SWENSON'S PATENT.

Mr. Plumb's Resolution Directing the Attorney General to Investigate Its Issue

IS, AFTER A LONG DISCUSSION, FINALLY ADOPTED.

Mr. Stewart's Bill Referred to the Committee on Finance—A Meeting of the House Committee on Elections.

THE DAY IN THE SENATE.

A GENEROUS OFFER.

WASHINGTON, Dec. 15.—Among the papers laid before the senate to-day was a communication from the Italian residents of Washington, proposing to present to the United States a marble bust of Garibaldi as a link in the chain of sympathy which binds all free men, champions of liberty and republican governments. Referred to committee on library.

Bills were introduced and referred as follows: By Mr. Call—To prohibit United States judges and courts from authorizing the receivers of railroads and other corporations to borrow money in excess of their net annual income. He moved its reference to the interstate commerce committee. The bill was thereupon referred to the committee on interstate commerce.

Other bills were introduced and referred as follows: By Mr. George—To protect employes and servants engaged in interstate commerce and in the territories and District of Columbia.

By Mr. Hoar—To extend the general land and mining laws over the territory of Alaska. Also to facilitate the settlement and develop the resources of Alaska and to open an overland commercial route between the United States, Asiatic Russia and Japan.

By Mr. Plumb—To forfeit lands granted to the state of Michigan for a railroad from Marquette to Ontonagon.

By Mr. Coke—To limit the jurisdiction of the United States circuit and district courts.

The resolution offered some days ago by Mr. Plumb, was taken up directing the attorney general to investigate the issue of a patent to Magnus Swenson last October, in connection with the manufacture of sugar from sorghum, and, if invalid, to commence suit to have the patent cancelled. (The point being that Mr. Swenson was an employe of the department of agriculture while making the experiments out of which the patent resulted.) Mr. Plumb hoped that the resolution would be a very important one. The resolution, he said, did not imply censure of the commissioner of agriculture, who had been

VERY ZEALOUS AND ACTIVE in all matters relating to the development of the sorghum sugar industry. Mr. Edmunds suggested that there were two difficulties in the way of the resolution. One was that this was the first time, or one of the first times, that the senate had called upon the head of a department to do anything affirmatively in regard to any part of the public business. In some cases the secretary of the interior had been requested to suspend some action, pending action on the subject by congress. Questions of law were committed to the attorney general while acting under the direction of the president. Another formidable difficulty was (not in his own mind, but in the minds of judges) whether the attorney general

HAD A RIGHT to bring a suit to invalidate a patent used by authority of congress. He thought that the resolution should be referred to the committee on patents, and he made that motion. After further discussion the motion was rejected and the resolution adopted. Mr. Butler offered a resolution, which was adopted, directing the judiciary committee to inquire and report whether, in the present state of the law, the government has the power or the authority to institute judicial proceedings to vacate a patent or invention, on any ground whatever. The senate then took up the bill introduced by Mr. Stewart last Monday to provide for

THE ISSUE OF COIN CERTIFICATES to circulate as money, and was addressed by that senator in explanation and support of the bill. The import of the bill is to allow the deposit at any mint or assay office of gold and silver bullion in quantities of not less than five ounces of gold or eighty ounces of silver, and the receipt therefor of coin certificates which are to be a legal tender: to have the existing gold and silver certificates cancelled when received at the treasury; to have no gold coined hereafter except as necessary; to redeem obligations expressly in coin; to have the bullion received under this act melted into bars and deposited in the treasury, and to repeal the act of the 18th of February, 1878, requiring the coinage of 2,000,000 silver dollars monthly. The bill was referred to the committee on finance.

The senate on motion of Mr. Spooner proceeded to executive business, and soon afterward adjourned till Monday.

MORE BILLS INTRODUCED. WASHINGTON, Dec. 15.—Senator Hale to-day introduced a bill to provide that any officer placed on the retired list after twenty years of service by reason of a physical defect, which was not a disqualification at the time of his original entry into the service, shall be held to be retired for disability incident to the service.

Senator Palmer to-day introduced a

bill to increase to \$2,000,000 the limit of the appropriation for a public building at Detroit, Mich.

The bill introduced by Senator George to-day to protect employes and servants engaged in foreign and interstate commerce, declares that they shall be entitled to recover damages for any injury sustained through the careless, negligent or unskillful act or omission of their employers or masters, or their fellow servants engaged in the same service.

Senator Butler to-day introduced a bill to license railway conductors engaged in interstate commerce. It provides that no railroad shall employ any person as a railway conductor upon any train engaged in interstate commerce unless the person is licensed as provided by the act. It provides for a chief examiner who shall have had five years service as a railway conductor; and for supervising examiners to constitute a national board of examiners, which shall establish all necessary regulations. The supervising examiners shall be assigned to a certain district, over which they shall exercise control.

IT ALSO PROVIDES for two district examiners in each district. Whenever any person makes application to be licensed as a railway conductor, the examiner is required to learn the applicants moral, mental, physical and professional character. If satisfied on these points, he shall grant him a license for one year, which shall be subject to revocation. No license shall be issued to any conductor, however, who has not had at least one year's experience as a railway conductor or brakeman on a surface, steam railway. Any person whose application is rejected by the local examiners, may appeal to the supervising inspector of the district.

The bill was framed by the national association of railway conductors.

MISCELLANEOUS MATTER. WASHINGTON, Dec. 15.—The following named fourth class postoffices in Michigan will be raised to the third, or presidential class, January 1, 1888: Corunna, Fort Gratiot, Imlay City, Manistique.

The senate committee on commerce to-day appointed Messrs. Kenna, Vest, Coke, Collum and Palmer as a sub-committee, to whom shall be referred all executive nominations which may require investigation.

THE HOUSE. COMMITTEE ON ELECTIONS MEETS. WASHINGTON, Dec. 15.—The house committee on election organized and held its first meeting to-day. At most without discussion the committee resolved to take up the Thoebe-Carlisle contested election case and notices will be issued to the contestants or their attorneys to appear before the committee at its next meeting, when the time for beginning the consideration of the case will be fixed. The committee adjourned to next Tuesday.

Beyond a general desire to speedily dispose of the Thoebe-Carlisle case, there was no intimation, during the day's proceedings, of the order in which the contested election cases now before the committee will be considered.

There is a difference of opinion among the republicans in the house as to what ought to be done in the matter. Many are in favor of letting the contest go for what it is worth and have the matter settled without delay. Others are in favor of having a commission sent into the district to take testimony.

ALMOST COMPLETED. The International Bridge at the Soo to be Finished by Saturday—The First Train.

SACIT STE. MARIE, Dec. 15.—[Special.] The first special train over the Soo road left Minneapolis yesterday and reached here at 4 o'clock this afternoon. The train consists of three coaches and contains a party of fifteen. Hon. W. D. Washburn, president, F. D. Underwood, general manager, and W. W. Rich, chief engineer, are among the number. They will leave here on the return trip at 9 o'clock to-night. A warm reception was tendered them at the Hotel Iroquois by the leading citizens of the city. Regular trains will begin to run Christmas.

The International bridge will be completed Saturday.

A special train from Toronto, with Canadian Pacific officials on board, arrived here this morning and will return to-night.

DETROIT LAWYERS INDIGNANT. AT THE Way The Book Divorce Case Was Railroaded Through Judge Look's Court.

DETROIT, Dec. 15.—Members of the bar are indignant at the way in which the Book divorce was railroaded through the court, and was it not that Judge Look's term expires in two weeks he would be asked to resign. The divorce was in direct violation of a law passed last winter, which provides that a divorce shall not be granted until four months after the affidavits are filed. It is reported that the divorce is to be followed by two marriages.

Tupper Hopes to Reach a Settlement. WINSBRO, Man., Dec. 15.—Sir Charles Tupper, Canada's representative in the fisheries negotiations, has arrived here from Washington to visit members of his family. He declined to say anything specific about the state of the negotiations, but said: "We have had a number of very interesting meetings, and the fact that we have adjourned until January 4th shows that we still hope to arrive at a satisfactory conclusion. I am not without hope that we shall reach a settlement advantageous to all parties concerned."

AN ORGANIZATION EFFECTED

The Convention of the Republican Clubs Called to Order in Chickering Hall.

TEMPORARY CHAIRMAN'S SPEECH. NEW YORK, Dec. 15.—The convention of the republican clubs met at Chickering Hall to-day. The building was taxed to its utmost, for besides the 1,500 or more delegates taking part in the proceedings, hundreds of prominent republicans were present at the informal gathering which preceded the calling of the convention to order.

Among the "visiting states-men" present to extend congratulations to the delegates, many of whom are delegates themselves, are Senators Everts and Hiscock, and ex-Senator Warner Miller, of New York; Senator Chandler, of New Hampshire; ex-Governor Alger and Roswell G. Horr, of Michigan; C. L. Magee and John Jarrett, of Pittsburgh; ex-Governor G. P. Wetmore, Senator Aldrich and Congressman N. D. Spring and others. It was twenty minutes to 1 o'clock when Joseph Poll, chairman of the committee on organization, called the convention to order.

Daniel J. Ryan, of Ohio, was selected temporary chairman. Mr. Ryan in his address said: "We propose an organization whereby the teachings of a tariff to protect the industries of the land may be readily and quickly disseminated in plain language to be understood by wage earners and wage payers. A tariff high enough to reduce the surplus and to give employment to our citizens at home, to ensure a market for our goods, and a living to the workmen better than the pauper labor of Europe has ever known. We propose an organization that shall discountenance and put to shame these personal attacks upon candidates whereby the private character and home life are basely assailed and a public scandal for political ends unjustly created. We propose an organization that shall say to the saloons: 'Be ye removed from politics; (Applause.) You who create paupers and insanity and criminals shall no longer wield the power of government in this land.'"

At the conclusion of Mr. Ryan's remarks, a number of secretaries were chosen and a vice-president for each state named. The convention then adjourned until to-morrow morning at 10 o'clock.

It is believed that it will be decided by the convention to secure the cooperation of republican clubs now existing throughout all the states and territories and to favor the organization of clubs where none exist so that the augmented and united organizations may become a power in state and national politics.

THE EVENING SESSION. NEW YORK, Dec. 15.—This evening the clubs held a meeting in Cooper Union. Despite the rain which had been falling all day there was a large attendance.

Hon. John R. Lynch, the colored orator of Mississippi, was the principal speaker. He said he was there to speak on the suppression of the colored vote in the south. In his part of the country they believed that up here there were republicans who believed that speaking of the suppression of the republican vote in the south is waving the bloody shirt. But he would explain

WHAT THE SUPPRESSION MEANT. Jefferson Davis is a former constituent of his. He lived in the district which he (Lynch) represented in congress. He thought he would still represent that district if a fair vote could be had. "By form of law," he continued, "Cleveland is president; but morally he has no more right there than he has to the throne of Great Britain." "Mr. Cleveland could no more get the electoral votes of Mississippi, Louisiana and South Carolina than he could those of Pennsylvania, Vermont and Ohio. There are over twenty thousand more colored men than white in Mississippi. Not less than one-third of the whites

VOLE THE REPUBLICAN TICKET and no more than one tenth of the blacks vote the democratic ticket; yet the state is always and surely democratic." They go through the forms of elections down there but as soon as the democratic conventions are over the polls are closed. Some times there is a difficulty in getting democrats to falsify the returns. That was the case when the speaker was elected in 1880. When the democrats down there get frustrated in this way they sometimes resort to violence. If such were not the case Mississippi republicans would occasionally send a white man to congress. Until the people of the north got their eyes opened these things will continue in the south. The speaker's idea of a remedy was to reduce the representation of the southern states. The speaker accused President Cleveland of "letting his professions in his appointments in the south. The Hon. C. H. Boston and others addressed the meeting.

Governor Bodwell Breathes His Last. HALLOWELL, Me., Dec. 15.—Governor Bodwell, who has been seriously ill for some time, died here this morning. His death was caused by congestion of the lungs caused by exposure and overwork.

HALLOWELL, Me., Dec. 15.—Gov. Bodwell's death was very sudden and unexpected. It was believed that he was on the road to a speedy recovery. He had slept well during the night. Shortly after 5 o'clock this morning he awoke and asked his nephew to put him in his chair. It was no sooner done than he expired. He died without a struggle, passing away peacefully. S. S. Marble, president of the senate, will go to Augusta at once and enter upon his official duties, as chief magistrate of the state.

Weather Indications. WASHINGTON, Dec. 16, 1 A. M.—The signal service notes the following as the predictions for the next thirty-six hours: For upper Michigan, warmer, fair weather, fresh to brisk southerly winds, veering to northwesterly.

A CHILLY RECEPTION.

The Declaration of the Tirard Ministry is Received With Indifference.

LORD ROSEBERRY'S SPEECH IN FAVOR OF HOME RULE.

Harcourt Says the Lamp Has Gone Out for the Dissidents—Reassuring Reports From San Remo.

FRANCE.
THE DECLARATION OF THE MINISTRY.
PARIS, Dec. 15.—The declaration of the minister was read in the chamber of deputies to-day. It declares that the cabinet's sole ambition is to continue the work of concord begun on December 3rd. The country will perceive that this policy will ensure the pledge of internal peace. The declaration cites the military, financial, economic, administrative and social measures that the government will submit. It promises a financial equilibrium through retrenchment in expenditures, measures for the repression of frauds injurious alike to the treasury and to French trade; bills dealing with

THE RESPONSIBILITY FOR ACCIDENTS in workshops and factories, and the regulation of hours of labor of women and children; bills providing for a superannuation fund for miners; reform of the bankruptcy laws, and bills relating to benefit societies, savings banks and organized poor relief in the rural districts. Finally the declaration demands the united republican vote upon the ministerial scheme of military legislation. The reading of the declaration was received with indifference.

THE DEPUTIES by a vote of 521 to 13, passed the appropriations asked by the government.

SOME ONE HELD RESPONSIBLE.
PARIS, Dec. 14.—The trial of the persons charged with the responsibility for the fire at the Theater Comique resulted to-day in the sentence of M. Carvalho, the manager of the theater, to three months imprisonment and to pay a fine of 200 francs. Fireman Andre was sentenced to a month's imprisonment. The others were acquitted.

ENGLAND.
GIVEN THE FREEDOM OF THE CITY.
LONDON, Dec. 15.—The corporation of London to-day voted the freedom of the city to the Marquis of Hartington in recognition of his services in defense of the empire. The Gladstonian members of the corporation opposed the motion. The formal vote showed a meagre majority.

A mass meeting of the dissenting ministers of England held at Manchester to-day protested against the action of the British government in relation to Ireland.

LORD ROSEBERRY ON HOME RULE.
LONDON, Dec. 15.—Lord Roseberry, speaking at Huddersfield this evening in favor of home rule, said that if the United States had suspended the constitution in any one of her states it would never have been able to come successfully out of the civil war because the other states would not have joined in coercing one of their number. The situation here as regards home rule is analogous. Lord Roseberry said he would be sorry if Mr. Chamberlain did not succeed in his present mission. If he was unsuccessful his failure would be mainly due to the Irish vote. "We have planted enemies in America through our policy," he said, "and the only way to secure success is to make them friends."

PREDICTS A LIBERAL VICTORY.
LONDON, Dec. 15.—Sir William Vernon Harcourt delivered an address at Bournemouth to-night. He expressed sorrow at Lord Hartington's statement that there was no immediate chance of reconciliation between the dissidents and liberals, but he said that was not the only question which divided them, for Lord Hartington differed with his former associates on other questions vital to real liberalism, such as the leading principle of "one man, one vote." Time would probably show that the liberal party were well rid of the bulk of dissidents who did not honestly represent their constituencies now and who would disappear at the next election. The dissidents thus disposed of, the country would once more see the two great parties facing each other, with the usual result of liberal triumph.

REASSURING WORD FROM SAN REMO.
LONDON, Dec. 15.—The court circular says that the queen has received a reassuring report from San Remo concerning the German crown prince's condition and that the newspaper telegrams about the prince are inaccurate or exaggerated.

IRELAND.
GOT THINGS FIXED.
DUBLIN, Dec. 15.—United Ireland to-day declares the government has secured Monaghan Frosio's aid in restraining the Irish priests from opposition to the government, who, as an equivalent, will endow a Catholic university, receive a papal envoy and send an ambassador to the Vatican.

IN DEFIANCE OF THE POLICE.
DUBLIN, Dec. 15.—The board of guardians of Kildesart have resolved to grant the use of the board room for a meeting of the National League in defiance of the police authorities. The meeting will be held with closed doors.

GERMANY.
NO DANGEROUS SYMPTOMS.
SAN REMO, Dec. 15.—After examining the crown prince's throat Dr. Mackenzie declared that he found no dangerous symptoms.

FUNERAL OF MRS. ASTOR.
NEW YORK, Dec. 15.—The funeral of the late Mrs. John Jacob Astor took place this morning from Trinity church. It was attended by all the wealthy families of note in the city.

FEDERATION OF LABOR.

A Warm Debate Over the Report of the Committee on Constitution.

BALTIMORE, Dec. 15.—The morning session of the American Federation of Labor was consumed by the introduction of resolutions on various subjects. The afternoon session was consumed by the consideration of the report of the committee on constitution. An effort to draw the line between skilled and unskilled labor was stigmatized as the cause of the disintegration of the Knights of Labor, and a motion to strike out the word "labor organizations" where they occurred in the constitution, and use the words "trades unions" was voted down. A motion to compel all organizations to obtain charters one month before the meeting of the convention occasioned considerable debate and warm opposition from the representatives of the International Typographical union, who declared that their old and influential organization would under no circumstances come to the federation for a charter, and it was amended to read "certificate of membership" instead of "charter" and passed. The question of equitable representation was the cause of a lengthy discussion. Some delegates held that national and international bodies only were entitled to a voice in the affairs of the federation, while others were of the opinion that central labor unions and local trades assemblies were the mainstay of the labor reform movement, and it was voted that such organizations be allowed representation according to their numerical strength, even though the same trades may be indirectly represented by delegates from their national body. A discussion as to the plan of assessment for relief in case of a strike or lockout occupied the rest of the session.

THEY VISIT GROVER.
Messrs Esmond and O'Connor Pay Their Respect To President Cleveland.

WASHINGTON, Dec. 15.—Sir Thomas Grattan Esmond and Mr. Arthur O'Connor called at the White House to-day in company with Representative Collins (Mass.) and McShane (Neb.) for the purpose of paying their respects to the president. The cabinet was in session when they arrived and it looked as though they would be kept waiting for some time. The door-keeper, however, consented to take in their cards at once. Mr. Collins wrote a brief note to the president explaining their errand and promising, if received, not to detain him very long. The door-keeper took this to the president who directed him to show the visitors into his private library, where, he said, he would see them in a few minutes. They proceeded to the room indicated and had just seated themselves when the president entered by the door leading to the cabinet room and received the visitors most cordially. The visitors will be tendered a banquet to-night and will leave for Chicago to-morrow.

THE FIRST IN TWENTY YEARS.
Arrangements For The Hanging of Chester Bellevs In Charles City, Iowa, Completed.

CHARLES CITY, Ia., Dec. 15.—Arrangements for the execution of Chester Bellevs in this city to-morrow, for the murder of Alice Waterman on July 8, 1886, are all complete. It will take place before noon, and will be in the presence of but few witnesses. He had been living at Minneapolis, but came here in 1886 and went to live with the Watermans, a short distance from here. His attentions to Alice and general conduct soon became such that he was sent away on the 8th of July. He went to the house of a neighbor, Chester Wilcox, with whom Alice was stopping, and called her out of doors and shot her twice, the last shot being fatal. He then shot himself but only inflicted a flesh wound. This will be the first judicial execution in Iowa since Benjamin A. McComb was hanged at Ottumwa, February 17, 1865, for the murder of Laura J. Harvey.

A Serious Election Riot.
ST. LOUIS, Dec. 15.—Advices received to-day from Jamaica, in the southern part of the state of Tamulipais, state that there was much trouble there and a riot over the election Sunday. One of the parties opened the polls, when the others began the fight. At each of the polls there was a pitched battle, and the ballot boxes were overturned or destroyed. Eight men were killed and over forty wounded. The result is that the old mayor will hold over for another term.

The Ives' Criminal Case.
NEW YORK, Dec. 15.—Henry S. Ives was arraigned this afternoon in the Tombs police court for the stealing of \$100,000 from the Cincinnati, Hamilton & Dayton railway. Julius Dexter, president of the road, was examined. He testified that Ives had never accounted for the \$100,000-draft in question. The money was charged to Ives as trustee. The defense then moved to dismiss the complaint on the ground of want of evidence and justice Milbreth took the papers.

A Verdict In Twenty Minutes.
MACON, Ga., Dec. 15.—This was the tenth day of the trial of Woolfolk for the murder of nine of his family. The jury was charged at noon and in twenty minutes brought in a verdict of guilty. The prisoner was sentenced to be hanged February 10. In his statement before sentence, Woolfolk asserted his innocence before heaven and said the witnesses had sworn falsely. He seems to be absolutely without nerves. A motion for a new trial was made at once by his counsel.

Favor Fiske for President.
MONTGOMERY, Ala., Dec. 15.—The Alabama state prohibition convention met here to-day. Delegates to the national convention were chosen. Resolutions were adopted favoring Clinton B. Fiske, of New Jersey, for president and J. T. Tanner, of Nevada, for vice-president.

The Alabama State Bar Association met here to-day. The annual address was delivered by Judge John F. Dillon, of New York.

The Robinson Case.
CLEVELAND, O., Dec. 15.—The defense rested in the Robinson case at Ravenna at noon to-day. The state rested at 4 o'clock this afternoon and court adjourned until to-morrow morning, when the arguments will begin. It is thought the case will be given to the jury on Saturday.

THE COPPER MARKET.

An Another Advance in Prices—A Large Order from England—The London Market.

NEW YORK, Dec. 15.—Another advance in copper to-day kept up the excitement among the metal brokers. Chili bars opened in London at an advance of £3, 5s, which was increased during the day by an additional 12s, 6d. The London price to-day for spot copper is £90, 2s, 6d. One hundred tons were disposed of on the London exchange. The bears came out to sell in New York and were helped by the bulls to prevent a further advance. Orders have been received here from Europe to buy for export from 2,000,000 to 3,000,000 pounds of copper slightly below the present market price. Here the prices are 17.60 to 17.65 for spot, 17.90 to 17.95 for December, and 17.95 to 18 for January.

A SHADY KNIGHT.
The Book-Keeper of The Manufacturer's Bank of Philadelphia Arrested for Stealing.

PHILADELPHIA, Dec. 15.—Joseph K. Knight, book-keeper of the Manufacturers National bank was taken before United States Commissioner Edwards this afternoon, charged with stealing from the funds of the bank between \$60,000 and \$70,000. The officers of the bank discovered Knight's delinquencies several weeks ago. They placed the case in the hands of the Pinkerton agency and Knight was arrested a few days ago. The matter was kept quiet by the bank until to-day. It is said that Knight has been appropriating to his own use the bank's money for nearly twenty-five years. Mr. Knight was book-keeper of the Manufacturers bank for thirty-five years, and has always been considered a trustworthy man.

A FAMILY CREMATED.
Mrs. Harris and Six Children Perish in Their Home, Near Westington, Dakota.

HURON, Dak., Dec. 14.—Passengers from the west this afternoon brought additional particulars of the death of Mrs. Michael Harris and six children, nine miles from Westington, Saturday night. The Harris family was composed of the husband, wife and eight children, and a brother of Mrs. Harris named Parr, eleven in all. They lived on a farm in a two-story house near the Hand county line, and in the vicinity of Westington hills.

The lower part of the house was used for living purposes and the upper part for sleeping apartments. All were asleep when the fire occurred. Mr. Harris was awakened by the noise below, and on going to the stair found all the lower part of the house on fire. He called to the others to escape through the window and immediately jumped out, calling to Parr to throw the children after him. Parr did not hear him and jumped out, followed by the oldest boy. Mr. Harris threw her infant child to his father and returned for another. At that moment the floor fell and the strong wind which prevailed at the time blew in the roof and sides of the building, burying Mrs. Harris and her six children beneath the burning mass.

Mr. Parr, with nothing on but his night clothes, sprang on a horse and went to the neighbors, nearly two miles away to give the alarm. When he returned his feet and hands were badly frozen. The baby was put in the hay in the barn, but before aid arrived its hands and feet were frozen and the little sufferer had nearly perished with the cold.

So suddenly was the building consumed that nothing could be done to save the unfortunate seven confined in the fiery furnace. When word was received at Westington a party quickly went to the scene of the disaster. The bodies were recovered from the burning ruins in a horribly burned and charred condition. Some had the arms, limbs or feet burned from the body or the head burned off, and otherwise were horribly disfigured. Mr. Harris is unable to give any information as to how the fire occurred. The affair is the most shocking and heartrending in the history of Dakota.

A PLUCKY GIRL.
Annie MacNamara's Excellent Experience with Irish Officers.

NEW YORK, Dec. 14.—A rose-checked Irish lassie with a silver medal from Mrs. Michael Davitt pinned to her dress to commemorate her pluck, has just arrived at Castle Garden, and will soon join her relatives at Elmira. She is 19 years old, and is the young girl of Bodvke, county Clare, who, in June last, so barricaded the home of her parents that for forty-eight hours the sheriff, acting in the interest of Colonel O'Callahan, on whose land the MacNamara homestead was, could not evict the MacNamaras. She not only barricaded their little home, but made things lively for the sheriffs by emptying buckets of hot water over them. When the MacNamaras succumbed Annie was taken to the prison in county Clare, and from there transferred to Limerick prison. Two weeks ago \$250 bail was furnished, and Annie has jumped the bail and come to America. The medal given to her by Mrs. Davitt is inscribed: "For defending the homestead of Bodvke—1887."

Powderly Convalescing.
WILKESBARRE, Pa., Dec. 15.—Mr. Powderly's physician said at 7 o'clock this evening that there was no truth in the report that Mr. Powderly was getting worse; that he was doing nicely and steadily improving.

CHICAGO MARKETS.
BREADSTUFFS.
CHICAGO, Dec. 15.—The leading wheat futures ranged as follows:

	Open-	High-	Low-	Clos-
	ing.	est.	est.	ing.
No. 2 Dec.—Wheat	75 1/2	75 3/4	75 1/4	75 1/2
Mar.	76	76 1/4	75 3/4	76
May	77 1/2	77 3/4	77	77 1/2
Nov.	83	83 1/4	82 3/4	83

Cash quotations were as follows: Flour dull and prices nominally unchanged.

No. 2 spring wheat, 75 1/2 @ 75 1/4; No. 3 spring, 69 @ 68; No. 2 red, 73 1/2.

A DAY IN NEGAUNEE.

Justice Primeau Hears and Disposes of a Couple of Cases—A. C. U. W. Officers. Music in the Air—Personal Pointers and Local Laconics.

Held For Trial.

The examination of Mary Ventecinque and Michael Mallico, charged with adultery, took place in Justice Primeau's court yesterday. In the interest of public morals, the crowd of persons present to devour the racy details of the case were excluded, and only those having a direct interest in the proceedings were allowed to remain. Prosecuting attorney Young conducted the examination on behalf of the people, and J. L. McClear represented the defense. The testimony was of a very contradictory nature, but it was sufficiently clear to show up the guilt of the defendants. Mallico made an admission which helps him, but eliminates the woman. Justice Primeau held both parties to the next term of the circuit court in \$300 bonds. It is not likely that they will be able to furnish sureties, in which case they will go to the county jail for safe keeping pending their trial in the circuit court.

Found Guilty.

Carmello Ventecinque, charged with threatening to kill and make way with his father, had his trial before Justice Primeau, H. O. Young having charge of the prosecution and J. L. McClear defending. The trial was a lengthy one owing to the time taken up in interpreting. The evidence was very conflicting but it furnished conclusive proof of the fellow's guilt. Before rendering his decision Justice Primeau read those in the court room a lesson, taking for his text the two trials that had been in progress there during the day. In summing up the case Prosecuting Attorney Young said that never, in his experience, had he met with so mean and complicated an affair as the family wrangle under consideration during the day, an opinion in which the magistrate heartily concurred. The defendant was found guilty, and was required to furnish a bond in the sum of \$150 to keep the peace or be confined in county jail for one year.

Officers Elected.

The following officers of Cul Bono Lodge No. 112, A. O. U. W., were elected at the regular session of the lodge Wednesday evening: J. M. Gannon, master workman; Charles Devonshire, foreman; T. H. Harris, overseer; F. A. Hendryx, recorder; S. P. Kline, financeer; J. C. Dougherty, receiver; T. J. Flynn, guide; H. D. Crim, inside watchman; John Stevens, outside watchman. Ira A. Clark, with T. S. Bates as alternate, was chosen as the delegate to the convention of the Grand lodge. Dr. M. R. Morse was selected as medical examiner. F. E. Nightingale was selected trustee for a term of three years.

A Musical Society.

Those who took part in the recent amateur concert have concluded to continue the weekly meetings, and to that end have perfected an organization. J. Q. Adams is president, Miss Carrie A. Blakeslee vice-president, T. C. Yates secretary, F. D. Davis treasurer, C. A. Fohrman director, and Miss Minnie Green pianist. The meetings of the society prove very pleasant and profitable to the members, and the organization will probably give another entertainment during the winter.

J. J. Finney (Joe Duffote, the author) shook hands with the reporter last evening. He had just been to Ishpeming in the interest of his publication, and had been very successful. He will be here next week, and persons desiring an "ad" in a book that will have a very wide circulation should have a talk with Mr. Finney.

V. Gabriel passed through here yesterday in charge of the remains of Mrs. Alice M. Nichols, who died at Fort Brady Dec 4th. They were being taken to Seattle, Washington Territory.

E. P. Honika, representing Hansen's Empire Fur factory, will be at the Breitung House Tuesday and Wednesday of next week with a full line of fur goods.

A large proportion of the members of Negaunee legion No. 17, Select Knights, will attend the funeral of Paul Jaedecke at Ishpeming to-day.

Marshal Cunningham went to Marquette last night with a large consignment of members of the Ventecinque family in his charge.

J. E. Reau expects to have his ice house done and the work of harvesting commenced by the first of the new year.

The local lodge A. O. U. W. will probably secure Dr. Cyr's store for a lodge room.

The race and other attractions at the rink last night were well attended.

PERSONAL.

F. A. Green was in town yesterday taking orders.

W. A. Patterson, of Appleton, the steam heating apparatus man, was here yesterday.

F. A. Whittier, agent of the Boston Ideal Uncle Tom's Cabin company, was in town yesterday.

J. Symons, master mechanic of the Peninsula division of the C. & N. W. R'y., was on this end of the road yesterday.

Fred E. Nightingale returned Wednesday from Chicago, where he went to meet his mother who was on her way from Connecticut to make him a visit here.

ADAMS EXPRESS COMPANY.

Letter from the Assistant Foreman of the Delivery Department—A Subject in Which Thousands are Deeply Concerned.

About five years ago I suffered from painful arthritis and great pain and weakness in the lower part of my back, pain in the limbs, had taste in the mouth, disgust at food, and great mental and bodily depression.

I live at 211 York street, Jersey City, and on arriving home one night I found a copy of Shaker's Magazine that had been left during the day. I read the article, "What is this disease that is coming upon us?" It described my symptoms and feelings better than I could if I had written a whole book. My trouble was indeed "like a thief in the night," for it had been stealing upon me unawares for years. I sent for a bottle of Shaker's Extract of Roots, or Fowler's Syrup, and before I had taken one-half of it I felt the welcome relief. In a few weeks I was like my old self. I enjoyed and digested my food. My kidneys soon recovered tone and strength, and the urinary trouble vanished. I was well.

Millions of people need some medicine simply to act on the bowels. To them I commend Shaker's Extract in the strongest possible terms. It is the kindest, pleasantest, safest and surest purgative in this world. The most delicate woman and children may take it. One point more: I have all the more confidence in this medicine because it is prepared by the Shakers. I may claim to be a religious man myself and I admire the Shakers for their zeal, consistency and strict business integrity. What they make may be trusted by the public.

W. H. HALL.

For sale at all druggists and by A. J. White, 51 Warren street, New York.

Used all the Year Round.

Johnston's SARSAPARILLA

LIVER COMPLAINT, DYSPEPSIA, AND FOR PURIFYING THE BLOOD.

AND FOR SICK HEADACHES, PAINS IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all diseases that arise from a Disordered Liver or an Impure Blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once recommend it to others.

It is made from Yellow Dock, Horseradish, Sarsaparilla, Wild Cherry, Sillings' Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

MARQUETTE, MICH., DECEMBER 16, 1887.

Entered as mail matter of the second class, in the post office at Marquette, Mich.

ALTHOUGH the base ball season is over, we continue to hear of "slugging matches" almost every day. The batters only retired to make room for the boxers on the athletic stage.

THERE is a sharp sarcastic point to the Chicago Tribune's remark that "the chief mission in life of a 4x6 journal seems to be reading other and better newspapers 'out of the party.'"

GEN. BRAGG has intimated that if the Mexican mission should be offered to him the tender will not be made in vain. He is getting old and needs rest, and thinks the place would suit him nicely. We risk the prediction that his appointment will be announced ere many days. The president will confer an important trust on a man in every respect qualified for and worthy of it if he sends Gen. Bragg to Mexico as a representative of this republic.

STEPHEN CASE, a brother of the millionaire owner of Jay-Eye-See, died this week at Fond du Lac, Wis., of which city he had been a resident for many years. He was 70 years of age at the time of his death and was a noted character in Fond du Lac, where he followed the occupation of a common wood-sawyer for many years, though his brother, the great manufacturer, and famous owner of fast horses, ranked as one of the wealthiest men in Wisconsin.

SENATOR SABIN, of Minnesota, told a reporter the other day that all the senators from the northwest will go in for a four-million dollar appropriation to start work on the construction of the new canal on St. Mary's river, and the Hay Lake channel improvement. The states of Michigan, Wisconsin and Minnesota are all equally interested in the improvement of the waterway connecting Lake Superior with the lower lakes, and their representatives at Washington intend to pull strongly and untidely during this session for the appropriation needed to give the work a good start.

We acknowledge receipt of the first number of the Industrial West, which publication succeeds the Miner and Manufacturer and Mining Reporter, of Milwaukee, as the Cream City exponent of industrial interest in the northwest. It is very handsomely gotten up and shows that intelligent editorial care has been expended upon the preparation of the matter contained in it. Milwaukee having become largely identified with the mining industry in this region, it ought to be an excellent point for the publication of such a journal as the Industrial West, and we hope and expect to see it prosper.

It is only since he went abroad to secure fresh and novel conquests that Boston begins to realize how great a son she has in the robust person of the now-renowned pugilistic prodigy, John L. Sullivan. The Transcript, of that city, never had the grace to do him much honor when he was at home, but it is moved to make this mention of his meeting with the Prince of Wales.

Boston's importance was asserted in the "grand international meeting" between John L. Sullivan and the Prince of Wales; Sullivan kept the prince waiting twenty minutes for his arrival. It is a point with African travelers not to be prompt at appointments with native potentates, because promptness makes them think that their visitor is afraid of them. Perhaps Mr. Sullivan had this principle in mind when he kept the heir of England waiting for his twenty minutes. He added still further to the prestige of his native city by wearing his hat during the interview. The impression of austerity which Sullivan may have created by these proceedings was, however, relieved by his so far unbending as to smile at the prince with the corner of his mouth and remark, "I'm glad to know you." And amicable international relations were immediately entered into over a couple of glasses of Irish whisky. All's well that ends well; and it is reassuring to know that the Prince of Wales was much impressed by the visit. It is hard to see how he could have helped it!

RATHER RAPID WORK.

On Monday Mrs. J. B. Book, the wife of one Dr. Book, of Detroit, filed with the county clerk of Wayne county a bill of complaint against her husband, asking for a decree of divorce from him on the ground of cruelty. On the following day Dr. Book filed his answer to the complaint of his wife, and simultaneously therewith the answer of Mrs. Book to her husband's answer was filed with the same official. Immediately following this series of legal proceedings, the case of "Book vs Book" came on for a hearing before Judge Look. The abused wife was sworn, and tearfully whispered the tale of her wrongs

into the judge's sympathetic ear. This done, the desired decree was granted to the fair applicant, the defendant submitting no testimony in rebuttal of the plaintiff's case, though it made him out to be a man who was addicted to hammering instead of hugging and kicking instead of kissing his wife—in fact, established that he is a brute with a great big B.

The case presents some rather remarkable features, not the least among these being the celerity with which the germ of a legal divorce contained in the wife's complaint matured into a perfect decree under the stimulating effect on the ordinary slow processes of the law of a graciously disposed tribunal. There was an evident collusion between the parties, and as the doctor in the case is very wealthy it is believed that the sometimes rusty machinery of the law was plentifully lubricated in order that a mutually desired result might be noiselessly and expeditiously ground out for the uncongenial pair. The Detroit papers score in granting a decree with such indecent disregard of the spirit, if not in absolute violation of the letter, of the law relating to divorces in this state, and it will probably make his present term as judge, now near its close, his last one.

THE STATUE—AN ALLEGORY.

There's a book which lieth open
That no student ever hath read;
There's a path through woods and valleys
Knowing naught of human tread;
And a landscape, fair and golden,
Where beneath the branches olden
Lies a mutilated head.

In that book unnumbered authors
Write as for their daily bread;
Down that unknown path are gazing
Men with doubting and with dread;
And forever for them calling,
Scolding some and some appalling,
Cries that mutilated head.

But the time comes when that volume,
Written, shall be also read,
And when through that haunted valley
Every footstep shall have sped:
Then, when the radiant portal,
Wide a statue fair, immortal,
Rise the mutilated head.

—John R. Tait in Lippincott's.

THE HEROINE OF GADSDEN.

Courage of a Confederate Maiden—Gen. Straight's Capture.

As Gen. Straight approached Gadsden, Ala., in making his great cavalry raid, Gen. Forrest was close upon his heels with 1,000 men who might properly have been called "ragamuffins." They were in various uniforms, armed in various ways, and not more than half the command had bayonets. They were biting away at the Federal general's heels, hoping to bother him until a force could get in his front, when he came to a creek which was bank full from the recent rains. As soon as his troops were over the rear guard proceeded to arrange for burning the highway bridge. This was close to the house of a widow named Samson. The family was composed only of the mother and daughter, the latter a girl of 16.

There was sharp fighting between the Federal rear guard and Forrest's advance, but instead of seeking the shelter of the house the girl, Emma by name, was out where she could see all that was going on. She was a strong sympathizer with those who wore the gray, and when the Federals began piling rails on the bridge she realized how Forrest would be balked by its destruction. She ran, bareheaded, to the spot and began pulling the rails off, and it was only when two men seized her and led her away that she desisted. The bridge was held by the Federals until its destruction was certain, and they then retired into the town. When Forrest came up he found his further advance completely checked, and in his trouble he rode up to the fence where mother and daughter stood and asked if there was no ford. Emma remembered that she had a mile away, and at once offered to guide the general to it. Shells and bullets were flying all about them as they talked, but the girl climbed upon the fence, sprang to the saddle behind Forrest and away the pair rode for the ford. It was not far, and while he selected his best men and horses for further pursuit the girl returned home.

That crossing led to Straight's capture without a couple of days, and he was captured by trickery. Forrest got a body of men ahead of the Federals, who displayed themselves from prominent points, and this, with aggressive fighting in the rear, led Straight to believe that he was being closed in upon by a large force. Forrest sent in a flag of truce and demanded a surrender, claiming to have 4,000 men, and, after taking an hour to convince himself that he was in a trap, Straight surrendered the whole command. When his men came to sleep he ordered that the Confederates be kept in the open and he be kept quiet by bluster and further trickery.

When the war closed the legislature of Alabama voted the girl a large tract of valuable mineral lands, and an offer was made to send her to some educational institute. In the meantime she had fallen in love with a Texas ranger named Johnson, and she declined the offer that she might marry him and remove to Texas, where she is at present living.—Detroit Free Press.

THE REASON.

An aspect of the copper market which has greatly mystified the public lately is the failure of copper stocks to respond promptly to the advance in the price of the metal itself. The financial editor of the Boston Transcript—which journal devotes intelligent attention to everything relating to copper—gives this explanation of the matter in Tuesday's number of that paper:

It is a matter for consideration if the answer to the oft repeated query, "why do not copper stocks respond to the advance in copper?" is not to be found in the fact that copper stocks have no support in the market. There is no prominent operator to take hold of them and advance them, while for various reasons the copper people themselves are not in a position to get into the market and buy their stocks to any extent. The general market is in the dumps, and it is pretty hard for anything to advance under such a combination of circumstances, even in view of the undoubted merits of the case.

Then again, there is little doubt that there is a disposition on the part of some holders of copper stocks to sell out whenever they can do so at a profit. They have been carrying these stocks for a long time in many cases, and the temptation to liquidate, now that the market has caused a small advance in copper shares, is strong. Hence there is a goodly amount of copper stocks always to be had for the asking, and this makes against any considerable advance.

But to our view the condition of the general market is the prime factor which makes against anything like a due appreciation in the price of copper stocks. It is too much to expect any material advance in a few specialties when the general list is heavy and inactive. The response of the copper stocks to the great improvement in the position of the copper market has been very gradual and probably will continue so. Had the general market been the least active, or even a little broader than it is, matters undoubtedly would have been different.

Meanwhile holders of copper stocks who hold them for the dividends which they will pay have no occasion to be impatient. Although the market price of their shares improves but slowly, the statistical position of the metal is improving very rapidly, and assures them of dividends for a long time to come. The companies are obtaining prices for their product which assure them of material prosperity in 1888, and owing to the peculiar circumstances of the situation there seems no more reason for believing that copper will stop advancing now than a month ago. A long period of prosperity is assured by this rise. From the nature of the case its effects must be of long duration.

Trade Controlled by Foreigners.

People who are unable to leave New York can see the process of gathering the trade of the country into the hands of foreigners going on in their eyes. Merchants who are still in business in New York can remember when the commerce and trade of the town were absolutely controlled by Americans, and when almost all the signs which hung above shop doors bore the names of English speaking people. How is it now? Ride down Broadway in a street car and look at the beautiful buildings which line that thoroughfare. The stores are large and filled with costly goods, but fully one-half of these stores are owned by foreigners. If the sign of an old American firm is removed it is almost invariably replaced by one bearing a name which terminates in "shine" or "berg" or "baum" or "wohl" or "schill." Other streets in New York are almost wholly given over to foreigners. The American importers of dry goods have been virtually driven out of the business. As they disappear, firms composed of well-dressed and highly intelligent Jews take their places or sturdy Germans hold signs bearing their names above the doors and prosper where Americans failed.—Frank Wilkeson in New York Times.

New Knowledge About Car Couplers.

The idea that it was necessary to have a certain amount of loose play between the cars composing a long train, in order to start the train easily, had become by practice and theory almost as fixed in the minds of railway people as is the geometrical axiom that two parallel lines can never meet. The theory was, by starting one car first, and so gaining a little inertia, then the next car, and so on, it was made possible for an engine to start and haul a long train of a given weight, when, if there were no play, the engine would be stalled and unable to start the train.

But the fallacy of the practice and the theory was conclusively established during the remarkable series of car coupler experiments made by the Master Car Builders' association, at Burlington, Iowa, this year. During these trials it was demonstrated beyond all question that it required less power to start a train with all the couplings tight than to pull the train after the train was put in motion; and the coupler committee came to the conclusion that the coupler of the future ought to be an approved form of the close hook style.—Scientific American.

Emerson's Humor.

Emerson's sense of humor preserved him from the extremes into which many of his friends were betrayed. On one occasion in the midst of a transcendental discussion, the arrival of a load of coal was announced. Emerson excused himself to attend to it with the delicious apology: "You see, we must treat these things as if they were real."—The Epoch.

Embalming in Alaska.

In Alaska, up to comparatively modern times, the dead lay to rot unburied. W. H. Dall, in his recent work on "The Northwest Coast," tells us that within the last half century bodies have been eviscerated, cleaned from fatty matters in running waters, dried and placed in cases, wrapped in fur and woven grasses. The body was usually doubled up into the smallest compass, and the mummy case suspended, so as not to touch the ground, in some convenient rock shelter. Sometimes, however, the prepared body was placed in a lifelike position, dressed and armed. Some were made to look as if engaged in a congenial occupation, such as hunting, fishing, sewing, etc. With them were also placed offerings of the animals they were pursuing, while the hunter was decked in his wooden armor and provided with an enormous mask, all ornamented with feathers and a countless variety of wooden pendants, colored in gay patterns. All the Alaska mummies wear masks, so arranged that the wearer, if crouched, could only see the ground at his feet. These were also worn at their religious dances, from the belief that the spirit which was supposed to animate a temporary idol was fatal to whoever might look upon it while so occupied.—New York Graphic.

The Storming of Delhi.

There is a movement in England for an increase of the pension of John Divane, the private soldier who won the Victoria cross by leading the way to the capture of the Cashmere gate at the storming of Delhi. He looks a leg on that occasion. "There was," he says, "a hitch, and then a call for 'Who'll storm the battery?' And the boys said, 'Johnny, you go on and we'll be after ye.' And I said, 'Come on, boys, death or glory!' And we went on, and pressed I tell you, and when I came to myself I found my leg was gone, and I said: 'Never mind, John Divane, my boy, here's a shilling a day for ye for loife.' And when I heard the list of pensions read out and heard I'd only twopenny a day, I cried: 'Divane did not get the 'death' he challenged, but the tempem' worth per day of 'glory' which he did get does not seem much of a reward for the man who started the turning point of the capture of Delhi, and therefore of the suppression of the mutiny. He is now 64 years old and gets a living by peddling fish in a donkey cart at Penzance.—New York Tribune.

The Largest Assortment of Stoves and Ranges in the City Can be Found at The Store of John W. Jochim 106 North Main Street, Ishpeming.

ISHPEMING MATTERS.

Federal of Mrs. T. F. Donahoe To-Day—The Remains of Mr. Paul Jaedecke Will be Given Sepulture at Watertown—Railroad Rates, Etc.

Mrs. Donahoe's Funeral.
The funeral of the late Mrs. T. F. Donahoe will be held this forenoon. The services will take place at St. John's Catholic church at 9 o'clock, the Rev. H. J. Rousseau officiating. It will be largely attended, not only by the grieving relatives and friends of the deceased lady here and from different parts of the peninsula, but by the wide circle of Ishpeming people generally who numbered her, in life, as a true and valued friend.

Mrs. Donahoe was a very charitable woman—charitable not from a wish to have her generosity known, but because she loved to ease the burdens of the needy and deserving. Many poor people who have always found her purse open and its owner ever ready to lend a helping hand to the unfortunate, will miss her sadly. Her epitaph might truthfully be written thus: "She was a true christian, a faithful wife, a loving mother and a steadfast friend."

Railroad Notes.

Beginning this week, the Northwestern railway will run refrigerator cars from Milwaukee to Ishpeming twice each week. The cars leave Milwaukee on Tuesdays and Thursdays of each week, and arrive in this city on Wednesdays and Fridays, making the trip in one day.

Conductors on the C. & N. W. now have instructions to tear out "short mileage" from thousand mile coupon books. From Ishpeming to Ft. Howard and Green Bay the distance over the C. & N. W. is 179 miles, and until recently conductors have taken coupons for 180 miles, but now collect for only 161 miles, the distance from here to Green Bay via the "South Shore" and Milwaukee & Northern route.

On Saturday, December 24th, and on the 25th and 26th of December, and on January 1st and 2nd, holiday round-trip tickets can be bought at the Ishpeming office of the D., S. S. & A. to any point on that road, and return, for one and one-third fares. Tickets are good for return up to and including January 3rd.

Holiday trip tickets, good to any point in lower Michigan will be placed on sale at the South Shore passenger depot on December 23rd, 24th, 25th and 26th, good until January 4th. The rate will be one fare for the round trip.

The Last Sad Rites.

The remains of the late Paul C. Jaedecke are to be interred at Watertown, Wis., the home of his youth and early manhood, and will be taken there on the Chicago & Northwestern train which leaves Ishpeming at 1:40 P. M. to-day. The members of Ishpeming lodge No. 113, Ancient Order of United Workmen, and of Superior Legion No. 4, Select Knights, of which orders Mr. Jaedecke was a member, will escort the remains from the residence on Strawberry hill to the C. & N. W. passenger depot, at 1 P. M. The family of Mr. Jaedecke and his brother Herman will accompany the body to Watertown.

J. J. Finney, of Marquette, author of the "Life and Public Papers of Joe Duflote," which will shortly be issued from the press, was in Ishpeming yesterday afternoon. Mr. Finney was canvassing for advertisements to place in the book containing Joe's life, and succeeded in convincing a number of Ishpeming men that their announcements could be placed to advantage in such a valuable work as his book promises to be.

Billy Lachapelle, of Baraga, and Doc Mack, of Ishpeming, will be principals in a pugilistic contest at McDonald's Opera House, Negaunee, on Saturday evening of this week, for a purse of \$50 and door receipts. The posters announce that the affair will be no hippodrome.

The number of carriers employed to deliver the DAILY MINING JOURNAL to Ishpeming subscribers will be increased within a few days. The growing circulation of the upper peninsula's only daily in the peninsular metropolis makes this necessary.

As there seems to be a misunderstanding in the minds of some, the MINING JOURNAL arises to state that Mr. Bob Wallace was not elected steward of the snow shoe club at the meeting held last Monday night.

Herriman, the walker, is to appear at Austin's Hall to-night.

PERSONAL.

J. K. Stack, ex-mayor of Escanaba, is in the city.

Capt. W. A. Dunn, of Houghton, is at the Nelson.

F. C. Osgood left Ishpeming yesterday for the copper country.

J. E. Reau, ice-man-in-general for the entire county, was here yesterday.

Lieut.-Gov. Jas. H. MacDonald, of Escanaba, is registered at the Nelson.

F. A. Green, wholesale groceries, Marquette, was in Ishpeming yesterday.

BUCKLEN'S ARNICA SALVE.

Why will you buy beef killed in Chicago or Omaha, when you can get fresh home killed beef at Braastad's meat market? Every pound of meat is fresh and killed at home. 8-4

DON'T forget to see the immense stock of clothing, gent's furnishing goods, boots and shoes, etc., in F. Braastad & Co's clothing store (corner Cleveland avenue and Second street) before buying elsewhere. 5-12/5

NOTICE OF DISSOLUTION OF PARTNERSHIP.

TO THE PUBLIC.—The partnership heretofore existing between the undersigned, under the firm name of Jones & Outhwaite is this day dissolved by mutual consent.

John Jones will continue the coal business, and will assume all liabilities and collect all accounts made in that business. Let it be understood that the dissolution of our business relations is not an interruption of our social relations, and we, each for himself, ask for the other the same patronage and support from the public, in his separate line, which we have always looked for and received as a firm.

(Signed) JOHN JONES, JOHN P. OUTHWAITE.

WILL BUILD YACHTS.

A Company to Build and Equip Steam Yachts to Let to Pleasure Parties.

YESTERDAY'S PROCEEDINGS IN THE MARQUETTE CIRCUIT COURT.

Yesterday's Fire Alarm—The Season's Marine Disasters—Opens To-Night—Will Give the South Shore Notice.

A New Company.

The Marquette Steam Yacht company has been organized to build and equip steam pleasure yachts for use about Marquette. Joseph Cosford, the chief engineer of the city water works, is general manager of the company, and R. J. Cook its secretary and treasurer. The company's first venture is now on the stocks. It will be a yacht 40 feet over all, 35 feet keel, 7 feet beam, and 4 feet depth of hold, with an estimated carrying capacity of forty persons. Harry Weston, an experienced ship carpenter and builder, is constructing the boat at his home on High street.

The engine will be built by Mr. Cosford, whose efforts in this line have already been noted in the MINING JOURNAL. He has built two very fine marine engines, but the one for the new yacht will be much larger and more powerful than either of these engines. The boiler will be secured below. The new yacht will be completed and launched early next season, and will be handsomely fitted up, and officered by reliable and efficient men. It will be leased on reasonable terms to pleasure parties for short trips, or to parties desiring to make extended camping or fishing excursions. It will probably find a great deal to do between the city and Presque Isle park. The members of the M. S. Y. Co. are determined to make their first venture a successful one if reasonable dealing and careful business management will secure success.

The Season's Disasters.

The Chicago Tribune publishes the following: "During the season of lake navigation now at an end, 304 lives have been lost on the inland seas, and not less than \$2,500,000 worth of property has been destroyed. Seventy-three vessels aggregating 20,687 registered tons have ceased to exist, as compared with 57 vessels and 17,070 tons in 1886. The total losses comprise 16 steamers, 43 schooners, 6 tow barges and 8 tug boats, representing a financial loss of \$792,000 on hulls and \$408,400 on cargoes. But despite this large total destruction of vessel property the tonnage that has passed out of existence is much less than one-half of the aggregate new tonnage that has been built at the lake shipyards this year and put in commission. Since the opening of navigation last spring 47 steamers, 4 tow barges and 2 tug boats, aggregating 52,254 tons, and costing \$5,525,000 have been launched and completed, and there are now on the stocks in various stages of construction an almost equal amount of new tonnage. Consequently the 20,687 tons of floating property that has been blotted out by storms this year will, by next spring, be replaced by upward of 100,000 tons, and as most of the new tonnage is steam, while most of the old was sail, there will be a much larger gain in tonnage than the figures actually represent, for one ton propelled by steam is fully equal to three tons that depend entirely upon the action of the wind for propelling power. In the tables given below record is made of only the more important partial losses and do not include hundreds of minor mishaps that involved losses ranging from \$100 to upwards of \$1,000. The loss columns in the partial loss table foot up \$396,000 on hulls and \$238,700 on cargoes, making an aggregate loss in both of \$1,835,000. If the minor mishaps were included the total would be close to \$2,500,000, and that amount is probably an under, rather than an over estimate. The figures are but \$500,000 in excess of the estimate placed on the losses of 1886, but not so high as the aggregate losses in 1883.

In the Circuit Court.

In the circuit court yesterday the jury in the case of Plankinton et al., vs. Huber, disagreed over the barrel of hams.

In the afternoon a chancery case from the Menominee circuit was heard by Judge Grant. It was a case of the Lake Superior Ship Canal Railway and Iron company vs. the Township of Norway, involving the validity of certain township orders, the plaintiff asking for an injunction restraining their payment. Ball & Hanscom appeared for the canal company and A. C. Cook for the township.

Larry Finn, the murderer, will be sentenced by Judge Grant at 11:30 this morning.

Yesterday's Alarm.

The alarm of fire sounded yesterday forenoon was caused by a blaze in S. E. Byrne's residence on Washington street, some bedding having taken fire from a heater. The fire was put out without turning on the fire hose, by Mr. C. H. V. Cavis' garden hose, which was in readiness, being kept attached for such emergencies. This is the third time that that identical piece of hose has put an end to what might have been a serious conflagration. Mr. Cavis' example, if followed generally, would result in a great saving of property in the city during the course of a year.

Big Snow Storms.

The latest move on the part of the United States signal service bureau is a plan to give notice to the im-

portant railroad lines of the country of approaching "cold waves" and of big snow storms. Timely warning will enable the railroad officials to make suitable preparations to keep their lines open, so that traffic will not be impeded. Sergt. Dent will hereafter furnish all such warnings received here from Washington, to Mr. Floeter, train master of the D., S. S. & A., and they will be telegraphed to all stations on the line. In this way every place on the D., S. S. & A. will receive practical benefits from the signal station established at Marquette.

"The Color" Takes 'Em All.

The MINING JOURNAL finds the following clever attempt at versification in the Hancock Copper Herald entitled "A Bacchanalian jingle respectfully dedicated to H—". It is probable that there are a good many here who will not need a "dictionary" to aid them in locating the subject of the "pome"; there's a "roderoderinka" ring to the lines:

Tom and Jerry may be exhilarating,
G. H. Mumm's may be good, by the way;
But when I am out "spiculating"
"Hot Scotch" is the stuff every day.

On every occasion we've drunk it,
You can bet we've perspired in bliss;
So let the great Scotchman be "thanket"
Who invented a drink such as this.

The Scotchman will stay by his hot stuff,
The German, he stands up for beer,
The Finlander relishes kimmel,
But "The Color" takes all with good cheer.

Mont's Sunstroke.

The MINING JOURNAL had heard that Montgomery, of the Manistique Sunday Sun, had recently experienced a "sunstroke," but the first evidence of the fact coming to its notice is the following. Mont must be pretty thoroughly mixed up nowadays, at least his Shakespeare is suffering from the stroke. 'Twas the other dufer who invited Mac to "lay on." These cowardly hounds have for some time been seeking to down the Sun; they pretend to be law-abiding citizens, but instead they are unscrupulous, unscrupulous, shameless, nefarious, heastly execrable reprobates, and of whom it is the grossest kind of an insult to the sex to dub as men. To them and all such reptiles, in the language of the immortal Medd: "Lay on."

Opens To-Night.

The grand opening of the Front street ice rink for the season of 1887-88 takes place to-night. The ice is in fine condition and the music will be furnished by the Marquette City band. The admission for gentlemen will be 15 cents, for ladies 10 cents; skates can be hired for 10 cents. W. C. Rhodes, the proprietor, is determined to make the rink the popular resort of the winter, and a big crowd is expected to-night. The rink is on the east side of Front street, between Arch and Michigan streets.

REPORTORIAL PENCILINGS.

Firemen are requested to return all rubber coats, boots and mitts which are the property of the fire department, to the hose house, or if they will speak to Mr. Broderick he will call and get them.

D. Hammel & Co. will receive another car load of fine draft, saddle and carriage horses at George Reed's Palace livery stable to-day. All warranted sound and as fine pieces of horseflesh as were ever brought into the city.

The Marquette Clerk's club will give a social hop in Odd Fellows' Hall on Monday evening, December 26th. Music by Prof. Homier's new orchestra. Committee of arrangements, F. C. Herlick, G. W. Shaw, W. H. Lateral. Tickets, 75 cents.

The M., H. & O. is doing a much better business since leased by the D., S. S. & A. than before, as its earnings for 1887 to date of November 30th show. The gross earnings of the road for the eleven months were \$1,013,577, as compared with \$951,279 for the same period in 1886.

A scarcity of vessels to carry lumber during the past season left the docks at Cheboygan burdened with 13,000,000 feet of lumber, and an immense quantity of cedar posts and ties, which should have been in the Chicago market before the close of navigation. These will be shipped on in the spring.

Exchange of vessel property during 1887: 70 propellers, 113 schooners, 10 barges and 40 tugs, making a total of 239, aggregating the sum of \$3,300,425. The sales exceed 1886 by 170 and the sum involved by \$1,879,990. Of the number sold this season 6 propellers, 10 schooners, 4 barges and 5 tugs have become total losses.

The night express brought down five coaches last night filled with laborers from O'Reilly & Co's camps on the Summit division which are now being broken up. There were over two hundred in the crowd, principally Italians, and as soon as the train stopped they all piled out into the street and on to the platforms. After the extra coaches had been run into the yard they discovered that they wanted to go on to St. Ignace, but it was too late to get tickets and their coaches were not on the train, so they had to stay here. For over an hour they stood in a bunch in the middle of Superior street, discussing and probably cursing the situation, while every man of them hung on to his bundles and bags and his frying pans. They finally scattered to find shelter for the night. The Italians were like a lot of sheep, and didn't know what they wanted. If the railroad men could have learned their wish to go on in time they would have been taken right through to the point.

SOMETHING FOR THE LADIES.

In the large advertisement elsewhere in this issue, Hansen's Empire Fur Factory, of Milwaukee, announce that their representative, Mr. E. P. Henika will be at the Hotel Marquette on Friday, December 16th, Saturday, December 17th, and Monday, December 18th, with a complete line of their manufactures, which embrace sealskin saques and jackets, plush garments, sealskin caps, gloves and mittens, muffs and boas, children's sets, fur overcoats, robes, rugs, mats, fur trimmings, etc. Honorable dealing has won for the firm the proud title of leaders in the manufacture of furs in the northwest, which has been successfully held against all competitors for many years. The quality and price on their goods is guaranteed in every instance. Their representative, Mr. E. P. Henika, is a practical furrier and a gentleman of wide experience, and the opportunity to show goods and quote prices will only be one of pleasure. The time of his stay is limited to three days only, during which time no one should fail to call on him. Remember, three days only.

THE HOLIDAY TRADE

Is Now Commencing at Grabow-er's—He Offers Special At-tractions in Muffs.

Make a Very Appropriate Christmas Present—We Have Them in Large Quantities and at All Prices.

We have the best black muff, which we sell at 75 cents, in the state. We guarantee that you cannot duplicate the same muff for 50 per cent more. It is a big bargain, sure.
