TO BREAK A LAND GRANT. WASHINGTON, Nov. 30.—Commissioner Sparks, of the land office, has recommended to secretary Lamar that he request the department of justice to bring suit to set aside the patent for a grant known as the context of the state of New York, and as one of the armory board had to do with the selection of several sites for armories in this city. aside the patent for a grant known as the Corto Madra del Presidio, in California. The patent was issued last year, and although the grant is comparatively limited, some three or four thousand acres of it are said to be of great value, owing to its proximity to San Francisco. In explanation of his reasons for making the planation of his reasons for making the very plain that the grant does not call for the land. I do not think I can say that by arrangement with Gen. Shaler, after effecting the sale of the Schell and the the land. I do not think I can say that there was any fraud in it, but perhaps there was some sharp practice. They contrived to spin out a league of land a good deal more, in fact into several leagues. My action in recommending the suit is to reduce the patent to the amount of the grant, admitting that the company is entitled to a certain quarter of land.

As to Fred Grant, he is ahead, Ward says, between \$130,000 and \$180,000, according to Ward's books, and Ward laughs at Fred's sad story that he (Fred) owes\$500,-00 through the failure,
