intentions are not known.

Many hunters are cleaning up their guns to be ready for the deer season. Deer can be legally shot after this week.

Deer hunters are not expected to do as well this year as last. There are so many hunters from abroad in the forests that the price of deer, when bought from an Indian has already doubled.

Ed Delf was the lucky winner of the orange race held at the rink Tuesday night. The prize, consisting of a box of oranges, was distributed by him among the audience, there being an orange for each person present.

Some of the Negaunee boys who are in jail at Marquette complain that the board isn't really what could be expected from a big county like Marquette. It is to be hoped that the sheriff will use every means in his power to make their short stay an agreeable one.

Police Court News. Pirie Foley and Joseph King were arrested yesterday morning, charged with assault and battery, at Nesbitt's place Monday. They were taken before Justice Jones, who placed them under bonds for trial this morning.

This is the sequel to the saloon row referred to yesterday morning. How the case stands and where the blame rests will be decided by Judge Jones to-day.

That Dog Tax. Some time ago the common council imposed a tax on each and every dog that was owned in the city. To the marshal was intrusted the onerous task of collecting the tax.

The marshal began collecting at that time. He has been collecting ever since. To say that he has met with any astonishing amount of success in his endeavors to gather in the tariff on the canines would be to seriously enlarge upon the truth. A few paid promptly, others paid slowly, and a great number have not paid at all. The difficulty has been that the dog owners would look up or hide their dogs, and even send them to another town in their efforts to evade the heavy burden imposed upon them by the tax. Inasmuch as the tax was imposed on them, they tried to impose on the marshal, and endeavor in every possible way to escape paying.

The marshal has no authority to shoot unleashed dogs found on the streets. His duty in the matter is plain enough, but the way to perform it is hard to find. He will begin another collecting tour this week, and notify every dog owner known to be such, that he absolutely must pay. For the peace of the community, it is to be hoped that they will pay.

PERSONAL. P. J. Van Rossumder, of Chicago, interviewed our grocery merchants yesterday.

Dr. Joseph Van Derwerker, of Michigan, was seen in the city for the space of several consecutive minutes yesterday.

Mr. J. L. Herron, representing the Detroit Post, was in the city yesterday in the interest of his paper.
