THE FIGHT NOT ENDED.

Hostilities Between Bulgaria and Serbia Soon to Be Reopened, Backed by Russia and Austria.

In Answer to a Deputation of Roumelians, Alexander Says That He Will Fight For the Union.

The Order Expelling German-Americans From the Island of Fohr Has Again Been Suspended.

As Particulars Are Received, the More Abject Appears the Cowardice of King Theban, of Burmah.

English Liberals Are Showing Much Strength, Promising to Have a Majority Over Tories and Parnellites Combined.

THE EASTERN QUESTION.

LONDON, Dec. 3.—The "Telegraph" correspondent at St. Petersburg says it is said in court circles that two or three army corps are being concentrated in the south of Russia, and that their eventual goal is Bulgaria. Austria is preparing 50,000 men.

WILL SUPPORT THE UNION.

LONDON, Dec. 3.—Dispatches from Sofia say that a deputation of officers from all the Roumelian companies encamped at Pivot, headed by Col. Nikoloff, was given an audience by prince Alexander to-day. They declared that the Roumelians had freely shed their blood in defense of Bulgaria, and that they would never consent to a separation of Roumelia and Bulgaria. Prince Alexander, in replying thereto, asserted that he was ready at all times to defend the union.

SHORT LIVED PEACE.

NISSA, Dec. 3.—An order has been issued by the government appointing Col. Horvathovich commander-in-chief of the Serbian armies. In official circles it is thought that the resumption of hostilities is certain, owing to prince Alexander's refusal of the terms proposed by Serbia. It is stated that fighting has already begun.

PLUCKY GREEKS.

ATHENS, Dec. 3.—M. Delyannis, the Greek prime minister, has met the expulsion of M. Sygomas, the Greek consul at Crete, with an order for the expulsion of all Ottoman consuls from Greece.

SERVIA ENTIRELY TO BLAME.

LONDON, Dec. 3.—The Bulgarian government has sent another circular letter to the powers. It points out that Serbia first declared war, and that after reverses Bulgarian valor forced the Servians to retire to their own territory. That despite the armistice agreed on the Servians continued hostilities against Wildin, and that it was owing to the threats made by the Austrian minister at Belgrade, that Alexander agreed to an armistice, and invited Serbia to appoint delegates to arrange matters. It asks the powers to appreciate the fact that the Bulgarians, when victorious, exercised moderation at the risk of enabling the Servians to recover their strength. Meanwhile Bulgaria awaits Serbia's counter proposals. Prince Alexander gives assurance that he will not try to influence the Roumelians against the port's delegate, but he asks the powers to persuade the port to defer action till after the conclusion of peace with Serbia.

GERMANY.

BERLIN, Dec. 3.—The order of expulsion of the German-Americans from the Island of Fohr, has again been suspended. Mr. Pendleton, the United States minister, having intervened in the matter.

INDIA.

A MOST ABJECT COWARD.—The following additional details of the surrender of king Theban were received here to-day: On Saturday last Gen. Prendergast, commander of the British expeditionary force, at the head of a brigade of troops, marched into Mandalay. King Theban at once received Col. Sladen, who accompanied the expeditionary force as civil commissioner—at the palace with the usual eastern formulas. The king was much affected and frightened. He said he hoped the British would spare his life, that he wished to abdicate and would remain in any house allotted to him by the British government. King Theban claimed that his

MINISTERS HAD DECEIVED HIM in regard to the situation of affairs, and that he was ignorant of what was occurring outside of Mandalay; that he was almost a prisoner in his palace, and that he feared assassins would slay him if he left the palace, and that he would surrender to the British authorities. Col. Sladen advised his majesty to plead with lord Dufferin, the viceroy of India, at Calcutta. On Sunday king Theban surrendered in the presence of the ministers, and embarked for Calcutta under guard. The French consul accompanied his majesty. The Burmese appear to be friendly toward the British.

MANDALAY PLUNDERED.

LONDON, Dec. 4.—On Monday night Mandalay was plundered by Daoists, who attacked the troops and killed and wounded several. The Standard blames the staff for neglecting proper precautions.

FORTUNATE PRENDERGAST.

LONDON, Dec. 4.—Queen Victoria has sent a telegram to Gen. Prendergast, thanking him for the successful manner in which he conducted the expedition to Mandalay. Gen. Prendergast received from lord Dufferin full powers to establish a temporary government at Mandalay, and for the present will personally exercise control. It is probable that a native will be appointed ruler under the suzerainty of queen Victoria.

ENGLAND.

THE LIBERALS' STRENGTH.—LONDON, Dec. 3.—The countesses are pulling so strongly for the liberals that they

VERY GRACEFULLY DONE.

Mayor Grace Has Mr. Pulitzer of the World, Arrested for Libel.

NEW YORK, Dec. 3.—Editor and congressman Joseph Pulitzer, of the World, was arrested to-day at the instance of mayor William R. Grace, and was required to furnish \$50,000 bail. The mayor, through his lawyers, has begun action in the superior court against Mr. Pulitzer, claiming \$50,000 damage for alleged libel growing out of statements published in the World connecting the name of mayor Grace with the failure of the Marine National bank and the firm of Grant & Ward.

The mayor, in his affidavit, declaring Mr. Pulitzer to be the publisher of the World, states that in the fall of 1884 he had an interview with him at his residence in relation to the course of the World on political questions at issue prior to the general election of 1884. That conversation, Mr. Grace says, was based upon the assumption that Mr. Pulitzer could and would control the course of the paper as he should do best, and that he was proprietor and editor. Mayor Grace, in his complaint, sets forth nine different causes of action for libelous matter published during October and November and the present month, and says that the transactions and matters referred to in the published statements about the marine bank and Grant & Ward, occurred in 1883 and 1884 while mayor Grace was not in office. Prior to the first time that mayor Grace took office, the Marine bank was the depository of monies of the city. The bank failed in May, 1884, as did also the firm of Grant & Ward. The mayor, as he is believed to be a fraudulent one, and numbers of people were defrauded of money belonging to them. During 1884 and 1885 the mayor had business dealings with the firm of Grant & Ward, and at the time the firm failed he had his paper to a considerable amount. He claims that the mayor was connected with his name with Grant & Ward and the Marine bank were malicious and false.

SHORT EXISTENCE.

LONDON, Dec. 3.—The earl of Rosebery delivered a speech at Glasgow to-day, and gave very clearly his views as to the terms of existence of the new parliament. Earl Rosebery said it would be a short lived parliament. The symptoms indicate that it would be an unhealthy and feeble infant. Ireland, the speaker said, had shown great ingratitude toward Mr. Gladstone.

REPRESENTING QUEEN VICTORIA.

LONDON, Dec. 3.—The duke of Wellington has started for Madrid to represent queen Victoria at the requiem mass for the repose of the soul of the late king Alfonso on Saturday next.

PERU.

LIMA'S PROVISIONAL GOVERNMENT.—WASHINGTON, Dec. 3.—Secretary Bayard received to-day a telegram from P. R. Buck, minister of the United States to Peru, informing him that after three days fighting in the streets of Lima, a truce was yesterday concluded through the good offices of the diplomatic corps, Iglesias and Caceres both agreeing to renounce executive power. Three commissioners from each side will arrange for a provisional government.

INCITING REBELLION.

HAVANA, Dec. 3.—A military officer and eight subordinates in the district of Nicaragua, province of Santa Clara, attempted to incite a revolt, crying "Viva La Republicana." Troops were sent in pursuit, and so far one of the men have been killed and two have surrendered. The civil government of Havana has given stringent orders against bandits.

CANADA.

THEIR CONTRACTORS.—MONTREAL, Dec. 3.—The engineers commissioned by the Canadian Pacific railroad, to remeasure the contracted sections to the north of Lake Superior, have completed their labors, the result being that the company has over paid the contractors \$120,000. Demands have been made for the reimbursement of this money, which in the case of the smaller sections have been complied with, but the three largest contractors refuse, and suits to recover the amounts have been entered here and at Toronto. Connel & McLellan are being sued for \$500,000, R. R. McLellan for \$225,000, and James McLane for \$200,000.

SPAIN.

A SICKLY YOUNG QUEEN.—MADRID, Dec. 3.—Reports are in circulation that the young queen Mercedes has already developed symptoms of lung disease and scrofulous debility inherited from her father, and will never be in a proper condition of health to succeed to the throne.

FEARING A REVOLUTION.

A meeting of prominent generals within the last few days has been held at the residence of Lopez Dominguez, and this circumstance is exciting the suspicions of the government. Sagasta, the new prime minister, has called on Dominguez for an explanation of these gatherings. The general replied indignantly to Sagasta's demand, and advised the premier to look for conspirators elsewhere. It is said that Zorilla arrived at Bayonne yesterday, but went to Bordeaux in consequence of a warning from the French authorities.

RUSSIA.

ST. PETERSBURG, Dec. 3.—Count Scavloff left here to-day for Madrid, carrying from the czar a letter of condolence to the bereaved Christina.

DEFENCELESS NEW YORK HARBOR.

The Government Requested to Remedy the Defect At An Early Day.—NEW YORK, Dec. 3.—The chamber of commerce to-day adopted resolutions deploring a decline of American shipping, and suggesting as a remedy the establishment of a bureau of commerce under the control of the secretary of the treasury. The harbor improvement committee was asked to incorporate in their report to the government an appeal calling attention to the president indefensible state of the harbor of New York, and that the government be asked to take immediate steps looking to its being put in a proper state of defence.

NOT AN UNBURNISHED TALE.

NEW YORK, Dec. 2.—A fire caused by the accidental upsetting of a pot of boiling varnish broke out early this morning in David Black's tin factory, at 62 and 64 Elizabeth street. Samuel Majovsky tried to put out the flames and was badly burned. Mr. Black occupies all the building except the first story. He estimates his loss at \$50,000 to stock and \$2,000 to building, covered by insurance.

EX-MEMBER OF CONGRESS DEAD.

MILWAUKEE, Dec. 3.—William Aldrich, ex-member of congress from the Second Chicago district, was stricken with apoplexy at the home of his brother in Fond du Lac, to-day. Mr. Aldrich moved to Fond du Lac from Chicago a few years ago and has since been engaged in the milling business at the former place.

FOR THE UPPER LAKES.

WASHINGTON, Dec. 4.—A. M.—The signal service notes the following as its predictions for the next thirty-six hours: Increasing cloudiness and light snow or rain; winds generally shifting to south and northwest; generally colder, preceded in southeast portions by slight rise in temperature; rising, preceded by falling barometer.

SLOSSON WINS.

ST. LOUIS, Dec. 3.—Vignaux and Slosson to-night played the first of the series of games of billiards to be played here by the players who recently contested for the championship of the world in Chicago. About 400 people witnessed the game. Slosson won. His average was 20 to 29. The game consumed three hours and fifteen minutes.

PUBLIC BUILDINGS.

Eighty-Three Now in Course of Construction, Calling For an Aggregate Expenditure of \$8,511,400.

Architect Bell Deplores the Fact That Congress Limits Expenditures, While Ignorant of Results Demanded.

Interesting Postal Statistics From the Principal Cities of the Country—Virginia's Vote For Governor.

THE NATIONAL CAPITAL.

WASHINGTON, Dec. 3.—A. M. Bell, supervising architect, in his annual report to the secretary of the treasury, says there are now in course of construction eighty new buildings, ranging in cost from \$25,000 to \$2,000,000 each, calling for a total expenditure of \$8,511,400. The expenditures for the year on this account have aggregated \$2,438,769. Mr. Bell says that congress fixes the limits of the cost of buildings without a full knowledge of the accommodation required, and that the limits in many cases are so low as to make it impossible to even provide.

THE MINIMUM ACCOMMODATION.

He suggests that before authorizing the construction of the building congress get estimates from his bureau of the cost of appropriate structures. This, he says, would expedite work and save money. He calls attention to the fact that congress should not be blamed when work on public buildings is stopped for lack of appropriations, and says this trouble will continue as long as congress ignores his office when making appropriations.

POSTAL STATISTICS.

WASHINGTON, Dec. 3.—The third assistant postmaster general has received special reports of the revenues collected from ten of the leading post offices for the five months ended December 1st. The following table shows the amounts and per cent of increase on all except second class matter: New York \$93,953, 5 9-10 per cent; Chicago \$58,369, 8 1-10 per cent; Philadelphia, \$35,022, 5 per cent; Boston \$35,538, 9 9-10 per cent; St. Louis \$11,300, 3 9-10 per cent; Cincinnati \$10,109, 14 3-10 per cent; Brooklyn \$8,337, 4 5-10 per cent; Buffalo \$8,941, 7 6-10 per cent; Detroit \$25-89, 2 3-10 per cent. Total \$309,029, 6 9-10 per cent. The increase in the total weight on second-class matter for the same period is 326,211 pounds, or 1 3-10 per cent. Of the ten offices, New York, St. Louis and Pittsburgh show a decrease of second class matter only. The increase in the issues of special request envelopes is as follows: In number of individual cards and requests, 3,388; in number of envelopes, 6,146,250; in value of envelopes \$132,428.

MERELY A LOCAL AFFAIR.

Senior Romero, the Mexican minister, said to-night to a Republican reporter that he had received no official information about a revolution said to exist in Mexico. He believed that if there is a revolution, it is a mere local trouble and will not affect the general welfare of the country, and that the federal government is well able to put down any revolution. He denies that American capitalists in silver mines in that country are in danger from Mexicans.

TASMANIA WANTS IT.

The postmaster general has received a letter from the general postoffice department of Tasmania, at Hobart, asking the government to enter into a postal arrangement with that colony similar to that in force between this country and New Zealand and New South Wales. The postmaster general has taken the matter under advisement.

THE CABINET MEETS.

The cabinet met at the usual hour to-day and remained in session about two hours. All the members were present, except the secretary of the navy, who has gone to New York. The president's message, and other matters to be submitted to congress, were considered.

APPOINTMENTS.

The president late this afternoon made the following appointments: Lafayette Dawson, of Missouri, to be United States judge for the district of Alaska; William G. Lanford, of Walla Walla, W. T., to be associate justice of the supreme court of the territory of Montana; J. Harris, of Mississippi, to be attorney of the United States, for the southern district of Mississippi.

The president to-day appointed John A. Sullivan to be collector of internal revenue of the second district of New York. Mr. Sullivan is a well known business man of New York city, and has been a prominent member of the produce exchange for many years. He was particularly active in the last campaign and was a leading member of the conference committee of the business men's clubs, organized in the interest of the democratic ticket.

VIRGINIA.

THE VOTE CAST.—RICHMOND, Dec. 3.—The official canvass of the vote at the late general election for governor was completed to-day. Following is the result. Total vote cast for governor, 289,971, of which Fitzhugh Lee, democrat, received 152,544; John S. Wise, republican, 136,510; scattering, 17,917.

A Navel Suit.

BOSTON, Dec. 3.—The trial of the suit of Levi Wilson, of Providence, against P. L. Moon, president of the Washburn & Moen Manufacturing company, was begun in the United States court to-day. Wilson sues to recover \$150,000 on a declaration to the effect that in 1882 two young ladies began suits against him for breach of promise and marriage, and that the father of one of them sued him for seduction, the aggregate damages being \$150,000. That the complainant had a valid defence against these claims, but that Mr. Moon seemed to be troubled about them and offered complainant \$100,000 if he would compromise the case before they should come to trial. That complainant did so, and that defendant declined, after having paid \$20,000, to pay any more.

The answer to complainant is a general denial of liability and want of consideration. The day was consumed in hearing testimony on behalf of complainant. During noon recess Wilson's overcoat disappeared. Wilson says it contained papers material to his case.

SPIRITUALISTIC CHICAGOIANS.

Saloon Keepers Trying to Justify Their Movements Against the Sunday Law.

CHICAGO, Dec. 3.—Chicago saloon keepers are exercised over the crusade against what they consider their rights, in the matter of Sunday liquor selling. They claim the enforcement of a strict law compelling the closing of saloons on the Sabbath day would be a great injustice to the general population of the city. They have prepared statistics from the school census of 1884 to support their arguments that the Sunday law should not be enforced in this city. Their table shows that there were in 1884 174,000 in Chicago having English and American characteristics, and presumably in favor of Sunday observance. On the other hand there were 114,000 Irish, 210,000 Germans, 48,000 Scandinavians, 28,000 Bohemians, 24,000 Poles, 8,000 French, 4,000 Italians, 8,000 Africans, 24,000 Swedes, 18,000 Norwegians, 6,000 Danes, and other minor nationalities, making a total of nearly 500,000 foreigners. It claimed a large majority of these foreigners are in favor of open saloons and amendments on the Sabbath, and on this ground the liquor dealers, at a future meeting, will demand a cessation of hostilities and will take steps to secure a modification of the laws now existing against the so called freedom on the Sabbath.

THE PROHIBITIONISTS.

Over Three Hundred of Them, of Both Sexes, in Conference at Detroit.

DETROIT, Dec. 3.—The prohibition conference of partisans of that faith in this and adjoining states, opened at Whitney's opera house at 10 o'clock this morning with about two hundred men and women in attendance. The forenoon was devoted to a prayer service, Rev. C. T. Allen leading. The morning was devoted, entirely to a prayer and song service, which was led by the venerable Mr. Clark made a few remarks on the growth of the temperance cause, inserting a good deal of enthusiasm, which he manifested, to a small but earnest audience in attendance. This afternoon Mrs. Mary Lathrop, of Jackson, and Lemuel Childs, of Ionia, were the principal speakers. This evening there were addressed by the Rev. John Russell and the Rev. Dr. A. B. Leonard.

TO THE LAND OF THEIR BIRTH.

Eight Hundred Scandinavians to Sail in a Few Days For the "Old Country."

CHICAGO, Dec. 3.—This afternoon about eight hundred Scandinavians passed through this city headed by three large bands. They took a train on the Grand Trunk & Erie railroad for New York, and from there will sail by the special steamer Ole Bull, to their old homes in Scandinavia. Most of the large party have been here from fifteen to thirty years, and have prospered. They have purchased over a half-million crowns in foreign drafts in this city to-day to use while on their pilgrimage. These eight hundred, with but three, are gathered here from all over the northwest.

IRON MOUNTAIN MATTERS.

A Gossipy Contribution From the Mining Journal's Reporter at That Point.

IRON MOUNTAIN, Dec. 3.—H. G. Fisk received three fine looking horses from Milwaukee, Wednesday, for his livery stable. George Beer, the young man who disappeared from Chicago about two weeks ago, was formerly employed in the M. M. Co. Co. office at the Chapin mine. While living here he frequently spoke of going to a very desirable place for a young man to locate, and his Iron Mountain friends are of the opinion that he is the author of the letter mailed at Santa Fe to Mr. Ed. Hill, Cleveland. It looks like a scheme of his own for the purpose of gaining a little notoriety.

CHICAGO MARKETS.

JAMES RUSSELL, Editor. A. HORNSTEIN, Business Manager. MARQUETTE, MICH., DECEMBER 4, 1885.

It appears that the English, German, Belgian and French steel rail makers who within a few years parceled out the steel business of the world in order to prevent competition, are still working on that basis.

Within a year or two the Canadian Pacific will be self-supporting. It is an immense enterprise, and while it would never have been carried out without the generous support of the government, it will probably realize its sanguine expectations formed in its behalf.

BEARING DOWN RATHER HEAVILY. We regret to see that some of the upper peninsula papers, most of these being in the copper district, are discussing the character and purposes of the Knights of Labor organization with an evident disinclination to see any possible good in it.

LABOR CANNOT BE KEPT IN THE BONDS OF ignorance in this country of free schools. It has the right to talk and think and act. The more orderly its processes in exercising these and other rights the better for us all.

PROGRESSIVE foundrymen are watching with no little interest the perfection of the various cheaper processes of making steel, in the hope that before long the cost of these "baby" steel plants will be reduced to such a figure as to enable them to adopt them in connection with their ordinary works.

THE POLAR CURRENT passing between Labrador and Newfoundland appears to deflect the Gulf stream from the shores of the United States and the British provinces, interposing a cold wall of water between the land and the general warmth of the current from the tropics.

TRAFFIC FOR THE NORTHERN PACIFIC. The Railway Register says under the new caption: Now that the Canadian Pacific is finished and ready for business, many are speculating as to what its business will be, and whether or not the prediction will come true that the newest transcontinental line must soon be turned over to the Canadian government to be operated for its future rather than its present value.

USING THE BATH'S HEAT. There is abundant reason for believing that the earth's crust is very thin, asserts Mr. J. Starke Gardner, and it seems not impossible that some means may be devised for utilizing the intense heat of the molten mass below.

REPLACING NERVES. Successful experiments have been made in joining and restoring the functions of divided nerves, even nerves of different function being used to replace those partially destroyed.

three to twelve days less time than by existing routes. As is well known, the company has been experimenting with trial routes far out on the plains near the foot of the Rocky mountain range and has found that the results are satisfactory.

FLORIDA. A REMARKABLE INSTRUMENT. Among the flints of the chert formations is occasionally found one which emits a clear musical sound when struck with another flint. Tissandier tells of a distinguished French musician, H. Baudre, who is a zealous collector of these musical stones, and who has just succeeded in making a unique "piano" from them.

UNIVERSAL COLOR-BLINDNESS. Color blindness, as is generally understood, is a blindness to red, to green, or to blue or violet, and about one male in every twenty-five appears to be unable to discriminate between the principal colors of the spectrum.

Pat Lyons' relatives declare that they are disgraced since he has gone upon the stage. They should not look at the thing so seriously, for Patrick has shown a decided histrionic ability and the public demands that he shall appear.

A few days ago there was a game of billiards played in the city between an Englishman and an American (naturalized) for the championship of the city. The bloody Hengsliman came out a dead, and the championship is now claimed by him.

The Ishpeming National bank hired R. McSweeney to paint over an unsightly telephone pole, standing in front of the window. If other concerns in town will follow suit, the telephone company will get its poles decorated at small cost to itself.

All French Canadian residents of Marquette county are invited to be present at the meeting in St. John's hall to-night. To-morrow morning the seclude L'Union Canadienne Francaise will march to the Catholic church, where masses will be said for Kiel.

The meat business seems to be one of the most flourishing in the city to judge from the number of new shops starting up. Mr. Mugford (first name unknown), will start, or probably before this is printed already has started, a peripatetic butcher-shop. It goes on wheels, and will be found at different points in the county during the winter.

Swedish Lutheran Church Dedication. The reporter is in receipt of a letter from Mr. Nataniel Mortonson, of Republic, giving this brief description of the dedication and installation services held at the Swedish Lutheran church here last Sunday, for which, thanks.

The dedication services at the Ishpeming Swedish Lutheran church took place last Sunday. The president of the Illinois conference of the Augustana synod, Mr. Ranssen, from Chicago, conducted the services, assisted by the reverends M. Frykman, of Republic, Linder, of Marinette, C. P. Edlund, of Marquette, M. Storppe, pastor of the church, and student Anderson, of Calumet. The high mass was sung by Rev. Linder and the church choir in a very fine manner.

After the dedication service Rev. M. Storppe was installed as pastor of the church, an eloquent and appropriate sermon being preached by Rev. M. Frykman; everything passed off smoothly.

The services were attended by not far from 1,200 persons, many of them from Marquette, Champion and other places.

At 7 o'clock in the evening, Rev. Linder, who is going to leave this region for the mission field in California on account of ill-health, preached the evening sermon as a farewell to the people of this region.

Top Bad. A young man living not many miles from here is paying somewhat marked attention to a certain young lady. This is by no means an unusual case, but attracts attention from the sad sequel. Last Sunday the young man called on the young lady, and afterwards took her out for a drive. Near the Lovthian mine, the buggy wheel went over a big boulder, and the vehicle was emptied of its contents with a celerity which was far more amusing to the beholders than to the couple who were spilled. It's snowing now, and the young man won't take his sweet-heart out for a buggy drive "till the Robbings nest again," but by that time he will have learned better than to drive a horse and hug his girl at one and the same time.

PERSONAL. E. B. Howard, accompanied by his wife, left the city yesterday for a five weeks' visit to Detroit.

CARPET BUYERS! YOU CAN SAVE ONE-THIRD on the price of your carpets by buying of F. Braastad & Co. By means of the new "CARPET EXHIBITOR" you can see from a small sample just how it will look when laid on a large floor. The exhibitor has compound mirrors, and a sample laid in the bottom is reflected from every direction, giving exactly the appearance of a large carpeted floor. Braastad & Co. have eighty samples of fine carpets, and when you choose from them your order is sent directly to the wholesale house, and your carpet is cut to exact lengths. By this means there are no waste pieces, consequently the retail dealer does not lose on them. Better satisfaction is given than if a twenty thousand dollar stock of carpets was carried, and every purchaser CAN SAVE ONE-THIRD by buying of F. BRAASTAD & CO.

WAIT FOR KIRKWOOD'S ADVERTISEMENT.

The Iron Cliffs Store, NEGAUNEE.

AFTER MANY YEARS.

By a Fortunate Combination of Circumstances a Considerable Sum of Money Lost Nineteen Years Ago is Returned to the Owner.

Nineteen years ago a Miss Green lost \$104 at Eagle Harbor, while on her way east, in the fall. In consequence of the loss she was compelled to seek work near Eagle Harbor, and remained there during the winter.

Time passed on, and she heard nothing about the money until a short time ago, when she recovered it in full, after having nearly forgotten all about the loss.

It appears that Mrs. Mary Seaman, who now lives out on Washington street in this city, was then living at Eagle Harbor, and found the lost sum. After advertising for the owner, without success, she gave up the attempt and, after removing to this city, gave the money to the orphan asylum here with the understanding that if the rightful owner should ever appear the money should be refunded.

This summer the affair came to the knowledge of Sampson Hall, of this city, the well-known guide and hunter, and it chanced that he had heard of Miss Green's losing the sum of money at the time mentioned. After a good deal of trouble her present address was found and she was communicated with. In reply a letter was received from her accurately describing the money, which was in bills, and clearly proving that she was the person who lost it at the time mentioned. It appears that by some chance she never heard of the finding of the money, and supposed that it was lost forever.

She is now the pastry cook at the American Hotel, Windsor, Ont.

The entire sum of \$104 was forwarded to her a few days since, and after nineteen years Miss Anna Green has her own share more.

In this connection the MINING JOURNAL cannot refrain from remarking that Mrs. Seaman has shown more than ordinary honesty of character in holding the sum for so many years ready for restoration should chance ever discover the owner. Taken all together, the circumstances are very peculiar. Nineteen years is a long time to wait.

The New National Bank Building. Carpenters are busy on the wood work of the bank building, and the officers of the bank hope to get back into their old location by Christmas.

The reporter was shown over the building yesterday and thinks that a description of the same will prove interesting to the readers of the MINING JOURNAL.

The basement has been fitted up for Peter White's insurance agency, and when fully finished will afford admirable quarters for the clerks therein. The wood floor is laid upon a cement foundation, which insures freedom from dampness. A beautiful fire-place with a "club-house grate" has been put in. The mantel is of rich cherry surmounted by a fine mirror, while the tiling about the fire-place is very handsome. As the offices formerly were not in place the appearance of the room when all is complete cannot be described now.

The second floor is wholly given up to the bank. The floor is thirteen inches thick and composed of iron, broken stone laid in concrete, cement, and tiling laid in English Portland cement, which hardens until as solid as stone.

The flooring of variegated tiles is very beautiful; the tiles are the same in size and color as those used in the famous Pullman block in Chicago, the finest building in the west. Mr. White ordered them after having seen the effect produced in that block. The small room in the rear is intended for Mr. White's private office.

The wood used is solid oak, and Hager & Johnson have the contract for finishing off the interior. The oak will receive an oil finish, which will give a very rich appearance to the room. The vault will be faced with ornamented tiles, which are now here and will soon be put in place.

The Champion Iron company will have the front office on the third floor; this is a beautiful room, containing a very fine mantel and grate, and is being finely finished off. Hon. Wm. P. Healy will occupy the other two rooms with his law offices. All of the offices and rooms in the building have separate lavatories and closets.

The building is absolutely fire proof if ever a building can be. Fire walls separate Mather's block, White's block and the bank building. All the partitions are of solid brick, while lath is used only in one or two places and is there placed directly on the brick. The floors are of iron and cement, and all stairways are of iron. There is not enough wood in the entire building to sustain a small-sized bonfire half an hour.

When the building is entirely finished and the bank furniture is in place it will make the handsomest block in town, as there will be nothing which can compare with it in interior decoration. Separate boilers now heat Mather's block and the bank building, and every arrangement has been provided for keeping it comfortably warmed, all of the radiators having automatic governors attached to regulate the heat. The MINING JOURNAL hopes to wish the bank officials "Merry Christmases" in their new and handsome quarters.

Handsome Prizes. The handsome gentleman's costume at the Casino rink carnival will be placed on exhibition in Conklin's window, while the toilet case for the handsomest lady's costume will be placed in the window of Stafford's drug store. Take a glance at them and consider the advisability of making a rival for one of them.

Marquette Electrified. A large consignment of electrical house bells, annunciators, etc., has been received by James R. Dee & Bro., and they are prepared to attend to orders of every kind in this line of electricals. There is a great demand for electrical apparatus in this city, which goes to show that Marquette is putting on metropolitan airs very fast.

Change at the Casino. From this date until the holidays, the Casino, while open daily, will be opened only Tuesday, Thursday and Saturday evenings of each week. A flourishing tennis club has been organized, and practices daily from 1 until 2:30 in the afternoon. Spectators will be admitted to witness the playing for fifteen cents.

Season Ended.

Capt. McGuire will keep no more lamps burning, nor will he toot the brazen-tongued fog-horn another foot until the snows and frosts of the winter that is now at hand have come and gone, and the ethereal mildness that usually settles down upon this particular portion of a sin-stricken world about the Fourth of July, has given bonds that it means business. The captain has been on duty continuously now for a long time, and will appreciate the few fleeting moments that old Superior devotes to repose.

REPORTORIAL PENCILINGS.

Good poultry is sold in this city now at ten cents a pound, which is cheap enough.

Quite a number of people have suffered from attacks of cholera morbus lately. The capabilities of this region for out of season diseases are wonderful.

A very pleasant sandwich social took place in Masonic Hall last evening. The dancing commenced at 8 o'clock "sharp," and the merriment and guests all had a jolly time.

Jas. R. Dee & Bro. are fitting J. B. Swett's residence with electric bells. The wires have already been put in, and as soon as the annunciators arrive the arrangement will be completed.

The railroad gates across Front street have been taken down and hoisted for the winter. The docks are also being placed in winter trim, the gas lights and signals having been taken down.

Mrs. Hogan, living on Third street, complained of being robbed of \$20 yesterday and a girl was arrested, charged with the crime. On being brought before justice Cary, it was found that there was no evidence against her and she was discharged.

An exchange states that Adelle Webber will take the place occupied by Sarah Bernhardt. Let's see, is that in some good man's heart, or an unbreakable cover? The artist is so—what one might call versatile, that another can hardly fill the place.

The telephone pole opposite the central office which carries so many wires, isn't very "solid on its pins" just now. It came very near tumbling over the other day, the excavations for Byrne's block having taken away the earth around the foot of the pole.

Kaiser William has the correct idea of a sportsman's life. He takes a seat in an easy chair and has the game driven to him. When he wakes up and thinks there is something in range, he blazes away, and usually fetches a keeper or some other game every shot.

The Adams ran out into the bay yesterday to clean out, preparatory to being laid up for the winter. She is now at the corner of the bulkhead and merchandise dock and has been fastened away from the dock to prevent chafing. Capt. Frink will finish stripping her to-day.

The Clifton House speeded the departing guest in great shape yesterday on discovering that he was trying to make off with that cutest of canines, "Barney." The offending party went below over the free D. M. & M. but he was knocked out from the dock to prevent chafing. Capt. Frink will finish stripping her to-day.

Reau has the contract for moving seven safes into the various offices in Mather's and White's blocks. It looks as if those offices were to be occupied by parties who possess property worth keeping. The ice trade is ended for this season, but Reau's field of usefulness isn't by a good deal.

Crime is more respectable than misfortune, or the state takes better care of its wards than the counties composing the state do. Some of the criminals in Michigan will be taught the use of the knitting machine, and after they have acquired the art they will be expected to slave away at it several hours every day.

As no special train was put on for the carnival at the superior rink, in Ishpeming, Wednesday night, only a few attended from Marquette. A very pleasant little party went up, however, and report having had an elegant time. From the description, some of the costumes must have been very fine, as well as some very amusing.

There is great complaint of soft corn through southern Michigan.—Er. We have also heard of similar complaints in Detroit, and have a notion that the "soft corn" nuisance is not confined to any particular locality.—Detroit News.

That is where you mistake. Bet you two notes that you can't find a man in Detroit who has one above his knees! The North Star notes the fact that "fifteen poor persons were compelled to lay" in the hold of a barge. We agree with the Star that it was an outrage to force human beings into such foul proceedings.—Monmouth Register.

At twenty cents a dozen that would be just a quarter. Talk about the pauper labor of Europe! Why they know nothing about the vicissitudes of the American poor. Canadian parties are scouring northern Michigan for rock elm, paying therefor from \$1.25 to \$1.40 for each tree as it stands. Newly cut mostly French Canadians, are employed cutting trees and heaving them into square timber, which is shipped to Scotland for ship-building purposes. Last season upwards of 5,000,000 feet of rock elm was disposed of in this manner.—Exchange.

The reporter does not know of any rock elm in the upper peninsula, but there may be some, and the item is reproduced for the benefit of those who own some of the timber named. A "duck of a girl" must be very closely watched, or ten to one she'll go off and marry some quick.—Chicago Sun. And maybe the little goose will get a Michiganian for a husband.—Baltimore Times.

The Whitehall "rooster" evidently thinks she is "mashed" on him.—Adrian Record. Don't crow on him.—Monmouth Register. Hen-pecked puns.—Tecumseh Herald. No, indeed! They have a notion that they will wind. Terms made known upon application at the house. 11-5ml

Parties who would like a nice, quiet boarding place will find the same at Mrs. Barnard's, corner of Washington and Fourth streets. The table will be abundantly supplied, and every attention that can add to the comfort of those admitted there will be paid. Terms made known upon application at the house. 11-5ml

BUCKWHEAT CAKES. Dissolve one cake of Acme compressed yeast in one quart of water, add two tablespoonsful molasses or sugar, two tablespoonsful short flour, and sufficient buckwheat flour (about two quarts) to make batter. Let rise overnight; in the morning, if necessary, add a little yeast. If wanted quick, use double quantity of yeast. Compressed yeast and New York buckwheat flour can both be had at Murray & Robbins. 11-5ml

SOMETHING NEW FOR MARQUETTE. Japan Tea direct from Yokohama. Nearly a year ago we sent a sample of our best Japan tea to a friend in Yokohama to see what it was worth there, and we were surprised to learn that it could be bought so that we could retail it at 90c per pound. We ordered a quarter of a ton each, as a sample of the best medium and common grades. It has just arrived and will be sold at 90c, 85c and 80c per lb. If you want to buy fresh tea for a trifle over half the usual price, write to WATSON & PALMER. 10-15

A CLERGYMAN'S TONGUE. Rev. R. Priest says tongue cannot express the good that Warner's White Wine of Tar Syrup has done for me and my family. I have labored in the cause fifteen years, and have never found anything that will relieve hoarseness, and irritation of the throat and lungs like White Wine of Tar Syrup. At H. H. Stafford & Son's 9-14ff

does it. Going up would be too laborious, and coming down would be too much like falling out of a balloon. If by making a good slide somewhere in the city the children could be kept off the sidewalks and streets, it would be an excellent investment.

A wild eyed newspaper man is now at large in lower Michigan, and the cause of all his wrath is this: A party of Ann Arbor boys informed him that a man in Mooreville, an adjacent town, had got shot; name, occupation and particulars given. The item sharp immediately telegraphed a full account to the Detroit Evening News which published it with big, black, thrilling head lines. The Ann Arbor Register now gives it all away—he did "get shot" at a hardware store for a consideration, and the thought of that ancient, hoary-headed chestnut being worked on him makes the zealous "special" tired of life. He also talks of getting shot with the view of presenting it through a breech-loader to those funny boys in the school village.

It is proper that boys who smoke cigarettes should be expelled from public schools, as is being done in New Orleans. They are predestined for care and consumption "sharp," and education would be clearly wasted.—Baltimore Herald.

The cigarette evil should engage the attention of parents and officers more than it does in every community. There are boys in this city not more than ten or twelve years old who make a practice of smoking the wretched thing. It should be made the duty by statutory enactment of instructors, five cents to cut, maltreat, abuse, kick and generally shake up any and every boy discovered smoking a cigarette, unless in the company of his father or mother when so discovered. (Mark the legal phraseology in the above.) Perhaps it would be better to state in on the treatment indicated now, and encompass the legislation later.

The New York Commercial Advertiser preaches a very interesting sermon on percentage in a recent issue. It was designed chiefly for the Sun, the latter sheet having stated that a certain article sold at auction brought 150 per cent less than was originally paid for it, which, of course, could not be, and as the Sun rides itself on being absolutely correct in figures and style, the Advertiser rather gave it to Mr. Dana's paper. It gives several examples where the person unskilled in percentage would surely draw wrong conclusions. For instance: Five cents added to twenty cents increases that sum twenty-five per cent, but five cents taken from twenty-five cents decreases it but twenty per cent. One having a capital of \$1,000 makes a wheat deal and clears seventy-five per cent, he then has \$1,750; he makes another deal—using all of his money—and loses seventy-five per cent. He has left \$437.50.

PERSONAL MENTION.

Mrs. Chas. F. Orton returned from a visit to Chicago yesterday.

Mrs. and Miss Fitch, of Champion, were in the city yesterday, visiting Mrs. G. N. Smith.

H. Sullivan, the Lake Linden railroad contractor, was in the city a short time yesterday.

Mr. and Mrs. Edward Ball, of Republic, were in the city yesterday, and stopped at the Clifton.

T. M. Bigelow, representing Sprague, Warner & Co., wholesale grocers, of Chicago, is at the Clifton.

S. H. Davis, the agent of the L. S. T. Co. at this place, went up to Houghton yesterday. He will return Saturday.

William Condon, one of Hancock's merchants, passed through the city yesterday, on his way home from Detroit.

R. M. Hoar, a prominent and influential citizen of copperdon, went through on his way to Houghton yesterday.

Mr. and Mrs. Arthur E. Seaman, nee Nettie Brotherton, returned to Marquette on the D. M. & M. yesterday. They had not expected to return until next month, but Mr. Seaman was recalled by business.

W. D. Calvery, who during the past season has been the clerk of the steamer Ivanhoe, passed through Marquette yesterday on his way to Houghton from St. Ignace. Mr. Calvery was in Honduras last year for the copper country men who have interest there.
