WASHINGTON AFFAIRS.

Bills and Measures Which Will Receive Attention in Congress During the Week.

IMPOSSIBLE TO FORETELL KIND OF SILVER BILL SENATE WILL PASS.

Tariff Measure Almost Ready to be Reported to the Upper House—Appropriation Bills to be Vigorously Pushed.

CONGRESSIONAL FORECAST

WASHINGTON, June 15.—The general debate on the silver question is to close by the present order of the senate at 3 o'clock Monday afternoon and it is the prevalent expectation that a vote will be reached before adjournment on one or more of the amendments to the bill, if not upon the measure itself. In the past week efforts were made to secure pledges of a majority of the senators to support one or another proposition on this subject, but it is understood that they were failures and that nothing but a roll call of the senate will definitely determine just what character of silver bill will pass that body. When this matter is out of the way

A STRUGGLE FOR PRECEDENCE is probable. Senator Allison says he will have the legislative, executive and judicial appropriation bill considered. Senator Platt wants the bill to admit Wyoming to the union taken up and Senator Frye will press his shipping bill upon the attention of the senate. If the Wyoming bill should be taken up, it is understood that the democrats will offer a substitute, to admit Wyoming, Idaho, New Mexico and Arizona to the union in a body. The republicans, so it is announced, will not spend much time in argument, as they will rest the case upon the report of the committee in favor of the passage of the bill. The

RIVER AND HARBOR BILL will be reported early in the week in the committee on commerce but it will not be called up for action by Chairman Frye before next week. By the middle of the week the republican members on the finance committee expect to have the tariff bill ready to report. A feeling prevails that the debate on that measure will not begin until the measures above referred to or some of them are disposed of. Senator Morrill's bill to further aid agricultural colleges is on the calendar for Thursday, on which day also the eulogies on the deceased members of the New York delegation devoted to bills on the calendar to which no objection is made. The appropriation bills are to be vigorously pushed

IN THE HOUSE in pursuance of the plan agreed upon last week, in order to have the way clear for action on other matters of public importance. This program will probably involve the practical loss of suspension Monday as the sundry civil appropriation bill comes over as the unfinished business. It is to be followed by the Indian bankruptcy bill, which will be called up by the judiciary committee under one of the special rules for facilitating speedy action. The election committee wishes to call up the Mississippi contested election case of Chalmers vs Morgan. This is one of the cases where the committee has reported in favor of the sitting democratic member and it may act as a softening prelude to the angry and exciting scene of the debate on the national election bill which is expected to follow and close the week.

A SERIOUS ACCIDENT.

Foot Bridge, at a Cleveland Resort. Gives way—Many People Badly Hurt.

CLEVELAND, June 15.—There was a serious accident this evening at Byerle's Park, a summer resort in the southern part of the city. At least 5,000 people had assembled to see a man jump from a cable stretched across a miniature artificial lake. People stood all around the lake and a hundred or more were on a rustic foot bridge about ten feet above the ground and extending from a bluff out across the lake. The jumper made the descent at about 6:30 o'clock. He struck the water near the shore and the people on the bridge made a rush for the place. Nearly all of them were massed on a thirty-five foot span adjoining the bluff. The structure fell with a crash, going down in the middle. The foot path under the bridge was crowded with people and upon these the timbers fell, while those on the bridge were thrown in a heap in the center of the span, where it struck the ground. At least twenty-five people were badly hurt, but only eight were so badly injured that they had to go to a hospital.

Cleveland Switchmen Dissatisfied.

CLEVELAND, June 15.—The switchmen of Cleveland two months ago made a demand for the Chicago scale of wages to take effect to-day. The demand was refused. To-day the switchmen met and decided not to strike. It is reported to-night, however, that a committee is making the rounds of all the yards, trying to get the men to quit work and that quite a number are complying.

Politics Badly Complicated.

EVANSVILLE, Ind., June 15.—The farmers and labor organizations in this portion of Indiana are united for legislative and congressional work in order to influence legislation in their interest. There is considerable uneasiness among the leaders of the parties. It is said that there will be a great political sensation when nominations are made. In a few localities the prohibits will make nominations. Altogether the political situation is badly complicated.

MET A FEARFUL DEATH.

Two Boys Instantly Killed By an Engine Before a Horrified Crowd.

CHICAGO, June 15.—Two victims of their own terror met a fearful death this afternoon in full view of the hundreds of promenaders on the Lake Front park. Otto and Herman Berta, aged 12 and 15, were the two unfortunate. They had left the park and were crossing the net work of railway tracks skirting the edge of Lake Michigan when an in-bound passenger train, coming at head-long speed, attracted suddenly the attention of each of the lads. Both boys hesitated as to whether they should turn back or continue on their way. The longer they waited the more undecided apparently they became. The engineer recognized the boys' peril and blew his whistle. This, instead of warning the two brothers, seemed to add to their fright and each stood to all appearances literally unable to move. The train struck and killed them instantly. Herman's body was smashed to a pulp, ascended high in the air; while Otto's was ground under the wheels, the head rolling aside as though from a guillotine. It was some moments before the throng of pleasure seekers, equally spell-bound with the victims, recovered sufficiently to aid in gathering up the remains.

ELEVEN WERE INJURED.

Serious Wreck on the Richmond & Danville Road Near Marshall, N. C.

ASHEVILLE, N. C., June 15.—Mrs. John H. Scarborough, of Nashville, Tenn., one of the passengers on the wrecked train on the Richmond & Danville, near Marshall yesterday, died from her injuries this afternoon at the Glen Rock Hotel, this city. There were twenty-four persons on the train, eleven of whom were injured. All the wounded were brought to this place. Mr. Scarborough, husband of the dead woman, also received painful injuries on the neck and shoulders. Mrs. J. C. Van Buhlew, of Chickory, N. C., is the only other person seriously injured. She suffered a concussion of the spinal column, with paralysis of the lower extremities and is in a very critical condition. The accident occurred immediately on the bank of the French Broad river, some ten miles south of Hot Springs and was caused by a defective brace on the rear truck of the tender. The Pullman car and a first class car were thrown from the track and turned on the side. All the passengers were injured in these coaches.

SOCIALISTS ON TOP.

Lively Fight in Sunday's Meeting of the New York Central Labor Union.

NEW YORK, June 15.—At the meeting of the Central Labor union last Sunday the socialists and conservatives had a row in which the latter prevailed, deciding to exclude the socialistic press reporters. Satisfied that a lively time would be had at the regular meeting of the union to-day the socialists held a meeting this morning, and after a conference, during which many plans of action were discussed, decided to withdraw from the Central Labor union altogether and to form a new central body, unless the obnoxious resolution relative to the socialistic press was rescinded. Accordingly they were better disciplined for the fight at the evening meeting than the conservative element. Delegate Jablonski fired the first gun in a vigorous protest against the adoption of the minutes of the last meeting and the fight that ensued thereon was fierce and vigorous. It was in vain that the chair ruled. His rulings were unnoted and when after a long scrimmage the conservatives found they could do nothing, a motion to adjourn was made, which the chair pronounced carried. The socialists, however, were there for blood and immediately upon the withdrawal of the conservatives, they continued the meeting, restoring the socialistic labor press to representation in the union. It is probable, however, that the conservatives will decide upon a split and will form another central body.

Close Call for a Murderer.

BOONEVILLE Mo., June 15.—Sheriff Cramer, who was shot yesterday by West, a prisoner in the county jail, died to-day. Just before his death, a mob composed of enraged farmers from all over the county, gathered around the jail to take the prisoner and lynch him. The dying sheriff heard the noise and asked those around his bedside to tell the mob that it was his dying request that they commit no overt act, but allow the law to take its course. When the sheriff's death was announced the mob became ugly, but when the sheriff's request was made known, better counsel prevailed and the crowd quietly dispersed. The jail is kept strongly guarded nevertheless.

No Duty—No Imports.

HALIFAX, N. S., June 15.—The steamer Harlow, which was ordered at Bay St. George, N. F., not to land any of her cargo, arrived back here today. The captain reports that when he reached Bay St. George and landed to enter his vessel at the custom house, the collector of customs handed him a written notice to the effect that he would not be permitted to land any goods consigned to people there. The notice stated that the ground for this action was the refusal of the people to pay customs duties to the Newfoundland government, and if the Harlow landed any cargo in the face of this order, the steamer would be seized. The captain says there was no excitement. The people were determined not to pay duties on importations and raised no objection to his proceeding on his voyage without landing their goods.

Seven Unknown Dead.

NEW YORK, June 15.—Between sunrise and sunset to-day seven bodies of unknown dead were taken out of the river along the city front.

The Bean Eaters Away Ahead of the Giants, the Second Club in the Race

BUFFALO HAS A DEAD BERRY ON THE TAIL END HONORS.

Cincinnati Sets the Pace in the National League and It's a Fast One—Pittsburgh Brings Up the Rear.

PLAYERS LEAGUE.

CLEVELAND, O., June 14.—Stupid base running, costly fielding errors and an inability to hit King caused the defeat of the Cleveland (P. L.) club to-day. Attendance estimated at 1,200. Score:

Cleveland	1	0	0	0	1	0	0	0	—3
Chicago	3	0	1	2	0	1	0	—5	
Base hits, Chicago 11; Cleveland, 6. Errors, Chicago, 2; Cleveland, 5. Earned runs, Chicago, 1. Umpires, Ferguson and Holbert. Batteries, Gruber and Snyder; King and Farrell.									

BROOKLYN, 7; NEW YORK, 6.

BROOKLYN, June 14.—There was excitement in the game between the Giants and Brooklyn (P. L.) at Eastern park this afternoon. Attendance, 2,500. Score:

Brooklyn	0	2	0	0	0	4	1	0	—7
New York	1	0	0	2	0	2	0	1	—6
Batteries, Van Halten and Cook; Crane and Vaughn. Hits, Brooklyn, 9; New York, 10. Errors, Brooklyn, 3; New York, 9.									

BUFFALO, 9; PITTSBURG, 4.

BUFFALO, N. Y., June 14.—The Pittsburgh and Buffalo (P. L.) teams played two games to-day. Visser was ordered from the field for insulting Umpire Barnes. In the second game Morris held the Buffalos down well, and Hamilton won an interesting game. Score:

Buffalo	1	2	0	1	3	0	2	0	—9
Pittsburg	0	0	0	2	0	2	0	0	—4
Hits, Buffalo, 10; Pittsburg, 11. Errors, Buffalo, 1; Pittsburg, 4. Batteries, Haddock and Mack; Galvin and Quinn. Earned runs, Buffalo, 5; Pittsburg, 4. Struck out, by Haddock, 1; by Galvin, 1. Time, 1:45. Attendance, 1,391. Umpires, Gaffney and Barnes.									

SECOND GAME.

Buffalo	0	0	2	0	0	0	0	0	—2
Pittsburg	0	3	0	0	0	0	2	0	—5
Hits, Buffalo, 7; Pittsburg, 11. Errors, Buffalo, 2; Pittsburg, 3. Batteries, Baldwin and Clark; Morris and Quinn. Earned runs, Buffalo, 1; Pittsburg, 3. Time, two hours. Umpires, Gaffney and Barnes.									

STANDING.

	Won.	Lost.	Per Cent.
Boston	26	15	.638
New York	26	20	.564
Brooklyn	23	20	.535

Pittsburg	19	22	.463
Cleveland	16	22	.420
Buffalo	12	25	.324

NATIONAL LEAGUE.

CINCINNATI, O., June 14.—The Cincinnati batted Beatin's pitching terrifically in to-day's game and won as they pleased. The batting of Kelly was the feature, as he made four hits out of as many times at bat, three of the number being triples. Attendance, 2,798. The score:

Cincinnati	0	1	1	3	0	1	3	0	*—9
Cleveland	0	0	0	0	0	0	0	0	—5
Base hits, Cincinnati, 15; Cleveland, 4. Errors, Cincinnati, 2; Cleveland, 1. Earned runs, Cincinnati, 3. Struck out, Keenan, Duryea, Beatin 2, Veach.									

BROOKLYN 16; NEW YORK 2.

BROOKLYN, N. Y., June 14.—The New Yorks (N. L.) played a miserable game at Washington park to-day, allowing the Brooklyns to pile up runs at will. Rain stopped the game in the eighth inning. Attendance, 3,315. Score:

Brooklyn	0	8	1	1	0	3	3	0	*—16
New York	0	0	0	0	0	0	2	0	—2
Hits, New York 2; Brooklyn 15. Errors, New York 3; Brooklyn 2. Batteries, Busie and Buckley; Lovett and Bushong. Earned runs, Brooklyn 2. Home run, Lovett.									

STANDING.

	Won.	Lost.	Per Cent.
Cincinnati	29	13	.690
Philadelphia	27	14	.658
Brooklyn	25	17	.595
Chicago	23	16	.589
Boston	19	22	.463
New York	19	25	.432
Cleveland	13	28	.317
Pittsburg	9	31	.225

Triple Drowning.

St. Paul, Minn., June 15.—A special from Anoka, Minn., says: A terrible case of accidental drowning occurred one mile and a half above this city on the Rum river this afternoon at 3 o'clock. The following are the victims: Misses Lizzie Murphy and Nellie Maloney and the latter's brother, John Maloney, aged respectively 20, 17 and 11. They were in bathing and the little boy got beyond his depth. In trying to save him, the girls went under and they were all drowned together.

A Dispute Settled With a Crowbar.

LOUISVILLE, June 15.—Yesterday James Jones and Walter Walker quarreled over which was able to do the most work in the cement mill where both are employed. They began a fight but were separated. Later Walker slipped up behind Jones and hit him on the back of the head with a crowbar, killing him. Walker is under arrest.

A Negro and a Razor.

PHILADELPHIA, June 15.—Isaac Sampson, colored, quarreled with his wife this afternoon and slashed her in a fearful manner about the head with a razor. Citizens attempted to take him, but he held them at bay with his razor until a well directed brick thrown by one of the crowd felled the desperate negro and he was secured.

Forecast of the Weather.

WASHINGTON, D. C., April 15.—8 P. M.—The signal service reports the following as its forecast for the next twenty-four hours: For Michigan and Wisconsin: Fair; warmer; except slightly cooler in eastern and southeastern Michigan; variable winds.

MARQUETTE, MICH., JUNE 16.
Entered as mail matter of the second class in the postoffice at Marquette, Mich.

ACCORDING to the New York Indicator the gross earnings of the Duluth, South Shore & Atlantic railroad for April were \$150,665 as against \$132,203 for the same month in 1889, an increase of \$18,462.

THE order and decency which prevails in Marquette is having its effect on her sister cities. Escanaba is ambitious to be enrolled in the same list and her mayor has published an extended notice to saloon keepers warning them that the law will be rigidly enforced on all occasions. Even the familiar and formerly hospitable "back door" will return a cold, indifferent refusal to the appeals of the thirsty Escanabaite to "open up."

THE proud male of the Caucasian race could learn some valuable lessons these days, if he were so inclined, and lessons which would have a tendency to diminish his somewhat exaggerated opinion of his brain power and to raise in his estimation a sex and a race which he has dogmatically pronounced inferior. In looking over reports of college commencements and the apportionment of honors, both in America and England, it seems as if the "sweet girl graduate with golden hair" and the despised African, "God's image cut in ebony," were carrying off the most of the prizes.

THERE is trouble in Duluth. A gloom hangs over the city. The public pulse beats with feverish velocity. In the face of the boom of the intolerable cheek and unutterable gall is not satisfied with the census. An awful dread has seized the Duluthians that the count will fall to show up the 50,000 inhabitants of which they have been so confidently boasting. It is asserted that the enumerators have been slack in their work and have skipped a large section of the population. A public meeting has been held, fiery, indignant speeches made and ways and means sought to avert the threatened calamity. It looks very much as if the enumerators had violated their oaths and made an estimate which was unsatisfactory to the inflated village at the head of the lake and that the citizens are preparing to "hedge," saying, "Well, we've got 'em," (the fifty thousand) "all right, but the darned census failed to count 'em."

BISMARCK is the greatest figure on the European stage for the latter half of this century. What Richelieu did for France, the "Man of Blood and Iron" has done for Germany, and more. He was never a statesman, however, of liberal ideas and his late declaration that one of the evils of this age, in Germany, is too much education, is very good proof that the Emperor William was right in holding that Bismarck's work was done and that he was not abreast with the needs, ideas and aspirations of this age. Bismarck should have retired years ago. The master spirit who planned and accomplished the unification of Germany had outlived his mission and become a clog upon his country. "Superfluous lags the veteran on the stage" might have been said of him with complete justice. This young William is the first real sovereign that has been seen in Germany since Frederick the Great breathed his last in 1785, and the world will see it if he lives long enough.

SHREW INVESTORS are looking sharply after available timber across the border. The Northwestern Lumberman says:

Some Michigan men have dipped heavily into Canada pine during the past year," said a well informed pine land man to me the other day. "You may not have heard of it," he continued, "but one of the largest deals made during the year was the purchase late last fall by Gen. Alger, of Detroit, and Congressman Bliss of Saginaw, of a tract of pine between Winnipeg and Port Arthur, on the north shore of Lake Superior, estimated to cut 1,000,000,000 feet. The price asked was the modest sum of \$1,000,000, but the sellers came down to \$425,000, and the purchase was made at that figure. Alger & Bliss also bought another tract in lower Canada. A. P. Bliss bought something like 300,000,000 feet. Brewer, Rapp & Kerr bought a large tract in lower Canada, and McClure, of Saginaw, also purchased an extensive tract in lower Canada. This looks as if the tariff question had not disturbed these gentlemen regarding Canada as a good field for investment. A number of Bay City, Oscoda and Alpena lumbermen have also bought a good many hundred million feet of Canada timber."

SOME WISE DEMOCRATS.
It is doubtful if there was ever in the political history of this country, so pitiable a descent to demagoguery by a great party as that which is evidenced by the stand the democracy of Wisconsin has taken on the Bennett law. It is very gratifying to know that there are men and newspapers in the democratic organization who neither lack the penetration to see what constitutes an unworthy and pernicious course of par-

tisan conduct nor the courage to denounce it. Wisconsin democrats, lean and hungry for long banishment from the public crib, have no hesitation in getting down on their knees and fanning and blowing the embers of religious and national bigotry into a flame for the purpose of cooking a meal for themselves. The Chicago Herald is a fairly staunch organ of Democracy. You will scarcely find any utterances in its columns that are repugnant to the articles of the democratic faith. That journal, however, sees the precipice down which the Wisconsin section of the party would throw itself and shouts words of warning. It has denounced the anti-Bennett law agitation from the beginning. It has lately published articles from the pens of staunch democratic lawyers of high repute, W. H. Timlin and Hugh Ryan, of Milwaukee, which expose in vigorous argument the fallacy and folly of the crusade against the Bennett law. By the side of their clear, impartial presentation of the case the awkward partisan reasonings of that grotesque caricature of statesmanship, Gabe Bouck, seem poor indeed.

THE ORE TRADE.
The following is clipped from the Cleveland Marine Review:

The future of the iron market appears much brighter now than a month ago, when vessel owners as well as ore dealers engaged in handling the Lake Superior product were very much dissatisfied with the gloomy surroundings, although contracts well secured had been made for a big season's business. Some of the Cleveland owners of big fleets quietly expressed the belief that the circumstances might force a very uncomfortable situation upon such of them as had contracts made last fall for the transportation of large quantities of ore at fair prices. The ore had all been sold by the shippers at prices based on the lake freight contracts, but in the event of further depression in the iron market, was it not reasonable, they argued, that the furnacemen should be expected to look for relief from a portion of their high purchases or given time in taking the ore. The vessel owner might be asked to extend his contract into another year. Such a thing had happened before, and only a few years ago. It was at a time when freights were up to \$3 and \$4 a ton, however, and in any event the feeling is much better now. The pig iron market has improved, and a demand for even more ore may be expected to follow.

MERIT WINS.
We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for purely on their merits. Dr. King's New Life Pills, Bucklen's Arnica Salve, and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. H. H. Stafford & Son, Druggists.

CATARRH.
Catarrhal Deafness—Ray Fever—A New Home Treatment.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

FORCED TO LEAVE HOME.
Over sixty people were forced to leave their homes yesterday to call at their druggist's for a free trial package of Lane's Family Medicine. If your blood is bad, your liver and kidneys out of order, if you are constipated and have headaches and an unsightly complexion, don't fail to call at any druggist to-day for a free sample of this grand remedy. The ladies praise it. Everyone likes it. Large-size package 50 cents.

Notice of Annual Meeting.
The annual meeting of the stockholders of the Lake Superior Iron Company, will be held at the office of the company, No. 28 State Street, Boston, Mass., at twelve o'clock, M., on Wednesday, the eighth day of June, 1890, for the election of Directors and the transaction of any other business which may lawfully come before the meeting.

Resolution will be offered at the meeting authorizing the Board of Directors to contract for the construction of two or more additional vessels for the use of the company, at their discretion.

By order of the Board of Directors,
A. C. TENNEY, Secretary,
Boston, May 19, 1890.

Stockholders' Meeting.
MARQUETTE, MICH., MAY 18, 1890.
A meeting of the stockholders of the Blue Iron Mining Co. for the purpose of arranging to operate the mine, and for transacting such other business as may be presented, will be held at their office in the city of Marquette, Mich., on the 22nd day of June, 1890, at 2 p. m.

Meeting postponed until Tuesday June 17th, at 2 p. m.
S. R. KAUFMAN, Sec'y.

Dr. Owen's Electric Belt.
FOR MAN AND WOMAN.
The only practicable electric belt made. Cures Rheumatism, Bright's Disease, Sciatica, Paralysis, Torpid Liver, Lumbago, Neuritic Headache, Dropsy, Weakness, General Debility, Painful Menstruation, White Discharge, Stricture, Urinary Diseases, etc., etc.

Awarded the highest medal at Cincinnati Exposition, 1883. Gives mild or strong current of electricity which stimulates and assists nature to restore weak organs to health and vigor.
ELECTRIC INSOLES \$1.00.
Sent free for circular. Illustrated catalogue with full list of diseases and valuable information and sworn statements in English, German, Swedish and Norwegian.

LONDON BANK TELLERS.

Experts in Handling Money—Features of the English System.

A London bank teller always experiences a feeling of relief when he finds his money correct at the close of Friday's work, and this feeling is usually shared by the rest of the staff, who cannot leave the bank until he either discovers his error or satisfies himself as to the actual shortage. The great bulk of the shortages made across bank counters in England are believed to occur on that day.

Next in order of bad days for the teller, or cashier, as he is designated in London, comes Saturday, but there the bad luck is intelligible. Saturday is wages day, and no sooner has the teller filled his till and loaded up his shelves with silver in £5 and £10 bags than the day's work sets in like a flood. Until 12 o'clock he is paying away with both hands; after that hour, if he is a receiving clerk as well, he begins to receive heavily, for Saturday is also the last day of the week, and every one expects that the bank should receive his deposits rather than that he should keep them in his own less secure custody over Sunday.

In beginning work on Saturday the London teller faces an open mahogany counter, of which the portion controlled by his desk is probably 6 feet long by 3 feet wide. He likes to have a good square view of his customer, and it is one of the canons of British banking that the eyes of the staff shall command the counter. With such an open counter the chief clerk is able to keep the whole field under his eye at one time, and to relieve the overstrain at any particular desk. The effect of the exposed condition is beneficial, too, on the staff, the members of which preserve a staid demeanor and attend more closely to business while thus under the eyes of the public.

The London teller is a quick manipulator of coin. This is largely owing to the fact that the smallest note issued in London is of the value of £5, or \$25. When asked for gold in a greater amount than his eye can count at a glance, the teller, after counting it quickly with a pianoforte action, throws it with his upper sweep into his faithful scales, and so checks his count. The weights of these scales are arranged in suitable numbers. The teller also checks the gold which he receives by weight, and here his knowledge of his business will be tested. One hundred new sovereigns are of full weight, rather more, in fact, but the same number taken at haphazard will be found to be nearly half a sovereign (or 1/2 cent) short in weight, while 2,000 in ordinary half sovereigns are sometimes twenty shillings (or 1 per cent) short in value. The teller can quickly satisfy himself as to whether the deficiency is caused by shortage in the weight or the count, by dividing the amount and weighing one moiety against the other. If they balance evenly the count is correct; if the difference is due to underweight, if the latter exceeds the average stated the coin will need to be specially examined; there is probably something wrong.

The edge of the English bank counter is provided with a lip to prevent the coin from rolling over and to aid the teller in scooping up the money. The teller usually counts with the first two fingers of both hands, simultaneously; sometimes he uses six fingers, and a teller has been known to count 50 sovereigns in one minute, working against time. An expert teller will count £100 value of silver in seven minutes. When it is remembered that the coins are always mixed and consist of sixpences, shillings, florins, half crowns and crowns, with never a decimal convenience among them, this will reasonably be considered as a remarkable feat.

The annual loss from wear and tear of gold coin in England by reason of the absence of small notes is almost incredible. In Scotland the issue of £1 notes displaces gold to a great extent. The Scotch teller excels in counting paper money. In fingering a bundle of notes he is king of men. Placing the packets upright against his left palm, and seizing the top corner between the finger and thumb of his right hand, he will turn over the notes so quickly that an ordinary observer will be as entirely deceived as by the three card trick, and will probably count only sixteen or seventeen to the teller's twenty. Then, to check his count, he will either alternate his hands, or, placing the notes horizontally on his counter, he will count them toward himself with the same paralyzing speed.

The Scotch counter is twice as wide as the London one; it is elevated in the center and is minus the rim which facilitates the English teller's dexterity with the coin. The Scotch teller in Edinburgh is hailed in his domain as a little island by itself, he takes no responsibility; he carries no balances in his head, and will not look at a check until the ledger clerk, far off in the corner, has countersigned it.

An advantage which the English teller possesses over the American and the Scotch teller lies in the fact that he issues clean notes only. The Bank of England has the exclusive privilege of note issues in London and within a radius of sixty miles, a right conferred for a certain valuable consideration granted to the government in years gone by. All the notes received by the London teller are sent into the Bank of England, and they are not reissued. The average life of a £5 bank note is two or three weeks, that of a £100 bank note three days—that is, the interval between its issue and return to the bank and final death.—Boston Commercial Bulletin.

Legal Technicality.
Legal technicality has never been exceeded by that in the case of Holt against Holmes, one of the oldest recorded cases. It seems that one Holmes had been telling his neighbors tales on Sir Thomas Holt and making public one of the latter's little peccadilloes. Sir Thomas commenced an action for slander, alleging in his written declaration that Holmes had publicly stated that he (Sir Thomas) had "taken a cleaver and stricken his cook upon the head so that one side of the head fell upon one shoulder and the other side upon the other shoulder." Now, it was a rule of law in cases of this character that it was no slander unless the words falsely spoken imputed to another the commission of a crime, and the learned judge, in applying this rule to the case before him, dismissed the action because, as he stated in his opinion, the words did not constitute a slander on Sir Thomas, as it was not stated in the pleading that the cook died from the stroke—thus leaving it to be inferred that a man had a legal right to split upon his cook's head so that each half thereof rested upon a shoulder, provided that he did not kill the owner of the divided head!—San Francisco Argonaut.

Bogus Coffee.
Look out for a new kind of coffee that is not coffee. Some clever Frenchmen at the Island of Reunion have discovered that the fruit of the wild orange that grows there has the aroma of the coffee berry. As it costs less to raise the wild orange than regular coffee, naturally the planters are substituting the former for the latter, and the government even has ordered that a great part of the highlands on the island be reserved for the cultivation of the new bogus coffee. One bright gleam on the coffee horizon is in the fact that the new berry will be so cheap that it will, if its culture succeeds, drive out chicory, and as an adulterant it is said to be much less vile than that staple coffee cheaper.—New York Sun.

FOREIGN INTELLIGENCE.

Students of Tokio, Japan, Insult Foreigners Almost With Impunity—The Imbrey Case.

ENGLISH MEN-OF-WAR READY TO SAIL FOR COREA AT A MOMENT'S NOTICE.

American Riflemen in Bremen Treated Royally—Contest Begun—Serious Cholera Epidemic in Spain—Nine Deaths Saturday.

NEWS FROM JAPAN.

SAN FRANCISCO, Cal., June 15.—A correspondent of the Associated Press in Tokio, Japan, writes as follows, under date of June 1: "The excitement following the deprivations of the students of Tokio has decreased a little since they apologized to the Rev. W. Imbrey, the New Jersey missionary, who was cut by them two weeks ago. That gentleman has entirely recovered and it seems nothing more is to be heard of the matter. The foreigners feel outraged that the culprits were not severely punished. As a result of their escapade, the Soshi are becoming more bold day by day and insults to foreigners are increasing. The sailors coming from Yokohama are armed with revolvers, fearing that there may be some show of violence. The government seems to be...

DOING ALL IN ITS POWER

to deal with the students as a class, but no incivility can be offered them as individuals because of their desperate character. In the meantime the distress among thousands of the starving people of Tokio and other large cities is being ameliorated to a great extent by the foreigners, as well as by the Japanese. One gentleman is feeding a thousand a day out of his own funds. The price of rice is higher than ever before both in Japan and Corea, and this is probably only a forecast of the sufferings to follow. The outlook for the growing crop of rice is not good owing to heavy and continued rains. There are many vague rumors abroad concerning the reported taking of Corea by the Russians. There is some trouble in Corea, but the government officials of Japan know nothing definite as to its nature. All that is surely known is that all of the British men-of-war are lying in the harbors with steam up and under orders to sail at a moment's notice. Several of them have already gone. The American naval force under Rear Admiral Belknap is also expected orders to sail for Corea. An officer of the British ship Severnia, said to the Associated Press reporter that he had seen dispatches and orders which would astound the foreigners in Japan. The dispatches from Corea say that the new United States minister, Augustin Hurd, has arrived there and that the retiring minister is about to depart.

GERMANY.

BREMEN, June 15.—The Schuetzenfest committee assembled this morning with hands and banners and marched to the Central Hotel, where the American riflemen are staying, and conducted the visitors to the Schuetzenhof. Enthusiastic crowds lined the route. After a banquet in the rifle hall, the contest opened at 3:30 p. m. The evening program included a military concert, popular sports, fireworks and a supper and ball. Speaking at the banquet in reply to a toast to the American visitors, Mr. Schneider, of New York, said that the toast to the emperor and empire found a joyful echo in the hearts of German Americans. Only since Germany had become prominent and respected. What the Germans liked about America was the general freedom enjoyed by the people. He concluded by offering a toast to President Harrison. Emperor William will attend the Austrian manoeuvres in Transylvania, and will then spend a week in Hungary.

MEXICO.

CITY OF MEXICO, June 15.—Senor Visenor Verdugo, counsel for Lieutenant Irubid, who was sentenced to one year's imprisonment for murdering against a superior officer, is trying to obtain a rehearing of the case. Able lawyers say that the counsel's failure in the first trial precludes a rehearing. The conservative organs make Irubid out a martyr, but a great majority of the people decline to take this view of the matter. The minister of the interior will ask leave to make himself eligible for election as senator. It is rumored that Matias Romero, minister at Washington, will be appointed to a cabinet position. Large amounts in silver have been made ready to be shipped to the United States in case the silver bill passes. Letters from Central America to persons in this city state that the conservatives will never allow the peaceful establishment of the Central American union. The government has recently granted several concessions for railroads to the Pacific coast, but the general opinion is that none of them will be built.

SPAIN.

MADRID, June 15.—There were nine deaths from cholera in Pueblo de Rugat on Saturday. Seven fresh cases are reported. Two-thirds of the inhabitants have fled from the town. The first cases appeared a month ago, the victims all being residents of a street which had been opened up for paving. Seven deaths have occurred at Monticelo, a village near Puebla de Rugat, and seven fresh cases are reported there. Defaulter to a Large Amount. SAN FRANCISCO, Cal., June 15.—Advices from Hong Kong brought by the ocean steamer Oceanic state that defalcations to the amount of \$46,000 have been discovered in the accounts of S. M. Berrada, superintendent of the money order department of the general postoffice, who absconded recently. Free Wool Memorial. BOSTON, June 15.—A memorial in favor of free wool has been sent to the senate finance committee by the wool consumers' convention.

MINNEAPOLIS RESTS EASIER.

Nevertheless Congress Will be Asked for a Special Census if This is too Small.

MINNEAPOLIS, Minn., June 14.—Minneapolis rests easier to-night and feels confident of getting something like a fair count in the census. Supervisor Davenport announces that he has three days' grace allowed and it is thought by that time everybody will be enumerated. It rained hard all day, yet men in carriages and on foot were out hunting for names. Congress will be asked to allow a new count in case the present one does not come up to expectations. People here are hot at St. Paul methods. They claim enumerators from that "village come here and enumerate railroad employes and others."

ST. PAUL, Minn., June 14.—Probably the most remarkable enterprise in census taking in the history of the country occurred to-day in Minneapolis. In 200 or 300 places could be seen the sign: "If you are loyal to Minneapolis, see that you are enumerated. This is your last chance. Leave your name here and it will be counted." This placard adorned the windows of cigar stores, dry goods stores, groceries, bakershops, restaurants, saloons and many offices. Census blanks were found everywhere and the question, "have you been enumerated?" was asked by everybody of everybody. Aldermen, policemen, reporters and merchants went up and down the streets asking everybody they met whether or not they had been enumerated. Supervisor Davenport and his men were allowed to supervise things in a general way, but the work of the enumerators was practically taken out of their hands by fully 4,000 men and women who canvassed blocks, hotels, boarding houses and private dwellings in search of the names of people who, it was claimed, had been missed by the regularly appointed enumerators. This peculiar style of enumeration created a good deal of indignation in St. Paul, where the census was quietly completed in the regular way, at 6 o'clock this evening, and the opinion was freely expressed that the Minneapolis enumeration would be decided illegal and ordered taken over.

BACCALAUREATE SERMON.

To Graduating Class of the Massachusetts Agricultural College. AMHERST, Mass., June 15.—The baccalaureate sermon before the graduating class of the Massachusetts Agricultural college was delivered to-day by Prof. C. S. Walker. He said: "Heretofore, in all parts of the world the farmer has been no match for his adversary. He has never held his own against the soldier, the priest, against the politician or the statesman. In ancient times he was the slave; in the middle ages the serf; in the nineteenth century he is the slave, the serf, the peasant or the proprietor, according to location. American farmers as a class are face to face with a crisis. They have subdued a continent and furnished the raw material for our factories, bread for our operatives and manhood for our civilization. They have sustained the nation's credit with their hard earned dollars, rescued endangered liberty with their conscientious ballots and defended time and time again, the stars and stripes with their loyal blood. "Vigorous in body, strong in character, striking in individuality, lovers of home, massive in common sense, fertile in resources, devout believers in Providence, the farmers of America will never allow themselves to be overwhelmed by the fate that sank the tiller of the soil in India, in Egypt, in Europe. From all parts of this land, farmers are coming together. Organization and co-operation are the wonderful ideas that awakened them as never before. They are grasping hands with a grip that means something, comparing ways and means and uniting upon ends to be gained. They demand for themselves and their children an education equal to the best. They insist upon a fair share of the profits of American industry, claiming that no state can long exist in which the tillers of the soil bear most of the burdens and share little of the blessings of advancing civilization. "But they are in danger of making mistakes in the struggle that shall turn back the progress of the movement. They demand leaders. To supply this demand is the imperative duty of the educated farmers. Whatever of bodily vigor, mental power and moral heroism the educated farmer may have acquired from ancestors, college or university, he will need, that he may consecrate it to the great work of strengthening his brother farmers of America so that they shall ever remain an immovable foundation of this, the only republic whose empire has not been rapidly undermined."

FROM A HEATHEN'S CLUTCHES.

An Astute New York Cabby Rescues a 15-Year-Old Providence Girl. NEW YORK, June 15.—A sharp cab driver this morning was the means of arresting a Chinaman, Sam Kee, who arrived here to-day from Providence on the Stounington line steamer, with 15-year-old Annie Lawrence of the same place. The heathen hired the cab and was driven to the police station by the astute cabby in place of the Mott street address given by the Chinaman. The girl broke down and told her story to the police. Her father and mother are dead and she worked in a wire factory. Sam enticed her into his laundry at Page and Richmond streets, Providence, and then assaulted her. He afterwards induced her to come to this city on the promise of diamonds. At the police court the Chinaman was held on the charge of abduction. The girl was turned over to the children's society.

FOR THE GRANT-LEE MONUMENT.

The Association Already Has \$17,000 Subscribed—Encouraging Prospects. LOUISVILLE, Ky., June 14.—A meeting was held at Middleborough to-day to organize permanently the Grant and Lee Monument association. The subscriptions committee reported \$14,100 received. Telegrams of encouragement were read from Governors Hill, Campbell and Taylor, Charles A. Dana and others. At the meeting \$3,000 more was subscribed.

MARVELOUS WELLS.

SOME OF THE WONDERS FOUND BY JOHN W. WRIGHT.

Wells That Boar and Wells That Boil. Some Are Hot and Others Are Cold. Electric Wells Are Very Common—A Few of the Most Noteworthy.

Alcona, Kosciusko county, Ia., was formerly the proud possessor of a roaring well of the typical sort, but as nothing has been written about it for the past five or six years, I am inclined to believe that it has long since gone the way of Jeda's lion "and did cease to roar." When it was in active operation it was only forty-five feet deep; shallow as it seems to have been, precisely close to the place denoted so vehemently by Ingersoll, as the waters were boiling hot and gave off a gas strongly impregnated with sulphur. Polk county, Neb., is well provided with wells which roar and ebb and flow with an unseen tide, having between a dozen and twenty of these remarkable curiosities. There are hours, regular and uniform, in which the air will rush and with a loud, hissing sound, and again an equal number of hours when it seems that all the air in the Platte valley will be sucked into their cavernous depths. The period of this ebb and flow does not seem to depend upon either the seasons or the state of the weather, but are thought to be somewhat regulated by the direction of the wind. The farmers in Polk, Butler and Colfax counties, the three counties best provided with tide regulated, air expelling wells, all of which seem to be about the same depth and to have struck the same porous strata, believe their wells to be in some way connected with the Platte river. If any scientific reasons have ever been given in explanation of the phenomena these roaring wells present, it has escaped the writer's notice. That there are scientific reasons why these oddities should exist, he has not the least doubt.

ELECTRIC WELLS. Electric wells are quite numerous throughout the United States, of different depths and located at all heights from ten feet to 10,000 feet above the sea level. The people in the vicinity of one of these local rarities always believe them to be the only genuine electric wells in existence, whereas it seems to be the rule rather than the exception to strike more or less magnetism, which, in most every case, imparts electrical qualities to the water in all drilled wells having a depth of over 600 feet. On the McGinnis lot in Itasca there is an electric well so strongly impregnated with the subtle fluid that water cannot be drawn except with a rope. It developed its electrical qualities all of a sudden and almost shocked the life out of the matron McGinnis when she attempted to draw up water with the old chain windlass which had done service many years. John Y. Farwell's farm near Montezuma, Ia., is provided with a most wonderful electrical well, which is over 2,000 feet deep. It possesses undoubted medicinal qualities in a remarkable degree, and is to the people of Poweshiek county what Ponce de Leon hoped Florida would prove to be to him. Wells which are veritable paradoxes in their nature, and which, instead of giving forth a cooling draught to the tired and footsore wayfarer, give him water at the boiling point, are more numerous than the electric wells of which I have told you, even exceeding in number the frozen wells, of which mention will be made further on. As a general thing these boiling wells are very deep but cases in which heated water has been struck at a surprising short distance from the surface are not unknown. At Seymour, Ind., on the farm of John M. Heid, a stream of boiling water was struck by workmen engaged in digging a well, when only seven feet from the top of the ground. When the water was caught in vessels and allowed to cool, it deposited a fine sand, in which a local geologist claimed to have found dust from both diamonds and rubies. A well on the premises of Dr. H. Lane, at Portland, Ore., from which water for drinking and cooking purposes had been used for years, in February, 1888, took a turn at giving water which, in the doctor's language, was "a thousand times hotter than boiling." At Ritzville, Wash., there is located a "hot" well, which cannot be said to be a boiling well, because there is nothing in it, except air, to boil. In sinking the well an immense underground cavity was penetrated, which, as soon as the drill was withdrawn, belched forth volumes of hot air equal to a volcanic eruption. Everything is withered within ten feet of the hole and the thickest skinned person cannot bear to pass his hand over the opening. FROZEN WELLS. Frozen wells are almost as numerous and the phenomena they present almost as inexplicable as that of the boiling wells. The most noted of these, perhaps, is the famous frozen well of Yakutsk, Siberia. The natives of that region declared to a member of the Russian academy, early in the present century, that on digging for water in the vicinity of the town mentioned they had never been able to sink through the frozen soil. Investigations proved the truth of this statement, whereupon the academy decided to dig a well to satisfy their curiosity. Work on the well was begun in 1828, and continued at intervals for the next sixteen years, when it was abandoned after a depth of 382 feet had been reached, every inch of which was through frozen ground. Brandon, Vt., has a rare curiosity in the shape of an ice well, which was dug in November, 1838. The first fourteen feet of this well was a mixture of clay and gravel, then a deposit of twelve feet of hard frozen material of the same kind. At thirty-five feet was left as finished. Since that time, summer and winter the same, the well has had two feet of solidly frozen water at the bottom and walls coated with the same material.—John W. Wright in St. Louis Republic.

AN UNEXPECTED DEATH.

BANGOR, Me., June 15.—Hon. Francis Hill, of Exeter, the democratic candidate for governor, died very unexpectedly at his home this morning. Death resulted from acute bronchitis.

CHICAGO MARKETS.

CHICAGO, June 14.—The leading wheat futures ranged as follows: BREADSTUFFS.

Table with 4 columns: No., Date, High, Low, Closing. Rows for No. 2 June, July, Aug.

Cash quotations were as follows: Flour, quiet and unchanged. No. 3 spring wheat, 87 1/2c; No. 2 spring wheat, 76 1/2c; No. 2 red, 87 1/2c; No. 2 corn, 34 1/2c; @ 34 1/2c.

BOSTON, June 14.—Allouez Mining company (new) 87 1/2c; Atlantic, 23 3/8c; Boston & Montana, 85c; Calumet & Hecla, \$319.00; Catskill, 84 1/2c; Franklin, \$21.75; Huron, \$5.25; Keonarcago, \$29.25; Ocoee, \$47.25; Pewabic, (new) \$—; Quincy, \$128.00; Santa Fe, 50c; Tamarack, \$212.00; Centennial, \$29.90.

LOOKS A LITTLE FISHY.

Dr. Hoens, of Milwaukee, Explains a Suspicious Affair Very Unsatisfactorily.

MILWAUKEE, June 15.—At 2 o'clock this morning the patrolman on Upper Fond du Lac avenue, on the west side, was approached by one Dr. Andrew J. Hoens, whose office is in that vicinity, and requested to at once accompany the doctor to his office. Arriving there the officer found the dead body of Annie Uebelacher, a very pretty German girl, aged 20 years, sitting upright in a chair. The doctor stated that she came to his office about 10 o'clock last evening, and while trying to tell him her symptoms, suddenly ceased speaking and fainted away. He said he worked over her two hours and finally decided she was dead, and giving up all attempt to resuscitate his patient, he went to bed and slept until 3 o'clock with the corpse sitting in the chair near the bed, awaiting the doctor, who he thought it best to call an officer. He stated that the girl was an entire stranger to him. The body was taken to the morgue where it was identified by the girl's parents. It was also learned that the girl was in an advanced state of pregnancy, and also that she had been in the employ of Dr. Andrew J. Hoens for several months. Upon learning these facts the doctor, who is considered by some to be quack, was promptly jailed to await the result of the inquest.

EXPERTS NOT NOW SURE.

Their Testimony at Baker's Trial Much Weaker Than at Perrin's.

ASHLAND, June 14.—The Baker bank robbery trial is taking about the same course as the Perrin trial took, with the exception of the testimony of government experts, brought here to identify certain money taken from Baker at the time of his arrest. Both witnesses were on the stand to-day, but could not make clear that the money found was the same as that forwarded from Washington. On a certain date last October \$50,000 was forwarded from Washington to a Chicago bank, and it was supposed \$40,000 of for the mine company at Hurley, but as to its being in part identical with the money Baker delivered over when confronted by detectives they could not swear positively, only supposed it was the same. At the Perrin trial they were positive as to their being the identical treasury notes.

ROYAL BAKING POWDER.

A cream of tartar baking powder. Highest of all in leavening strength.—U. S. Government Report, Aug. 17, 1889.

Does it hurt the Clothes?

We hear that some woman said of Pearlina—"It's the greatest thing I ever saw for easy washing and cleaning, in fact it does so much I'm afraid of it." She recalls the old saying, "too good to be true."

How absurd to suppose that the universal popularity of Pearlina is due to anything but wonderful merit.

How absurd to suppose that millions of women would use PEARLINE year after year if it hurt the hands or clothing.

How absurd to suppose that any sane man would risk a fortune in advertising an article which would not stand the most severe (and women are critical) tests.

That's just what PEARLINE will stand—test it for easy work—quality of work—for saving time and labor—wear and tear—economy—test it any way you will—but test it. You'll find PEARLINE irresistible.

Beware Peddlers and some unscrupulous grocers are offering imitations which they claim to be Pearlina, or "the same as Pearlina." IT'S FALSE—they are not, and besides are dangerous. Manufactured only by JAMES PYLE, New York.

Notice to Contractors. In pursuance of a resolution passed by the Common Council of the city of Marquette on the 17th day of June, 1890, for the construction of a sewer in Michigan street from the eastern end of the sewer pipe already laid in said street, in a direct line with said pipe already laid, eastward to the brow of the hill, thence in a direct line to the manhole in the trunk sewer at the center of Michigan street.

Sealed proposals for the construction of said sewer will be received by the recorder up to the 17th day of June, 1890, at 5 o'clock p. m. Said sewer is to be constructed of 12-inch pipe with 6-inch Ys, and must be laid in accordance with the grade heretofore established and therefor, and in all other respects said sewer must be constructed in full accordance with the plans and specifications of the Paris Sewer System. Bonds for the faithful performance of the work and for all material and labor claims must accompany each bid. The council reserves the right to reject any and all bids. THOMAS MEADS, Recorder. Dated June 6, 1890. 6-11tf

The store has a primer on Corsets for you. CHICAGO CORSET CO., Chicago and New York.

For Sale by LOUIS GRABOWER, Marquette, Mich.

AN OPEN LETTER

From a Well-known Druggist—"Positive Cure for Stomach Troubles." TO WHOM IT MAY CONCERN: In the summer of 1870 I was first afflicted with that most dreaded disease, dyspepsia, and for over fifteen years I suffered terribly at times. In the meantime I tried every so-called remedy imaginable, without finding relief. Having been in the drug business since 1868, I determined to help myself if I lay in the power of medicine. Two years ago I succeeded in discovering a remedy, it cured me. Until I had given ample time for possibility of doubt, however, I kept my secret almost to myself, putting up the medicine for only a few of my sorely troubled friends, every one of whom was cured. I now know the medicine to be a positive cure, and have decided to put it on the market, that my discovery may do humanity all possible good. It will be known as "Brusk's Positive Dyspepsia, Liver and Kidney Cure," which is guaranteed to cure all ailments of the stomach, liver and kidneys. I have a number of testimonials which attested parties are interested in.

CHAS. A. COYE, Manufacturer of Awning, Tents, Flags, Banners, Horse, Wagon, Machine and Stage COVERS, SEAT SHADES Hammocks, Hammock Supports and Chairs, Hot Beds, Camp Chairs, etc. Send for Illustrated Catalogue.

CHAS. A. COYE, 11 Pearl Street, Grand Rapids, Mich. (2-17-78-00)

HOTEL DUQUETTE, Lake Linden, Mich.

FRED. SARGENT, Manager. (2-12-17)

Moving.

A petition addressed to the proper postal authorities was circulated yesterday asking for the establishment of a daily mail from Chicago to Champion, over the Milwaukee & Northern route and that proper steps be taken to secure an additional mail train over the South Shore line to connect with the Milwaukee & Northern train arriving at Champion at 8 A. M. The petition was signed by every business man to whom it was presented for signature and will be circulated for a few days more before it is sent to Washington. The credit for taking the initiative in this important matter is due to the Ishpeming National Bank.

Will the people of Marquette, Negaunee, Champion, Republic, Michigamme, L'Anse, Baraga, Houghton, Hancock, Calumet and Red Jacket, Lake Linden and the other smaller towns of the iron and copper district and the homestead country, reached by the South Shore line, unite in asking for this change? It is a very simple matter for some one to write the heading of a petition asking for the establishment of such a through mail service and takes but little time to secure the signatures of the business men. It is of very great importance that it be secured, as it means a saving of a day's time in receiving and in answering mail. If all of the towns of the district that would be benefited, unite in petitioning for the change, it will be but a short time before their wishes are complied with.

The Korten Mine.

The Korten Gold and Silver company has been organized nearly two years, but until recently work has not been prosecuted as actively as the prospects of the mine would warrant. Recently the control of the property has passed into the hands of Ishpeming men, and work has been resumed.

The property of the company comprises the northwest quarter of the southwest quarter of section 25, township 48 north, range 27 west. The vein of quartz on which the work has been done has been traced for some distance across the forty-acre tract, and is a strong body of ore. It is well mineralized, and the slates found lying next to the quartz are also rich in gold and silver. Assays showing large amounts of gold to the ton have been made. A piece of quartz taken from the bottom of the shaft, which is now down 25 feet, was shown to the MINING JOURNAL man a few days ago. It is highly mineralized, carrying gray and green copper ores, and some galena, also free gold in small pieces. With a showing such as the company now has, the pushing of exploratory work is justified, and the present management has sent men, powder and supplies to the property, with the intention of pushing work there.

The Korten is the furthestmost east of any prospect of value of the Ishpeming range, and the strong showing made there goes to prove the length and strength of the gold-bearing strata of this section.

More Ground to Build on.

The lack of houses has been a fruitful source of complaint here for many years past, and as time goes by, the volume of grumbling over this lack grows greater, notwithstanding the great activity displayed in building. The complaint that there are not enough houses is met with the answer that there is not enough land to build them on, as the companies keep a pretty tight hold on their land. It is therefore gratifying to learn that more land is to be placed on the market this season. The Cleveland company has platted an addition near the ball grounds which will be leased, and will plat another addition next spring, if needed. The Lake Superior company has decided to deviate from its time-honored policy of selling no land, and is now plating some ground near the old cemetery. The management of the company is also contemplating the advisability of selling a narrow strip of ground on the south side of division street. The ground, if sold, will be in lots 100 feet deep, and fronting on Division and intersecting streets.

Division street is already a thoroughfare having a very considerable number of business houses. The sale of lots fronting on it will result in building it up rapidly. None of the buildings on the southern side of the street east of the intersection of Main street can be remodelled into business buildings, and as a necessary consequence the lots sold will soon be covered with solid brick and stone stores, making business property on that street more valuable than ever before, and drawing to that thoroughfare a good share of the retail business of the city.

ISHPEMING IN BRIEF.

Fair weather. Ishpeming red men went to Negaunee Saturday, and had a good time. The number of small craft on Lake Hancock is much greater this season than last. The celebration of St. John's day Tuesday of next week by the French Canadian societies of this and neighboring cities will be concluded with a grand ball at Austin's hall in the evening. The new steam shovel of the Cleveland company is at work, and accomplishing great things in the way of loading cars rapidly and economically. Steam power is mightier than the laborer's muscle, and it is well for the laborer that this is so, though

he cannot always see it when he is displaced by a machine.

In the list of officers installed a week ago in Sir Humphrey Davy lodge of the Sons of St. George. The names of Frank B. Wasley, worthy treasurer, and William Andrews, representative to the grand lodge, were accidentally omitted.

The German Society "Eintracht" will give a ball on the evening of July Fourth. The last ball of the society proved a great success, as the one on Independence day doubtless will.

The pennant that is to be given the club winning the championship of the Upper Peninsula league has been received by the donors, Messrs. Bohn Brothers. It will be on the grounds next Friday, where all can see it, and admire its beauty.

A jolly camping party left the city for the Escanaba river Saturday and will return this evening. Mr. and Mrs. Jno. S. Olson, Mr. and Mrs. Otto Eger, Mr. and Mrs. H. E. Bohn, and Mr. and Mrs. Jno. S. Mennie are of the party.

The latest addition to the registered tonnage of the lake is a side-wheeler, built and owned by Commodore Davis. The little boat is something of a curiosity, but makes good time in the water.

Why not drop a few words out of the official name of the league? "The Upper Peninsula Base Ball League" would sound much better than "The Upper Peninsula Amateur Base Ball League," especially as five sixths of the players in the league are now professionals.

Kicks about the quality of the city water have been numerous for the past few days. The water has been rotten and the kicks justifiable. In a few days, however, the new pump will be put at work at section 16, and there will no longer be any necessity of pumping dirty Lake Angeline water into city mains.

The Iron Ore announces that "the street commissioner has been ordered by the common council to collect one dollar from every man in the city who is not exempt by law. The amount to be so collected will be expended upon the streets." This is right. In previous years the only poll tax collected has been from the men working for the various mining companies, and this has been collected through the offices of the companies. If a poll tax is to be collected, levy it on all, and not on the men at the mines only. If the poll tax is collected as it should be, over two thousand dollars will be put in the city treasury to the credit of the highway fund.

A Card.

TO THE PUBLIC:—The petition addressed to me, and signed by the leading business firms of the city, asking for the establishment of a through mail service between Chicago and Ishpeming via Champion, has been referred to the Division superintendent at St. Paul, and presery and favorable action on it has been urged. I shall make it my pleasure as well as my duty to keep thoroughly posted regarding the mail service in this section, and shall be pleased to make suggestions from time to time regarding matters where better mail service can be secured for the Ishpeming office, if asked for the business men here.

Respectfully, GEORGE TUCKER, P. M. Ishpeming, June 14, 1890.

A man who has practiced medicine for 40 years, ought to know salt from sugar; read what he says: TOLEDO, O., Jan. 10, 1887.

Messrs. F. J. Cheney & Co.—Gentlemen: I have been in the general practice of medicine for most 40 years, and would like that in all my practice and experience have never seen a preparation that I could prescribe with as much confidence of success as Dr. King's Cathartic Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of Catarrh that it would not cure, if they would take it according to directions.

Yours Truly, L. L. GORSUCH, M. D. Office, 315 Summit St. We will give \$100 for any case that can not be cured with Hall's Cathartic Cure. Taken internally. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, 75c.

A SAFE INVESTMENT

Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from our advertised druggist a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to bring relief in every case, when used for any affection of the lungs or chest, such as consumption, inflammation of lungs, bronchitis, asthma, whooping cough, croup, etc. It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon.

Trial bottles free at H. H. Stafford & Son's druggists.

100 Ladies Wanted.

And 100 men to call on any druggist for a free trial package of Lane's Family Medicine, the great root and herb remedy discovered by Dr. Silas Lane while in the Rocky Mountains. For diseases of the Blood, Liver and Kidneys it is a positive cure. For constipation and clearing up of the complexion it does wonders. It is the best spring medicine known. Large-size packages, 50 cents. At all druggists'.

BUCKLEN'S ARNICA SALVE.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price, 25 cents per box. For sale by H. H. Stafford & Son.

Many Witnesses.

100,000 witnesses testify to the virtues of Dr. Tuttt's Pills. Wherever Chills and Fever, Bilious Diseases or Liver Affections prevail, they have proven a great blessing. Readers, a single trial will convince you that this is no ordinary remedy. Twenty years test has established their merits all over the world.

Gains Fifteen Pounds.

"I have been using Tuttt's Pills for Dyspepsia, and find them the best remedy I ever tried. Up to that time everything I ate disagreed with me. I can now digest any kind of food; never have a headache, and have gained fifteen pounds of solid flesh." W. C. SCHULTZ, Columbus, S. C.

Tutt's Liver Pills GIVE STRENGTH AND HARD MUSCLE.

FOR MEN ONLY!

POSITIVE FOR LOSS OF FAILING WARRIOR. CURE Weakness of Body and Mind; Effects of Excess of Errors or Excesses in Old or Young; Debility; Nervous Prostration; Headache; Dizziness; Weak, UNDEVELOPED ORGANS; PALENESS OF FACE; UNCLE TOM'S CABBAGE; BRUISES; BURNS; SORES; AND ALL AFFECTIONS OF THE SKIN. Sent by mail, 47 cents. For a Free Trial, send 3 cents. Sold by all druggists. Address: ERIC MEDICAL CO., BUFFALO, N. Y.

COPPER STILL LEADS.

Ishpeming Captures But One of the Series With the Copper Country Lads—Further Details of Friday's and Saturday's Games. Joseph Bosch Sues the Hancock Copper Journal for Libel—Personal and Miscellaneous Notes.

HOUGHTON. Two thousand people witnessed a close and exciting game between the Ishpeming and Houghton teams yesterday afternoon. The contest resulted in favor of Houghton by a score of 12 to 9, and all the ball cranks are happy.

Stenographer Goodale left for Bessemer Sunday morning. Judge Stone left for the iron country yesterday.

Mr. and Mrs. J. R. Cooper left Sunday morning for the east.

HANCOCK.

One of the best games of base ball played in the Hancock Driving park was the league game played Saturday afternoon between the Ishpeming and the Hancock. Both teams "played ball" strictly. There was no wrangling or quarrelling with any member of the teams and with the exception of Marshal Lee ordering Attorney Eldredge of Ishpeming off the ground, when he stepped up to the umpire to ask him what decision had been made so that he might score it right, not an unpleasant word was heard on the ground. Both teams played extremely well, the weather was particularly fine, the grounds in good condition and all present were enthusiastic and in good spirits when the game closed with a score of 5 to 2 in favor of the home team. The game was umpired by Richard Mitchell in an excellent manner, neither team making any objections to any of his rulings. Score by innings:

Hancock... 3 0 2 0 0 0 0 0 5— Ishpeming... 0 0 1 0 1 0 0 0 2

Room 2 of the Franklin school was place of much interest Friday afternoon for an appropriate program of recitations, dialogues, readings, etc., a spelling match was engaged in for a prize of a five-dollar gold piece by the teacher, R. D. Jones. The scholars spelled for one hour and a half. Willie Rice won the prize. The judges were Rev. Mr. Walker, Miss L. Tren and Mr. W. Walker, Jr. Mr. Jones has resigned his position as teacher and intends next fall to enter the dental college of the Michigan University.

James Jones and son, R. D. Jones, leave this morning for a trip through Minnesota. They expect to be gone about three weeks.

RED JACKET.

Friday afternoon's league game of base ball between the Ishpeming and Calumet was a walkaway for the iron country boys, which, of course, was a disappointment for the friends of the home team, as a victorious trip of the Calumet club through the iron country would be believed they could easily hold the visitors down on their own grounds. The Calumets played an indifferent game, especially Neil Gilby, third base, who muffed about a half dozen balls, which were costly errors for his side. In the seventh inning the game stood 7 to 8 in favor of the visitors, and the friends of the home team confidently expected they would make a score. Instead of that they have allowed the Ishpeming to score seven runs in the ninth. Time of game, 2 hours, 5 minutes; umpires, Mitchell and Bailey; score by innings: Calumet... 4 2 0 0 2 0 3 7—18 Ishpeming... 0 0 0 4 0 0 3 0 7

LAKE LINDEN.

Dr. West leaves for Detroit and Monroe tomorrow morning. He will be gone about two weeks. His mother will return with him.

The 600,000 feet of logs which broke out from the Trap Rock river boom have all been picked up by the Michigan and put in the boom again at the head of the bay.

The schooner Ben Brink discharged 305,000 brick at the Calumet & Hecla company's dock.

A telegram received here informed the friends of James Collie, who went to Canada last week, that his brother there, editor of the Galt Reformer, died soon after his arrival.

Mr. Joseph Bosch has entered suit against the Michigan Copper Journal for a libelous item which appeared in its Lake Linden correspondence last week.

Dr. De Laval is attending Dr. Goings' Groverton practice during the latter's absence in Canada.

The residence of George Smith was destroyed by fire Saturday night.

CALLMEY.

General Manager Whitney, of the Calumet & Hecla, left Sunday morning for Boston and will be gone about two weeks.

SOUTH LAKE LINDEN.

The new jail was christened last week by locking up a disorderly sailor. He was kept in overnight, in the morning the officials opened the door, donated a quarter cent to the officer and gave him five minutes to skip out of the village limits.

Peter Amelle rejoices over the arrival of a baby daughter.

Mr. and Mrs. William Hedge received a telegram Friday afternoon informing them of the death of their son Charles, he having been killed on a logging road near Marquette, Mich. Estimates furnished on all kinds of building material.

FOR HIGHER EDUCATION

High School Students to be Admitted to University on Certificates and Without Examination.

VICE-PRESIDENT F. N. FINNEY INSPECTS SOUTH SHORE LINE.

John McTaggart's Fatal Fall—Circuit Court Opens To-day—Base Ball Schedule Lengthened—City News.

High School and State University. President Angell of the University of Michigan has appointed Mr. V. B. Cochran of this city and Judge Grant to examine the work of the Marquette high school and report whether it is of a grade sufficient to admit its graduates to the university on diploma and without examination. This system is pursued by the university authorities with high schools and preparatory academies generally throughout the country. Pupils from the schools whose work is up to the required standard are admitted directly to the Freshman class at the University without further examination and on their diplomas alone. There is no doubt that the Marquette high school will be found of sufficiently high grade to admit its scholars to the advantages of a part if not all courses in the University. This will be the only school in the upper peninsula coming up to such standard.

Inspecting the Line. Mr. F. N. Finney, the new president of the Soo Line, passed through the city Saturday in company with General Manager Fitch on a tour of inspection of the South Shore. Mr. Finney is vice-president of the South Shore road, having been elected to that position some few weeks since. The vast affairs of the Canadian Pacific demanded all of Mr. Van Horn's time and attention, so he retired from the vice-presidency of the South Shore in Mr. Finney's favor. Mr. Finney was for years prominently identified with the Wisconsin Central, of which road he was for some time general manager. About three years ago he retired from that position and spent some time in Europe for the benefit of his health. He is reported to have acquired a comfortable fortune and still to possess large interests in the Wisconsin Central and allied enterprises.

A Fatal Fall. John McTaggart, aged 23, a watchman on the steamer Iron Age, was killed early yesterday morning by falling through a hatch into the vessel's hold. The boat was loading ore at No. 1 dock at the time. McTaggart's neck was broken by the fall and death was instant. His body was taken to Hager & Johnson's undertaking rooms and prepared for shipment to his home in Wyandotte, near Detroit, leaving on the afternoon train.

Circuit Court To-day. The June term of the circuit court opens to-day and after the usual custom criminal business will probably be taken up first. The most important case pending is that of Anthony Downer, charged with assault with intent to kill. There are quite a number of smaller cases, thefts chiefly. The civil docket is not very large and unless unexpected complications arise the term will probably be a short one.

Schedule Somewhat Extended. The meeting of the Upper Peninsula league held in Houghton Saturday resulted in the extension of the schedule from ninety to one hundred and twenty games, each team playing five more on its home grounds and five more abroad. The meeting was called at the request of Houghton with the avowed intention of doubling the schedule but for some unaccountable reason that club went back on its own often expressed wishes and voted against the proposition. An effort was also made to repeal the ten-day rule, which has grown useless, but without success, the copper country representatives voting against it.

The Milwaukee & Northern Sale. The report of the intended purchase of the Milwaukee & Northern by the Wisconsin Central, now said to be a certainty, has been the chief topic among railroad men for the past week. By this purchase the Wisconsin Central gains a fine and paying property, running direct from Milwaukee into the heart of the upper peninsula. It also will be enabled to get considerably closer to Milwaukee than before over its own tracks. If railway gossip about Chicago and Milwaukee amounts to anything the Wisconsin Central will now probably put into effect its long contemplated project of building a direct line between those two cities. By this acquisition of the Milwaukee & Northern the Wisconsin Central also becomes a more promiscuous in the ore traffic. The Schlesinger syndicate road from Escanaba to Iron Mountain is said to be backed by the Milwaukee & Northern and predictions are not lacking that the latter line will be extended on up the Menominee range to compete for that business with the Chicago & Northwestern. The Milwaukee & Northern was originally a Milwaukee enterprise, constructed to prevent the trade of the towns around Green Bay and Lake Winnebago from being diverted to Chicago. The Wisconsin Central held a

lease of the road for some years prior to 1879, but was compelled to let go of it by financial difficulties. The Milwaukee & Northern is one of the best constructed and equipped roads in the country, and since 1886 has paid dividends of 4 and 5 per cent to its shareholders.

Improvements in the Nester Addition. Now that the title to the property has been cleared up and made perfect lots in the Nester addition are selling quite rapidly. The agent for the property, M. E. Asire, sold sixteen lots last week, nearly all of which went to persons intending to build. George W. Hager is building two good houses which he will sell or rent. The proprietors of the tract have laid out several manufacturing sites on the Dead River Railroad tracks and will give warranty deeds for them to any manufacturer who will locate here. Mr. Asire is already in correspondence with several manufacturers and the probabilities are that ere long the industries of Marquette will receive some substantial additions. These lots are among the finest in the city in point of location and it is the desire of the owners to sell only to persons who will erect good and handsome houses. The offer of the free manufacturing sites is a most commendable piece of enterprise on the part of Messrs. Nester and Connelly and enables Mr. Asire, as secretary of the board of trade, to hold out inducements to manufacturers seeking locations which he was unable to make before.

Will Marquette Win? Houghton plays here to-day and Marquette will try to retrieve its lost laurels. It is reported that Houghton's star pitcher, Augustine, has skipped to Chicago. If he has not he will probably appear here to-day. The following will be the batting order and positions of the Marquette players: Cross, ss.; Scott, 3b.; Craft, 2b.; Shols, p.; Sullivan, cf.; Allard, lb.; Welch, c.; Carney, lf.; Crout, rf. Game will be called at 3:15 o'clock.

The Marquette team has some good batters, fielders, base-runners and catchers but has been afflicted with incompetent pitchers and general hard luck. Jones never was any account and while Crout and Laughna have made good records elsewhere they seem to be able to do nothing here. Wilder, Lansing's crack pitcher has been signed. The management is on the lookout for more good men and promises to put up much better ball before long. It should be remembered that the team has thirty-seven games still to play and so there is no use in getting discouraged.

Standing of the Teams. The standing of the various teams of the Upper Peninsula league is to-day as follows:

Teams	Played	Won	Lost	Percent
Calumet	5	4	1	800
Houghton	4	3	1	750
Hancock	3	2	1	667
Ishpeming	7	3	4	429
Negaunee	6	2	4	333
Marquette	3	0	3	000

The relative positions of the teams have not changed in the past week though the victories of Houghton and Hancock have drawn them dangerously close to Calumet and the two defeats of Ishpeming have left a perceptible gap between the towns of the copper and the iron countries. Ishpeming has fallen back somewhat and Negaunee has advanced. Marquette still keeps a firm hold on the tail end but it is to be hoped that she will soon break the spell.

Don't forget Gordon's D. F. cigars when you want a good smoke.

Wanted. Every lady in Marquette to buy dress goods of Grabower. The largest and finest goods shown. Prices always the lowest. (5-5-14)
