FREE COINAGE DEFEATED.

House Refuses to Adopt the Senate Section of Silver Bill Providing for Free Coinage.

SHERMAN AND EDMUNDS SPOIL CALL'S ATTEMPT TO MAKE A SPEECH.

Ingalls and Call Have Another Lively Set-to. Vest Opposes the Admission of Wy- oming to the Union.

THE HOUSE.

WASHINGTON, June 25.—The silver bill was called up in the house at 3 o'clock this afternoon. Mr. Bland moved that the house concur in the senate amendment. Mr. Springer moved that separate votes be had on each section. The first vote taken was on a proposition to concur in the first section of the senate bill providing for free coinage of silver, the coins to be full legal tender, in place of the first section of the house bill, providing for the coinage of four million five hundred thousand dollars worth of silver per month. Mr. Springer's motion to concur in the substitute proposed by the senate to the first section of the house bill was defeated. Yeas 135, nays 132, twenty-one republicans voting aye and nineteen democrats voting nay. This amendment provides for the free coinage of silver.

THE SENATE.

WASHINGTON, June 25.—The senate bill to prevent the transportation in bond of merchandise between the United States and Mexico and to restore that right whenever the Zona Libera is abolished was reported adversely. Mr. Call rose to address the senate on the subject of resolutions heretofore offered by him, one authorizing the president to open negotiations with the Spanish government for the purpose of inducing that government to consent to the establishment of a free and independent republic on the island of Cuba, and the other in relation to the German ownership of a large proportion of the bonded debt of Cuba.

When the clerk was reading the second resolution, Mr. Sherman rose and moved that the doors be closed. Mr. Edmunds seconded the motion and the vice-president directed the galleries to be cleared and the doors to be closed. Mr. Call being thus unexpectedly cut off in his desire to make a speech before the public said that he would withdraw the resolution, but the order to close the doors was insisted on by Messrs. Sherman and Edmunds and was carried into execution.

The doors were re-opened at 1:30 and the senate then took up the house bill for the admission of Wyoming into the union as a state. The bill was laid aside temporarily and Mr. Ingalls offered a resolution instructing the committee on privileges and elections to inquire into the publication in the Congressional Record to-day of a personal explanation by Mr. Call and to report whether it is in accordance with the rules, regulations and practice of the senate; and directing that such personal explanation be withheld from the permanent edition of the Record until further order of the senate.

Mr. Call said that he did not think that the resolution should be adopted. There was no possible ground or reason for it and no excuse for it. He had asked leave of the senate on the second of June last to print extracts in the Record in vindication of his career in the senate, in response to a pamphlet attacking him and that was all that he had done to-day. The libel to which he had been replying had contained a statement of bills which he had introduced in the senate, and which had not become laws. At his leisure he had prepared a statement in his own vindication and had submitted it to a member of the committee on printing (Mr. Gorman) on whose judgment he relied, and who had informed him that there was no impropriety whatever in having it published. That was the whole statement of the case; and where, he asked, was there any breach of privilege in it.

Mr. Ingalls.—The senator from Florida has, in my judgment, not only grossly violated and abused the privileges of the senate, but has deliberately falsified the record of what occurred the day when the transaction took place.

Mr. Butler.—I call the senator from Kansas to order.

Mr. Ingalls.—I withdraw that observation.

Mr. Butler.—Is it parliamentary, Mr. President, for a senator to get up and denounce another senator on this floor of having been guilty of an infamous crime?

Mr. Ingalls.—I withdraw the observation and say that the senator from Florida changed the record. So far as that is a modification or change, I make it.

Mr. Call retorted, saying: "How small the man, how bitter the malice, how mean the character, that could find in such circumstances the willingness to accuse another senator of falsifying the records!" He went on to say, "I shall demand of him that he show the courage of a man, and not the cowardice of a slanderer."

Mr. Cullom called for the regular order of business. The resolution, therefore, went over without action, and the senate proceeded with the bill for the admission of Wyoming, as asked.

Mr. Vest opposed the bill. He knew that in the past states had been admitted, with small populations, because of some sectional or party exigency. But there was no such exigency existing now. The republican party had a ma-

majority of eight in the senate to-day. If it was possible at any time to appeal to the deliberate, calm and non-partisan judgment of the senate, it should be possible at this time; and yet he distrusted the effect of any such appeal. He referred to Wyoming as having a population of not over 60,000, scattered over an immense area of 97,000 square miles. But as they have woman suffrage in Wyoming, at least one-third of the voters are women, which would leave 12,000 male voters.

Mr. Vest went on to say that he would not vote for the admission of Wyoming with its present constitution permitting woman suffrage. Another objection which Mr. Vest made to the constitution of Wyoming was that it gave the right of holding property to aliens.

Mr. Vest said that the reports of the signal officers showed the day was rather a pleasant one when the election of 1888 was held in Wyoming, and yet there was a falling off of 1,000 votes, which showed an entire lack of interest in the subject of admission.

Mr. Edmunds.—The signal office is generally and uniformly wrong; as, for instance, we were told yesterday that there would be fearful thunderstorm showers in this town. So I am inclined to think that the committee is right, and that the signal office as usual, was wrong.

Mr. Vest—I confess that there is some uncertainty about weather as well as about politics. A good many prophecies were made about the time of the last presidential election that have not turned out true.

Mr. Edmunds—Yes; you prophesied evil and good has come.

Mr. Vest—As to whether good has come or not I am willing to take the verdict of the republican party itself, and if the degree of sublime satisfaction in this chamber be any indication, there has been great disappointment as to the political weather.

Mr. Platt said that Wyoming had as good a right to admission as a state as any territory that was ever admitted in the whole history of the country. He was surprised that gentlemen devoted to "home rule" should not be willing to allow a territory to decide the question of woman suffrage for itself. He believed that the population of Wyoming was nearer 125,000 than 100,000. In conclusion Mr. Platt spoke of the great resources of Wyoming and said that with irrigation it could support ten million people. It had a soil as fertile as the Nile valley. All that was wanted was to have water turned onto it. It had more coal under it than Pennsylvania ever had—and of an excellent quality—and more being developed. But it had, above all, a true manhood that was ready to grapple with all problems to develop all its resources and to add not only to its wealth but to the wealth of the republic.

At the close of Mr. Platt's remarks he made an effort to have the vote taken on the bill, but Mr. Vest objected and moved an adjournment, and the senate adjourned.

STILL DIGGING AWAY.

Rescuing Party at Dunbar Nowhere Near The DUNBAR, Pa., June 25.—Still digging away are the miners who are trying to reach their imprisoned comrades. They are 510 feet below the hill and nearly one mile from the mouth of the pit. They are still working and are steadily approaching the part so long aimed for. The "gob," in which the men are working is of the hardest kind. As Secretary Watchie expressed it it could not be more solid if some ponderous machinery had been used to pound and crush it together. When the men will be reached is still a question on which every one is at sea; it may be to-morrow and it may be Saturday. No one knows what is ahead of the party. Everything has been against them. Nothing but the strongest nerves, the brainiest muscles could have put them where they now are, but they are right where they expected to be and will continue until they reach the end.

They Resolved.

CHICAGO, June 25.—The directors of the Chicago board of trade to-day adopted a resolution impressing upon congress the necessity of an early completion of the system of improvements recommended by the Mississippi commission and the United States corps of engineers. The resolution declares that the unobstructed navigation of the Mississippi is a matter of national interest, and that the improvement as an influenza regulating freight rates is of especial importance to producers in the western and northwestern states.

California Stage Robbed.

CALISTOGA, Cal., June 25.—On the Calistoga road, about nine miles from Calistoga, to-day, three men robbed the stage, mistaking it for the stage carrying the express and mail. There were nine passengers in the stage from Bire. The robbers took \$245, two gold watches and from the driver they secured eight dollars. The robbers dropped one hundred and fifty dollars in greenbacks, which was subsequently picked up by a teamster.

Amalgamated Association Adjourns.

PITTSBURGH, Pa., June 25.—The convention of the Amalgamated Association of Iron and Steel Workers finished up its work this afternoon and adjourned finally after a session of three weeks. The only business done to-day was the election of officers and the selection of a place for the next annual meeting.

Forecast of the Weather.

WASHINGTON, D. C., June 25.—S. P. Z.—The signal service reports the following as its forecast for the next twenty-four hours: For Michigan and Wisconsin: Fair, followed by showers in western portion; continued high temperature, except cooler in northern portion; southerly winds.

Below Previous Estimates.

CINCINNATI, June 25.—With twelve precincts estimated, the census shows Cincinnati's population to be 280,986. This is ten to twenty thousand below previous estimates.

IS IT DELAMETER?

Pennsylvania State Republican Con- vention Called to Order.

Supporters of the Two Leading Candidates Crowd the Hall—The Platform Endorses Harrison and the Tariff Bill.

HARRISBURG, Pa., June 25.—Although the republican state convention was called at 10 o'clock this morning the crowds began to gather at 8 o'clock. By 9 o'clock, when the doors were opened, there were 2,000 people in front of the hall. No more than three out of every ten had tickets, although all expected to get inside. There was a rush for the doors when they were opened and it took all of the Harrisburg police force to keep the enthusiastic Hastings and Delameter adherents from breaking in the doors. There was some squabbling over contesting delegations but the chairman's rulings were so manifestly fair that everything went smoothly.

At half past two the committee was called to order. After an hour's recess, the committee on resolutions reported the platform. It endorses the tariff bill called the McKinley bill in the form in which it was passed by the house and denounces the criticism passed upon that bill in the English parliament as an unwarranted interference by a foreign nation with the right of the American people to protect American industries. It urges upon congress the immediate necessity of passing legislation to prevent the importation and sale of oleomargarine and intoxicating liquors to this commonwealth contrary to the acts of the state assembly; and to empower every state to enforce its local laws. It heartily endorses the administration of President Harrison and commends the course of Speaker Reed.

A HEAD-END COLLISION.

Engineer and a Tramp Killed and Ten Cars Piled in The Ditch.

INDIANAPOLIS, June 25.—A Sentinel special from Vincennes says a head-end collision occurred between two Evansville & Terre Haute freight trains at Purcell's station last night. Engineer Towhill and an unknown tramp, who was stealing a ride, were instantly killed. Both engines and ten cars were wrecked. The cause of the accident was a misunderstanding of orders.

A BAD WRECK.

Freight Train on the Rock Island Breaks Into Three Sections and They Collide.

CHICAGO, June 25.—A special from Joliet, Ill., to the Daily News says: A bad wreck took place on the Chicago Rock Island & Pacific railroad about three miles east of here last night which resulted in the death of brakeman Charles Rider, of Chicago. A freight train broke into three sections, the first two sections afterward colliding and piling several cars, doing great damage. The trains passing through here on the road were delayed several hours.

"Uncle Remus" Son Missing.

WASHINGTON, June 25.—William Harris, a son of Joel Chandler Harris ("Uncle Remus"), of the Atlanta Constitution, is missing, and his father and friends are very anxious about him. He left Atlanta Sunday and was to have arrived here Monday morning to spend several days, before proceeding to Canada to visit relatives. He failed to appear at the hotel at which he was expected and efforts to find him have thus far proved unsuccessful. Young Harris is 15 years of age.

Mysterious Murder and Suicide.

GROVETON, Tex., June 25.—Great excitement was caused here last night by the suicide of a beautiful young lady, Miss Annie Turner, daughter of Judge John B. Turner, and the excitement was intensified when the father took the pistol from the hands of his dying daughter and killed Prof. Davis. Nothing is known as to the cause of the tragedy. Prof. Davis came here last March from Lake Forest institute, North Carolina, and took charge of the academy. He was a good looking young man.

Fatal Boiler Explosion.

COLCHESTER, Ont., June 25.—The boiler of an engine in use on William Craig's farm, two miles from here, exploded yesterday, instantly killing George Craig and injuring James Quick, the owner of the engine, so that he died. Three others were severely injured. Low water is supposed to have been the cause. An inquest is being held.

Baker's Attorneys Lose Confidence.

ASHLAND, June 25.—The arguments in the Baker case will be finished to-night or to-morrow morning. The defence was handicapped by the assault that disabled Attorney Lennan at a critical point in the trial and does not feel so confident as in the Perrin trial. The jury is not expected to be out long.

Hanlon's Medal Stolen.

TORONTO, June 25.—Edward Hanlon, the oarsman, has reported to the police the theft of the massive gold medal presented to him by Lord Dufferin in honor of his victory over Courtney at Lachine in 1878.

Death of Lieutenant Ellsworth.

VELLEJO, Cal. June 25.—First Lieutenant Henry G. Ellsworth, of the United States marine corps, died at the naval hospital, Mare Island, last night of paralysis. He was appointed from the state of Indiana.

Denver's Population.

DENVER, Col., June 25.—No official announcement has been made by the supervisor of the census, but enough figures have been compiled to warrant the statement that the population of Denver is about 130,000.

MARQUETTE, MICH., JUNE 26

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

It is announced, with every probability of truth, that President Harrison has announced his intention of signing the McKinley bill. But what does he mean by the McKinley bill? Does he mean the bill passed by the lower house or the maimed and mutilated document sent back by the senate?

BISMARCK and Grover Cleveland seem to be enjoying themselves in the cool shades of private life. They announce themselves as infatuated with seclusion and protest against being dragged before the public. It is noticed that they keep talking all the time though.

RICHARD CROKER, the biggest medicine man of Tammany Hall, swears that his great political organization never assessed New York city officeholders to raise campaign funds. It is clear that Croker is a good reliable swearer and not at all disposed to be mealy-mouthed. Tammany won't suffer any from his evidence.

BASE BALL seems to flourish like a green bay-tree up here among the iron and copper mines, but below the national game is in a decidedly unhealthy condition. The International League is just breathing its last. The collapse of the Detroit team was the last blow to an already tottering fabric. Von Der Ahe, the irrepressible St. Louis Dutchman, has gobbled up the best of the Detroit team to strengthen his "Prowns."

The trial of officials of the Michigan Central railroad for alleged violations of the interstate commerce law resulted in acquittal. The natural acuteness and acquired faculty for secrecy of the railroad official is such that the clumsy fingers of the law will seldom catch him, and as the crime is merely one of arbitrary law, involving no moral turpitude, the Michigan Central men will go right off and repeat the process, only with a little more caution, and will comfort their consciences with the further reflection "they all do it."

The dependent pension bill has passed the senate and was discussed with great animation there. There is a wide difference as to the amount of money which will be required to carry out the provisions of the bill. The republicans say that \$40,000,000 a year will be sufficient, while the democrats assert that \$78,000,000 will be too little. Senator Ingalls poses as the most thorough-going friend the soldier ever had. He is quoted as saying that he didn't care whether the extra cost would be a hundred millions or a billion. John James' utterances have the ring of patriotism, of devotion to the interests of the "old soldier" and an inviolable determination to have the Grand Army on his side in his senatorial fight next winter.

THE REGION OF HEALTH.
Cholera is devastating certain districts in Spain and yellow fever is hovering round the southern coast of the United States. There is fear and trembling among boards of health and the spectre of dread epidemic enemies of man haunts many a proud city in the different countries of the world. The citizen of the upper peninsula of Michigan, however, except as gentle pity for suffering mankind touches him, views all these scourges of disease with placid contempt. His home is a very fortress, a Gibraltar of health. The bright pure waters of the lake hedge him round with impregnable bulwarks against the assaults of cholera and yellow fever. The north wind, rough but kindly old Boreas, is ever on the alert to drive back to their southern lairs the insidious bacillus and the prowling microbe. The fine bracing air nerves the upper peninsula man to physical achievement and moral power. Our climatic surroundings eliminate the seeds of vice and nourish virtue into lovely flower and glorious fruitage. The north is the seat of power. We Lake Superior people are as certain to vanquish the languorous dwellers of southern climes in the contests of peace as were the vigorous northerners of the fifth century to overwhelm the effete, luxurious Romans of that time. No doubt but that this is a climate to build man up to the acme of health. The average of human life will in fifty years be found to have advanced here. The years of man will certainly be lengthened out here and this region, in some future century, will duplicate Methuselah. U. P. is a mystic synonym for health and vigor, physically, morally and mentally.

COPPER STOCKS.
We quote from the Engineering and Mining Journal:
Copper stocks continue to be the special feature in this market, and the demand for them for both speculation and investment

is unabated. The better class hold their own as to price, and in some cases record an advance over last week. The purely speculative list has a growing tendency to higher prices, and it is quite evident that the advance in these has only begun.

At the new stock exchange quite a lively business is daily transacted, especially in the fancy copper stocks, which offer great opportunities for making quick turns with but little money. There is a quiet absorbing of the dividend paying stocks, and it is difficult to fill large orders without putting up prices.

Calumet & Hecla touched \$321 this week after selling off 314 1/2 and closed to-day at \$318. The stock is strongly held and very little is offered at present prices. The output last week was 823 tons. With the continued advance in ingot copper and the high price which is liable to be reached for it the present year, it does not seem very much out of the way to predict \$500 for the stock within the next twelve months.

Tamarack sold up to \$27 this week, the highest point reached as yet for this stock. The advance was not maintained, however, selling off to \$29 today. We believe it to be a splendid purchase at these prices and will yield large dividends for the money invested in it.

Boston & Montana sold as high as \$67.50, declining to \$65.50. At present these figures seem to be the top prices, as there is considerable stock ready to come out on every advance. We look, however, to see it sell very much higher during the year 1890.

Butte & Boston sold at \$36.50 early in the week, but has been sold at the low price of \$34.75, declining to \$34.75, without any apparent reason. The improvements going on at the mine, will, it is expected, put the company on a dividend paying basis by October 1st, 1890.

Kearsage opened very active early in the week, and sold at \$26, since which it has declined to \$23 1/2. A well-known copper man says he knows the Kearsage has struck the California conglomerate, and that they are digging pits to ascertain the best locality for sinking the shafts.

Centennial is quite strong at \$39@40, although to-day, under pressure to sell the stock, it declined to \$38. Latest advices from the mine say that the bottom of the shaft is rich and gradually growing richer.

Oscuela touched \$48 1/2, closing at \$46 1/2. The outlook at the mine is very promising; the Opechee end of the mine furnishing very rich rock.

Quincy, after declining to \$125, advanced to \$132 1/2, the highest point yet. The output for May was 425 tons.

Atlantic sold up to \$28, and is very firmly held. Franklin is inclined to be heavy, selling off to \$20 1/2 to-day, the lowest price for the week.

Quite an active demand is noticed for Central, which advanced to \$33, a rise of 8¢ per share for the week.

Among the minor stocks we note an active demand for Arnold, which advanced from \$1.60 to \$2 1/2. Alouez has been quite largely dealt in, at \$7 to \$8, and closes firm at \$7 1/2. Orders are said to come from the lake.

Bonanza steady, at \$11@11.15.

Huron sold at \$6, and \$4 1/2 as the extremes. Considerable stock is offered at about \$6, which prevents an advance beyond that figure.

National has been very dull, at \$3@3 1/2.

Ridge sold at \$2, but declined to \$1 1/2.

Santa Fe continues to rule heavy, and all efforts to advance the price seem to be fruitless. There is too much of it; 500,000 shares is too large a capitalization for any mine, and the sooner it is put upon a lower basis the better. Stock sold at 95 cents, and to-day declined to 80 cents.

The fancy stocks have all been active at improved prices. We note sales of Astec at 25 to 30¢; Dana, 40 to 45¢; Innovor, 52 1/2 to 60¢; Humbolt, 50 to 75¢; Hungarian, 45 to 60¢; Native, 25 to 35¢; Pontiac, 45 to 60¢; So. Side, 30 to 37 1/2¢; Star, 37 1/2 to 40¢; Washington, 40 to 50¢. The silver stocks had their turn this week with an advance in Catalpa from 40¢ to 57¢, and Crescent from 15¢ to 22 1/2¢. Dunkin sold at 60¢ and Breece at 40¢.

A man who has practiced medicine for 40 years, ought to know salt from sugar; read what he says:
TOLEDO, O., Jan., 19, 1887.

Messrs. F. J. Cheney & Co.—Gentlemen:
—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience have never seen a preparation that I could prescribe with as much confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of Catarrh that it would not cure, if it would take it according to directions.

Yours Truly,
L. L. GORSUCH, M. D.
Office, 215 Summit St.
We will give \$100 for any case that can not be cured with Hall's Catarrh Cure. Taken internally.

F. J. CHENEY & CO., Props., Toledo, O.
Sold by druggists, 75c.

CATARRH.
Catarrhal Defiance—Hay Fever—A New Home Treatment.
Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once or twice a week.

N. B.—This treatment is not a snuff or ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent free on receipt of stamp to pay postage, by A. H. Dixon & Son, 337 and 339 West King street, Toronto, Canada.—*Christian Advocate.*

Sufferers from catarrhal troubles should carefully read the above.

MERIT WINS.
We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. H. H. Stafford & Son, Druggists.

KIDNAPING MADE EASY.
Fabled Possibilities to the Use of Two Powerful Anesthetics.

Two powerful drugs, hitherto but little known, are coming into use. In the sense that they may be used to completely destroy, temporarily, the memory and all knowledge of time and place, they may be said to possess vast and dangerous possibilities. Their present use is as anesthetics and the medical profession has been able already to accomplish wonderful and humane results.

"By the use of chloralameda I brought a patient all the way from Chicago, kept him under treatment several days and returned him to a reasonably sound condition," said Dr. W. B. Fletcher, recognized as an authority on diseases of the mind and allied ailments. "My patient had become greatly dissipated. I took into confidence an associate physician, a friend to the patient, and instructed him to administer chloralameda hypodermically and telegraph me. He did so one night when our patient came home stupid. I went to Chicago and found the patient almost in a state of coma. We put one of his legs in a plaster of paris mold and took him, still under the influence of the drug, on board the train. Occasional doses of the drug were administered to keep the patient in the desired condition."

"Had he awakened he would have been furious, and we probably would not have been able to bring him to the sanitarium for treatment. Of course his friends here were party to the arrangement, and fully indorsed the course proposed. We put the patient's leg in plaster for two reasons—to disable him in case he attempted to attack us, and to avoid impairment of interference from passengers and trainmen. A man's leg in plaster, we rightly concluded, would be a sufficient reason for his incapacitated state. It would have been embarrassing to explain that we were genteelly kidnaping a gentleman of wealth."

"Everything prospered. We brought the patient here, treated him several days, and at length allowed him to come out from his deathlike sleep. He had no recollection whatever of anything that had occurred in the interim. The treatment, meantime, had restored him, and he approved of everything when apprised of the tactics we had used."

"Could not this drug be used by design—by persons for harmful purposes?"
"Yes; but it would have to be administered hypodermically, and that would arouse the proposed victim's suspicions. It has a somewhat bitter taste, and unless the victim was already partially drugged he would taste the stuff if administered in drink or food."

"Another more dangerous drug than this, perhaps, is hyoscinium. It is almost tasteless. It might be put into wine and the drinker would not discover its presence. There would be more or less danger to the victim's life if the drug were given by unskilled and desperate persons. I have not believed much in the familiar story that So-and-So has been drugged, but I suppose it would be possible with the use of these drugs to drug even a sound minded person without his consent or knowledge."—*Indianapolis News.*

No Trade.
One of the first principles of economy is never to buy what you can get along without. Whoever has learned this may be said to have started on the road to wealth.

An agent was exhibiting a new fangled wagon jack near the market, and a colored man who was there with his horse and wagon seemed much pleased with it until he found that the price was a dollar.

"Dat settles me," he said, as he climbed into his vehicle.

"But it's worth the money," persisted the agent.

"Ize got a cheaper thing, sah."
"What is it?"
"Why, my ole woman kin hold up de eand of dis wagon while de grease de wheel, an' it don' cost me a cent."—*Youth's Companion.*

A Picky Though Unlucky Man.
Phillips, Me, has a citizen who is not easily to get out of the way or discouraged. While buthing, years ago, he was seized with cramp and nearly drowned. He entered the army and a horse fell on him. After his return he broke his arm and was otherwise severely injured by a log rolling over him. Later, while lumber driving on Dead river, a whole landing of logs came down on him and he was taken out for dead about an hour afterwards. In December, 1889, while hauling lumber near Mount Abram, his leg was broken by the recoil of a stick. Though still obliged to use crutches, he is now pluckily superintending a drive on the south branch of Dead river.—*Exchange.*

"Me Eat 'Em All!"
A jeweler out in Lawrenceburg, O., missed several valuable stones early one morning, and couldn't account for their disappearance, for he had only opened the safe a few moments before. He searched in vain for them, and then, turning to his three year old baby, who had been running about, asked: "Where are those little things?" "Me eat 'em all," was the baby's answer. A physician was at once summoned. He did not think any serious result would follow the costly feast. An examination of the tray showed that 14 pearls and five diamonds had been swallowed by the child.—*Philadelphia Ledger.*

No Hurry.
A criminal whose day of execution had arrived was asked by his jailer if he had any last favor to ask.

"I have, sir," said the condemned man, "and it is a very slight favor, indeed."
"Well, if it is really a slight favor, I can grant it. What is it?"
"I hanker for a few peaches to eat."
"Peaches?" exclaimed the jailer, "why, they won't be ripe for several months yet."
"Well," said the condemned man, "that doesn't matter—I'll wait!"—*Youth's Companion.*

No Imposing on Her.
There is one boarding house mistress in Maine who is not in the habit of getting left. When some of the boarders began to bruce their constitutions against the enervating spring water with tonics she posted this notice: "All boarders who build up their appetites artificially will be charged 25 per cent. additional."—*Augusta Chronicle.*

War vessels are now designed with sides made intentionally thin, as any additional obstacle placed in the way of a high explosive shell increases the danger from such a projectile by intensifying the effect at the point of impact, but there are inside the ship appliances for rendering the damage done of a less serious nature.

C. S. Allison, of St. John's, lost a number of chickens recently, among them a rooster whose crow Mr. Allison knew with his eyes shut. He made a detour of the city, heard the rooster, insisted upon an examination, and found every chicken.

BACKLOG DREAMS.

Above the glowing embers
I hear the backlog sing
The music fit rememberers
Of some remembered spring;
Back to the branch forsaken
Return the found choir,
And in the chimney waken
A melody of fire.

The sparks' red blossoms glisten
And flash their glances brief
At me, who lean and listen,
And dream I hear a leaf
Of some May morning sunny,
Low lifting in the tree—
Or, in his haunt of honey,
A bloom enamored bee.

Or 'tis the soft wind blowing
Its sweetness from the south—
A fragrant kiss bestowing
Upon the rose's mouth;
And ere the spell is broken,
Or darkness o'er it slips,
I see the scarlet token
Of love upon her lips.

Without, the wind is bitter,
The snowflakes fill the night;
Within, the fire is brighter,
And gild the room with light;
And in the fireplace, gleaming,
The backlog sings away,
And mingles all my dreaming
With birds, and blooms, and May!

—Frank Dempster Sherman in Courier-Journal.

Fire Ladders Work the Idler Racket.

In front of the doors of the fire department engine house there is a chain which is always stretched across the doorway when the doors are open, for the double purpose of keeping all stray animals out and the horses—if any should get loose—in. The chain is stretched about the right height to make it a good place for a person to lean against, and when loafers congregate, as they always do about engine houses, they are sure to put their hands upon the chain and lean against it. At fire department headquarters the men have rigged a scheme which makes it very interesting to the gentlemen of leisure. A man walks up to the chain, places his hands against it and leans back with a sigh of relief. "He might remain there forever, but he doesn't."

Some one observes him, but says never a word. Instead of that he quietly walks to the rear of the house and turns a crank and—presto—change! The man yells, exclaims a war dance, gets black in the face and mad at the same time. Then he goes away.

The secret is this: The crank connects with a small dynamo and this in turn is connected with the chain by a wire. Only this and nothing more.

"It's a great deal better than paint and just as effective," said Assistant Chief Gus Runge, with a grin, after a victim had been "electrocuted." —Minneapolis Tribune.

A Parson's Private Secretary.
It has often been exploited in print how useful Dan Lamont made himself to ex-President Cleveland during his residence in the White House. In the Rev. D. J. Burrell and his faithful factotum, L. B. Williams, Minneapolis has even as remarkable an example of this usefulness in all the details of office to which the subordinate can attain. Without his efficient assistance Dr. Burrell would be as a ship without a rudder. It is he who parcels out the pastor's duties, keeps half of all the requirements of the week and reminds him of each and every engagement he has made.

In a little book which he carries in his inside pocket Mr. Williams jots down all the details of the week. It maps out the pastor's work to the smallest detail, and without it he would be kept half of a quarter of the engagements that he makes. Every appointment, sometimes for a month ahead, goes into this little book, and at the proper time Pastor Burrell gets his pointers from his secretary and then goes ahead. By this method all the details of his place devolve on some one else, leaving him to incumbered thought on his sermons and the various other intellectual work with which his days and weeks are plentifully filled.—St. Paul Pioneer Press.

His Pride.

A gentleman who once made a tour of the Tennessee mountain district says that the lameness of his horse compelled him to stay all day at the rude home of one of the mountaineers, who, in a shiftless, half-hearted way, cultivated a few acres of corn land in the valley.

During the day the man's son, a long, lanky, bony young fellow about 20 years old, and at the least 6 feet and 2 inches tall, was told to go to the "settlement," three miles distant, for some coffee.

His costume consisted of a "hick'ry" shirt and a pair of cotton trousers rolled to the knees above his bare feet. Before starting he went into the cabin for a moment, and when he came out he had added a paper collar and a huge brass breast pin to his attire, whereupon his father said, partly to his son and partly to the stranger: "Thar ye air agin, rigged out in all that thar finery! I tell ye, mister, that thar boy's pride is bound ter be the ruination of 'im yet. All he thinks of is finery. First thing he knows he'll be gettin' 'tew prom-tew to go tew meetin' bar' footed." —Youth's Companion.

A Valuable Stone.

The Estrella de Sul was found in 1853 by a negro woman at Bogagem, in Minas Geraes, and weighed before cutting, 234 carats. The negro woman sold it for \$15,000. The Bank of Rio de Janeiro bought it for \$150,000. It was reduced to 125 carats in cutting, and was bought by the khedive of Egypt. It is not perfectly white, but its "fire" makes it one of the finest gems in existence.—Jewelers' Weekly.

An original entertainment, which bids fair to become very popular, is occasionally given in New York society. Invitations are issued for a play to be given by amateurs at 10 o'clock in the evening, thus leaving the time devoted to dinner comparatively undisturbed. London, in order to get rid of hurried dinners in the theatrical season, is to have three or four afternoon theatres, so arranged that all the best plays and actors in turn can be seen at them.

A strong alkali at once applied to a snake bite will decompose all the venom which it touches. So if both fangs of the snake have pierced the skin the two wounds should be made one with a sharp knife, and then filled with dry carbonate of ammonia. Frequent small dissolved doses of the same should be taken inwardly, or fifty drops of aromatic spirits of ammonia taken hypodermically, for its peculiar effect upon the blood.

In the town of Mayfield, Cal., Jose Ignacio Aureque has been confined to his bed for thirty-five years. He was injured by an accident in a mine and has not been able to put his feet to the ground since. His only attendant is an adopted son, who has devoted his time and means to the support of the aged invalid. A good woman of Menlo Park has contributed \$6 a month from her private purse for the past twenty years.

COMMENCEMENT AT NEGAUNEE.

Exercises and Entertainment by Fine, Bright Youths and "Girl-Graduates With Golden Hair."

The Base Ball Club to be Incorporated Under State Law—The Trapper Club's Ball a Success.

Commencement Exercises.
This evening the fifth annual commencement exercises of the Negaunee high school will take place at the opera house. The class of '90 consists of the following pupils: Edith C. Broad, Harry G. Neely, Eva E. Stewart and Franklin D. Stone. The event will be a notable one and everyone who has the interest of the city schools at heart should be present and witness the graduating exercises of the fifth class which has completed the prescribed course of study of the local schools. The following is the program which will be rendered:

Overture—"The Golden Lyre"... Herman Orchestra.
Solo—"The Chapel"... Froehlich Miss Gaffney.
Salutatory—"Pussy Wants a Corner."
Edith C. Broad.
Oration—"Labor and Capital"... Harry G. Neely.
Solo—"When the Tide Comes In"... Willard Miss Anthony.
Essay—"A Needle in a Haystack"... Eva E. Stewart.
Valedictory—"Talent and Education"... Franklin D. Stone.
Obligato Solo—"O Wondrous Youth!"... Abt. Awarding of Diplomas, Mr. Samuel Mitchell.
Duet—"O That We Two were Maying"... Smith Miss Anthony and Mr. Beney.

The public schools will close the year's session this afternoon at 3 o'clock. For the benefit of those contemplating attending the rhetorical exercises which are to be given in each department it may be stated that the exercises will begin promptly at 1:30 o'clock this afternoon and will be finished by 3 o'clock.

Base Ball.
There was a slim attendance at the meeting of the base ball directors and stockholders held at the office of J. Q. Adams, Tuesday evening. However, there were enough to constitute a quorum and it was decided to incorporate the Negaunee Base Ball association under the laws of the state.

A committee to prepare articles of association as well as a committee to solicit subscriptions for stock. This action is a wise one as it will place the association on a solid basis and will enable it to carry on its work much better than would be possible were the association not incorporated. Now let everybody put his shoulder to the wheel and help the association along. The club has, except on a couple of occasions for which there was sufficient excuse, played good ball and the boys deserve the support of the people of Negaunee.

A Huge Success.
There was a large gathering of people at the Adelphi Tuesday night at the Trapper Club than has been seen in the city for years. Everything passed off very nicely, and the almost intolerable hot weather seemed to have no effect whatever on the merry throng. The supper served in the rink was favorably commented on by all present, it being far above the average supper served at a dance.

And Why Not Negaunee?
As stated in the Ishpeming department of the MINING JOURNAL yesterday morning, that city has secured pouch mail service from Milwaukee, bringing the mail from Milwaukee and Chicago into that city at 8:19 A. M. instead of 12:50 P. M. The reporter arises to ask why it is that Negaunee is not given similar service. It may be that it is because the people of this city have not asked for it. If such be the case, then let a petition be circulated immediately, asking that the through mail be brought in here at 8:28 instead of 12:25. The business interests of the city demand as good mail service as can be secured, and the MINING JOURNAL trusts that the matter will be looked into.

As will be seen by the announcement in another column Charles Sundberg wishes contractors to bid for the erection of the two-story building that he proposes to erect on the site of the Jackson House. Bids will be received up to noon of Thursday, July 10th.

Patrick Murphy, aged 18 years, died yesterday of complications brought on by a diseased bone in his arm. The deceased was a well known young man of this city and his death will be mourned by a large circle of friends.

Henry & Balch have completed their contract for putting in the side-tracks at the Schlesinger mines. The force of men will probably go from here to Washington territory.

The seat in the high school of the late Fred McNeil was covered with flowers yesterday, it being a touching tribute to his memory from his sorrowing schoolmates.

Mrs. F. Archambeau, of Marquette, who has been visiting her parents in this city, returned to her home in Marquette yesterday.

A freight train wreck on the Chicago & North-Western delayed the north bound passenger for about two hours yesterday.

LOST—Saturday, a ladies' small silver Watch, with gold fob chain. Finder will be suitably rewarded by returning it to Henry Fisher, 6-2143.

WANTED—A boy as an apprentice to the plumber's trade. Apply at once to F. O'NEIL, 6-2141.

WANTED—Good barber at once. Wages no object. Apply to William Gratzke, 6-2141

Notice to Contractors.
The undersigned will receive bids at his store in this city up to noon of Thursday, July 10th, for the erection of a two-story brick building to comprise three stores, the same to occupy the site of the Jackson House. The plans and specifications may be seen at my store in Negaunee. CHARLES SUNDBERG, Negaunee, Mich. 6-2944

MARQUETTE, MICH., JUNE 26

It is announced, with every probability of truth, that President Harrison has announced his intention of signing the McKinley bill.

BISMARCK and Grover Cleveland seem to be enjoying themselves in the cool shades of private life.

RICHARD CROKER, the biggest medicine man of Tammany Hall, swears that his great political organization never assessed New York city office-holders to raise campaign funds.

BASE BALL seems to flourish like a green bay-tree up here among the iron and copper mines.

THE trial of officials of the Michigan Central railroad for alleged violations of the interstate commerce law resulted in acquittal.

The dependent pension bill has passed the senate and was discussed with great animation there.

THE REGION OF HEALTH. Cholera is devastating certain districts in Spain and yellow fever is hovering round the southern coast of the United States.

TOLEDO, O., Jan. 10, 1887. Messrs. F. J. Cheney & Co.—Gentlemen:—I have been in the general practice of medicine for most 40 years.

CATARH. Catarrhal Deafness—Hay Fever—A New Home Treatment. Sufferers are not generally aware that these diseases are contagious.

MERIT WINS. We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for consumption.

COPPER STOCKS. We quote from the Engineering and Mining Journal: Copper stocks continue to be the special feature in this market.

is unabated. The better class hold their own as to price, and in some cases record an advance over last week.

At the new stock exchange quite a lively business is daily transacted, especially in the fancy copper stocks.

Calumet & Hecla touched \$321 this week after selling off 314 1/2 and closed to-day at \$318.

Boston & Montana sold as high as \$67.50, declining to \$65.50. At present these figures seem to be the top prices.

Butte & Boston sold at \$36.50 early in the week, but has been a little heavy the past few days, declining to \$34.75.

KIDNAPING MADE EASY.

Fabulous Possibilities to the Use of Two Powerful Anesthetics. Two powerful drugs, hitherto but little known, are coming into use.

"Had he awakened he would have been furious and we probably could not have been able to bring him to the sanitarium for treatment.

"Everything prospered. I brought the patient here, treated him several days, and at length allowed him to come out from his deathlike sleep.

"Could not this drug be used by designing persons for harmful purposes?" "Yes; but it would have to be administered hypodermically.

"Another more dangerous drug than this, perhaps, is hyosciamme. It is almost tasteless. It might be put into wine and the drinker would not discover its presence.

"No Trade. One of the first principles of economy is never to buy what you can get along without.

An agent was exhibiting a new five-wheeled wagon jack near the market, and a colored man who was there with his horse and wagon seemed much pleased with it.

"Me Eat 'Em All." A jeweler out in Lawrenceburg, O., missed several valuable stones early one morning, and couldn't account for their disappearance.

No Imposing on Her. There is one boarding house mistress in Maine who is not in the habit of getting left.

War vessels are now designed with sides made intentionally thin, as any additional obstacle placed in the way of a high explosive shell increases the danger from such a projectile.

C. S. Allison, of St. John's, lost a number of chickens recently, among them a rooster whose crow Mr. Allison knew with his eyes shut.

WON IN THE LAST INNING.

Boston Plays a Great Up-Hill Game at Pittsburgh, Winning in the Ninth.

RHINES AND WELCH CONTEST A GAME AND THE YOUNGSTER GETS THERE.

Giants Win With a Smash—Van Halten Severely Punished—Bisons Drop Another. Chicago Players' Defeat Boston.

NATIONAL LEAGUE.

PITTSBURGH, June 25.—The home team made a good start at the opening of the contest this afternoon, but the Bostons played a great uphill game and won in the last inning. Attendance, 350. Score: Boston, 0; Pittsburgh, 1.

CLEVELAND, June 25.—The Cleveland National club could not hit Gleason to-day, while Beatin was touched up pretty hard. Attendance, 500. Score: Cleveland, 0; Philadelphia, 5.

CINCINNATI, June 25.—To-day's game between the New York and Cincinnati clubs was a pitcher's battle, in which young Rhines bested the veteran Welch.

HUTCHINSON FOULED 'EM. CHICAGO, June 25.—Brooklyn, National league, could do nothing with Hutchinson's delivery. The Chicago did not hit Caruthers very hard, but bunched their hits at the proper time.

PLAYERS LEAGUE.

PITTSBURGH, June 25.—The Giants went in with a rush this afternoon and by a plentiful supply of bases on balls and heavy batting got such a lead that the home team could not overtake them.

HIT VAN HALTREN HARD. CLEVELAND, June 25.—The Cleveland Players league club slugged Van Halten hard to-day, but they come very near losing the game in the sixth inning when Brooklyn hit Bakley for eight runs.

BUFFALO, June 25.—The Bisons lost again to-day through poor fielding. Keefe pitched great ball and but four hits were made off his delivery.

BOSTON, June 25.—The Chicago Players' league, defeated the Boston team to-day in the presence of 2,680 people. Score: Chicago, 3; Boston, 1.

DENVER, Col., June 25.—Hazel Littis, daughter of Police Commissioner Littis, of Kansas City, took morphine last night and died this morning.

Colorado Mines Burned. BOULDER, Col., June 25.—Word was received this morning that the Puzzer and Boston mines were destroyed by fire late last night.

Iowa Republican Convention. STOUT CITY, June 25.—The republican state committee was called to order at 11 o'clock by Chairman Pray.

ILLINOIS CENTRAL TIED UP.

Stalkers Insist on the Absolute Discharge of Division Superintendent Russell.

CHICAGO, June 25.—The absolute tie-up of the Illinois Central railway continues to-day. The fact is that the chief officer of the United Railway Employees has not taken any action in the matter, and the tie-up is not as complete outside of Chicago as was generally supposed.

There is danger that unless the strike is soon settled it will spread to other roads. The Big Four, the Cleveland, Cincinnati, Chicago & St. Louis road, which has a trackage arrangement with the Illinois Central for getting into the city, finding its business obstructed by the strike, to-day made an arrangement with the Chicago & Eastern Illinois to handle its freight, and forty cars of livestock were brought in under that arrangement.

The Illinois Central this morning received from its position of yesterday, that it was not required to send mails except on regular passenger trains, and to-day trains with only mail and express cars were sent out. Large quantities of fruit, berries, watermelons and the like are side-tracked at various points down the line almost to the city limits, and are fast rotting in the boiling sun.

Three Cincinnati Overcome by the Heat and Two Die.

Street Railway Row at Spokane Falls. SPOKANE FALLS, Wash., June 25.—The fight between the street railway companies has now quieted down, and both sides await the action of the court, to which the case was referred.

IN THE HANDS OF THE MARSHAL. Gus Plued Attempts to Murder His Wife, is Captured and Locked up.

IRON MOUNTAIN, Mich., June 25.—[Special.]—A woman named Sadie Plued was shot near a house of ill repute not far from the iron bridge this morning.

WARDEN KELLAR, of an Arkansas Penitentiary, murdered a Convict.

LITTLE ROCK, Ark., June 25.—Thomas Kellar, warden of the state penitentiary, whipped James Fitzgerald, a convict, at Grace's camp in Jefferson county, so severely that he died of his injuries.

WARDEN KELLAR, of an Arkansas Penitentiary, murdered a Convict.

GOODBY SOULS AND SMITH. Two Cranks will Attempt to Swim the Whirlpool Rapids July 4th.

NIAGARA FALLS, Ont., June 25.—J. L. Soules, of North Muskegon, Mich., and Samuel Smith, of Lewiston, N. Y., have made all necessary arrangements to swim the Whirlpool rapids on July 4th.

WHIPPED TO DEATH. Warden Kellar, of an Arkansas Penitentiary, murdered a Convict.

CHICAGO MARKETS. CHICAGO, June 25.—The leading wheat futures ranged as follows: WHEATSTUFFS.

CHICAGO, June 25.—The leading wheat futures ranged as follows: WHEATSTUFFS.

Cash quotations were as follows: Flour, quiet. No. 2 spring wheat, \$3.85 1/2; No. 3 spring wheat, \$3.75 1/2; No. 2 red, \$3.85 1/2; No. 3 red, 33 1/2.

CATTLE—Receipts, 16,000; shipments, 4,000; market steady, closing lower; beefs, \$4.00 1/2; steers, \$3.30; cows, stockers and feeders, \$3.35 to \$3.50; calves, \$3.50 to \$4.00.

HOES—Receipts, 27,000; shipments, 7,000; market steady closing weaker; mixed, \$3.55 1/2; heavy, \$3.55 1/2 to \$3.75; light, \$3.50 to \$3.60; skips, \$3.00 to \$3.50.

THEY CHAFFED STANLEY.

Students at Oxford Give the Explorer a College Reception.

Distressing Accident at St. Jean, France. Foot Bridge From a Vessel Gives Way. Loss of Life Very Heavy.

LONDON, June 25.—Henry M. Stanley and his fiancée, Miss Tennant, attended the commemorative day exercises at Oxford university to-day. The undergraduates gave Mr. Stanley a most uproarious reception. They cheered and chaffed him, and when he was formally presented they sang 'He's a Jolly Good Fellow,' following up the song with more cheers for the explorer, and finishing with one more for the bride.

SPAIN. MADRID, June 25.—The authorities at all Spanish ports have established a ten day's quarantine against vessels arriving from Gordia and Valencia. If there be cholera aboard a vessel the quarantine is extended to fifteen days.

FRANCE. BREST, June 25.—A distressing accident occurred this morning resulting in a heavy loss of life. A foot bridge leading from a steamer to a landing stage at St. Jean collapsed and hundreds were thrown into the sea.

BELGIUM. BRUSSELS, June 26.—Soudanese soldiers are being recruited in Egypt for service in the Congo Free State.

HOT IN OHIO. Three Cincinnati Overcome by the Heat and Two Die.

CINCINNATI, O., June 25.—Three cases of prostration from the heat, two of them fatal, were reported to-day.

STROKE RAILWAY ROW at Spokane Falls. SPOKANE FALLS, Wash., June 25.—The fight between the street railway companies has now quieted down, and both sides await the action of the court.

CHICAGO MARKETS. CHICAGO, June 25.—The leading wheat futures ranged as follows: WHEATSTUFFS.

Cash quotations were as follows: Flour, quiet. No. 2 spring wheat, \$3.85 1/2; No. 3 spring wheat, \$3.75 1/2; No. 2 red, \$3.85 1/2; No. 3 red, 33 1/2.

CATTLE—Receipts, 16,000; shipments, 4,000; market steady, closing lower; beefs, \$4.00 1/2; steers, \$3.30; cows, stockers and feeders, \$3.35 to \$3.50; calves, \$3.50 to \$4.00.

A NEW POLAR SCHEME.

Engineer Dunsford Proposes to Blow Up the North Pole with Dynamite.

H. A. Dunsford, an English civil engineer, has issued a pamphlet in which he discusses the question, "Did nature intend the Arctic sea to be open and the climate moderate? And is it possible to do by means of dynamite what nature has unaccountably omitted to do?"

"Were the ice cap removed from the North Pole," says the author, "the two warm streams would flow as they do now; but instead of becoming chilled as they do, they would flow past the pole and southward as warm streams. They would prevent the ice's reforming, and do away altogether with the excessive cold of the Arctic regions."

When this becomes possible the existence of the remainder of the ice cap, thinks Mr. Dunsford, will be of short duration; for when the open way is made the belt of cold water will disappear, and the warm currents reaching the ice will solve the problem.

The scheme proposed is certainly a little staggering, and one is soon lost when the possible results are contemplated. With a reduction in size and temperature of the Arctic current a part of the Gulf Stream may be deflected up Davis strait and Baffin's bay, meeting the warm waters of the Japan current in the Arctic ocean.

There would be fewer icebergs in the north Atlantic and fewer storms; the temperature of the east coast of America would be higher during the winter and spring months, and our friends in Boston would be no longer so miserable on account of their east winds. Who knows but the shores of the Arctic may yet be made habitable, that great cities may not spring up on Hudson bay and at the mouth of the Mackenzie river, or that future generations may not, by means of dynamite, raise pineapples on the shores of Melville sound?

The palm leaf may yet form part of the Esquimaux's costume.—Chicago Herald.

BURNED THE WRONG MAN. A thief of Ninghsien, near Ningpo (Province of Che-Kiang, China), called Lai-tow (scald head) was robbing a house in the village of Chengkiatun, when he was heard by an old man left in charge of the place, the owner and his wife being at a party.

But found no one, for the intruder had hidden himself in the rafters of the roof. The watchman then proceeded over to twist himself to a solitary pipe, and by some mischance set fire to the house. The building burned while the old man slept on, and the thief came down again to finish his work, but was alarmed at seeing the flames, and was making the best of his way off, when he was caught by the villagers.

By the time the fire had spread to the straw ropes, tied him hand and foot with straw ropes, poured lamp oil on the poor wretch, and hurled him into the burning mass, where death after a few minutes put an end to his terrible sufferings.—London Telegraph.

BUCKINGHAM PALACE as a Museum. From time to time strenuous reformers in parliament and the press urge the demolition of Buckingham palace on the ground that it is unsightly, useless and cumbersome, occupying valuable space and affording eodemany house room to certain royal pensioners and hangers on.

There is always recrudescence of this language when the vote for the repair of the palace comes up on the estimates. But those who are probably unaware that the Prince of Wales has resolved, if ever he has to choose between the two, to inhabit Kensington palace and turn Buckingham palace into a museum or public gallery. If he lives to carry out this intention it will convert the "old court suburb" into the very center of fashionable London.—Cor. Manchester Guardian.

A Well Directed Letter. A woman from Rochester tells of a letter which passed through the Rochester post-office. "Now, I saw the letter with my own eyes," she said, "and the address was as follows: 'To the Widow Mulrooney's son-in-law, who goes much into society on a Throp street.'"

And such is the perfection of the postal service in Rochester that the Widow Mulrooney's son-in-law receives the letter without much delay.—New York Evening Sun.

MEAN HEIGHT of Land. The mean height of land above sea level according to John Murray, the geographer, is 2,250 feet, and the mean depth of the ocean is 12,480 feet.

A botanical garden for mountain plants has been opened at Bourg-Saint-Pierre, in the canton of Valais. It is situated in the valley of Entremont, about three leagues from the Mont St. Bernard Hospital, and at an altitude of 1,800 meters above the sea.

MARSHAL'S NOTICE of Sale.

In the District Court of the United States for the Western District, Northern Division thereof, of Michigan, in Admiralty. Fillets M. Church and Frank S. Carlton, co-plaintiffs, Libellants, vs the Steam Tug "Clara Ir," her boiler, machinery, etc.

Whereas, by an order issued from said court, in above cause, on the sixth day of May in the year one thousand eight hundred and ninety the said steam tug "Clara Ir," her machinery, boiler, etc., now in my possession, are condemned and ordered to be sold by me after giving ten days' notice of said sale according to law; therefore, Notice is hereby given that I will sell the said steam tug "Clara Ir," her machinery, boilers, etc., at public auction. Said sale will take place on Monday the 30th day of June, A. D. 1890, at 10 o'clock in the forenoon, on the bank of the St. M. R.'s river, opposite to and near the place where said steam tug "Clara Ir" lies grounded in said river, within the city of Sault Ste. Marie, county of Chippewa and State of Michigan.

Dated June 16th, 1890. DAVID R. WALTERS, U. S. Marshal.

F. BRAASTAD & CO.

Ishpeming, Mich.

WASH GOODS.

This is the season when the ladies desire light wash goods for cool summer wear. To give a complete enumeration of our stock would take all the space at our command. We have the largest stock in the city. We also consider it the best. The prices will be found lower than at other stores. We would like all the ladies to call and look over our stock of dress goods for summer wear. If we can secure their presence a sale will certainly follow. Our big stock of dress goods in all varieties, and at all prices, is, of course, complete.

BOOTS AND SHOES

for the entire family, from the baby up to paterfamilias. This department we pride ourselves in keeping always complete. The largest stock in the city to select from. Remember that we buy shoes by the carload. We can fit anyone.

CLOTHING.

Our clothing department covers more floor space than any exclusive clothing store in the city. The size of our stock and number of clerks employed in this department may give you some idea of our clothing business.

LAST,

but not least, if you can't find what you want anywhere else, call on us and secure it. We like to have people come to us who have been led through other stocks without getting what they want. We keep it in stock.

HAVE YOU

Seen Our Store Recently? If not you have missed it. Our place is a veritable HIVE of INDUSTRY, and well worth seeing. Groceries coming in by the carload. Dry Goods in endless quantities. Millinery—an ordinary store full. Carpets and Crochery have been moved up-stairs on account of a lack of room on the first floor. Come and see us. It will be for your interest as well as ours to do so.

ON COMMENCEMENT DAY.

Graduation Exercises of the Ishpeming High School Class of '90 to Occur To-morrow.

THE CALAMITOUS ENDING OF A SUMMER YOUTH'S PLEASURE TRIP.

A Few Words Setting Mr. William Uren Right Before the Public—How It Really Was.

High School Commencement. The commencement exercises of the Ishpeming high school will take place at the high school building, corner of High and Third streets, to-morrow afternoon, beginning at 3 o'clock. The program is as follows:

Piano duet.—Zeta Phi March. Hickok Bessie LaLonde, Anna Melby. PRAYER.

Chorus.—Greeting Song. C. E. Whiting Essay.—Gems. Emma P. Scott Essay.—The Statue of Liberty. Lucy A. Crowley Vocal solo.—Embarrassment. Abt Edith M. Phillippus.

Essay.—The Mission of Flowers. Dennis Essay.—Our Flag. Maggie Maher Chorus.—(a) From Yonder Vale and Hill. Donizetti (b) Anvil Chorus. Verdi Essay.—The Four-Leafed Clovers of Life. Rose M. Taylor Oration.—1892. Fred. E. Vickers Piano Solo.—Midsummer Night's Dream. Sidney Smith Olga J. Girzi.

Essay.—Sunshine Land. Ursula E. Ropes Essay.—The Land of the Heather. Anna M. Bamford Chorus.—(a) Waken, Lords and Ladies Gay (b) The Moonlight Dancing. Donizetti Essay.—Nature's Music. Bessie C. Wadsworth Oration.—By Courage, Not by Craft.

Vocal Duet.—Barcarolle. Kuchen Emma Hodgkins, Edith M. Phillippus. Vaudeviatory.—Birds of Flight. Edith M. Phillippus Presentation of Diplomas. Mr. W. Sedgwick. Doxology. Benediction.

The class of '90 consists of nine young ladies and two young gentlemen. Misses Bessie C. Wadsworth and Edith M. Phillippus and Mr. Fred E. Vickers graduate in the Latin-English course, while Misses Rose M. Taylor, Emma P. Scott, Lucy A. Crowley, Anna M. Bamford, Ursula E. Ropes, Maggie Maher and Caroline Dennis, and Mr. Charles Grabowsky graduate in the English course.

All friends of the graduates, and all who are interested in the work of the city schools, are invited to attend the commencement exercises to-morrow afternoon. They will be interesting and well worth listening to, apart from any interest that may be taken in them as connected with the schools.

A Youthful Desperado. A young man, 19 years of age, who has been residing with his parents at Summit, above Michigamme, became tired of the monotonous life at home, a few days ago, and lit out for a larger place. Ishpeming being his beau ideal of a large city, he came to the iron metropolis. To prevent any trouble that might arise from lack of funds, he confiscated his mother's pocket-book and also took with him three rings. His maternal parent followed on the next train, and the youthful adventurer was sadly surprised when his irate mother pounced down on him in the streets here, just as he was congratulating himself on having escaped the leading strings.

A vigorous shaking-up brought the young man to his senses, and he turned over what cash remained in his possession. He also disgorged two of the rings, but the third, a valuable one, he refused to produce. Family pressure was brought to bear on him, and he went to the jeweler's where it had been pawned, and got it back. He returned to Summit the same evening, much subdued, and with the prospect of a severe castigation before him. His parents have confiscated a big stack of light literature relating to the adventures of "Six-fingered Jack, the Terror of Dead Man's Gulch," and other similar mythical personages, and the boy will be put to cultivating an acre or two of potatoes for the summer season. If that does not take away his desire to roam, other measures, of a sterner nature, will be resorted to.

Relative to Specimens. As the arrest of William Uren, charged with stealing gold from the Michigan mine, was chronicled in this column several weeks ago, it is but just to state that on the examination held before a justice here, the evidence was not found sufficient to justify his being held for trial before the circuit court, and he was discharged. Mr. Uren's defense was that the rock was taken in small amounts only, for specimens, and not for lucre, and as it was incumbent on the prosecution to prove that the rock was taken from the Michigan mine, which was not done, the case was dropped and Mr. Uren discharged.

Mr. David M. Ford has been in Marquette this week, in attendance at the session of the circuit court, while the Varcoes were on trial for stealing Michigan gold. The defense is in the hands of Attorney E. E. Osborn of this city, and if there is any such thing as dragging the men through a knot hole and getting them free, Mr. Osborn will accomplish it. If the jury fails to convict the men it should at least put on record the old Scotch verdict, "Not proven."

BUSINESS POINTERS

A Few Words to the Public. From Ishpeming Business Men. FOR SALE CHEAP—500 shares East New York stock. Apply to D. McCarty, Ishpeming. 6-29m1

If you want a home of your own the Ishpeming Building and Loan Association, can put you in the way of securing it. Regular monthly meeting Tuesday, evening July 1st. 6-25-71

VARCOES ARE ACQUITTED

Circuit Court Jury Fails to Find Evidence That They Stole Michigan Gold Quartz.

UPPER PENINSULA CONFERENCE OF Y. M. C. A. BEGINS THIS EVENING.

Attractive Address by Rev. J. M. Barkley Opens Sessions in Baptist Church—Be Sure You Are Counted.

Alleged Gold Thieves Acquitted.
Henry and William Varcoe, charged with stealing a quantity of free gold and gold-bearing rock from the Michigan mine, were acquitted by a jury in the circuit court yesterday. Managing Director David M. Ford, of the Michigan company, testified that on the night of their arrest the Varcoes had confessed to him taking the gold from the mine and wanted to be let go now that its owners had recovered it.

In their own defense the Varcoes swore point blank that they did not get the gold rock from the Michigan mine. They declined to say exactly where they did obtain it, but said the spot was at least half a mile from the Michigan mine. Witnesses were introduced to prove that the rock came from the Michigan mine, but failed to do so, being unable to distinguish quartz from that mine from specimens obtained at other locations. The jury therefore found that the larceny was not proved and acquitted the defendants.

Mr. E. E. Osborne, of Ishpeming, appeared for the defense and received a number of compliments on his ingenious conduct of the case. At the conclusion of the trial Mr. Osborne asked that the property seized be returned to his clients. Judge Stone made an order that the gold remain in custody of the officers for the present and that the Michigan Gold company be given three days in which to replevy and bring civil action for the recovery of their alleged property. A civil action for the possession of the gold rock is now probable between the Michigan company and the Varcoes.

"Great Expectations."
The upper Michigan conference of Young Men's Christian Associations will open in the Baptist church at 7:30 o'clock this evening. After a brief service of song the address of welcome will be given by Mr. E. H. Towar, president of the Marquette Association. The usual responses will follow.

The principal address of the evening will be given by Rev. J. M. Barkley, the popular pastor of the Third Avenue Presbyterian church, Detroit, and former state secretary of Michigan associations. His subject—"Great Expectations"—is a suggestive one, and he handles it in a way to thoroughly captivate his hearers.

All sessions of the conference will be open to the public, and it is hoped that there may be a large attendance, that will convince the visitors from abroad of the strong interest felt at home in this work for young men. The conference will continue through Friday and Saturday—the sessions opening at 9:30 a. m., 2 p. m., and 7:30 p. m. Among the other speakers who will be present are General Secretary Newman, of Detroit, State Secretary H. M. Clark, J. W. Sutton and Secretary G. F. Grand, of Sault Ste. Marie. Delegates will be present from Ishpeming, Negaunee, Manistique, Escanaba, Menominee, Iron Mountain, Calumet, Lake Linden, Hancock, Houghton and Sault Ste. Marie. The delegations will be composed mainly of business men, though one or two clergymen are expected from each of the places named.

Be Sure You are Counted.
The work of the census enumerators is nearly completed and though owing to the regulations of the department no exact figures can be given yet it is safe to say that the result will be something of a disappointment to Marquette. This city has certainly doubled in population in the last ten years. Another general census will not be taken for a decade. It is of the greatest importance that every inhabitant of Marquette be counted, that this city be given its proper rank and standing. Upon this census will be based both congressional and legislative apportionments for the next ten years.

The enumerators of Marquette are faithful and hardworking and are making every effort to secure every name. Still it is possible that some, owing to absence from home or other reasons, may have been missed by the enumerators. If anyone has been overlooked he should at once drop a postal card to the enumerator of his ward, setting a time when he can certainly be found. The enumerator for the First and Second wards is W. A. Ross; for the Third and Fifth wards, Arthur Richardson; for the Fourth ward, A. J. Lobdell. If you have been overlooked be sure and notify the proper enumerator. Be sure you are counted in Uncle Sam's great decennial round-up.

Pictured Rocks More Accessible.
The South Shore road has completed arrangements whereby the famous "Pictured Rocks" will be made much more easily accessible to tourists than hitherto. An arrangement has been made with the owners of the steamer

City of Marquette for that boat to make three trips each week from Munising to the rocks. Comfortable stages will run from Munising station to Munising, connecting the trains on the South Shore with the steamer. The boat will leave about 10 o'clock on Monday, Thursday and Saturday mornings, thus enabling travelers to spend several hours viewing this world-renowned spot and return the same evening. Those desiring to stay in the vicinity longer will find a comfortable hotel at Powell's Point, across the bay from Munising, with accommodations for fifty persons. The stages mentioned above will begin to run next Monday.

Several times the project of a grand summer resort and big hotel at Munising Bay or on Grand Island, has been broached. It has been frequently reported that an effort would be made to acquire the whole of Grand Island, erect a first-class hotel and turn it into a summer resort, communication being had with Marquette by a fast steamer. Such a scheme ought to pay with proper management. The South Shore would undoubtedly further such a plan by building a branch from Munising station to some convenient point on the lake shore and thus render Grand Island and its neighboring attractions easily accessible from all quarters.

Mr. Johnson's Organ Recital.
About one-third as many people as the merits of the entertainment deserved were present at Mr. George L. Johnson's organ recital in St. Paul's church last evening. The excellent program already printed in the MIXING JOURNAL was fully carried out, much to the pleasure of the audience. Miss McDonald and Mr. Jopling were in good voice and rendered their respective solos finely. The Gooding quartette sang two selections in its usual excellent style.

Mr. Johnson had six numbers on the organ and as well as the somewhat imperfect instrument would allow displayed admirably his versatility and high talents as a performer. The numbers, range from the majesty and swing of the beautiful Bridal Chorus in "Lohengrin" and the intricate fugue overture to Haendel's "Ottone" to complicated variations by Lux and Dudley Buck upon familiar Italian and Scotch airs. All were well rendered and all showed Mr. Johnson's qualities as an artist and his mastery of his difficult instrument.

Terpsichorean Drill.
The active and honorary members of the Marquette Rifles varied the monotony of military exercises last evening by a terpsichorean drill that was in every way a success. The attendance of gentlemen being limited as above noted, the sixty couples present had plenty of room in Armory hall. After the full uniform inspection, Captain Russell gave the command, "Charge the enemy." The ladies surrendered at discretion, and until the small hours the dance went merrily on. The Marquette City band furnished its usual excellent music and the whole affair was a very pleasant one.

Hotel Change.
Mr. Chas. F. McIntyre of this city has leased the Northwestern Hotel at Michigamme. He will take possession July 1st, give the house a thorough overhauling, and make his best bid for patronage. He has been a resident of Marquette for ten years, is well acquainted on the peninsula, and will no doubt get a good share of the patronage of the traveling public.

Don't forget Gordon's D. F. cigars when you want a good smoke.

Alone at Last.
A beautiful engraving free. It is an exact copy of an oil painting by a celebrated French artist, size 10x24 inches. It won the first prize in the Paris salon of 1888, and was bought by a noted connoisseur for \$8,000. If you purchase three ten cent packages of Wax Starch from your grocer, he will give you one of the above engravings.

Low Excursion Rates to Milwaukee. Account Knights of Pythias Conclave.
For this occasion the Milwaukee & Northern railroad will sell tickets at rate of one fare for the round trip. From points north of Menominee tickets will be on sale July 4th to 8th inclusive, good to return from July 9th to 19th inclusive. These low rates are within the reach of all, so let everybody turn out and witness one of the grandest gatherings the world has ever known. All information furnished by any railroad ticket agent or W. B. Sheardown, G. P. & T. A., Milwaukee.
