QUESTIONS SHOT AT HIM BY THE CONGRESSIONAL LABOR COMMITTEE.

The Alleged Information Obtained From Jay to Be Used in Revolutinizing the Labor Question.

According to His Testimony the Recent Strike on the Gould System Was Unethical and Senseless.

THE LABOR PROBLEM.

GOULD IN THE WITNESS BOX.

WASHINGTON, April 22.—The doors of the room of the house committee on elections were kept closed this morning until the special committee investigating the causes and extent of the labor troubles in the west were prepared to proceed with the examination of Mr. Jay Gould. Across the hall outside the room was stretched a barrier, beyond which were allowed to pass only the members of the committee, representatives of the Knights of Labor, several gentlemen accompanying Mr. Gould, including his counsel, Gen. Swaine and Vice-President Hopkins, the newspaper men and several members of congress who were animated with a curiosity to hear the testimony of

THE GREAT FINANCIER.

As that gentleman arose to take the oath all eyes were fixed upon him, and his response, "I do," was given in a low tone. The chairman—"It is the desire of the committee, Mr. Gould, that you give us testimony in respect to the investigation in which we are engaged, and for the time leave the examination to Mr. Burnes." The witness wished to know the scope of the resolution under which the committee was acting. Mr. Burnes stated that the select committee had been authorized by the house of representatives to investigate the causes and extent of the disturbed condition now existing between railroad corporations engaged in carrying

INTER-STATE COMMERCE

and their employees in the states of Illinois, Missouri, Kansas, Arkansas, and Texas. Mr. Gould—"It is true that the Missouri Pacific runs through some of these states, but at this time we have no difference with our men, and are not, strictly speaking, within the rule of that resolution. But I will be very glad to spend time in talking to the committee, though I hardly think they want to spend their valuable time in talking to me." Being requested, however, to proceed, Mr. Gould went on to give his testimony in a low voice, which was generally calm, but which now and then trembled slightly as though in emotion. At times he removed his gold-rimmed spectacles and wiped his eyes as he carefully passed them with his handkerchief. Behind him sat General Swaine, whom he now and then consulted in an undertone. "On the 15th of April," he began, "we had in the transportation department 3,307, in the machinery department 397, in the engine and firemen department 1,232, in the car department 563, in the road department 2,528, in the bridge department 645, and at our terminal facilities 297 men, a total of 10,737 men, not including the general officers. The operations of our road, and I speak from

THIRTY YEARS' EXPERIENCE.

are carried on in a perfectly regular and orderly way. The trains are all run, and the business we were chartered to do, is being transacted regularly. Here is a dispatch I received since I left New York. This represents the business that was done during the past twenty-four hours: Two hundred and ninety freight trains moved yesterday, containing 4,647 cars, an increase of twenty-four trains and 1,537 loads compared with the same day of last year; quiet at all points on the line, trains doing well. I submit to the committee whether we come within the ruling of the committee." Mr. Burnes—"Please state your residence, age and occupation." The witness—"I reside in New York city; I am 49 years of age; I am president of the Missouri Pacific, and have been since 1879." Mr. Burnes—"We would like for you now to inform us if there has been any interruption to the commerce passing over the lines of road you represent in Missouri, Illinois, Kansas, Arkansas and Texas, and if so what interruption, and so far as you know the cause of that interruption." The witness—"Do you want me to state

THE CAUSE OF RUSSIA.

Mr. Burnes—"Then competition is not the life of trade?" Mr. Gould—"No, sir, and the result would be that wages would be reduced, and the people would be interested in having strong, able roads, well equipped. I have always found that real estate sells higher, and the people would rather live on the lines of railroads that are commercially strong." Mr. Burnes inquired as to the general relations between local earnings and through earnings of railroads, but Mr. Gould declared himself unable to give information on that point. The chairman remarked that he would be very glad to have the scope of the committee's examination enlarged so as to extend to the mineral regions, because if the committee meant

THE EASTERN QUESTION.

France Not Favoring the Corridor of Greece, The Turks Replied.

PARIS, April 22.—It is semi-officially stated that France will refuse to join the other powers in a plan proposed by England to extend Greece into the Balkans.

THE GREEKS VICTORIOUS.

ATHENS, April 22.—On Tuesday night the Turkish advanced post attempted to surprise the Greeks who had been engaged on the previous day erecting earthworks within what was said to be the neutral zone. The effect, however, was not successful, they being smartly repulsed by the Greeks, who pursued the Turks and captured two of their guns. The Greeks then occupied three positions within Turkish territory, which the Greek government has ordered them to evacuate.

THE CANADIAN ROADS.

WASHINGTON, April 22.—The senate electoral count bill with house amendments was on motion of Mr. Caldwell, of Tennessee, made a continuing special order for May 6th. In the morning hour the judiciary committee took the floor. Bills were passed providing for terms of court in Colorado, and changing the eastern and northern judicial district of Texas. At the expiration of the morning hour the house went into committee of the whole. Mr. Wellborne, of Texas, in the chair, on the river and harbor appropriation bill. The disputed

FOR THE UPPER LAKES.

WASHINGTON, April 23.—A. M.—The signal service notes the following as its predictions for the next thirty-six hours: Fair weather in the southeastern portion; southerly shifting in southwestern portion to westerly winds; stationary temperature in the southeastern portion; slightly cooler in the northwestern portion.

SHIPPING GILD TO FRANCE.

NEW YORK, April 21.—More gold bars were bought in Wall street for shipment to Europe yesterday, and the steamship Laborer sailing for Havre to-day takes out \$1,000,000 of the president's gold. It is believed that all of this was for France. That country is drawing gold from all over the world, and is necessarily increasing the amount of its gold by the fact that she is negotiating a loan of \$200,000,000. One of the principal reasons for this is the fact that the remainder is to pay off a floating debt. The gold movement from New York, it is predicted, is likely to last for some weeks.

THE SUPREME COURT.

Opinions in the Cases Cited Below Were Filed Yesterday.

Special to the Daily Mining Journal.

LANSING, April 22.—The following opinions were filed by the supreme court to-day: Affirmed: Detroit Base Ball Club vs. Detroit; Clever vs. Bigelow; Union Insurance Co. vs. Spaulding; Lewis vs. Rice. Reversed: Potter vs. Moran; House vs. House; Pierson vs. Spaulding; Hightstone vs. Burdette; Williams vs. Sears; Peoples vs. Peck; Pierson vs. Peck. In Merrill vs. Gladwin county, mandamus denied.

They Pay No Taxes and Gamble on Their Privileges in Selling to the So-Called Honest Granger.

Efforts to have a Committee Appointed to Settle the Claims of Chinesen Who Suffered Losses by Western Nobles.

THE NATIONAL CAPITAL.

THE SENATE.

WASHINGTON, April 22.—In the senate to-day a large number of petitions were presented from local assemblies of Knights of Labor in opposition to what is known as the free ship bill. To-morrow being Good Friday the senate, on motion of Mr. Edmunds, agreed that when it adjourned to-day it will be till Monday.

RAILROAD GRANT LANDS.

WASHINGTON, April 22.—The senate to-day took up the bill to provide for the taxation of railroad grant lands. It was taken up, Mr. Van Wyck said the people had given deep consideration to this subject, and there was much mystery among them as to why railroad companies should hold undoubted titles to millions of acres of lands and yet be exempted from taxation. Not only, indeed, were the roads not subject to taxation for these lands, but the fact that the exemption was to continue for some years was used by the companies in selling the lands to speculators to their own advantage. The bill would remove the difficulty involved in these cases, counties and communities by the exemption complained of.

THE EASTERN QUESTION.

France Not Favoring the Corridor of Greece, The Turks Replied.

PARIS, April 22.—It is semi-officially stated that France will refuse to join the other powers in a plan proposed by England to extend Greece into the Balkans.

LABOR AND CAPITAL.

The Fight for Supremacy Continues in Various Localities.

This Morning Detectives and Deputies Will Keep Order While Lake Shore People Move Their Trains.

Disorderly Sugar Refinery Strikers Ordered. Street Car Strikers Confined to One Line. Money for the Strikers.

LABOR VERSUS CAPITAL.

ASSUMING THE AGGRESSIVE.

CHICAGO, April 22.—The Shore Railroad company filed a bill in the superior court this morning citing that the company owns certain lands, tracks and terminal facilities in the county, which are now being trespassed upon by sixty men not now in its employ (naming the striking switchmen). The bill recites that these men are interfering with the movement of the railroad company and are in other ways trespassing, and praying for an injunction to prevent further interference with operations of the company. Judge Garnett issued writs of injunction against the men this forenoon, and at 12:40 p. m. a train loaded with two hundred deputy sheriffs left the Lake Shore depot for the scene of the strike to arrest these men and bring them into court. On board the same train carrying the deputy sheriffs were the sixty switchmen who had been employed to take the places of the strikers. The deputies all were armed with heavy clubs.

DISPLACING NO FIREARMS.

The new policemen had also been sworn in as deputies. In addition to the regular deputies, there were forty men from Pinkerton's agency and about sixty men from three other detective agencies. A squad of twenty-five policemen were taken from the Twenty-second street station and posted along the track for some distance north of Thirty-third street, within the city limits. At 2 o'clock the crowds in the yards at Forty-third street had swelled to 2,000 men, which the deputy sheriffs at this hour are trying to drive away from the grounds preparatory to starting out a train.

THE TEST GAME COMES LATER.

CHICAGO, April 22, 6 p. m.—The sheriff has ordered his deputies down town until 9 o'clock this morning, as Deputy Morgan thinks there is no danger of trouble to-night. No other attempt to move trains will be made until to-morrow.

NOTING SIGHTS OF MAKERS.

HUNTER'S POINT, L. I., April 22.—About 1:30 o'clock this afternoon the strikers at the Havemeyer Sugar Refining company's works at Green Point began rioting. The police were called out in full force and attacked the strikers, using their clubs freely, but the strikers, attacking them with staves and bricks. Three policemen were seriously injured and removed to the hospital. One striker was seriously injured about the head by the clubs of the police, and was also removed to the hospital. Several pistol shots were fired, but no one was injured by the bullets so far as known at this time. The driving force of the police was the strikers captured several wagons loaded with sugar and dumped the contents into the street. The rioting still continues.

STRIKE FIGHTING THE POLICE.

HUNTER'S POINT, L. I., April 22.—The fighting between the police and the strikers which began about 1:30 p. m., was quiet about 6:10 p. m., when reinforcements from the 6th, 14th, 8th and 16th precincts arrived, and the 7th precinct men having been supplied with their night clubs, were better able to cope with the mob. This evening covering the rioting, the strikers overpowered the officers, attacking them with staves and bricks. Three policemen were seriously injured and removed to the hospital. One striker was seriously injured about the head by the clubs of the police, and was also removed to the hospital. Several pistol shots were fired, but no one was injured by the bullets so far as known at this time. The driving force of the police was the strikers captured several wagons loaded with sugar and dumped the contents into the street. The rioting still continues.

STRIKE PLACES THEM.

NEW YORK, April 22.—All the great sugar refineries in Williamsburgh and Green Point—with two exceptions—were locked up this morning and the workmen went on a strike. The owners say they have no objection to the strikers going to work and profess to regard the situation with equanimity. The men who struck have been receiving \$1.35 per day, and ask for \$1.75.

FORCING THE POINT.

ST. LOUIS, April 22.—Another step in the aggressive warfare of the strikers, Knights of Labor upon the Missouri Pacific railroad was taken this morning at 10 o'clock, when the five hundred employees of the Missouri Car & Foundry company stopped work and joined the strike in obedience to an order of district assembly No. 17. This move had been contemplated ever since the Knights found that the company were supplying repair material for the Missouri Pacific and Iron Mountain shops, where it is claimed by the strikers the men are not sufficiently skilled

NOT SUFFICIENTLY SKILLED.

to make their material. A committee from the Knights called upon the vice-president of the company and informed him that unless they ceased furnishing repair material to the Missouri Pacific and Iron Mountain companies, their men would be ordered out. The vice-president replied that these two companies were among their best customers, and that they would continue furnishing them as long as they were able to fill all of their orders. The committee then retired and issued an order to the Knights of Labor employed by the company to quit work this morning. The order was afterwards sent to the executive board, who endorsed it, and the men struck. From that part of the country.

LET'S FOR THE STRIKERS.

ST. LOUIS, April 22.—The executive board of the Knights of Labor received up to noon to-day for the strikers' fund, \$1,000 in dollars, and a telegram from the east stating that \$20,000 had been forwarded from various furnishing them as long as they were able to fill all of their orders. The committee then retired and issued an order to the Knights of Labor employed by the company to quit work this morning. The order was afterwards sent to the executive board, who endorsed it, and the men struck. From that part of the country.

THE STREET CAR FIGHT.

NEW YORK, April 22.—A representative of the executive committee states that the board has determined that the strike shall be continued to the Third avenue road unless in case of a combination of the roads against the strikers. The other roads are warned by the strikers to keep away from Third avenue during the strike. The men will be paid from the fund of the association as though they were at work. The question of a general tie-up will be held in abeyance.

IMMUNITY from ANNOYANCE LAMP CHIMNEY "PEARL TOP"

Mining Journal PUBLISHED BY THE MINING JOURNAL COMPANY.

THE DAILY MINING JOURNAL is published every week-day morning, at Marquette, Mich., and contains the Associated Press dispatches, in addition to special reports from all points in the upper peninsula.

GRAND RAPIDS, the great furniture manufacturing town, is apprehensive of a disagreement between the factory owners there and their workmen, growing out of the demand of the latter that the eight-hour system shall be adopted in all the furniture establishments.

WHAT has become of the upper peninsula press association? It is not about time that the proper officers commenced to arrange for an excursion to some of the famous mines, canals, harbors and other places of interest in the upper peninsula?

Respectfully submitted to the revered head of the association, Col. Van Duser, of the Escanaba Iron Fort.

The mill companies in the Saginaw valley will attempt no evasion of the ten-hour law, and are starting in for the season on the basis established by that enactment.

It is stated that there is a strong movement on foot in New York in favor of abolishing the ward system of electing members of the municipal council.

the little widow was dismayed. Her regular patrons began to forsake her; her trade shrank from day to day, and grim disaster stared her in the face.

But she pluckily adhered to her resolution not to submit to arrogant dictation in her business, and the modest bakery was kept open for customers who cannot, while the big, burly boycotters kept guard about the place to see that those whom they had warned not to trade there obeyed the decree of the union.

Very soon the people of the great city heard through their newspapers of the unmanly persecution of which Mrs. Gray was the victim.

Mr. E. S. Houghton, has the contract for building the new Northwestern hotel and restaurant, and they in turn lay the blame back on the old bridge company for assuming that the foundation was secure.

PECULIARITIES OF GAIT. THE AWKWARD MANNER IN WHICH SOME MEN AND WOMEN WALK.

A Terrible Impression in the Mind—The Matter Was a Trio of Young Ladies Who Could Not Walk—All Owing to Early Neglect.

"Look at that fellow's foot!" The request was delivered in a tone of command by a gruff, gut-gutted, and observing gentleman to a reporter, as the two were gazing at the passing through on Sixteenth street one evening.

The newspaper man looked in the direction indicated and beheld the object of his friend's remark. The foot was attached to the leg of an equally-dressed young gentleman. The foot indicated was the right foot, and it was only of moderate size, but it made a terrible impression in the mind which carried the place where the crossing usually exists at street corners.

"Rightly said, rightly said," said the gruff man, looking time with his words to the effect of the stylish young gentleman. "That young fellow hasn't yet learned what a child ought to have done during its first year on earth. He hasn't learned to walk."

A PECULIARITY QUITE COMMON. The word "peculiarity" is a word which is used in a peculiar manner by the reporter soon learned is quite common—he turned the right foot "in" and managed the other one properly with the toes turned slightly "out."

The next man who came by the watching pair was a short, stout man. He was hurrying along, breathing short, and peering freely. He had a very black cigar in his mouth, and he blew out a short, thick puff of smoke, with every breath, averaging two puffs to every step.

A TALKATIVE TRIO OF YOUNG LADIES. He recovered his balance in a moment, however, and also came three young ladies, side by side, and all talking at once. Each one had a "foot" on the right foot, and the third, apparently "in" the "in," turned "in" the "in" upon the "in" foot in such a case as would make the other one as well right, with its three brass attachments smoothly and evenly worn.

Of twenty-five people inspected by the self-appointed committee of two, there were only a half-dozen who walked gracefully and with ease. The rest were in various stages of awkwardness, and the other cases were only due to their manner of managing their feet.

The habit of turning "in" one foot was noticed to prevail, especially among ladies. "That's all owing to training," said the gruff gentleman. "Most girls learn to talk before they learn to walk, and they carry the habit of ladies talk more and better than they walk."

The gruff gentleman was a bachelor. "The people who train them think of telling them how to carry their heads and their hands, how to smile and how to throw their shoulders back. They show them how to manage a train and how to hold their fans, and they forget all about their feet, excepting to caution them about wearing shoes large enough for them, unless the girls have corns or are going to dance."—Denver Tribune-Republican.

NEGATIVE.

There is still considerable snow in the woods. Some of the teachers took a lesson in equestrianism yesterday.

The local reporter has been decked with arbutus. He returns thanks.

Dr. Lombard has been appointed health officer by the common council in place of Dr. A. C. McKenzie, who resigned.

On Monday night there will be a grand ball at McDonald's opera house, given by the juvenile band. Tickets, fifty cents.

Merchants on Iron street should spend a few minutes each morning in wetting down the road. Too much dust for comfort.

The sacred drama, Daniel in the Lion's Den, will be rendered at the Methodist church to-night. Admission, twenty-five cents.

Two cars of hoisting machinery were shipped from the Saginaw mine here to the copper mine on the Gogole range yesterday.

Dr. Allen reports the diphtheria cases at the lake as slightly improved. However, the worst is not yet over, and precautionary measures should not be dispensed with.

On account of the celebration of the Odd Fellows on Monday night, Manager Gordon has decided to withdraw the "Grand Masquerade." He will give a grand ball skating and dancing on Friday evening, April 30th.

Wednesday night the saloonkeepers met and organized at McDonald's opera house. Their purpose was not learned, but it was probably to resist the Sunday movement. This, if they so choose, they can do quite effectively, and the petitioners will not find smooth sailing.

The public is divided on the question, and if not carried now it will probably be the issue in the next spring election.

Still in Deep Water. The M. H. & O. road had but got their derrick engine on the track when the water raised and moved the track twenty-five feet in a distance of 800 feet, at Champion. Train No. 6 did not get into Negaunee until nearly 9 o'clock.

The cars of fresh meat which were held here for several days are on this side of the wash-out and are likely to remain there for a couple of days yet.

Mr. Newman's Successor. It is thought that Mr. Newman's successor will be Mr. Houle, of Michigan. Mr. Houle worked under Mr. Newman at Negaunee for a number of years, and has many friends here who will welcome him on his return.

The Arbutus Party. The arbutus party was a little late in getting a start, but when started it made good time for the hills. Plenty of "our beauties" were found, but arbutus was not so abundant.

PERSONAL. J. A. Devereaux passed through here yesterday. Dr. C. A. Lombard returned from the east yesterday.

John O. Adams returned from Houghton yesterday. Wm. Hobbs Manning returned from the south yesterday.

The jurors returned from Marquette on the noon train yesterday. Miss Amelia Delf will spend her vacation with her parents at Ishpeming.

John Jones, one of Ishpeming's enterprising men, was in the city yesterday. Ed. St. Julien got home Wednesday from a six weeks' visit to the Gogole range.

S. C. Brown, route agent of the American Express company, came up yesterday. Ed. Delf was on the sick list yesterday. John Block successfully filed his place.

William P. Healy, of Marquette, was detained here last night by the delayed train. Mr. Brown, formerly conductor on the M. & W. passenger, was in the city yesterday. He is now dealing in real estate at Sault Ste. Marie.

WANTED—A good girl to do housework. Good wages will be paid. Apply to EDW. LOBB.

FOR SALE CHEAP. One Perry road cart, the best two-wheeled wagon made; one light single harness, rubber trimmed; one light double harness, nickel trimmed—all new. Inquire of M. A. GIBBS, Negaunee, Mich.

Have you seen the new millinery stock at Mrs. Roberts'?

Smoke "Right Hour" tobacco. Manufactured only by F. J. Adams & Co.

The finest display of trimmed goods in the city can be seen at Mrs. W. H. Roberts'.

Brocades, dress goods, gros grain silks, cashmeres of all shades, newly received at Danahoe's brownstone store.

Parisian novelties in dress goods in all the newest shades and colors, green, antique, brown, white, blue, and black, Swiss and oriental Hamburg edging, colored lace and embroidery, also a new line of hosiery and gloves at Danahoe's.

One hundred millinery patterns at Mrs. W. H. Roberts' millinery store.

Ask your grocer for U.S. soap. 3-21

New goods in every department at F. Brandt & Co.'s general merchandise store.

Allen H. Wristley's toilet soaps are elegant.

ISHPEMING'S NEW COUNCIL.

It Got in a Good Evening's Work at Its First Meeting—A Synopsis of the Proceedings.

The Newly-Elected Officers—All Capable and Reliable Men—Miscellaneous Items of Local Interest.

The Municipal Legislature. The first regular meeting of the new common council was held at the council rooms Wednesday evening, Mayor Melby presiding. A full board was present.

The representation of the various wards in the council is as follows: First ward—M. B. Toutoff, Henry Routhier; Second ward, O. E. Downing, Joseph Scoble; Third, Theo. Bargh, J. F. Grip; Fourth, D. H. Bacon, W. E. Paynter.

It was moved and carried that the order of business governing the old council be adopted by the new.

The minutes of the last preceding meeting were read and approved, after which the mayor approved the following standing committees:

On finance and taxation—Downing, Bacon, Routhier. On claims and accounts—Bacon, Bargh, Paynter. On fire department—Toutoff, Bargh, Grip.

On streets, alleys, bridges and sidewalks—Grip, Toutoff, Routhier. On police—Scoble, Downing, Paynter. On purchasing and printing—Bargh, Scoble, Downing.

On motions, petitions and resolutions—Paynter, Toutoff, Scoble. On water works and sewerage—Bacon, Grip and Bargh. On health—Routhier, Toutoff and Downing.

A petition from S. Johnson & Co. and others, asking that the course of Portage creek be straightened and improved so as to prevent overflows, was referred to the committee on sewers and streets, with power to act.

The following gentlemen petitioned for appointment to the following offices: For street commissioner, John Wagoner; for marshal, John Harbour, William Markert, James Piper; for night watch, Charles Archer, John Olson, J. H. Reed, E. Sundberg, Gustaf Peterson, John Kjosboe, Frank Vician, John B. Lavigne; for librarian, Jabez Trebbleck.

Claims against the city were read and referred to the proper committee, with instructions to report same at the next meeting, except those of the water works, which were reported favorably and ordered paid.

From the report of the chief of police for the year ending April 18th, 1886, it appeared that the whole number of arrests made during the year, under the city ordinances, was 105, and that the whole amount of fines collected from the same was \$128. Prisoners were given board in the city jail 90 days, in all.

From the reports of Anton Backer and Cornelius Komty, justices of the peace, which were read, it appeared that a majority of offenders were given 30 minutes to leave the city, and that they got out of town within the specified time. This is an effective method of ridding the place of undesirable characters.

The report of the street commissioner, presenting claims amounting to \$19 against various persons and corporations for services showing snow, were referred to the recorder, with instructions that he notify the parties of the nature of the claims and the amounts due. Among those who were found to be owing the city were ministers of the gospel, churches, judges, ex-aldermen, ex-mayors and other citizens of prominence and respectability. They will all have to pay.

A petition from Frank Wasley and others, asking that a sewer be constructed on Second street from Enclid street to Partridge creek, was referred to the committee on sewers and streets.

On motion an informal ballot was taken for marshal, nine votes were cast, of which John Jones received 5, John Harbour 3, James Piper 1. The second informal ballot stood 5 for Jones, 4 for Harbour. On motion, it was made formal, and John Jones was declared elected.

An informal ballot for city attorney gave A. B. Eldridge 7 votes, T. J. Dunton 2, one blank being cast. The ballot was made formal, and Mr. Eldridge was declared elected city attorney. John Jones was elected street commissioner on the second ballot.

On an informal ballot, afterward made formal, Frank Vician received 7 votes for first night watchman, C. Archer 1, blank 1. On an informal ballot for second night watchman, Gustaf Peterson received 5 votes, Charles Archer 3, blank 1. On the formal ballot Peterson was elected, receiving 7 votes.

For librarian Dr. E. W. Fiske received 8 votes, Jabez Trebbleck 1. The vote was made formal, and Dr. Fiske was declared duly elected.

M. M. Strumwall was appointed city street-lamp lighter for the ensuing year.

For deputy-marshal, Stephen Collick received 10 votes, Fred Vician 1, Gustaf Peterson 2, on an informal ballot, made formal on motion.

The bond of Timothy Hughes in the sum of \$75,000 was presented and accepted by the council.

The bond of the marshal was fixed at \$1,000, and of the street commissioner at \$500, to be presented at the next meeting.

The bond of John Cassin, as constable, was referred to better securities.

The bonds of John Harbour and Gustaf Peterson, as constables, were accepted.

The liquor bonds, 20 in number, were laid on the table for consideration at a special meeting to be held here May 1st.

The finance report of the city recorder was read and referred to the committee on finance, with instructions to compare with the books of the city treasurer.

O. E. Downing was elected president pro tem of the board of aldermen.

It was voted that the recorder be instructed to furnish new cards containing the order of business and standing committees, and insert between orders of business No. 11 and 12 a new order denominated "new business."

The committee on salaries was instructed to fix the salaries of the city officers for the ensuing year and to report same at the next meeting of council.

Moved and carried that the regular meetings of the common council be held at 7:30 P. M. on the first and third Wednesdays of every month.

The council then adjourned.

The New City Officers. John Jones, the newly elected marshal, needs no introduction to the people of Ishpeming. As a native, and as a marshal once before, he discharged his duties to the satisfaction of the public. Twelve years ago he was Ishpeming's marshal, and on Christmas day, 1874, was presented with the gold watch by his carries, as

A PUZZLE.

The Greatest Wonder of the Nineteenth Century.

The best diamond experts find it really a puzzle to distinguish the beautiful Rudgetone pebbles from the genuine diamonds. The latter, fire and life of these wonderful gems are a marvel. Made up in jewelry for ladies and gentlemen, in solid gold diamond mounted. The cost of this great novelty is only about one-fourth (1/4)th of real diamonds.

They are now on hand in large quantities. They have no foil backs. We are headquarters for the only genuine article in these goods at wholesale and retail, and have been established in the wholesale jewelry trade here since 1875.

CITY GATHERINGS.

A Visit to the Marquette Brownstone Quarries.

Crossman's Miniature Engine Beats 'Em All. What the Wild Wares Are Saying on the M. H. & O.

The Casino and Vineyard Cross Streets—A New Settling Firm—Clean Streets. Circuit Court Notes.

What Furst, Jacobs & Co. Are Doing. Yesterday morning the reporter paid a visit to the brownstone quarries of Furst, Jacobs & Co. to make a note of the improvements in progress.

One old gang of saws will be used, and one new one of an entirely different structure; probably a second new one will be added during the summer.

The foundation for the new machinery is of the most solid description. There is a bed of masonry eight feet thick, twelve feet wide and thirty feet long.

The gang being thus independent of the building which covers it, it will be impossible for it to give or shake.

Over seventy men are now on the payroll at the Marquette quarry, while at Portage Entry the company has sixty more at work.

Last month about three cars of stone were shipped every day; the company has been shipping steadily, the stone having been taken out last season.

The Troublesome Water. High water is still causing delay on the M. H. & O. The Sturgeon river swamp is flooded and the water covers the track for over two miles.

Some of the reasons on yesterday's train say that it was a novel and in many ways a comical ride.

Clearing the Streets. The street commissioner attacked the streets this spring with commendable promptness.

Circuit Court Notes. Schneider and Jerry et al. the jury gave judgment for plaintiff for \$275.50.

REPORTORIAL PENCILINGS. Mrs. Gleason is building a new house in the rolling mill district, near the quarry office.

A Marvel of Mechanical Ingenuity. Last evening the reporter was shown the most marvelous piece of mechanism for the work of one man which he has ever seen.

It was built by John Crossman and is now at the Marquette House, where it has been examined by many engineers and mechanics.

The bed is of brass 3 1/2 inches, and to this is fastened the upright brass frame.

The beam is 12 inches long and the large wheel is 1 1/2 inches in diameter.

The engine has a feed pump and oil pump; it also has a waste valve set at a pressure of 50 pounds.

For instance, in the parallel motion there are two straps, the main and light straps, and the latter of these, which is only two inches long, contains twenty-six pieces.

The engine is powerful enough to run several sewing machines, and will attract much attention when placed in Kaufman's window, as Mr. Crossman expects to do shortly.

Mr. Crossman is an Englishman and has handled every variety of steam engines, marine, stationary and locomotive.

The polo game at the Casino last evening was well attended and proved one of the finest games ever played there.

Manager Ross was chosen as referee and before the game began he stepped to the center of the floor and laid down the laws to the manner in which the game should be played.

When the whistle sounded for the second goal, Cameron made a beautiful rush and taking the ball banged it straight into the Vineyard edge from the rush.

The third and fourth goal were won by the Vineyards in thirteen and fourteen minutes, respectively.

The result of the game was not unexpected, as only three out of the regular Casino seven played, yet it was thoroughly enjoyed by the spectators.

The New Bottling Firm. Messrs. Hoch & Heilmann have purchased the bottling establishment in connection with Meeske & Hoel's brewery.

Navigation has opened between Duluth and Superior; the Battle Lloyd reaching the latter port yesterday.

The following table shows the dates that the first vessels passed through the straits during the last thirty-two years.

1854.....April 25 1871.....April 3 1855.....May 1 1872.....April 25

1856.....May 1 1873.....April 29 1857.....May 1 1874.....April 29
