What Can Be Done on a Bicycle.

After the races the champion came on After the races the champion cannot be the track, radiant in a marcon velvet jucket and liveader tights. He showed some wonderful taings that may be done with a bicycle. Before he got through with his exhibition, no one would have been surwheel off ground. Swinging in small circle on the big wheel only. Facing up backward and riding forward. Standing on saddle. Sitting on saddle, the machine being still, and balanced. Machine upside down, mount the big wheel, turn the small one over into place, and start off. Removing the small wheel, ride the large wheel backward or forward. Lay handle bar on the ground, mount the big wheel reach over ground, mount the big wheel, reach over and get the bar, and start off. He suc-ceeded on the third trial and was cheered. Then he removed the handle bar, leaving only the big wheel which he rode. Next he removed the treadle from the big wheel, and, mounting, propelled it with his hands. Next he stood upright, hands in air, and rode the wheel. Then he brought out a common wagon wheel, placed his feet on the bulk on either side and propelled it with the hub on either side and propelled it with his hands. He closed by laying the wheel flat on the ground, suddenly pulling it up-

right, springing on and riding away. This was loudly applauded.

J. J. Finney has assumed the entire charge of Nelson's ice rink, and will endeavor to make the rink a popular resort for the young people of Marquette.

Some alterations, conducive to the comfort of those attending the rink, have been made in the dressing-rooms, etc. Next week some new and novel attractions will be announced. Finney has had ample experience with ice rinks in this city and his attractions always drew well, as they probably will in this case.
