CYCLONE AT ST. PAUL.

A Frightful Windstorm Lays Waste the Country Surrounding the City of St. Paul

LATEST ESTIMATES PLACE THE LOSS OF LIFE AT ONE HUNDRED.

Over One Hundred Pleasure Seekers at the Small Lakes in the Vicinity Injured. Excursion Steamer Sunk.

A TERRIFIC CYCLONE. ST. PAUL, Minn., July 13.—A cyclone struck the northern edge of this city this afternoon, and the latest estimate of the loss of life is thirty-six.

LOSS OF LIFE ENORMOUS. ST. PAUL, Minn., July 13.—It is reported that from eleven to twenty-five were killed at Coleman's Lake, twenty to thirty at Little Canada, two or more at Lake Joanna, several at Bass Lake, and that the cyclone also reached White Bear Lake. The first reports are from people who have come in from the devastated district, and they also report great damage to property. If White Bear Lake was in the path of the storm the loss there would be very heavy, both of life and of property, as great crowds were there to-day.

A DISASTROUS STORM. ST. PAUL, Minn., July 13.—A few minutes before 5 o'clock this afternoon the clouds which had been threatening a storm began to collect over the region of Lake McCarron, two or three miles north of this city, soon taking on the rotary motion and the terrible appearance of cyclone. Hundreds of citizens watched the clouds as they swept together and followed their course to the northwest, in which direction many friends had gone to spend the day at some of the many little lakes that are scattered over this country. Anxiety for the absent drew many down town during the evening to learn the first possible particulars of what was thought to be undoubtedly a disastrous storm. And so the reports indicated. A young man drove in from Lake Coleman soon afterward with the information that at least

TWO PERSONS HAD BEEN KILLED and over one hundred injured at that point. He had been out there with a young lady friend, and having gone after his buggy to drive home, on his return to where she had been standing, he found his companion seriously injured by the storm which had so suddenly come upon them. Other reports followed thick and fast, each being a little worse than what had preceded it. North and east of the city there are a great number of little lakes which are sought by multitudes every Sunday, and on the shores of these lakes many campers pass the hot months of the summer. Lake Coleman is one of these, and the damage there was very heavy. When the storm struck the little lake the boat house was lifted up bodily and overturned in the water, and also a boat load of persons was given similar treatment. Other

BUILDINGS WERE DEMOLISHED or badly wrecked. Passing from this starting point the cyclone struck Lake Joanna, Lake Gervais, Lake Vadnais, Little Canada and passed on about four miles east of White Bear Lake. The passengers on the St. Paul & Duluth train which left White Bear at 4:55 were approaching Gladstone when they observed the cyclone forming and watched its whirling motion with interest rather than fear or excitement. Not so with the engineer, however. He saw the threatening aspect of the sky and with a startled look ahead to see if all was clear, he took a firmer grip on the throttle and the engine leaped forward under his touch. His

JUDGMENT AND QUICK ACTION undoubtedly saved the lives of the whole train load, for the twisting, terrifying, devastating whirlwind crossed the track scarcely more than a minute after the train had passed. The help that had been called for from the stricken districts was at once sent to them, doctors and other assistants going as fast as they could be taken. The bodies of many of the victims were brought to the city this evening and turned over to friends. The place where the cyclone struck the ground and caused loss of life was on the shore of Lake Gervais, where J. H. Schurmeir, of this city, had a summer cottage, and in a little basin where Simon Good was also located. The

FUNNEL SHAPED CLOUD swooped down on them, and demolished their dwellings and a number of other buildings in the same neighborhood. The camp of Colonel Helleher, of this city, with a large party was blown down, but the party all escaped injury. In the wreck of the Schurmeir house, however, five were killed, and ten were injured there and at the Good cottage. Following are the killed: Mrs. J. H. Schurmeir, of St. Paul; Charles Schurmeir, of St. Paul; Rev. Mr. Phaeffer, of Brennan, Texas, who was visiting Mr. Schurmeir; George Miller, of the First National bank of this city; "Pete," Schurmeir's driver, whose last name is not known. The bodies of Mrs. Schurmeir, her son and Mr. Phaeffer

HAVE NOT YET BEEN FOUND. The injured were: J. H. Schurmeir, body wounded; Charles Good, serious injury to scalp; Mrs. Phaeffer, shoulder broken; Thomas Barnard, slightly hurt; Mrs. George A. Miller, injured on head, shoulder and foot; Miss Carrie Miss, wounded on head and shoulders; Clark Hausen, bruised hip; Roy Good, three scalp wounds and injury to the spine; Mr. Genier and Miss Minnie Miss, slightly hurt. It is said that the cyclone was confined to a district only three

and a half miles long, and that the worst damage was within the limit of half a mile.

LOSS INCREASED TO FIFTY. ST. PAUL, Minn., July 13.—Midnight—It is just learned from Police Officer Shippapaz, who came in from Lake Gervais, with the bodies of two persons killed by the cyclone, that twelve to fifteen row boats, containing from two to five persons each, were let by the boathouse keeper at Coleman's hotel, shortly before the tornado swept the lake. It is feared that all have gone to the bottom. The names of those who rented the boats are unknown. The list kept by the boatman was destroyed, together with his boathouse. This will increase the loss to at least fifty.

DEATH LIST ONE HUNDRED. ST. PAUL, Minn., July 13.—The report has reached this city that a cyclone or hurricane struck the little city of Lake City, located on Lake Pepin, about seventy miles below here, and that a large number of persons were killed by the sinking of a steamer. The steamer Sea Wing was coming up the lake at about 9 o'clock to-night, and when opposite the city the storm struck it fairly end sent it to the bottom. There were on board some 150 people from Diamond Bluff, and about fifty more were on a large schooner which was in tow. The loss of life runs over one hundred at the lowest.

BLOWN UP AGAIN. A Second Explosion in the Steamer Tioga—Two Persons Injured.

Speculation as to What Mysterious Substance is in the Hold—A Score of Dead From the First Disaster.

CHICAGO, Ill., July 13.—To-night another terrific explosion occurred on the big freight steamer Tioga that was wrecked last evening by an unexplained concussion in the hold. Fire again broke out, and for a few moments it seemed as if the huge vessel and cargo worth a quarter million dollars was doomed. The timely presence of fire engines, however, soon put a different face on matters, and the fire in a short interval, though still raging fiercely, seemed well under control. Unlike last evening's explosion, to-night's produced no loss of life, and only two persons were injured. The second disaster puts out of the question all attempts to learn to a certainty the number of victims in the first explosion. Up to midnight thirteen burned and mangled corpses had been taken from the fatal hold, and one of the wounded in the county hospital had died. Conservative estimates put the probable fatalities at a total of at least twenty.

What caused the explosion was, late to-night, still a disputed question. One theory was that a new supply of explosive vapor had gathered in the hold. Capt. Phelps, in command of the vessel, expressed the opinion, however, that something else besides oil or its gases was in the hold, but that he would not venture to say. This afternoon a coroner's jury was impaneled, which after viewing the wreck adjourned until next Thursday. James Burke, chief engineer of the Home Insurance building, is foreman of the jury. The other members are mostly commercial travelers. This was Captain Phelps' first trip on the vessel, and there are rumors that all was not pleasant among his subordinates and crew. There is vague talk of spite work cutting a figure in the terrible affair, but such gossip seems impossible of verification.

The two men injured to-night were two of the wrecking crew, Hans Christensen and Thomas Johnson. They went below with a lantern to look at a suction pipe which had become clogged. Both men were taken out alive, but seriously burned and bruised.

STILL TAKING OUT BODIES. CHICAGO, July 13.—Six more bodies were recovered today from the hold of the steamer Tioga, making nineteen so far, exclusive of one of the injured who died at the hospital. One of the corpses taken out today was that of a white man; the others were negroes. Only two were identified—Louis and Henry Alexander, colored stevedores. How many more men were killed is now a growing uncertainty. Probably it would not be too much to assume thirty deaths as the correct total. Half of the hold is yet littered with wreckage from the explosions.

LIKE A ROYAL FAIR. Henry M. Stanley and Miss Tennant Wedded in Westminster.

LONDON, July 12.—Henry M. Stanley was married to Dorothy Tennant, in Westminster Abbey, at 2 o'clock this afternoon. The ceremony was performed by the Very Rev. George Bradley, D. D., Dean of Westminster, the Very Rev. Frederick William Farrar, D. D., F. R. S., Archbishop of Westminster, and the Right Rev. William Boyd Carpenter, Lord Bishop of Ripon. The service was fully choral.

LONDON, July 13.—Mr. Henry M. Stanley has not recovered from his recent indisposition. The display of homage to the great explorer and the perhaps too early leaving a sick bed in order to prevent an hour's postponement of the wedding ceremony, proved no slight ordeal to the strength of Mr. Stanley. His weakness from the malady under which he was suffering was noticeable to many of the distinguished attendants at Westminster Abbey yesterday, but it was very happily remarked, as Dr. Parke had already said, that Mr. Stanley's illness was of a temporary character. Mr. Stanley was today confined to his bed at Melchet Court. He has been overwhelmed with notes and telegrams of congratulation on his marriage.

Gold at a Premium. BUENOS AYRES, July 13.—A semi-panic prevailed on the bourse yesterday. There are rumors of failures impending. Gold is at 206.

FEDERAL ELECTION BILL.

Its Passage May Depend on Whether Republican Senators are Physically Stronger Than Democrats.

SPOONER AND FRYE ENGINEERING THE FIGHT FOR THE MEASURE.

Silver Conference Bill Goes to the President. Probable Trend of Legislation During the Present Week.

WASHINGTON NEWS. WASHINGTON, July 12.—Senator Frye and Spooner, who are a committee appointed to see how the election bill can be passed through the senate, are, by skillful manipulation, gradually closing in on the opposition. The committee has been conferring during the day. The proposition submitted to the next caucus will probably be to have a motion made in the senate to fix a time for taking a vote on the measure, and to let the fight come up on this motion. There would be no parliamentary means of limiting the debate upon it. The majority would rely on a test of physical endurance to force the vote. They would prevent adjournment and see which party would get tired first. It is reported that the republican senators will take up the apportionment bill also.

The caucus will be held Monday night. The committee has definitely decided on such a change of rules as will permit the calling for the previous question.

SILVER BILL PASSES. WASHINGTON, D. C., July 13.—The house adopted the conference report on the silver bill, to-day, by a vote of 122 yeas to 90 nays—a strict party vote. The vote was preceded by a long discussion, Mr. Conger (Ia.) and Mr. Bland (Mo.) being chief among the participants.

CONGRESSIONAL FORECAST. WASHINGTON, July 13.—Although, just before adjournment yesterday, the senate formally took up the tariff bill and thus made it the pending business for tomorrow, it will forthwith be informally laid aside, according to the present intention of the majority, while the senate takes up and considers the sundry civil appropriation bill and, probably, the Indian appropriation bill. With the possible intervention of a day for the consideration of routine measures on the calendar, the way is expected to be then clear for the beginning of the debate upon the tariff bill. The execution of the latter part of this program, however, is somewhat conditioned upon the action of the republican caucus which is expected to be held Monday night, as some senators desire to provide for action upon a special order, probably the river and harbor bill, and even the house election bill, in advance of entering upon the tariff debate.

Another effort is to be made in the house of representatives this week to secure the passage of the original package and the bankruptcy bills under the operations of a special rule, as soon as the pending land grant forfeiture bill is out of the way. To-morrow, under the regular order, is District of Columbia day in the house. The elections committee is still waiting the pleasure of the committee on rules as to when it shall call up the Virginia contested election case of Van Dusen, and the South Carolina case of Miller vs. Elliott, which are on the calendar, and it is expected that they will both be disposed of in the event that the week is not entirely consumed in the consideration of the measures above mentioned.

A NON-PARTISAN BOARD. WASHINGTON, D. C., July 13.—It is expected that the board of customs appraisement will be completed during the present week by the nomination of the four additional appraisers. These will be chosen equally from the political parties. Mr. Stachpole, a prominent lawyer of Boston, and Gen. Geo. Snowden, formerly assistant appraiser at Philadelphia, are said to be already selected for appointment. The former is a republican and the latter a democrat. There appears to be a hitch regarding the other two members of the board, although it is said that Mr. Estee, of California, will be the republican appointee, provided he will meet the requirements of the law in regard to non-engagement in any private business. The other democratic appointment is understood to lie between Commissioner Thompson, of South Carolina, Judge Somerville, of Atlanta, Mr. Peter Bennett, of New Jersey, and Mr. Sharretts, of Maryland.

Burning of The Mocking Bird. CHEBOYGAN, Mich., July 12.—The tug Mocking Bird, lying at her dock here, was discovered to be on fire at 2 o'clock this morning and was soon wrapped in flames and was drifting down stream, having burned her lines off. Capt. John Stevenson and two others of the crew jumped from the upper deck to the dock and the remainder of the crew jumped overboard on the opposite side. The tug Strohn picked up some of the crew. The Mocking Bird was insured for \$43,000 and was owned by the Reed Towing company, of Bay City.

Death of Father Mahoney. DENVER, Col., July 13.—Rev. Father Mahoney died at the residence of his sister, yesterday, from asthma and heart disease. The deceased was well known in Baltimore, Milwaukee and other western and northwestern cities. He came here three months ago for his health, and was a cousin of Col. John Arkins, of the Rocky Mountain News.

Forecast of the Weather. WASHINGTON, D. C., July 13.—S. P. M.—The signal service reports the following as its forecast for the next 24 hours: For Wisconsin and Michigan: Fair; southerly winds; cooler in western, stationary temperature in eastern portion.

MARQUETTE, MICH., JULY 14.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

THE Two Harbors Iron News is the latest journal to doff its bonnet to the public and ask a share of its patronage. The News, both in matter and typography, is an attractive paper and deserves success.

THE mildness of the Democrat's reply amounts to an acknowledgment that the new editor of the MINING JOURNAL knows a little about the past exploits, present condition and future prospects of that dauntless band, the democrats of Menominee county, after all.

WHEN Shakespeare used the language, "Like a tale told by an idiot, full of sound and fury, signifying nothing," he was merely describing, by about three centuries of anticipation, a heavy political editorial of the Escanaba Mirror. You see that the more you study the "myriad-minded" Wilton the more you find him out.

WITH regard to the gubernatorial struggle the opinion of lower peninsula journals is conflicting. It seems to be claimed with confidence that John T. Rich is strong in Detroit and vicinity. The strength of James M. Turner is alleged to lie in the northern part of the state and he points at the upper peninsula for his. As far as the MINING JOURNAL can learn, the U. P. is giving no sign on the question of the governorship, but is thinking a good deal about her own share in the prizes of political preferment.

It is said that Senator McMillan finds his senatorial duties incompatible with the onerous labors of railroad management. It is claimed that he will peremptorily refuse a re-election to the presidency of the Duluth and South Shore road at the meeting of stockholders to be held July 17th. It is also expected that he will retire from any active part in the management of the M. H. & O., M. & W. and the International Bridge company, enterprises auxiliary to the D. S. S. & A. General Thomas, a director of the road, is mentioned as the Senator's successor.

AS AN EXAMPLE. If the editor of the Escanaba Mirror had lived in the times of Torquemada and the inquisition he would, no doubt, have been high up among the professors of the noble art of torture. But during the lapse of centuries human manners have grown milder, old barbarisms have passed away and, instead of wreaking his rage upon the "human form divine," but still following the bent of his disposition, the Mirror man now merely puts rhetoric to the rack, burns grammar at the stake, ties punctuation up by the thumbs, beats the features of history out of shape and watches with fiendish vigilance for every chance to stab decent politics in the back with poisoned dagger. In the commission of all these atrocities he is perfectly safe. The law is powerless to punish him. The MINING JOURNAL, however, will, occasionally, administer a little mild correction to the delinquent, and, though it can scarcely hope to correct habits which are so deeply ingrained, it can, at least, hold him up to the younger newspaper men as an example to be shuddered at and avoided.

NO WAR JUST NOW. It seems that the Behring sea war scare had its origin in the heat-oppressed brain of some newspaper correspondent. Negotiations, according to better authority, are still pending between Mr. Blaine and Sir Julian Pauncefote. If a solution of the difficulty cannot be reached by diplomatic negotiations, it is probable that arbitration will be resorted to. These men understand their trade too well to jeopardize the peace of England and the United States, by any abrupt or arbitrary action, on account of all the seals in the Arctic waters and the whales thrown in. At the same time international peace would be safer if the United States had a sufficient navy. It is not pleasant to feel that a Tory ministry on its last legs might endeavor to restore its waning popularity by bulldozing the imperinent Yankees who have so often ruffled John Bull's temper, and trust that the bluff would win because of our disgraceful naval weakness. "In time of peace prepare for war" is a motto gray with the wisdom of centuries, but there never was a nation before this one to which it could be truly said, "Be prepared for war and you will have the certainty of peace."

ORE SHIPMENTS. According to reports from Marquette, Ashland and Escanaba up to July 9th, and from Two Harbors and Gladstone to July 2nd, the total shipments of iron ore from the Superior country for the season, amount to 3,111,790 gross tons, or 513,148 tons more than for the same period of last year. Everything goes to show that shipping facilities are over-

taxed. The rate of increase is not maintained. The shipments for the week fall nearly a hundred and twenty-five thousand tons below those of the week before. These facts confirm reports of docks, both shipping and receiving, being overwhelmed with ore and also of a lack of vessels. The increase over last year's shipments for the same portion is now furnished almost entirely by the Gogebic and Menominee ranges. The Marquette district has only an increase of 50,000 tons to her credit and the Vermilion has not reached the record of '89. The Gogebic has gained 347,178 tons and the Menominee 342,991 tons.

SOO CANAL STATISTICS. From the very interesting report of General O. M. Poe on the Sault Ste. Marie canal, we quote the following:

Following is a statement of the business of the Sault Ste. Marie Falls canal during the fiscal year ending June 30, 1890:

Number and class of vessels passed:
Side wheel steamers.....76
Screw wheel vessels.....6,806
Sail vessels.....2,884
Rafts and unregistered craft.....392

Total passages.....10,108
Freight and passenger traffic:
Coal, net tons.....1,894,433
Copper, net tons.....36,087
Flour, barrels.....2,692,730
Wheat, bushels.....19,459,796
Grain, other than wheat, bushels.....2,782,698
Iron ore, net tons.....4,494,325
Pig iron and m. f. iron, net tons.....72,163
Salt, barrels.....207,702
Silver ore, net tons.....5,905
Lumber, feet b. m.....308,092,000
Building stone, net tons.....40,828
Wool, net tons.....2,597
Hides, net tons.....465
Misc. and unclassified freight.....344,424
Number of passengers.....24,125
Total registered tonnage.....7,869,664
Total freight tonnage.....8,288,580
Total registered tonnage since opening the canal in 1855.....56,839,876

The average cost to the government for a lockage was \$7.66, and for each vessel \$3.68. The cost per ton register runs 47 mills, and per ton freight 43 mills. The average time occupied in making a lockage was forty-one minutes. The average time spent by vessels in passing locks was thirty-five minutes.

During the calendar year of 1889 there were transported through the canal 7,516,922 net tons of freight. The average distance over which this freight was carried was 790.4 miles. The total number of mile tons was 5,940,646,352. The total cost of transportation was \$8,634,346. The average cost of carrying one ton one mile was 1 1/2 mills.

Up to date the aggregate expended on this improvement since the work was turned over to the national government by the state in 1881 was \$270,597.

IN THE course of a vigorous endorsement of James M. Wilkinson's candidacy for the state treasurership, the Sault Ste. Marie News speaks as follows:

Mr. Wilkinson has been a republican wheel-horse for years and is one of the party pillars. He has been a great worker and has contributed much of the bone and sinew of political strength that have made the Upper Peninsula famous for its unswerving fealty to the party that is right and whose cause is always just. He is a republican of republicans.

The Upper Peninsula has been sidetracked for years. It has never had a state officer who could give it influential and intelligent representation in the departments where it most needs a strong man.

The lieutenant governor's shelf is not wanted at the price of everything else. Give us the office of state treasurer and J. M. Wilkinson for the office and the "old U. P." will beat its already brilliant party record.

It is a downright pleasure to The News, to assist in presenting the name of James Milton Wilkinson as the Upper Peninsula's candidate for the republican nomination for treasurer of the state of Michigan.

The republican voters of this section want that office, want Mr. Wilkinson for it and will be satisfied with nothing else.

ORE AND COAL FREIGHTS. The Marinee Review discusses this question as follows:

"We are paying the Pittsburg district more money for mining coal than at any time since the war," said a prominent producer the other day, "and yet we are not getting out enough coal. This is one of the strange features of labor-prosperity unaccepted." This is the report from all producers and shippers of Pittsburg coal. Miners wanted and such of them as are at work put in only part time. Were it not for this condition of affairs coal would be going forward more rapidly and better rates might be expected. Shipments are heavy, however, and it can be safely said that with the close of this season the bituminous dealers can figure up profits for 1889 and 1890 that will compare favorably with any other branch of the lake trade. Trade has been very good, and agreements entered into this season between the Hocking Valley and Pittsburg interests have done a great deal towards causing comfort in the business and increase profits. Production in the Hocking Valley district continues heavy, and Toledo shippers are still offering 50 cents lake freight to the head of Lake Superior, an advance of 5 cents over other Ohio ports. The rate to Milwaukee and Chicago is unchanged at 66 cents with the supply for Milwaukee fully equal to tonnage offered on the market. Carriers are also offered for nearly all of the upper lake ports at rates that have ruled for two or three weeks past.

Among the ore shipper the question of providing room for the immense tonnage moving toward Ohio docks is of most importance, but wild boats still find loads at \$1.20 from Ashland, \$1.10 from Marquette and 50 cents from Escanaba, with no indications of a change either way.

\$75 to \$250 A MONTH can be made working for us. Persons preferred who can furnish a horse and give their whole time to the business. Spare moments may be profitably employed also. A few cents in towns and cities. E. F. JOHNSON CO., 1009 Main st., Richmond, Va. 3-11-sa

Mental Telegraphy.

The most remarkable of mind reading exploits, known as the wire test, was given by J. Randolph Brown in the presence of a large party of congressmen and others.

An insulated copper wire was used. One end of it was held by Brown across his forehead. The other end was taken possession of by a gentleman selected from the party and a stranger to Brown. At a signal this gentleman placed the end of the wire upon his forehead. He opened his watch and looked at the number engraved upon it. Brown, at the other end of the wire and with his eyes blindfolded, wrote the number, figure by figure, upon a blackboard. The test was performed under such conditions as to make fraud or trickery impossible.

The gentleman who opened his watch frankly admitted that he did not know what the number was until then. The figures were small. Brown made a mistake in one figure, thinking a six was a five. The mental telegraph was true to the blunder. The figures which Brown traced upon the blackboard were exactly as the gentleman thought he saw them in the watch. There was absolutely no possibility of communicating between the watch and the blackboard wire. It was a clear case of mind telegraphing to mind. Brown has been experimenting on distances. Ex-Governor James Pollock, of Pennsylvania, held the wire at Wilmington, Del., not long ago, while Brown, at the Philadelphia end, twenty-eight miles away, successfully wrote numbers upon which Pollock fixed his mind. This wire feat of Brown's is far in advance of anything which has hitherto been performed in the way of mind reading.—Washington Cor. St. Louis Globe-Democrat.

The Twenty Moons of the Solar System. The solar system has twenty moons. Of these the earth boasts but one, Latin name Luna; Mars, two, discovered by Asaph Hall, Aug. 18, 1877, named by him Deimos and Phobos; at the suggestion of Rev. H. G. Messier, of Exton, Mass., Jupiter has four, all discovered by Galileo, who saw three of them Jan. 7, 1610, and the fourth on the 13th of the same month. As a general rule they are not called by name, but as 1, 2, 3 and 4, according to their nearness to the planet around which they revolve, the names Io, Europa, Ganymede and Callisto proposed by Mayer, having never come into general use.

Saturn has eight moons, named in order of their nearness: (1) Mimas, (2) Enceladus, (3) Tethys, (4) Dione, (5) Rhea, (6) Titan, (7) Hyperion, (8) Japetus. Titan was discovered by Huygens, March 25, 1655; Japetus, by Cassini, Oct. 25, 1671; Rhea by Cassini, Dec. 24, 1672; Tethys and Dione by Cassini, in March, 1684; Enceladus by Sir William Herschel, Aug. 28, 1789; Mimas by Sir William Herschel, September, 1789, and Hyperion by Professor Bond, of Cambridge, Mass., Sept. 13, 1848.

Uranus has four satellites, named in order of their nearness as follows: (1) Ariel, (2) Umbriel, (3) Titania and (4) Oberon. Titania and Oberon were discovered by Herschel, Jan. 11, 1787, and Umbriel by Otto Struve, Oct. 8, 1847; Ariel by Lassell, Sept. 14, 1847. Neptune, like the earth, has but one moon, but that one is enough to swell the grand total of moons in the solar system to twenty.—St. Louis Republic.

Only Three Hundred Remained. Local story tellers spin the following yarn: 'Tis said that a party of the townspeople clubbed together and visited New York city. One evening during a ramble upon the street a member of the party became separated from the others. After an ineffectual search he bethought himself of the theatre as being the most likely to attract his bucolic fellows. He chose the most pretentious edifice, paid his money and went in. At the first opportunity, between the acts, he arose and inquired in a loud voice:

"Is there a man in this hall by the name of Jones? If so, will he please stand up?" One thousand people, as the searcher afterward related it, immediately rose to their feet.

"I mean Mr. Jones, of South Dashville, Me."

Only 200 men were left standing.—Lewiston Journal.

There is more Catarrh in the section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

They All Failed. The following letter from Mr. W. A. Thomson, of Columbus, Wis., is peculiarly interesting: "My wife," says he, "has been treated for her head, stomach and nervous prostration by three doctors in New York, two in Chicago, one in Philadelphia, one in Cincinnati, and at the large institute in Buffalo for 16 months. They all failed. But one bottle of Dr. Miles' Restorative Nervine helped her wonderfully." This should be used in all headachy backaches, changes of life, nervous disturbances, fits, rheumatism, etc. Ask at H. H. Stafford & Son's drug store for a free trial bottle and Dr. Miles' new book on the Nerves and Heart.

THE PULPIT AND THE STAGE. Rev. F. M. Shroud, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and an sound and well, gaining 20 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption, beats out all other remedies when everything else fails. The greatest kindness I can do to my many thousand friends is to urge them to try it." Free trial bottles at H. H. Stafford & Son's Drug Store. Regular sizes 50c. and \$1.00.

THE PENNANT RACES.

Boston Heads the Players By a Small Margin—Ditto Brooklyn in the National.

CHICAGO CROWDS THE BEANEATERS AND THE PHILLIES LIP BROOKLYN.

Games Played Saturday—Brooklyn and Boston Give an Exhibition of Hard Slugging. Forty-Five Safe Hits.

PLAYERS' LEAGUE.

PHILADELPHIA, July 12.—The Philadelphia (P. L.) club won from Cleveland to-day in a very well-played game. Attendance, 2,508. Score:

Philadelphia... 1 0 1 1 0 3 0 0-3 Cleveland... 0 0 0 0 2 1 1 0-2

BOSTON, July 12.—Maul was effective to-day for one inning, after which he was pounded all over the field. Pittsburgh could do nothing with Daly, only making four hits. Hatfield's work at short and the catching of Sweet and Quinn were the prominent fielding features. Attendance 2,158. Score:

Boston... 0 0 3 2 1 0 2 1 4-15 Pittsburgh... 1 1 0 0 0 0 0 1-3

NEW YORK, July 12.—The Brooklyn and Buffalo (P. L.) teams indulged in a regular slugging match to-day. Score: Brooklyn... 6 8 0 1 5 2 0 0-28 Buffalo... 4 0 1 0 2 0 4 1 4-16

NEW YORK, July 12.—The New York (P. L.) defeated the Chicago by a fortunate bunching of hits early in the game. King's curves were so freely heaved that Barston was substituted. But twenty men faced Barston during the six innings, and only two base hits were made.

NEW YORK, July 12.—The New York (P. L.) defeated the Chicago by a fortunate bunching of hits early in the game. King's curves were so freely heaved that Barston was substituted.

NEW YORK, July 12.—The New York (P. L.) defeated the Chicago by a fortunate bunching of hits early in the game. King's curves were so freely heaved that Barston was substituted.

teries, Hutchinson and Kittredge; Clarkson and Bennett.

NEW YORK 18; PITTSBURG 1. NEW YORK, July 12.—The New York club defeated its Pittsburgh rivals in the easiest possible manner to-day. Score:

New York... 2 0 0 6 1 4 0 3 2-18 Pittsburgh... 0 0 1 0 0 0 0 0-1

Earned runs, New York 5; Pittsburgh none. Three base hits, Denny, Hecker, Passed ball, Decker 1. Base hits, New York 18; Pittsburgh 4. Errors, New York 1; Pittsburgh 9. Batteries, Welch and Buckley, Bowman and Decker. Umpire, Powers. Attendance, 603.

NATIONAL STANDING. Won. Lost. Per Cent. Brooklyn... 44 23 .657 Philadelphia... 41 25 .618 Cincinnati... 41 25 .618 Boston... 38 28 .574 Chicago... 35 30 .540 New York... 28 41 .406 Cleveland... 19 45 .297 Pittsburgh... 10 51 .161

NOT A CLOSED SEA. Canadian Sealers Not to be Seized Freely as Last Year. England Obtains Her Demands—Riflemen Taking Part in the German Contest Given an Elaborate Banquet.

ENGLAND. LONDON, July 12.—The comments of the American press on the attitude of Great Britain in regard to the Behring sea controversy, based apparently upon the information contained in the United Press dispatches of July 5th, are exciting much interest in England.

WITH ROSE IN HAND. Ready to pour water upon the blaze. But as soon as the fire gained an entrance to the building it spread with such startling rapidity that the men were compelled to drop the hose and flee for their lives.

A COMPLETE MASS OF RUINS. The building extended from Tenth to Eleventh streets, a distance of 300 feet, and from Nevada to Colona streets, 120 feet, and was 3 stories high.

SCORCHED AND BLISTERED. The firemen succeeded in quenching the flames in the lumber yard after it had been partially destroyed.

THE RIFLEMEN'S FEED. BERLIN, July 13.—Herr Dietersch presented at a banquet given to-day on the occasion of the closing of the shooting tournament.

GERMANY. BERLIN, July 13.—The Hamburger Nachrichten declares that the Frankfurt interview with Prince Bismarck is inexact in form and contents.

THE FEAR OF THE HORSE. An excellent and intelligent looking horse stood at the edge of the sidewalk, attached to a hitching weight.

GASTRIC JUICE AND PATHOGENIC GERMS. Drs. Kurlow and Wagner, in a paper on "The Influence of Gastric Juice on Pathogenic Germs," which they publish in The Vrach, describe the interesting experiments which they have made on this subject.

FOUND IN THE RIVER. The Body of T. H. Ferris, a Uniformed Knight of Pythias of Nebraska. MILWAUKEE, Wis., July 13.—The body of Thomas H. Ferris, a uniformed K. of P. from Geneva, Neb., was found in the river to-day.

SIX KILLED OUTRIGHT. Wagon Loaded With People Ran Into By a Locomotive in California. SAN FRANCISCO, Cal., July 13.—It is reported here to-night that a terrible accident occurred late this afternoon at Baden, twelve miles from here, near a cemetery in San Mateo county.

CHICAGO MARKETS. Chicago, July 12.—The leading wheat futures ranged as follows: BREADSTUFFS.

Table with columns: No. 2 July, Aug, Sept. Rows: Opening, High, Low, Closing.

Cash quotations were as follows: Flour, firm and unchanged. No. 2 spring wheat, 87 1/2c; No. 3 spring wheat, 81c; No. 2 red, 88c; No. 2 corn, 36 1/2c.

Boston, July 12.—Allouez Mining company (new) \$9.37; Atlantic, \$25.00; Boston & Montana, \$63.50; Calumet & Hecla, \$98.00; Catalpa, 55c; Franklin, —; Huron, \$9.00; Kearsarge, \$27.50; Osceola, \$44.50; Powable, —; Quincy, \$130.00; Santa Fe, 70c; Tamarack, \$308.00; Centennial, \$37.50.

HALF A MILLION IN ASHES.

Carey Brothers' Immense Wall Paper Manufactory, of Philadelphia, Burned to the Ground.

THE MOST COMPLETE ESTABLISHMENT OF THE KIND IN THE WORLD.

Building and Contents Go Up Like Powder. Efforts of Firemen of No Avail—Loss Placed at \$600,000.

A DESTRUCTIVE FIRE. PHILADELPHIA, July 13.—One of the most destructive fires that has occurred in this city for several years broke out about 4 o'clock this morning in the turning and planing mill of H. T. Atkinson, at Tenth street and Susquehanna avenue.

Realizing that something was wrong, he hastened to the fallen man and turning him over, discovered that he was lying in a fit or crazy. The fireman clung with the engineer. The latter taking in the situation and believing that he was wrestling with a madman, held him down close.

General John C. Fremont Dies at the Home of His Adopted Daughter. NEW YORK, July 14.—General John Charles Fremont, the first candidate of the republican party for president, died at the home of his adopted daughter, the wife of Col. H. M. Porter, (Nina Fremont) at No. 49 West Twenty-fifth street at 3:30 this afternoon.

On the following day, Wednesday, he experienced some pain, and on Thursday was worse. Matters assumed so much worse a turn on Friday that he sent for his physician. The doctor advised the sick to take a sail and get a little fresh air.

On the following morning (Saturday) the disease had developed enough to show its true character (peritonitis). But even then the case was not considered dangerous and a dispatch to that effect was sent to Seabright. Final dissolution was sudden. The general was 77 years and 6 months old to a day at the time of his death.

It Was Warm. KANSAS CITY, Mo., July 13.—The thermometer broke the local record for this season to-day by registering in the signal service office 102 degrees above zero and on the streets reliable thermometers marked 106 and 108.

The Fear of the Horse. An excellent and intelligent looking horse stood at the edge of the sidewalk, attached to a hitching weight.

Two Ideas of Fair Play. A good story is told of a clergyman who was angling one day for trout on a highland stream when he came across some boys gudding, with their sleeves and trousers rolled up.

Watch 'Em. An English philosopher says: "Begin to study a woman before she is 15 years old. If she wants a doll as a child she will be all right as a woman. I do not believe that any woman found guilty of a great crime ever had a doll or a play house as a child."

Gastric Juice and Pathogenic Germs. Drs. Kurlow and Wagner, in a paper on "The Influence of Gastric Juice on Pathogenic Germs," which they publish in The Vrach, describe the interesting experiments which they have made on this subject.

FOUND IN THE RIVER. The Body of T. H. Ferris, a Uniformed Knight of Pythias of Nebraska. MILWAUKEE, Wis., July 13.—The body of Thomas H. Ferris, a uniformed K. of P. from Geneva, Neb., was found in the river to-day.

Drop a Nickel in your grocer's hand and get a package of PYLE'S PEARLINE—the original and best Washing Compound. It will save you time, trouble, health, wear and tear, which cannot be computed in dollars.

It's better—easier—quicker than soap for washing clothes and housecleaning; if that's not true, what becomes of the many, many millions of packages sold annually? What induces the hundreds of imitations? Did it ever occur to you as strange that almost every imitation of Pearlina is given a name ending in INE? A "wolf in sheep's clothing" trick; depend upon it, their tricks don't stop there. Peddlers and unscrupulous or misinformed grocers will tell you this (an imitation) is as "good as Pearlina," "same as Pearlina," etc., etc. It's false—there's nothing like Pearlina—nothing as good as Pearlina. Why?—that's our secret—but you will recognize and share the benefits of that secret when you use Pearlina. JAMES PYLE, New York.

C. M. Henderson & Co.

F. BRAASTAD & CO.

Ishpeming, Mich.

WASH GOODS.

This is the season when the ladies desire light wash goods for cool summer wear. To give a complete enumeration of our stock would take all the space at our command. We have the largest stock in the city. We also consider it the best. The prices will be found lower than at other stores. We would like all the ladies to call and look over our stock of dress goods for summer wear. If we can secure their presence a sale will certainly follow. Our big stock of dress goods in all varieties, and at all prices, is, of course, complete.

BOOTS AND SHOES

for the entire family, from the baby up to paterfamilias. This department we pride ourselves in keeping always complete. The largest stock in the city to select from. Remember that we buy shoes by the carload. We can fit anyone.

CLOTHING.

Our clothing department covers more floor space than any exclusive clothing store in the city. The size of our stock and number of clerks employed in this department may give you some idea of our clothing business.

LAST,

but not least, if you can't find what you want anywhere else, call on us and secure it. We like to have people come to us who have been led through other stocks without getting what they want. We keep it in stock.

HAVE YOU

Seen Our Store Recently? If not You have missed it. Our place is a veritable HIVE of INDUSTRY, and well worth seeing. Groceries coming in by the carload. Dry Goods in endless quantities. Millinery—an ordinary store full. Carpets and Crochery have been moved up-stairs on account of a lack of room on the first floor. Come and see us. It will be for your interest as well as ours to do so.

Ishpeming, Michigan.

SOME FIRES IN ISHPEMING.

They are Easily Extinguished. However—The Sons of St. George Will Go to Ironwood.

An Immense Turnout is Expected—Athletes Will be on Hand—Matters of Minor Importance.

A Couple of Fires.
An alarm of fire was turned in about 11 o'clock last Friday night for a blaze which had been discovered in the rear of the Gylling building on Main street, the ground floor of which is occupied by Charles Crowley's "Turf Exchange."

The blaze started in a closet just outside the main building and from there made its way into the rear rooms and thence shot up into the opera house on the second floor. The fire department responded with its customary promptness and did effective work, it taking but a few minutes after the water was turned on until the flames had been quenched. The most of the damage was done by water, each of the card rooms in the rear of the building being flooded. Up stairs the damage was quite great, too, the flames having made their way nearly to the roof. In Mr. Crowley's mind there is no doubt but the fire was the work of an incendiary. The fire started in the paper box which was located at least five feet from the floor of the closet. Had the box been on the floor it would be easily understood how someone might have thrown a cigar or match into the box and thus ignited the paper, but under the circumstances Mr. Crowley's theory is borne out by the facts.

About the same time that evening a pile of boxes and other inflammable material in the rear of Anderson's store on Main street, caught fire and for a few minutes it looked as though there would be a dangerous fire there. A little water carefully used, however, extinguished the flames without any damage having been done. How the boxes caught fire is unknown.

The Sons of St. George.
Judge Stevens, of Gogebic county, is in the city making a few preliminary arrangements regarding the Sons of St. George excursion to Ironwood. Ishpeming will send a very large delegation to the Gogebic range next week, and the local lodge is doing all in its power to make the reunion a grand success. The excursionists will leave here on a special on the 24th, arriving at Ironwood at 8 p. m. Marquette county will send its best athletes to compete in the wrestling arena, this sport, by the way, promising to take precedence over all others on the occasion.

Out for Practice.
Hose Company No. 1 was out for practice last Friday night, the steamer being brought out for trial. The test was a satisfactory one in every respect the engine working like a charm. The most of the time Engineer Condon held a water pressure of 160 pounds and it took five men to handle the nozzle. There is one thing that the reporter would suggest to the boys when they are out for practice and that is to exercise a little more care and not wet down so many people. The boys have a complete rubber covering and do not mind the water but the average man while walking along the street, unless similarly protected, objects to having a stream of cold water thrown down his back.

A Week's Engagement.
This evening Eunice Goodrich, that sprightly little actress, and her excellent company will begin a week's engagement at the City Opera House, the opening bill being the "Pearl of Savoy." There will be an entire change of program each night, and on Saturday afternoon the company will present the musical burlesque, "Cinderella, or The Crystal Slipper." The company has just concluded a most successful engagement at Marquette and if Ishpeming people appreciate a good theatrical performance they will be on hand every night. The prices of admission are 10, 20 and 30 cents, with reserved seats on sale at Tillson's.

Ishpeming in the Copper Country.
The Ishpeming team came within an ace of getting shut out in the Houghton-Ishpeming game last Friday. The one run what Ishpeming scored was made on an error in the ninth inning. The game must have been a good one though. The club went to Calumet on Saturday and of course did up the ball tossers of that town, though our boys did not have the snap they had a week ago. At this writing the result of the game at Hancock yesterday afternoon had not reached here, but Ishpeming people were confident of victory for their nine.

Ask Your Friends About It.
Your distressing cough can be cured. We know it because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective, Large bottles 50c and \$1 at all druggists. Sample bottle free.

BUCKLEN'S ARNICA SALVE.
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price, 25 cents per box. For sale by H. H. Stafford & Son.

Bonds For Sale.

The city of Ishpeming offers the following city bonds authorized by popular vote, bearing interest at five (5) per cent per annum payable semi-annually on the first day of March and September in each year, at the Hancock National Bank in the city of New York, and maturing in classes as follows:

\$7,500.....	payable in 1906
\$7,500.....	payable in 1907
\$7,500.....	payable in 1908
\$7,500.....	payable in 1909

These bonds are in denomination of \$500 each, and will be sold to the highest bidder.

Sealed proposals will be received up to noon of July 16, 1890, by Andrew Sandberg, City Recorder, and each bid must specify the amount of bonds wanted, the class (date of maturity) and price bid. The committee reserves the right to reject any and all bids if not satisfactory.

Dated, Ishpeming, July 2d, 1890.

BUSINESS POINTERS'

A Few Words to the Public, From Ishpeming Business Men.

In the line of shoes, and ladies', men's and children's footwear, T. F. Donahoe has no competition. The finest \$2 men's shoe in the upper peninsula for sale at the Brownstone store, corner Division and Pine streets, Ishpeming. 7-21f

Have you seen Braastad's stock of shoes? If not, and in need of footwear, call and see the largest line of boots and shoes in the city. 6-25w3

A full stock of Imported Ales, Wines and Liquors can be found at P. H. Donahoe's wholesale Liquor Store, 206 W. Division street. Dublin Stout, Bass's Ale, Belfast Ginger Ale, Genuine Hennessy Brandy, etc. For family or medicinal use Mr. Donahoe makes a specialty of furnishing the very best and purest goods, as a single trial will convince. 6-25f

The Millinery stock at Donahoe's Brownstone store is the largest, and by far the best in Ishpeming. Furthermore it is in charge of a competent and experienced milliner. Ladies will do well to bear this in mind when purchasing goods in this line. 6-25f

Business notices, such as "lost," "found," "wanted," "for sale," etc., inserted in the Ishpeming column always bring quick returns.

Ishpeming Business Notices.

ALL subscriptions to the DAILY MINING JOURNAL in Ishpeming must be paid to the authorized representative of the company, Horace J. Stevens. Carriers are not authorized to collect subscriptions.

BUSINESS LOCALS in this column are invariably payable in advance. Rates moderate and furnished on application.

THE TRAVELING JURYMEN.

Those Trying Cofrode & Saylor vs. Brown, Howard & Co. Will View the Work in Dispute

PROGRESS MADE IN RECONSTRUCTING THE CHOCOLAY FURNACE.

Iron Division Returns from Milwaukee Pilgrimage and Reports Great Time—The Case of the Schooner Planet.

Novelty in Legal Procedure.

The somewhat novel procedure of sending a jury 500 miles to view the thing in controversy is now in course of trial in the courts of Michigan. Last night the steamer Badger State brought up the jury, sheriff and some of the attorneys in the great case of Cofrode & Saylor against Brown, Howard & Co. The former were sub-contractors of the latter in the construction of a section of the South Shore road west of Nestoria. They allege that they were compelled to make greater excavations and larger fills than were represented in the profiles and that in many instances where earth was indicated they found rock and that in consequence they lost heavily upon the job.

The suit was brought in Wayne county to meet the convenience of counsel. Judge Gartner at first refused to try the case, saying that it should have been brought in the county where the work was done, but was compelled to give it hearing by mandate of the supreme court. The jury is brought up to view the work by agreement of counsel. Only nine of the jurymen will be here, one having been compelled to go abroad on urgent business and two being ill. The case has dragged along for several weeks. The jurors, sheriff and counsel will travel in Wagner palace cars and will spend several days on the scene of the work, inspecting it.

Reconstructing a Furnace.

The sun shone hot upon the sands of Chocoday as a MINING JOURNAL reporter stepped upon them Saturday morning. But over at the long silent iron furnace a large force of men was busy putting its various parts in order once more. The big blowing engine rested securely upon its new foundations. Three boilers that formerly were at the top of the stack had been brought down to the ground and bricklayers were busy putting in the foundation under them and preparing that for the new boilers by their side. Inside the big furnace stack other men were at work putting in its fire brick linings. Outside lay a pile of the great ox-bow pipes that will heat the currents of air from the blast engine on their way to the stack. Probably in another week the lining of the stack will be finished and the bottom be well under way. The work of repairing the stack is under charge of Mr. McDougal, a veteran furnace man who put in shape the big one at Ashland.

Of course there is much to do in putting in shape a plant that has lain idle for seventeen years and it is difficult to say just when the Northern will go in blast again. Some time in September is probably a safe forecast. It is figured that the furnace will produce at least 60 tons of iron per day or 15 tons to each cast. The South Shore road passes within 100 yards of the furnace and has a side track already partially constructed. The furnace will employ about fifty hands. As all the farmers of Chocoday township, about 150 families, must pass that way into Marquette or to the railroad, it is believed that the long stagnant village will once more revive and do considerable business.

C. T. Harvey started Chocoday on a magnificent scale, spent much money in dredging out a harbor and building piers. He was ahead of his time by thirty years, but some of his work remains and Marquette's little neighbor may yet become quite a town. The property, both furnace and townsite, is owned by Marquette men and the starting of the Northern furnace will be welcome to this city and mark another step in her progress as a coming center of iron manufacture.

Returning Six Knights.
Iron Division, Uniformed Rank Knights of Pythias, returned Saturday evening from its pilgrimage to the biennial convocation of the order at Milwaukee. Those of the knights who could not attend the great gathering, some twenty in number, turned out, headed by the Marquette City band, to welcome their returning brethren. Out of respect for the tired condition of the travelers no extensive parade was attempted, the column simply marching from the railway station to the hall on Washington street.

Yesterday the knights were about town telling of the glorious time they had enjoyed. Captain Marcus Peterson expressed himself as greatly pleased with the showing made by Marquette. Iron Division had twenty-four swords in line. Every man turned out in the parade and every man was present at the dress parade and inspection the next day. The Ishpeming division sent about fifteen swords into the parade but most of these failed to appear at the

Marie division had but one solitary representative present.

Michigan fared extremely well in the competitive drill. Hastings captured the first prize, Grand Rapids fifth and a Detroit division one of the smaller prizes. The second band prize was taken by Michigan musicians. In consequence of these victories the Wolverines were conceded a large share of the town, which the knights as a body simply owned.

The three divisions of the Uniformed Rank in the upper peninsula were cut off from regimental connection with the rest of the state. As soon as two more divisions are formed the upper peninsula will organize into a battalion and be entitled to a lieutenant-colonel. As soon as the number of divisions rises to eight a full regimental organization will be in order. Ironwood and Manistique will probably be the next two towns to organize divisions. Ontonagon is moving in the same direction and if the copper country towns get a move on themselves a full regiment can soon be formed.

All the visitors to Milwaukee report a most enjoyable time and praise highly the hospitality of the Cream City.

The Case of Schooner Planet.

On Monday last the MINING JOURNAL's despatches contained the news of the stranding of the schooner Planet in Canadian waters, that permission was referred to American tugs and lighters to work on her and that her captain had asked permission of his owners to jettison her cargo of ore, such a course being cheaper than to send all the way to Windsor for Canadian tugs and lighters. Later, as was chronicled at the time, a Canadian tug secured the services of an American lighter and the Planet was released. All this consumed valuable time and caused loss to the owners of the Planet. In connection with this senseless complication the following letter is of interest:

EDITOR MINING JOURNAL: On July 25th, the "Planet," consort of the steam barge "Pease" went aground at Squirrel Island in Canadian waters on the Saint Mary's River about twelve miles below Sault Ste. Marie. The captain came to Sault Ste. Marie, Mich., for assistance to lighten her, there being no Canadian lighters on the Saint Mary's river. Application was made for assistance to the steam lighter "Mentor," but as the "Planet" was in Canadian waters no permit could be obtained from the custom's official at Sault Ste. Marie, Ont., to work on her. After letting the steam barge "Pease" and consort lie there for two days permission was given to a little Canadian tug, called the "Saucy Jim," to come to the American side and engage an American lighter, the "Mentor," the same lighter that was refused a permit to render assistance two days previous.

If the Canadian custom's official gives a permit to a little Canadian tug to come to the American side and engage a lighter to make capital out of it, as he demands an exorbitant price and is of very little assistance to the barge in trouble, then it looks as if something was wrong at the custom house at Sault Ste. Marie, Ont., that needs investigation, or why should a permit be given to Canadian tugs to come to the American side and engage a lighter which was absolutely refused to the lighter direct.

INTERESTED PARTY.
Sault Ste. Marie, Mich., July 10, 1890.

A Handsome Pleasure Vessel.

The yacht Ramona, one of the handsomest pleasure craft on the lakes and said to be the fastest steamer on Lake Superior, visited this port yesterday. She is owned by Hall & Buell, the lumbermen, who have extensive mills near Sault Ste. Marie, at the location known as Bay Mills. The Ramona is 105 feet keel and 13 feet beam. She is driven by a fore and aft compound engine and has her propeller behind her rudder, reversing the usual arrangement. This device, so her captain says, makes her difficult to steer at slow speed. It is believed that this placing of the screw gives greater speed with less engine power, however. The Ramona's cabins are all below deck, save, of course, her pilot house. She was built at Newburgh, on the Hudson river, and brought up the Erie canal. With her burnished brass rail and fittings, polished hard wood pilot house and companion way and clean lines, the Ramona is a handsome craft and looks as if she might ride out in safety a considerable gale. She brought up one of her owners, Mr. Lewis A. Hall, together with members of his family. Her commander is Captain Fred Hursley, quite well known here.

A Stranger's Opinion of Marquette.
I like the town for its beautiful climate, its fine scenery and elegant homes, but most of all for the keen, discerning class of people who live in it. "They know a valuable article when they see it." This was the opinion of the Century company's representative.

Visits Far Between.

It is only once in three or four years that people representing such works as the Century company publish visit our town, so that it is wiser to place orders when they are here than wait another four years.

LOUIS GRABOWER,

Leading Dry Goods and Carpet House,

South Shore Team Winners.

The base ball team made up of employees of the South Shore road returned yesterday from Hancock where they met and defeated the Mineral Range team by a score of 21 to 10. The Marquette boys were greatly pleased by the cordial reception given them by the Mineral Rangers. A special car was provided to take them over to Hancock to dinner and a special train took them to the ball grounds. All expenses were paid by the Mineral Range team and everything possible was done to make the visitors comfortable and give them a pleasant time. The members of the South Shore team desire to return thanks for a trip made exceedingly pleasant by the kindness and courtesy of those whom they went to meet on the green diamond. It is probable that a return match will be played here some time during the summer.

20 Years of Brain Power.

In Ridpath's "History of the World," history presented just as Dr. Ridpath taught it. The "New York Advocate" says that the nine chronological charts are alone worth the price of the entire work.
