## THE DRY CONVENTION

Some Little Business and a Great Deal of Talking Done Yesterday.

EX-GOV. ST. JOHN UNANIMOUSLY CHOSEN AS PERMANENT CHAIRMAN.

The Crank With a Foolish Motion Was on Hand—Speculation on the Platform and Nominations.

## PROHIBITION CONVENTION.

INDIANAPOLIS, May 30.—The Prohibition national convention met at 10:25 this morning. At that hour chairman Dickie, of the national committee, rapped the convention to order. Miss Frances Willard and ex-Governor St. John took seats on the platform. The formal organization of the convention was then proceeded with, after the singing of "America," by the assemblage, and prayer by Sam Small, of Georgia.

Mr. Dickie then placed before the convention the name of Rev. H. C. Delano (Conn.) for temporary chairman, who was unanimously elected. Colonel Ritter, of Indianapolis, stepped forward at the same moment and made an address of welcome, to which chairman Delano replied on behalf of the convention.

The remainder of the temporary organization suggested by the national committee was then placed before the convention and formally elected.

Delegate Needham (Kas.) then stepped forward and presented chairman Delano with a gavel made from the wood of the telegraph pole upon which Governor St. John was hung in effigy November 7, 1884, at Topeka, Kas.

After a short address by temporary secretary Canfield, Governor St. John made a few remarks upon how it feels to be hanged in effigy. The convention then settled down to business and on motion of delegate Thomas the roll of states and territories was called for the naming of members of the committee on credentials and permanent organization.

After the call was completed, at the suggestion of Judge Black (Penn.), a call was ordered and made for the committees on resolutions and rules.

An adjournment was then taken at 12:45, until 3 p. m. Although the convention adjourned to 3 p. m., it was 3:45 before the temporary chairman (Delano) rapped the body together, and not even then was the business resumed.

Considerable time was occupied in getting the delegates in order and the proceedings were opened by a song and prayer. It was then found that the committee on credentials was not ready to report. So the time was taken up for an hour with songs and addresses.

The first motion put as matter of business was on the part of delegate Turner (Pa.), that a telegram be sent to the brewers' association at St. Paul, bidding them defiance, but the motion was choked off. A few minutes later, a similar motion was brought into prominence by Rev. Mr. Mills, who asked permission to read it, that having been asked of him. After a warm debate, in which several members were constantly on the floor, the mover of the resolution was given leave to withdraw it.

At this moment, the little son of the late John B. Finch was brought upon the platform amid loud cheering. Chairman Dickie, of the national committee, presented the little fellow with a gold medal on behalf of the prohibition party.

A memorial from the W. C. T. U. was read, asking the convention to place in its platform a plank demanding that the Bible be placed in the public schools and that the position of the party in '84 on the woman suffrage question be reaffirmed. The resolution was referred.

The announcement received from the committee on credentials that their report was ready. The convention immediately settled down and became quieter than at any time since it met in the morning. The report showed that delegates had been selected by every state except Louisiana, Mississippi and South Carolina.

The committee then stated that they had an order to permit the delegations present to cast the full vote of their state; also that provisional delegates should be given full power to vote in the convention. This gives a total vote of 1,030.

Immediately following the credentials report came that of the committee on permanent organization. Its recommendations were: For permanent chairman, John P. St. John, of Kansas; and for secretary, Rev. Sam Small, of Georgia. The action of the committee was unanimously concurred in and a committee appointed to escort the permanent chairman to the platform.

Having performed that duty, Governor St. John was introduced by temporary chairman Delano. Governor St. John responded happily, complimenting Mr. Delano upon his work in the temporary organization, and saying he would rather preside over the convention than be elected president by the rum power. He spoke encouragingly of the outlook. "The old parties," he said, "are giving way and our leaders, fearing the fall of the republican Babylon, have concluded not to be crushed

by the lack of sectionalism in the prohibition party and asked that the convention do such work as will cause future generations to rise up and call it blessed. He then asked the will of the convention. A memorial was presented from the national W. C. T. U., asking that the platform include a plank declaring against Sunday labor of any kind, so far as the national congress can so legislate.

A motion was made to adjourn to 9 a. m. tomorrow, but a delegate recalling the fact that an invitation to bishop Turner to a seat on the platform had not been carried, the motion was ruled down, and bishop Turner proceeded to speak. He thanked the convention for the compliment, and then gave his reasons for leaving the republican party and joining the prohibitionists. His remarks were received with cheers.

On motion of a Michigan delegate, the call of states was called for the selection of members of the national finance committee, after which the convention, at 5:55, adjourned until 9 a. m. to-morrow.

To-night the committees on rules, finance and platform are hard at work completing their reports for the convention to-morrow.

The platform committee is the one on which the greatest interest centers. Their session is secret, but it is understood that the feeling of the committee is largely in favor of reaffirming the woman suffrage plank of '84. The tariff question will probably cause some little debate and both of these planks will occasion considerable discussion. At the present writing the platform is in the hands of a sub-committee which will report to the full committee to-morrow morning.

It is most certain that General Clinton B. Fish, of New Jersey, will receive the nomination for the presidency. The second place on the ticket will fall to either George W. Bain, of Kentucky, or John A. Brooks, of Kansas City, Mo., with the odds in favor of the former.

## A FATAL ACCIDENT.

Ed. Maloney Killed at Ashland by the Accidental Discharge of a Revolver.

ASHLAND, Wis., May 30.—[Special.]—Ed. Maloney, president of the Ore Trimmers union, died at 6 o'clock this evening from the effects of a wound received yesterday afternoon from the accidental discharge of a revolver. While Maloney was examining the pistol it went off, the bullet passing through his right hand and thence through his bowels. His wounds were not believed to be fatal last night and heroic efforts were made to save his life but without avail.

## Allison the Coming Man.

NEW YORK, May 30.—Mr. J. S. Clarkson, the Iowa member of the republican national committee, who has been a warm supporter of Blaine in three national conventions, said that Mr. Blaine's letter simply emphasizes his declination of the presidential nomination. Mr. Clarkson added that he thought Senator Allison would be the coming man as his ability and fitness for the presidency were admitted by all. "He has, to begin with," continued Mr. Clarkson, "the great strength of his party's full strength, and has that every day. We believe Allison will be the strongest candidate, yet we have the spirit of party interest controlling us and if a stronger man can be found at Chicago we will be for him. The first thing this year is party success. With a good candidate we are going to elect the next president."

## The Latonia Races.

CINCINNATI, May 30.—Decorating Day at Latonia drew the largest crowd that ever visited the course, it being estimated at fully 15,000 people. The program had seven races, and the first two were split, owing to the large number of entries. The weather was clear and warm, and the track fast. Two seven-eighths of a mile races were run within 3 of a second of the best record. The finishes were grand. The Favorites won in every race but the first.

First race—Selling purse, six furlongs: Mishap won; Lilly Virgil, second; Mirth, third. Time, 1:17.

Second race—Selling purse, six furlongs: Kirmess won; Sistan, second; Dunne, third. Time, 1:16.

Third race—Selling purse, for two-year-olds, half-mile: G. W. Boyden won; Brandolet, second; Van Trim, third. Time, 50.

Fourth race—Selling, two-year-olds, four furlongs: Minnie Palmer won; Winning Ways, second; Veda, third. Time, 50.

Fifth race—Free handicap sweepstakes, seven furlongs: Valuable won; Marchma, second; Grisette, third. Time, 1:28.

Sixth race—Sweepstakes, for three-year-olds and upwards, one mile: Birthday won; Amella, second; Hypasia, third. Time, 1:42.

Seventh race—Tobacco stakes, for three-year-olds and upwards, seven furlongs: Glenhall won; Rot d'Or, second; Hector, third. Time, 1:28.

## The Teemer-Gaudaur Affair.

BOSTON, May 30.—The alleged three-mile race between Teemer and Gaudaur to-day at Point of Pines was witnessed by 4,000 people. To the uninitiated it was somewhat interesting, but to the experienced it savored of what is frequently termed a "put up job." The men started at 5:06, and took the water at the same time, Teemer rowing 38 strokes, and Gaudaur 32. Teemer at once gained a length and gradually increased it to the first turn, which was made at 5:10; by Teemer; at 5:10 1/2 by Gaudaur. The return to the starting point was made in 3 1/2 minutes, both turning together. Teemer took things easy. They got away well together but Teemer soon led by a length which he maintained and further increased, turning the third stake at 5:18; Gaudaur 5:18 1/2. The finish was uninteresting, as no work was done by either of the men. Teemer finished in 16 minutes with Gaudaur 16 1/2.

## A SUDDEN RELAPSE.

General Sheridan Very Suddenly Taken Worse at a Late Hour Last Night.

ALL THE PHYSICIANS AROUND HIS BED AT MIDNIGHT.

He Has a Narrow Escape from Suffocation Caused by Pulmonary Trouble. The Worst is Feared.

## GEN. SHERIDAN'S CONDITION.

NO BAD SYMPTOMS. WASHINGTON, May 30.—Everything was quiet at the Sheridan mansion this morning. The reports from the sick chamber were of a favorable character. The bulletin issued at 2 o'clock says the general has been quite bright and cheerful all morning, and there have been no disquieting symptoms.

At 6:30 p. m. the condition of General Sheridan was reported to be as favorable as at any time since the change of early Monday morning.

The bulletin issued at 8:45 p. m. says General Sheridan's condition is not so favorable as it was at the time of the last bulletin, owing to the fact that an harassing cough has appeared, making him restless and preventing sleep. Colonel Kellogg said the cough did not give any apprehension as the other favorable symptoms continued. The damp weather he thought might have caused the cough. No more bulletins will be issued until 8 o'clock to-morrow morning.

One of the physicians says the cough heretofore mentioned is caused by an irritation of the lungs. The only bad effect which it has, it keeps the general awake, and may be due to congestion or to the same suffusion which produced the edema or again it may be of a nervous nature. There has been no recurrence whatever of heart trouble.

## A SUDDEN RELAPSE.

WASHINGTON, May 31.—12:45 A. M.—At 10 o'clock last night General Sheridan was sud denly threatened with suffocation from pulmonary effusion and for a while was in imminent peril. At this hour the immediate danger has apparently passed. All of the physicians are at the general's bedside and fear that death may ensue at any moment.

I. A. M.—An Associated Press reporter telegraphs that General Sheridan's condition has changed for the worse again and that he is now in a very critical state. At 12:45 a. m. word was received from the Sheridan residence that the general had improved a little. It is thought that the general cannot live another day.

## The Brewers' Convention.

ST. PAUL, Minn., May 30.—Nearly 500 delegates were present at the first business session of the twenty-eighth annual convention of the United States Brewers' association held in Standard Hall this morning. It is said that of this number one hundred and forty represented an aggregate capital of \$35,000,000. President Wm. Hamm, of the St. Paul association, opened the session with a few words of welcome to which president Miles, of the national association, courteously replied and then delivered his annual address. The different reports were read and adopted, after which the convention adjourned until to-morrow.

## Morrison on Politics.

ST. LOUIS, Mo., May 30.—Ex-Congressman W. R. Morrison is in the city. In a chat with a reporter he said: "I do not see why the democratic national convention should be engaged longer than two days. There is nobody talked of for the presidential nomination but Mr. Cleveland. The delegates all come here to vote for him and their first expressions of opinion will be unanimous. Cleveland is stronger to-day than ever, not only with his own party, but with the whole people. Of the doubtful states I have no special information, except from Indiana, which I believe the democrats will certainly carry." Mr. Morrison said that if Senator Thurman wanted the vice-presidential nomination he could secure it unanimously.

## The St. Louis Races.

ST. LOUIS, Mo., May 30.—The fourth day of the spring meeting found the track in fair condition. The sport was good and the attendance large.

First race—Purse, six furlongs: G. W. Cook won; Blanda, second; Perslan, third. Time, 1:15 1/2.

Second race—Purse, one mile: Egmont won; Sayres, second; Guardsman, third. Time, 1:43 1/2.

Third race—Elwood stakes, all ages, one and a quarter miles: Terra Cotta won; L. L. L., second; Wary, third. Time, 2:10 1/2.

Fourth race—Selling purse, five furlongs: Fan King won; Iris, second; Meta, third. Time, 1:03 1/2.

Fifth race—Carriage builders purse, one mile and an eighth: Huttons won; Barriester, second; Boaz, third. Time, 1:56 1/2.

### THE TRAMP FRATERNITY.

Negaunee Apparently Made Their Headquarters to the Annoyance and Disgust of Citizens.

The Funeral of the Late John Quinn To-day. Mission Meetings at the Catholic Church—Personals.

Tramps.

The spring season has brought with it the usual number of tramps. The contractors on the D., S. S. & A. extension to Palmer are engaging all the men they can get, but the genus tramp doesn't like work, and the representatives of the class now here steer clear of the contractors.

They are a positive nuisance to the town, for while they have committed no great depredations, their very appearance terrifies a woman who is alone in a house when they make one of their begging visits. Tuesday night a party of them camped out on the lower end of Pioneer avenue and built a fire to keep from freezing to death. Yesterday afternoon the police were making preparations for a raid on the gang during the evening.

What the city needs is a few good balls and chains. Every spring brings its quota of tramps, and with the proper appliances at hand they could be made to put in good work on the streets for the city. Were this done Negaunee would be "blacklisted" by the tramp fraternity in short order.

Funeral To-day.

The funeral of the late John Quinn takes place to-day, the services being held at St. Paul's Catholic church at 9 o'clock, Rev. Fr. Elis officiating. The attendance will be large for Mr. Quinn's popularity was wide-spread and his hosts of friends will assemble to pay the last sad rites to his memory.

Missionaries.

Two redemptionist fathers from St. Louis are holding mission meetings at St. Paul's Catholic church. They commenced last Sunday and will end their labors in Negaunee next Sunday. They hold two daily services—one at 8 A. M. and the other at 7:30 P. M. So far they have had large audiences and their work has been productive of much good.

A Slight Delay.

A stick of wood fell from a D., S. S. & A. train near this city yesterday afternoon, and lodged between the rails in such a way as to throw engine No. 80, which came along shortly after, off the track. The engine was so thoroughly deranged as to stand crosswise on the roadbed. Traffic was delayed a couple of hours, and the east-bound train was sent to Marquette over the Marquette & Western track.

Lost Their Child.

Edward John, infant son of Mr. and Mrs. Edward Lobb, died at their residence yesterday morning, after a short illness. The little one was nineteen months old and was very bright. Mr. and Mrs. Lobb have the sympathy of the community in their bereavement. The funeral arrangements had not been made yesterday afternoon, but the funeral will probably be held Saturday.

Last winter several parties carted animals which had died on their premises to the vacant ground east of the cemetery. As a consequence, this spring the stench was simply horrible. After considerable work Marshal Cunningham has succeeded in getting the carcasses removed, for which the inhabitants on the eastern part of Main street are devoutly thankful.

H. Blake was stricken with paralysis Monday and for a time was in a dangerous condition, just as he has been a number of times before during recent years. His children were summoned, but yesterday he was out as usual taking orders for trees. He is a hardy old gentleman and will probably live to plant trees for many of the younger generation.

The boys—some of them are pretty well advanced toward manhood—who are covering the sidewalks with obscene inscriptions in chalk will be wise if they discontinue the practice. If caught they will be taught a much needed lesson.

Decorations day was not observed here to any alarming extent. The bank and postoffice were closed and some parties went fishing, but in other respects the day did not differ from 364 others in the year.

The city has bought a car load of lumber and stored it on Jackson street near the engine house. It will be used in laying new cross walks, repairing old ones and rebuilding launders.

A cross walk has been put in on Jackson street near the railway crossing. If it were continued through to Iron street it would be a great accommodation to people living in the northern part of the city.

James F. Foley is putting a concrete sidewalk in front of his Case street residence. The others in the block will soon follow suit.

Winter & Suess have put their meat market in shape for the summer's business by giving it a handsome coat of paint.

Nellie Siddons' Night Hawk Burlesque company is booked for a performance at the opera house Saturday night.

Sells Bros.' men rebilled the town yesterday.

PERSONAL.

Joe Fay, of Marquette, was here yesterday afternoon.

J. A. Ames, of Milwaukee, is in town looking after his mining interests near here.

MARQUETTE, MICH., MAY 31, 1888.  
Entered as mail matter of the second class, in the post office at Marquette, Mich.

The United States has over 342,000 telephones in use and over 128,230 miles of telephone wires. In 1886, the net profit from the telephones in use was \$4,150,000, a very tidy sum.

High license is getting in its work in Philadelphia. The license court provided by the new Pennsylvania law has just finished going through the city, and, as a result, Philadelphia will have 1,250 saloons this year, as compared with 5,773 in 1887.

The democratic Oshkosh Times, in its disgust at the conferring of a crown, at the laying of the corner stone of a confederate monument the other day, upon one whom it calls "that old confederate viper, Jeff Davis," arises to remark that "instead of a crown, Jeff Davis most richly deserves a halter. A crown for Jeff Davis! Faugh! Are there not fools to be found who will hunt for laurel wreaths for Benedict Arnold and decorations for Judas Iscariot?"

GLADSTONE is beginning to show that she is not going to be content with fame as a "paper" town, but is to have the business which her promoters have all along claimed for her. The first consignment of Minneapolis flour, consisting of 5,000 barrels, is being taken on by the steamer Tacoma at Gladstone. The flour dock, with a capacity of about 30,000 barrels, is completed, and the Lehigh company's coal packets will be ready for use not later than June 10. Now the Soo will catch it!

The North Republic mine will be ready to ship ore as soon as railroad facilities are provided, and as only a spur three-quarters of a mile long is needed, a track will be put into the mine very soon, in all probability. The managers of the mine are jubilant over its prospects, and inform the MINING JOURNAL that about 12,000 tons will be shipped this season. They have the regular Republic magnetic ore, of exactly the same character as that found in the great Republic. It assays 68.71 in iron and .015 in phosphorus.

ANOTHER electric railway triumph is the line in Connecticut, three and a half miles long, extending from the Ansonia factories to the steamboat wharf at Derby, head of navigation on the Naugatuck river. The motors are fed by an overhead copper wire, and carry the train at an average of twelve miles an hour, fifteen miles an hour not being uncommon. After a month's operating, the road has had no accidents, is preferred by the people to the horse cars, is self-sustaining, and though the trains run every twenty minutes, the whole road is operated with a little over one ton of coal per day! There is the revolutionizing fact. Horses and coal must come down.

With the current number, the Marinette Eagle passed its seventeenth mile post, having appeared every week in the seventeen years without a single miss, and for the past two years twice a week. When the Eagle was started, early in June, 1871, Judge Noyes, the editor, states that the votes polled in the town of Marinette, the geographical limits of which were then greater than those of the present county, were 190. Last April, 2,100 votes were polled in the city and about 400 more polled in the territory formerly within the corporate limits. The judge finds that the population, as indicated by the vote, has been multiplied by thirteen, but that the Eagle office does more than thirteen times as much business now as it did then.

**ABSOLUTE AND UNCONDITIONAL.**  
The "Florence letter" of James G. Blaine has been discussed to a greater extent and in more different lights by the press than probably any other letter or utterance in American politics of late years. In that letter he announced that for good and sufficient personal reasons his name would not be presented at the Chicago convention for the republican presidential nomination. In the face of the fact that even his personal enemies recognized that only death could prevent him from receiving the nomination in view of the feeling at that time existing among republicans throughout the country, he announced that he had decided to withhold his name. A queer condition of affairs at once arose. As state after state held its convention it became apparent that in the rank and file of the republican party there existed a feeling that the man who came within a few hundred votes of victory in 1884 should again be nominated, whether or

no, enthusiasm for Blaine being widespread and intense. It was apparent too, that many politicians were struggling desperately to escape political oblivion by trying to convince people that the Florence letter bore a different meaning between the lines and that Blaine would accept—fearing evidently that if Blaine were not nominated they would never be heard of again. On the other hand a large crop of candidates—"favorite sons"—sprung up as if by magic on the withdrawal of Blaine, each feeling that, the favorite out of the field, it was anybody's race. Many of these were firm friends of the great leader and distinctly stated that they were candidates for the nomination only with the understanding that he was sincere in his letter.

As a result of these varied feelings, the persistent efforts of his friends who refused to accept the letter, and, above all, of the multiplication of candidates, it has for some time looked as if Blaine would be the nominee, in spite of his letter of withdrawal. But by his letter to Whitelaw Reid, published yesterday, Mr. Blaine has put an end to all uncertainty at once and forever. He is out of the race. He formally notified the party that he was not a candidate for its honors. His every utterance since has been confirmatory of his original announcement, but this last is a "clincher." It cannot be misunderstood or misconstrued by the most zealous of his friends or the most bitter of his foes, and it will make him stronger in the hearts of the voters of his party than ever before. After showing that although the ocean rolls between him and his country, no man is better informed as to the condition of political affairs here, he states that if he should now, "by speech or by silence, by commission or by omission," allow his name to go before the convention, he would be open to the charge of insincerity in his former letter, and declares absolutely and unconditionally that he could not accept the nomination, even if tendered him. He has strengthened his party, upheld the hands of his truest and most sincere friends and admirers, and has at the same time cut the ground from under the feet of his enemies, for all must accept this, his latest utterance. It will cause acute sorrow to many, who will find their occupation gone now that there is no longer any excuse for vilifying Maine's first citizen. Their recent howling only increases their discomfiture, for it is shown that James G. Blaine, in spite of their prophecies, took himself out of the race knowingly and never to come back, as far as this campaign is concerned.

### A BUSY FACTORY.

Something About a Manufacturing Industry Which is Helping to Build Up Ishpeeming.

Decoration Day in the Iron Metropolis—Another Advertising Car—One Circus. Personal Mention.

## One of Our Industries.

While engaged in a tireless search for news yesterday morning the Ishpeeming reporter visited Johnston & Stark's wood working factory. He was courteously treated by Mr. Johnston, the senior member of the firm, and came away laden with considerable information concerning one of the industries that, in addition to its wonderful iron mines, is building up the city of Ishpeeming and pushing it to the fore.

The factory is located on Lake street, near the corner of Bank. The building itself does not lay claim to any great pretensions but there is a pile of work and lots of hustling being done inside. Messrs. Johnston & Stark came here shortly before the close of 1887, and the factory was put into thorough working shape the first of this year. They have a first-class boiler, which generates steam for a neat patterned engine, which furnishes the motive power for the factory. Receivers and fans whisk the shavings from the machines into the boiler room, where they are immediately used as fuel. The factory is now thoroughly equipped with wood-working machinery, the plant comprising the best makes of planers, turning lathes, etc. There is one machine in particular which works like a charm, turning out a finished piece of ceiling or flooring stuff with one cut. The machinery is located on both floors of the building, and there are ten men at work in various parts of the factory. Not having sufficient room, the firm rented the upper story of a building close by and use it for a store-room, the two being connected by a bridge. The firm turns out nearly everything needed by carpenters or builders for furnishing a dwelling. They make all kinds and sizes of sash and door frames, finely patterned turned pillars for verandas, turned pieces for railings, etc. They also make a specialty of fence material, and screen doors are turned out ready for use. The work is all done perfectly and according to instructions. Since establishing the factory here the firm has received substantial encouragement in the way of work, but it is still prepared to take care of all given it. The factory is now turning out all the finishings used by Wahlman & Grip, the contractors, in their work at Marquette and Houghton. Mr. Johnston returned from the copper country the other day, having given figures on \$3,000 worth of work. The most of it has already been captured by the firm, and the remainder doubtless will be. Johnston & Stark are here to build up a good business and a reputation for themselves, and all they ask from contractors and builders is a chance to "figure."

## Abent Circuses.

Sells Brothers' advertising car No. 2 arrived here yesterday, and the city was again billed for the appearance here June 7th. Among their new bills was one stating that Barnum's show was a fraud; that it either would not visit Ishpeeming in July or else it would not be a genuine show for it was billed to appear elsewhere. Now this struck terror to the hearts of Ishpeemingtons. They had planned to attend two circuses this year and they do not like the idea of losing one of 'em. But they are sure of one circus and the small boy and his elders—who, of course, "go to take the children," will be on hand early.

## Mr. Outhwaite, of the Nelson House, is out now nearly every fine day with a handsome turnout, consisting of a fine covered carriage which goes ahead of everything of its kind on the peninsula, and a team of colts four and five years old, handsome at any time and especially so when the bright harness which sets off the outfit is put on them.

The railroad editor of the Mirror must be taking a vacation. In the last issue of the paper gets Iron River correspondent speaks of "reversing" the steam, the train running up the track without an engine, etc., besides several other breaks. A curiosity arousing "ad" containing simply the words "June 6th" appears in this department this morning. Those who would know its meaning must wait until Monday morning.

## Quite a number of Ishpeeming people both young and old, are "down" with the measles.

Nelle Siddons' Night Hawk company played here last night to a crowded house. Two pages were required to register the patrons of the Nelson House yesterday.

## Yesterday was a legal holiday and no trials were held in the municipal courts.

## PERSONAL.

Capt. Samuel Mitchell, of Nequaunc, was in town yesterday.

The "orew" of Sells Bros. advertising car board at the Nelson.

Charles L. Sheldon is visiting the old folks and the old homestead near Detroit. Before his return he will investigate the shoe business in the large cities.

Mr. G. L. Colgate, representing the Vac Deople electric light, was in the city yesterday.

Victor Greiler of Bradford, Pa., is in the city.

C. H. Maxwell, of Bessemer, was in town yesterday.

Dr. Boyd is on the sick list.

## FITTINGLY OBSERVED.

The Memorial Day Services by the Soldiers and Citizens of Marquette Yesterday.

ED MALONEY ACCIDENTALLY SHOT AND KILLED AT ASHLAND.

Grand Presentation—All is Dark Once More. A Coming Event—More Fight—A Prosperous Association.

Decoration Day in Marquette.

The observance of Decoration Day in Marquette yesterday was the most general and complete of any previous years, all places of business being closed and other marks of observance were noticeable by the appearance of flags and other decorations on the house fronts. The exercises conducted by the Grand Army post were held on the grassy hillside on the north side of Ridge street, between Fifth and Sixth streets, one of the most appropriate places to be found in the city, and were attended by a large concourse of people, young, middle-aged and old. There was a large turnout of Grand Army men and also a number of old soldiers and sailors, and Capt. Wheeler and a number of ex-members of the Marquette Light Guards, headed by the drum corps; these together with the members of the city council in carriages and on foot, all headed by the City band, made up a fine and imposing procession which formed at the Ridge street school grounds and marched to the place chosen for the exercises, where the following program was carried out in full:

"Star Spangled Banner"..... M. C. Band  
Prayer..... Rev. Dr. Bonar  
G. A. R. Memorial Service.  
Song—"America"..... By the School Children  
Oration..... Charles A. Towne  
Hymn—"Cover Them Over"..... Selected Chorus  
Address..... Comrade C. B. Grant  
Hymn—"Nearer my God to Thee"..... Chorus  
Benediction..... Rev. Dr. Hall

The oration delivered by Mr. Towne was not only timely and of a highly appropriate nature, bringing out to good advantage that gentleman's great oratorical powers, but was truly grand and soul-stirring; many an old soldier found the tears running down his cheeks as he listened to it, and the MINING JOURNAL regrets exceedingly that a lack of space forbids its publication this morning. Mr. Towne was followed by Judge Grant, who also delivered a fine address in his best style, and which was well received by the old soldiers and all others present. The words uttered by the speakers from the grand stand yesterday will not soon be forgotten by those present, and will tend to serve as a means of keeping fresh in the minds of the boys and girls who brought flowers for the dead soldiers' graves the history of the late rebellion.

After the services were over and the benediction pronounced, a number of G. A. R. men, ably assisted by some of the young folks, repaired to the cemeteries and decorated the soldiers' graves, some of the floral offerings from the friends of the noble dead being very handsome.

### Accidentally Shot.

Ed. Maloney, brother of Marshal Maloney, of this city, and a former resident here, was shot at Ashland Tuesday afternoon by the accidental discharge of a revolver while examining it, and died at 6 o'clock last evening. The bullet passed through his right hand, thence to his bowels. The wound was not believed to be fatal up to last night, and heroic efforts were made to save his life, but without avail. Ed Maloney was an industrious young man, and leaves an aged father and mother here to mourn him. At the time of his death he was president of the or-trimmers' union at Ashland. The first news of the shooting was by a telegram received yesterday morning by Marshal Maloney, who left on the 1 o'clock train for Ashland. In the evening Tim Donovan received a dispatch from a friend stating that the wounded man had died at 6 o'clock. The particulars of his death were received by a special to the MINING JOURNAL at 12:30 this morning.

### Will be Married in Chicago.

On Tuesday, June 12th, Mr. Louis C. Moore and Miss Mae Belle Coffman will be married at the residence of the bride's parents, No. 336 East Forty-first street, Chicago. Mr. Moore formerly resided in Marquette where he has a host of friends, all of whom will join with the MINING JOURNAL in wishing him and his bride a long and prosperous wedded life.

### Last Evening.

A very interesting event took place in A. O. U. W. Hall last evening in which all of the participants were railroad men. Mr. J. B. Wilson, late master mechanic of the Duluth, South Shore & Atlantic, had been lured up town from his residence on the plea that his lawyer wanted to see him, but when once up he was taken to the hall and ushered into a gathering made up of old railroad men from both divisions of the D., S. S. & A. Mr. P. J. Loftus arose and explained the object of the surprise by presenting, with a neat address, an elegant open-face gold watch, with chain and seal, to Mr. Wilson, as a token of esteem from his employees. Accompanying the gift was the following testimonial, handsomely engrossed and framed:

John B. Wilson, late Master Mechanic, Duluth, South Shore & Atlantic, Marquette, State of Michigan:

We, the undersigned, your late employees, wishing to testify in some manner our respect and kind feelings toward you, and our deep regret at your resignation and retirement from the employ of the company in whose service you have labored so long and so faithfully.

and knowing as all do your skill and ability as a railway official, your universal kindness and impartial justice in dealing with employees, your executive ability and sturdy integrity as a man, gladly present you this token of our grateful appreciation of many kindnesses shown us, and wherever your lot in life may be cast, rest assured that yourself and family are not forgotten by us and we trust you will ever look back with many pleasant recollections to

Your Railroad Boys at Marquette.  
May 24, 1888.

The watch and chain were from Vanler & Bigelow's, and cost considerably over \$100. On the inner case of the watch, which is a Hampton movement, is the inscription, "Presented to J. B. Wilson by his employees, June 1st, 1888, D., S. S. & A."

Mr. Wilson, though taken completely by surprise, at once sent for the cigars, and then made a response that did credit to him as a man and a speaker. He referred to the length of time some of those present had been with him, from the very commencement of the construction of the D., M. & M., alluded to the many trials and difficulties they had overcome together, and ascribed the largest share of credit for whatever success had been gained entirely to their ready co-operation at all times. After speaking of his thirty years of railroad work he stated that the way was open to him to resume his place in that line of work elsewhere but that for a time he expected to obtain a rest by following other pursuits. If, however, he should ever re-enter the profession his only wish would be that he would find himself surrounded by just such a lot of sturdy, loyal men as had been his co-workers here.

Formalities were then dispensed with and all enjoyed a friendly chat, each man trying to get more cigar smoke into the air than his neighbor. Before adjourning a hearty vote of thanks to the A. O. U. W. was passed for the use of the hall.

### All is Dark Once More.

Yesterday Mr. Colgate took down the lamps which had been temporarily put up for the purpose of introducing the Van Depoele system of electric light to the city council, which has under consideration the advisability of lighting the city by electricity, and as a result Front street was as dark as a dungeon last night, made doubly so by the fact that all the store and saloon lights were either out or so far in the rear of those places that not a single ray of light could be seen from them, all of which goes to show that the sooner the city is properly lighted the better. Although Mr. Colgate has had the light in operation but a few nights he had got it down to fine shape, and it is generally conceded to be as nearly perfect as an electric light could be for street and indoor lighting.

Should the committee appointed by the council see fit to give Mr. Colgate a franchise for lighting the city, a plant can be put in here and in full running order by July 1st. Yesterday the dynamo which was used for the light was removed from the Iron Bay foundry to the Burtis mill, the same having been made by Mr. Colgate's company for Mr. Burtis.

### The Coming Great Concert.

If constant practice will prove of avail in perfecting the members of the musical company who are to take part in the grand concert to be given in St. Peter's cathedral in this city on the evening of Tuesday, the 5th of June, then each and every one will be admirably well up in their respective parts. It is intended to make this concert one of the grandest musical events in every sense of the word ever given in the county. The program will consist of fine classical music, the singers will be among the best of the peninsula possessors, all of whom will be assisted by two celebrated vocalists, namely, Mr. Charles A. Knorr, one of the best known tenors in the northwest, and Miss Geneva Johnson, the charming Chicago soprano. The orchestra will comprise twenty pieces, with Mr. Charles A. Fohrman as conductor.

Special trains will be run at the following rates for the round trip: Houghton, \$1.50; Barago, \$1.50; L'Anse, \$1.25; Michigan, \$1; Champion, \$1; Republic, \$1.25; Humboldt, \$1; Ishpeming, 50 cents; Negaunee 50 cents. As the concert is for the benefit of St. Peter's cathedral, the main cathedral itself being used for the first time that night, a great number will undoubtedly attend from the up-the-road cities and towns as well as from Marquette.

### Becoming Interesting.

The following communication which was received last evening, accompanied by a twenty-five-dollar forfeit, is self-explanatory, and will be understood by the sporting fraternity who read Mr. Butler's challenge in this paper yesterday.

SPOILING EDITOR OF THE MINING JOURNAL:—I understood that Ed Butler and myself were to meet at the rink in Marquette next Saturday evening and spar eight or ten rounds with medium weight gloves, winner to take 75 and the loser 25 per cent of door receipts. For some reason, best known to himself, Mr. Butler sees fit to ignore the arrangement, and to-day issues a challenge to me to meet him in private in a contest, with small gloves, an unlimited number of rounds, for from \$150 to \$250 a side. I accept the challenge of Mr. Butler, with these modifications: The contest shall be with skin gloves for \$150 a side, winner to take all the gate receipts; to be governed by London prize ring rules, and to take place within two weeks of signing articles. A forfeit of \$25 has been this day deposited with the sporting editor of the MINING JOURNAL. Now, Mr. Self-Styled Champion, put up or shut up. Yours etc., CON DAVIS.  
Dated May 30, 1888.

### PASTURAGE TO RENT.

I am prepared to rent pasturage at reasonable rates. Pasture consists of 320-acre tract, well-watered and securely fenced, this side of the old Morgan turnpike, about 5 miles from city. For terms apply to

### The Boys' Missionary Band.

The entertainment given by the Boys' Missionary band in the basement of the Presbyterian church was well attended and proved of a highly interesting character, and the result was of a highly satisfactory nature. These young men have taken upon them a work which is indeed commendable in a high degree, and one which should call forth the best encouragement of every true-hearted citizen of the place. The program for the evening consisted of fourteen numbers and proved as interesting as it was varied. It was composed of vocal and instrumental music, essays, recitations, declamations, the reading of letters from abroad, shadow pictures, sermons and ice cream, the parts being taken by masters Fred Kern, Will Van Iderstein, John Wilson, Will Ellison, George Ball, Robert Sweet and Ray Everett.

### A Prosperous Association.

The MINING JOURNAL is in receipt of the third quarterly statement of the financial standing of the Menominee Loan and Building association, which was incorporated in 1887, showing the association to be in a healthy and prosperous condition. The association presents a detailed statement of all its accounts, showing cash assets to the amount of \$21,762.42. The receipts for the quarter were \$6,536.14. Up to date of March 6th the number of shares issued were 3,409. The shares show a gain in value of nearly double the amount paid in in three months. There is no reason why these associations cannot be used successfully toward the advancement of the whole upper peninsula if properly managed, and it is hoped that our association in Marquette may not be found wanting toward that end. From the amount of business now doing it is safe to predict that her first financial report will loom up quite as creditably as that of her near relative down the line.

### Notice to Contractors.

Proposals will be received at the secretary's office in this city up to 4 o'clock P. M. on Tuesday, June 5, 1888, for the construction of the buildings required by the Marquette County Agricultural Society on their new grounds, in the northern limits of the city. Plans and specifications can be seen at the secretary's office.  
By order of the board of directors,  
C. H. CALL, Secretary.
