How a Dying Child

Was Saved!

Cherro, Hamilton Co., Ind., Sept., 19, 1887.—
The following is a true account of what your S. S. Shas done for our little daughter, Hazel, now four years old. When 12 months old a lump appeared on her heel, which slowly grew larger. The family physician thought it was caused by a piece of broken glass or needle, but falled to bring anything to light. The child became feebler all the time, seeming to lose the use of her leg, and finally quit walking entirely. The middle finger and thum of either hand became enlarged, the flesh becoming hard. The hip joints became involved, so that when seventeen months old she could not stand, having lost the use of leg and arm. Partial curvature of the spine also andarm. Partial curvature of the spine also followed. The nervous system was wrecked, muscles contracted, and there was general wasting of flesh and muscle. At eighteen wasting of flesh and muscle. At eighteen months of age she was placed under the treatment of a prominent physician of Boston, Mass., but at the end of ten months she had declined to such a degree that she was in a dying condition. This was in April, 1886 We took the child away not knowing what to do. In this dreadful dilemma we were over-persuaded by friends to try "one bottle" of Swift's Specific, which we did, and before it had all been taken we saw a chance before it had all been taken we saw a change for the better in her symptoms. We kept it up, and have done so to this day, and will keep it up, if the Lord wills, for many days keep it up, if the Lord wills, for many days
to come, for it has brought our dying Hazei
to life, to vigor, to strength and health again.
The ashen hue of her checks has changed to
a rosy fint. She is able to walk anywhere,
her languor and melancholy have passed
away, and she is now a blithe, cheerful, hap
py romping child. Should you wish to
crease your testimonials of proof of the
virtue of S.S.S., our names and what we
have said it but a portion of what we owe to virtue of S.S.S., our manes and what we owe to you, should you wish to use them.

MERRY CHRISTMAS

To All Negaunee Readers-Electric Bells For the Breitung House-The Supper To-Night - Services For To-Morrow Death of a Child.

A Merry Chrisimas!

To-morrow is Christmas-a day of general rest, a season for kindly feeling, and a time for the exchange of tokens of friendship. As Christmas falls on Sunday this year, Monday will be observed as the legal holiday. On that day there will be a general suspension of business, and even the reporters, whose holidays are Children's Playthings few and far between, will be given a rest. As this is the last issue of the MINING JOURNAL before Christmas, the reporter takes occasion to wish the Negaunee Here is an admirable opportunity to purchase conders a "marry Christmas" and to say.

Electric Bells.

A contract was let yesterday by A. C. Seass, proprietor of the Breitung House, to J. S. Healey, of Marquette, the representative of a Detroit electrical firm, for the establishment of a system of electric bells in that hostelrie. The terms of the contract are private, but as the system will be complete in every particular and will cover the whole building, the amount 450,000,000 Feet of Pine is among the hundreds. The workmen will commence putting in the system on the 2nd prox. This is but one of the many improvements that proprietor Seass is improvements that proprietor Seass is effecting in the Breitung House. When he gets through Negaunee will have a hotel of which she may well be proud.

Te-Night.

This evening Lake Superior Council No. 12, Royal Templars of Temperance gives its supper and entertainment at Mc Donald's opera house. The supper will be a bountiful one, and the program that AGRICULTURAL LANDS will follow will be very entertaining. The admission is but fifty cents. Attending the supper and entertainment will be a very good way to commence the Christmas festivities. Besides spending a pleasant evening, you will be adding your mite toward helping the organization.

The teachers in some of the departments of the public schools presented their pupils with a Christmas present in the shape of Dickens' "Christmas Carol" W. W. The gift will prove very entertaining, as well HARD AND SOFT COAL, as instructive.

MAS GIFTS are now matters that occupy large share of everybodys time and attention. If we can give you a few "pointers" about where and what to buy allow us to do so.

FIRST, buy at Braadstad's. You can always get your money's worth there, and have what is incomparibly the largest stock of goods in the country to select from, besides, you always get your money's worth there.

SECOND, at Braastad's you can buy almost anything that is sold anywhere. In the line of mechanical toys for the children there is an immense stock. If you feel like buying a barrel of flour to make glad the heart of your poor neighbor, remember that you can benefit yourself by saving money on the price of the flour, and your neighbor by giving him the best flour on the market - if you buy at

Three big stores and a meat market filled with everything good to eat, wear and have fun with. Come early and avoid the enormous crush which always visits us for a few days before Christmas.
