The query may have occurred to some while listening to this report: Why do you not say something about iron? Can't iron and anything made of iron be manufactured in a country world famed for the quantity and quality of its iron ores.

Paradoxical as it may seem, your committee is of the opinion that Marquette does not pre sent the most favorable spot in the world for the manufacture of everything made of ironbut is, however, just as strongly of the opin ion that for the manufacture of some things it does present itself as a favored spot-and first of these is pig iron. This foundation article in the iron manufacturing business can be made in Marquette, and no favors asked of any other locality which markets its product north of the Obio river and west of Lake Ontario. Our competitors are located valley in Pennsylvania, in Cleveland and in the Mahoning and Hocking valleys in Ohio, and in Chicago and Milwaukee. They use our iron cres; they transport 1% tons of ore to produce one ton of pig iron: they use one ton (gross) of coke, on the average, to each ton of pig metal produced. Suppose now we should bring that ton of per minute Average volume of blast, 16,000 cubic feet coke to Marquette—in some of the many empty ore barges running to this point from Cleveland, Ashtabula, Eric or Sandusky, from all of which points coke and coal is shipped—and with it make a ton of pig iron from the same 1½ tons of iron ore which it was intended to ship to some lake point for transportation to the interior furnace. By weight we have carried ½ of a ton less and of course have saved freight on at least that much, but as a matter of fact there is a greater saving, for the freight is less on a ton of coke than on a ten of iron ore.

Too much stress can not be laid upon the Too much stress can not be laid upon the advisability of airing beds thoroughly. To carelessness in this regard may be attributed the close offensive odors which frequently meet one, not alone in the homes of the poorer classes, but in the bed rooms of the high-priced hotels. It is not enough to turn down the coverings, only to draw them back half an hour later. The unsavory fact that the body actually loses weight during a night slumber shows clearly that more vigorous methods of treatment than these are reous methods of treatment than these are re-quired to free the bed coverings of the ex-
