DOESN'T WORK WELL.

The New Hour For the Opening of the Senate Proves Too Early For the Solons.

IDAHO BILL MADE A SPECIAL ORDER FOR TO-DAY AND THURSDAY.

The National Ticket Brokers' Association Enters a Protest Against the Passage of the Baker Bill—Gossip.

WASHINGTON INTELLIGENCE.

WASHINGTON, April 1.—When the senate was called to order this morning only twenty-nine senators were there. The third call resulted in showing a quorum present. Several bills were reported from the committees and placed on file. At 12:30 the senate proceeded to the consideration of executive business. When the doors were re-opened the senate adjourned.

THE HOUSE.

In the house several bills of local importance were passed and the house went into committee of the whole, Mr. Payson (Ill) in the chair, on the fortification appropriation bill. After several amendments were acted upon, the committee rose and the bill passed. The amount appropriated is \$4,321,678.

Mr. McKinley, from the committee on rules, reported a resolution providing that the house shall meet at 11 o'clock to-morrow and Thursday and that the Idaho admission bill shall be made a special order for those days. Adopted.

The death of Representative Wilber (N Y) was announced and as a mark of respect to his memory the house adjourned.

The National Ticket Brokers' association today presented to the house committee on commerce a protest against the passage of the Baker bill prohibiting the sale or transfer by any person except regularly appointed ticket agents of railroad tickets. They held that the proposition contained in the bill was absurd. It would result in higher rates to the public, that it was an infringement of the personal right of the individual to dispose of his own property and that under its terms a man might be imprisoned for a year for selling his own railroad ticket.

Representative Turner (N. Y.) to-day introduced in the house a preamble and joint resolution for the better protection of human life on the Atlantic Ocean. The preamble to the resolution calls attention to the recent accident to the City of Paris, which jeopardized the lives of more than one thousand persons and made it apparent that some measures should be taken looking to the better protection of human life and property on the Atlantic highways.

WHEREAS, The nations chiefly interested in Atlantic travel are the United States, England, France, Italy and Norway and Sweden, therefore be it

Resolved, by the senate and house of representatives that the president be and hereby is requested to communicate through the secretary of state or other proper channel with the foreign powers so interested in trans-Atlantic travel with the view of securing their co-operation in the establishment of an efficient system of ocean patrol, which shall include the employment for said service of war vessels, or such other suitable vessels as may be available for the purpose.

The senate disposed of the nomination of Judge Swann and U. S. Attorney Stripling of the Northern district of Florida, to-day after an executive session of five and a half hours. The cases were before the senate five executive sessions and contested as no other nominations have been for years. They were finally confirmed by a strict party vote.

A temperance meeting in All Souls' Church was held to-night. A letter from Secretary Proctor was read, of which the following is an extract: "I am glad to heartily sympathize with the efforts of your society in behalf of temperance in the army and navy and shall do everything in my power to aid in the good work."

Funeral of Archbishop Heiss.
MILWAUKEE, Wis., April 1.—Cardinal Gibbons, three archbishops and twelve bishops were the direct participants in the services over the remains of Archbishop Heiss at St. John's cathedral this morning, while fully 150 priests formed part of the immense multitude that filled the capacious temple. Cardinal Gibbons celebrated pontifical mass at the cathedral and Bishops Hennessy and Katzer delivered eloquent sermons. Every Catholic society in the city turned out in full force. The procession of carriages was fully three miles long. Altogether it was the most impressively solemn gathering ever seen in Milwaukee.

To Die by Electricity.
NEW YORK, April 1.—Recorder Smith this afternoon sentenced Joseph Wood, a colored laborer, to die by electricity. Wood was convicted of murder in the first degree, for killing Charles Ruffin, who was also a laborer. The execution is to be held in the week commencing May 12th, 1890.

WILL NOW GO ON THE STAGE.

Mrs. Snell-McCrea Tires of Green—Rumors of a Rumpus Between the Pair.

NEW YORK, April 1.—A cablegram from London says: Douglass Green and Mrs. Snell-McCrea, who ran away to Europe after a romantic marriage at Old Point Comfort in which a colored preacher played a conspicuous part, are at swords points and an eruption is likely to take place at any moment. Reports say the pair are stopping at the Savoy Hotel, and remorse has overtaken the murdered banker's daughter, who laments her ruined life and besmirched character. Mrs. Snell, who was summoned from Chicago, has arrived at London and is at present with her daughter. The reports that Green is trying to come to some arrangements with his relatives by which he can return to this city are verified to-day. A friend of the family states that if Green should reach New York he would be cited to appear for examination into his mental condition and there is good ground thinking that he would stop awhile in Bloomingdale. It is not altogether unlikely that Mrs. Green, who is now stopping with her brother-in-law in Savannah, will seek release in the divorce court. It is said Mrs. Snell-McCrea will shortly return to this country, and as she has gained sufficient notoriety, will no doubt follow out the program mapped out for her and become an actress.

SITUATION AT LOUISVILLE.

Work of Repairing the Damage By the Storm Energetically Undertaken.

LOUISVILLE, Ky., April 1.—The sun came out bright this morning and has been shining all day. The ruins dried off rapidly and the work of repairing the damage by the tornado has gone forward energetically. Walls are going up and roofs are reappearing on every hand. The work of relief is now proceeding systematically. Nothing but absolute need is relieved and that only for the present. Only a few distributions were as large as \$20 and they were for burial expenses. The majority were \$5 and \$3 distributions. It has been decided by the underwriters that where a building has been only partially destroyed the fire insurance will be allowed to stand if proper repairs are made. Where buildings are totally destroyed the insurance is cancelled, but the premiums paid in advance are refunded.

Out of eighty buildings destroyed at Jeffersonville the owners of four-fifths of this number are poor people, whose little homes were their only possessions. All the homeless ones have been given shelter by their more fortunate neighbors; but the situation over there has been much under-estimated and it is a mistake to suppose that no assistance is needed in the little city across the river.

NOT A TRACE LEFT.

Terrific Explosion in a Pennsylvania Metallic Cap Works—One Man Killed.

PHILADELPHIA, April 1.—An explosion occurred at the works of the Metallic Cap company at Bethayres, Pa., this morning, completely wrecking the building and killing Peter Riley. The cap works are composed of four or five frame buildings, in which the different branches of the manufacture of fuminating caps for blasting purposes are carried on. Seventeen men were employed at the works. Only one was in the building when the explosion occurred and he was too badly scattered to tell what took place. Not a trace of the building, beyond a few scattered boards and rafters, is left. The explosion was terrific. Not enough of the unfortunate man who was killed could be picked up in one spot to be recognized. He was literally blown to pieces.

Virginia's Beef Inspection Law.

NORFOLK, Va., April 1.—The legislature of Virginia at the last session passed a law requiring all beef, veal and mutton, butchered at any point 100 miles from the place where offered for sale, to be inspected. The fee is one cent per pound, half to go to the state and the remainder to the inspector. The law has proven exceedingly obnoxious, especially to the cities, as it had the effect of putting up the price of meat from 2 to three cents, the advance coming out of the pockets of the consumers. To-day the constitutionality of the law was argued before the U. S. circuit court for the eastern district of Virginia. William Redman, of Armour & Co., who had been arrested for refusing to pay the inspectors' fees, argued the case at length, holding that the law was void, because in violation of the clause of the United States constitution, which gives congress the exclusive right to regulate commerce between the states and guarantees to the citizens of each state all the rights enjoyed by those of the other states. The state was represented by the attorney-general and the inspectors by Robert M. Hughes, of Norfolk. At the conclusion of the argument, the court stated that its opinion would be delivered Monday at Richmond.

Strike Compromised.

NEW YORK, April 1.—The bricklayers and their employers have compromised the eight hour demand by the bricklayers working nine hours a day, but getting 5 cents an hour more, making the wages for the ensuing year \$4.05 per day.

Painters Strike.

CLEVELAND, O., April 1.—Three hundred painters are on a strike here, having quit work to-day because they were refused \$2.50 for nine hours' work.

Row at a Negro Dance.

CHARLESTON, W. Va., April 1.—A special to the Gazette says a general row occurred among a lot of negro miners at Caperton while at a dance early this morning. Three men were instantly killed and others were injured. Several arrests have been made.

KANSAS ELECTIONS.

Municipal Contests Take Place in Many Cities of That State.

Manhattan Again Elects a Petitioned Government—Women in Many Places Get Up An Amount of Political Excitement.

TOPEKA, Kas., April 1.—Elections were held in Kansas to-day in sixty cities of the first, second and third class for councilmen and members of school boards. In nearly all the cities no political lines were drawn and the battles were fought purely on local issues. The only interest attached to the elections was the exercise of the suffrage by women, who are permitted under the laws of Kansas to vote for city officers and members of school boards. The women at Manhattan, two years ago, captured all the city offices and since that time women have administered all the departments of the city government from mayor down to the city hall janitorship. The women had another ticket in the field to-day and the prospects are it was elected over three other tickets in the field. They had control of all the election machinery, having appointed women judges and clerks of elections in all the precincts.

At Leavenworth the interest in the election centered on the candidacy of Mrs. H. D. Cushing, who ran for councilwoman on the republican ticket. Women were also candidates for the school board in three wards, having been nominated by the republicans. Something over six hundred women were registered but not over half of them went to the polls. The democrats ran a straight male ticket and it was elected with the exception of one candidate from the First ward for the council, who was defeated by Charles Slinge, republican. All the women candidates were defeated. The women of the W. C. T. U. took the greatest interest in the election and spread an election temperance lunch on Delaware street during the noon hour.

At Emporia the women were worked up to the highest pitch of political excitement over the candidacy of Mrs. Jackson for re-election as member of the school board. The registration of women was 50 per cent larger than a year ago, and 687 women were enrolled on the poll book. Most of them voted in support of Mrs. Jackson. The issue was made on the proposition of the opposition to Mrs. Jackson to reduce the salaries of school teachers in the interest of economy. Mrs. Jackson's platform was "Good salaries for good teachers." The returns at 9 o'clock indicate Mrs. Jackson's re-election.

At Topeka 550 women registered but less than half that number voted. They had no candidates in the field and were not directly interested in the election, the issues involved being local in the various wards. The women of Atchison had three candidates in the field for the school board. They made no issue beyond that of the right of women to an equal representation on the board with men. Earlier returns indicate that all were successful and that the straight republican ticket was victorious. Six hundred and more women registered at Wichita and 300 voted. The election was quiet, there being no general issue. The returns indicate the election of an equal number of democrats and republicans.

The Salina election was an animated one. The female suffragists had nominated a woman candidate for school board from two of the wards. A colored woman was run by the anti-suffragists. The suffragists were defeated and the colored woman was elected by an overwhelming majority.

A COLD CORNER.

Chicago Ice Dealers Form a Trust and Elevate the Price.

CHICAGO, April 1.—An ice trust has been formed by the Chicago dealers, and prices were advanced to-day 25 to 50 per cent over the figures current at this time a year ago. The crop in this vicinity is said to be million tons short of the usual requirements and the supply is practically all in the hands of the trust. A further advance in prices is threatened before the first of June.

Tired of Life.

NEW YORK, April 1.—Morris Marks, a commission merchant and silk importer doing business at No. 97 Spring street, committed suicide this afternoon at home. In October he was married to Mrs. Lottie R. Beasley, a widow with one child, a 10-year-old girl. He and his wife quarrelled on several occasions and he grew despondent on this account. His step daughter called on him Monday and gave him a rose which was sent by her mother. When found the rose was pinned over his breast.

A Negro Conference.

LAKE MOHAWK, Ky., April 1.—The first meeting of the Mohawk negro conference will be held here Wednesday, Thursday and Friday, June 4, 5 and 6, next. The object of the conference is to consider ways and means to elevate the negro race by means of education and the Christian religion. It will bring together a large number of prominent men interested in the discussion of the problems involved with the view of the adoption of some general plan for carrying forward this important work. Political issues and discussions will be avoided and attention will be confined entirely to religious and educational problems.

Lynch Law Looked For.

EVANSVILLE, Ind., April 1.—W. A. Traiber, station agent of the Peoria Decatur & Evansville railroad at Poseyville, Ind., who was sandbagged and robbed Thursday night, died yesterday evening. Webb and Wallace, the alleged murderers, are in jail at Mt. Vernon, the county seat, for safe-keeping. A mob is feared. Other arrests will probably be made.

TALKS OF ABDICATING.

Queen Victoria Said to Be Seriously Contemplating Giving the Prince of Wales

A CHANCE AT THE SOFT JOB SHE HAS HELD FOR SO MANY YEARS.

Prince Bismarck's Birthday—Munich Threatened With a Beer-General Foreign.

ENGLAND.

LONDON, April 1.—It is now stated on the highest official authority, as well as being a matter of common gossip in parliament and at the clubs, that the queen is seriously considering the step of abdicating the British throne.

The Times says: "In relinquishing office while the skies are clear, Bismarck has shown the same patriotic foresight that has been the distinguishing feature of his career."

Mr. Parnell has filed his denials in the O'Shea case. Mrs. O'Shea has asked for a month's delay in order to be able to answer Captain O'Shea's reply to her answer.

GERMANY.

BERLIN, April 1.—The miners employed in two of the coal pits at Dortmund have joined the strike.

To-day was the seventy-fifth anniversary of the birthday of Prince Bismarck. The railway station was almost blocked by the enormous number of presents arriving for the prince.

During the day Bismarck received numberless congratulatory telegrams. He spent the day quietly with his family. In the evening he was serenaded.

After the procession last night the prince invited Herr Wernmann and other Hamburg visitors to his home. Herr Wernmann in the course of a conversation expressed the hope that the prince would not be altogether a stranger to politics and that he would still take part in the debates in the reichstag.

The National Gazette's Paris correspondent telegraphs as follows: "M. Jules Simon, one of the French delegates to the labor conference was surprised at the extent of Emperor William's knowledge."

The cabinet to-day discussed the labor bills to be laid before the reichstag. The Dortmund strikers to-day made an attack with stones upon a number of workmen living near the Rheinebeke. The disorder was suppressed by gendarmes, and many strikers were arrested.

A beer riot is expected at Munich. The brewers have raised the price of beer two pennings per glass, on the ground that they could not make money at the old prices, although the beer made for export pays.

viction of the holder of the ticket and the two officers of the company, who get eight years penal servitude.

FRANCE.

PARIS, April 1.—It is reported that the young Duc d'Orleans will be released from imprisonment at Clairvaux before the end of the present week, but that the fact of his release will not be allowed to become known until he is safely across the frontier.

BELOGIUM.

BRUSSELS, April 1.—The maritime committee of the anti-slavery conference has made a lengthy report, which shows that all the difficulties have been surmounted and that an agreement has been established on every point.

CANADA.

OTTAWA, Ont., April 1.—C. H. Tupper proposes to amend his fisheries bill by inserting provisions making it a misdemeanor to kill seals, porpoises, whales or fish of any kinds by means of rockets, explosive materials or explosive instrument or to allow chemical substances, drugs, poisonous matters, dead or decayed fish, as well as sawdust and mill rubbish to enter streams frequented by fish.

AUSTRIA.

VIENNA, April 1.—Ten thousand builders' employes and eight hundred bakers' apprentices are now on strike in this city.

A BAD LANDSLIDE.

George W. Peck Elected Mayor of Milwaukee by an Overwhelming Vote.

MILWAUKEE, Wis., April 1.—The election in this city to-day excited unusual interest owing to the fact that the so-called Bennett law, enacted by the last legislature, requiring the teaching of English in all schools, private or parochial as well as public, was made an issue.

The Flood Believed to Have Reached Its Highest Point—Railroad Tracks Covered.

NEW ORLEANS, April 1.—The situation at Greenville, Miss., is unchanged. Heavy rains last night and all to-day made things very disagreeable.

Mitchell and Le Blanche Matched.

SAN FRANCISCO, April 1.—The California Athletic club has matched George Le Blanche and young Mitchell to fight June 27th for a purse of \$3,000.

ON EMERGENCY TRAINS.

THAT'S WHEN THE IRON HORSE PERFORMS WONDERFUL FEATS.

Anybody with Money Enough Can Have a Special—When the Occasion Warrants Everything Must Give Way to the Flyers on the Railroad.

Half a century ago the man who was in a hurry to go to Washington or New York had to content himself with a slow-going stage coach that joggled him over the road at a pace that would exasperate a business man of today to the verge of insanity.

The result is the avoidance of delay through loss of connection at junction points. To the man who has need for a special train it is not so essential that he should outstrip the time of a fast express as that he should be able to start at once without waiting an hour or two for the next regularly scheduled train.

An illustration of this character is furnished by a well known Philadelphia lawyer who had occasion to visit Lancaster upon legal business of great importance.

When Gen. Sheridan ran in Washington suffering with his last illness Dr. William Pepper made frequent visits to his bedside, and usually traveled by special train over the Pennsylvania railroad.

One of the best examples of quick work that has been done in this line was furnished by the Philadelphia and Reading railroad, when a member of the banking firm of Thomas A. Bidde & Co. made use of a special train to deliver several hundred shares of stock of the Western National bank of New York in that city.

While the celerity with which special trains are made ready in case of emergency may strike uninitiated persons as something of an achievement, the matter is really an everyday thing in this kind of railroading.

All of this is accomplished by the free use of the telegraph, and it takes but a few moments to inform every signal operator, station agent and all the trains concerned that a special is coming.

The cost of a special train sent out on short notice varies greatly according to the distance that is to be run and the character of the emergency.

In Switzerland and other mountainous countries the great leads long strings of animals daily to and from the mountains, but it is in South Africa that it is regularly kept and employed as a leader of flocks of sheep.

Drop a Nickel

in your grocer's hand and get a package of PYLE'S PEARLINE—the original and best Washing Compound. It will save you time, trouble, health, wear and tear, which cannot be computed in dollars.

It's better—easier—quicker than soap for washing clothes and housecleaning; if that's not true, what becomes of the many, many millions of packages sold annually?

The Professor's Equanimity. There is no man in Cornell university about whom better stories are told than Professor Hiram Corson, the Shakespearean student and professor of English literature.

William Morris, the poet-author, seems to be an eccentric genius. His work is singularly beautiful; certainly no other writer at the present time has so strong and so pure a literary style.

A friend of mine has just had an experience that the reformatory tract societies ought to get hold of. His little 3-year-old daughter became very drooping and delicate in health about a year ago, and has so continued, with only this curious variation—she has picked up wonderfully during the time of each of his several absences from home.

Sir Walter Scott wrote upwards of thirty stories. As a rule, his heroes and heroines are parentless; there are few fathers, however, who have some claim upon our respect.

Students in one co-operative dining club at Berea, O., with which I became acquainted, were well fed at nine cents per meal, another at Ann Arbor, Mich., at \$1.40 a week, and another at Iowa City, Ia., at eight cents a meal.

The Bay of Fundy forms a cul-de-sac at which the Atlantic ocean seems to have taken a spite, and at regular intervals pours in its waters viciously and with intent to do all possible harm.

A POPULAR DEMAND.

The Call Addressed to J. M. Longyear by the Business Men of the City.

The MINING JOURNAL is requested to publish the following popular call addressed to Mr. J. M. Longyear requesting him to allow the use of his name in connection with the majority at the coming election, also Mr. Longyear's reply. In itself the call, from the names appended to it, is a testimonial of which any man might well be proud: MARQUETTE, Mich., March 22, 1890. To J. M. Longyear, Esq., City.

DEAR SIR: We, the undersigned, citizens of Marquette, irrespective of party, respectfully ask you to be a candidate for the office of mayor of this city at the coming spring election; and we pledge you our support, if you will accept the nomination. Yours truly,

- J. M. Wilkinson, D. Fred Charlton, A. F. Maynard, J. R. Devereaux, E. A. Johnson, Peter White, George W. Freeman, E. H. Lyons, Geo. Barnes, B. O. Pearl, A. W. Klein, G. J. Northrop, E. A. To Messrs. J. M. Wilkinson and others: GENTLEMEN—Your request that I stand as a candidate for mayor of Marquette at the coming spring election has just been handed to me, and in reply I would say that I feel highly honored by your request and, if elected, I will fill the office to the best of my ability. Very truly yours, J. M. LONGYEAR.

Council Meets To-Night. The regular meeting of the common council for this month would come on Monday next, but as that is election day the regular meeting will be combined with a special meeting called for this evening. Besides routine matters there will probably be a resolution introduced to-night to extend for another thirty days the trunk sewer assessment.

Launch of "City of Marquette." The new steamer "City of Marquette" was launched from Berger & Berger's yard at Manitowish, Wis., Sunday afternoon. Her dimensions are: Keel, 115 feet; over all length, 126 feet; beam, 25 feet; hold, 9 feet. Measurement, 300 tons. She will run between Sault Ste. Marie and Marquette, in the freight and passenger trade. She is owned by C. Endress & Sons, of Sault Ste. Marie.

CITY CONVENTION. A city convention will be held at Mack's Hall, on Washington street, Friday, April 4th, at 8 o'clock, for the purpose of nominating candidates for municipal offices to be filled at the charter election to be held on Monday, April 7th. The several wards will be entitled to representation in the convention as follows: First ward, 3 delegates; Second ward, 4; Third ward, 4; Fourth ward, 4; Fifth ward, 3.

Ward caucuses to select delegates to the city convention and place in nomination candidates for the ward offices will be held at 7:30 p. m., at the following places: First ward, railroad freight depot; Second ward, city livery house; Third ward, Hodgkins' livery barn; Fourth ward, Mack's Hall; Fifth ward, Third street school house. By order of the committee, F. M. MOORE, Chairman, Marquette, April 1, 1890. 4-231

CATARRH. Catarrhal Deafness—Hay Fever—A New Home Treatment. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and the eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. N. B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent free on receipt of stamp by postage, by A. H. Dixon & Son, 357 and 359 West King street, Toronto, Canada.—Christian Advocate.

Sufferers from catarrhal troubles should carefully read the above. M. D. BRYCE, Attorney-at-Law, Commercial Law and Collections a Specialty. No. 7 Adams Block, 303 Front St. MARQUETTE, MICH. 4-211

MR. BROWNING'S LAST POEM.

At the midnight, in the silence of the sleeping time, When you set your fancies free, Will they pass where—by death, fools think, Impassioned— Low he lies who once so loved you, whom you loved so —Pity me.

Oh, to love so, be so loved, yet so mistaken! What had I on earth to do With the slothful, with the mawkish, the unmanly? Like the amiable, helpless, hopeless, did I drive! —Being—who?

One who never turned his back, but marched breast forward. Never doubted clouds would break, Never dreamed, though right were wasted, wrong would triumph. Held we fall to rise, are baffled to fight better, Sleep to wake.

No, at noonday in the bustle of man's work-time Greet the unseen with a cheer! Bid him forward, breast and back as either should be, "Strive and thrive!" cry "Speed—fight on fare ever— There as here!"

American Watches. To give an off hand estimate, I should say that the several factories of this country turn out about two million watches each year. The demand for them increases, here and in all civilized countries, even in a larger ratio than the increase of population. Of course the much smaller number of high priced watches made in Switzerland show much larger financial returns in proportion to the total number made than in America, where the majority are extremely low priced. It should be added that our American watches, costing the purchaser as low as \$1 at retail, are fully as reliable and satisfactory in the matter of accurately recording time as the extravagantly high priced and elaborately constructed watches imported from and purchased by an annually decreasing number of Americans, who labor under the now practically exploded hallucination that a Swiss watch, or anything, in fact, that is imported from Europe, must be better than anything in the same line produced here.—New York Mail and Express.

Afraid of Wires. Electricity has become not only a wonderful but a fearful agent, and the imaginative tremble before it. "It is perfectly terrible," said a lady, "to read of the accidents that occur from misplaced wires! Nothing would tempt me to have anything to do with electric cars, bells, telephones, or any other such alarming invention, if I could power them with lightning bolts."

"Well, you can't," said her husband, carelessly, "unless you flee to the wilderness."

"That's the worst of it," said the lady, in mock despair. "Why, you may touch an iron post, or step on an innocent looking iron grating, and fall down dead! It's all those terrible wires I declare. I've grown so dizzy over them that I can't look at a wire strainer in the kitchen without shuddering!" —Youth's Companion.

Origin of Gringo. Here "Gringo" is the name applied to the English and citizens of the United States of America alike—to all who speak English or look as if they could. Saying "I'm Gringo" usually gives the impression that one is an Englishman. This appellation is said to have originated thus: Years ago a song by Lover, entitled "Green Grow the Rushes, O!" and in which these words were prominent as part of the chorus, was popular with the English sailors, who, at that time and at the present as well, handle most of the trade at Peru. "Green grow" was contracted to Gringo and used to designate the English. Anyway, we are known by no other name in all the countries of the west coast of South America.—Peru Letter in Columbus Post.

Rings for Her Toes. George B. Dexter, of Boston, exhibited among his friends some gold and silver rings of very artistic design and finish, but of uncommonly large size for finger rings. Mr. Dexter explained that the rings were not for the fingers, but the toes, and were the kind worn by the four hundred of Algiers. He had secured them on a recent trip abroad. The articles were examples of native skill, and the workmanship would compare very favorably with the best work of the most skillful jewelers anywhere.—Cincinnati Times-Star.

A Pot of Blooming Heather. If you are a man and desperately in love with the dearest girl in the world, and do not want to just send her a bunch of flowers, but want to do something which is extremely pretty, there must go addressed to her, with your card in it, a pot of blooming Scotch heather, around which has been tied a broad ribbon that could be worn as a sash of the Macduff plaid. The Scotch heather of the florist does differ a little from the Scotch heather seen in Scotland, but it is extremely pretty.—Philadelphia Times.

Specimens of Postage Stamps. It is astonishing what a number of stamp collectors there are in the world. It is a passion which did not come into vogue until 1851, but since that year it has spread everywhere. Twenty-five years ago the divers stamps to be obtained did not exceed 500. Nowadays some albums contain at least 3,000. In the Berlin museum there are 4,500 specimens, so it is said, of which 2,400 are European and 1,147 from America.—Paris Letter.

Where Cigars are Carried. I have a good deal of quiet fun to myself watching where people put their cigars. Of course your business man has his cigar case or he puts his cigars in his vest pocket. The Irishman who is a laborer sticks his surplus cigar in his hat band. I have seen a policeman buy three or four cigars and put them on the inside of his hat.—Chicago Times.

Orchid Collections. Orchid growing among amateur gardeners has as yet not achieved a very widespread popularity, but there are several very rich collections in this country, of which the finest belong respectively to William B. Dismore, Jay Gould, Erasmus Corning and John Hoey.—New York Commercial Advertiser.

A Good Name. Gilbooly—Have the undertakers got an organ like the jewelers and grocers and other trades? Gus De Smith—I believe so. "What is the name of it?" "I don't know; but The Planters' Journal would be a good one."—Texas Siftings.

No Disguise Needed. The Associate Editor—Well, Tom, did you go to the masquerade ball last night? The Interviewer—I did. The A. E.—As what? The I.—I went in my every day clothes as a pump.—Pittsburg Bulletin.

Success is rarely a matter of accident—always a matter of character. The reason why so many men fail is that so few men are willing to pay the price of self denial and hard work which success exacts.

GOOD WORK IS SHOWN.

Some Facts and Figures From the Annual Report of Young Men's Christian Association.

CITY CONVENTION CALLED FOR NEXT FRIDAY EVENING.

General Manager Fitch and Party Return From Their Southwestern Trip - Homesteader Salts Himself.

Annual Report Y. M. C. A.

The eighth annual report of the Young Men's Christian Association was issued yesterday, having been delayed for a supplementary report setting forth the recent changes in the executive department of the association and the announcement of its complete clearance from debt. It is a neat pamphlet of forty pages entitled "Do You Know What Happened in Our Association During the Year 1888? If Not Read This Account of the Year's Work." The cover is a handsome piece of tint printing. Both that and the numerous specimens of delicate and original rule decorations are the work of C. A. Maffit, a member of the association and one of the most ingenious typographic artists of the MINING JOURNAL job rooms.

The report shows the association to be entirely free from debt. This fact of the payment of over \$1,500 must remain one of the chief glories of Secretary Butterfield's administration. From eighty-two sustaining member and contributors \$2,390 was received and from ordinary and full memberships, \$665. In addition \$590 was given by one person who prefers to remain unknown. Permanent improvement to the value of over \$400 were made. Four lectures and seven receptions were given. The library has over 320 volumes and about 100 periodicals are regularly on file in the reading room. The last was open 303 days during the year with a total attendance of 19,680, a daily average of sixty-five. The gymnasium was open 223 days with a total attendance of 11,202, a daily average of fifty. Baths numbered 4,824. The bowling alley has been thoroughly refitted and the number of locker in the dressing room has been increased to 100. The gymnasium is also used twice weekly by the Ladies' Physical Culture club, numbering some twenty members. Since the opening of the present year the growth in matters spiritual has been something remarkable, the average attendance at the Sunday Young Men's meetings being now thirty-four as against nineteen for 1889. Altogether the Young Men's Christian Association is in a most excellent and prosperous condition, a fact largely due to the work of General Secretary Butterfield, and General Secretary Clark will find the field much easier than did his predecessor.

City Convention Called.

The call for a city convention, issued by Chairman F. M. Moore of the city committee chosen at the last convention, will be found in another place. The convention will be held in Mack's hall at 8 o'clock next Friday evening. The First and Fifth wards are entitled to three delegates each, the Second and Fourth wards to six delegates each, and the Third ward to four delegates.

Ward caucuses will be held at 7:30 o'clock to choose delegates in the following places: First ward, railroad freight house; Second ward, hose house; Third ward, Hodgkins barn; Fourth ward, Mack's hall; Fifth ward, Third street school.

For some years Marquette has followed the wise course of making non-partisan nominations for municipal offices. The convention is a non-partisan one and will doubtless make good nominations, who are reasonably certain to be elected.

Travellers Return.

General Manager Fitch and party returned from their Californian and Mexican trip yesterday. All report enjoying themselves immensely. Mr. Fitch certainly shows in his improved appearance the effects of rest and freedom from the engrossing cares of his responsible position. The trip included stoppages at Omaha, Denver, Salt Lake, San Francisco, Monterey, Los Angeles, San Diego and the great seashore resort at Coronado Beach, thence direct to the City of Mexico, where six days were spent. On their return the party visited Santa Fe which disputes with St. Augustine the oldest city in the United States. With a day's pause at the bustling western metropolis, Kansas City, the run homeward was made rapidly.

"I saw everything there was to be seen in the time," said Mr. Fitch to a MINING JOURNAL man, "tried to forget everything in the way of business and enjoyed myself greatly. The ladies of the party also seemed to enjoy themselves very much. There is no use in trying to describe what I saw for all of it has been written and re-written about. But no description can take the place of an actual presence on the scene."

Thought Himself Fresh.

A homesteader loaded to the gunwale with tanglefoot wandered into town

yesterday. He evidently was of the opinion that he was decidedly fresh and needed salting to keep from spoiling. He strayed into a prominent grocery store and deliberately sat down in a barrel of pickled pig's feet. The brine flew and the groceryman made remarks more theological than orthodox but the pine agriculturist calmly arose and viewed his dripping garments with evident satisfaction. At this stage of the game Officer Hogan appeared and conducted the externally and internally drenched homesteader to the cool recesses of the city prison. There he spent the night, singing "I Had Ten Million Feet on a Daisy Quarter Section" in a melodious baritone voice.

Homesteaders Will Dance.

The jolly homesteaders of the Trout Creek district will "shake a foot" and "trip the light fantastic" this evening. Invitations to a social hop there have been received in this city. The affair is under the management of W. C. Mannis, R. Esterling and H. Gleason. The invitation committee is composed of W. Grooms, Hill Creek; D. Dion, Kenton; W. H. Oakley, Trout Creek; W. C. Foard, Bruce's Crossing; H. Esterling, Ewen. The floor committee is J. P. Smith and H. Gleason, and good music and an oyster supper is promised. Truly the homesteaders seem to be getting decidedly gay.

St. Ignace Stave Factory.

Messrs. M. Chambers, P. H. Hombach and M. F. Mulcrone of St. Ignace are in the city looking after rates on material to the new stave factory at that place. The factory will turn out large quantities of staves of a new pattern and uniform size. The advantage of this is that when a stave is broken a new one can at once be slid in and time and labor thus saved.

St. Ignace is also agitating the development of her marble deposits and gypsum beds. A diamond drill will be put to work exploring the latter this season. The Martel furnace expects to turn out about 60 tons of pig per day and altogether St. Ignace is booming. The enterprise of her business men is an example to those of Marquette.

TALK OF THE TOWN

Fair weather.

C. L. Frizzelle returned from the Pacific coast yesterday.

Mr. and Mrs. W. L. Bancroft of Trout Creek are in the city.

H. C. Liddiard of Detroit, who has been in the city several days, left yesterday.

S. C. Brown, division superintendent of the American Express company, is in the city.

The janitor of the federal building daily sweeps a bushel of broken brick off that rotten sidewalk.

Another big Duluth flour train will leave that city Thursday and probably arrive here some time Friday.

Marshal Maloney is in Detroit as a witness in the great Brown, Howard & Co. lawsuit and Officer Dennis Hogan is on day duty during his absence.

Captain Massillot and Engineer McArthur left yesterday for Eay City to take charge of the steamer Golden Eagle which will work about this port.

The display of wind signals will be resumed to-day on Lakes Erie and Ontario; on Lake Huron April 11th; Lake Michigan, April 16th, and Lake Superior May 1st.

Detroit papers report the Farwell & Adams fleet chartered until September 15 for ore to Ohio ports at \$1.25 per ton from Marquette and \$1.35 from Ashland.

The Marquette Building and Loan Association lent \$2,500 in sums of \$700, \$1,000 and \$750 last evening. The loans brought 30, 30 and 25 per cent. premium respectively.

The merchants along Washington street should awake to the fact that spring is here and clean the ice off their walks. The south side of the street is positively dangerous to pedestrians.

An enormous orange, weight 22½ ounces, attracts much attention in the window of Helmer's fruit stand. It was brought from Los Angeles by Al Kinney, General Manager Fitch's man.

Another tourist sleeper passes westward over the South Shore to-morrow. As a Canadian Pacific colonist car could not be secured for this trip the Great Northern has lent one of its elegant first-class sleepers for the purpose.

The Musical association held a well attended rehearsal in Morgan Memorial chapel last evening. More male voices and more altos are needed. Active preparations are making for the first concert on the 23rd inst.

The Junior Camp of Knights of Maccabees will give a grand ball at Armory Hall on Easter Monday evening. No invitations have been issued, the tickets being made in that form. They are on sale at a number of the leading business houses.

R. Lambert, who has the reputation of being the best horse-shoer in Marquette county, has formed a partnership with T. C. McGuire. The firm of McGuire & Lambert will carry on a general blacksmithing business with special attention to horse shoeing at McGuire's old stand on Lake street.

Major James B. Quinn, U. S. A., the supervising engineer of this district, and Engineers Chas. E. L. B. Davis, of Milwaukee and W. L. Marshall of Chicago, were in the city yesterday and held a consultation with General Manager Fitch concerning the harbor lines. The party left for the west last evening without announcing any definite conclusion.
