no stoning of trains whatever to-day in consequence. The duties of the Pinkerton men are confined to patrol duty between here and West Albany.

Chief Willard thought the Pinkerton forces should be taken away from here altogether. When Superintendent Bissell asked him if he and his men would be responsible for the protection. Bissell asked him if he and his men would be responsible with the force at his command, and if necessary would appoint fifty special men.

The West Albany yards are in the town of Watervliet, outside of the jurisdiction of the local authorities. It is there that three-fourths of the Pinkerton men are stationed, and the road officials deem it an unwise policy to withdraw the men from the locality, leaving its \$27,000,000 property there without either private, civil or military protection. Accordingly the men will remain there.

ONE PROPOSES ADOPTION OF THE PRE-VIOUS QUESTION BY THE SENATE

And the Other That the Vote On the Federa Election Bill Shall Be Taken This Session-Alien Land Bill.

WASHINGTON NEWS

Washington, Aug. 19.—Representative O'Neill (Pa.) chairman of the house library committee, has informed the New York delegation that the committee will call up the Plumb resolution looking to the removal of General Grant spemains to this city within a few days. Mr O'Neill says he is confident of the passage of the resolution and that it can in nowise interfere with the erection of a monument to General Grant by the city of New York.

Aug. 19.—Speaker Reed has again essayed to fill the vacancy on the special committee to vacancy on the special committee to vacancy on the charges against complexity to the charge of the charges against complexity to the charges against complex Washington, Aug. 19.—Representa-tive O'Neili (Pa.) chairman of the house

investigate the charges against com-missioner Raum and has appointed Representative Lewis, of Mississippi, in place of Mr. Yoder, of Ohio, who resigned. The committee is now Complete and will meet tomorrow to begin

its investigation.

The president has approved the fortification bill.

THE SENATE.

WASHINGTON, Aug. 19.-The presiding officer (Mr. Ingalls) laid before the bill taken on the 30th of August and to Monday, or during the morning hour postpone till next session all other legislative business, except several classes of bills as specified therein. The resolution went over till tomorrow.

A resolution offered yesterday by Mr. Plumb, instructing the committee on ness had already been outlined that rules to issue orders that will prevent would occupy the time of the house the sale or drinking of spiritous, vinous or malt liquors in the senate wing of the capitol was taken up. It, too, after some spirited discussion, went over till

The tariff bill was then taken up, the pending question being on Mr. Plumb's amendment reducing the duty on tin plate from 2 2 10 cents to one cent a CREGIER'S BIG CONTRACT. pound, and allowing a bounty of one cent a pound on American tin plate.

After several amendments had been vate Detective Agency in the City. After several amendments had been acted on the matter was dropped and paragraph 141 was taken up. It refers to wire rods. An amendment offered by Mr. Vest was rejected. Paragraph 142, taxing wire made of iron or steel, having been reached, Mr. McPherson moved to reduce the rates fixed in the moved to reduce the rates fixed in the bill on four sizes one quarter of a cent

Mr. McPherson, in a tone of irony, said that he did not hold the finance committee responsible for the bill. The committee had had little or nothing to do with its make-up. It had been made up by the beneficiaries themselves, and had been handed to the committee for the purpose of explaining it to the country and detending it before the

"There is not a particle of truth," Mr. Aldrich interrupted somewhat indignantly, "in the statement with refer-

ence to any paragraph in the bill."
"I is a well known fact." Mr. McPherson rejoined, "that none but manufacturers had any chance to appear before the committee. The senator from Rhode Island has my sympathy, as his colleagues on the committee bave deserted him to day, only one of his col-leagues (Mr. Hiscock) being present, and he is speechless." (Laughter.)

Mr. McPherson's amendment was re jected. Other amendmends were of-fered and rejected. Mr. Cullom made a strong speech in favor of the protect-ive tariff system. The foundation of every democratic, or free trade argument, he said, was based upon the assumption contained in President Cleveland's message, that tariff laws raised and's message, that tariff laws raised the price to the consumers of all articles imported by precisely the sum paid for duty thereon. "If the declaration is not true, then the whole free trade structure falls to the ground. The history of the country," said Mr. Cullom, "shows conclusively that the effect of protection has been to reduce prices."

ion has been to reduce prices."

Mr. Hoar gave notice of two amendments which he would offer to-morrow to the Quays resolution. One was the resolution for a change of the rules which had been offered on the 9th inst., providing that when a bill or resolution. olution shall have been considered a reasonable time it shall be in order for ly after the tariff shall be disposed of the election bill shall be taken up for consideration and shall remain before the senate every day for three days after the reading of the journal to the exclusion of all other business, and that, on the 4th of September, at 2 o'clock voting thereon and on the pending amendments shall begin and shall continue from day to day to the exclussion of all other business until they are disposed of, The senate then adjourned.

THE HOUSE.

WASHINGTON, Aug. 19—After routine.

The Crew Servel.

Washington, Aug. 19 .- After routine business, the alien land bill came up in the house. Mr. Carter said that the bill had been passed by the house after a very slight consideration. He insisted that the ownership of mines of gold, silver, lead, tin, cinnabar and copper in the territories was not intended to be affected by the bill. He had no quarrel the territories was not intended to be affected by the bill. He had no quarrel anected by the bill. He had no quarrel to make with the existing law in so far as it related to agricultural and timber lands. He did insist that foreign capi-tal should not be discouraged or pro-hibited from engaging in precarious en-terprise or developing the mines of this country.

country.

Mr. Buchanan, (N. J.) inquired whether the passage of the pending measure would not render it possible for foreign capital to control every mine in the United States. Mr.Carter re-plied that for a century prior to the enactment of the law, the privilege stood

wide open to foreigners to invest in our mines. The history of the century showed that the financial results were not commensurate with the investment made by foreigners in that class of property

Mr. Allen, of Mich. (sotto voce)-In Mr. Allen, of Mich. (sotto voce)—In other words, they were scooped.
Mr. Buchanan asked whether the state of affairs he alluded to could not exist. Mr. Carter replied that such a state of affairs might have existed prior to the law of 1886. Mr. Buchanan inquires whether it would not be possible for Englishmen to buy up every lead mine in the United States
Mr. Carter—If they are willing to pay more than the mines are worth.

nore than the mines are worth.

Mr. Buchanan—But the bill makes it

ossible, does it not?
Mr. Carter—It is a commercial im-

pi, ho in gemployment to men who otherwise would be crowded into other lines of labor and thus cheapen the wages of toil. It was not the millionaire who discovered the mines; it was the toiling workman. If the benefit of this discovery was limited to the market of the United States, men who had money to invest in mines were given a monopoly. Pending further debate the morning hour expired and the bill went over.

Mr. Crain (Tex.) inquired whether, under the order, the river and believed.

on the other days.

Mr. McMillen (Tenn.) said that it must be admitted, in view of the late hour in the session, that the proposed order of business put the river and harbor bill in a perilous position. Busiuntil September, leaving unconsidered the river and harbor bill with its \$24,-000,000 appropriations. He warned the house now, in order that the friends of New York... the river and harbor bill might adopt the special order with their eyes open. Batter

"There are complaints all over the city about shade trees not doing well, and when a row is near a gas main there never seems a healthy growth. The gas escapes either through leakage or through the pipes themselves, if they are of cast iron, and the hard pavements or flag sidewalks prevent it rising. It is all thus conducted to the outlet around the shade trees with to the outlet around the shade trees, with the result stated. It is only necessary to note how much better trees grow where there are plank sidewalks to admit the reasonableness of this theory."-Pittsburg

Two Brisk Fires.

At 10 o'clock last night an alarm of fire was sounded, and the fire department was quickly playing water on the flames issuing from the rear of the Ishpeming steam laundry. Good work was done, and the building was saved, though badly burned. The loss to the building, which is a two story frame, situated at the corner of North Second and Ridge streets, will be something over a thousand dollars, and to the

over a thousand dollars, and to the laundry machinery and stock something less than that sum, making a total loss of about \$2,000.

Between 1 and 2 o'clock Tuesday morning a second alarm was turned in from the same neighborhood. The fire department responded very quickly, considering the hour at which the alarm was given, and put out the fire, although the flames were breaking from the whole roof of the building. The structure was the two story barn of Joseph Gravcock, at the corner of North Third and Bank streets, and the loss on building and contents, amounted to about \$1,000.

The fire department is to be complimented on the quick time it made in getting out to both fires. The cause of both fires is unknown, and the theory of incendiarism has been advanced, but lacks any proof.

IRON MOUNTAIN WELCOME.

The Ishpeming Firemen Wish Them Much Joy of That Silver Trumpet "Won" at Negaunee.

ONE OF THE MOST REMARKABLE DECIS-IONS EVER PLACED ON RECORD.

Ishpeming Firemen Have Trumpets of Their Own, Honestly Come By

as Well.

That Trumpet. The committee of firemen that managed the Negaunee tournament has awarded the silver trumpet to the Iron Mountain firemen, for winning the hose running contest. There is no need of calling hard names over the matter, but the Ishpeming firemen, and their friends, who number about twelve thousand people in this city, feel that they have been very unjustly and ungenerously used, and that the members of the committee of award at Negaunee have done something that they will be very much ashamed of.

To begin with, the Iron Mountain firemen did not make anywhere near the time which our boys made. They kicked first because the Ishpeming boys ran twice, and, when they had failed to beat the poorest time of the Ishpeming firemen, the Iron Mountain boys kicked because Ishpeming Hose Company No. 1, had two members of the base bal team running with them. All this was uttered into the sympathetic ears of the Negaunee committee. The Ishpeming firemen were not asked to show their membership roll, and settle the dispute, neither were they asked to explain matters. There were no rules governing the contest, and no protest was made by the judges, though it was known to all that Messrs. Wilbur and Dobyns of the base ball club were with hose company No. 1. In fact the firemen here were used in a most ungentlemanly and ungenerous fashion by the Ne-gaunee firemen as a whole, though in-

gaunee firemen as a whole, though individual members of the Negaunee department were not in favor of any such high-handed proceedings.

So much for the Negaunee firemen. It was "anything to down Ishpeming," and they are happy, of course. As for the Iron Mountain firemen, let them take the silver trumpet, and hang in their hall. Then when strangers ask them where they got it, they can blush with manly pride, and answer that they got it at Negaunee in '90, when the brave fire laddies from Iron Mountain made the race in 57 seconds, and won the first prize. They need not state that hose company No. 1, of Ishpeming did it in 42½ seconds. The Ishpeming firemen have trumpets of their own, fully as good as the one given Iron Miley as good as the on fully as good as the one given Iron Mountain, and honestly won as well. The boys here would rather have their officers toot their commands through a fish horn, than to have them soil their lips with the touch of a silver trumpet

won by trickery and false pretenses.

The Delegates Selected.

The following delegates were selected last evening to represent Ishpeming in the county convention to-day: Henry Routhier, S. J. Eggan, Thomas Walters, H. O. Young, John Jones, A. T. Walstrom, James Planty, E. H. Hall, Geo. J. Lewis, William F. Swift, E. R. Ely, James Irebilcock, William Widdell, John P. Outhwaite, T. P. Mills, Nels Clifton, George Bucker, Michael Ready.

ISHPEMING IN BRIEF.

Card of Thanks.

To The Mining Journal:
I wish to publicly thank the members of hose company No. 1, and other firemen of the city who assisted them, for the remarkably prompt manner in which they turned out at the burning of my barn Tuesday morning. But for their prompt arrival the building and contents would have been a total loss.

Business notices, such as "lost," "found,' "wanted," "for sale," etc., inserted in the Ish-MARQUETTE peming column always bring quick returns.

There is no city on the upper peninsula growing like the young giant of the Menominee range, Iron Mountain. It is no boom growth, either, nor one caused by any extra exertions put forth by the inhabitants, but is nothing more than the prosperity caused by the development of the immense mineral deposits underlying and surrounding the city. The increasing population and the influx of new business houses has caused an abnormal demand for houses. Buildings are going up on every hand, but not as fast as the increasing demand seems to require. The city is stretching out in every direction, but principally to the north, where some of the best located residence and business sites have just been piaced in the market by Mr. J. T. RECEPTION TO GOVERNOR LUCE AT MAYOR LONGYEAR'S TONIGHT.

How the Distinguished Visitors Spent Their Day-Merchants' Carnival Very Successful-Death of James Lewis.

"We Are The People" Once More.

It was Bermingham's day. Marquette's long first baseman whose nonchalant manner of pulling down balls out of the circumambient atmosphere has won him the admiration of every crank, had his batting garments on yesterday. Michael dragged his extended legs up to the plate five times, and every time he swatted the sphere, making four clean hits and one "fielder's choice." Marker was also on deck. But twelve safe hits were made off him to eleven off Rogers and at the critical moment of the tenth inning his clean one brought home the winning run. Allard's two bagger very materially assisted the victory. The infielders played a magnificent game and the outfielders covered everyterday. Michael dragged his extended game and the outfielders covered every-thing that came to them. Pure hard luck gave Cross his two errors. Purvis got in his customary home run and Whalen was a daisy behind the bat.

The game was the closest and most exciting played here this year and was exciting played here this year and was by many pronounced the finest yet played in the upper peninsula. Both sides blanked in the first, Marker giving the omen of victory by striking out the first Calumet batter. Riley's double and Bermingham's single brought in one in the second but Calumet got two on singles by Wiswell. Jordan, Mumby and Hutchinson, Bermingham's paste of Jordan with the ball and Marker's throwing to first instead of to third. the Calumet stock went booming. Singles by Rogers, Rathbun and McMahon and Hutchinson's double brought in three runs while the locals door-knobbed. In the next three innings Bermingham and Purvis only could safely solve Rogers' curves and Marker's pretty sacrifice was made in vain. At the end of the seventh the score stood 5 to 2 in favor of the visitors and the prospect was decidedly indignish.

Miss Amy Richards, banner staff of umbrellas, dress of silk handkerchiefs; Handford, Miss Nellie McIntosh, trimmings moccasins and laces, chatelaine of shoes; Kaufman, Miss Jennie Storms, costume of silk handkerchiefs and fine neckwear; Westlake, Miss May Preston,

While all this was going on Marker had been pitching a beautiful game and the locals made up in fielding what they lacked in batting. The Merchants' Carnival.

A large crowd of spectators assembled to-night the number present would be still larger. Thirty-four business houses of the city were represented by thirtyfour young ladies attired in appropriate costumes and carrying banners. As each crossed the stage and then countermarched hearty applause was the rule. The following was the order in which the young ladies appeared, space forbidding the full description which most of the costumes deserved: Wilkins & Holden, Miss Hattie Sullivan, dress Annie Winter, trimmings of sponges and fancy goods; Brown's Pharmacy, Miss Lydia Gould, dress trimmed with Gooding & Ormsbee, Miss Edua silk hat, dress coat and scarf; Glocke, Miss Annie Hicks dress heavily trim mee with pipes, etc.; Duquette & Metz, Miss Amy Richards, banner staff of umbrellas, dress of silk handkerchiefs; Handford, Miss Nellie McIntosh, trimmings moregains and laces, chatelaine.

The young ladies which they carried out the plans of Prof. Basel, whose talent for organiza-tion and training, as exemplified in this portion of the program and in the con-cluding feature, the marching song and calisthenies by forty very little girls, is certainly very wonderful. The entertainment was a very pleasing one, as well as a decided surprise to everyone of the large number present.

Death of James R. Lewis. James R. Lewis, for several years conductor on the South Shore railway, quette, Ishpeming or Negaunee. died at Toronto yesterday morning. The news was received here by telegram to Thomas Holden from Mrs. Lewis, who was at her husband's side when the last summons came. Mr. Lewis was one of the best known and most highly esteemed men in the employ of the South Shore. Ever faithful in the performance of his duties he so bore himself that he won the respect of all with whom he came in contact. It was said of him yesterday when the news of his death became public, "he had not an enemy on the road." The direct cause of his death is not yet known here. Something over a year ago he was hurt in an accident. He recovered from his injuries and returned to work but was never the same man again. Last January he was compelled to give up his run on the Duluth express and went to his former home in Toronto for treatment. Conductor William Sims received a letter from him about a week ago in which he expressed strong hopes of recovery. He Lewis, who was at her husband's side in being able, in the person of the city's chief magistrate, cordially to welcome to the Queen City of Lake Superior the state's exectutive and the escort of friends who accompany him on his present tour of the upper peninsula.

The gubernatorial party, after breakfast at the Hotel Marquette, went out yesterday morning to the branch prison and took up quarters in Warden

War Song Concert.

Army of the Republic, will on the evening of September 11th, give a concert of old war songs for the benefit of the post relief fund. Prof. J. N. Fohrman will be musical director of the affair and will call to his assistance the best talent of Marquette, Negaunee and Ishpeming. The abilities of the conductor and the able assistance which he should and doubtless will receive, should make the concert a magnificent should make the concert a magnificent success. The purpose of the entertainment, to provide funds for the relief of destitute soldiers of the Union, is worthy, and one enlisting public sympathy at once. Details of the concert will be announced from time to time in the MINING JOURNAL.
