CONGRESS ADJOURNS.

Both Houses Hold Short Sessions and Transact But Little Business Yesterday.

MR. BURROWS ANNOUNCES THE DEATH OF CONGRESSMAN MOFFATT.

The Action of the House on the Announcement—State Correspondence To Be Called For.

THE SENATE.

STATE CORRESPONDENCE CALLED FOR. WASHINGTON, Dec. 22.—Senator Dolph has reported from the senate committee on foreign relations and the senate has adopted in secret session a resolution calling upon the secretary of state for the correspondence and records of the state department relating to the German occupation of the Samoan Islands and Apia.
THE CONSTITUTIONAL AMENDMENT. WASHINGTON, Dec. 22.—In the senate this morning Mr. Dolph introduced a bill to provide for the payment of claims for damages by Indian depletions. He said there were some 4,000 such claims aggregating some fourteen or fifteen million dollars. It was a burning shame that for thirty years congress had declined to take action on these claims. The bill was referred to the committee on Indian affairs. The senate then took up the joint resolution introduced by Mr. Dolph on the 12th, proposing

A CONSTITUTIONAL AMENDMENT on the subject of marriage and divorce and prohibiting bigamy and polygamy. The proposed amendment is in substance that congress shall have power to legislate on the subject of marriage and divorce by general laws applicable alike to all the states and territories and neither bigamy nor polygamy shall exist or be permitted within the United States or any place subject to their jurisdiction. Mr. Dolph addressed the senate in support of the joint resolution. He spoke of the sacredness of the marriage relation, of the many varying marriage and divorce laws in the several states in the union, and of the propriety of having a uniform system governing marriage and divorce throughout the United States. He denied that

HE WAS INFLUENCED in introducing the resolution by any desire to pave the way for the admission of Utah as a state, and after giving a sketch of the history of the Mormon church he declared his opposition to the admission of Utah so long as there was any possibility for the continuance of the domination of the Mormon hierarchy. At the close of his remarks the joint resolution was ordered to lie on the table, Mr. Culom saying that he proposed to submit some remarks upon it after the reassembling of the senate. The presiding officer announced the appointment of

THE SPECIAL COMMITTEE to investigate the condition of the five civilized tribes of Indians, as follows: Messrs. Butler, Morgan, Dawes, Cameron and Teller. Mr. Teller introduced a bill to provide for the compulsory education of Indian children. Referred. The senate, on motion of Mr. Allison at 1:15, proceeded to executive business. After half an hour the open session was resumed, when a message from the house announced the death of Representative Moffatt, of Michigan. On motion of Mr. Palmer the usual resolutions of regret were adopted; a committee was appointed consisting of Messrs. Palmer, Teller and Jones, of Arkansas, to attend the funeral at the dead members' late home in Traverse City, and as a further mark of respect, the senate adjourned to meet on the 4th of January 1888.

A MEMORIAL FROM OREGON. WASHINGTON, Dec. 22.—Senator Mitchell presented a memorial in the senate to-day, from the fourteenth legislative assembly of Oregon, praying for a modification of the treaty between the United States and the Chinese empire so as to stop and prohibit the importation or immigration of Chinese and other Asiatic laborers altogether. And to adopt such means as may be necessary to rid the country of those already here.

THE HOUSE. MR. MOFFATT'S DEATH ANNOUNCED. WASHINGTON, Dec. 22.—In the house to-day Mr. Adams (Ill.) offered a resolution for the payment of a month's salary to the house employees who were on the rolls on December 5, but who have since been discharged, or who may be discharged prior to January 1. Mr. Bland (Mo.) moved to refer the resolution to the committee on accounts. Agreed to—yeas 53, nays 91. Mr. Herman (Ore.) offered a resolution increasing the membership of the committee on rivers and harbors to seventeen. Referred to committee on rules. Mr. Burrows (Mich.) said that it became his painful duty on behalf of the

CONGRESSMAN MOFFATT BREATHES HIS LAST YESTERDAY.

The Close of a Brilliant, Honorable and Useful Career—The Record of His Life—His Fatal Illness.

DEATH OF THE HON. S. C. MOFFATT.

CAUSED BY BLOOD POISONING. WASHINGTON, Dec. 22.—Representative Seth C. Moffatt, of Michigan, died at the Providence hospital at 7:30 this morning from blood poisoning superinduced by a malignant carbuncle. His illness did not assume a serious phase until three days ago, when he was removed from his hotel to the hospital. Just before his removal Mr. Moffatt became delirious and never recovered his faculties nor rallied from the attack. Owing to the interruption of the telegraph, his wife, who was in Traverse City, Mich., could not be notified of her husband's illness until Tuesday night, so that she was not able to reach Washington in time to be present at his death. The remains will be taken to Traverse City, Mich., the home of the deceased, when his wife arrives in Washington.

MR. MOFFATT'S RECORD.

WASHINGTON, Dec. 22.—When the house met to-day the desk recently occupied by Mr. Moffatt was draped in emblems of mourning and decked with flowers. Mr. Moffatt's home was at Traverse City. He was born at Battle Creek August 10, 1841, received a common school education, graduated in 1863 from the law department of the Michigan university, and has since engaged in the practice of his profession. He was prominent in state politics, having been a member of the constitutional commission in 1873, register of the United States land office from 1874 to 1878, member of the Michigan house in 1881-82 and delegate to the national republican convention in 1884. He was elected to the forty-ninth congress and re-elected to the fiftieth.

THE FURNACE COMMITTEES.

WASHINGTON, Dec. 22.—(Special.) Speaker Carlisle has appointed Messrs. Catehoun, Ford, Brewer, and Fisher of Michigan, Wade of Missouri, Lyman of Iowa, and Shively of Indiana, as the house committee to accompany Mr. Moffatt's remains home. The senate appointed Palmer of Michigan, Teller of Colorado and Jones of Arkansas as its committee. Final arrangements for the funeral will not be made until after the arrival of Mrs. Moffatt and her son at Washington. They are expected to reach here to-morrow morning. Mr. Moffatt's last appearance on the floor of the house was on Tuesday of last week. At 11 o'clock Monday of this week he became delirious, and from that hour until his death never fully regained consciousness.

THE COPPER MARKET.

The French Syndicate Thought to be Preparing For Another Descent on the Market. NEW YORK, Dec. 22.—During the present week copper has been dull and stationary. It is generally believed that the French syndicate is preparing for another descent upon the market. The market opened to-day at 37.70 for spot and 37.75 for December. January brought 37.80 to 37.85; February 37.85 to 37.90; and 18.19 was offered for March. The day's transactions amounted to about 500,000 pounds. The London market moved upward, Chili bars advancing to 83 for spot and 84 for futures. At the second call Chili bars were run up to 83 10c spot and 84 5c for futures. About 450 tons changed hands during the day.

THE BOSTON BILLIARD MATCH.

BOSTON, Dec. 22.—The billiard match between McKenna, of Detroit, and Eam's, of Boston, was completed this evening. When play closed last night McKenna had run 2,497. In resuming to-night he carried the balls part of the way up the right rail, but they soon broke badly and he missed a seemingly easy single cushion shot after making seventy-five and bringing his run up to 2,576. For seven innings he played very poorly and then atoned for his bad play by gathering the curves and repeating their journey around the table until he had put up 2,121 points more, making his total score 4,714. Eames meanwhile could get in nothing better than eighteen and had a total of 45 when McKenna failed, leaving the balls in position for an easy masse. This he missed, and McKenna, with the balls in good position, ran the game out—285 points, the score being: McKenna 5,000; Eames 422.

CHAMBERLAIN IN CANADA.

OTTAWA, Ont., Dec. 22.—Early this morning Sir John Macdonald called at Rideau Hall and remained with Mr. Chamberlain until noon, when Sir Charles Tupper arrived. The three statesmen hunched with the governor-general. In the afternoon they were again closeted together for a long time.

THEY THAWED.

CINCINNATI, Dec. 22.—Ed Johnson, colored, living two or three miles from this city, placed some dynamite cartridges to thaw in a cooking stove this morning. They exploded, killing his 18-year-old daughter and an infant, one year old, and seriously injuring himself and wife.

DR. H. V. HAYDEN DEAD.

PHILADELPHIA, Dec. 22.—This morning Dr. H. V. Hayden died at his residence in this city after an illness of over two years. He was a distinguished scientist and was widely known as a geologist.

WILL STRIKE AT ONCE.

PITTSBURGH, Dec. 22.—A Sharon, Pa. special says a week ago delegates from all the coal mines in Mercer and Butler counties convened and demanded an advance of 10 cents per ton which would bring them up to the Columbus scale, and asked that in the event of the operators refusing that the matter be settled by arbitration. As neither proposition has been accepted, the united miners will strike at once.

A TERRIFIC GALE BLOWING ON THE MASSACHUSETTS COAST—VESSELS SEEKING SHELTER.

PROVINCETOWN, Mass., Dec. 22.—A strong gale with a rapidly falling barometer began, at 1 P. M. to-day from west-southwest, changing as it increased to the northwest, with frequent snow squalls. At 2:30 P. M. the wind suddenly increased to a hurricane from the north-west reaching a velocity of over sixty miles per hour at 3:30 and still continues. To-night will be a bitter cold one for the life-saving patrol on the beach and the worst of the season. Vessels are having a hard fight as the sea is running very high. A fleet of vessels which left this afternoon have nearly all put back, more or less damaged. Several vessels which sought to come in were blown out to sea.

PROVINCETOWN, MASS., DEC. 22.—A STRONG GALE WITH A RAPIDLY FALLING BAROMETER BEGAN, AT 1 P. M. TO-DAY FROM WEST-SOUTHWEST, CHANGING AS IT INCREASED TO THE NORTHWEST, WITH FREQUENT SNOW SQUALLS.

LONDON, Dec. 22.—Smith and Kilrain met in the office of the Sporting Life to-day and agreed to let their fight stand a draw.

JOHN'S MONEY TALKS.

LONDON, Dec. 22.—The Sportsman announces to-day that it has received \$2,500 from John L. Sullivan to blind him in a match with Smith or Kilrain, or both. The talk about Smith and Kilrain fighting Sullivan has had no result thus far. There is general irritation among the leading newspapers against the endeavors made by the Sporting Life to exclude reporters of other papers from the meetings of the fighters and their backers, and to keep them ignorant of their doings and intentions. Efforts are being made to insure the selection of another sporting paper as stake holder in any future fights.

SMITH GETS HIS MONEY.

LONDON, Dec. 22.—A congratulatory luncheon was given to-day to Smith and Kilrain. Chairman White stated that Smith would receive the £1,000 deposited by his backers. The two pugilists will be banqueted.

Lord Hartington will go to Italy after Christmas.

STILL STICKS TO HIM.

LONDON, Dec. 22.—It is stated that Mrs. Melville, the wife of the Rev. Henry Melville, who was shot at in Dublin by Captain Dume, whose daughter he had seduced, assumed her husband's name of £20,000 a fortnight ago. Miss Dume arrived in London to-day in company with Melville.

AUSTRIA.

A SEMI-OFFICIAL STATEMENT.
VIENNA, Dec. 22.—It is semi-officially stated that no communications whatever have been exchanged by the Austrian and Russian governments concerning the present situation in Bulgaria, nor has Russia made any intimation regarding the movements of her troops on the frontier. It is considered still possible to arrange for the resignation of Prince Ferdinand and for the subsequent appointment of a regent in Bulgaria who will be agreeable to Russia.

SERBIA WILL REMAIN NEUTRAL.

VIENNA, Dec. 22.—The New Free Press says that King Milan, of Serbia, replying to an address of congratulation presented to him by the chamber of deputies, said the present moment was fraught with danger to Europe. If a conflict between Germanic and Slav ideas should ever occur, he said, Serbia should not participate, but should remain a spectator. It would be impossible to Germanize Serbian individuality, but it might be Slavized; in which case it would wholly disappear. The Obrenovitch family (his family) live only for the Serbian idea. "My desire," he continued, "is to follow my family traditions, which are the secret of my foreign policy."

GERMANY.

MILITARY ARRANGEMENTS.
BERLIN, Dec. 22.—Dr. Felslow has written a letter confirming the statement that the condition of the crown prince has improved. Military circles here are anxious to learn whether the long furloughs ordinarily granted by Russia on January 15th to her army officers who are longest in the service will be given next month. Letters from Moscow state that a number of officers have already been warned not to arrange for leave of absence.

A REPORT DENIED.

BERLIN, Dec. 22.—It is semi-officially denied that Gen. Von Schweinitz, the German ambassador to Russia, took with him an autograph letter from Emperor William to the Czar.

Dr. Mackenzie will return to San Remo on Saturday.

ROUMANIA.

TO BUY REPEATING RIFLES.
BUCHAREST, Dec. 22.—The chamber of deputies has sanctioned the expenditure of \$2,000,000 in the purchase of repeating rifles, and \$1,000,000 for forts.

AN UNUSUAL PRECAUTION.

BUCHAREST, Dec. 22.—All vessels, pontoons and tugs belonging to the Austrian navigation company have been ordered from the lower Danube to Turnseve for the winter. This is an unusual precaution.

The Kansas Coal Famine.

CHICAGO, Dec. 22.—A Daily News special from Topeka, Kas., says: The situation in western Kansas has greatly improved during the past twenty-four hours. The weather has moderated and the supply of coal is being increased. Twenty cardinals were shipped to-day from the Atchison, Topeka & Santa Fe company's mines in Colorado which will be distributed at once to the towns most in need of fuel. This, it is believed, will supply the destitute for some weeks, and the railroad officials think that by that time they will be able to supply the demand.

A SENSATION EXPLODED.

Reports of the Kansas Coal Famine and Attendant Suffering Greatly Exaggerated.

KANSAS CITY, Dec. 22.—The weather continues to moderate in this state and in Kansas. To-night the mercury is 23 above and is slowly rising. Encouraging reports are coming in from the west which go far to remove the impression which seems to have gone out that there is extreme suffering in Kansas from the lack of fuel and food. While there have undoubtedly been isolated cases of death from exposure and instances of individual suffering from scarcity of provisions or coal, there is no doubt that the condition of affairs have been greatly exaggerated by irresponsible persons.

A dispatch to-night from Arkansas City, near the Indian Territory line, says that less than one inch of snow fell there and that there has been no suffering whatever. It adds that the people of Arkansas City would be glad to send presents to their eastern friends if the latter will make known their necessities. Clark county, Kansas, which is reported as being the place where the most suffering prevails, to-night reports that Monday's storm abated Tuesday. While there was a strong wind, only four inches of snow fell and the thermometer did not go below zero. No suffering or loss of life is reported throughout the country.

TAMMANY RESOLVES.

A Large Meeting in Tammany Hall—A Couple of Resolutions Passed.

NEW YORK, Dec. 22.—Tammany Hall held a large meeting to-night and listened to congratulatory speeches on the result of the last election. The following resolutions were passed:

"We commend to the consideration of the democratic national committee the propriety of holding the national convention of 1888 in the city of New York. The loyalty of the democratic party of this city deserves the recognition which we request on their behalf, while the accommodations which can be provided here for delegates far exceed those which can be offered in any other city in this country."

"We favor the prompt and speedy enactment by the congress of the United States of such measures as will reduce the surplus now accumulated in the treasury and limit the revenue to the needs of the government; but we demand that any readjustment of the tariff interests of American labor shall be jealously protected."

BREWERS OBJECT.

A Secret Meeting in New York to Discuss the Kansas Prohibitory Law.

NEW YORK, Dec. 21.—The decision of the United States court on the Kansas prohibitory law, virtually confiscating all the property of the brewing interests and declaring that business a public nuisance, has aroused the principal brewers of this city and country at large to the highest pitch of excitement and indignation. As soon as the decision became known, at once among the western brewers and those likely to be most affected by the provisions of the decision was decided to hold a conference through the national organization known as the United States Brewing association. To accomplish this, every brewer's association affiliating with the national association was communicated with, and it was concluded to hold the convention in this city.

The conference held a secret session yesterday and the president of the United States Brewers' association, Mr. William Miles, of this city, occupied the chair. Upward of one hundred delegates were in attendance, representing associations from Chicago, Cincinnati, Indianapolis, Quincy, Milwaukee, Rochester, Buffalo and other cities throughout the union. The session was opened by the chairman announcing that the prime business for consideration before the conference was the Kansas decision and its possible ruinous effects upon the brewing interests. A delegate from Kansas spoke last, and on this subject, saying that from the brewing interest alone in the United States an annual internal revenue of \$20,000,000 was turned into the government. Other delegates spoke, and as it was impossible to finish the session, it was decided to call another meeting of delegates within a few days to adopt measures toward appointing committees and taking steps for more decisive work. Fully \$10,000,000 of capital was represented at this secret conference and at the next meeting twice that amount, it is to be shown as vitally interested in the withdrawal or reopening of this sweeping decision.

Mr. Manning's Condition.

ALBANY, N. Y., Dec. 22.—Ex-Secretary Manning is very low this evening, the ex-secretary is growing weaker and weaker. It is hardly possible that he will live to see another day.

ALBANY, Dec. 22.—Midnight—There is little change in Mr. Manning's condition. It is now thought he will live through the night. His vitality is surprising, but as he takes no nourishment, and is growing weaker, the end cannot be long delayed. He remains most of the time in a semi-stupor, from which he occasionally arouses. During these times he is perfectly conscious.

Cigar Makers' Convention.

PHILADELPHIA, Dec. 22.—The national convention of cigar-makers completed its work late this afternoon. The constitution and by-laws were adopted without dissent and special legislation was enacted concerning the yellow label K. of L. made cigars, which was adopted at this convention. This yellow label will hereafter be placed on all cigars made in factories where Knights of Labor are employed, and a resolution was adopted requesting all other trades to give preference to goods made by members of the organization, which bear the trade mark.

Weather Indications.

WASHINGTON, Dec. 23, 1 A. M.—The signal service notes the following as its predictions for the next thirty-six hours: For Michigan, rain or snow, warmer; winds becoming brisk to high northwesterly.

Michigan's Postal Changes.

WASHINGTON, Dec. 21.—The name of the postoffice at Fortysville, Wayne county, has been changed to Pike's Peak. George J. Pierson was to-day appointed postmaster at Pierson, Montcalm county, vice J. D. F. Pierson resigned.

Fire at the Canadian "See."

SAULT STE. MARIE, Dec. 21.—The Cameron Hotel, at the Canadian village of the Sault, burned at noon to-day. The loss is estimated at \$3,000; fully insured.

A COMPLETE FIZZLE.

The Case Against Dr. St. John, of Chicago, Nulled by the Prosecuting Attorney.

CHICAGO, Ill., Dec. 22.—The trial of Dr. St. John, Lavi Dell and captain Froer, indicted for conspiracy in aiding in the escape of warden McFarlane, came to a sudden close this noon. The states attorney acknowledged in open court that he had not evidence enough to convict and Judge Collins ordered the jury to bring in a verdict of acquittal. The state nulled the other indictments against them. The indictments against Captain Irwin, master of the Blake, were also nulled.

A Genuine Sockdolager.

SYRACUSE, Dec. 21.—While Mrs. Asherton, of Lyons, was drawing a pail of water from a well this morning she saw a bright red reptile resembling a lizard three and three-quarter inches long in the pail. She threw the reptile into a stove, where there was a very hot coal fire. One hour later she was surprised to find the reptile skipping merrily about on the red-hot coals. She called in Dr. Foyaud, who asserted that the reptile is a genuine salamander and a fine specimen. He put it in a fire of 475 degrees Fahrenheit, as high as his crucible would allow, and the reptile showed no signs of discomfiture.

ROTHSCHILD'S TERRIBLE REVENGE.

How Retribution Overtook the Bank of England—No Laughing Matter.
An amusing adventure is related as having happened to the Bank of England, which had committed the unpardonable sin of refusing to discount a large bill drawn by Anselm Rothschild, of Frankfurt, on Nathan Rothschild, of London. The bank had haughtily replied that they discounted only their own bills, not those of private persons; but they had to do with one stronger than the bank. "Private persons" exclaimed Nathan when the fact was reported to him. "I will make these gentlemen see what kind of private persons we are."

Three weeks later Nathan Rothschild—who had employed the interval in gathering all the £5 notes he could procure in England and on the continent—presented himself at the bank. He drew from his pocketbook a £5 note, and they naturally counted out five sovereigns at the same time looking quite astonished that the Baron Rothschild should have personally troubled himself for such a trifle. The Baron examined one by one the coins, and put them in a little canvas bag; then drawing out another note—a third—a tenth—a hundredth—he never put the pieces of gold into the bag without scrupulously examining them, and in some instances trying them in the balance, as the law gave him the right to do.

The first pocketbook being emptied and the second a second time, he continued till the bank closed. The Baron had employed seven hours to change £21,000, but as he had also nine employees of his house engaged in the same manner, it resulted that the house of Rothschild had drawn £210,000 in gold from the Bank of England, and that he had so changed a single note.

Everything which bears the stamp of eccentricity has always pleased the English. They were, therefore, the first day very much amused at the little pique of Baron Rothschild. They laughed less when they saw him return the next day, at the opening of the bank, flanked by his nine clerks, and followed this time by drays to carry away the specie. They laughed not at all when the king of bankers said with ironic simplicity: "These gentlemen have refused to pay my bills. I have sworn not to keep theirs. At their leisure—only I notify them that I have chosen to employ them for two months!"

"For two months!"
"Eleven millions in gold drawn from the Bank of England which they have never possessed!"
The bank took alarm. There was something to be done. Next morning notice appeared in the journals that henceforth the bank would pay Rothschild's bills the same as their own.—Detroit Free Press.

Florida's Winter Climate.

Florida has a winter climate that is very delightful and attractive, but invalids need to be well informed where to go. The lower St. John's as the river runs north, I mean the northern end below Palatka is too windy and too damp on the river to be desirable for pulmonary troubles. At St. Augustine the winds are too strong and the weather also too variable. The greater part of the peninsula is very flat and low, swamps are abundant, and the atmosphere very humid. Care is needed to avoid malarial localities, and also to secure good and safe drinking water; filtered rain water is the safest and best, and should be demanded, for the danger from poisonous water is often as great as from poisonous air.

Artisan wells in Florida are now very common, and although safe from malarial effects, may be injurious to consumptives, as they generally contain much sulphur. The railroads have made accessible and continue to open dry sandy ridges in the pine forests at an elevation of fifty feet and more above the sea level, which, when supplied with comfortable hotels and boarding houses (some already exist), apparently ought to prove excellent and safe resorts. They are drier, less windy, and less subject to cold and marked changes of temperature than the malarial regions. After a battle the tickets would be taken from the bodies of the dead and forwarded to headquarters. Some such system has long been in operation in the German army.—St. James' Gazette.

Austrian Army Notions.

Titles of nobility are likely to become cheap in Austria before long. A new army minute provides that every officer of irreproachable conduct who has worn the imperial uniform for thirty years uninterruptedly, and has gone through at least one campaign, will, upon demand, be ennobled by the kaiser and the fees usually payable upon ennoblement will be remitted. Another regulation established by the same minute deals with a very different matter—the easy recognition of officers and men who fall in battle. In future whenever the Austro-Hungarian army is mobilized, each combatant is to have delivered to him a small strip of parchment inscribed with his name, rank and regiment; and this ticket of identity is to be kept in a pocket which will be purposely made in every pair of breeches. After a battle the tickets would be taken from the bodies of the dead and forwarded to headquarters. Some such system has long been in operation in the German army.—St. James' Gazette.

A GRAVE SITUATION.

The Duke of Edinburgh Says War in Europe is Certain to Come.

PESTH, Dec. 21.—Several army officers on furlough have been ordered to return to their garrisons, and a number of reserve corps officers have been instructed to arrange their affairs so that they may rejoin their regiments on short notice.

BERLIN, Dec. 21.—Prince William, in extending Christmas greetings to the hussars yesterday, said the times were grave and the future uncertain. He urged them to remember that the emperor looked upon honor, valor and obedience as the pillars of the army.

LONDON, Dec. 21.—The Duke of Edinburgh, who recently visited San Remo, is of the opinion that war in Europe is certain to come.

FREEZES TO DEATH.

John Benet's Heroic and Desperate Fight for Life—A Brave Wife.

ST. IGNACE, Mich., Dec. 22.—John Benet in returning to his home at Lake Nipissing found the lake partially covered with ice but had an ax in his canoe and with it chopped a channel for the boat making fair progress until the tool slipped from his hand into the water. It was very cold and realizing that it meant death to stay where he was, he crawled up on the ice and tried to make his way over it to the shore. It broke with him, however, and he was obliged to swim. He persevered and had come within twenty feet of the shore when his strength gave out. His wife, who had come down to meet him, boldly ventured out and succeeded in pulling him upon the ice, but she could not carry him and he died in the presence of the horrified woman.

NEGAUNEE JOTTINGS.

Despite the cold snap, work is being
rushed on the new school building.
Workmen are now enclosing the tower,
and the masons are finishing the chim-
neys and ventilating flues. The cornice
is nearly finished, and the men com-
menced to put on slate yesterday. The
cornice runs up a few feet on the roof and
the slate laps on that. In this country
there is more or less snow and ice on the
edge of a roof in winter time, and when
the slate is down to the eaves it invari-
ably gets cracked. By the arrange-
ment mentioned this will be obviated. The
contractors are very confident that they
can finish the building so that it can be
occupied for the spring term of school.

Negaunee furnished quite a number of
cases for the circuit court calendar this
term. In the case of the People vs
Michael Curran, charged with an assault,
etc., the plea of not guilty was withdrawn
and the defendant pleaded guilty to a
charge of simple assault and battery,
which was substituted. The case of
Patrick Flannery and D. Flynn vs Car-
nichael Bros., which has been dragging
along for several terms, has at last been
settled. The suit was for damages sus-
tained by the plaintiffs in falling down
the Milwaukee mine shaft some two years
ago. The plaintiffs were each given \$700
in settlement.

J. E. Reau's ice house is nearly com-
pleted. The structure is about 30x60 feet
on the ground, and is situated northeast
of the water works engine house, close to
the lake. It is boarded inside and out,
and the space between is filled with coal
brake. It is thus made perfectly air-tight,
and the ice may be put in tier after tier
without sawdust. This will be appre-
ciated by those who have hitherto had to
wash the sawdust from the ice left at their
doors before using it. Mr. Reau will be
here the first week of the new year to
take orders.

Letter From the Assistant Foreman of the Delivery Department. A Subject in Which Thousands are Deeply Concerned.

About five years ago I suffered from painful urination and great pain and weakness in the lower part of my back, pain in the limbs, bad taste in the mouth, disgust at food, and great mental and bodily depression.

I live at 511 York street, Jersey City, and on arriving home one night I found a copy of Shaker's medicine that had been left during the day. I read the article, "What is this Disease that is Coming Upon Us?" It described my symptoms and feelings better than I could if I had written a whole book. My trouble was indeed "like a thief in the night," for it had been stealing upon me unawares for years. I sent for a bottle of Shaker's Extract of KIDNEY, or FEVER'S BROS., and before I had taken one-half of it I felt the welcome relief. In a few weeks I was like my old self. I enjoyed and digested my food. My kidneys soon recovered tone and strength, and the urinary trouble vanished. I was well.

Millions of people need some medicine simply to act on the bowels. To them I recommend Shaker's Extract in the strongest possible terms. It is the gentlest, pleasantest, safest and surest purgative in this world. The most delicate woman and children may take it. One point more: I have all the more confidence in this medicine because it is prepared by the Shakers. I may claim to be a religious man myself and I admire the Shakers for their cool, consistency and strict business integrity. What they make may be trusted by the public.

W. H. HALL, 34 Warren street, New York.

IT IS A KIDNEY INVESTIGATOR that removes the Urine to its natural outlet, removes the acid and burning, and the effect of its medicinal action is most interesting.

DIED IN THE HARNES.

Our dispatches this morning convey the sad intelligence that Representative Seth C. Moffatt died yesterday morning at Washington, where he was stricken with the disorder that caused his death while caring for the interests of his constituents.

Coming at this time, the death of Mr. Moffatt is a calamity to his district the extent of which cannot well be measured. He was just entering on the important duties of his second term as representative from this district, after the experience gained during his first had added to his familiarity with legislative work, and increased his influence. No district in the state had so many important matters to come before congress during this session, and no other could so ill afford to lose its representative at the very opening of the session, for that reason. Valuable time will be lost before a successor to Mr. Moffatt can be chosen, and the new representative, whoever he may be, will have to encounter the many difficulties that always impair the usefulness of a member fresh to the ways of national legislation, instead of being fully prepared for the work before him, as Mr. Moffatt was when death cut the thread of his useful life.

But it is not only as the valuable legislator that our people will mourn the dead representative. They esteemed and honored him for the modest, unassuming manner that so well set off his high ability, for his sterling worth as a citizen and his winning personal qualities, no less than they admired him for his capacity as a publicist, and underlying the sense of loss which they feel in consequence of being deprived of his services at a critical time is a deeper, tenderer sorrow in which there is no trace of selfishness. Speaking for the whole upper peninsula, the MINING JOURNAL conveys to the family cruelly bereaved by his untimely death the deep sympathy of our entire people. It is a grievous blow, indeed, to his devoted wife, who was denied even the consolation of being beside when he died, but she has, instead, that of knowing that his life was full of honors and usefulness, and that death found him at post of duty to which he had been called by the suffrages of a constituency whose trust in him was never shaken, and by whom his name and services will ever be held in grateful remembrance.

CONTUMACIOUS RAILROADS.

The railroad commissioners of Minnesota some time ago ordered the Northern Pacific and Manitoba railroads to make three cents per mile the maximum charge for carrying passengers on all portions of their lines lying in that state. The roads disregarded the order, continuing to charge a higher rate. This put the board of railroad commissioners in a humiliating predicament, there being no specific provision made by the law under which it exists for compelling the roads to obey its mandates. It wouldn't do for the board to confess its impotency by resting quiet under such contemptuous treatment, however, so it has gone a step farther, and has issued a circular to the public in which it points out how passengers may do what it confesses itself unable to do—compel the roads to accept the reduced fare or punish them for a refusal.

After reciting that its order to the companies named is still in force, though not obeyed, the board suggests that a passenger desiring to avail himself of the reduced rate should tender to the station agent the exact amount of fare at that rate for the distance he wishes to travel, and demand a ticket before entering the car. If refused a ticket, the passenger should enter the car, and when the conductor demands his fare, tender him the same at the reduced rate, as in the case of the station agent. If this is refused, he can either pay the full fare demanded or submit to ejection from the car, as he elects, and can afterward sue the company for violation of the railroad act, or for damages for trespass on his person, as the facts warrant.

The great state of Minnesota ought to blush for the legislature that enacted a law making provision for a railroad board while failing to equip it with power to give its rulings effect. It is but another proof of how thoroughly railroad-ridden that state is. The board was provided to placate the farmers, but in order that no harm should come to the railroads from anything it might do, the "cooney" law-makers conveniently

forgot to incorporate in it the necessary provisions for enforcement of any rulings which the board might see fit to make for the protection of the public against the greed of the railway companies. We wonder how long the people of Minnesota will stand this sort of jugglery!

WANT RESTRICTION IN THEIRS.

It will be news to most Americans that England suffers from unrestricted immigration to an extent certain to make the matter a subject of parliamentary inquiry at an early day. The belief has prevailed among us that our country is the "dumping ground" for the refuse population of every nation in Europe, but it seems that this is not altogether the case. Commenting on the measures looking to regulation of immigration to this country which have already been introduced in our congress, the Iron and Steel Trades Journal, of London, Eng., calls attention to the existence of the same evil in that country, and says that the question of restriction is one which "must soon be faced" by the British parliament. We quote from its article on the subject:

It has appeared to us remarkable that amid all the agitation of the unemployed, little has been heard about the principal cause of the great destitution in some parts of London—the immigration of destitute foreigners. We have personally visited several districts to glance on the situation with the editorial eyes, and there can be no question that the invasion of the East End of London by the annually increasing army of absolutely penniless foreigners, many of whom are helpless and useless creatures, is a serious question. We are glad to be able to announce that the question will be brought before parliament by a Scotch member. When Mr. Munro Ferguson brings on the question next session he will be able to point to accumulating evidence on the subject. It is not many months since the authorities, having by chance intercepted a company of Germans and refused to allow them to land, the would-be immigrants returned to their fatherland only to find that the Bismarck government would rather be without them. What came of them is not stated, but this was, we believe, one of the cases which prompted Mr. Ferguson to take up the subject. Since then the board of trade has been led to make inquiries in the East End, and their official reporter has stated that the swarms of destitute immigrants who come into the Thames are so great as to flood the whole labor market of the East End. Here, then, is a matter which clearly demands to be dealt with, and when the promised debate arises in the house it ought to be of much real importance.

Being wholly overlooked for the death of Mr. Moffatt finds the politicians of this district entirely unprepared for the contest in which they must engage as soon as a special election to fill this now vacant seat can be ordered. They are caught with their fences down, and the work of putting them in order will begin at once. It was understood that Mr. Moffatt would not again be a candidate, and that his successor would be a resident of this peninsula. His death therefore, only precipitates a struggle that would have come on next fall, in the ordinary course of events, but as it takes all the aspirants by surprise the result may be very different from what it would be if there were more time for candidates to prepare and put in execution plans for capturing the prize. There are good men enough to choose from. The MINING JOURNAL trusts that the people of the district will exercise their best judgment in making a selection, and will bear in mind that great interests in this peninsula have much depending on the character of their choice.

It doesn't take much brains to see that on the great system of lakes in the heart of the continent depends the prosperity of the Northwest, but Senator Sabin presents a view of the subject that is as novel as it is interesting. He is quoted as saying that if the Sault and other water ways were so deepened and improved as to allow of vessels being loaded at Duluth for the foreign markets of the world, more money than would be paid under the existing tariff during the next fifty years would be saved to Northwest. It is also his opinion that with the abolition of duties on sugar, lumber and salt, and a reduction of at least 50 per cent on steel rails, it would still be possible to make the desired improvements, and then have sufficient money to expend on navy and coast defenses. He does not believe in the abolition of all duties, but will act according to his convictions for a partial reduction of the tariff.—Duluth News.

IS CONSUMPTION INCURABLE?
Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an Incurable Consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."
Jesse Middlesex, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Trouble." Was given up by doctors. Am now in best of health." Try it. Sample bottles free at H. H. Stafford & Son's drug store.

AN END OF BONE SCRAPING.
Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and my leg is now sound and well." Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c. per box by H. H. Stafford & Son.

POVERTY OF PARIS.

SOMBER SIDE OF LIFE IN THE FRENCH CAPITAL.

A Census of the Existing Indigency—One Hundred and Forty Thousand People Enrolled for Public Charity—List of Paupers of Foreign Birth.

Who has not in his mind's eye linked the name Paris with gaiety and pleasure? Who has not conceived Paris a vast haven where the cares of earth are cast aside, where misery and misfortune are unknown, where human enjoyment has reached its climax, and where fountains of pure silver have an unceasing flow? The casual tourist finds no contradiction in this romantic ideal, for Paris in itself is a world whose varied social strata present separate studies which could be profitably pursued for a lifetime. The French have the happy faculty of presenting the bright side of everything, while their proverbial good manners add an additional luster which is well calculated to satisfy the ordinary mind.

But Paris without riches and poverty, vice and virtue, happiness and misery, would, indeed, be a strange anomaly of human association. It is true we get a glimpse of certain phases of Parisian life from the "Confession of Claud," "L'Assommoir" or "Camille," yet it is hard to believe that such a degree of depravity has a secure footing in the French capital. The fact has not been overlooked, however, the only dispute being the extent to which vice has obtained.

THE CENSUS OF INDIGENCY.
As to the existing indigency more rational data can be obtained. Every three years a census is taken of the population enrolled at the beneficence offices of the twenty districts into which Paris is divided. The object of the census is twofold. First, by it are obtained the names of all persons who are entitled to public aid; second, a close study is made of their true situation with a view to rendering as many as possible self-sustaining.

According to the previous register there were enrolled for public charity 51,881 heads of families, representing 149,585 persons. The board of visitors have eliminated 4,000 heads of families, representing 17,000, leaving registered at present 47,887 heads of families or 132,584 persons. Comparing this result with that of 1880 we find the number of heads of families has increased by 812, while the individuals comprised have diminished by 411. Each dependent domestic group is therefore relatively less numerous, while the individual applicants have sensibly increased. In 1880 Paris had 1,008,606 inhabitants and 123,733 indigents, or 6.22 per cent. To-day the population is 2,302,000, of which 5.43 per cent. are dependent on public charity.

In all the districts the number of assisted women is far greater than that of the men. For every 24 males enrolled there are 41 females. This is easily explained on the grounds that the labor of women is less remunerative, and they have less repugnance in recurring to public charities.

PAUPERS OF FOREIGN BIRTH.
The native Parisians are by no means the majority of those whose names are on the dependent rolls. For every 1,000 Paris and its Department of the Seine furnishes 227; the provinces, 706; foreign, 67. Taking 1,000 names of those of foreign birth, the Germans lead with 407; Belgians, 336; Dutch, 172; Italians, 52; English, 10; Spaniards, 3; Americans and Turks, 2. It will be observed that Germany furnishes by far the larger number of Parisian paupers of foreign birth. This is explained by the fact that the Germans are the most migratory of all people, and in search of the "daily bread" have invaded the world.

In general the German emigrant is a model of industry, economy and of irreproachable customs, and putting in practice the French proverb that "there are no senseless occupations, there are only senseless people," have undertaken almost every department of labor and trade. The Frenchman who enjoys in his own country an easily won livelihood and an excellent climate seldom crosses the frontier, while the German, whose conditions are less favorable, is found widely scattered.

The judgment of the army of paupers in Paris forms an interesting study. More than a fourth part live almost gratuitously, confined in grotto, caverns and cellars; one half pay from 100 to 2,000 francs rent per annum. Sixty-one per cent. of these hordes or hovelers have only one bed; the rest have two, three, four and even five apartments. The inhabitants of these rooms belong to all professions, comprising thousands of the fruits of art in all its manufactures and forms.—San Francisco Chronicle.

Love Songs in Afghanistan.
Love songs are plentiful with the Afghans, though whether they are acquainted with love is rather doubtful. Woman with the Afghans is a purchasable commodity. She is not wooed and won with her own consent; she is bought from her father. The average price of a young and good looking girl is from about 500 to 500 rupees. To reform the ideas of an Afghan upon that matter would be a desperate task. When Said Ahmed, the great Wahabi leader, the prophet, leader and chief of the Yusufzai Afghans, tried to abolish the marriage by sale his power fell at once. He had to flee for his life, and died an outlaw. There is no song in the world so sad and dismal as that which is sung to the bride by her friends. They come to congratulate—no, to console her, like Jephthah's daughter; they go to her, sitting in a corner and cry for us. You remain sitting in a corner and cry for us. What can we do for you? Your father has received the money. All of love that the Afghan knows is jealousy. All crimes are said to have their origin in one of the three—envy, man or woman—money, earth or woman. The third is, in fact, the most frequent of the three causes.—Contemporary Review.

Last of the Pequot.
A reporter met on the streets of Birmingham, Conn., a short time ago, a man who was selling clams from a wagon. An interview with him developed the fact that he claims to be the last of the noble tribe of Pequot, who, in the early days of the settlement, occupied the country about where Litchfield now stands. The man's name is Truman Bradley. He is not full blooded, but claims to be two-thirds Indian. His appearance substantiates his claim. He stands over six feet tall, is straight, broad shouldered and bronzed to a copper hue. His eyes are black and deep set. His cheek bones are prominent, his jaws strong and powerful, his forehead low and broad, his hair gray, and he has no beard. In conversation with him the reporter learned that he claims to be the sole heir of the Pequot, and there is \$7,000 held in trust for them, which is now in the hands of a trustee appointed by the judge of the superior court of Litchfield county. He will apply to the next legislature for the \$7,000, submitting his proofs for the inspection of the committee having the matter in charge.—New York Evening Sun.

A Roman camp fortified by earthworks has just been discovered near Czernowitz, the capital of Bukovina.

The Lake Marine.

Captain J. W. Wilson, of Detroit, is regarded as pretty well posted on marine matters. In an interview with a Tribune reporter he had this to say of the outlook for next season:

I am disposed to regard the outlook for lake shipping next season as very cheerful. Of course, the provocation for taking the opposite view is the large addition of new tonnage to the carrying trade. However, I notice that much of this tonnage cannot properly be included in the freight carrying trade for the coming season, notably the large steamers being built for the Manitoba railroad company.

There is no reason to expect that the amount of iron ore to be transported will be less than last season, which approximated 4,500,000 tons, and this will insure employment for the greater part of the best tonnage in transporting east-bound freight. There was lots of money made by miners and shippers of ore this year, but the manufacturers made very little, if anything. The fact that producers of ore have had a good year will stimulate them to increase their output, and this will help lower the price sufficiently to enable manufacturers to produce iron and steel on a cost basis that will materially assist in crowding out foreign importations. If this is so, it is safe to predict that a great deal more iron ore will find its way from Lake Superior to the manufacturing centers of the country next year than was shipped last season.

I am inclined to think, too, that the low stage of water next season will be an important factor in lake business. I think that count on carrying from 300 to 400 tons less per trip on this account, in order to be able to get over the shoal spots. I have watched this matter pretty closely, and I have noticed that the water has been gradually lowering for eight years past, and there is no indication of a return rise. Experienced mariners will tell you that the water gradually lowers for eight years and then begins to rise again. If the rule holds good the rise ought to begin this coming spring, but if it did it would hardly be sufficient to make any appreciable difference. A great deal has been said about the large number of vessels grounding near the Grosse Pointe lightship. It is estimated that the loss to vessel owners that point last season amounted to about \$100,000. Now, I think that the main cause for this was the low stage of water, although there is probably some foundation for the assertion that the lightship led vessels astray by being located too far to the eastward.

These and other considerations all lead me to predict a season fully as prosperous as the season of 1887.

REPORTORIAL PENCILINGS.

The housewarming at the New Clifton this evening.

Remember the benefit concert by the M. C. B. on Monday evening at the Casino.

Attention is called to the special holiday announcement made by "The Fair." If you've been holding out, looking for bargains, now's your chance to gather 'em in.

Mr. and Mrs. J. J. Finney lost their little six-months-old son last evening, his death occurring at 8 o'clock from a sudden and acute attack of bronchitis. The funeral will take place this afternoon at 4 o'clock.

Herriman, the pedestrian, stoutly denies the reports set afloat by the Escanaba Mirror concerning his contest in that city and tells a story that knocks the Mirror clear out of time. He is undecided as to his course in the next week or two, as yesterday he received a telegram stating that Littlewood, the English champion now in this country, would probably accept his challenge and meet him in Oshkosh soon to make arrangements for the match.

PERSONAL MENTION.

Hon. W. P. Healy is in Detroit on business. J. M. Case returned yesterday from an extended business trip.

E. V. Palmer arrived home yesterday from the Michigan Mining school for his holiday vacation.

Manager J. S. Healy, of the Marquette telephone exchange, has gone to Detroit on a business trip of three or four days duration.

S. J. Beahan, of the D., S. S. & A. left yesterday for Sault Ste. Marie, having been assigned to duty in the local freight office of the South Shore road there.

Mr. and Mrs. Frank Bechely left yesterday for Bothwell, Canada West, for a short visit at Mrs. Bechely's former home. Mr. Bechely will return in about two weeks.

C. H. Chapman, president of the village of Sault Ste. Marie, and Chase S. Osborn, of the Sault Ste. Marie News, passed through the city yesterday en route to Milwaukee.

HOLIDAY GOODS

The largest and finest selection of Holiday Goods ever shown in the city can now be seen at Donahoe's Brownstone Store. You can buy Toys and Novelties, Candy, etc., for the children, and more serviceable articles for the elders. No time to write up an extended "ad," but call and see for yourself, at

Donahoe's Brownstone Store

The Largest Assortment of Stoves and Ranges in the City Can be Found at The Store of John W. Jochim

106 North Main Street, Ishpeming.

XMAS GIFTS are now matters that occupy a large share of everybody's time and attention. If we can give you a few "pointers" about where and what to buy allow us to do so.

FIRST, buy at Braadstad's. You can always get your money's worth there, and have what is incomparably the largest stock of goods in the country to select from. Besides, you always get your money's worth there.

SECOND, at Braadstad's you can buy almost anything that is sold anywhere. In the line of mechanical toys for the children there is an immense stock. If you feel like buying a barrel of flour to make glad the heart of your poor neighbor, remember that you can benefit yourself by saving money on the price of the flour, and your neighbor by giving him the best flour on the market—if you buy at Braadstad's.

Three big stores and a meat market filled with everything good to eat, wear and have fun with. Come early and avoid the enormous crush which always visits us for a few days before Christmas.

THE COPPER COUNTRY.

A New Jewelry Store—Public Schools Closed—In Search of Health—An Open Letter—The Mine Fire—Fell Down a Shaft—Labor Claims.

HANCOCK.

HANCOCK, Dec. 22.—Edward Waara, a Finn, has opened a jewelry store in Mrs. Krupp's building.

Beet Bros' meat market has a display of good things that is hard to beat.

The public schools close to-morrow. Vacation will last until Tuesday, January 2, 1888.

Miss Lizzie Beehler, of L'Anse, is visiting friends in town.

Rev. J. D. Halliday, pastor of the Methodist church, left this evening for Flint, Mich., where he will spend a few weeks recuperating his health.

Rev. George P. Waters has written a letter for publication on the prohibition question. It will appear in the local papers soon.

CALUMET.

CALUMET, Dec. 22.—The work of sending gas down the mine still continues. Very little is known as to the state of affairs underground. The mine authorities report that the indications have been more favorable during the past two days.

A Polander fell down the shaft in the South Hecla about noon yesterday. He was taken to the company's hospital, where he died about 7 o'clock this morning. He leaves a family who are in the old country.

HOUGHTON.

HOUGHTON, Dec. 22.—Mr. D. D. Brockway, of the Iron Cliff mine, passed through here this morning on his way to Tennessee to spend a few months. Mr. Brockway is still looking as hale and hearty as he did a few years ago, when he and his good wife celebrated their golden wedding.

Miss Fannie Harris and Miss Grace Claven arrived home last evening from Kemper Hall Academy at Kenosha, Wis.

The South Shore train is reported two hours late to-night.

Judge Stone left this evening for Grand Rapids.

Stone & Gray hold eighty-eight labor claims against the Alouez Tribe company. They were yesterday successful in getting about one thousand dollars on these claims. Under the new labor law, which gives labor the first lien on property, executions were levied yesterday to enforce payment, but security was given for the money and the working men will now receive what is due them.

VALUABLE PROPERTY FOR SALE.

Having decided to retire from business I offer for sale my property on Cloman avenue, Iron city (Republic), which consists of the double store occupied by myself as a saloon, the rooms adjoining occupied as a barber shop and shoe shop, and also a good business building six doors from the saloon. The property will be sold together with saloon fixtures and stock on hand cheap and on the most reasonable terms. For particulars enquire or address me on the premises. The buildings are desirably located for any mercantile business.

OUR GREAT LOSS.

Congressman Moffatt's Death Mourned Equally by Men of All Parties.

THE DULUTH, SOUTH SHORE & ATLANTIC AND ITS RECORD.

Miss Pauline Werner's Concert—M. C. Band Benefit Monday Evening—C. A. R. Housewarming To-night.

Faithful and conscientious. The news of the death of Hon. Seth C. Moffatt, congressman from this district, was received in Marquette with a deep and universal feeling of sorrow. Nominated for his first term in congress in this city, by his devotion to the interests of Marquette he acquired great popularity with the members of both political parties here. His death is a great loss to the district, and it is more than all a great loss to Marquette, for Congressman Moffatt had several measures in charge which were of great importance to this city. The very first thing which he did on reaching Washington this month just before the opening of congress was to lay before superintendent Kimball, of the life-saving service, the statistics given by the MINING JOURNAL showing the necessity of a life-saving station here. Mr. Kimball, on the strength of the showing made by Mr. Moffatt, promptly embodied a recommendation for the establishment of a station here in his report. Prosque Isle park will always stand as a monument to the zeal of Congressman Moffatt, the best representative the district has ever had, for it was largely through his aid that Mr. White and those interested with him were successful in obtaining the park as a gift to the city from the government. These were matters of local importance, but in guarding the interests of the entire district Mr. Moffatt was just as untiring and zealous. He did yeoman's service in the last congress for the great waterway improvements upon which the prosperity of the district in so large a measure depends, while the people of the upper peninsula had at all times the feeling that his steadfast co-operation could be depended upon in any matter affecting them, although he himself was a resident of the lower peninsula of the state. In this respect no man could have been of more value to the peninsula.

Seth C. Moffatt was born in Battle Creek, Mich., August 1, 1841. He received a common school education there, and removed in the fall of 1858, with his parents, to Colon, St. Joseph county, where he passed two years as a teacher in the seminary. In the fall of 1860 he entered the literary department of Michigan University, but being obliged to abandon the literary course, he entered the law department in the following year. He was graduated in 1863, having been in the law office of Judge Cooley during his last year at the university. After his graduation he entered the law office of Hon. Byron D. Ball, at Grand Rapids. In the spring of 1864 he removed to Lyons and began the practice of law. From there he went to Northport, Leelanaw county, in the fall of 1866. He was at once elected prosecuting attorney, and re-elected in 1868. In 1870 he was elected state senator from the 31st district, and served through the regular and extra sessions of 1871-2 and the Edmunds impeachment trial. He served as a member of the constitutional commission of 1873 from this congressional district, James R. Devereaux, now of Marquette, being the other representative of the district. In the spring of 1874 he was appointed registrar of the United States land office at Traverse City, and held the office until its removal to Reed City in 1878, where he was elected prosecuting attorney of Grand Traverse county. In 1880 he was elected representative to the state legislature and his name at once came into prominence in connection with the speakership; he was elected to that responsible position from among several prominent and capable candidates. Though residing in the "tail end" of this congressional district he secured the nomination for congress at the republican congressional convention in this city in 1884 and was elected by a vote of 16,467 to 8,992 for John Power, of Escanaba, fusionist. Last fall he was re-elected, receiving the splendid endorsement at the hands of his party of being re-nominated by acclamation. He had served but three weeks of his second term.

The Duluth, South Shore & Atlantic railroad is practically completed. Two hundred and fifty miles of the eastern part of the line has been operated during 1887 as a local road and, three weeks of December being estimated, it earned \$1,500,000 gross and \$660,000 net. The line, when opened as a through line in the spring of 1888, will have maximum grades of 52 feet to the mile, as against grades 78 to 80 feet by any other line from St. Paul, Minneapolis and Duluth east. It will have the same sources of local business as in 1887, with the addition of the entire local business to be derived from the great Gogebic iron range, estimated at 500,000 tons per annum. It will have a lumber traffic on the new portion of this line of \$2,000,000 per mile gross, and it will have through traffic of grain and flour from its connections at Duluth, Superior, St. Paul and Minneapolis of from 1,500,000 to 2,000,000 tons, all of which will go over the entire length of the company's road. On the completion of the entire mileage of the line it is evident that the estimate of the promoters of gross earnings of \$3,000,000

and net earnings of \$1,200,000, with charges of not above \$700,000, is amply justified by the operations of the road to date, and warrants the expectation of dividends of from 4 to 6 per cent on the preferred stock the first year. The construction of the Washburn road and the extension of the Duluth, South Shore & Atlantic road to the Sault have opened large tracts of the Detroit, Marquette & Mackinaw company's lands. It is stated that valuable mineral lands have been prospected and the company has leased them at a royalty of 30 cents per ton on the ore taken out. At the present time there is over \$200,000 in the treasury, and the company is considering whether to invest it in the land grant bonds of the company or to expend the fund in dividends. The lands were granted by the state of Michigan, are exempt from taxation and are not subject to interference by congress.

Last Evening's Concert. Odd Fellows' Hall was well filled last evening by the audience which gathered to listen to the concert given by Miss Pauline Werner and her pupils. The following was the program: Instrumental—Queen of the Fairies Galop.....Pauline Werner Chorus—Our Greeting Song.....The full class Instrumental Duet—Prince Imperial Galop.....Essie and Edna Edwards Instrumental—Frolic of the Frogs Waltz.....Maggie Rogers Vocal solo—Beautiful Gates Ajar.....Edna Edwards Instrumental—Gussie Waltz.....Essie McKenny Instrumental duet—Chop Sticks Valse.....Cora and Laura Jobe Vocal—The Light House by the Sea.....Pauline Werner Instrumental—Winter Sports Mazurka.....Thalia Hood Song—Oh, How Sweet's Minnie Fanshender Instrumental—Siam Banq Galop.....Alma Lunstrom Song—Please Give Me a Penny.....Carrie Russell Instrumental—Happy Thought Schottische.....Essie Edwards Instrumental duet—Merry Evening Polka.....Maggie Rogers and Ida Jackson Vocal duet—Swede Song.....Edna Edwards and Edna Stack Song—The Duke.....Dwight Jackson The concert was a great success and reflected much credit upon Miss Werner as a teacher. The first encore was called forth by Edna Edwards' vocal solo, "Beautiful Gates Ajar," and was responded to by the song "Papa's Letter." The song by Miss Werner, "The Light House by the Sea," was loudly encored, and in response she sang, "Call Me Back Again." Carrie Russell's song was splendidly given, while the instrumental selection by Essie Edwards was finely executed. The instrumental duet by Cora and Laura Jobe, and the vocal duet by Emma Anderson and Eda Stack were both very good, while Dwight Jackson's song captured the entire audience.

The M. C. B. Benefit Concert. On Monday evening next the Marquette City band will give a benefit concert at the Casino, followed by a dance program of sixteen numbers. The concert will consist of ten selections and the program is given herewith: 1. President Cleveland's Wedding March.....T. B. Boyer 2. Grand selection, "Moses in Egypt".....Rossini 3. Overture, "Fair Maid of Perth".....J. Widdie 4. Chorus, "Hallelujah," by request.....Handel 5. Fantasia, "Evening Revels".....C. Richards 6. Grand fantasia, "England, Ireland and Scotland".....J. Tidswell 7. "Gloria" (from Twelfth Mass) by request.....Mozart 8. Grand fantasia, "Crown of Gold".....Victor Boaz 9. Fantasia, "Around the World".....H. Round 10. Grand military fantasia and galop, "Relief of Ekowe".....Round Following the printed program will be a dance card of sixteen numbers with the usual places for the names of partners. The admission will be only fifty cents, and there should be a rousing turnout. Let the benefit mean something.

Lower Than Ever. Ross & Getling issued a circular yesterday that knocked the bottom out of the oyster market as soon as it was read on the streets. They offer oysters at wholesale prices from now until January 1st, and guarantee the oysters carried by them to be "better fill," and just as large as can be any in town, money refunded if goods not satisfactory. They carry the celebrated Platt & Co. brands of canned oysters, and the prices quoted are the lowest by all odds ever known here, as will be seen by the following list: New York counts, 45 cents per can; extra, selects, 35 cents; standards 33 cents; standards, soup, 25 cents; in bulk, 40 cents per quart. Fresh consignments are received by the firm daily by express.

The Most Powerful on the Lakes. The most powerful steamer on the great lakes was launched at the Detroit drydock, Tuesday afternoon. It was the mammoth car ferry St. Ignace, built for transportation of railway cars across the straits of Mackinac in connection with the Duluth, South Shore & Atlantic, Michigan Central and Grand Rapids & Indiana railroads. Her machinery will be put in as rapidly as possible with a view of putting her in commission in the straits of Mackinac this winter. The steamer was built according to plans by engineer P. A. Kirby, and he has produced something that has largely added to his reputation as the head of his profession on fresh water.

NEW TRAINS ON THE NORTHWESTERN. The new schedule of the Chicago & Northwestern railway provides double trains from Ishpeming and Negaunee to Milwaukee and Chicago. The train leaving Ishpeming at 6:20 A. M. and Negaunee at 6:30 A. M. arrives at Milwaukee at 6:30 P. M. and Chicago at 9:30 P. M. The train leaving Ishpeming at 1:40 P. M. and Negaunee at 2:45 P. M. arrives in Chicago at 6:30 A. M. and has through sleeper. The morning train south-bound will prove a great convenience to patrons of the Northwestern.
