A Pension Bureau Decision Very Much Misunderstood—The Last Bond Call For \$10,000,000—Miscellany.

THE NATIONAL CAPITAL.

RELIEF FOR THE AMETHYST.

WASHINGTON, Dec. 29.—The secretary of the treasury to-day received a telegram from captain Hooper, of the revenue steamer Rush, at San Francisco, stating that after consultation with captain Hooper, of the Corwin, he had decided to undertake the search for the missing whaler Amethyst. He also inquired if the cruise should be limited to the Aleutian Islands, or whether he should push northward, following the ice path as it broke up in the spring. Secretary Manning replied as follows: "Take the necessary supplies and proceed at once. Officers have been directed to report to you for immediate duty. Employ a surgeon, and use your judgment as to the northern limit of the cruise." It is believed at the department that the Rush will be able to sail from San Francisco for Behring's sea on Thursday next.

A MISUNDERSTOOD DECISION.

WASHINGTON, Dec. 29.—The pension bureau is in receipt of thousands of letters from all parts of the country indicating the existence of a wide spread, but erroneous impression that the recent decision of the supreme court in the case of Mrs. Hattie A. Burnett versus the United States would bring about an almost total change in the rates of pensions allowed to widows of soldiers of the late war. The decision, which was rendered by justice Harlan, on the contrary, sustains the practice of the pension office. Mrs. Burnett's husband, Gen. Ward H. Burnett, was allowed a pension of \$72 per month by

A SPECIAL ACT

of congress on account of his total helplessness due to wounds received during the Mexican war. The widow was allowed a pension of \$30 in accordance with the provisions of the general law. She, however, appealed to the court of claims, claiming the same amount per month that her husband had received, and that court, in its decision, used this language: "The widow becomes entitled to a pension not necessarily at the same rate her husband was entitled to, but the rate he would have been entitled to if his claim was founded upon what in the pension law is technically called total disability. The degree of disability by which his pension was rated makes no difference with

THE WIDOW'S RIGHT.

After death all degrees of disability are considered by law as one and the same, to-wit: total disability; and the rate of pension given to that grade becomes the rate of pension for the widow. The pensions to living soldiers are granted according to their respective incapacity to perform manual labor. When the disability is total \$30 a month is given as an equivalent. A pension of \$30, therefore, is the supposed equivalent for total disability, is granted the widow." The decision of the supreme court, which has been so much misunderstood, simply, as stated, affirms the judgment of the court of claims, and the long established practice of the pension bureau has thereby received the sanction of the highest tribunal in the land.

THE LAST BOND CALL.

WASHINGTON, Dec. 29.—The secretary of the treasury has issued a call for ten million dollars of three per cent bonds, the principal and accrued interest of which will be paid on February 1st, 1886, interest thereon to cease on that day. The following is a description of the bonds called: Three per cent bonds issued under the act of congress approved July 12th, 1882, and numbered as follows: \$50, original number 299 to original number 303, both inclusive, and original number 1,314 to original number 1,367, both inclusive; \$100, original number 2,166 to 2,204, both inclusive, and original number 9,564 to 9,863, both inclusive; \$500, original number 1,076 to original number 1,090, both inclusive, and original number 4,018, to original number 4,200, both inclusive; \$1,000 original number 9,787 to original number 10,012, both inclusive, and original number 20,311 to original number 23,387, both inclusive; \$10,000, original number 17,401 to original number 18,394, both inclusive. Total, \$10,000,000. The bonds described above are either bonds of the "original" issue which have but one serial number at each end, or "re-issued" bonds, which may be distinguished by the

DOUBLE SET OF NUMBERS

which are marked plainly "original number C" and "substitute numbers." All of the bonds of this loan will be called by the original numbers only. The three months' interest due in February, 1886, on the above described bonds, will not be paid by the bonds forwarded to the holders of the bonds but will be paid with the principal to the holders at the time of presentation. Many of the bonds originally included in the above numbers have been transferred or exchanged into other denominations, the original numbers being cancelled, and leaving outstanding the apparent amount above stated. The proceeds should be governed by the order "in which the bonds shall be called in as follows: "The last of the said bonds originally issued under this act, and their substitutes, shall first be called in, and this order of payment shall be followed until all shall have been paid." Bonds forwarded for redemption should be presented to the secretary of the treasury, divisions of the loans, etc., Washington, D. C., and all the bonds called by this circular should be assigned to the secretary of the treasury for redemption. Assignments should be dated and properly acknowledged as prescribed in the notes printed on the back of each bond. Where checks in payment are desired in favor of the "secretary of the treasury for redemption for account of ——" here insert the name of the persons to whose order the check should be made payable.

REARRANGEMENT OF THE BURMA-CHINESE BOUNDARY—The World Flocking to M. Pastour.

FRANCE. HYDROPHOBIA BECOMING FASHIONABLE. PARIS, Dec. 29.—M. Pastour to-day inoculated Charles Kaufman, of Franklin, N. J., who was bitten by a supposed mad dog on November 21st. The operation was successful. M. Pastour severely censured Kaufman's inattention to his injuries at the time he was bitten, but said he hoped to prevent any development of hydrophobia. M. Pastour will immediately inoculate Dr. Ludwig R. Sattler, of Orange, N. J.—the veterinary surgeon who was bitten on December 13th—once a day for eight consecutive days. The four children, Austin Fitzgerald, Patsy Ryan, Willie Lane and Patrick Reynolds, who have been under treatment by M. Pastour, will leave for home on Sunday next. They are all well.

ENGLAND. BARTERING WITH CHINA.

LONDON, Dec. 30.—The government has instructed Gen. Stephenson, the commander of the troops in Egypt, to limit his operations to clearing the country between Wady Halfa and Korosko of rebels. The government desires to meet parliament with a declaration that it has no designs looking to the re-annexation of the Sudan. Negotiations are proceeding with China for a re-arrangement of the boundary between China and Burma. England is willing to concede to China a strip of territory approaching Burma, on condition that it will be protected by police, and that China adopt lower tariffs.

THE ORPHAN BOY UNDOUBTEDLY LOST.

The Owners of the Missing Schooner Lose All Hope of Her Recovery.

CHICAGO, Dec. 29.—The consigners of the missing schooner Orphan Boy have given up all hope of her safety. A letter was received this morning by them from a lake captain who saw the ill-fated craft on Friday, December 4th, about 5 P. M., abreast of the Beaver Islands. In the opinion of the firm she either foundered in the terrific gale that night, or she struck in attempting to make the southern passage and went to pieces. There were eight men on board, and no doubtless went down with her. More weight is given to the former theory, as had she met the latter fate some pieces would have washed ashore.

A FATAL RAILROAD WRECK.

A Freight Derailment Causes the Death and Serious Injury of Several Train Men.

CHESTER, Pa., Dec. 29.—An axle of a freight locomotive on the Chester Creek railroad broke at Mt. Alverno this morning and derailed the train, throwing it down a steep embankment. James Rambo, the engineer, of Philadelphia, was crushed to death beneath the tender. George Mott, brakeman, of Chester, was so badly injured that he cannot recover, and A. Williams, conductor of Chester, and William McCune, fireman, of Philadelphia, were also severely injured. The train was torn up for fifty yards, and the cars piled high up on either side of the surrounding fields strewn with merchandise.

THE THEIVISH MEXICANS.

They Rob a Traveler of Gold, Silver, Mules and Outfit Generally.

ST. LOUIS, Dec. 29.—News has just reached here from Yamanaca, Mexico, of a robbery which took place a few days ago in the state of Chihuahua. It appears that John N. Filpen, a former of Memphis, Tenn., but now manager of the Guadalupe Mining company, of Memphis, left the city with two mules and a pack for Parral. When about fifty miles from Parral the party was captured by robbers, and all personal effects, including mules, outfit, and gold and silver bullion valued at \$3,400, were stolen. Mr. Filpen was in pursuit. A party has started from Parral in pursuit of the robbers.

Rescuing the Bodies.

WILKESBAIRE, Dec. 29.—There appears to be no change to-day in the situation at No. 1 slope in Nanticoke. The work of clearing up goes on slowly but steadily. George Joseph Winters, brothers of the three victims, explored the mine as thoroughly as possible this afternoon. They came to the conclusion that it was impossible that the entombed men be still alive, and that it was beyond any further doubt that they had been overwhelmed by the flood of sand which it was found had filled every portion of the workings.

A Religious Craze.

CHICAGO, Dec. 29.—The Inter Ocean's Palmyra Wis. special says: Thomas Green, residing in Sullivan township, has created considerable excitement and much comment by abstaining from nourishment for the past fourteen days. Two weeks ago, while attending a series of revival meetings at the Free Methodist church in this village, Green became possessed of the idea that he should receive the "power" by fasting and prayer. He still asserts he will continue to fast until he receives this "power."

Severed His Jugular.

SNOW HILL, Md., Dec. 29.—Samuel Blake was stabbed and almost instantly killed late last night by Ernest Bratton, near Girdle Tree Hill, Worcester county. Bratton was escorting a girl from a party when Blake made an insulting remark and struck Bratton. The latter drew a knife and stabbed his opponent in the neck, severing the jugular vein. He made no effort to escape and was lodged in jail.

Rescued the Crew.

NEW YORK, Dec. 29.—The officers of the steamer Genet, which arrived at this port to-day from Hamburg, reported that they sighted the fishing schooner Ivanhoe from Gloucester, 450 miles from New York, looking badly and in a dangerous condition. She rescued the crew, seven men and ten persons, and then burned the wreck.

Fell Off His Perch.

CLEVELAND, Dec. 29.—Patrick Cosgrove, aged 35, employed at a furnace in Niles, O., was overcome by gas this morning, and fell twenty-five feet, striking on his head and breaking his neck.

Sudden Death at St. Ignace.

ST. IGNACE, Dec. 29.—A fireman on the steamer Algoma, named George Shafer, dropped dead this morning as the boat was getting out of her lines. No one here knows the residence of his relatives.

Miller's Victim Dies.

TOLDO, Dec. 29.—Fred Painter, proprietor of the Hotel Windsor, who was shot yesterday afternoon by Henry A. Miller, died this evening. Miller is in jail.

IRON TRADE REVIEW.

James Swank, of the Iron and Steel Association, Succinctly States the Market's Past and Present Condition.

Pointing Out That While Prices Have Been Low, the Year Will Close With a Much Improved Feeling.

Fears of a Tariff Revision All That Mars the Return of Good Feeling in the Iron and Steel Trade.

THE IRON INDUSTRY.

INTERESTING STATISTICS.

PHILADELPHIA, Dec. 29.—A review of the iron trade of '85 has just been prepared by James M. Swank, general manager of the American Iron and Steel association. The beginning of the year was marked, he says, by a continuation of the depression of 1884. There was a steady sagging of prices from January to July, except for steel rails, quotations for which improved a trifle in May. In July and August all prices stiffened, and in September a slight advance was established, steel rails taking the lead and continuing to advance till December. Quotations for four leading staples for each month of the year will show that prices at the close of the year were much more favorable than at the close of the first half of the year.

COMPARISON OF PRICES.

shows that pig iron was \$18 in January, \$17.75 in July, and \$18.25 in December; steel rails were \$27 in January, \$26 in April, and \$34.50 in December; bar iron was \$40.21 in January, \$38.08 in July, and \$39.20 in December; cut nails were \$2.10 in January, \$2.15 in August, and \$2.65 in December. These quotations are monthly averages for No. 1 anthracite foundry pig iron, and best refined bar iron per gross ton at Philadelphia, for cut nails per gross ton at Pennsylvania mills. Steel rails, however, show the greatest

ADVANCE IN PRICE.

during the last half of 1885. In April sales were made at Philadelphia mills at \$26 and \$26.50, and a few sales are said to have been made at the astonishing low price of \$25.50. These could have been delivered at Atlantic ports at the same time, if entirely free of duty. In May quotations advanced to \$27, and the price thus established was substantially maintained until the last of August, when a further advance took place in consequence of an agreement among the manufacturers to

LIMIT THE OUTPUT.

for 1886, which was fixed at 775,000 tons, but no restriction was placed on the price. From August to November prices steadily advanced as a result partly of restriction of production, which has been determined on, and partly of the general improvement which has taken place in the business of the country. In the last named month, and in December, sales were made at \$35. The manufacturers enlarged the limit of production for 1886 to one million tons, "but," says Mr. Swank, "prices of pig iron, bar iron, nails, steel rails, and other forms of iron and steel, could not have advanced in the last half of 1885 if there had not been an increased demand for these products. After September this increased demand became everywhere noticeable, and it has continued without interruption to the present time. This is after all the most gratifying feature of the revival in iron.

IRON AND STEEL INDUSTRIES.

If there were no threats to-day of a tariff revision the promise of 1885 would be bright indeed. Not to borrow trouble, however, it can most positively be said that a feeling of confidence in the future of business now prevails throughout the entire country, and we have entirely recovered from the effects of whatever panicky feeling prevailed a year or six months ago. The uncertainty about silver may excite financial circles, but it is exercising no injurious effect on general business. Although complete statistics are not in, it is certain that we made almost as much pig iron and as many steel rails in 1885 as in 1884.

THE RAILROAD BUILDERS.

In 1885 were more active than in any year in 1884 were supposed they would be. In 1884 we built 3,950 miles of new railroad, and in 1885 we built over 3,000 miles, which is 500 miles above estimates for the year, that were made as late as July. We shall do better in 1886. The European iron trade exhibited no symptoms of a revival in 1885, but on the contrary the backward movement, which has from the first more than kept pace with our own depression, continued till the close of the year. Taking the iron making countries of Europe as a whole, the iron trade situation to-day that grand division is much worse to-day than it was six months ago.

A Well Known Electrician's Death.

CINCINNATI, Dec. 29.—Capt. Ed. C. Armstrong, the well-known electrician of this city, died this evening of consumption. It was through his efforts that the system of police patrol wagons and signal boxes, now so valuable to the police department of this city, was adopted. He also perfected police telephone communication in this city, which is believed to be the most satisfactory in the United States. He was quite a young man. His brother Frank was for many years superintendent of the Western Union Telegraph company at this point.

Just a Little Quake.

BLOOMINGTON, Ills., Dec. 29.—The inhabitants of this city were alarmed last night by a shock of earthquake, the noise accompanying which resembled closely that made by the firing of artillery. No damage was done to property, although the force of the shock was distinctly felt in several large buildings.

For the Creditors' Benefit.

PITTSBURGH, Dec. 29.—Coshocton, Ohio special: J. C. Magaw, dealer in boots and shoes, made an assignment to J. L. E. Euse this afternoon for the benefit of his creditors. The supposed liabilities are \$8,000. Assets \$10,000.

TEN MEN BURNED.

A Natural Gas Explosion at Kittanning, Penn. Results Very Serious.

KITTANNING, Pa., Dec. 29.—As a gas well was being drilled for the Kittanning Iron company, three miles from Kittanning, an explosion occurred about noon to-day in which ten men were burned. The cause of the explosion is yet unknown. Detective Stevenson, who was but a few rods off, extinguished the fires under the boiler, which was but ten feet away from the derrick—immediately after the explosion. He thinks the gas ignited from that, while others say it caught from a spark from a piece of iron which was being sliced. The owners were at the well testing it, and the pressure was so strong that it forced off the derrick. A sheet of flame enveloped everything in the vicinity, burning the derrick and rigging.

An Ex-Senator's Death.

NASHVILLE, Dec. 29.—Ex United States senator James E. Bailey died at his home in Clarksville this morning at 7:30 o'clock, after a protracted illness. In his 63rd year. He represented the state in the senate from 1877 to 1881.

MICHIGAMME MELANGE.

Drunken Footpads "Go Through" an Inebriate Traveler—More Miners Wanted—Miscellany.

MICHIGAMME, Dec. 29.—While Charles Larson, an inebriate Swede, was traveling on the railroad last Friday night, he was attacked and "gone through" by a gang of eight half drunken men near Beaufort station, in Spurr township, and because he had no "bug juice" on his person to satisfy the cravings of his cowardly assailants, was pummeled and kicked in a brutal manner. It is hoped the ruffians guilty of this outrage may be speedily apprehended and held to answer for their inhuman treatment of Larson. If the victim could have had a repeating rifle, and used it thoroughly on the gang, it would have had a good effect in discouraging that class of ruffians.

The Spurr and Michigamme schools will reopen next Monday, after a vacation of eight school days.

Mrs. Jarley's Exhibition.

The exhibition of life-like wax-works, with anatomical movements, given at Austin's hall Monday evening, by "Mrs. Jarley," for the benefit of the Presbyterian church, was more of a success than anticipated by the promoters of the affair. The net profits of the evening's entertainment were over \$65.

The "mistletoe bough" was very charming. The "wax-work" of Christopher Columbus; Capt. Kidd and his victim; the duke; the village editor, and many others were very "natural" (as wax-works) and brought forth liberal applause.

The statutory was among the first ever seen in like exhibitions.

Great credit for the success of the exhibition is due Mrs. H. O. Young, who supervised the preparations and exhibition. Mrs. C. L. Sheldon was also one of the prime movers in the affair, and took a very active part in it throughout.

Got Off Too Easy.

A rare case in which a well known citizen of Ishpeeming played the leading part, occurred at Bessemer a few days ago. The guilty man came here and was followed, but compromised with the father of the outraged girl by paying him \$500.

It is said that the girl was only 10 years old. The brute who committed the heinous crime should have been given the full penalty prescribed by the law. No such case should be compromised by the payment of money.

It is also rumored that the same man is wanted at Bessemer for another offense nearly as atrocious, and that D. F. Foley, the marshal of that town, will come here after him. If this is true, he will not evade punishment for the second crime as easily as he did in the first case.

Handsome and Handy.

I. E. Swift, hardware dealer of this place, has distributed among his patrons and friends, for the coming year, calendars for the coming year. As the calendar for the year is a great improvement over the first, so the last one is better than the second. It is a black and gold affair, and large enough to allow dates to be seen from the opposite side of a room.

One will be sent to each mining company, in the peninsula, and the patrons of the firm here will also receive copies.

Another Cocking Main.

This city is getting to be a great "sporting" town. The second cocking main of the week was held in a barn in town, Monday afternoon, the stakes being fifteen bottles of beer. The fowls fought for 50 minutes, at the end of which time one was vanquished, and the battle was finished. Cock fighting is nearly as brutal as prize fighting, but when one is allowed the other can hardly be put down.

The Ball To-Night.

The grand hall of Robert Emmet branch No. 107, Irish National League of America, will come off at the Superior roller rink to-night. Prof. Crim's full orchestra will furnish music; careful attention will be paid toward securing the comfort of those attending, and there is every reason to anticipate a pleasant time for all who attend.

Enjoyable German.

A very pleasant German was given at the residence of Joseph Sellwood Monday night by Miss Libbie Sellwood. Some twenty couples from this city, Negaunee and Marquette were present, and the hours passed swiftly away in dancing, music and conversation.

Ice Skater's Cup.

The championship cup won last April by Tom Martin, as the fastest ice skater of the peninsula, is open for challenge during this winter or next, as the final holder of the cup must hold it for two successive years.

FOR SALE.—A fine \$125 Kimball organ for \$75 cash. Inquire at the office of Taleen, Johnson & Co.

Taleen, Johnson & Co. carry a full line of dry goods, groceries, and general merchandise, which they sell at bottom figures. Call in and see how cheap they are selling.

Several bargains in roller skates at Jochim's.

Full line of skate repairs at Jochim's.

Send your orders to H. F. Heyn, Ishpeeming, for horse blankets. Chicago prices guaranteed.

The best coffee in the world is standard Java, sold by Taleen, Johnson & Co., and don't you forget it.

Donahoe Bros.' store is full of new goods. Just examine and price them.

As I have made up my mind to keep nothing but Garland cook stoves, I offer several old patterns for sale very cheap. Call and look them over.

Robes and sleigh bells at COST for the balance of the season, at H. F. Heyn's, Ishpeeming.

Booth's oysters in bulk at Austin's. They are not only the best, but the cheapest oysters to be had.

F. BRAASTAD & CO. HAVE JUST received a big stock of clothing. Of course, it is bought for cash, and it is sold at lower prices than at any other clothing store in the city. Just call and see if this is as it is represented. Store, corner Cleveland avenue and Second street.

Buy standard Java coffee at Taleen, Johnson & Co.'s.

Full stock of ice skates at bottom prices, at Jochim's.

A complete suit of men's clothes at Donahoe Bros.' from \$2.50 to \$10.00, worth \$5 to \$20.

Taleen, Johnson & Co. carry a very full line of ladies' and gents' fine shoes, at lowest prices.

APPLES! APPLES! APPLES!!!

At Braastad's store, genuine western New York winter apples, every barrel warranted. It is the best lot of apples in the peninsula, and is sold at reasonable prices.

The Williams & Hoyt, Rochester, children's shoes, made with low heel, of good quality, and warranted to give satisfaction. Have you seen Donahoe Bros.' new stock yet? If not, go at once, and look it over. It will pay you to do it.

Nothing but Barney & Berry's ice skates kept by Jochim.

Half a dozen large second-hand base burners for sale by John W. Jochim.

New flannels, all new manufacturers, at Donahoe's. Never so cheap before as now. Prices will not always stay down, so buy it now when you can get goods at nearly the cost of making.

Ladies' jerseys, fine shoes, corsets, and all other ladies' goods, at Taleen, Johnson & Co.'s.

Braastad & Co. have received their fall stocks, which are, as usual, the largest in the city. By buying wholesale lots and selling in immense quantities they are enabled to sell at lower prices than any other firm in the city.

CARPET BUYERS! YOU CAN SAVE ONE-THIRD on the prices of your carpets by buying of F. Braastad & Co. By means of the new "CARPET EXHIBITOR" you can see from a small sample just how it will look when laid on a large floor. The exhibitor has compound mirrors, and a sample laid in the bottom is reflected from every direction, giving exactly the appearance of a large carpeted floor. Braastad & Co. have eighty samples of the carpets, and when you choose from them your order is sent directly to the wholesale house, and your carpet is cut to exact lengths. By this means there are no cutters and slights at all. Better satisfaction is given than if a twenty thousand dollar stock of carpets was carried, and every purchaser CAN SAVE ONE-THIRD by buying of F. BRAASTAD & CO.

New Year's. The 1st day of January, A. D. 1886, does not appear to be making much of a stir among the children of men at present on the planet, playing at life.

Last winter he painted a marine view which, when sold, brought the handsome sum of \$200, and it looks as if, should he devote himself wholly to art, he could become one of the best marine painters of the day.

Attractions at the Casino. The rink is attended by a very large number every afternoon now and also on the nights on which it is open.

New Year's evening there will be an obstruction race with six entries—a novelty in this city. The admission will be fifteen cents.

Saturday afternoon a grand bon bon party will be given for the children. The grand march will take place at 3 P. M.

Business Meeting. There was a fair attendance at the meeting of the Business Men's Association last evening, and the matters that came before it were quickly disposed of.

Prosperity and Progress. S. Kaufman & Son have determined upon extensive improvements in their store whereby they will have more store room and greater facilities for handling their rapidly increasing business.

A circular stairway will be put in, starting near the front corner of the present office and reaching the north wall of the store about half way up, where there will be a landing from which the second floor will be reached by a straight flight of stairs.

On the second floor there will be four rooms, the first being an elegant dressing room, fitted up with mirrors and fine furniture and carpets, for the convenience of those purchasing clothing at the store.

The arrangement and appearance of the first floor will be greatly changed. The show windows will be changed and fitted with glass inside after the manner of Conklin's model windows, while three side wall cases, also similar to Conklin's, will be put in to hold the stock of hats and caps carried by the firm.

The ceiling will be papered and paneled after the manner of H. H. Stafford & Son's drug store, while the walls will be papered and a heavy cornice run about the room. The office will be enlarged and refurbished, and on the whole the store will be made to look as finely as H. H. or W. K. Stafford's, or Conklin's, the model stores of the city.

Kaufman & Sons have leased the premises for the term of three years beginning May 1st, '85.

Their business has shown a steady and flattering increase monthly since they opened in their present quarters, and they intend to keep as well to the front as possible. D. W. Kaufman will go on the road next month, just as soon as samples for the spring trade arrive.

Work on the alterations and improvements contemplated will begin during the first week in January, the contract already having been let, the reporter understands.

Who is the idiot? There is a proverb which says that "a fool and his money are soon parted."

The reporter can supply another which is as true: An ass and his ammunition soon separate. Some one, at present unknown, is making it altogether too lively with a rifle over in the northwest corner of the city for comfort.

C. C. Van Idersine's residence on Michigan street, between Third and Fourth, was perforated Saturday morning, the bullet passing through the south outside wall, and lodged in a partition wall near the head of a bed.

There happened to be no one in the way of the missile, so the unhappy imbecile who fired the shot did not succeed in killing or maiming a person as usually happens where one of his kind is permitted to handle firearms.

Yesterday morning a shot was fired from a short distance north of Mr. Deverell's residence located on Fourth street, that passed through his yard and an out house, lodging, doubtless in some building far to the south.

Every one who is possessed of discretion sufficient to be trusted with firearms knows that it is against the ordinances of every considerable village in the United States to discharge a gun within corporate limits.

Where there are from one to ten thousand people on a section or two of land, the risk of killing one or more every time a shot is fired is too great to be permitted. Some one should be detailed to look up the

party who is endangering the lives of citizens, and if he is not hopelessly idiotic perhaps a way may be found to break him of the habit.

A Marine View. Yesterday the reporter saw a very beautiful placard, in a hammered brass frame, presented to Miss Mary Northrop, Dr. Northrop's daughter, as a Christmas gift by William Shoemaker, formerly a well known Marquette boy, and now second engineer of the Alpena.

The painting, in oil, is a marine view, the work of William McKittick, chief engineer of the Alpena, whose painting of the J. C. Morse, presented to Mr. Helmer last fall, was for some time an object of great admiration in the window of Stafford's drug store.

Mr. McKittick shows great skill and artistic taste in his treatment of marine subjects as the Christmas gift abundantly shows.

Last winter he painted a marine view which, when sold, brought the handsome sum of \$200, and it looks as if, should he devote himself wholly to art, he could become one of the best marine painters of the day.
