

Daily Mining Journal.

PUBLISHED BY THE MINING JOURNAL COMPANY. A. P. SWINFORD, JAS. RUSSELL, A. HORNSTEIN.

Subscription Rates: One year, by mail, \$10.00; Six months, \$6.00; Three months, \$3.50.

Entered as mail matter of the second-class in the postoffice at Marquette, Mich.

According to the Iron Trade Review, No. 1 specular and magnetic Bessemer ores are quoted at \$6.50 in the Cleveland market.

The senate committee on territories has reported favorably on a bill to admit Southern Dakota as a state.

The Bulletin of the American Iron and Steel Association notes an unfortunate accomplishment of the present improvement.

Detroit's stolid girl-murderer, Stevens, the insensate brute who cut the throat of his affianced bride.

Accident brought Parnell and Gladstone together on the platform of a railroad train—where they remained standing for a few minutes.

The Menominee Range's assertion that it is the C. & N. W. R. Y. should extend its line from Iron River to penetrate the Gogebic district.

Very often the methods by which law is administered through the courts work a defeat of justice.

sealed in death, the prosecution was therefore prohibited from making out a case on the original charge by the rules of the very tribunal before which the miscreant to whose last this innocent girl's life was sacrificed came to receive punishment for his revolting crime.

THE IRON MARKET. In its weekly report on the state of the iron market, the Cleveland Iron Trade Review of the 9th says:

While there is considerable inquiry from parties anxious about their next season's supply of ores, as far as transactions are concerned the market is rather quiet.

The year opens up with a rather quiet market for pig iron, but no more so than might rationally be expected.

CONCERNING COPPER. The Engineering and Mining Journal of the 9th has this report on the condition of the copper market at that date:

There has been a good degree of activity in the market for copper stocks since the advent of the new year, with a strong undertone throughout the list, which is indicative of much higher prices in the near future.

PIG IRON PRICES IN 1888. Cleveland Iron Trade Review: A valued subscriber, one of the oldest foundrymen in the country, thinks our conclusion, drawn from the annual report of the general manager of the American Iron and Steel Association, that 'pig iron was lower in 1878 than in 1885,' is not borne out by the facts.

These figures are valuable for preservation, and prove, not that either statement is incorrect, but that both are true.

though differing from those of the American Iron and Steel Association, also show an approximately similar result. That there should be a difference in prices between the east and the west is not strange.

HIS LAST RESTING-PLACE. A reminiscence of the Explosion of the Steamer 'Star' near Westfield, (Galveston Co., Tex., Democrat).

Two miles and a half to the northward of the city lies a small sand flat, but a few feet above ordinary level.

NEWS FOR THE DAY.

"Mining Journal" Reporters Turn the Crank and the Mill Grinds Out All the Local News.

The Water Works Sell Some of Marquette's Astute Citizens—A Popular Secretary for the Y. M. C. A. Here.

The Ice Rink Receives—The "Mackinaw" Gets There—What Schaffer's Doing—From the Casino Calendar.

Anticipating April First.

It now transpires that the recent difficulty at the water works on account of the slush and ice being packed about the supply pipe was the means of working on many individuals in the city who might be styled an "All Fools Day" joke of huge dimensions.

When the water began to fall because of diminished pressure, a great many householders at once, getting out their lamps and teakettles of hot water, commenced work on their pipes in a vigorous manner supposing that they had frozen up, thereby shutting off the water.

It is related of some that they passed a great part of Sunday in this pleasant pursuit, becoming more and more horrified all the time, when still the water did not run, at the thought of the plumber and his little bill. The "tomato sauce" may not have been brought out, but all the warming pans in the city were and still the water grew. As one man remarked, "I thought it was confounded queer, I never had any water pipes freeze so before, but I hunted all the morning and couldn't find the place where the blank-blanked-blank—blank things were frozen; used all the hot water in the house too."

The New Y. M. C. A. Secretary.

All those who are interested in the welfare of the Young Men's Christian association here will be glad to learn that Mr. W. L. Childster, who for some time past has been in the employ of Westlake & Bronson, has resigned his place with that firm to accept the position of general secretary of the Y. M. C. A. in this city. Mr. Childster has many friends in Marquette during his residence here, and is universally looked upon as a young man of promise, and the association may well be congratulated upon securing his services, not alone because he possesses the confidence of all who know him, but for the added reason that his experience in his contemplated line of work, he having been assistant secretary for a time of the association at Cleveland, Ohio, fits him peculiarly for the effort in which he is to engage.

There is no doubt but that the work here will be accorded a hearty support under good leadership, such as is now promised.

Sure as Well as Short.

The MINING JOURNAL would call the attention of the public to the fact that the "Mackinaw Short Line" is also a sure line this season. It has not missed connections since this winter and all delays which have occurred have been caused by trouble on connecting roads in lower Michigan; as yet none of the delays have equalled in length those on competing roads.

The straits are open and no fears are entertained but that the transfer service will be found capable of meeting successfully all obstacles which may occur during the season.

Charcoal and Cordwood.

The men employed by C. H. Schaffer at Onota, Rock River, and other points on the line of the D. M. & M., have just made a round-up of the cut for the month of December and branded 2,300 cords, which, as the statistically inclined reader has already noted, amounts to nearly a hundred cords for every working day in the month. Most of the wood-cutting now-a-days is done with a saw. "That glorious impetus of civilization—the American axe," to quote from Mr. Cooper, is still the best axe in the world, but it is wasteful and slow compared with its companion tool—the cross-cut saw. Mr. Schaffer is manufacturing large quantities of charcoal now, and is liable to be called upon for a much larger amount.

Exercise Your Maxillaries.

If you don't remember having such articles as are named in the above heading, manager Ross will enlighten you Thursday evening, if you attend the Casino rink, by presenting you with a stick of "tola" chewing gum. Bills are out announcing the event, which will be a "calico tolu party." All the ladies attending are requested to wear calico aprons, while the gentlemen will provide themselves with the latest and most approved styles of calico neckties. As a test of endurance this grand "chaw" will probably surpass anything ever seen in Marquette before. Admission, 15 cents.

On Saturday evening the distribution of presents will occur. One hundred presents, with a total value of \$75, will be given away, each person entering the rink receiving a numbered ticket which will give him a chance at the prizes. The duplicate numbers will be placed in a cylinder and one hundred of them drawn out, after which one hundred numbered tickets, each bearing the name of the article it belongs to, will be drawn by lot to assign to each of the lucky hundred ticket holders his prize. In this way each one stands as fair a chance of drawing the most valuable present as does another. The admission will be twenty-five cents, and a great crowd will undoubtedly turn out on the appointed evening.

Deposed, He Takes His Life.

The following account of the suicide, in St. Louis, of Rev. H. D. Jardine, is given as of local interest because it introduces the name of Rev. Dr. Betts, of St. Louis, who delivered an address in this city last summer before the Irish National mass meeting, and preached in the Episcopal church one Sunday during his stay here. Quite a sensation was produced when late Sunday night the coroner announced that the Rev. H. D. Jardine, who was some weeks ago convicted before an ecclesiastical court at Kansas City, had committed suicide here. It appears that Jardine, since his arrival here some days ago to consult with his attorney regarding his case, has been lodging in the vestry room of Trinity church, of which

father Betts is the rector. Last evening, Jardine and his attorney, Mr. Harrison, and father Betts had a prolonged conference in the vestry room, during which Mr. Harrison very decidedly expressed the opinion that bishop Robertson would not grant Jardine a rehearing of his case. This had some effect upon Jardine, and he manifested considerable feeling, repeatedly declaring his innocence of the charges for which he had been tried, and the justice of his demand for a new trial; but when father Betts and Mr. Harrison left, about 1 o'clock Sunday morning, it was not thought that Jardine was seriously disturbed.

When father Betts arrived at the church early in the morning he observed Jardine still in bed, and did not disturb him, but went on with his early services. Later the sexton of the church went to the vestry-room to wake Jardine and found him in a deep sleep and breathing heavily. He immediately called deacon Dyer, assistant to Betts, who on entering the room detected chloroform and at once sent for physicians. On the arrival of the doctors they discovered that Jardine had taken chloroform, and immediately adopted vigorous measures to restore him. After three hours' continuous efforts, however, they announced that he was dead.

A Jolly Time on Ice.

To-night will be the first grand attraction night of the season at the City Ice rink. Four races will take place, the first, a huckleberry pie race, being an entire novelty here. The contestants will be given a chance to eat a huckleberry pie while having their hands tied behind them, which will probably cause much amusement.

The other races will be a barrel stove race, a flour barrel race and a race with wheelbarrows, and all who have ever seen such races upon the ice do not need to be told that they invariably excite side-splitting laughter.

A large crowd will undoubtedly be in attendance, which will add to the pleasure of the skating, while the reporter understands from those who frequent the rink that finer ice could not be asked for than that manager Finney now has ready for his patrons every night.

To Reside in Chicago.

The MINING JOURNAL received yesterday a very pleasant letter from R. D. Stevens, the former manager of the Casino rink. Mr. Stevens extends congratulations for himself and Mrs. Stevens to the members of the Casino polo team for their recent victory over the Adelphi's of Negaunee, regretting exceedingly that he could not have witnessed the game. He adds, "Tell the boys I'm proud of them."

His friends in this city will learn with pleasure that Mr. Stevens has secured a good position with a music firm in Chicago, whether he will soon go to enter upon his new duties. His address will be 31 South Carpenter street, Chicago.

For the New Asylum.

Sheriff Oliver, of Delta county, passed through the city yesterday on his way from Escanaba to the new state insane asylum at Grand Traverse. He had with him two patients for that institution, one a German, and the other a woman insane on religious subjects. He could do nothing whatever with the woman, and therefore had her cared for by an attendant. She was under the impression that she was going to some religious meeting in lower Michigan, and was perfectly quiet when the sheriff was not near her, so he used every artifice to make her think he was not traveling with her.

Annual Meeting Yesterday.

The annual meeting of the stockholders of the First National bank was held in the banking rooms yesterday morning for the election of directors and officers.

The polls were open from 10 to 12 o'clock and the election resulted in the re-election of all the old directors and officers.

REPORTORIAL PENCILINGS.

The German Odd Fellows advertise a masquerade to come off on the evening of the 10th of February.

Born yesterday afternoon to Mr. and Mrs. Richard Blake, a son. Pencillings offers congratulations upon the ten-and-a-half pound arrival.

Andrew Dunleavy received a caller at his residence yesterday in the shape of a son and heir. He is now receiving the congratulations of his friends thereon.

The Boy's Mission Band meets at the residence of Mrs. H. H. Stafford this evening to hear some letters, concerning Alaska, written to them by Gov. Swineford.

The Marquette band, which, by the way, is re-organized under its new leader, plays very good music, will be in attendance at the ice rink to-night, to add to the hilarity of the occasion.

Yesterday was the most brilliantly illuminated bit of time this year, and last night was but little behind hand, as Venus and the moon were feeling first rate and made light of their task.

Big doings, including a dance and supper, are being talked of for the 23d of February—G. Washington's birthday—by a local branch of a national organization. Particulars will be given in a few days.

If the snow-shoe club orders shoes from Montreal and the authorities quarantine the goods on account of small pox until the snow is all gone, can the snow-shoe club make the government pay for fun lost?

Nick Barth had an illumination last night and will have one rightly hereafter, as he has one of the new auto-carbon lights already in position and will soon have another burning. The new light is making new friends all the time.

Pencillings observed a row-boat outside the breakwater yesterday afternoon, occupied by some "venturesome cuss" apparently bent on pleasure. The tugs opened a channel and went out as usual, and the row-boat chap evidently followed in their wake until he reached the clear patch of water just beyond the breakwater.

To-night the Casinos play their return game of polo in Negaunee with the Adelphi's. It is rumored that the Negaunee team desires to run in four-foot goals on their visitors, which is contrary to the league rules, the rules calling for six-foot goals. With four-foot goals and three-foot goals the Adelphi's would stand a very good chance of winning, but it is quite probable that the Casinos may not take kindly to the abbreviated goals; they've played polo before.

The air that is being supplied from the northeast these days is good, and it is all that could be desired for family use. The man or woman who can find ought to complain of it it would discover humility in a baking powder ad. It always comes in bulk, and is as free as salvation at a camp meeting. Sometimes the temperature is a trifle low for a fancy patent air, and occasionally the supply is a little in excess of the demand; it is also given to howling around nights, and making strange and uncouth noises about corners and gables, but as a breathing material, and for putting

color in a man's face or courage in his heart, it is not exceeded by any that the world whirle around.

There is a general desire on the part of the young men of the city who are employed indoors for a gymnasium. Under intelligent direction a gymnasium is one of the most potent agencies for good that a community can be blessed with; otherwise it is productive of a great harm. There is now in the city a young gentleman, recently from Chicago, who is thoroughly schooled in all branches of the art of physical development, he having for years been recognized as one of the best gymnasts in the Y. M. C. A. gymnasium in Chicago, who is willing to undertake the direction of such an institution, and were a suitable room and appliances available, a class sufficiently large could be found so that the expense would be very moderate. If those who would join such a class will send their names to "Pencilings," care of MINING JOURNAL, he will arrange for a meeting at an early date, and will notify them of the time and place by postal.

PERSONAL MENTION.

Mr. and Mrs. August Koeb started for Buffalo yesterday, to visit friends in that city.

John O'Callahan, of Norway, is now in the city. Business calls him here for a few days.

Henry Orth, of Moran, Mackinaw county, is in the city and visited the MINING JOURNAL office yesterday.

Mayor Thurber is expected back to-day from a visit to some of his lumber camps on the D. M. & M. line.

Capt. Wayne Hursley and wife, of Pequaning, passed through the city yesterday en route for Canada, there to visit their former home.

George McCombs has charge of the M. H. & O. ticket office in this city during the absence of Mr. J. N. Williams, who is away for a two weeks' vacation. Mr. Williams will get as far as St. Louis before his return.

TO CITY SUBSCRIBERS.

Subscribers failing to receive their paper regularly will confer a favor on the publishers by notifying them at once. We are making every effort to secure prompt delivery of papers, and can only tell when a subscriber is skipped when notified of the fact.

BUSINESS LOCALS.

Smoke Te Amo cigars, the best dime cigars in the world. 12-26
