MURDERING TIME.
Senators and Representatives in Their Favorite Role.
The Strain on the Minds of the latter Relieved by Amusing Personal Explanations from Wrathful Members.

They Also Discuss the Benefits of Free Transportation on the Muskogean-Cheng Teau Jan Preparing to Depart.

THE NATIONAL CAPITAL.
THE HOUSE.
WASHINGTON, April 27.—A senate bill was passed extending for two months from April 30th, 1886, the duties of the clerk of the late senator commissioners of Alabama claims. Mr. Bennett, of South Carolina, from the committee on the judiciary, reported adversely a bill to prohibit aliens from acquiring title to or owning lands within the United States. The house was then kept amused for nearly an hour by a personal explanation by Mr. Foran, of Ohio, followed by a similar explanation by Mr. O'Neill, of Missouri, all hanging on a remark attributed by the latter gentleman to the former, that labor troubles should be settled by blood.

SETTLING BY BLOOD.
Mr. Foran denied with much warmth that he had ever made any such statement, and during the course of his remarks said that Mr. Crain, of Texas, and not Mr. O'Neill, was the author of the attribution. Mr. O'Neill replied that ever since he had been chairman of the committee on labor he had been fretted and worried by the sore-headed gentleman from Ohio. The trouble with the attribution bill was that his (Mr. O'Neill's) name was connected with it. If it had been a failure of the gentleman from Ohio would have been enough to have charged it to his humble servant. A number of committee reports were presented, and the bill to establish a SUB-TREASURY at Louisville, Ky., was called up. Mr. Morrison, of Illinois, and Mr. Dingley, of Maine, opposed it, and after further discussion the consideration of the bill was postponed until May 15th. The house then went into committee of the whole. Mr. Wellborn, of Texas, in the chair, on the river and harbor bill. The paragraph respecting free state of Ohio Muskogean river improvements, gave rise to a most opposition, and Mr. Reagan, of Texas, moved to strike it from the bill. Mr. Hewitt, of New York, supported the motion. The government, he said, was becoming the dumping ground of all the unprofitable enterprises of the several states. The states were trying to shift the cost of the maintenance of local enterprises to the broad shoulders of the people of the country. He was utterly opposed to such a proposition. Mr. Wells, of Kentucky, said that the question of

FREE TRANSPORTATION.
was the question of the hour, and if by the appropriation of \$200,000 the United States could free the commerce of the Muskogean river, he could not see the dreadful results. Mr. Henderson, of Illinois, opposed the motion to strike out. Mr. Anderson, of Kansas, spoke in favor of the amendment, which was ruled out on a point of order. Looking to the acquisition by the United States of the Erie canal, Mr. Beckenridge, of Arkansas, agreed with Mr. Hewitt in saying that it was upon people, but he was in authority of those who were now in authority. There had been so much of this, so little of performance on the part of the Democratic party that the people looked to the future with distrust. To enumerate a few of the pledges: The people had been told, especially by his colleague, Mr. Weaver, that heretofore the government had been run in the interest of men of wealth and great corporations, but that now the people were to have legislation in their interests. As a proof of this the gentleman had called attention to the fact that the president

DISTRESS NOW PREVAILING.
was the fact that the people were afraid of those who were now in authority. There had been so much of this, so little of performance on the part of the Democratic party that the people looked to the future with distrust. To enumerate a few of the pledges: The people had been told, especially by his colleague, Mr. Weaver, that heretofore the government had been run in the interest of men of wealth and great corporations, but that now the people were to have legislation in their interests. As a proof of this the gentleman had called attention to the fact that the president

THE TIES OF FRIENDSHIP
existing between China and the United States. This feeling is most earnestly reciprocated by the Chinese minister, and now in taking my final leave from the state, called at the White House to-day and took official leave of the president. In presenting his letter of recall he said: "Mr. President, I desire to separate with you with the many-valued kindness and courtesy which have marked the members of my legation have received during my stay in the city, and the high officers of the United States government have given me these tokens of good will which have given me much pleasure, because of my affection for the government of the United States, and the representatives of the emperor and the government of China, and that they indicate a desire to remain in the country."

CONFIRMATIONS.
The following confirmations were announced to-day: Samuel Flower, assistant treasurer, New Orleans, La. W. West, governor of Utah, C. F. Shoup, part, register of lands, Worthington, Minn. Postmaster James C. Allen, Olney, Ill. J. J. Jeffersonville, Ind. B. G. Gavin, Covington, La. Marshall Birdsell, Emporia, Kan. T. M. Mars, Oregon, Ill. J. K. Wright, Marquette, Mich.

ARE LOSING GROUND.
New York Street Car Strikers Brilliantly Unsuccessful.
The Chicago & Northwestern Railroad Company Flatly Refuses the Request of Dissatisfied Employees at Chicago.

MEMPHIS, April 27.—The levee broke at Austin, Miss., fifty miles south of here, to-night at 8:30 o'clock. This means the inundation of Turnen and Coshoma counties, Miss. Particulars later.

MEMPHIS, April 27.—At 7:30 o'clock to-night the levee on the east bank of the Mississippi river, forty-two miles south of Memphis broke. The levee broke occurred in the fifteen-foot high levee, three-quarters of a mile south of Austin, Miss. A force of men were employed at the time strengthening it, but when it broke they ceased work. The water that will pour through the break will find its way into Beaver Dam, Yazoo Pass, Bull's Creek and White Oak lakes. It is feared that portions of Turnen, Coshoma, Quitman and Sun Flower counties will suffer which if the worst is realized will cause serious loss to farmers who have already planted their crops. The break was ten feet wide when the message was sent, immediately after it happened, and nothing later can be ascertained to-night.

THE LABOR PROBLEM.
STRIKERS LOSING GROUND.
NEW YORK, April 27.—The Third Avenue road ran an increased number of cars on its various lines to-day, and many of the strikers' pickets were driven off the street by the rain. It has been decided by the company to fix a day after which none of the strikers will be taken back under any consideration. It has also been decided to run night cars, starting tomorrow night. President Lyon, of the Third Avenue road, says he will have NO MORE CONFERENCES with the strikers, and that he would prefer rather to confer with them again. Experienced drivers are being sought for in other cities, and when the running of night cars is resumed if the police are unable to prevent them, the governor may call on the company to give military protection to the strikers. It is said that a basis of agreement between the company and the strikers was reached yesterday, one of the terms of which was that the prosecution against the rioters should be abandoned. The grand jury, however, had said the matter up and refused to stop its investigations, so the settlement fell through.

STRIKERS IN THREE STAGES.
NEW YORK, April 27.—This afternoon the street car strikers started a stage from Eighth-sixth street and Third Avenue and ran it to the postoffice. One of the men was named "Frank" from possibilities to Harlem bridge. The strikers will run more stages if they can procure more horses to pull them. \$25 in contributions were put in the box on the drop trip.

PREPARED FOR THE STRIKERS.
NEW YORK, April 27.—It seems that the night before the riot could take the riot in the night of the riot in Green Point, and the day after. It has leaked out also that a SQUAD OF RAIL'S BATTERY, whose headquarters have been in the armory of the twelfth regiment at Broadway and Forty-sixth street, was put on duty night and day, long ago as Wednesday and Thursday of last week. The galling gun was transferred a night or two ago under a strong guard of police to the arsenal, and the battery has since had its rendezvous there. There is an effort on the part of the authorities to keep the matter quiet. The officer in charge of the arsenal says that he is not allowed to give out information.

REFUSES THEIR REQUEST.
CHICAGO, April 27.—The Chicago & Northwestern railroad company to-day returned an answer to the men in the suburban town of Cicero. Some days ago the men requested an advance in wages, and the company refused to grant it. The officers of the company, after fully considering the request, declined to grant it, on the ground that the business of the road did not justify such an expenditure. General Manager Huggitt said to a reporter that while he could not state what the result of the refusal would be, he hoped for an amicable arrangement.

THE COMPANY WAS VICTORIOUS.
BALTIMORE, April 27.—The strike of railway car drivers ended to-day, and for the first time in two weeks the cars of the city were running at night. Many of the old drivers have been taken back, but not more than 200 are to be observed to give places to those who struck. The pay will be \$1.65 for twelve hours work, the company refusing to give \$2 for which the strike was inaugurated.

THE DOCK WALKERS.
CLEVELAND, April 27.—For several weeks there has been a sentiment of dissatisfaction among the dock hands as to ship loading docks along the river, and this morning matters came to a crisis by a general "walk-out" of the men at Pickands, Mather & Co.'s dock taking the lead. About thirty-five men went out, and then proceeded to Todd & Stamm's dock, and then to the Consolidated, and continued down the river and up to the docks along the old river bed, some ten miles, and were prepared for each step and

WENT OUT WITHOUT HESITATION.
Ten cents per ton was the general price paid along the river. At Asbury's docks eleven cents was being paid, and the shovellers paid the dumpers out of the pocket. The men at Asbury's are for a raise to 14 cents per ton, the company to pay the dumpers. The men are quiet but say they will not go to work until their demands are acceded to. About fifty men in all have gone out.

GENERAL ASSEMBLY MEETING.
PHILADELPHIA, April 27.—The general executive board of the Knights of Labor has fixed April 28th as the date for the special meeting of the general assembly of the order to consider the labor crisis. Resolutions of appropriate legislation on this subject. As suggested by the congressional investigation committee, the session will be held in Cleveland.

THE MEN WIN.
BOSTON, April 27.—The difference between the Cambridge Street Railroad company and its employees has been adjusted upon terms which practically conceded the demands of the men.

REFINERS STRIKES QUITS.
NEW YORK, April 27.—The situation of the sugar men's strike at Williamstown and Green Point remains practically unchanged, and everything is quiet.

THE CHINA CLUB.
NEW YORK, April 27.—The grand jury to-day took evidence concerning matters connected with the Third Avenue street car strike, including that of the man who tried to wreck the cable car last night and with the case of Mrs. Landgraf, the boy-cotted baker, but no return was made to the court at the time of adjournment.

CAUSED BY A LEVEE GIVING AWAY.
Three Counties in Mississippi Undoubtedly Under Water—Meager Particulars.

MEMPHIS, April 27.—The levee broke at Austin, Miss., fifty miles south of here, to-night at 8:30 o'clock. This means the inundation of Turnen and Coshoma counties, Miss. Particulars later.

MEMPHIS, April 27.—At 7:30 o'clock to-night the levee on the east bank of the Mississippi river, forty-two miles south of Memphis broke. The levee broke occurred in the fifteen-foot high levee, three-quarters of a mile south of Austin, Miss. A force of men were employed at the time strengthening it, but when it broke they ceased work. The water that will pour through the break will find its way into Beaver Dam, Yazoo Pass, Bull's Creek and White Oak lakes. It is feared that portions of Turnen, Coshoma, Quitman and Sun Flower counties will suffer which if the worst is realized will cause serious loss to farmers who have already planted their crops. The break was ten feet wide when the message was sent, immediately after it happened, and nothing later can be ascertained to-night.

GREECE DISARMING.
Relying On the Powers to Arbitrate Her Difficulties.
The American Vessel Seized by the Canadians For an Infraction of Fishery Laws Has Been Released.

BRITISH TROOPS IN BURMA ARE SUFFERING FROM CHOLERA AND NATIVES' FOMENTED OUDOGHUE WRITES A LETTER.

GREECE.
MANY CONFLICTING STORIES.
LONDON, April 27.—The news from Greece is conflicting, one dispatch states that France did all in her power to secure a favorable settlement for Greece by individual mediation, but failed. It is also said that France did not sign the ultimatum in which the other powers joined ordering Greece to disarm; that she has not yet signed, and if she eventually does sign it, that fact will be communicated to Greece in a separate note. Greece, it is asserted, is seeking certain concessions from the powers in return for disarming. Other dispatches say that Greece disarmed before receiving the ultimatum which ordered the disarming to take place within eight days, and that when Premier Delougues received the ultimatum he declared that it was then objected, as the orders for disarming had already been given. Italy desired the ultimatum to order Greece to disarm within forty-eight hours, but this was rejected by the other powers as too precipitous.

LAZER FOR THE ITALY.
ATHENS, April 27.—All the foreign representatives except Count de Moroy, the French minister, had a long conference this evening at the German legation with commanders of foreign men-of-war now lying at the Piraeus. They discussed measures to be taken in the event of Greece not complying with the ultimatum of the powers. Greece's reply to the ultimatum is expected in a few days. Cabinet meetings are being held constantly. The minister of war will NOT AGREE TO DISARMING the troops, and will tender his resignation if that course be decided upon. At a mass meeting of the war party to-day disarming was discussed. Further meetings will be held to-night and to-morrow. A force of cavalry is held in readiness for action in the event of disorders. Several foreign men-of-war have arrived in the offing.

SHE WILL DISARM.
ATHENS, April 27.—A royal decree has been issued disbanding the reserve forces. The minister of war is returning to Athens from Thessaly.

SUBMITTING TO THE INEVITABLE.
ATHENS, April 27.—The minister of the interior has notified prefects throughout the kingdom of the decision of the government to yield to the powers, who he says will consider the demands of Greece at the proper time.

CANADA.
STRICT JUSTICE HEREABOUTS.
OTTAWA, April 27.—The American vessel seized last week for an infraction of the fishery regulations was released, it being the first offense. In future the law will be strictly enforced.

BURMAH.
CHOLERA AMONG THE THIBODS.
LONDON, April 27.—Lord Dufferin telegraphs from Mandalay that all is quiet there. The country and central districts, however, are much infested with rebels. The cholera, he says, attacked with such violence the forty-third regiment while ascending the Irrawaddy river that the whole regiment had to be disembarked. Fourteen deaths occurred. The dead were buried, the sick were placed in the hospitals, and the healthy soldiers were moved a short distance up the river and there put into camp. The Emir of Haran, by whom the Italian expedition under Count Fero was massed, also captured fifteen Indian soldiers, and afterward released them. The report that a British outpost at Sanklin had been surprised and fifteen Indian soldiers captured by the enemy was incorrect. It arose from the above-mentioned capture of Indians by the Emir of Haran.

ENGLAND.
O'DONOGHUE'S BASH STATEMENTS.
LONDON, April 27.—Thomas O'Donoghue publishes a letter in which he denounces Mr. Gladstone's insidious proposals, which if adopted he declares will result in seriously diminishing the strength, prosperity and glory of England, and in absolutely rending the Irish social system.

MISCELLANY.
EMPEROR WILLIAM HAS SENT THE POPA A costly gold cross mounted with jewels, as a souvenir of Germany's gratitude for the friendly offices rendered by his holiness in arbitrating the dispute between Germany and Spain over their respective claims to the Caroline Islands.

Eugene Louis Gabriel Islay, a noted French painter and author of the picture "Tombstone of St. Anthony," is dead.

Twelve lives were lost during the conflagration in Liska, in Galicia, yesterday, and many persons were injured.

A GLOOMY OUTLOOK.
Rather Dark Picture of Things in the Coal Mining Region.

PITTSBURGH, April 26.—H. M. Jarwall, a prominent coal operator of the Kanawha Valley, in an interview, says the district has a heavy burden on its shoulders. He never has been paralleled in its history, and unless there is an improvement fully one-half of the coal producers in the Kanawha and New River districts will fail. This depletion of the stock of things is attributed to the depletion of the stock of things in the Kanawha Valley, in an interview, says the district has a heavy burden on its shoulders. THE CLEVELAND MARKET.

The is but little change in the status of the iron market, as appears from the report given by the Iron Trade Review, of Saturday, covering last week, and which is herewith presented.

As far as features of interest are concerned, the iron ore market is dull and monotonous.

THE COPPER COUNTRY.

The thirty-fifth anniversary of 1864 Fellowship in America, and how it was celebrated.

An Act of Justice to Mr. Penberthy-Rew

Regarding the Angle of a Beam.

REMARKS, APRIL 27.—On Monday afternoon and evening occurred the grand celebration of the thirty-fifth anniversary of 1864 Fellowship, at Hancock, under the auspices of Joseph L. DeWitt, Jr., and it was indeed a grand occasion, in the true sense of the word. The town was "packed up" for the occasion in a manner that is seldom equaled in our Fourth of July demonstrations.

REPRESENTATIVE SPEAKER of this state, one of the ablest members of the Michigan delegation in the house, is strongly opposed to the Morrison bill. He is a successful business man, and is a politician, and understands how the leading industries of the state will be affected by the Morrison bill.

SENATOR BUCK is said to favor the appointment of Allan G. Thurman, Joseph E. McDonald and George Conkling as members of the national bureau of labor, should the suggestion made by President Cleveland in his special message on the labor troubles be favorably acted on by congress.

IN AND ABOUT ISHPEMING.

Justice Court Jottings—The "Manly Art" Degenerating—Concerning Liquor Licenses.

That "Company" Store Project—Read's Lumber Yard Open For Business—Minor Notes of Local Import.

Before His Honor.

John Robleska, a Hungarian working at the Winthrop mine, confessed to the possession of a small revolver which he had hidden in a hole in the wall of his room. He was fined \$27, which he paid, and promised to be more careful in the future.

The Winthrop location is quite a lively suburb this spring. The joyous vernal season causes the people to feel sportive, and they make things interesting for each other in their simple, unpretending way.

John Bueckler for words to that effect disagreed with Harry Frink about something, and tried to persuade him of the fallacy of his opinions by striking him in the eye. Frink secured a warrant for Bueckler's arrest on the strength of the damaged eye, and at the latest accounts the officers were looking for the Hungarian with the long name and pugilistic disposition.

Captain Harry Adams had a valuable gun stolen from him last fall. Yesterday a man turned up who said he saw Alfred Mitchell steal the gun. He hadn't spoken about it before because he was afraid it might hurt Mitchell's feelings, but he thought it might interest Adams to know where his gun went to. Mitchell will be brought before Justice Kennedy for trial.

An Ignoble "Mill". Prize fights are growing common; and though it is recorded with regret, it must be said they are growing vulgar, too. When two pugilists pound each other for glory and cash there seems to be some principle about it, but when they fight eighteen minutes for a single fist battle of whiskey, as two local sports did Monday, it gets down to a level where it becomes impossible to work much enthusiasm into an account of it. The fight referred to was won in a novel manner by one of the twins, who crammed his opponent's mouth full of mud and drank the whiskey while the vanquished fighter was clearing the subsoil from the roof of his mouth.

Saloon Licenses. On Saturday of this week the saloon-keepers of the city must take out new licenses for the year beginning May 1st. This spring the cash must be paid down, as the law requires that dealers who have not paid when their last licenses expire shall quit business or suffer the penalty, which may mean a fine or imprisonment, at the discretion of the court.

Subsoils will be required by the city council to furnish good bondmen. No straw bonds will be accepted, and some of the retail liquor dealers will find it rather hard to furnish the required securities.

Several new saloons will start in on May 1st, and one or two of the present dealers will go out of business.

The "Company" Store. Nothing further has been learned this week regarding the intentions of the mining companies about building a large company store here. It has nearly always been the experience of such stores that they have either made no money for their owners or have actually run behind. It would be a bad thing for the town to have such a store established here, and it is doubtful if the owners would derive any benefit from it. It is hoped that those who have been thinking of opening a store here will reconsider the matter and decide not to do so.

Beginning Business Again. F. W. Read & Co.'s lumber yard here is in charge of Mr. O. B. Robinson, the obliging owner who was here last season. Two carloads of lumber will be received this week. Then a complete stock will be on hand, and business for the season will be inaugurated.

At an early hour Tuesday morning a man named Harrington, living at the Detroit mine, was set upon and badly beaten by two young men on Division street. Harrington was taken to the hospital, where his wounds were dressed. It is not known what the boys propose having in mind against their victim, unless he beget the traces be surely should not submit to being battered on the street without having redress for the outrage.

The fire department was called out Monday at about noon by an alarm turned over by the discovery of smoke issuing from the roof of the Stensrud building. The fire, which was quickly subdued, was caused to break out by a defective flue. Mr. Stensrud had the offending chimney repaired the next day, and a new one is being built in its stead.

At a meeting of the township board, held last Saturday evening, among other business transacted, the liquor bonds of the following dealers were approved: John Murray, Francis Brown, Christ Fiamholt, Louise Schwendeman, Charles Edgell, A. L. Johnson, Jerry Treudo, George Buck and Peter Dufrene.

BUCKLE'S ARNICA SALVE. The best salve in the world for cuts, bruises, sprains, sores, fever sores, itchy, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or hemorrhoids. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by H. H. Stafford & Son.

ISHPEMING BUSINESS NOTICES.

SEED POTATOES—"Beauty of Hebron" seed potatoes, the best in the world, at C. Melby & Co.'s store. [4-21]

Everything new at Branstad's store.

Tricots and house-pump stockings at Donahoe's.

Have you seen the new millinery stock at Mrs. Roberts'?

ROOMS TO LET—Over Herrwood's drug store; suitable for offices or dwelling. [4-9]

Smoke "Eight Hour" tobacco. Manufactured only by F. F. Adams & Co. [4-18]

The finest display of trimmed goods in the city can be seen at Mrs. W. H. Roberts'.

Brocades, dress goods, gros grain silk, cashmeres of all shades, newly received at Donahoe's brocade store.

Barbican novelties in dress goods in all the newest shades and colors, green, antique, Becca brown, ceru, etc., at Donahoe's.

A NEGAUNEE "WANT."

It is Nothing More Serious Than an Artist of the Camera—Coming Amusements—Better Meats.

A Perplexed Risk Manager—An Extraordinary Gustatory Feast—Business and Other Movements.

A Photographer Wanted.

Negaunee needs a good photographer. Those who wish to obtain photos have to resort to Ishpeiming or Marquette for such work. A good artist would undoubtedly make money for there is a large field here; also good rooms suitable for the work—Pierce's block, for instance. The last photographers were Wolcott & Handricks, who made money while they remained here. Who will supply the want?

Trouble in Finding Dates. Manager Gordon, of the "Adelphi" rink,—which, by the way, is not closed,—has had a deal of trouble lately with his attractions. He advertised a masquerade for the evening of the 26th, but on being requested by the Odd Fellows, willingly withdrew it. He postponed it until the 30th, but has now found that he cannot book against the "Liza Webber" troupe. However, he will give a grand ball—skating and dancing—on the evening of Thursday, the 29th. On Monday night the Clippers and Juniors will play polo.

Champion Egg Eaters. Monday there was an egg-eating contest here the parties to which showed a proficiency that would hardly be looked for in metropolitan gastronomists. One ate eighteen soft boiled eggs. What the other seventeen in twenty minutes. What the score might eventually have been is doubtful, for at this stage the landlady refused to cook any more eggs. Two "jacks," not "knives," however, did the work.

Attraction. Negotiations are now pending with Boyce & Lansing's Musical Comedy Troupe to appear here May 25th and 26th. This is no side show attraction, but is an A 1 company.

Also the Monte Cristo Company with Frank Leuca as the leading actor, will probably be here June 2nd. They will be greeted with a full house, for Negaunee has not been favored with a first-class attraction for so long that every one will turn out.

Will Kill Their Own Cattle. Lloyd Bros. will herd their own dressed beef. They will kill their own cattle at their slaughter house here. A carload of live stock will be received by them in a few days, after which time they will furnish the carniceros public with the best of meat. Lloyd Bros. are building up a lucrative trade, to which they are entitled.

Dr. L. D. Cyr, who returned from Cheshire yesterday, brought with him an armful of the loveliest artichokes the reporter has ever seen. Artichokes has always been plentiful there, but never more so than this year.

The Juniors left here yesterday afternoon, packed like sardines in a covered carriage. They were confident that they would sustain Negaunee's polo reputation.

Blind beggars are becoming entirely too numerous here of late. Some are worthy of the charity bestowed upon them; others are not, and it is hard to distinguish.

In Morse Bros' store yesterday the reporter saw a mammoth Japanese parasol. It is a genuine imported "umberell". They also have a large number of Japanese fans.

Do not fail to read Marshall & Co.'s card among the business notices today. They have a large stock of new goods which they will dispose of at low rates.

Iron Mountain depot No. 122 returned at a late hour Monday night, highly pleased with their reception and treatment while in Ishpeiming.

The ball Monday night was a "grand" success. There was a good attendance, and dancing was continued until early yesterday morning.

Peter Trowell is doing a little amateur carpentering on his building on Iron street. Shingling is in progress now.

The Escanaba band returned yesterday. While at the depot they favored the travelers with some very fine music.

Tickets for the Japanese Tea are now on sale at Cyr's and Kirkwood's.

Charles Martell received a fine lot of booze from last yesterday.

Neil Melrose will take Deif's place in the Adelphi polo club.

Phillip Flisbach has the painting of his building completed.

The tailors are doing a large business here.

Pent Mitchell went back to Bessemer yesterday.

Austin B. Morse returned from Chicago yesterday.

H. J. Atkinson, of Michigamme, was in the city yesterday.

John Taylor, Sr., left for Chicago yesterday, where he will live.

Julius Jacobson returned from Bessemer yesterday to make a short visit to his family here.

James C. Dougherty went to Chicago yesterday, whether he was summoned by his father's sickness.
