### NATIONAL ELECTION BILL.

#### Lodge of Massachusetts Opens The Ball, By Outlining The Purpose Of The Measure.

#### HEMPHILL OF SOUTH CAROLINA FOLLOWS HIM ON THE OTHER SIDE.

#### Closing His Debate in a Whirlwind of Eloquence—Edmunds Objects To Shutting Off Debate On The Wyoming Bill.

#### THE HOUSE.

WASHINGTON, June 26.—The house met at 11 o'clock to day. On motion of Mr. Ketcham (N. Y.), who said he could endorse the measure in every particular, the house bill was passed granting fifteen days leave to clerks in first and second class postoffices.

The regular order being demanded, Mr. Lodge (Mass.) began the debate upon the national election bill. He said that he did not think a more grave and serious subject had ever come before the house. It demanded serious and deliberate treatment. He had no personalities or reflections to make, but desired to treat the question dispassionately. The bill proposed to extend existing laws regarding the election of members so that they would be effective throughout the United States whenever the people wanted them so extended. He proceeded to sketch the plan of the bill. No local machinery would be disturbed, he said; ballots were to be cast as at present, and

#### THE SENATE.

WASHINGTON, June 26.—Among the bills reported from committee and placed on the calendar was the house bill to authorize the secretary of the interior to procure and submit to congress proposals for the sale of the western part of the Crow Indian reservation, Montana.

A resolution offered yesterday by Mr. Call, directing the secretary of the senate to prepare a table showing the number of bills introduced by each senator and the number of them passed, was taken up, and Mr. Edmunds moved to lay the resolution on the table, remarking (ironically) as the test of a senator's value was the number of bills introduced by him, and as he found that under that test he (Mr. Edmunds) was not of much value, he wished to have the resolution laid on the table.

After an explanation by Mr. Call of his motive in offering the resolution, the motion to lay on the table was agreed to.

The house bill for the admission of Wyoming as a state was taken up, and Mr. Jones (Ark.) addressed the senate.

He declared himself in favor of the admission of Wyoming and of all the other territories, except Utah, when they had sufficient population and sufficient wealth to justify their assumption of state government. But he was unwilling to see Wyoming admitted as now proposed, and he proceeded to state the reason why, in his opinion, the passage of a pending bill would be exceedingly unwise. There was no authority for holding a constitutional convention; the movement originated with and was sustained by a small minority.

Another ground on which he based his opposition to the pending bill was the participation of women in the vote on the constitution. The other grounds of his opposition were the constitutional provisions for woman suffrage, for the holding of real estate by aliens and for compulsory education.

In the further course of his argument Mr. Jones referred to the wives of Mormons in Wyoming and Idaho voting, and said in answer to Mr. Morgan that he did not know how many wives each Mormon had to vote with him.

"That depends," said Mr. Vance, "on the constitution of the individual rather than on that of the state."

Mr. Stewart replied to Mr. Jones, and said that it would be time enough to act on the cases of other territories when they were before the senate. They were not before it now. Wyoming and Idaho had framed constitutions and had applied for admission. New Mexico and Arizona had not done so. There was a disposition on all sides to admit these territories as soon as possible. The bill for Wyoming was now before the senate and should be acted upon.

Mr. Reagan opposed the bill. He argued against the provision for woman suffrage contained in the Wyoming constitution. The effect of the provision was, he said, to make men of women.

At the close of Mr. Reagan's speech an understanding was reached that the vote on the bill and amendments would begin at 4 o'clock to-morrow.

In reference to that agreement, Mr. Edmunds wanted it understood that it did not amount to an order of the senate. There ought to be one body in the country, he said, where there was freedom of debate. Several bills were taken from the calendar and passed, and after a short executive session the senate adjourned.

#### WEDDED TO ITS LOTTERY.

#### Louisiana House of Delegates Passes Lottery Bill by a Big Majority.

NEW ORLEANS, La., June 26.—After adopting the amendment eliminating the monopoly features, the house passed the lottery bill by a vote of 66 to 29.

#### Train Ditched by Wreckers.

GRAND RAPIDS, Mich., June 26.—The east-bound Detroit, Grand Haven & Milwaukee fast train was wrecked in the city at the Chaney street crossing at 1:04 last night, and Fireman Herbert Nesser was killed. An oak tie sixteen feet long had been placed by some unknown person on the track and the engine struck it while going at the rate of twenty miles an hour. The passengers were badly shaken up. There is no clue to the perpetrators of the deed.

#### Run Over by Switch Engine.

IRON MOUNTAIN, Mich., June 26.—(Special.)—Chris Graffe, timberman at the Chapin mine, was run over by a switch engine at the Flesheim street crossing at 6 p. m. to-day. One leg and arm were severed from the body. He is still alive.

preached, the southern democrats would receive them with open arms, and if they did not take their advice would suggest something better which would be agreed to. [Applause on the democratic side.] Under this system which it was proposed to revive the people of the south had been robbed some years ago by the picked villains of the north, backed up by the bayonets of the United States army. The south did not want to be put in the same position again.

"We," Mr. Hemphill continued, "know we must either rule that country or leave it. Now, for myself, before the people of the United States and before God, in all reverence, I swear we will not leave it. [Applause.] It is the home of our fathers. There their bones lie buried. They bought it with their blood when Concord and Lexington were the battle fields of this country; they have handed it down to us unimpaired, and, gentlemen, are we not our fathers' sons? Shall the blood first turn back in our veins? I do not hesitate to say the colored man has as many rights as I have; but he cannot have his rights and mine too, and this law is intended to put him again in control of the southern state."

Mr. Hemphill was loudly applauded by the democrats as he took his seat and nearly all of them pressed forward to congratulate him. Without reaching any action on the bill the house adjourned.

#### HORRIBLE TRAGEDY.

#### Desperate Deed of a Kansas City Man, Crazed With Liquor.

KANSAS CITY, Mo., June 26.—In a drunken fury and urged on by imaginary wrongs L. B. Myers last evening went to the house of his wife's uncle, Benjamin Van Horn, a well-known Kansas City citizen, and attempted to kill her with a revolver. Mr. Van Horn in shielding his niece from the bullet fired by Myers received a probably fatal wound in the abdomen. A second shot struck Miss Carrie Van Horn and entered her back. She will probably die. Myers then escaped through the back yard and was not captured until he had turned and fired at his pursuers. The bullet hit Nelson Gleason in the leg. As soon as he was arrested and taken to the station he fell in a drunken stupor. Domestic trouble was the cause of the tragedy.

#### BAKER CONVICTED.

#### State Now Hopes To Get Confession From Him As To Bank Robbery.

ASHLAND, June 26.—It took the jury an hour and forty five minutes to decide the guilt of Baker in the Hurley bank robbery case. The defense immediately took steps for a new trial. The conviction of Baker is held to be unfortunate for Phelps Perrin, who is accused of planning and executing the robbery with Baker. People who are posted on the inside facts of the case believe that there is a strong probability that Baker will be induced to confess. The man object of the express company in prosecuting him has been the recovery of the \$40,000 stolen from the bank. Officers will go to work on the convicted man and if such a thing is possible, will wring a confession from him that will result in finding the money, not a clue to which could be obtained by the detectives. The chances are considered good that the deeply contrived plot will be laid open to the public.

#### A BAD OMEN.

#### Kickapoo Braves Receive an Omen Not to Sell Their Lands.

SHAWNEETON, I. T., June 26.—There is great excitement among the Kickapoos over the discovery of a petrified body, supposed to be that of War Eagle, a leading chief of the tribe who died many years ago, shortly after the tribe's return from Old Mexico. Instead of the remains being deposited in the ground in a coffin, they were placed in an upright position in a large hollow tree, there to await the coming of the happy hunting days. On Tuesday, during a forest fire, the trunk of the tree was consumed. The Indians consider the burning of the tree where the great chief had been buried a bad omen, and say they cannot now sell their lands to the Cherokee commission.

#### SHOT AND KILLED.

#### One of a Party of Striking Molders Who Assaulted the Wrong Man.

SAN FRANCISCO, June 26.—Edward Coogan, a molder's apprentice employed in the Vulcan iron works, was shot and instantly killed, this morning by James W. Kerr, of the firm of Steiger & Kerr, proprietors of the Occidental foundry. The shooting was the outgrowth of an assault on C. J. Clausen, a non-union molder. Clausen and Kerr were assaulted by a crowd of strikers on the street, and, being worsted, Kerr drew a revolver and fired. The bullet struck young Coogan and he died on the way to the hospital.

#### TAR AND FEATHER PARTY

#### Meets With a Warm Reception—One Man on Each Side Shot.

KANSAS CITY, June 26.—A mob of forty persons gathered at 12 o'clock last night at the house of Watt Squires, about twelve miles northwest of Cameron, Mo., to tar and feather his son Bud, who, it is alleged, ruined a young woman of the neighborhood. About forty shots were exchanged. Old Mr. Squires was shot in the stomach but not fatally injured. Will Noland, who was in the crowd, was also shot in the stomach and probably fatally wounded. Intense excitement prevails.

#### Ex-President Hayes in Chicago.

CHICAGO, June 26.—Ex-President Hayes arrived at the Grand Pacific Hotel this forenoon, where his rooms were soon crowded with members of the world's fair commission and personal friends who called to pay their respects. He said his visit here was quite accidental and had no political significance whatever. He left this evening in a special car for Ottawa, Kans., where he is to address a soldiers' reunion tomorrow.

#### Tackled the Wrong Man.

KANSAS CITY, June 26.—Mr. John Williams, a colored porter in a saloon, started ward Willis Allen, also colored, and employed as a bookkeeper with a knife in his hand in a saloon. Allen fired four shots, killing Williams instantly.

#### Embezzling Clerk Caught.

KANSAS CITY, June 26.—Morris Daly was arrested in this city on the charge of having embezzled \$1,500 from the Chicago water works department, in which he was a clerk. Daly left Chicago two weeks ago.

#### The Hendricks Monument.

INDIANAPOLIS, Ind., June 26.—Arrangements are about perfected for the unveiling of the Hendricks monument on the 1st of July. The indications are that there will be an immense attendance.

#### Moore's Body Identified.

OTTAWA, Ill., June 26.—The body of Moore, the murdered traveling man, has been fully identified by his son.

THE "CYCLONE" is the name of an  
Ironwood base ball club. The Gogebic  
ball tossers should start one more and  
call it the "Earthquake."

MILWAUKEE, having been cut down  
from an imaginary \$25,000 to a real  
\$100,000 by the census has assumed the  
lead of the kickers. When you get one  
of these good, solid old German towns  
waked up it kicks to some purpose.

THE nations of Europe are crushed  
under a burden of expense for the  
maintenance of vast military and naval  
establishments. France spends the  
most money for these purposes. Her  
annual expenditure for army, navy and  
pensions is \$183,000,000. For these same  
purposes the United States pays  
\$216,000,000.

PRESENT information indicates that  
Menominee will pose as the largest city  
in northern Michigan when the census  
returns are all in. Ishpeming seems  
ready to resign the crown and fight  
Marquette for second place. The  
whirligig of time, however, brings in  
his revenges, and there is the best of  
reasons for thinking that in 1900 the  
iron towns will be ahead of the wooden  
metropolis, Menominee.

SENATOR EDMUNDS, of Vermont, will  
not, hereafter, be popular with the  
weather bureau and his little state will  
probably suffer in consequence. After  
having declared in open senate that  
"the signal service is generally and un-  
iformly wrong," he cannot complain if  
thunder and lightning, hail, rain and  
snow, gales and cyclones are dealt out  
to the Green Mountain state with reck-  
less prodigality.

THE republicans of Gogebic county  
are getting ready for this fall's cam-  
paign. They have re-organized their  
central committee, adding new mem-  
bers and putting K. S. Markstrum, of  
Bessemer, in as chairman. According  
to the apportionment Ironwood will  
have thirteen delegates in the county  
conventions of this year, out of a total  
of thirty-one. This places that city in  
the golden seat. With three delegates  
from other districts Ironwood can form  
a combination which will dictate the  
course of conventions.

IN the eleven months ending May 31,  
1890, the total number of immigrants  
who landed in the United States was  
401,609. One of the remarkable features  
of this influx of foreigners is the in-  
crease of the Hungarians and Italians.  
Twice as many persons of these nation-  
alities joined our commonwealth as in  
the previous year. Forty-five thousand  
Italians and twenty thousand Hun-  
garians, of high intellectual and moral  
status, came to us in this eleven-month  
period.

"GIVE us the good old-fashioned  
democratic principles, honestly and  
justly applied, and we shall not hear  
the 'wail and woe' arising from the  
masses of the people," says the Cleve-  
land Plain Dealer. The Plain Dealer  
seems to have the happy faculty of for-  
getfulness. There are men, however,  
who can remember without effort, when  
the democratic party, in spite of "good,  
old-fashioned democratic principles,"  
could listen to the "wail and woe" of  
about four millions of people in bond-  
age with supreme indifference, and  
even approve of the outrage as an  
ordinance of God. It is a pleasure to  
note how tender the Bourbon heart has  
become of late.

"UNEASY lies the head that wears a  
crown," saith the Bard of Avon, but  
few that ever wear the golden circlet of  
power are willing to put it off and as-  
sume the common plug hat of a private  
citizen because it is a more comfort-  
able piece of head furniture. Dioctle-  
tion, the Roman, Charles V, the Span-  
iard, and Christina, of Sweden, consti-  
tute the catalogue of those who have  
voluntarily abdicated desirable sover-  
eignities. Even Abraham Lincoln  
pleaded guilty to a gnawing desire for  
a second term as president. With his-  
tory thus admonishing by example, the  
world will receive the announcement  
that a resident Harrison's alleged deter-  
mination not to seek a re-nomination is  
far from being such a stern resolve as  
refuses to hearken to persuasion.

land for the English government to re-  
dress without going abroad to correct  
the injustice of Russian administra-  
tion, was an extremely pertinent re-  
mark.

EDITORS AND OFFICE.  
Editor Goodland, of the Ironwood  
Times, announces that he is not a candi-  
date for the legislature. In this determi-  
nation Mr. Goodland shows good judg-  
ment. An editor should be intensely  
interested in politics, but should never  
be a candidate for an elective office him-  
self. An editor should be the most in-  
dependent man in the community. He  
should be a total stranger to the arts of  
the politician. He should scorn to  
"crook the pregnant hinge of the knee,"  
and the "candied tongue" he should ab-  
hor. The editor is supposed to be the  
advocate of truth, the friend of justice,  
the fearless champion of the public  
welfare. He should be to lies, shams,  
corruption, hypocrisy and all their al-  
lies, an enemy who has drawn the  
sword and thrown away the scabbard.  
The science of popularity should be a  
sealed book to him. The small talent  
of getting votes should be considered  
as beneath his sphere. An editor who  
dares to be popular can be denounced  
as recreant to his high calling, and for  
one who has ever been actually elected  
to office what language could be too se-  
vere? No, brethren, don't be candi-  
dates. Assume the infinitely higher  
function of making candidates by  
moulding public opinion, not, of  
course, by advocating the cause of par-  
ticular men, but by elevating public  
sentiment to such a pitch that the elec-  
tion of a fool or a rascal to office will  
be difficult, and eventually, impossible.

A man who has practiced medicine for 40  
years, ought to know salt from sugar; read  
what he says:  
TOLEDO, O., Jan. 10, 1887.  
Messrs. F. J. Cheney & Co.—Gentlemen:  
I have been in the general practice of  
medicine for most 40 years, and would say  
that in all my practice and experience  
have never seen a preparation that I could  
prescribe with as much confidence of suc-  
cess as I can Hall's Catarrh Cure, manu-  
factured by you. Have prescribed it a  
great many times and its effect is wonder-  
ful, and would say in conclusion that I  
have yet to find a case of Catarrh that it  
would not cure, if they would take it ac-  
cording to directions.  
Yours Truly,  
L. L. GORSUCH, M. D.  
N. B.—This treatment is not a snuff or  
an ointment; both have been discarded by  
reputable physicians as injurious. A pam-  
phlet explaining this new treatment is sent  
free on receipt of stamp to pay postage, by  
A. H. Dixon & Son, 337 and 339 West King  
street, Toronto, Canada.—Christian Advo-  
cate.

Sufferers from catarrhal troubles should  
carefully read the above.  
MERIT WINS.  
We desire to say to our citizens that for  
years we have been selling Dr. King's New  
Discovery for consumption, Dr. King's New  
Life Pills, Bucklen's Arnica Salve and  
Electric Bitters, and have never handled  
remedies that sell as well, or that have  
given such universal satisfaction. We do  
not hesitate to guarantee them every time,  
and we stand ready to refund the purchase  
price, if satisfactory results do not follow  
their use. These remedies have won their  
great popularity purely on their merits. H.

Fourth of July Excursions.  
On July 3rd and 4th the Milwaukee &  
Northern railroad will sell tickets to and  
from all stations on their line, also Chi-  
cago, at one rate for the round trip, good  
returning until July 7th inclusive.

Changes in the Missouri.  
The maps of the country which were  
taken up thirty or thirty-five years ago,  
all show the Missouri river emptying into  
the Mississippi directly opposite Alton, and  
they were correct in having it so, although  
such is not the case now. The well known  
propensity of the Missouri river to change  
its channel on account of the wearing  
away of its banks is as apparent near the  
mouth of the stream as at any other point  
along its course. The lower side of the  
river has been gradually cutting away and  
has deposited its load of silt in the river  
until the mouth of the Missouri is now about  
three miles nearer to St. Louis than it was  
thirty years ago. It is still wearing its  
way southward at this point, and it is not  
improbable that the mouth of the Missouri  
may be as far down as the Chain of Rocks  
in course of time, or even farther.—St.  
Louis Globe-Democrat.

The Forbidden Fruit.  
The fruit of the coco-mer, which Gen.  
Gordon believed to be the forbidden  
fruit of the Garden of Eden, has been ex-  
ported to Europe. The nut weighs twenty  
pounds and measures twenty-five inches  
across. The palm on which it grows  
(*Adocia sechellarum*) is one hundred feet  
in height, and is only to be found on the  
Seychelle Islands. Hundreds of years be-  
fore the Seychelles were discovered these  
nuts were washed up on the Maldive  
Islands, and the wiseness of those days  
told the people that this sea borne fruit  
had grown on a submarine tree, and that  
it had a mysterious power of counteracting  
poisons.—Exchange.

A Stout Quaker.

Friend Adam Mott, the Maine Quaker.  
He was much heavier than ordinary men,  
and his second wife was a very large woman.  
His weight was 300 pounds and hers 240  
pounds. He had a carriage made especially  
for their accommodation. It took quite a  
strong horse to draw this vehicle when  
freighted with 600 pounds of humanity.  
He traveled much about the country, his  
size making him quite a curiosity, and  
picked up his living as he went along.—

hope he'll get ten years!  
Court Attendant—What did the man do?  
Woman—Do? Why, he's a school teacher,  
and every morning he gives what he calls  
a music lesson, but what it really amounts  
to is that the poor little dears have to hear  
him sing. "This but a little faded flower,"  
and "Only a pansy blossom," and the little  
dears have to stay in their seats and hear  
him. It's cruelty to children—that's what  
it is—the monster!—Chatter.

West Point Cadets Spend No Money.  
One strange feature is that none of the  
men ever spend any money. The govern-  
ment pays each student a monthly salary  
of \$45, of which \$10 is for board, about five  
or six dollars for washing, and the rest  
for stamps, soap and clothing. But the  
money is never given to the cadets. They  
receive orders or drafts for what they need,  
and are supplied by the commissary depart-  
ment with every article they need in the  
whole four years' course.—Cor. Philadel-

TOLD BY A LION TAMER.  
A Man Who Has Done Service in the  
Hamburg Mart for Wild Beasts.

Cleveland for more than a year had a  
gentle lion tamer. He came without  
herald or the blast of trumpets, and when  
he found that there were no beasts of the  
jungle upon which to exercise his powers  
he settled down very quietly as a me-  
chanic. He was not fond of boasting of  
his achievements and his peculiar vocation  
was known only to a small circle of  
friends. His name is Oscar Scheikron and  
he was employed by the Schneider & Tren-  
kamp company. He received an offer from  
Capt. Paul Boyton and he left this city  
for Chicago to train a number of sea lions  
for the noted voyager. On the eve of his  
departure Scheikron made a chance visit  
to a book store on the public square, the  
proprietor of which is among his acquaint-  
ances. He mentioned the fact that he was  
about to leave the city and, in a conversa-  
tion with a small party of gentlemen as-  
sembled, recounted some of his experiences.  
Scheikron is a German, and the greater  
part of his life has been spent in the land  
of his knicker. He learned his location in  
Hamburg, probably the greatest center in  
the world for dealers in wild animals, and  
he has been employed in a large number of  
zoological gardens and by many circus  
proprietors. He is of medium height and  
slender build. In speaking of him, however,  
one of Scheikron's auditors said that part  
of his power lay in his eyes. They were dark  
and very piercing, he said, and when Schei-  
kron grew earnest they flashed in a way that,  
it was conjectured, would be very effective  
when the "lion was a lashing of his tail."  
Scheikron said when a young man applied  
in Hamburg as a lion tamer he was im-  
mediately led to a cage of wild beasts to learn  
how they would act in his presence. If  
they displayed a desire to seize him the  
young man's application was rejected, but  
if they shrank from him or remained pas-  
sive he was considered worthy of additional  
tests.

Scheikron said that immediately after  
the arrival of any sort of animal from the  
jungle or forests it was the duty of the  
tamer to enter the cage. The fact is appre-  
ciated that the first venture of the tamer  
into the cage is attended with serious  
danger, and it is argued that it may as well  
be encountered in the beginning. In enter-  
ing the cage the tamer is armed with a  
heavy knife and revolver, that he may be  
able to defend himself if the beast should  
pass other safeguards in its efforts to spring  
upon him. The other safeguards are two  
in number. The first one that almost in-  
variably proves effective is to have a circle  
of men surround the cage. They are  
armed with long iron rods, red hot at the  
ends, which are interposed between the  
man and the animal when the latter is  
about to spring. A sliding gate is also ar-  
ranged so that it may be shoved in the way  
of the animal if it shows a disposition to  
disregard the hot irons.

In Scheikron's estimation the taming of  
tigers, leopards, and panthers is by far the  
most dangerous feature of his calling. He  
said that no matter how long they had  
been in captivity they could never be trust-  
ed. For the lions, however, he expressed  
admiration, and he related the story of a  
lion that had saved his life. Scheikron  
said that in entering the cage containing a  
number of animals one day he slipped and  
fell to his knees. He recovered himself im-  
mediately, but before a tiger had  
sprung upon him. A young lion that had  
been his special pet always occupied a  
position behind him, and on that occasion  
befriended him by engaging in a conflict  
with the tiger, and causing the latter to  
lose interest in the attack on Scheikron.  
He said that he had always been careful,  
and aside from that experience had no  
narrow escapes.—Cleveland Leader.

AN OPEN LETTER

From a Well-known Druggist—"Positive  
Care for Stomach Troubles."  
TO WHOM IT MAY CONCERN:  
In the summer of 1870 I was first afflicted with  
that dreaded disease, dyspepsia, and for  
over fifteen years I suffered terribly at times. In  
the meantime I tried every so-called remedy, im-  
aginable, without finding relief. Having been  
in the drug business since 1888, I determined to  
help myself if it lay in the power of medicine.  
Two years ago I succeeded in discovering a rem-  
edy. I cured me. Until I had given ample  
time for possibility of doubt, however, I kept my  
secret almost to myself, putting up the medicine  
for only a few of my sorely troubled friends,  
every one of whom was cured. I now know the  
medicine to be a positive cure, and have decided  
to put it on the market, that my discovery may  
do humanity all possible good. It will be known  
as "Kruske's Positive Dyspepsia, Liver and Kid-  
ney Cure," which is guaranteed to cure all dis-  
orders of the stomach, liver and kidneys. I have  
a number of testimonials which afflicted parties  
may be interested in.

The Phillies and Bisons, Players League, Put up a School Boy Exhibition.

### PHILADELPHIA MAKES TWENTY-EIGHT BASE HITS AND THIRTY RUNS.

Ten Two-Base Hits and Two Home Runs. Chicago Nationals Win an Easy Victory—Some Fair Games.

### PLAYERS LEAGUE.

CHICAGO, June 26.—The Chicago White Stockings again defeated the Boston to-day at Brotherhood park, in a game that was marked by good, clean hitting on the part of Chicago. The features of the game were the hitting and fielding of Pfeffer, Comisky's general work, and difficult running catches by Brown and Dyer. Attendance, 3,612. It was ladies' day and 800 of them were present, making the total attendance 3,412. Score: Chicago.....1 3 0 0 0 0 2 1 3-10 Boston.....2 2 0 0 0 0 0 2-6

Two-base hits, Farrell, Duffy, Pfeffer, Kelly. Three-base hits, Baldwin. Home run, Pfeffer. Struck out, Chicago, 2; Boston, 2. Umpires, Barnes and Gaffney. Base hits, Chicago, 17; Boston, 8. Errors, Chicago, 3; Boston, 3. Batteries, Baldwin and Farrell; Kilroy and Kelly.

### PITTSBURG, 9; NEW YORK, 10.

PITTSBURG, Pa., June 26.—The Pittsburgh Players' league team was defeated again to-day by New York. Attendance, 1,800. Score: Pittsburgh.....1 4 0 3 0 1 0 0-9 New York.....2 0 2 4 0 0 0 2-10

Umpires, Ferguson and Holt.

### CLEVELAND WINS EASILY.

CLEVELAND, O., June 26.—The Brooklyn Players' club could not hit Gruber to-day, and Cleveland won a comparatively easy victory. Attendance, including ladies free, 1,700. Score: Brooklyn.....1 0 0 2 0 0 0 2-7 Cleveland.....0 0 0 0 0 0 0 2-1

Base hits, Cleveland, 10; Brooklyn, 5. Two-base hits, Browning and Larkin. Three-base hit, Radford. Struck out, Gruber, Gruber, Joyce, Andrews, Kinslow, Murphy. Time, 1:46. Umpires, Mathews and Leach. Batteries, Gruber and Sutcliffe; Murphy and Kinslow. Errors, Cleveland, 5; Brooklyn, 5.

### NATIONAL LEAGUE.

PITTSBURG, June 26.—The Alleghenys were shut out by the Bostons this afternoon. Clarkson was as effective as ever, while the home team's new pitcher, Bowman, was hit hard and freely. Attendance, 300. Score: Boston.....3 0 1 0 2 0 0 0-6 Pittsburgh.....0 0 0 0 0 0 0 0-0

Two-base hits, McGarr, Laroque. Struck out, by Bowman, 3; Clarkson, 1. Time, 2:30. Umpires, Getzner and Wilson. Base hits, Allegheny, 4; Boston, 3. Errors, Allegheny, 2; Boston, 3. Batteries, Bowman and Decker; Clarkson and Bennett.

### AN EASY VICTORY FOR CHICAGO.

CHICAGO, June 26.—The Chicago bunched their hits to-day and won as they pleased, while Brooklyn could do nothing with Luby's delivery, and their errors were very costly. Attendance, 1,398. Score: Chicago.....4 0 0 2 0 0 0 0-11 Brooklyn.....0 4 1 0 0 0 0 0-5

Base hits, Chicago, 6; Brooklyn, 4. Two-base hit, Earle. Three-base hit, Wilmot. Home run, Earle. Luby, 4; Struck out, by Luby, 4; by Terry, 2. Umpire, Linnick.

### SMITH PITCHES A GREAT GAME.

CLEVELAND, June 26.—Smith was very effective for the Philadelphia National league team in to-day's game and Cleveland scarcely touched him. Attendance, 400. Score: Cleveland.....0 0 0 3 0 0 1 0-4 Philadelphia.....1 1 1 0 2 1 2 0-8

Base hits, Cleveland, 4; Philadelphia, 10. Errors, Cleveland, 2; Philadelphia, 5. Three-base hits, Myers, McAnley, McKean. Struck out, Mayer, Daly, Gilks, Wadsworth. Batteries, Wadsworth and Zimmer; Smith and Clements. Time, 1:35. Umpire, Powers.

### Split in the Turner Band.

New York, June 26.—The North American Turner Band held a special session to-day for the purpose of closing up unfinished business. The convention then adjourned to meet in June, 1892, at Washington, D. C. The New York Centralverein feels very sore at the adoption by the convention of a socialistic platform, and it is probable that the New York society will withdraw from the organization.

### Train Plunges Into a Lake.

TROY, N. Y., June 26.—This morning the locomotive, baggage car and two passenger coaches of a train on the Lake branch of the Delaware & Hudson railway ran into Glen Lake, three miles north of Glen Falls. The locomotive was overturned. Most of the passengers were in the rear car, which did not leave the track, and none was seriously injured. The rails spread. The water was not deep.

### A Spirited Fight.

New York, June 26.—A spirited two-ounce glove fight took place at Centreport, L. I., between Spider Kelly, of Harlem, and Benny Murphy, of England. Murphy was knocked out in the third round.

### Cornell Outwits Pennsylvania.

New London, Conn., June 26.—The race between the Cornell and Pennsylvania varsity crews resulted in a victory for Cornell by five and a half lengths.

### A DISAPPOINTED LOVER.

MILWAUKEE, June 26.—Heavily manacled and looking the very picture of baffled revenge, Otto Neumann was landed in the county jail at 10 o'clock this morning for attempting to shoot pretty 19-year-old Maggie Klutz, of 539 Fifth avenue because she refused to encourage his attentions. Several witnesses of the sensational tragedy, which occurred between 8 and 9 o'clock, near the home of the young girl, describe it as a daring and apparently deep-laid plot. Miss Klutz was walking from her home to the street car to go down town. Ernest Hiller, her step-brother, accompanied her. They had not gone more than two blocks when a horse and carriage dashed up along side them and a man with a drawn revolver jumped out. Miss Klutz recognized the fellow and uttering a shriek at tempted to run. Hiller jumped between the girl and the would-be murderer, when Neuman turned his gun upon the young man. "I will kill you too," he hissed. Hiller then jumped out of the way. Neuman took a cool deliberate aim at the half-fainting girl and fired; but the bullet missed its mark. Neuman then jumped into the rig and dashed his horses into a run, down Gross street and toward the city limits. Deputy Sheriff Long happened along in less than a minute after the shooting occurred. He grasped the situation in an instant. Jumping into a butcher's wagon, he started in pursuit. A mile outside of the city, Neuman's horse gave out. He took to the woods as did Officer Long, who overtook him and brought him to the police station after an exciting race and a lively tussle.

### OLD SOL'S SMILES.

Cause Nine Deaths and Sixteen Prostrations in St. Louis.

St. Louis, June 26.—The weather since last Sunday has been the hottest of the season and the mercury has ranged higher than for any corresponding day in June for several years. Yesterday the thermometer ranged from 90 to 98 in the shade and up to 3 P. M. to-day nine deaths and sixteen prostrations had been caused by the heat.

### Preferred Death to Imprisonment.

New Haven, Conn., June 26.—Lucian W. Sperry, one of New Haven's most prominent and respected citizens not many years since, shot and killed himself this morning at 11 o'clock. He was 70 years old and had served the city as mayor and representative in the legislature. The suicide was caused by financial troubles. Mr. Sperry was some years ago appointed trustee of an estate valued at \$16,000. Within the past week relatives have been trying to get control of the estate and Mr. Sperry was ordered by the court to render his account. He could account for but \$6,000 and \$7,000 and it seems preferred death to imprisonment.

### Louisiana Hopelessly Lost.

New Orleans, June 26.—The Times-Democrat's Jackson, Miss., special says: The state republican committee met here to discuss what action to take in regard to putting out candidates to the constitutional convention. The committee decided to make no nominations from the state at large, but recommended the county committees to put out candidates in every county where there is a fighting chance to elect them.

### Charged With Attempted Bribery.

Louisville, Ky., June 26.—A warrant has been sent here from Madison, Wis., for the arrest on a charge of bribery of Herman Mosler, of the firm of Oppenheimer & Co., liquor dealers. It is charged that Mosler attempted to bribe the collector of internal revenue at Madison.

### Illinois Central Cars Boycotted.

CAIRO, Ill., June 26.—A committee of the strikers came here to-day, and on their orders every freight train between Cairo and Centralia, on the Illinois Central road was side-tracked. The passenger coaches were detached from two trains and local roads were notified not to handle Central cars going to other lines.

### Not Hazel, but Mary.

Denver, Col., June 26.—Mrs. Gigax, who resides at No. 2704 Market street, this evening identified the body of the suicide who yesterday was thought to be Hazel Lillis, of Kansas City, as Mary Laden, of Kansas City.

### CHICAGO MARKETS.

CHICAGO, June 26.—The leading wheat futures ranged as follows:

### AN IMMENSE PETITION.

In Favor of License Purchase Presented to The English Commons.

Six Hundred Thousand Signatures Attached to The Memorial—The Sultan Issues a Wholesale Pardon.

### ENGLAND.

LONDON, June 26.—A huge petition in favor of license purchase was presented in the house of commons to-night. It was got up by publicans and was presented in the shape of three immense rolls of paper bearing 600,000 signatures, which, if stretched out in a line, would extend five miles. The petition was encased in three cylinders eight feet high, which were rolled in and placed before the speaker's desk, blocking the view between the benches. Mr. Labouchere suggested that members unable to be seen or heard should move the cylinders. Mr. McNeill proposed that the contents be examined. Sir Whitford Lawson moved that the clerk of the house read the petition and verify the signatures. (Laughter.) The speaker said that the motion was out of order and he directed that the cylinders be removed, as the formal presentation of the petition was sufficient.

### CRETE.

CANEA, June 26.—The sultan has pardoned all prisoners convicted under the common law of the island of Crete whose sentences do not exceed three years.

### ITALY.

ROME, June 26.—There was a heated debate at the meeting of the municipal council last night in regard to the bill introduced into the chamber of deputies by Prime Minister Crispi to assist in the reorganization of the municipality. At the conclusion of the discussion all the members of the council except Minister Garibaldi resigned as a protest against the premier's measure. Signor Garibaldi declared that he would retain his seat. His friends cheered him heartily. The reporters who were present interfered and an altercation with Garibaldi's opponents in the audience ensued. It was found necessary to call in the police to quell the disturbance.

### GERMANY.

BERLIN, June 26.—Seventy houses have been destroyed by fire at Oldenberg.

Chancellor Von Caprivi's first soiree was given this evening and was attended by representatives of all parties except the socialists. Dr. Windthorst chatted with ex-Minister Von Puttkamer. Major Wissmann was treated with great consideration and received many compliments upon the honor bestowed upon him by the emperor.

### NOVA SCOTIA.

HALIFAX, N. S., June 26.—The lieutenant governor of Nova Scotia, Archibald Woodbury McLellan, died this morning. His health has been failing for upwards of two years.

Twelve hundred coal miners are out on a strike. The men object to the system of "docking" a whole box of coal for short measure or stone. Everything at the Spring Hill colliery, the largest mine in Nova Scotia, is at a standstill.

### ITALY.

ROME, June 26.—The government has appointed an administrator of the municipality of this city.

The government has issued an official denial of the rumors that cholera has appeared in Italy. It is announced that the whole country is in excellent health.

### CENTRAL AMERICA.

SAN SALVADOR, June 26.—The supreme provisional government decided yesterday to place for the present the different branches of the administration under one portfolio, which will be in charge of General Benjamine Molina Gurolo.

### EGYPT.

CAIRO, June 26.—It is reported that Osman Digma has left Tokar and is marching northward with a large force.

### TURKEY.

CONSTANTINOPLE, June 26.—Serious conflicts are reported between Armenians and Kurds, in which many have been killed on both sides.

### NO COMPROMISE POSSIBLE.

Illinois Central Officials Refuse to Discharge Superintendent Russell.

CHICAGO, June 26.—A crisis in the big strike of the Illinois Central trainmen was reached this evening. After an all-day session the conference between the strikers, committee and the Illinois Central officials ended with a positive refusal on the part of the railroad company to discharge Superintendent Russell. This is the ultimatum as far as the company is concerned. The ultimatum of the employees and indeed of the occupation of the strike had been a demand for Russell's discharge, the reasons given being his alleged general obnoxiousness.

When the conference broke up the men went at once to Eighteenth street to report the result at the strikers' headquarters. Speculation was rife as to whether a general strike throughout the Illinois Central system would be ordered and a gigantic struggle ensue. Up to to-day only the divisions of the Illinois Central adjacent to Chicago are affected. How far the lines of other companies would be involved was also the subject of much discussion among those interested.

### "What More Can We Ask?"

Since the Milwaukee & Northern have furnished us two trains each way to Chicago & Milwaukee and by the last change of these being a limited service Chicago & Milwaukee 10:30 P. M., arriving at Ishpeming 5:19 A. M., Negaunee 8:28 A. M. and Marquette, 9 A. M., in other words depressing the time about six hours, it would seem our wishes have been anticipated and that this gigantic stride toward placing the upper peninsula on an equal footing with other sections in regard to rapid transit by the M. & N. R. Co. can but meet the approval of our citizens and secure their patronage for this enterprising line. 17v1

### IN SOLID COAL.

End of The Long Struggle to Reach the Hill Farm Mine Near at Hand.

DUNBAR, Pa., June 26.—At last the end seems near. The miners are in the solid coal, which forms the line between the Mahoning and the Hill Farm mines. At 6 o'clock this evening they had gone seven feet in the coal; the drill hole had been advanced ten feet. The coal was solid and hard and up to that time it was unnecessary to timber any. If the coal continues as favorable the men will be through some time in the early morning hours. It all depends on what they find on the other side. If there are no gases, the work of recovery will proceed very rapidly. If gases are there, it may be several hours before the fate of the men is known.

### Forecast of the Weather.

WASHINGTON, D. C., June 26.—8 P. M.—The signal service reports the following as its forecast for the next twenty-four hours: For Michigan and Wisconsin: Fair; slightly warmer; except stationary temperature in southern lower Michigan and southwestern Wisconsin; winds becoming southerly; severe local storms in western Wisconsin.

### A Humane Doctor.

Many years ago there lived in a Maine village Mr. C., who was the horse doctor of the village and country around. He believed that many of the old horses impoverished the owner and that it was humane that they should be killed; so in the absence of any society for the prevention of cruelty, he sometimes acted as such. Mr. B., who lived a little out of the village, had an old, feeble horse that had become sick and he called on Mr. C. and asked him what to give the beast. Said Mr. C.: "I had one sick and I gave him a pint of kerosene oil." Mr. B. returned home and promptly administered the oil. The result was that the animal died. Mr. C. had started at once to find Mr. C. "I thought you gave him a pint of kerosene oil," said he. "I did," said Mr. C. "But," said Mr. B. "I gave mine a pint of kerosene oil and it killed him." "So it did mine," the doctor replied.—Lewiston Journal.

### About Wedding Rings.

There is less change in wedding rings than in anything else in the jewelry line. The wedding ring is about the same today as it was a century ago. The marriage token can hardly be improved upon. It is a ring of pure gold. It is softly rounded, and if you hang it on a piece of string and strike it gently it will ring out an indescribably soft and sweet sound. Ladies often wear numerous rings which carry no significance, except, perhaps, in some instances a hint of the possession of wealth. Twenty-five years ago it was unusual to see a woman wearing more than one ring on either hand, but now the more one can crowd on her dainty digits the better she appears to be pleased. While women are almost incessantly mindful of the harmony of their dress, they jumble diamonds, rubies, pearls, garnets and other precious stones together in ridiculous confusion.—Jewelers' Weekly.

### Abundant Halibut in Alaska.

It was while on the cruise of the United States steamer "Albatross" that we caught the halibut. One day, while she was lying at anchor in Killisnoe harbor, Dr. Willoughby came to me quietly and whispered: "I've found a bank near by where the wild halibut disports himself. True, he is too tame to be game, but we can have a big day among the big fish."

Our men moved in three files and, within half a mile of the shore, we anchored in seven fathoms of water and went to fishing. Had we been provided with an automatic apparatus that would lower our hooks to the bottom and immediately haul them up again we should have had better fare, for then we could have simply looked on and kept in out of the wet. The bottom of the sea must have been paved with chicken halibut weighing from twenty to forty pounds.—Sicks Co. Philadelphia Times.

### A Compliment of Senator Pugh.

Senator Pugh, of Alabama, has a habit of talking in such a loud tone to his colleagues that he can be distinctly heard in all parts of the chamber. A rather amusing incident occurred as a result of the senator's bad habit. Senator Daniel, of Virginia, had concluded a long speech on the silver question and was mopping the perspiration from his forehead. For then we could have simply looked on and kept in out of the wet. The bottom of the sea must have been paved with chicken halibut weighing from twenty to forty pounds.—Sicks Co. Philadelphia Times.

**CUT DOWN IN HIS PRIME.**

Julian M. Case, Well Known Resident of This City, Dies Suddenly in London.

**MARQUETTE TEAM PUTS UP YELLOW BALL AND IS BEATEN AGAIN.**

Upper Peninsula Conference of Y. M. C. A. Opens Its Sessions—Baraga Ball Team Challenges Tail-Enders.

**Death of Julian M. Case.**  
Julian M. Case died suddenly in London on Thursday. The sad intelligence reached this city yesterday morning by cablegram from Mr. Andrews, to J. M. Congyear. From the details now at hand it appears that Mr. Case died quite suddenly sometime Thursday from a stroke of apoplexy or some similar affection, the immediate cause of death being given as the bursting of a blood vessel in the brain. Mrs. Case was present at the time and will sail for this country with the body on Saturday.

Julian M. Case was about forty-five years of age and was born at or near Lansing. He came to Marquette in 1880 and has been identified with a number of heavy land and mining deals. His sociable nature and accessibility made him one of the best known residents of this city in other portions of the country. His father, Hon. Daniel L. Case, is still living at Lansing and was, many years ago, auditor-general of this state. Mr. Case is survived by his wife (and four children, Daniel L., the oldest son, Miss Sophie, Rex and a younger boy, Mrs. Richard Blake is a sister and Mr. Lee Peck, of the Saginaw mine, a brother of Mrs. Case. Julian M. Case was an energetic business man and personally popular and the news of his death will be received with sincere regret.

Mr. Case's business in England was the formation of a company to work the marble quarries of this county, in which he had large interests. He believed there was a great future for Marquette marble and that the property was a very valuable one. Reports received from time to time indicated that he was meeting with success in his efforts toward the development of the property. Just what is the present status of the matter and how it will be affected by his untimely death is not known.

**Jaundice-Breeding Ball.**  
Marquette played very yellow ball indeed yesterday. With the exception of Birmingham the in-field was perfectly rank. Thorpe made his first appearance behind the bat and played a fine game. Wilder pitched quite well but was erratic at times. Bohn's superiority over Wilder, timely bunching of hits and a round dozen errors, eleven of which were made by three in-field players, gave Ishpeming the game. The accession of the new men has some, what strengthened Marquette but the weakness of the in-field prevents the team from reaching the speed of the class in which it is entered.

**SCORE BY INNINGS**  
Ishpeming... 2 2 2 0 0 6 0 0 —12  
Marquette... 1 0 0 0 3 0 0 0 —4  
Base hits, Ishpeming, 12; Marquette, 9. Assists, Ishpeming, 6; Marquette, 14. Errors, Marquette, 12; Ishpeming, 2. Two-base hits, Carney, (2); Truby, Dobbins. Bases on balls, off Wilder, 4; off Bohn, 4. Hit by pitcher, Wilder, 2. Struck out, by Wilder, 4; by Bohn, 2. Passed balls, Thorpe, 3; Dobbins, 3. Wild pitches, Wilder, 4.

**Upper Peninsula Conference.**  
The pretty auditorium of the Baptist church was comfortably filled last evening at the first session of the Upper Peninsula conference of Young Men's Christian Associations. After a brief song service Rev. Dr. Wyllys Hall, of St. Paul's church, delivered a short address of welcome to which J. W. Sutton, Esq., of Sault Ste. Marie, responded. Rev. J. M. Barkley, of Detroit gave the address of the evening. His theme was "Great Expectations" and in a clear and common sense way he showed what the community had a right to expect from the Young Men's Christian Association and what the association had a right to expect from the community.

About twenty-five delegates are now present at the conference and at least thirty more are expected in to-day. The program for the three sessions today follows:

**MORNING.**  
Devotional exercises.  
Business session.  
Reports from delegates on condition of young men in cities without association.  
Is there need for special work on behalf of miners as a class, and if so how can this work best be accomplished—Rev. Isaac Wilcox, Hancock; Rev. C. C. Turner, Escanaba.

**AFTERNOON.**  
Prayer service.  
Hints on securing funds.—Mr. James Pen-dill.  
What are the first steps necessary to secure an association in a new field.—H. M. Clark, State Sec'y.  
What is the work of a district committee.—F. H. Clark, Gen. Sec'y, Marquette.  
Question drawer.—G. F. Grand, Gen. Sec'y, Sault Ste. Marie.

**EVENING.**  
Devotional exercises.  
The state work and the Flint convention.  
What is the Young Men's Christian Association—L. F. Newman, Gen. Sec'y, Detroit.

**Challenge from Baraga.**  
The base ball team of Baraga, that thriving village among the saw-logs, is anxious to have a go at Marquette, the tail-enders of the Upper Peninsula league. Harry Coddington, of Baraga, writes the MINING JOURNAL:

"The Baraga base ball club has won seven games and lost but two. Next Sunday a match will be played with Ontonagon. After that we would like to arrange for a game with Marquette. As that team has not won a game the Baraga boys believe they can add one to their record."

This letter was written before yesterday's game and Mr. Coddington spoke more truly than he knew. Possibly by strenuous exertion Marquette might be able to beat the Baraga amateurs, and thus break the spell of her six defeats.

**Distinguished Visitors Coming.**  
A meeting of the British Iron and Steel Institute and German Engineers and Ironmasters will be held in New York during the latter part of September and the first week of October. This meeting is the result of an invitation sent to the British Iron and Steel Institute from the American Institute of Mining Engineers, American Iron and Steel Association, the United States Association of Charcoal Iron Workers, American Society of Civil Engineers and the American Society of Mechanical Engineers. Advances at present indicate that there will be about two hundred and fifty members of the British Iron and Steel Institute and about one hundred and twenty-five German Engineers and Ironmasters.

Elaborate preparations are making at various metal centers to receive these distinguished visitors. The American committee of arrangements and reception has been selected from among the prominent engineers and iron and steel masters of the country. Andrew Carnegie is chairman of the committee, George A. Crocker, treasurer and C. Kirchoff, Jr., secretary. The upper peninsula members of the committee are: J. M. Longyear, R. A. Parker, Marquette; J. Parke Channing, Ishpeming; Alex. Maitland, Negaunee; Frank M. Stanton, Houghton; Johnson Vivian, Calumet; John Daniel, Red Jacket.

After concluding their sessions in New York the visitors will go to Pittsburgh and thence to Chicago. There the party will divide, one section going to the southern and the other to the Lake Superior region. The party will leave Chicago on the night of October 14th. The next day, October 15th, the Chapin mine will be visited. October 16th will be given to the Gogebic range and October 17th and 18th to the copper mines. Part of the visitors will spend Sunday, October 19th, in the copper country, while others will come down to Marquette by steamer. Two days, October 20th and 21st, will be given to the Marquette range mines, probably including a stay of some hours in this city. The last day, October 22nd, will be given to an examination of the St. Mary's canal and locks, the visitors departing thence to New York.

**Scandinavian Celebration.**  
The Skandia societies of this city and of Republic will hold their annual celebration here on Saturday next. The Republic society will arrive on the 9 o'clock train and the united bodies will proceed to Meeske & Hoch's garden where a picnic will be held. In the evening there will be a ball in the pavilion for which the Marquette City band will furnish music. The arrangements for the occasion are in the hands of a committee consisting of Fred. Anderson, Charles Hartwig, Hans Paulsen, A. Exstrom, J. Carlson and Gus Larson. Refreshments will be served and the public is cordially invited to attend.

**Gross Carelessness.**  
The contractors on the Arch street sewer, or whoever is responsible, need a sharp pulling up. Thursday evening they left the trench at Pine street guarded only by a board laid across two barrels with no lights displayed. Two ladies drove square upon the obstruction before discovering it. The horse was naturally frightened and ran away and the two occupants of the carriage narrowly escaped serious injury.

**\$2,000,000 Worth Sold.**  
Sales of Ridpath's "World" now aggregate over 1,000,000 sets, amounting to more than \$2,000,000 worth, and there is no apparent decrease in the demand for the work.

**Prof. A. B. Prescott, of Michigan university, says: Ridpath's "History of the World" is a work I can heartily recommend. For family reading it possesses great educational value. As a work of reference in frequent and habitual use it will be of great service to any one, giving ready answers to questions that arise every day.**

Don't forget Gordon's D. F. cigars when you want a good smoke.

**Alone at Last.**  
A beautiful engraving free. It is an exact copy of an oil painting by a celebrated French artist, size 10x24 inches. It won the first prize in the Paris salon of 1883, and was bought by a noted connoisseur for \$8,000. If you purchase three ten cent packages of Wax Starch from your grocer, he will give you one of the above engravings. 626e2
