GENERAL CAPITAL NEWS.

Mr. Mitchell Speaks in Advocacy of the Election of Senators by Direct Vote.

LIVELY DISCUSSION ARISES ON THE LEGISLATIVE APPROPRIATION BILL.

Mr. Grosvenor Attacks the Civil Service Law as a Humbug and a Fraud—Good Story on Ingalls.

THE SENATE.

WASHINGTON, April 22.—Several unimportant bills were passed after which Mr. Cockrell offered a resolution which was agreed to, directing the superintendent of the census to communicate to the senate the forms of the rules and regulations adopted by him for obtaining statistics as to farm mortgages. Mr. Mitchell, addressed the senate in favor of the constitutional amendment proposed by him for the election of senators by a popular vote. He summarized the debate in the constitutional convention on the subject and stated that the plan of having senators elected by the state legislatures was a compromise between widely diverging and conflicting views that in the convention. One of these views had been properly characterized as a long stride toward monarchy. That was the proposition to have senators appointed by the president of the United States. The opposite view was the election of senators by the people. But

MUTUAL CONCESSIONS

had been made and it was decided that senators should be chosen by the legislatures of the several states. The present system of electing senators he declared to be unrepresentative, not democratic and vicious in all respects. It was a reflection on the honesty and capacity of the voting masses. He declared that the secrecy of executive sessions was no longer in harmony with the spirit of the age. Public opinion would at no distant day break down and destroy the doors of the secret executive session. The public criticism on the senate was to the effect that it was an aristocratic body, too far removed from the people; that it was, in fact, "The American house of lords."

At the conclusion of Mr. Mitchell's speech the concurrent resolution was referred to the committee on privileges and elections. Mr. Morrill from the committee reported on the bill for the organization, improvement and maintenance of a national zoological park, reported that the committee had been unable to agree, and moved that the senate recede from its position and agree to the house amendment which requires half the expense to be paid by the District government. After some discussion the matter was agreed to and the bill now goes to the president for his signature. The District of Columbia appropriation bill passed and after an executive session the senate adjourned.

THE HOUSE.

WASHINGTON, April 22.—Mr. Chandler (Mass.) moved that the house concur in the senate amendments to the world's fair bill. This being agreed to, the bill passed and will be sent to the president for his action. The house then went into committee of the whole on the legislative appropriation bill. Mr. Butterworth (Ohio), in a brief explanation of the bill said that in some of the bureaus and departments there was substantially a civil pension list. It consisted of a number of old persons who had faithfully served the government in the past, but who were no longer able to perform their duties. They were carried on the rolls, but were of no service to the government. The committee on appropriations had allowed an increase in the clerical force of the civil service commission substantially as requested by the commission.

Mr. Dockery (Mo.) criticized certain features of the bill, especially the increase made in the number of government employees. The bill provided for the appointment of 141 new officers at a cost of \$161,500. He did not say that all this increase was unnecessary, but in many instances it should not have been made at this time.

Mr. Allen (Mich.) confessed that he was somewhat disappointed in the bill. He quoted from a speech delivered by Mr. Cannon and used as a campaign document, declaring that the republican party was devoted to the country and would if it came into power administer the government with greater economy and greatly reduce expenditures. He had some respect for the man who acknowledged himself a spoilsman; but the man who obtained office under a hypocritical guise would never get the respect of the people. He told a story of Senator Ingalls' going to the White House to secure an office. On the way he met a friend who told him he would not get it, as Harrison had a friend in Kansas that he was going to appoint. The senator scratched his head a moment and said: "That is right, if he is sure of it; but I am pretty well acquainted with that state and if he has a friend there, I don't know it." [Laughter.] Another story Mr. Allen recalled as showing the republican opinion of the administration was to the effect that meeting a republican and asking him what he thought of it, he receive the following reply:

Wanny runs the Sunday school,
Levi runs the bar;
Baby runs the White House;
And, damn it, here we are.

Mr. Bland (Mo.) addressed himself to a discussion of the money question. After some discussion on this phase of the bill, Mr. Cannon (Ill.) replied to Mr. Dockery's criticism of the bill. He reviewed in detail the increase in the offices and salaries and justified the committee on appropriations in having

reported them. The increase in salaries made by the pending bill was only \$5,000; the increase in salaries made in the 50th congress was \$1,200,000. He denied the charges made by Mr. Allen to the effect that many of the federal appointees in Mississippi were men of bad character. He then proceeded to read, with comments, amid laughter, a list of defaulting state treasurers of southern states. Mr. Williams criticized the republicans of the house for not bringing in a bill for the settlement of the silver question and thus relieving the oppressed people of the country.

Mr. Grosvenor (Ohio) speaking of the civil service system said he did not believe that the law and its administration was approved by one-fifth of the members of either house of congress. He believed that if each member of the house would vote his deliberate opinion he would declare that the whole system was founded on a mistake and its administration on false principles. It was detrimental to the very purpose it was aimed to accomplish. (Applause.) Continuing, Mr. Grosvenor said that not only would he vote against increasing the force of the commission but he would vote here and everywhere to repeal the whole law. (Applause.) Mr. Lodge (Mass.) defended the civil service law and resented its being characterized as a humbug and a fraud. Without finishing the bill, the committee rose and the house adjourned.

WOODRUFF'S "CONFESSION"

States Attorney Longenecker Believes It Was Wholly Fabricated by the Suspect.

CHICAGO, April 22.—The sensational "confession" of Frank Woodruff, the Cronin suspect, which was so generally published last autumn and which, among other things, stated that Alexander Sullivan, ex-president of the Irish National league, in Woodruff's presence, handed a sum of money to Martin Burke at the same time enjoining him to action, has been entirely discredited by the police authorities and the public prosecutor. States Attorney Longenecker, in dismissing the charge of murder against Woodruff yesterday, said: "The state has no evidence to implicate the defendant in the Cronin murder except the statement or confession of Woodruff himself. We have after full investigation, come to the conclusion that the confession was wholly fabricated by the prisoner and that he had no connection whatever with or knowledge of the Cronin murder. The state will, therefore, not prosecute Woodruff under this indictment."

THE SCHLESINGER ROAD.

Contract Let and Work to Begin at Once.
Cost of Construction.

MILWAUKEE, April 22.—Two thousand men will be at work within thirty days on the Schlesinger syndicate's railroad between Iron Mountain and Escanaba. The contract was let this morning McIntosh Bros. of this city and the road bed is to be ready for track laying October 1st. The contract calls for the construction of fifty-four miles of road and the work will cost, exclusive of the rails, ties and the expense of track laying, about \$500,000. The line will cost complete \$1,000,000.

A Desperate Fight.

ST. LOUIS, Mo., April 22.—Advices from Dallas county, Ark., say two well-known farmers, Kit Walsh and Henry Owens, got into a dispute yesterday about the ownership of a piece of land. A desperate fight ensued between them in which Walsh nearly severed Owens' head from his body with a briar cutter, killing him almost instantly. Walsh was fatally injured by blows from a hoe in the hands of Owens.

Inman Line's Explanation.

NEW YORK, April 22.—General Manager Honesty, of the Inman steamship line, made a statement to Collector Erhardt this afternoon, explaining that the captain of the steamer City of Berlin was not aware that the vessel was being unloaded yesterday morning without a permit from the customs officers. The collector telegraphed the treasury requesting permission to release the vessel from seizure, so that she can sail to-morrow. The company will give stipulation to abide the result of the investigation to be held.

The Duluth Regatta.

LEXINGTON, Ky., April 22.—Edward Hanlon, champion oarsman, has received a telegram which announces that \$20,000 has been raised for a tournament to be held in Duluth, Minn., to called the world's international regatta. Hanlon himself goes into training at once to take part, as does also George Hosmer, his protegee. The dates are July 21 to 26, inclusive.

A Severe Explosion.

LEBANON, Pa., April 22.—At 6 o'clock this morning the people of this city were startled by an explosion at one of the Colbrook furnaces. There were four reports in quick succession. Buildings were shaken and windows rattled. The jacket of the furnace stack was blown out and the sheet iron roof was blown into the air. William P. Wright, the engineer, was severely burned. The damage is many thousand dollars.

A Thieving Bookkeeper.

ST. LOUIS, Mo., April 22.—William J. Lord, who for several years has been confidential bookkeeper for Fesch & Mook, has stolen since 1883 in a most systematic manner, \$15,523. The shortage was discovered March 17th, and he made partial restitution, paying back \$500, which was then thought would cover the loss. He was arrested and is now in jail.

Bought Woodward Storage Battery.

DETROIT, April 22.—A syndicate of Chicago capitalists, headed by F. E. Hinkley, has bought the Woodward storage battery which has propelled the street cars here satisfactorily the past week, for \$300,000. Work will be established in Chicago.

RIOT IN CHICAGO.

Striking Carpenters and Police Officers Have a Lively Meeting.

Clubs Freely Used—Brickbats in the Air—Fifty Rioters Behind Bars—One Officer Hurt.

CHICAGO, April 22.—The wild scenes incident to the labor troubles in May, 1886, were repeated in this city to-day, only on a smaller scale; but for an hour the chances were good for a bloody riot. As it was the police and a big crowd of idle workmen had a short but sharp hand to hand encounter, wherein stones, broken bricks and clubs were freely used. After some forty or fifty rioters had been arrested and the situation began to look extremely serious, the strikers seemed to realize the outcome of the similar affair at the McCormick works four years ago and fled in panic-stricken haste. Some fifty rioters are behind the bars and a police sergeant is under a doctor's care. A force of non-union carpenters was put to work this forenoon on Wallace street near Fifty-third. The strikers reported the fact to headquarters and a committee of union men was sent to persuade them to stop work. Idle carpenters to the number of 100 joined the committee and when arguments failed to induce the non-unionists to quit, the crowd began jeering them. Fighting broke out at once. Police Sergeant Beckley interfered, when he was set upon and beaten by the strikers. An alarm was sent to the nearest police station and the detachment of police sent out succeeded in arresting fifty rioters. The rest escaped.

Doesn't Fear a Strike.

CHICAGO, April 22.—Mr. Crosley, of the United States Express company, said to-night he did not think a strike would result although the employees had declared they would go out if the company persisted in its determination to cut down salaries. "I saw in the papers some account of the action of our employees," said Mr. Crosley, "but the committee has not called on me yet. I shall be glad to see and confer with the members of the committee when they do call."

"Will the proposed reduction in wages be made?"

"It certainly will. The scale as reduced will be enforced because we have no other option in the matter. The fact is we pay out all we earn and cannot pay any more. There has never been a strike in the express business before and we don't believe the employees of the United States Express company are going to inaugurate that style of doing business. Our business and our treatment of employees is entirely different from any other business in the world. With us a good man is taken care of as long as he lives. When he becomes incapacitated for work he is given something light, and draws his pay. The men overlooked that fact and when they come to reflect it all over they may think differently."

A Call for Help.

NEW ORLEANS, April 22.—About 3 o'clock this afternoon Governor Nichols received a dispatch from Martin Glynn, president of the police jury, dated Bayou Sara, saying: "We have been overwhelmed by storm and rain. Crevasse are numerous along the front. The Upper Morgan sea has broken. Send boats at once to save the people or there may be great loss of life." Governor Nichols at once made arrangements with the owners of the steamer Arthur Lambert and barges, then at Baton Rouge, and the boat started immediately with several barges to render assistance. No information is obtainable as to the extent of the break.

Taggart Becomes Acting Governor.

CONCORD, N. H., April 22.—Hon. David A. Taggart, president of the state senate, was appropriately inaugurated as acting governor to-day by the executive council and will perform the gubernatorial duties during the absence of Governor Goodell, incapacitated by illness. This is the first time in the history of the state since 1784 that the president of the senate has been called upon to discharge the duties of governor.

Chicago Brickmakers Go Out.

CHICAGO, April 22.—All the brick-makers in the northern part of the city, to the number of 1,500, went out on a strike to-day. A meeting was held on Sunday at which it was determined to demand that 7,000 bricks should constitute a day's work instead of 8,000 as heretofore, and that the pay, which ranges from \$2 to \$2.50 a day, shall remain the same. This was not agreed to by the bosses, and this morning the men renewed their demand. Being refused, the men went out. The bosses say the strike is in the nature of a Godsend, for, owing to the carpenters' strike, building operations are at a standstill.

Another Disastrous Break.

NEW ORLEANS, April 22.—A special from Natchez, Miss., says: The first break in the levees in this vicinity occurred to-day. Protection levee in front of Vidalia broke, submerging a number of houses. This morning the Lake Concordia levee gave way. At 5 p. m. the break was 150 feet wide and the water is still going through like a mill race. The break will flood the lower portion of Concordia parish and cannot fail to be very disastrous.

Killed His Sweetheart.

GRAND RAPIDS, April 22.—Samuel Nelson, a Hesperia, Mich., Swede, this morning shot his sweetheart, Annie Nelson, because she refused to marry him. Her father had forbidden the union and the girl objected to disobeying his will. Having killed her as she was going to school, he fled into the woods and was found dead with a bullet through his head.

MARQUETTE, MICH., APRIL 23.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

CAPTAIN CHARLES KING, the popular Milwaukee novelist and army officer, comes gallantly to the defense of West Point and Lieutenant Steele in the Wild matter through the columns of the Wisconsin. As reviewed by him it is apparent that the lieutenant was not much to blame in the matter, but has been made the victim of a lying seeker for notoriety and the newspaper to make the most of a sensation.

On the death of William D. Kelley, early this year, Mr. Randall succeeded to the title of the "Father of the House" so long worn by his distinguished fellow-Philadelphian. Judge Kelley entered the 37th Congress, and the speaker the 38th, and both had served continuously ever since. The title now falls to still another Philadelphia republican, Charles O'Neill, whose service, though it began in the 38th Congress, is continuous only from the 43d, as he was not a member of the 42d. Mr. O'Neill has now been twenty-five years a member of the house, with a continuous term of seventeen years. Judge Holman, of Indiana, was a member of the 36th Congress, antedating all the Philadelphians, but he has missed three terms since, and has a continuous record of only nine years, though he has served twenty-five years in all.

The Mansfield mine, one of the youngest on the Menominee range, is certainly coming to the front in splendid shape. The following is from the Florence Mining News:
 W. R. Calhoun, of the Mansfield Mining company, Crystal Falls, passed through the city yesterday, on his way down the line. He informed a Mining News reporter that development work was rapidly and satisfactorily progressing at the Mansfield, and was confident that everything would be ready to commence shipping just as soon as the spur to the mine is built, which will be early in June. The south drift is now 201 feet in ore, of the same excellent Bessemer quality encountered at the earlier stages of the drifting. The working shaft is down seventy-two feet, and is to be sunk twenty-eight feet deeper when connection will be made with the ore drifts seventy or eighty feet east, but in the meantime Supt. Ball is crosscutting in the direction of the working shaft. An immense cribbing 16x18 feet, has been built around the old working shaft to a height of ten or twelve feet, the shafts of which rest upon solid ore. This has been done to thoroughly protect the shaft from any possible overflow of the river, which is only six or eight feet distant.

It seems probable that the immense power which has so long remained unutilized at Niagara Falls is about to be chained and made of service to man. Contracts have been signed between the Niagara Falls Power company and the Cataract Construction company calling for the construction of a subterranean tunnel from the water level below the falls about 214 feet under the high bank of the river, extending through the rock to the upper river about a mile above the falls, where a head of 120 feet is obtained. The tunnel will parallel the shore of the river one and a half miles at an average depth below ground of 160 feet and about 400 feet distant from the navigable waters of the river, with which it will be connected by transverse surface conduits. The fall of the water from these conduits into the tunnel—simply a tall race—produces the power, and the plans adopted will furnish 120,000 horse-power. The mill sites where this great power will be put to use are above the village, stretching along the level ground which bounds the river to the south, and from one to two and a half miles from the falls. Here a block of land has been acquired sufficient for mills which would employ the horse power mentioned and for mercantile and other needs of a large manufacturing town. The economy of the power will be one-fifth the cost of steam power under such conditions as exist at Niagara Falls.

MENOMINEE RANGE NOTES.
 We take the following mining notes from the Norway Current:
 The Chapin now has about one thousand eight hundred men on its pay-roll.
 Shipping from the Norway has begun and the long-talked-of "closing down" will not come this year.
 Saturday, April 12th, the Chapin mine had shipped for this year 32,100 tons and had 161,254 tons in stock.
 The Hollister, in the Crystal Falls district, is now clear of water, and it is expected that active mining will begin as soon as the necessary machinery can be placed.
 At the Mastodon shipping began this week with 30,000 tons in stock. Owing to the break-up no hoisting is being done from the open pit, but the cages are kept going in the vertical shaft and the trammers now work eight-hour shifts.
 Two steam shovels will be used at the Chapin this season to load the ore from the stock piles. One was started up Thursday and gave good satisfaction, the work of loading a car of about twenty tons taking not more than ten minutes. This time, however, will be beaten when everything

gets in good working order. The scoop takes up two and a half tons each time.
 Filling the burnt shaft at the West Vulcan is being pushed as fast as men and teams can do it. During the first four days an average of eight feet per day was accomplished, but as this was the portion where the timber was gone it took more cubic yards of sand than will be needed further up. It will require, at the lowest estimate, 2,000 yards of sand.

THE GOVERNOR AND THE O. & B.
 The following correspondence is self-explanatory and will serve to set Governor Luce right with the home-owners on the O. & B. grant, for, although the matter referred to by Representative Wagner was largely surmise, it had caused a good deal of anxiety among those who are settled on the land which would be involved by any attempt of the O. & B. to secure lands for the entire 46 miles of road.
 MARQUETTE, April 22, 1890.
 EDITOR MINING JOURNAL.—Inclosed find a letter from his excellency, Governor Luce, in reply to an inquiry made by me on the 17th inst., for an explanation regarding the acceptance of the O. & B. extension as stated in your paper of that day, with the view of publishing the same, in order to relieve the homesteaders, to a certain degree, of their great anxiety in their long-winded struggle to obtain their lands.
 The letter explains the action taken by the governor, and I hope will satisfy the settlers that he has done nothing to injure their cause.
 Yours truly,
 GEO. WAGNER.

LANSING, April 19, 1890.
 Hon. George Wagner, Marquette, Mich.
 MY DEAR SIR.—I am in receipt of yours of the 17th inst. covering clipping from the MINING JOURNAL. So far as the legal rights of the railroad company is concerned, I have no doubt that the courts must decide.
 The only thing that I care to say in regard to the matter is that I have never accepted any portion of the Ontonagon & Brule River railroad. I had complied with the legislative resolution, relinquishing the claim of the state to the lands declared forfeited by congress, before I ever saw a mile of the road. Upon my trip to the upper peninsula last fall I traveled over the line from Ontonagon to the junction. The first twenty miles from Ontonagon was in good condition, but was not entirely completed, but I accepted none of the road, nor was I asked to do so; neither did the railroad commission. It was simply a tour of observation, nothing more. The only official act that I have discharged in connection with it was to relinquish, as I have stated.
 You may make any use of this letter that you desire to.
 Sincerely yours,
 CYRUS G. LUCE.

Deafness Can't Be Cured
 by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a running sound and imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
 We will give one hundred dollars for any case of deafness (caused by catarrh) that we cannot cure by taking Dr. Hall's Catarrh Cure. Send for circulars, free.
 F. J. CHENEY & CO., Toledo, O.
 Sold by druggists, 75c.

The "Flowers That Bloom
 in the Spring," fragrant and fresh in their vernal beauty, are welcome indeed after Winter's long and cheerless reign. The birds, and with their merry rattling, the balmy breezes, the running brooks, and the far-reaching meadows robed in velvet green—all these charm every sense and fill the soul with gladness. But there is something that is more welcome in bringing than the balmy breezes, the running brooks, and the meadows green, and that is a medicine that will gently purge and cleanse the system of the fatigues and impurities that have collected in it during the winter, and leave it pure and wholesome and in proper condition for a long hot spell. Such a medicine is Fe-ru-na, the great Blood Purifier and Tonic. Take it in time and tone your system up. It will fortify you against the most debilitating effects of the heat. Don't forget Ma-a-in, also, for your bowels. \$1.00 per bottle each. For sale by H. H. Stafford & Son, Marquette.

ELECTRIC BITTERS.
 This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise.—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, and remove Bile, Biliousness, Salt Rheum and other affections caused by impure blood.—Will drive Malaria from the system and prevent as well as cure all Malarial fevers.—For Constipation, Constipation and Indigestion try Electric Bitters.—Entire satisfaction guaranteed, or money refunded.—Price 50 cts. and \$1.00 per bottle, at H. H. Stafford & Son's Drugstore.

IS CONSUMPTION INCURABLE.
 Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of the Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, and now on my third bottle, and able to oversee work on my farm. It is the finest medicine ever made."
 Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at H. H. Stafford & Son's drug store. Large bottle \$1.

BUCKLEN'S ARNICA SALVE.
 The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price, 35 cents per box. For sale by H. H. Stafford & Son.

TO WEAK MEN
 Suffering from the effects of youthful errors, early decay, neuralgia, loss of vitality, etc., I will send a valuable treatise (sealed) containing full particulars for home cure, FREE of charge. A splendid medical work, should be read by every man who is nervous and debilitated. Address: Prof. F. C. FOWLER, Moodus, Conn.

IRON RIVER NOTES.
 Friday night a serious accident, which may prove fatal, occurred at Hemlock Siding, about fifteen miles west of this town, on the C. & N. W. railway. At 1:10 P. M. a loaded ore train of twenty-four cars from the Gogebic range side-tracked to allow the west-bound passenger to pass, and in coming from the siding the last four cars but one and the caboose jumped the track, making a bad wreck and smashing the rails badly. At 8:38 Nelson Norton, roadmaster, with several men, arrived from Watersmeet, and at 9:30 the wrecking car arrived from the east. When one ore car was raised to the proper height the roadmaster ordered another man, who has been employed in the coal shed at Watersmeet, and whose name is unknown, attempted to loosen the car box from the truck where it hung fast at one end. While they were engaged in this the derrick broke and the car came down on top of them. It is a wonder that they escaped instant death. As it is both so seriously hurt, but not so bad as at first reported. Mr. Norton was taken to his home at Florence, Wis. He is badly crushed around the hips and it is feared that he is injured internally. The other man was taken to the hospital at Escanaba, Saturday, and is said to be suffering to about the same extent as Mr. Norton. It is hoped both may recover.

A new section crew was put to work yesterday on the new track from Beechwood to the Metropolitan mills north of that place.
 Godshall & Billman are preparing to remove their shingle mill from Beechwood soon for the reason that they have been disappointed in securing certain timber choppings upon which they depended for future operations. It is yet uncertain where they will locate.
 Cook Bros. are said to have cut about two and a half million feet this week, which will all be shipped by rail this week to the Payne Lumber company, at Oshkosh.
 Business is picking up fast in this vicinity and the indications point to a very prosperous time in the near future.

Late this week the pumps were put in motion at the delta mine and machinery is fast being placed at the upper and lower pits of the Nainaimo where pumping will also soon be in order.
 F. Kjelstrin, saloonkeeper, a highly respected old pioneer of this place, was taken to his friends at Iron Mountain Sunday for proper care and treatment as he is very low with consumption. His many friends hope he may recover.

It is reported that John Cunihan, an old resident of this place, has been wading in hot water for some time past. Jealousy without cause and other acts on his part point strongly to the fact that poor John's mind is bordering on insanity, which is said to exist in his family. Up to two months ago he is said to have been all right but recently he parted from his family and kept his whereabouts a secret until a few nights ago, when it was reported he broke into his family residence and is said to have attacked his wife violently and had secured a large amount of money which had been saved up, after which he disappeared. Since then the officers have been unable to get their eyes on him. He has always been known as a very industrious, economical man and owns a lot in town and a homestead of 160 acres five miles west of this place.
 Work at the Sheridan mine is now principally confined to sinking the main shaft to a depth of about 160 feet, when work will be pushed on on a large scale. The shaft is now down some 60 feet.
 Explorations in this vicinity are not being carried on on an extensive scale just now owing to excessive surface water.

REPUBLIC NOTES.
 Capt. Peter Pascoe and wife, accompanied by Mrs. Collins, left on Sunday evening last for Milwaukee.
 House and street cleaning are now the order of the day.
 M. Gleason returned from Ironwood on Monday.
 The D. S. S. & A. is more than hustling ore out of here for Marquette. The engine is back upon his old run with engine 99 and Conductor Sullivan, not John L., is in charge of the train, while Clifford Dagenais is in charge of switch engine No. 50, and Joe Lafere is in charge of switch engine No. 1.
 Our new laundry is meeting with more patronage than its proprietor anticipated; in fact, the results thus far have been so encouraging that he has found it necessary to start a delivery wagon.
 John "Ginny" Glode, our city marshal, ran across a little urchin upon the street Sunday afternoon, who had evidently lost his way, and when asked if he knew who the officer was innocently replied: "Yes, you is my fadder." John embraced the little one tenderly and carried him home.
 William Allen, who has been spending the past two weeks in Ludington, Mich., returned yesterday.
 The Silver Cornet band's ball at the town hall Friday evening was socially a grand success; financially it was not so successful.

The following won the prizes at last week's bazaar: "Pinafore middy," Miss Maggie Whelan; bean guessing, Miss M. Foley; handsome handcuffs, Mrs. M. Lynch; toilet set, Hugh Johnston; hamper, milk stool, Walter Walso, Champion ring case, Doctor Duckert; cups and saucers, Theo. Ehnman; bride, M. E. Gleason.
 Peter Pascoe, Jr., and Hugh Johnston, both of Champion, were in town Sunday.
 The "Deacon" is preparing himself for an onslaught on the Second Nine.
 Terrence Moore, of Marquette, visited the North Republic mine yesterday.

100 Ladies Wanted,
 And 100 men to call on any druggist for a free trial package of Lane's Family Medicine, the great root and herb remedy discovered by Dr. Silas Lane while in the Rocky Mountains. For diseases of the Blood, Liver and Kidneys it is a positive cure. For constipation and clearing up of the complexion it does wonders. It is the best spring medicine known. Large-size packages, 50 cents. At all druggists'.

Fortunate Chicagoans.
 In the February 11th drawing of The Louisiana State Lottery two citizens drew cash prizes which have made them wealthy. H. A. Hulburd, 38 Metropolitan Block, is one of the lucky citizens. To a traveler representative Mr. Hulburd said: "I held one-quarter of ticket No. 49,919, which drew the third capital prize of \$50,000. The cash, \$12,500, was promptly received by me through the American Express company." Messrs. Charles Kozminski & Co., bankers at 165 Washington street, collected for a customer, through the State National bank of New Orleans, one-twentieth of ticket No. 64,285 which drew the first capital prize of \$300,000 in the same drawing—Chicago (Ill.) Arkansas Traveler, March 15th.

Home Seekers' Excursion.
 On April 22nd and May 30th the Milwaukee & Northern railroad will sell round trip tickets at half fare (the price of a ticket one way) to points in Kansas, Arkansas, Indian Territory, Texas, New Mexico, Colorado, Tennessee, Louisiana, Alabama and Mississippi. This is an opportunity that occurs but once a year, affording privilege of visiting a portion of the country that is taking so prominent a place as a field for investment, and should not pass unimproved. For particulars enquire of E. P. WILBUR, 4-415 T. P. A., Marquette, Mich.

THE EARTH TREMBLED.

All Marquette County Shaken by the Explosion at the Anthony Powder Company's Mill Last Night.

IN NEGAUNEE THE WINDOWS SUFFER SEVERELY FROM THE DOUBLE SHOCK.

A Second Explosion Follows the First Within Twenty Minutes—No One Killed—Fire Causes the Trouble.

A Terrible Explosion. At about fifteen minutes after 9 o'clock last evening the mill of the Anthony Powder company, located about one and a half miles from the city, blew up and the shock of the explosion raised havoc with the glass in Negaunee buildings, shaking the entire town. Twenty minutes after the first explosion a second, hardly less severe, again shook the town but did not do as much damage as the first.

Fully half an hour before the first explosion fire was noticed in the direction of the company's mill and prepared all for what followed. Those who were watching the flames finally saw a bright flash, immediately followed by a terrific shock which shattered half the glass on Iron street, after which a great cloud of smoke arose over the scene. The second explosion was also seen from the city and presented the same appearance.

Immediately after the first explosion one of the employees of the company started out to the works. He was just drawing near when he saw the flash of the second explosion and threw himself out to the ground, escaping injury. It was supposed in the city that the second shock was caused by the blowing up of one of the packing houses but it seems that it was in the same place as the first, probably caused by the flames reaching some of the powder which was thrown out by the first and did not go off at the time.

No one was injured by the explosion as the night watchman who has been regularly employed at the mill was released two nights ago. The fire is supposed to have originated near the boiler. Last night the fire was still burning and it was thought that the packing house near the mill might also blow up. The damage could not be estimated because no one dared go near the location as other explosions might take place. There was not much machinery in the mill but there was a quantity of raw material and of course a considerable amount of finished product.

Special policemen were sworn in last evening to protect property in the business houses which was exposed by the shattering of the stone fronts.

Obituary Mention. The late August Olson, who died of pneumonia Monday after an illness of only four days, was born in Sweden April 20, 1849, and was consequently 41 years of age the day before he died. He came to the United States in 1869, and shortly thereafter came to the Lake Superior region. About ten years ago he secured the agency of the Pabst (then Ph. Best) Brewing company, of Milwaukee, a business that he gave faithful attention to and which proved very lucrative. On Sept. 6, 1878, he was married to Miss Annie Sundberg, of this city. The union was a happy one, and was blessed with two children—both boys, the eldest being 11 years of age, and the youngest 9 months. The deceased was a member of the Independent Order of Odd Fellows, which society will attend the funeral in a body.

In business Mr. Olson was a shrewd, careful man, honest as the day was long, and was one who commanded the respect of all with whom he came in contact. Socially he was pleasant and affable and had a host of friends by whom he will be greatly missed. His death is a particularly sad one, coming as it did so unexpectedly, and his family, to whom the death is a terrible blow, has the sympathy of the community.

The funeral will take place Thursday afternoon at 2 o'clock, and will be attended by the Odd Fellows and Negaunee Fire company No. 1, as well as the large number of friends who will desire to pay their last respects to the memory of the deceased.

At the Hawkeye. The developments at the Hawkeye, where a fine deposit of hematite was found last Saturday, continue to be very favorable and the chances are that the company has a good mine. The ore is very similar to that taken from the Negaunee mine, which, as is well known, is of a high grade. In the diamond drill work no quicksand was encountered, which has not been the case in most explorations in that district, and hence it will be an easy and comparatively inexpensive task to sink a shaft. The stock has taken quite a jump within the past two or three days, and considerable of it is constantly changing hands at increasing prices.

month. After the rear portion has been made into two stories, a fine front will be put in on the Jackson street entrance, and changes will be made in the main front on Iron street.

Christ Johnson is getting estimates on the cost of an extension of his building on Gold street to the end of the lot. If satisfactory figures can be obtained he will make the addition, thus making room for a beer cellar, an addition to his hall on the second story which has a large patronage, and various other rooms. He has secured the agency for the Falk, Jung & Borchert Brewing company, making the beer cellar almost a necessity.

Decorate the Stores. The parade of the I. O. O. F. societies next Saturday would be rendered much more attractive if the business men on Iron street would decorate their places of business. The cost would be slight and the reporter trusts they will take the hint.

Walter Gordon, a former resident, at one time manager of the then famous Adelphi rink, has been in the city the past few days. He is now engaged in lumbering in Ontonagon county.

Charles H. Griffey, of the C. & N. W. office force, got back yesterday from a trip to Chicago, Milwaukee and points in Ohio. He reports having had a good time.

The Northwestern yard was tied up for a while yesterday yesterday noon and the passenger train was somewhat delayed in getting in.

George W. Guetz, of Milwaukee, connected with the Schlesinger syndicate, has been in the city for the past few days.

The case of the People vs. Samuel Whitney, assault and battery, was adjourned yesterday until this morning.

Ed Bates, local manager of the Standard Oil company, has returned from his trip to Chicago.

The city flag is at half mast, as a token of respect to the late August Olson.

The South Shore road now has two switch engines in its yard here.

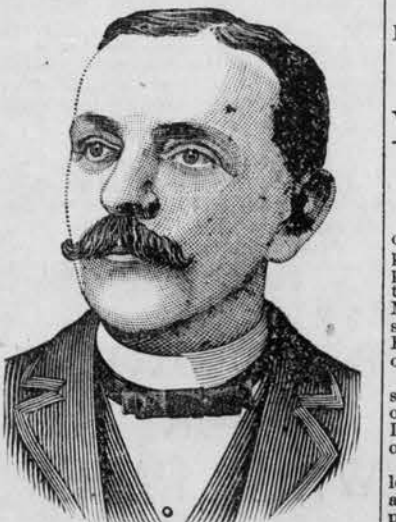

Ask Your Friends About It. Your distressing cough can be cured. We know it because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c and \$1 at all druggists. Sample bottle free.

Bargains! Bargains! Bargains! I am closing out my entire stock of groceries, provisions, crockery and glassware, and now is the time for the people of Negaunee to buy goods in these lines at wholesale cost prices. Every article in the store is a bargain. The flour, feed and grain business will be continued as heretofore, but the prices will be closer.

G. L. KUHLMAN.

FOR SALE 2000 SHARES Hawkeye Iron Co. Stock

Inquire of FRANK M. BENEY.

AN OPEN LETTER

From a Well-known Druggist—"Positive" Cure for Stomach Troubles. To WHOM IT MAY CONCERN: In the summer of 1891 I was first afflicted with that most dreaded disease, dyspepsia, and for over fifteen years I suffered terribly at times. In the meantime I tried every so-called remedy imaginable, without finding relief. Having been in the drug business since 1888, I determined to help myself if I lay in the power of medicine. Two years ago I succeeded in discovering a remedy. It cured me. Until I had given ample time for possibility of doubt, however, I kept my secret almost to myself, putting up the medicine for only a few of my sorely troubled friends, every one of whom was cured. I now know the medicine to be a positive cure, and have decided to put it on the market, that my discovery may do humanity all possible good. It will be known as "Ruske's Positive Dyspepsia, Liver and Kidney Cure," which is guaranteed to cure all ailments of the stomach, liver and kidneys. I have a number of testimonials which afflicted parties may be interested in. R. BRUSKE, 416 Genesee ave., East Saginaw, Mich. Sold by all druggists. \$1 a bottle; three bottles, \$2.50.

BOILERS STEPHEN PRATT'S STEAM BOILER WORKS (Established 1865). Manufacturers of High and Low-Pressure Steam Heating Boilers of all kinds. Lost From His Train.

Conductor Frank Chambers was missed from his train, a freight, somewhere between Humboldt and Ishpeming about 11 o'clock last night. The train men stopped as long as they dared but could find no trace of the missing conductor. It was feared that he has fallen from the train and had been killed. Early this morning it was ascertained that while he was registering at Humboldt a mistaken brakeman gave the signal and the train pulled out and left him.

Fog Whistles Are Silent.

The tug Gillet returned from Granite and Huron Islands last night, whither she had taken the several light keepers. The lights were found in good condition and will be lit this evening. On the Huron islands fog engine house No. 2 was found to be gone entirely. No. 1 house was so badly damaged that it will take at least two weeks to repair it. Vessel men are accordingly notified that no fog signals will be sounded from these islands for two weeks at least.

No Ice was Found About Granite Island.

Several miles of broken ice surrounded the Huron islands, but not of such a character as to impede steamers. No attempt will be made to go to Stannard rock for some days.

Along The Docks.

The South Shore has established a coal and ore office to take charge of all the dock work. H. B. Bell, formerly dock foreman, has been appointed coal and ore agent. Dan Donovan will continue as chief ore shipping clerk.

The fishing tug Rose went out yesterday. On her return in the afternoon several people, seeing her smoke out on the lake took her for the first boat approaching and raised considerable excitement in consequence.

About thirty bents of No. 4 dock are framed and lying in place ready to approach. The piles on shore for the big driver are going in rapidly. The big driver is putting in the second course of piling on the dock proper.

The ore docks have been renumbered, beginning at the south. No. 3 thus becomes No. 1; the Cleveland dock remains No. 2; No. 1 becomes No. 3 and the new dock is of course No. 4.

Passed Sault Ste. Marie.

SAULT STE. MARIE, April 22.-Morning:—Iron Queen, Fedora, Morley, Even, Sheldon, Ely, Specular, Colonial, Hale, Bradley, Wagstaff, Kimball, Gladstone. Afternoon—Missoula, Fountain City, Olympia, Iron King, Iron Age, Iron City, 103.

Browne's Theater Company.

J. H. Browne's Theater company, in a repertory of successful plays, appears at the Casino Opera House all next week, opening with "The Silver Bar Mine." The company is now playing to large houses at Sault Ste. Marie. W. A. Ross yesterday received the following interesting telegram:

SAULT STE. MARIE, Mich., April 22.—Browne's Theater company played to packed house. All reserved seats taken in advance. Company strong.

P. W. SHUTE, Manager Sault Opera House.

TALK OF THE TOWN.

Rain followed by fair weather.

Men are engaged in cleaning up the court house yard.

Mr. and Mrs. H. J. Laddell are rejoicing in a ten pound son, born last evening.

A colonist car with a party from Mt. Pleasant and other points will pass through to-day.

A kid glove was found on Front street yesterday. The owner can get it by calling at the MINING JOURNAL office.

The directors of the Citizens' Association will hold a meeting in J. M. Longyear's office at 3 o'clock this afternoon.

The new time card of the South Shore goes into effect at 9:25 o'clock this evening. No changes are made in passenger trains.

The Musical Association held a well attended rehearsal last night. The program for the first concert, on May 1st, will be published to-morrow.

The Houghton train was an hour late last night, caused by a small wash-out this side of Eagle Mills. The break has been repaired. The train had to come by the M. & W. track.

PERSONAL MOVEMENTS.

Louis Palmer has returned from college. General Freight Agent Orr went to Houghton yesterday.

Inspectors York and Gooding went to Escanaba again yesterday.

Mr. and Mrs. D. H. Merritt returned to Duluth yesterday.

E. H. Crimmins, advance agent of the Browne Theater company, is in the city.

G. W. Hibbard, western passenger agent of the South Shore, with headquarters at St. Paul, is in the city.

E. A., E. L. P., and Miss Emma Wetmore arrived from Denver yesterday, called home by the serious illness of their mother.

Carl Rohl and B. Neidhart will sail for Germany on May 10th by the North German Lloyd steamship Eider and will return some time in August. George Wagner sold them their round trip tickets.

NOTICE!

Do not forget to have your new house wired for Electric Lights and Bells before it is finished, as that is much the best time for the work. A good time to have finished houses wired is while house-cleaning is going on. No charge for looking over premises and making estimates, etc.

Concerning Crowns.

Many years ago it was the correct thing for a monarch to wear the identical crown worn by his predecessors. A king never was formally crowned on the day when he succeeded to the throne, but the ceremony was always postponed for a week or two in order to have the crown thoroughly renovated. But there is no doubt that the custom of handing down the same crown from generation to generation had its disadvantages. In the first place, it rarely happens that two kings have heads of precisely the same size, and as a rule the crown which fitted the original king for whom it was made never fitted any of his successors, but was always either too large or too small. Nothing looks more absurd than a very small crown cocked on the head of a very large king, except, perhaps, a crown which is much too large for the wearer and continually falls over his ears. There was, it is true, a certain reverence for antiquity and inherited rights shown by this custom of wearing an ancestral crown, but it need not be supposed that any monarch really liked it. No matter how carefully a king might have his father's crown secured and repaired, he always felt that he was wearing another man's clothes, so to speak. As for Queen Victoria, it is well known that she ordered an entire new set of crowns when she came to the throne, remarking as she gave the order that had as much affection for some of her relatives as anybody need have, but as for wearing anything that had been on the head of that "horrid King William, she would go to her grave bareheaded first. —Chicago Herald.

A Drumming Fish.

At a recent meeting of the Berlin Physiological society Professor Meubius described a peculiar fish—Balistes aculeatus—which he had met with in Mauritius. While on a visit to that island he observed a bright, blue colored fish in the shallow waters of the harbor, which, when caught and held in the hand, emitted from its interior a most striking noise, like that of a drum. A careful examination of the animal failed to reveal any obvious movements, with the exception of one part of the skin, lying just beyond the gills, which was in continuous vibration.

The portion of the skin which vibrates stretches from the clavicle to the bronchial arch; it is provided with four large, bony plates and lies over the swim bladder, which in this fish for the most part projects out of the trunk muscles. Behind the clavicle is a curiously shaped long bone, which is attached to the clavicle at one point in such a way as to form a lever with two arms. The long arm of this bony lever is imbedded in the ventral trunk muscles and is capable of easy movement to and fro. The short arm slides during this movement over the rough inner side of the clavicle and gives rise to a crackling noise. This noise is then intensified by the swim bladder, which lies in close proximity to the short arm of the lever and acts as a resonator. —Newcastle Chronicle.

Eagerness for Bargains.

A rather amusing illustration of the eagerness of women shoppers for bargains was witnessed in a Brooklyn store recently. In the Sunday papers an advertisement of a sale of silks was printed which was intended to announce that they would be sold at 50 cents per yard, the original price being \$1. Through some typographical inadvertence the advertisement read that the silks would be sold at 5 cents a yard, instead of 50. The women in Brooklyn spent a restless Sunday night for fear they would not wake early in the morning to take advantage of the generous offer. One lady cautioned her husband to call her early, and murmured as she drifted into dreamland: "I'll buy two pieces of that silk; 'twill be no use for linings." Early the next day, before the clerks of that store had arrived, the women stood in line waiting grimly for the opening of the sale. The different expressions of disgust, disappointment and mortification on their faces may be better imagined than described as they turned and fled out of the store again, leaving the embarrassed salesman alone with his confusion and his bargains. —New York Sun.

Causes of Color in Water.

Professor Spring, of the University of Liege, has carefully investigated the question of the color of water, and has reached some interesting conclusions. According to him, absolute pure water, when seen in masses of sufficient thickness, is blue, and all the various shades of color exhibited in lakes and streams arise from the presence in the water of mineral salts of different degrees of solubility and in varying quantities. Water containing carbonate of lime in a state of almost complete solution remains blue, but if the solution is less complete the water will have a tinge of green, which will grow stronger as the point of precipitation is approached. Professor Spring concludes that if lime is added to blue water in which so much carbonate of lime is already dissolved that the point of saturation is approached the water will become green. In proof of this he cites the fact that the water near the shores of lakes and seas, where it comes in contact with lime, is generally of a greener hue than elsewhere. —Nature.

Music Hath Charms.

Opposite our house was a large field, in which some twelve or thirteen cows were put during the summer months. One day a German band commenced to play on the road which divided the house from the field. The cows were quietly grazing at the other end of the field, but no sooner did they hear the music than they at once advanced toward it and stood with their heads over the wall attentively listening. This might have passed unnoticed, but upon the musicians going away the animals followed them as well as they could on the other side of the wall, and when they could get no farther stood lowing piteously. So excited did the cows become that some of them ran round and round the field to try to get out, but finding no outlet, returned to the corner where they had lost sight of the band, and it was some time before they seemed satisfied that the sweet sounds were really gone. —American Naturalist.

Women Who Preserved Their Beauty.

All the noted beauties of an age have striven hard to preserve their loveliness. Diana of Poitiers was as charming at 60 as many at 30. She took good care of her health, and devoted herself to the arts of the toilet and the methods which assisted nature. Margaret of Anjou was also careful of the preservation of her personal charms. Never amid the shifting and tumultuous scenes about her did Mary Queen of Scots neglect the details that lent the most brilliant effects to her beauty. Many believed that Ximen de l'Enclos had discovered the secret of perpetual youth, so well did she preserve her beauty of contour and freshness of complexion to extreme old age. —M. E. Conlin's Letter.

Woman and Marriage.

You can't tell any more about a woman before you are married to her than you can judge of the quality of a pudding without eating of it. It is not necessary to eat the whole of a pudding in order to judge of its quality; no more is it necessary to know a woman a lifetime in order to ascertain whether she is going to do for a life companion. —Ladies' Home Journal.

ISHPEMING MATTERS.
County Clerk Gad Smith Turns Out Three Hundred and Sixty-two New Voters.

Preliminary Survey for Carp River Changes Completed Yesterday--Work Must be Done on the Streets.

Making Voters.
County Clerk Gad Smith arrived here on the 3:18 train Monday afternoon, and until eight o'clock, with only an intermission for supper, was busy administering the oath to those who wished to become citizens of the United States. During the time that he was here 362 men renounced their allegiance to various foreign powers and potentates, and applied for naturalization. Of this number about 125 were Finns, 75 Swedes and Norwegians and 75 Cornishmen, the balance being Irish, Scotch, French and Italians, a number of the latter being in the list.

Two years ago over a thousand voters were made here in a short time. Many who wished to take out their first papers were unable to present Monday afternoon and evening, and many others did not know that Mr. Smith was here. It is likely that he will come to Ishpeiming again in a few weeks, as there are several hundred more men who desire to become citizens at an early date.

Mr. Smith is entitled to the thanks of the community for doing this work. He does it without asking any fees, and for that reason should be rewarded with thanks, if nothing more.

The Sewers.
Mr. J. E. Jopling, of Marquette, the civil engineer who has been employed by the sewer commission to map out the proposed new channel of the Carp river and to secure such other information as is needed for the engineering work that will be required in building a sewerage system for the city, completed the preliminary survey yesterday afternoon, and will be able to report at once to the members of the commission.

The sentiment of citizens and taxpayers is overwhelmingly in favor of the construction of a complete system of sewers at the earliest practicable moment, and now that the information necessary to be had before beginning work has been secured, there should be little further delay in deciding on plans, and beginning the actual work of construction. The plans secured from Mr. C. E. Davis, the sanitary engineer of Chicago, three years ago, will probably be used, as at the time they were made experts considered them well adapted to the use of the city.

The sewer commission, consisting of the council committee on sewers and the citizens' committee, should be able to report at the next regular meeting of the common council, which will take place on May 7th, and at that time some definite plans should be reached, as work should be commenced by the middle of May.

The Streets.
It has been rumored that the council, or at least some of its members, will sit down hard on all street work asked for this year. The reason given is that the construction of sewers will take too much money to allow the city to do anything but keep its streets passable.

This attitude toward street work is wrong. Economy will be required in the expenditure of the municipal funds this season, but it is an absolute necessity that a considerable sum be expended on the streets. The streets in the Iron Cliffs addition are little better than none at all, and in many other parts of the city they need looking after.

Several of the business thoroughfares are in a disgraceful condition, and there are a number of stretches of sidewalk that it will be cheaper to repair than to allow some one to break a neck over some dark night. Economy is a good thing, but parsimony is not, and it will require careful consideration of the needs of the highways to keep aldermanic economy from running into municipal niggardness.

Apout Miss Newcomb.
Miss Newcomb's pupils in physical culture wish to express their high appreciation for her instruction during the past six weeks, and to thank her for the impetus she has given toward a more intelligent care of the body. A high ideal of the physical is necessary to a right conception of the spiritual. If we recognize the body as a tangible image of the soul we shall strive more and more to have the soul reflect the divine likeness. Physical culture may mean perhaps to some the affectation of borrowed graces or the cultivation of useless accomplishments, but, to those who perceive the true light and significance of the term it means the attainment of that harmony between the outer and the inner which shall make possible the expressions of our best selves. We're to serve God in our bodies as well as our spirits, and this means care for their purity, their strength, their attractions as far as we may, and includes our eating, drinking and dressing. What we need is not so much the strength to perform great feats, as the ability to control the strength we have to use it to the best advantage. This has in it an element of moral strength and becomes an ambition to do the greatest number of things well with the least possible expenditure of force. Miss Newcomb has rendered much valuable service in these directions that her pupils unite in the desire to secure her for another course of lessons sometime in the future.

TRE is something that you can always get the best quality of at Donahoe's. 3-18
GROCERIES can be bought as cheap as at Johnson & Co. as in Milwaukee or Chicago. 3-18

"A THING OF BEAUTY
Is a Joy Forever," So Says the Poet, and He Should Know.

THE S. T. TAYLOR SYSTEM OF DRESS CUTTING AND FITTING.
As Used By Miss Josephine Bosch Is Voted a Success By All Her Lady Customers.

In no sense of the word is the above phrase more applicable than in relation to the art of dress making. There is probably nothing that will cause a lady so much annoyance and disappointment as to have a beautiful dress pattern of some fine fabric butchered and spoiled in the making. Realizing these facts and at the same time determined to sustain for my dress making department the reputation we have established for fine work, I have, by offering liberal inducements, secured the services of a leading modiste. The S. T. Taylor system of cutting and fitting garments as used by her, insures to every customer an absolute fit without change or alteration. So thorough is her system, that I will guarantee to every patron of my establishment a correct and satisfactory fit, while the style, finish and workmanship will compare favorably with the garments produced by the leading houses of larger cities. Miss Bosch has made a specialty of wedding outfits and evening dresses and has at present several orders from leading people in Milwaukee, Madison and other points where she is acquainted. The ladies are cordially invited to call. Respectfully,
J. H. QUINN,
Leading Dry Goods and Millinery House,
216 Main street, Ishpeiming.

Ishpeiming Business Notices.

ALL subscriptions to the DAILY MINING JOURNAL in Ishpeiming must be paid to the authorized representative of the company, Horace J. Stevens. Carriers are not authorized to collect subscriptions.
BUSINESS LOCALS in this column are invariably payable in advance. Rates moderate, and furnished on application.

There are many white soaps, each represented to be "just as good as the Ivory." They are not, but like all counterfeits, they lack the peculiar and remarkable qualities of the genuine. Ask for Ivory Soap and insist upon having it. 'Tis sold everywhere.

IXTH POINT

You should read THE CHICAGO DAILY NEWS because, being a family newspaper, it is against the saloon. The home and the saloon are forever opposed.

Remember—Its circulation is 250,000 a day—over a million a week—and it costs but 25 cts. a month, for months \$1.00—only one cent a day.

A VETERAN.

I was wounded in the leg at the battle of Stone River, Dec. 31st, 1862. My blood was poisoned from the effects of the wound, and the leg swelled to double its natural size, and remained so for many years.

There's a corset that isn't a corset, a waist with straps for the shoulders and rows of buttons to button on skirts and stocking supporters...

It is worth your seeing, if for nothing but how to sew on buttons to button easy and never come off, and how to make buttonholes wear forever.

Women differ in their ways of thinking and dressing as well as in other ways. This waist is for women whose minds are made up that they won't wear corsets.

There's much to be said on both sides; but did you ever hear of a woman who hadn't made up her mind in some way? and is there any possible use in trying to get her to change it?

You can get the Ball Waist and wear it a week or two or three; and, if you don't want it, take it back to the store and get your money.

CHICAGO CORSET CO., Chicago and New York.

DELARTE.

Miss Newcomb will meet her class in Delarte gymnastics and Indian club swinging in the rooms of Mrs. E. J. Canfield, Jenks' block, at 4 o'clock next Saturday afternoon.

ISHPEMING IN BRIEF.

John McDonough has returned from Chicago. Mr. John D. Davis has sold to Jacob Bell the house and lot at 804 North Oakstreet.

Orders for the services of the Eureka band should be addressed to Mr. W. T. Kemp, the leader.

Geo. A. St. Clair is making some repairs and improvements on his handsome residence at the corner of Lake and Ely streets.

There is considerable activity in city real estate—more in fact than there has been at any time since the Iron Cliffs addition was platted and sold.

At the meeting of the local lodge of Knight of Pythias held last night the necessary arrangements were made for the early institution of a division of the uniform rank, K. of P., in Ishpeming.

Mrs. W. H. Roberts is holding her millinery opening this week. Her show windows have been handsomely dressed, and attract attention from all who pass by.

One is going forward from all the mines to Escanaba, and in a few days more will be to Marquette as well.

Complaint is made in this paper that the poles of the new telegraph company are scattered along the road in such manner as to make driving over it rather dangerous.

Many fish have been killed in Lake Bancroft lately. Some suppose that the smoke and soot coming from the engine houses of the Cliffs shaft have settled on the water and killed the fish which came to the surface in the neighborhood of the engine house.

The city library is to have a number of new books in a short time. Since the removal of the council chamber from the room in which the library is kept more room has been gained for those who use the place as a reading room.

A Wall Street Barometer. "I can tell the state of the financial world by the character of the luncheon some of Wall street's moguls order," remarked an observant young man who is in a position to know.

Length of Telegraph Wire. The length of telegraph wire is 1,688,880 miles, or eighty times the length of the equator.

A Famous Church Rebuilt. A fact little known is that the Church of the Puritans (Congregational), which Dr. George B. Cheever brought into particular prominence by his vehement Sunday evening anti-slavery sermons, delivered on the breaking out of the civil war, was, after demolition, put up again, stone by stone, in another part of the city.

To Get a Divorce in Switzerland. Until within a few years a curious custom has obtained in Switzerland. When husband and wife expressed a desire for a divorce they were required to enter a room and live therein together for a fortnight, during which time they were neither to see nor to converse with anybody else; their food was passed to them through a narrow opening in the wall, and all communication with the outside world was shut off.

Hotel Duquette, Lake Linden, Mich. An entirely new hotel with excellent accommodations for travelers. Rates reasonable. Special terms given to traveling companies on application.

THE COPPER COUNTRY.

Burglars at Lake Linden Get Small Gains. Red Jacket Village Sorely Needs More Land—Every Lot is Taken Up—Steamer Preparing to Start for Isle Royale.

LAKE LINDEN. Leopold & Hanauer's meat market was burglarized Sunday night. The thieves got about three dollars in pennies from the money drawer.

John McKinnon has built an extensive addition to his barn. On Sunday night he lost one of the fine new horses he recently imported from Wisconsin.

The product of the Calumet & Hecla stamp mills for the week ending Monday, April 21st, was 801 tons 1170 pounds.

On May 1st several changes will take among the salubrious keepers. Charles Orton has rented the Lake View hotel and will run a bar in connection with it.

The Times suggests that when the name of the Jewell House is changed the proprietors name it "The Superior."

The common council holds a special meeting to-morrow evening to act on the liquor bonds presented.

RED JACKET. Every available vacant lot that money can buy within the village limits is being built on and a number of business men intend important alterations.

Red Jacket shaft, Calumet & Hecla, was sunk 127 feet during the month ending April 17th.

HOUGHTON. The tug Annie R. Hennes has been thoroughly overhauled and will go in regular service next Thursday.

Ed. Mitchell opened up his notion and green grocery store on Monday morning.

The propeller A. B. Taylor went to the Croze dry dock Monday for repairs. As soon as the ice admits she will sail for Isle Royale.

HANCOCK. Mr. John Stehels and Miss Bridget Buckley were married at St. Patrick's church Tuesday morning, Rev. Fr. Atfield officiating.

The shipment of copper by rail still continues. General Passenger and Freight Agent Daugherty, of the Chicago & Northern, is in the copper country.

M. M. Moralee's logs that were hung up in the Other last year are coming down in good shape.

SOUTH LAKE LINDEN. A large delegation of the local Smelters' union will go to Hancock this evening to consult Superintendent James Cooper in regard to their grievances.

J. B. Hodges is elated over the arrival of a baby daughter at his house.

Superintendent Jno. Daniell left for the east Tuesday noon, accompanied by his wife.

THE MINING JOURNAL in a previous item stated that at the Osceola stamp mill two heads were stamping Osceola rock and one Kearsarge. The item should have read three heads stamping Osceola and one Kearsarge.

AMONG THE SAW LOGS. Baraga Mill Are Active—Hebard & Son Building—Personal Mention.

BAHAGA. The lethargy and dullness of winter has been dispelled in this city of late—dust and the hum and buzz of the saw mill is again heard.

It is reported that Houghton sportsmen are coming here on the nights of the 30th to be on hand to haul for the speckled trout.

Tom Brady was over from L'Anse Monday negotiating for Nester's electric light plant. He had Attorney McKernan with him but success did not attend them.

Druggist Real's Norwegian pharmacist has gone to Ironwood.

Mr. V. Coppo, en route to Italy, was in town yesterday accompanied by his son and daughter.

PEQUAMING. Messrs. Charles and C. S. Hebard returned Sunday evening. They take the loss of the large mill very philosophically.

The work of constructing a new mill has been begun. It will be on the site of the old one, and instead of having the set of circular gang saws they will put in a hand saw which will give the new mill a modern equipment and a capacity of about three-fourths of the mill destroyed.

Messrs. Hebard & Son have about a hundred million feet of pine to saw up.

If you want anything in the line of flooring, ceiling, siding, sash, doors, blinds, moulding, write to Hager & Johnson, Marquette, Mich. Estimates furnished on all kinds of building material.

NOTICE—Headquarters for fine furniture of latest design at S. Olson's, Red Jacket. Furniture delivered to any town in copper country. Many years experience in the undertaking business. Very reasonable charges; first class work only. 7-5-1f1

NOTICE—Joseph Ethier's stage line connects with Mineral Range train for all points in Keweenaw county. First-class livery stable and undertaking. 7-5-1f1

HOTEL TO RENT—On account of falling health I intend to quit the hotel business and will dispose of my entire outfit in the Cleveland House, South Lake Linden. Possession given May 1st, 1890. JOHN F. SCHROEDER, 43rd St.

HOTEL TO RENT OR FOR SALE—The large and handsome newly-built Jewell House will be rented to the right party at a reasonable rent, or will be sold at a bargain. Apply to JOSEPH GREGORY, Lake Linden.

FOR SALE—At a bargain, a complete bar outfit, back bar, mirror and counter. Will be sold at a sacrifice. Apply to Opposite L. Hines & Co.'s store, Houghton, Mich.

PLEASE bear in mind that T. Wills, Jr. is still in the field representing the American Cycles for 1890. Catalogues on application. Anything in the line of Sporting Goods. You will find it to your interest to consult him. Address T. WILLS, JR., Red Jacket, Mich.

HACKETT BEARS THE BROOM

Captain Girardin Brings His Vessel and Consort First Into Marquette Harbor This Season.

MAYOR LONGYEAR PRESIDES OVER THE COUNCIL FOR FIRST TIME.

All Old City Officers Except Assessor Unanimously Re-elected—Much Business Rapidly Transacted—General City News.

Had Much Trouble With Ice.

The steamer R. J. Hackett, Captain Girardin, carries the broom for 1890 as the first vessel to arrive at a Lake Superior port. Towing the schooner H. H. Brown she pulled up to the dock at 1:25 o'clock this morning, the first vessel into Marquette. Her whistle was heard at 12:30 but it took her nearly an hour to get her tow alongside and work up to the dock. She will load with Champion ore.

The Lake Superior fleet this year had quite an experience with ice. Said Captain Girardin to a MINING JOURNAL reporter:

"We were forty-eight hours getting from the Soo to Whitefish Point. The ice was jammed into Whisky Bay hard and tight. We had a tough time with it from Round Island to Point Iroquois. There was a fleet of big fellows for up the lake ahead of me and they had a lively time breaking a passage. One would get stuck and then the others would have to break her out. It was a rough time all round. We met more or less ice all the way to Grand Island, and would have been in by 10 o'clock but for dodging it.

"How far out could you see the electric lights?"

"Between twenty and twenty-five miles, I should say. We sighted them long before we lost Grand Island light, I know. They showed up immensely. We saw them a considerable time before Marquette light showed up."

"How did you find the river and Mud Lake?"

"Very hard going from Detour up nearly to Lime Island. From there to the can buoy the passage was fairly free, but from the buoy to Sailor's Encampment it was hard work again. We lay at Detour nine hours waiting for the fleet to break through. There were half a dozen vessels fast in the ice all of one night."

The Hackett passed the Chris Grover off Whitefish point, waiting for the ice to clear out. The M. B. Grover, coal laden for this port, was left at the Soo, detained by a broken air pump.

There is not enough Champion ore in the docks to load the Hackett and Brown but it will be down to-day. The Specular and Colonial and perhaps others of the Republic fleet are expected in to-day.

MAYOR LONGYEAR IN THE CHAIR.

Council Committees and City Officers—Ex-Mayor Clark on Electric Board.

Mayor Longyear presided over the deliberations of the common council last evening for the first time. He delivered no inaugural address, but took his seat without formality. Two new aldermen, Gillett of the Second and Johnson of the Fifth, also took their seats. All the city officers were re-elected save the assessor, in which important position Hampson Gregory succeeds Sydney Adams. An ordinance was passed for a sewer on Arch street and the contract was let for grading and macadamizing Fourth street. Mayor Longyear resigned as a member of the Electric Light and Power board and ex-Mayor Clark was appointed in his place.

At the opening of the meeting Mayor Longyear announced the standing committees, as follows: Finance, taxation and gaslights, Aldermen Pendill, Palmer, J. F. Todd; police, claims and grievances, Aldermen Mack, Gillett and Helmer; streets, sewers and bridges, Aldermen Palmer, Hennessey and Johnson; accounts of city officers, Aldermen Johnson, R. R. Todd and Gillett; purchasing, Aldermen Hennessey, McGiven and Helmer; parks, cemeteries and public grounds, Aldermen J. F. Todd, Pendill and McGiven; water power and electric light, Aldermen Mack, Hennessey and J. F. Todd.

Alderman Hennessey moved that the regular order be suspended and the election of city officers taken up. James Maloney for marshal and J. P. Finlayson for street commissioner were re-elected by acclamation. For assessor Alderman Hennessey nominated Hampson Gregory and Alderman Palmer moved a ballot. The votes showed Gregory 6, Adams 3, and Mr. Gregory was declared elected.

For city attorney W. S. Hill was re-elected by acclamation. A. J. Otterson for harbor master, George Wagner and H. Gregory for fire wardens, Patrick Murtha and Michael Stack for poundmasters, went through without opposition. The resignation of Patrolman Imeson was presented and Marshal Maloney was asked to name his assistants. He nominated Dennis Hogan, Carl Egelson and Isaac Messier, who were confirmed without opposition. Dr. Thiell was re-elected health officer by acclamation.

The salaries of the city attorney, mar-

shal and patrolmen was fixed at the old figure. The assessor's salary was raised from \$400 to \$500 per year. Alderman Hennessey wanted to raise the harbor master's salary from \$25 to \$50 a year but the council did not see it that way and it remained at the old figure.

By his acceptance of the office of mayor Mr. Longyear necessarily vacated his place on the Electric Light and Power board. His resignation was presented and accepted with expressions of regret on the part of the aldermen. The mayor returned thanks for the council's kindness and nominated F. O. Clark to fill the vacancy, which nomination was unanimously confirmed.

Mr. J. M. Wilkinson on the part of the electric light and power board presented a communication setting forth that under the statute there was a doubt whether the electric improvement bonds had been legally authorized at the recent election and asking for a special election on June 2d on that question. Alderman Mack presented an ordinance to that effect. Alderman Palmer desired the board to state in detail what it wanted to do with money, and Alderman Pendill feared that if these bonds were issued for electric improvement the future progress of the water works would suffer. Alderman Mack warmly advocated the extension and improvement of the electric service. On a ye and nay vote the ordinance was passed, Alderman Pendill alone opposing.

A number of Michigan street property owners asked for connection with the trunk sewer. The grading, curbing and macadamizing of Ohio street from Spruce street 400 feet east was asked. Both petitions were referred to the street committee. Bice, Pendill & Co. were granted permission to build a railway track on Mesnard street to their mill. Maria Farrelly's trunk sewer assessment was ordered remitted for absence of benefit. The Chicago Lumber company alleged that it was assessed \$8,000 too much and asked a rebate. The city attorney will decide the question. Euclid Largeness wanted \$175 balance on his snow plow contract but will have to wait until the regular meeting. The bond of August Machts, city treasurer, in the sum of \$40,000, with J. M. Wilkinson, Carl Rohl and B. Neidhart as sureties was referred to the city attorney. Several liquor bonds were presented and laid over to a meeting to be held April 30th.

George Reickel was awarded the contract for grading and macadamizing Fourth street at \$1.18 per foot, underbidding Euclid Largeness and Hall, Anderson & Oberg. An ordinance was passed for a sewer on Arch street from 80 feet east of High street to the trunk sewer, 8 inch pipe, with 6 inch wyes. Alderman Pendill reported the floating debt of the city to be \$4,922. The recorder was authorized to advertise for bids for supplying the city with lumber and the council adjourned.

James Corrigan In Town.

James Corrigan, of Cleveland, the well-known vessel owner, is in the city. To a MINING JOURNAL reporter Mr. Corrigan said that the prospect in marine affairs was extremely bright and that there was promise of plenty of work for all the boats. Mr. Corrigan has a reputation of starting his boats earlier and keeping them out later than almost any vessel owner on the lakes. Last year one of his steamers loaded so late at this port that everybody predicted she would be frozen in. But he surprised all the prophets by getting her to Cleveland on time, loading coal at Buffalo, running to Chicago and returning with a cargo from that port.

Explosion Felt Here.

The report of both explosions at the Anthony Powder mill was plainly heard in this city. Houses were jarred and windows rattled and many people believed the Lake Superior mills had gone up. The council room swayed perceptibly, but the aldermen went right on with the grind. In a few minutes hundreds of people were on the streets, seeking the cause of the earthquake-like shock.

CATARH.

Catarrhal Deafness—Hay Fever—A New Home Treatment.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

N. B.—This treatment is not a snuff or an ointment, both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent free on receipt of stamp to pay postage, by A. H. Dixon & Son, 337 and 339 West King street, Toronto, Canada.—Christian Advocate.

Sufferers from catarrhal troubles should carefully read the above.

Notices.

The Milwaukee & Northern train leaving Chicago 11 P. M. Sunday makes direct connection Monday noon at Champion with train for Ishpeming, Negaunee, Marquette and all points east. This is not generally understood, but it is the case. 4-22d5
