SYMPATHY FOR KNIGHTS.

That Is the Kind of Aid the Terres Haute Conference Decides to Give.

POWDERLY'S POSITION COMMENDED AND THE PUBLIC INVITED TO HELP.

But the Federation Decides to Keep Out of the Trouble—Mr. Webb Thinks It a Sensible Conclusion.

THE CENTRAL STRIKE.

TERRE HAUTE, Ind., Aug. 25.—The executive council of the United Order of Railway Employees went into session about 8 o'clock this morning. When the session will come to an end, not even a single member of the council knows. The council listened to a report formulated by the committee. At what time any decision will come to the public cannot be stated at the present writing. One member of the council said this morning: "I can't tell you when we will take a vote. I can't tell you what the real vote will be. Be satisfied, however, that when the report of the committee is given out, it will be in the nature of a bombshell."

SYMPATHY, BUT NO STRIKE.

TERRE HAUTE, Ind., Aug. 25.—At 6 o'clock this evening the following message was sent out by the council of the railway employees: "T. V. Powderly, general master workman of the Knights of Labor, Stanwick Hall, Albany, N. Y.: "The supreme council adjourned this afternoon after carefully considering the strike in all its details. You will note the result of the deliberations in tonight's dispatches, which, it is hoped, will meet with your approval. The council was unanimous in indorsing your position and the position of the general executive board. The council most earnestly hopes that the right which you are championing in the great conflict on the New York Central may finally and powerfully prevail. (Signed) W. P. Sargent, President; W. A. Sheahan, Secretary."

POWDERLY NOT SURPRISED.

ALBANY, Aug. 25.—A reporter showed Grand Master Workman Powderly the dispatch from Terre Haute, saying that a strike would not be ordered by the federation. Mr. Powderly said it was the first intimation he had received of such action, but declined to talk, saying that it would not be policy for him to make any comments upon it until officially notified. He did not seem to be very much surprised or downcast at the result, but went to his supper in good spirits.

THE CONFERENCE IN ALBANY.

ALBANY, N. Y., Aug. 25.—The general executive board reconvened in session with District Assembly 246 at 8:15 P. M. Previous to going into the meeting Secretary Hayes said: "In the conference this morning, after Master Workman Lee called the delegates together, Mr. Powderly explained that the object of himself and colleagues in calling the meeting was first to get together the fullest possible information upon the causes of the strike, and they wanted to hear the statements of such of the discharged men as they had not yet been able to see; second, they wanted to know the exact condition of affairs at every point—how many men were out, how many, if any, had gone back, how many of the men on strike were now members of the order, and what is now the condition of the train service of the company. Nearly all of the discharged men were present as delegates and all of them were prepared with proofs to show that the reason for their discharge was because they were Knights of Labor. The investigation was then confined to these ten men and it was shown that until their connection with the Knights of Labor there were no known charges of drunkenness, insubordination or incompetency against them. The cases of the other discharged men who are not delegates, and consequently could not be admitted to the conference, will be investigated later."

CAUSES FOR THE DISCHARGE

of the several men, I am more than satisfied that they were discharged for the sole reason of their being Knights and that it is the intention of Mr. Webb to attempt to disrupt our organization by such means. I am now thoroughly confident of this." At the afternoon conference of the general executive board and District Assembly 246, twenty of the men who were discharged were admitted and closely questioned by Mr. Powderly relative to the cause which they thought led to their dismissal. Close questioning on the part of Mr. Powderly failed to disclose, except in a single instance, that any of the causes set forth by the officials of the Central road could have been the grounds for the discharge of the men on the contrary it is claimed there were many facts which tended to show that the discharges were the results of a preconcerted plan to drop all the prominent leaders in the circle of the Knights. Among those discharged were some who admitted that when they were dropped, reasons not included in Mr. Webb's statement were given, but entirely different ones. Several of them were charged with insubordination at the time of their dismissal and added that the only act of theirs which the officials of the road could construe as one of insubordination was where they had served on committees which had waited upon the officials of the road and presented grievances at different times. Thirty discharged men were examined, and Mr. Powderly said that there was positive proof that the Central road was simply determined to break up the organization.

DECISION OF SARGENT'S COUNCIL.

TERRE HAUTE, Ind., Aug. 25.—The official statement of the council of the Order of Railway Employees was given to the Associated Press late this evening. It declares against a general strike. It is an exhaustive resume of the strike from its inauguration to the present time, and treats of the causes leading thereto. The reasons set forth may be summarized as follows:
The promptry discharge of between fifty and sixty men, because they were Knights of Labor, without giving them any reason whatever for the discharge. Prior to the strike the men involved sought the representatives of the order to have their grievances adjusted, but their appeals being disregarded, a strike was inaugurated.

At this juncture Mr. Powderly, general master workman of the Knights of Labor, entered upon the task of adjusting the difficulty and of making such arrangements as would result in an honorable peace between the employees and the officials of the road; but his efforts were unavailing.
Mr. Powderly, comprehending the purpose of the company to make war upon the Knights of Labor and ultimately upon all labor organizations represented on this road, sought a conference with the supreme council of the United Order of Railway Employees.
Then followed a succinct statement of the details of the proceedings between Mr. Powderly and the officials of the railway. The action of Mr. Webb is severely criticised, and Mr. Powderly's position is strongly supported in every particular. In conclusion the supreme council places upon record its high appreciation of the manliness of the Knights of Labor employed on the New York Central in struggling to maintain a principle sacred to every working man on the continent and to all who love justice and hope for the triumph of right over wrong as flagrant as ever stained the pages of history.
The council expresses perfect faith in General Master Workman Powderly and his subordinates, and holds them eminently worthy, not only of its appreciation, but of the great order they so ably represent.
WEBB IS SATISFIED.
NEW YORK, Aug. 25.—Vice President Webb heard with the utmost coolness the news that the supreme council had declared against the strike. In reply to a question he said, "That was the only course to pursue." Later in the evening Mr. Webb said: "It is a queer commentary that the supreme council of the federation should find no grievance upon which to order a strike, yet they have censured the New York Central and its officials. They also decline to give any support to the strikers, but appeal to the public to furnish it. This, I think, embodies all that I have to say."
THE STOCK YARDS STRIKE.
Slaughter Houses Forced to Shut Down and Guarded by Police.
CHICAGO, Aug. 25.—Nothing definite has developed in the situation at the stockyards to day. The receipts of cattle, hogs and sheep are very heavy and Armour is killing a few for the city trade and to fill orders from the east. Swift and Nelson Morris are not killing. Their houses have shut down, and 5,000 men are forced to remain idle. This morning, Armour applied for police protection and twenty officers were sent to his house. Morris also received guards. It is expected that some of the roads will attempt to handle some of the fresh meat that is in danger of spoiling. If they do it will probably precipitate trouble.
CHICAGO, Aug. 25.—The result of the meetings of the superintendents and managers of the various railroads in the city this morning and afternoon to settle the strike at the stock yards was a victory for the men. On Saturday evening when the committee representing the firemen and engineers had concluded its conference with the executive board of the switching association it returned at once to the stock yards and an open-air meeting was held, and the committee announced the result of its meeting with the board. It was unanimously resolved not to accept the proposition made to increase only the pay of the firemen, and an answer was returned to Chairman Royce of the executive committee of the association that unless the men were given the same rate of wages as paid by the Pennsylvania road, further negotiations would be at an end.
It was decided that the request of the men be granted and this was embodied in a resolution with a proviso that on acceptance the men return to work at once. The striking engineers and firemen of the switching association promptly accepted the compromise of 35 cents per hour for the former and 18 cents for the latter and in an hour work was resumed, as usual.
This evening, however, the switchmen of the association, thinking the time propitious for a demand for an increase of wages and hoping to profit by the victory of the firemen and engineers, held a little meeting and decided to demand an increase of 3 cents per hour. Without any formality and before their demands could be officially communicated to the association, the switchmen declared a strike and at 6:30 this evening every man left his post and the stockyards railroads were once more tied up. The outcome of this latter strike cannot be foretold.

IRON MOUNTAIN, Aug. 25.—[Special.]

Jack King, the Iron Mountain boy who threw Carkeek in the wrestling tournament at Ishpeming Saturday, arrived home to-day. He was met at the M. & N. depot by fully one thousand people, headed by the city band, and they gave him a great reception.

THE GREAT INTERNATIONAL RAILROAD TUNNEL Finished Yesterday Morning.

PORT HURON, Mich., Aug. 25.—The great international railroad tunnel, which has been in process of construction under St. Clair river at this point for the past two years, was practically completed at 9:35 this morning. The tunnel is nearly 7,000 feet long, is 23 feet in diameter, is lined with iron and cost \$3,000,000. Every boat here whistled, and the whistles on the shore were sounded for nearly an hour when the great work was announced as completed.

The Y. M. C. A. Wrecked.

MANTOWOC, Wis., Aug. 25.—The captain of the schooner Nyad arrived here to-day and reported that he passed the capsized schooner Y. M. C. A., of Chicago, last night at 5 o'clock, thirty miles east of Lewansee. She was lying on her side and was abandoned as the small boat and crew were nowhere to be seen. The crew probably left the wreck soon after she went over and are safe.

AN OPEN LETTER

From a Well-known Druggist - "Positive Cure for Stomach Troubles."

To WHOM IT MAY CONCERN: In the summer of 1870 I was first afflicted with that most dreaded disease, dyspepsia, and for over fifteen years I suffered terribly at times. In the meantime I tried every so-called remedy imaginable, without finding relief. Having been in the drug business since 1888, I determined to help myself if I lay in the power of medicine. Two years ago I succeeded in discovering a remedy. It cured me. Until I had given ample time for possibility of doubt, however, I kept my secret almost to myself, putting up the medicine for only a few of my sorely troubled friends, every one of whom was cured. I now know the medicine to be a positive cure, and have decided to put it on the market, that my discovery may do humanity all possible good. It will be known as "Bruske's Positive Dyspepsia, Liver and Kidney Cure," which is guaranteed to cure all ailments of the stomach, liver and kidneys. I have a number of testimonials which afflicted parties may be interested in.

A TEXT FOR DOUBTERS.
Remarkable Cure of a Negaunee Girl Who Was Afflicted With Chronic Lameness.

Death of Capt. Polkinghorne—An Unique Piece of Furniture—Personal and Other Jottings.

An Undoubted Cure.

About five years ago the fourteen year old daughter of Dan McDonald became lame, through some unaccountable cause, although enjoying good health in other respects, and found it necessary to use a crutch. For over three years her left leg showed no growth. Nearly every doctor around here, and a number of specialists below, were visited, but all were puzzled as to the cause and could do nothing for her. About four months ago Mr. McDonald heard of wonderful cures being effected by visiting St. Anne's catholic church at Toronto, Canada. He, as a last hope, resolved to send his afflicted daughter to that place, and accompanied by her mother, she left for there nearly two months ago. Every day for nine days she remained inside the altar railing of the church, spending that time in prayer and other devotional exercises. Toward the evening of the ninth day the pastor approached her and commanded her to lay down her crutches. She hesitated a moment, then falteringly did as she was directed, and walked out of the church without feeling the slightest pain in her leg. Since that time the limb has been growing, and when she stepped off the train Sunday only the slightest limp was noticed.

Obituary.

A despatch was received here Sunday announcing the death of Sol. Polkinghorne at Salem, Missouri. His brother immediately left for that place, but as yet none of the particulars have been received. Mr. Polkinghorne came to this city from England over fourteen years ago and shortly afterward was made captain of the Jackson mine under Captain Merry. He held that position steadily until about a year since, when he was tendered, and accepted, a more lucrative place as captain of the Salem mines in Missouri. His health failed rapidly after his arrival in that place and he had concluded to return to Negaunee. His resignation was handed in last May, but the company pleaded with him to stay and finally induced him to remain two months longer, or until a competent man could be found to fill his place. He was expected here this week, when the despatch was received announcing his death. He was a single man, 34 years of age, upright in all his dealings, and leaves a host of friends here, among these being every man who worked under him.

A Home Curiosity.

Mr. Gratzie has in his barber shop a curiosity in the shape of a bookcase which attracts a great deal of attention. The entire case, except the nails, screws and hinges, was made by hand, with the aid of a jackknife and bracket saw, its construction occupying all Mr. Gratzie's spare time for over a year. It is made up entirely of small pieces, every one of which is geometrically correct, hence the whole structure fits together as neatly and tightly as if made by machinery. The front opens out into a writing desk, which, with the shot book receptacle just above, is made of the only two large boards used. Along each side are arranged small pigeon holes, each of which has a door made out of forty-eight pieces of walnut artistically glued together. Mr. Gratzie has had numerous offers for the unique piece of furniture, but refuses to sell it. He means to give the desk a coat of transparent oil varnish and exhibit it at the county fair in September.

Danish Picnic.

The Danish brotherhood here will give a picnic at Teal Lake grove next Saturday. Members of the brotherhood from Ishpeming and a few other places have been invited, and have signified their intention of attending. The affair bids fair to be the most enthusiastic and enjoyable ever gotten up by that nationality in Negaunee. The societies, strengthened by those who come from other points, and the Swedish societies here, will march to the grounds in the morning, headed by the English Oak band. Refreshment stands will be provided, and "bus lines" will run all day between the grounds and the city. A large dancing platform will be erected and the Stecher & Voelker orchestra has been engaged to furnish music for the occasion. Heretofore the Swedish and Danish brotherhoods have given their picnics separately and on different dates, but this year they have mutually decided to hold their jollification jointly, and to invite the outside brotherhoods to celebrate with them.

The enterprising lieutenant at the Salvation army barracks well understands the importance of keeping abreast of the times. He has composed a hymn to the tune of "Annie Rooney," the chorus of which runs: "He's my savior; I'm his lamb," and the army will sing it at the march tonight.

There has been little or no typhoid fever here this year, thanks to the man who peddles the mountain spring water. The supply is obtained every

morning from the spring, which is not over a mile from town and near the road, and is distributed at a very small cost to the families about town.

Mr. J. Q. Adams leaves to-day for an extended trip through the eastern states. After attending to some business at Detroit he will be joined by Mrs. Adams. They will be absent until Sept. 15th.

Theodore Thoren left on the noon train yesterday for Rockford, Ill., where he will attend school the ensuing year.

Dr. Gilson, a late graduate of the medical college at Montreal, has opened an office in this city.

Some fifteen school teachers from here attended the institute at Ishpeming.

Marshal Maloney, of Marquette, was in town yesterday.

Might Have Been.

A captain in the German army published a pamphlet showing how the French might have gained a great victory at Sedan, and he has been cashiered and sent to prison for five years. If the French didn't know what they were doing at Sedan it is not the business of any German to post them at this late day. So ruled the court-martial.—Detroit Free Press.

The grapple plant of the Kalaharia desert is said to be a real vegetable curiosity. In its general appearance it looks more like a starfish than a plant, and each ray or arm is tipped with barbs, which, when fastened to the wood of a house, can be cut out as the only way of removing them.

The White Star steamer Doric, trading between London and New Zealand, claims that it has made the fastest voyage around the world. The total time the Doric steamed was 77 days, 9 hours and 50 minutes. The distance was 28,000 miles. The engines worked continuously.

WRESTLING AWAY STILL.

The Wrestling Tournament Is Over But the Excitement Isn't—Another Tournament Talked Of.

Gossip Gathered Around the Sawdust Ring—The Tournament Was a Success, But Left Some Heart-burnings.

In the Sawdust Ring.

While the Cornish wrestling tournament held here last week was without doubt the most successful affair of the kind ever witnessed on this side of the ocean...

Jack Carkeek said in an interview with the MINING JOURNAL Sunday night that he offered King \$250 to wrestle him again at the driving park...

It has been suggested that a national wrestling match at Ishpeming could be held profitably. An exhibition of scientific wrestling by the champions of collar-and-elbow, catch-as-catch-can, Cornish and Graeco-Roman styles would draw well...

By an oversight, the name of the winner of the fourth prize at the tournament was omitted from yesterday's issue. The fourth prize was taken by William Trudgen, of Ishpeming.

ISHPEMING IN BRIEF.

Dennis McCarty has resumed the agency of the Milwaukee street laundry. Mrs. Page's residence on West High street is being enlarged and remodeled.

The Chinamen are doing a big business during the temporary suspension of operations at the Ishpeming steam laundry...

Judge T. W. Whitney, of Saginaw, who was here during race week, expressed himself very favorably impressed with Ishpeming...

The severe frost of Friday night spoiled the huckleberries, and the last of the fruit is now on the market.

Some improvements have recently been made in the banking room of the Ishpeming National bank that will add to the comfort and convenience of the public...

HOLZSHAY DESIRES DEATH.

Train Robber and Murderer Cuts an Artery But Is Discovered and His Life Is Saved.

PHYSICIANS PRONOUNCE THE FAMOUS CONVICT TO BE INSANE.

His Sanity When Committing His Crimes an Interesting Question For Aliens But Without Effect On His Fate.

Holzshay's Latest Attempt at Suicide. Raimund Holzshay, the famous train robber and murderer, now serving a life sentence in the branch prison here, is certainly insane. His famous and foolish break last winter, whereby he compelled Warden Tompkins to shoot off his fingers in order to save the life of Convict Meservey, was believed by many to be a sign of insanity either complete or approaching. Since then he has tried two or three times to starve himself to death, persisting in the attempt until fed by force when he would commence to eat again and for some weeks would conduct himself well. These fits of suicidal mania seem to be somewhat periodic, though he has been carefully watched ever since he entered the prison.

Sunday morning Holzshay made another attempt at self-destruction. He had secreted a piece of tin, broken from his water pail, which he had ground to a sharp edge on the cement floor of his cell. With this he gashed his wrist, severing the radial artery. This attempt to bleed himself to death was quickly discovered by the guards. When the desperate convict found that his plan of suicide was about to be frustrated he attempted to dash out his brains against the walls of his cell. He was put under restraint, his wound dressed and yesterday was apparently calm and content to live. He succeeded in doing little or no damage to himself, only a few bruises and a gash which will quickly heal. He would undoubtedly kill any number of men to regain his freedom and seeing no chance of that has sought to escape from his punishment by self-destruction.

It is an interesting question whether or not Holzshay was insane at the time of his conviction. Dr. O. C. Youngquist, the prison surgeon, said to a MINING JOURNAL reporter yesterday: "Holzshay is undoubtedly insane now. He has suicidal mania as his repeated attempts upon his own life show."

"Do you believe he was insane at the time of his conviction?" "That is hard to say and as I have no personal knowledge of his condition at that time I don't care to express an opinion." Other physicians believe that Holzshay has been insane for some years, one going so far as to say that he had suffered from primary delusional insanity from boyhood and was insane when he committed his crimes.

It would have made little difference in Holzshay's fate whether he was insane at the time of his conviction or not. It would seem that sanity or insanity would simply have sent him to different places of confinement. The court holding him sane he was sent to the branch prison for life. Had he been held insane he would have gone to Traverse City or Ionia for life. Such is the obvious inference from the procedure in the recent Downer case before Judge Stone here. Downer was charged with assault with intent to commit murder. When he came up for trial half a dozen physicians certified that he was insane and Judge Stone made an order that he be confined at Traverse City until he recovered his reason and then returned to this county for trial for his crime. Holzshay is hopelessly and incurably insane. Whether he was crazy before he murdered Banker Fleischbein or whether he has gone crazy since committing that crime is a nice point for alienists to speculate upon. In either event the law of Michigan wisely holds that such beings as he should not run at large and shuts them up until they die.

Amateurs Will Play Ball.
The base ball teams of the South Shore offices and of the Morse Hose company will cross bats at Third street park this afternoon. The batting order of the Morse Hose team had not been determined upon last night. Following are the players and positions and the batting order of the South Shore team:
South Shore. Morse Hose.
Gorman.....Second base.....Kellan
Fitzgerald.....Right field.....Patenaude
Ahearn.....Short stop.....J. Mullaly
Spencer.....Catcher.....D. Mullaly
Mearns.....Third base.....Kuffman
Lewis.....Center field.....M. Mullaly
Gilbert.....Left field.....Gooding
Shaw.....Pitcher.....Genett
E. Wetmore.....First base.....Schwalm
No admission will be charged and the players hope to see all their friends present. A lively game is certain as both teams contain a number of fine players. Shaw and Spencer are the famous battery of the Y. M. C. A. team and Genett and Mullaly distinguished themselves in the recent game with the Negaunee dispensers of liquid refreshments. The betting last night was slightly in favor of the South Shore but the Morse Hose boys expressed great confidence in Genett's pretzel curves.

The Foundations Are All Right.
Quite a number of persons who have watched the progress of the new opera house foundations during the past week have expressed a fear that the front wall was too thin. Some have even taken it upon themselves, with the best intentions in the world, to speak to Architect Charlton on the matter, fearing either that the contractors were not doing their work right or that the architect did not know his business. The anxiety of these critics may be relieved by the statement that the wall is intended to support little more than the weight of the pavement. The pressure of the front will come upon the heavy piers which may be seen at intervals along the foundation. The opera house will be thoroughly well and safely built, but

anyone can see that there is no use of putting in an enormously heavy foundation when it has nothing to support.

Will Retain a Residence Here.

Judge Grant's recent statement concerning his future place of residence was slightly misunderstood by the gentleman to whom it was made and so erroneously printed in last Saturday's MINING JOURNAL. Judge Grant does not intend to remove his family to Lansing nor to take up a residence there. He stated yesterday to a MINING JOURNAL reporter: "I shall retain my residence in Marquette. While the duties of my office will compel me to reside elsewhere during ten months of the year and while I shall hereafter during that time live in Detroit, still Marquette will be my residence for the purpose of voting and citizenship. I have no idea of becoming a citizen of any other town nor of losing my residence in the upper peninsula nor in Marquette."

Resolutions of Respect.

Grafton Lodge No. 111, Ancient Order United Workmen, at a meeting held last evening, adopted by a unanimous vote the following resolutions:

WHEREAS, It has seemed good to the Supreme Master Workman of the universe to again visit our fold with death, and remove from our midst Brother James R. Lewis, who by his unassuming manner and sterling qualities when in health had won the respect of his brother workmen; and WHEREAS, It is but meet and proper that we should express to the bereaved ones our heartfelt sympathy in this hour of their loss, and our appreciation of the honored dead; therefore be it
Resolved, That while we humbly submit to the decree of an Allwise Providence, knowing He doeth all things well, yet we mourn a consistent and worthy brother, his family a devoted and loving husband and the public an upright citizen. Be it further
Resolved, That in memory of our departed brother, James R. Lewis, our lodge room be appropriately draped in mourning for thirty days; that these resolutions be printed in the MINING JOURNAL and the A. O. U. W. Herald, and that a copy be sent the widow of our deceased brother.

"Your Word is Good."

EDITOR JOURNAL:—Please allow me to correct an error in one of your issues in which you state that Ezra Kendall's "Pair of Kids" Co., commence their tour at Marquette. I don't know where Mr. Kendall begins his tour or ends it but I do know that I have contract for his appearance here for two performances Sept. 5th and 6th. I concede my friend Ross a "husler" but your humble servant "gets there just the same." The Kendall Co. are to come here by steamer from Detroit and I believe go by steamer from here to your city. I just thought I would let you know we are "right in line" and no harm done.

Business Chance.

A splendid opportunity for a live business man to continue a well paying, established business. Having closed out my entire stock of goods and not wishing to continue in active business on Lake Superior, I offer for sale on easy terms my elegant two-story and basement brick store building located on the most prominent business corner at Lake Linden. The building and store fixtures are new and complete and there is a splendid and lucrative chance to carry on a large trade, which I have established during the last fifteen years. Parties intending to go into business should not miss this opportunity. I will be at Lake Linden Friday, Aug. 29. Intending purchasers will please communicate with me there.
