TO MEET IN NOVEMBER.

Mr. Edmunds Asks Congress to Agree to a Short Vacation and to Reconvene November 10th.

THE PROPOSAL FAILS TO MEET THE APPROVAL OF HIS COLLEAGUES.

Senate Settles The Salt Paragraph—After Amendment The Southern War Claims Bill Passes The House.

WASHINGTON NEWS.

WASHINGTON, Aug. 29.—In the senate to-day Mr. Edmunds offered the following resolution, which went over for the present: "Resolved, that when the two houses adjourn on the 19th of September, 1890, it be to meet on November 10, 1890." The resolution is the subject of wide comment at the capital. To an Association Press reporter Senator Edmunds said he offered the resolution on his own motion and responsibility. It seemed to him, he said, due to the public interest, and in order that the large docket of important measures reported from the committees and pending before the senate might be attended to, that all available time between now and March 3rd next, should be utilized in discussing and disposing of them. The general sentiment among the members is against the resolution, as they claim that the president is empowered to call an extra session and should do so if the public interests demand it.

THE SENATE.

WASHINGTON, Aug. 29.—After routine business the tariff bill was taken up. But little discussion took place until the salt paragraph was reached.

Mr. Vest argued in favor of free salt, a natural product which was found in inexhaustible quantities in every country in the world and in almost every state in the union. He had seen a deposit of rock salt in Louisiana which would supply this world and give worlds like it plenty for all time.

Mr. Cullom argued against striking out the provision in the paragraph and said that he had written to a pork packer in his state inquiring whether the general provision (section 24) would allow a drawback in that business and the reply was that it would not. The export trade, he said, demanded foreign salt.

Mr. Stockbridge said that in the past five years nearly \$300,000 had been paid in drawbacks to the packers of the country. Michigan salt in bulk sold at Saginaw for from \$2.10 to \$2.40 per ton. After further discussion the paragraph was passed as it stood, the amendment being lost. No amendments were offered to any of the paragraphs from 308 to 318. On motion of Mr. Plumb the duty on brandy, in paragraph 314, was increased from two to three dollars a gallon.

Several amendments were agreed to in the paragraph relating to still wines, ale, porter, beer, malt extract, cherry juice and prune juice, ginger ale and soda water. The schedules relating to cotton manufactures and flax and hemp were passed over informally. There was considerable discussion on the paragraphs from 357 to 369, relating to raw wool, but without reaching a final disposal of that product, the senate adjourned.

THE HOUSE.

WASHINGTON, Aug. 29.—The first bill to be considered was that which has been pending for the last sixteen weeks, the omnibus southern war claims bill. Mr. Thomas (Wis.), who had objected to its passage on the ground that some of those who had claims were covered with disloyalty, offered a substitute striking out the objectionable features, and by unanimous consent it was agreed to. The bill carries about \$390,000. The committee reported, the bill was passed and the committee resumed its session. When the committee again rose half a dozen private bills were passed. The house then took a recess, the evening session to be for the consideration of private pension bills.

MINISTER REID'S THREATS.

Unless France Admits American Pork French Pictures Will Go Up.
PARIS, Aug. 28.—The official correspondence on the prohibition of American pork is published. It seems the American minister, Whitelaw Reid, in complaining of the prohibition of pork, hinted that the United States might revive the 30 per cent duty on French pictures. The minister declared that no disease had been caused in either England or Germany, and requested the withdrawal of the prohibition as an act of friendship, duty and policy.

La France advises the withdrawal by the government of prohibition against pork. The paper thinks that France would, by pursuing such a course, avoid an economic war, the cost of which would fall on her.

PARIS, Aug. 29.—Le Paris prints the following: "The negotiations between France and the United States relative to the American tariff are approaching a favorable conclusion. The Washington government will remove the duty on works of French art, and France will remove the prohibition against American pork."

DUN'S TRADE REVIEW.

Present Condition of Business and the Outlook Decidedly Encouraging.
NEW YORK, Aug. 29.—R. G. Dun & Co.'s weekly review of trade says: "The great relief in the money market here, caused by treasury purchases of 4 1/2 per cent bonds; the refusal of the labor federation to take up and extend the strike of the Central road, and the prospect that the senate will soon reach final action on the tariff bill, have all tended to improve the state of business. At

the same time better crop prospects have brought a distinct reaction in the speculations which most retarded exports. Thus, while the volume of domestic trade continues greater than in any previous year at this season, bank clearings for August outside this city exceeded last years by 31 per cent, and the outlook for the future is clearer and brighter.

The past week has witnessed some further improvement in the demand for manufactured forms of iron and steel, the plate and structural mills being crowded, with better prices in some cases. But the pig iron market, according to private accounts from Philadelphia, is badly disorganized at present, and is not stronger here, the doubt whether production has not much exceeded the demand affecting the views of buyers.

The business failures occurring during the past seven days, number 189, as compared with 192 last week. For the corresponding week of last year the figures were 211.

CHICAGO STRIKES SETTLED.

Stockyards Kick Declared off—Chicago & Alton Men Return to Work.

The Striking Switchmen Recognize Their Mistake and End The Useless Struggle. Terms of Settlement.

CHICAGO, Aug. 29.—The stock yards strike has been declared off. The Chicago & Alton strike has also been settled and the men will return to work. There is nothing left of the Lake Shore strike, all the men who will be re-employed having returned to work.

At noon to-day the collapse of every railroad strike in the city had occurred, and work in the stock yards was begun in earnest at 1 o'clock this afternoon. The Chicago & Alton switchmen recognized their mistake and went back to work this afternoon as a result of a conference between General Manager Chappell, Grand Master Sweeney, Vice Grand Master Downey and a committee of the strikers.

The men agree to become members of the Switchmen's union; to be hereafter governed by its rules and by the advice of its chiefs; to refrain from trying to dictate to the company in the matter of hiring or promoting its men, but with the right to appeal to the officers of the company for redress of grievances, the latter agreeing to listen to such complaints in a spirit of fairness. The switchmen at the stock yards held a meeting this morning and declared the strike off, to go into effect at 1 o'clock to-day.

The Lake Shore strike is virtually settled, forty-seven of the men having signed the agreement to do work as ordered. This leaves about twenty whose places are being filled rapidly.

A TRIPLE SMASH-UP.

Three Cable Cars Crash Together in the Washington-Street Tunnel, Chicago.

CHICAGO, Aug. 29.—Almost a horror occurred in the tunnel under the river at Washington street this morning. The West Side cable cars run through it. One train got stalled in the middle of the tunnel. Another followed it, and a third following that became unmanageable on the down grade toward the center and ran upon the second train, which in turn ran into the first, and there was a general smash-up, in which the three trains were involved. There was the wildest panic for a few minutes, but no one was seriously hurt.

CHICAGO, Aug. 29.—A life was lost in a cable accident in the Washington street tunnel this afternoon, and it was not the fault of the gripman that half a dozen other people were not crushed to death. Many people had narrow escapes from instant death and had it not been for the heroism of several passengers, three or four women would have been killed and mangled against the jagged sides of the tunnel. The accident was caused by a gripman plunging his train headlong into a runaway train that was coming at full speed down the opposite incline.

Frank Metzger, express agent of St. Paul, was with his wife on the grip and though everybody who could jumped to escape the impending danger, Metzger was thrown under the wheels of the train and mangled to death. Other persons were more or less hurt and shaken up and a half dozen women fainted. This was the last of four accidents that occurred on the Yerkes system during the day and the council is to be appealed to to pass such restrictions as will ensure safety on the line or tie up the whole system until its running arrangements are perfected.

JIM CUMMINGS DYING.

The Noted Train Robber Nears the End of His Life's Journey.

JEFFERSON CITY, Mo., Aug. 29.—James Witrock, better known as "Jim Cummings," the train robber, is lying in the penitentiary hospital suffering from acute rheumatism from which, it is said, he will never recover, as it has reached his heart. The picture of the girl he was in love with, and who indirectly was the cause of his arrest has been sent to the hospital at his request, and his mother has been telegraphed for. She will be here Saturday morning. "Jim" has wasted away during the last two weeks until he is only a skeleton. He suffers great agony, but does not complain.

FOREIGN MISCELLANY.

Gladstone Enlogizes Dollinger and Newman in an Article in The Speaker.

THE STRIKE IN MELBOURNE ASSUMES A SERIOUS APPEARANCE.

City Guarded By Special Constables—Strikers Will Consent to No Partial Settlement of The Trouble—General.

ENGLAND.

LONDON, Aug. 29.—Mr. Gladstone, in an article in The Speaker, enlogizes Dollinger and Newman as two of the most remarkable men of the contemporary Christian church. Each, he says, gave his heart to the Purifier, his will to the will governing the universe. The condition of Dollinger's mind was simple; of Newman's complex, requiring more to be written about. The cardinal was a subtle, far-reaching genius and his shadings of thought were like the countless ripples of the sea. He stands in no invidious rivalry, a man of prodigious learning.

Referring to Dollinger's address on the "Jews in Europe," Mr. Gladstone says it was issued when the anti-Semitic movement raged in Germany, evidently for the purpose of making the Germans ashamed. Dollinger knew, as others did not, the incredible suffering of that race—sufferings which dishonor Europe almost as much as the sufferings of Ireland dishonor England. His historic conscience and sense of justice was offended at the threatened infliction of new injuries. The Latin church was not insensible to the gap in her ranks by the expulsion of Dollinger. The war was continued. He was hunted down with solicitations for his submission, which, though warm and respectful, amounted to, "Eat your words, throw convictions behind; stain your long life." A detailed defense of Dollinger follows.

DECLINES TO GIVE SATISFACTION.

LONDON, Aug. 29.—In a note to the Serbian government the porte finally declines to give satisfaction to Serbia for the recent murder of the Serbian consul at Pristina. Serbia will appeal to the powers.

AUSTRALIA.

MELBOURNE, Aug. 29.—Special constables have been enrolled to guard the city, in view of threatened riots. The city is without gas and the suburbs are dimly lighted. The mail service and over-sea traffic continue. The shipping companies are employing non-union men. The wharfmen at New Zealand ports have struck. The service between New Zealand and Queensland is partly maintained by non-union men. The officers of five of the New Zealand company's steamers refuse to join the strike.

The Employees' union has sent a letter to the mayor of Melbourne saying that no partial settlement of the labor disputes will be satisfactory. The position, the letter says, requires a thorough and simultaneous settlement. A conference between the ship owners, mine owners and employes generally is projected with the object of discussing the future relations between the employers and employes.

RUSSIA.

ST. PETERSBURG, Aug. 29.—The Czarowitz will start on his tour on October 13th from Sebastopol on board the frigate Pamiaty Ayova, commanded by his brother George. The imperial family will go to Sebastopol to bid the voyagers farewell.

An order has been issued to discharge on September 1, the crews of the navy whose terms of service expire in March, and granting extensive furloughs to other men of the navy.

BULGARIA.

SOFIA, Aug. 29.—The Svoboda, discussing the interview between Emperor William and the Czar, says: "The dominant factor is, we are Bulgarians. We shall not be powerless as long as Prince Ferdinand and the government combined act with courage and defend the country."

GERMANY.

BERLIN, Aug. 29.—The National Zeitung says that the emperor has declined to accept the resignation of General Verdoy Du Vernois as minister of war.

COOPER CAPTURES THE COY.

Deadlock in The First Wisconsin Congressional District Convention Broken.
CLINTON JUNCTION, Wis., Aug. 29.—The deadlock is broken and H. A. Cooper will be the next congressman from the First Wisconsin district. This morning when the convention proceeded to take the first ballot, four delegates went over to Cooper and a crisis. Three dining room girls were taken out badly burned.

BURNED TO A CRISP.

Horrible Death of The Cook of a Saratoga Hotel, Which Is Burned.

PORT HURON, Mich., Aug. 29.—The Tunnel Hotel, at the Canadian mouth of the tunnel burned this morning at 3:30 o'clock. Seven tunnel employes escaped in their night clothes. May Clegg, the cook, was burned to a crisp. Three dining room girls were taken out badly burned.

Preparing For Labor Day.

MILWAUKEE, Wis., Aug. 29.—Great preparations are being made for the observance of Labor Day Monday next and it is thought that the parade will be one of the largest ever seen in this city.

A Long Dead'ock Broken.

CINCINNATI, Aug. 29.—A Times-Star special from Gallipolis says that Gen. W. H. Enoch was nominated for congress in the Twelfth Oh district on the 476th ballot.

WENT DOWN TO DEATH.
A Man Falls Down a Shaft at Negaunee and is Instantly Killed.

Postponement of the Opening of School For a Week—Negaunee News in General.

Distressing Accident.
 A very sad accident occurred at the East Jackson mine Thursday night, about half-past ten o'clock, which resulted in the death of one of Negaunee's popular young men. The victim of the calamity was Gus. Foley, who has worked as engineer in the East Jackson engine house, off and on, for nearly two years. He had only been working about a week on the night shift previous to the accident. About ten o'clock Thursday evening the eight hour shift men were lowered down into the mine. About half an hour later Foley, hearing that the skip would not run for at least two hours, donned his oiled clothes preparatory to descending into the shaft. He left the engine room in the care of an assistant, telling him that he was going down into the pit to examine the new drift which was being made and that he would be back soon. The assistant was surprised some fifteen minutes afterward to hear the going strike for the bucket to be raised. As soon as it had reached the top a miner came running into the engine room saying that an unknown man had fallen to the bottom of the shaft and was killed instantly. The assistant said that Foley had left to go down shortly before. After the blood had been washed off the dead man's face it was found that he was the man who had met with the accident. It appears that he had descended the ladder 100 feet to the first level, where there is a small pump which he had spoken of looking after. The ladder stops at this point and another one goes down to the bottom, a distance of over seventy feet. From the opposite side of the shaft. To get around from the first ladder to the other, one has to climb along a narrow piece of scantling, a feat which is only attempted by experienced miners, and that in daylight. Foley had probably got that far when his hands slipped off the railing above and he fell back head foremost to the bottom of the pit. The miners below, hearing his body strike against the side a number of times in its descent, thought that the bucket was falling and ran off into the drifts out of the way. He struck square on his head and his neck must have been broken. When picked up he only gasped once. How far he really fell is only a matter of conjecture, since no one was near when the accident occurred. Foley was 22 years of age. He was highly esteemed for his frank, open nature and many virtues, and his loss will be greatly felt by his many associates. The funeral will occur Sunday afternoon from the Catholic church.

School Opening Delayed.
 The opening of the schools, on the cards for next Monday morning, will be delayed one week longer on account of a principal not yet being chosen. At the annual school meeting next Monday evening, the applications will be considered and a principal chosen. Let every tax-payer vote favorably for the school library on that evening. On account of the delay of one week, during which time much needed work on the school buildings will be done, there will only be one week, instead of two as heretofore, vacation at Christmas time.

Don't miss seeing the game of ball tomorrow at Union park between the Lime Kilns and the Republic teams. The Lime Kilns have been practicing hard this week and will give their opponents a tough shake, if they do not defeat them.

Blood Will Tell.
 There are "Blue-blooded people and "Red-blooded" people, and "White-blooded" people; but there are more "Bad blooded" people than all the rest put together. Sometimes their blood is simply impure. In that case there is no better remedy than Pe-run-a. But sometimes their blood is diseased, and horrible indeed some of these Blood Diseases are. There is Chronic Catarrh, for instance, and Scrofula, and Chronic Rheumatism, Chronic Ulcers and even more horrible diseases. They are terrible diseases, and especially so when they break out at this season of the year, when the body is relaxing under the operating heat, and yet has not adapted itself to debilitating summer conditions. Happily, suffering manhood is not without a remedy for such dire afflictions. La-cu-pi-a proved itself in thousands of cases a grand cure for them. Read its record in Dr. Hartman's "I'lls of Life," sent free by the Poruna Medicine Company, Columbus, Ohio. Regulate the bowels, if necessary, with Manalin. Each retail at \$1 a bottle. AN OPEN LETTER
 From a Well-known Druggist—"Positive Cure for Stomach Troubles."
 To WHOM IT MAY CONCERN: I was first afflicted with that most dreaded disease, dyspepsia, and for over fifteen years I suffered terribly at times. In the meantime I tried every so-called remedy imaginable, without finding relief. Having been in the drug business since 1868, I determined to help myself if I lay in the power of medicine. Two years ago I succeeded in discovering a remedy. I cured me. Until I had given ample time for possibility of doubt, however, I kept my secret almost to myself, putting up the medicine for only a few of my sorely troubled friends, every one of whom was cured. I now know the medicine to be a positive cure, and have decided to put it on the market, that my discovery may do humanity all possible good. It will be known as "BRUSKE'S POSITIVE DYSPEPSIA, LIVER and KIDNEY CURE," which is guaranteed to cure all ailments of the stomach, liver and kidneys. AMNESTY GRANTED.

All Military Deserters Forgiven by King Leopold of Belgium.

PHILADELPHIA, Pa., Aug. 29.—Mr. E. L. Feffer, the acting Belgian consul in this city, has received official notification from this government that King Leopold, on the sixtieth anniversary of the independence of Belgium, which was coincident with the twenty-fifth anniversary of his reign, and which occurred on July 31st last, granted amnesty to all military deserters. This includes all those who deserted while performing their compulsory military duties and those who left the country, having served part of the stipulated time in the government service. In order to obtain the benefit of this amnesty all Belgian subjects affected thereby must present themselves to the Belgian consul in the district in which they are located as soon as possible and receive from him credentials which will allow them to return to their native land without fear of arrest on the charge of either evasion or desertion of their military duty.

PREPARING FOR WAR.

Chicago Carpenters Make Arrangements to Go out Next Monday.

Chicago, Aug. 29.—The carpenters council held a meeting on Thursday night which lasted till considerably after 1 o'clock yesterday morning, and took action on several matters relating to their strike, which is to be inaugurated Monday. A strike committee con-

sisting of three members was elected who will have general supervision of the campaign. They will appoint pickets and committees to visit buildings on which non-union men are employed with a view of getting the latter to join the union. A committee of three was also appointed to visit the bricklayers meeting held last night with a view of inducing them to refuse to work on buildings on which non-union carpenters are at work.

THE ALLIANCE ON TOP.

By a Combination With the Democrats It Controls Indian Territory Legislature.

GUTHRIE, I. T., Aug. 29.—The legislature was organized this morning by a combination of the democrats, the Alliance democrats and the Alliance members. George W. Goldenshire, an Alliance member from Payne county, was chosen as president of the council. In the lower house it was developed that the democrats and Alliance members had combined and had 14 votes out of the 25. M. A. Daniels, an Alliance member, will undoubtedly be elected speaker.

CHINESE AT VICTORIA.

Fifteen Heathen Who Intend to Work Their Way Into the United States.

OTTAWA, Ont., Aug. 29.—Fifteen Chinamen arrived by steamer last week at Victoria from San Francisco, where they were refused a landing. They say they will work their way across the sound into Washington, and thence south to their original destination in San Francisco. Within the last month or so a large number of Chinese have arrived at Victoria, from which point they lay their plans for smuggling themselves into the United States.

INSTANTLY KILLED.

Two People Step Onto a Wire Carrying the Current to Are Electric Lights.

WHEELING, W. Va., Aug. 29.—At 7 o'clock this evening a colored man named Joe Solomon stepped on the wire which supplies the current to the arc electric lights used in the tunnel headings at tunnel No. 7, and was instantly killed. An Italian whose name is unknown stepped on the same wire just as Solomon fell and was also instantly killed. Two other men were shocked in drawing the bodies from the wire. Both men wore thick soled leather boots and neither body was burned or mangled in any way.

Accounts Badly Muddled.

BOSTON, Aug. 29.—It is impossible to trace to any source worthy of credence the thousand and one reports regarding the failure of Messrs. Potter, Lovell & Co. The firm, from the nature of its business, is largely involved. It has assets to a large amount, but their value is not ascertainable and it will require weeks to make up a showing which will approach accuracy.

Delaware Colored Convention.

WILMINGTON, Del., Aug. 29.—The state convention of colored men adjourned sine die at 5 P. M. to-day after a two days' session. Most of the day was occupied in discussing ways and means for the advancement of negro labor and the making of it less dependent upon the white race.

Brakeman Severely Injured.

DANBURY, Conn., Aug. 29.—Two sections of a parted freight train on the Danbury & Norwalk railroad collided near Bethel early this morning and six loaded freight cars were piled up. A brakeman was severely injured. The wreck was cleared at noon after greatly delaying traffic.

Coal Advanced in Chicago.

CHICAGO, Aug. 29.—The Chicago coal exchange held a meeting to-day and resolved to advance the price of hard coal 50 cents per ton on and after September 1. This means a like advance throughout the whole west.

Forecast of the Weather.

WASHINGTON, D. C., Aug. 29.—S. P. M.—The signal service reports the following as its forecast for the next 24 hours: For Wisconsin and Michigan: Fair; warmer; winds shifting to southerly.

The Brick Boycott.

NEW YORK, Aug. 29.—The members of the Building Materials association, at a meeting held here this afternoon, reviewed the situation in the brick tie-up and were despondent over it. One of the conclusions reached was that the

present strike is one of the most disastrous which has occurred in this city for many years, embracing as it does most every class of labor. Next week, if there is no change, work on all buildings will have ceased as by that time the supply of brick will be exhausted. It is feared that those of the building trades who have time contracts will suffer very much.

Chicago Warehouse Burned.

CHICAGO, Aug. 29.—A fire at Sixteenth and Union streets early this morning destroyed the old Burlington warehouse, now occupied by the Knapp & Stoddard Furniture company. The loss on building and stock and the contents of the burned cars amounts to about \$60,000, fully covered by insurance.

Loss Very Heavy.

AMHERST, N. S., Aug. 29.—A fire destroyed Robb & Son's foundry and machine shop last night together with the offices and ware rooms and their contents. The loss cannot be estimated now. There is some insurance but it is nothing in comparison with the loss.

Hastings, Neb., Bank Fails.

HASTINGS, Neb., Aug. 29.—The City National bank closed its doors this morning. The failure is attributed to the poor character of the loans and was precipitated by the county treasurer withdrawing a deposit of \$25,000.

Dropped Dead.

ROCHESTER, N. Y., Aug. 29.—John Siddons, prominently known through the country as head of the John Siddons Roofing company, dropped dead this morning. He leaves a wife, a son, Charles S. Siddons, of Cleveland, and two daughters. He was a prominent Mason.

Going to Germany.
Quite a party will leave this vicinity to cross the Atlantic to-morrow or Monday. Alderman John F. Mack, his wife and daughter, Martin Vierling, J. C. Fassbender, of this city, and Ed. Lobb and wife, of Negaunee, will travel together and sail upon the same steamer, the Columbia, of the North German Lloyd line. Alderman Mack returns to his native Wurtemberg after an absence of thirty-five years. Mr. Vierling left Rheinpfalz over twenty-seven years ago and the others have been in America nearly or quite as long. All have accumulated a moderate share of this world's goods and feel that after a generation of hard work and close attention to business they deserve a holiday. The duration of the trip is fixed at two months but Mr. Mack admitted that it might easily be next spring before he returned.
Will Celebrate Labor Day.
The masons and bricklayers of this city will celebrate September 1st, "Labor Day," with a parade and picnic. The members of those trades will assemble at Mack's Hall Monday morning and proceed to Meeske's grove to spend the day with their families in the open air. Refreshments will be served and the Marquette City band will furnish fine music. The turnout promises to be a large one and an enjoyable time will doubtless be spent by all. The friends of the holiday-makers are cordially invited to join in the celebration of the day. The start from the hall will be made at 9 o'clock.
TALK OF THE TOWN.
The common council will meet Monday evening.
The ladies of the Book club are requested to pass on their books.
The Volunteer mine has been rushing down lots of ore of late.
Regular services will be held in the Baptist church to-morrow morning.
The South Shore will shortly build a spur from the Pitch to the Saginaw mine.
The Cormorant and Wall will probably finish discharging their cargoes of coal today.
Do not forget the meeting of the Citizens association on Monday evening. All should aid in the advancement of Marquette.
The train for Duluth, due at 5:45 last evening, did not arrive until 8:25. Delay was caused by belated Canadian Pacific connection.
The steamer City of Marquette makes her last trips to Pictured Rocks to-day and Monday. Quite a number of summer visitors will make the trip to-day.
Owing to wreck on the Michigan Central the Detroit sleeper did not come through yesterday and the Marquette contingent from the state convention did not get in.
Work will begin on the street railroad to-day though the rails have not yet reached here. The franchise will be forfeited unless work is begun by September 1st.
E. Lardie has opened a real estate and employment bureau in the offices over Duquette & Metz' store and will furnish help of all kinds at short notice. Those desiring situations or wanting help will do well to consult him.
Rev. J. C. Pillsbury will preach at the Methodist church to-morrow morning on the subject "The Emanuel of Prophecy." His evening theme will be "The Powers of the Heart," the same as announced for last Sunday evening, that occasion having been otherwise occupied.
A large and well pleased crowd attended the Milkmaids Festival at the Presbyterian church last evening. A series of pretty tableaux and vocal and instrumental music, not to mention a quantity of good things to eat and drink, made the evening a pleasant one for all.
PERSONAL MOVEMENTS.
W. H. Chillis of Ishpeming is in the city.
R. G. Elliott of Grand Marais is in town.
S. Rich of Escanaba is in the city on business.
W. G. Carah of Hancock is in town for a few days.
R. Comfort is down from Kenton for a few days.
E. P. Royce, of Escanaba, was in the city yesterday.
J. W. Millen of Ironwood spent yesterday in this city.
W. W. Gowling was a visitor from Ishpeming yesterday.
W. J. Rainey of Houghton is spending some days in Marquette.
G. Hallstrom returned yesterday from a business trip in the east.
Mrs. A. B. Sturtevant and Mrs. H. B. Sturtevant were down from Ishpeming yesterday.
Mrs. John P. Outhwaite and Mrs. Mrs. M. W. Outhwaite, of Ishpeming, were Marquette visitors yesterday.
William Coach, the Baraga lumberman, is in the city making preparations for next winter's campaign in the woods.
Mrs. Julia Rees, of Newark, Ohio, is here on a visit of her son, J. F. Rees, of Master Mechanic Connolly's office. She is accompanied by Mrs. Cameron, also of Newark.

White and Friant, Parana, Neil, Arctic, Ogarita, King.
THE JOLIET AFLOAT.
Got off After Lightening 700 Tons—Ore Dumped in Canal.
SAULT STE. MARIE, Aug. 29.—[Special].—The steamer Joliet was released this afternoon after lightening about seven hundred tons of ore. While one of the scows, loaded with one hundred and fifty tons of her cargo was awaiting her passage, she sprang a leak in the canal. Before the leak could be overcome the scow capsized, dumping her load of ore into the canal.
An Object Key to History.
Below will be found what some good authorities say of Adams Chromo-Lithographic history of the world, now being shown in this city by Mr. W. C. Gillette, of Grand Rapids, of whom a personal mention was made in this paper two days ago. Mr. Gillette is a courteous and obliging gentleman, who takes delight in exhibiting the work to all who may wish to see it. He will remain in the city a few days. All who see the chart are well pleased with it.
ADAMS' CHART OF HISTORY.
Mr. W. C. Gillette, of Chicago, is now in this city canvassing for absolutely the finest work of the kind ever offered the public. It is a chromo lithographic history of the world, during its fifty-nine centuries, mounted on canvas in panoramic form and arranged to fold into a handsome cover. The thinking man will see the great value of the work at a glance. Mr. Gillette is a gentleman whose unobtrusive manners renders him quite unlike the average book canvasser, and having a very meritorious work we can cheerfully recommend a careful examination of it to our citizens. It ought to have a place in every home in Appleton.—*Appleton (Wis.) Crescent.*
Scientific American: "The plan adopted is a very ingenious one—is such that the student sees at a glance exactly the condition of the world at any given date."
Randolph Rogers, Esq., the celebrated American sculptor, Rome, said: "I showed it to Signor Bonghi, the ex-minister of public instruction, and one of the most learned men in Italy. He pronounced it the most complete work he had ever seen."
Cleveland Leader: "This chart embodies the first successful attempt to place the history of the world before the eye with the distinctness of photography, and yet with the simplicity of a panorama. The value of such a work cannot be estimated until it has been examined and used."
George Augustus Sala, one of England's ablest authors, says in the London Illustrated News of November 8th, 1870: "Imagine 'Haydn's Dictionary of Dates,' plus 'Cobbett's Dictionary of the Bible,' plus the 'Complete Gazetteer,' plus all Maunders' 'Treasures,' made graphic, and you gather some idea of the nature of this portentous work."
Kendall's New Play.
"A Pair of Kids" and "Under Two Flags" are the two plays to be presented by Ezra Kendall and company at the opera house on Monday and Tuesday, September 8th and 9th. Arrangements were made today for a special ladies' and children's matinee, to be given Tuesday afternoon, on which occasion the funny "kids" will be given. "Under Two Flags" is described as a rollicking Irish comedy drama with strong situations and dramatic effects. It will be a revelation to many to see Mr. Kendall the first night as the old haysced countryman and then witness his performance of the jolly old Irish vagabond in the new play. He is reported as having made a splendid hit in the new character (and as having received flattering letters from leading Irish people who expressed themselves as fairly in love with the dear old Irish pipe). In the first act of "Under Two Flags" Kendall appears as a young Irish boy, and in the remainder of the play as an old piper fifty odd years of age. He will introduce several new Irish melodies and some clever dancing. The engagement promises to be a rare treat in the comedy line and present indications point to flattering patronage.

THE NATIONAL LOAN AND INVESTMENT COMPANY.

OF DETROIT, MICH.

FRANCIS F. PALMS, President, **SILAS B. COLEMAN**, Treasurer
GEO. H. PAINE, Secretary, **CHAS. A. KENT**, General Counsel

We are acquainted with and have business relations with The National Loan and Investment Company of Detroit, Michigan, a corporation doing business under the Building and Loan laws of the state of Michigan. Some of the gentlemen connected with the company as officers and directors are among the best known citizens of Detroit, and are men of high character and financial responsibility. While the business of Building and Loan Associations is a comparatively new one in Michigan, this Company has assumed large proportions, and is rapidly growing. The character of the management, we think, insures the careful handling of its finances and strict accountability therefor.

The gentlemen named above are well known to me, and enjoy the confidence of this community fully.

THE NEWS AT ISHPEMING.

Rev. A. M. Stolpe Resigns the Pastorate of the Bethany Swedish Lutheran Church.

THE EPIDEMIC OF DIPHTHERIA IN THE HEMATITE CITY ABOUT OVER.

The Temperance Quartette to Visit Us—Base Ball Notes—Happily Wedded—Schools.

The Caplis Case.

Mr. Stolpe's Resignation.

Last Sunday, at the Bethany Swedish Lutheran church, Rev. Mauritz Stolpe, who has had charge of the spiritual affairs of the large congregation for the past five years, announced his resignation, which had been placed in the hands of the trustees. While the announcement was not altogether a surprise to the congregation, it was something of a shock to learn that the pastor whom they had grown to love as a friend and counselor, was to leave them. The resignation will be accepted, as Mr. Stolpe has made it known that duty calls him elsewhere, and a successor will be chosen at once. After the regular services next Thursday afternoon there will be a meeting of the members of the church, at which time it will be decided to extend a call to some clergyman to supply the vacancy in the pulpit of Bethany church. As the congregation is one of the largest in the northwest, it will in all likelihood secure an able minister.

The Rev. Mr. Stolpe will leave Ishpeming some time in October for New York city, where he will assume the pastorate of Gustaf Adolf church in that city. The church is one of the largest in point of membership, and one of the wealthiest, of the Swedish Lutheran churches of this country. The calling of Pastor Stolpe to take charge of its spiritual affairs may be considered in the light of a compliment to the ability of that gentleman, as the charge is one of the most important in the country.

During his five years stay in Ishpeming Mr. Stolpe has made many friends here outside of his congregation. The MINING JOURNAL wishes Mr. Stolpe, and his estimable wife, the best of good fortune in the metropolis, and assures his future congregation that they have chosen wisely.

Diphtheria.

No new cases of diphtheria were reported yesterday, and it looks as though the epidemic had reached its limit. As in previous epidemics of this insidious disease, the harm was done before it was known that the disease was here. As soon as it became known that there were several cases, and that the disease might be termed epidemic, the proper measures to secure isolation of all cases were taken, and the further spread of the disease stopped.

Mr. and Mrs. George Hayden's little daughter, who has been very dangerously ill with the disease, is also better. Mr. Charles T. Fairbairn, who contracted the disease from nursing her little niece, is also better. It is probable that the ravages of diphtheria in Ishpeming are nearly over.

Temperance Meeting.

On Wednesday and Thursday evenings of next week the "Students' Quartette" of the Norwegian Temperance association, of Minneapolis, will entertain audiences at the city opera house. This quartette is justly renowned throughout the northwest for the excellent singing of its members, and deserves a good audience each night of its stay here. The quartette comes here under the auspices of the Young People's Society of the Norwegian Lutheran church of Ishpeming.

In addition to the singing, which will be the main feature of each entertainment, there will be short addresses in Norwegian and English on the temperance question. The bills of the quartette, which have been liberally posted about the city, are in Norwegian, with the suggestive announcement at the bottom of each that "the saloon must go."

Admission will be free to each entertainment, but a collection to defray expenses will be taken up after the entertainment each night.

Base Ball.

The Ishpeming club is not distinguishing itself of late. While some of the players are doing good work, still there are others that are not performing the wonderful feats on the diamond that might be expected of them, considering what they have done in the past. The base ball season is now nearly at an end, and a few days more will see the last of the league series of games played. Had better ball been played by the home club for the past month a series of exhibition games would have been arranged for, in all likelihood, but as matters now are the players will be paid off, and the club disbanded, promptly at the end of the season.

The club of '91 that Ishpeming will enter for the pennant will be constructed on somewhat different principles, and run on a different plan from the one that is now playing its last games. It takes time to learn, and it is one thing to criticize a game of ball, and another to manage a club, as the directors of the association have learned. They have worked hard, and it is not their fault that the pennant goes to Houghton. Next year there will be a different order of things.

Married.

Mr. John H. Rowe, and Miss Mary J. Bodenna were married at the residence of the bride's parents, Captain and Mrs. Geo. Bodenna, Thursday evening, August 28th, by the Rev. J. P. Varner, of the Division Street M. E. church. Mr. and Mrs. Rowe have many friends here, with whom the MINING JOURNAL joins in extending good wishes for a prosperous voyage down the stream of life.

The Schools.

The teachers' institute here has been largely attended by teachers from all

parts of the country, and much good has come from it. The teachers have gone home to prepare themselves for another season's work. The public schools will open here next Monday, and it is expected that the enrollment will be much larger this season than last.

The Caplis Case.

Pat Caplis, the man who was badly cut about the head by a cane in the hands of Officer Lavigne last week, called at the MINING JOURNAL office yesterday to state his version of the case. According to his story, the officer entered a saloon to arrest a man when there was no good reason to make an arrest. Caplis took hold of the officer's coat to remonstrate with him; the coat was in some manner torn and Caplis then left. Lavigne went outside, blew his whistle and set off after Caplis, who turned around when requested to halt and was knocked down by the officer's cane and struck several several severe blows about the head after down. Caplis was taken to jail, and the case was compromised by Caplis paying for repairing Lavigne's coat.

If Lavigne struck the man after he was down it was a cowardly thing to do, unless it were absolutely necessary to pound the man's head into a jelly to make the arrest. If it were necessary to use violence the officer was justifiable. The facts will come out on the trial next Tuesday, and until then it would not be wise to pass on the case. The matter is one that should be and will be investigated to the bottom, and if the officer is guilty he will be fired, while if he only did his duty he will be sustained by the city.

Would it not be well for the council, while it is buying coats and helmets for the police, to order a few clubs as well? A policeman of any strength at all can conquer a refractory subject with a club, while he has his revolver to rely on if it becomes necessary. The canes now carried by the policemen are dangerous weapons, and a man could be killed with one of them by a few well-directed blows. In all large cities the police have clubs of the standard pattern, and it would be well to replace the present canes with the ordinary patrolmen's baton.

Settled.

The insurance loss on the Urban house and furniture by last week's fire has been adjusted by the representatives of the insurance companies holding risks on the building and contents, and the work of rebuilding and renovating will be begun at once. As matters now are, Mr. Bohn is accommodating all of his guests, though laboring under disadvantages. It is likely that the building will be enlarged, as it is not roomy enough to accommodate the business that it now enjoys.

Religious Services.

There will be religious services at the A. O. U. W. hall, on Cleveland avenue to-morrow at the usual hours, and also in the evening, by the Rev. A. E. Cook, of the English Baptist congregation. Everyone is cordially invited to attend, and strangers will be made to feel at home.

HEALTH AND BEAUTY.

Swift's Specific has cured my little niece of a
while swelling of the worst type. More than
twenty pieces of bone came out of her leg. She
was not able to walk for eight months, and was
on crutches a year. The doctors advised ampu-
tation, but I refused, and put her on S. S. S.
She is now as well and playful as any child.

ISHPEMING IN BRIEF.

Mr. and Mrs. T. M. Tremberth are visiting
friends in Ontonagon county.

The "Corner Market," under the new
management, is doing a big business.

A good house and lot in the Excelsior
addition is offered for sale cheap by An-
drew Sandberg.

Hageman's cafe will be open Monday, it
having been found impossible to get around
for the opening to-day.

"Scandia Hall" on North Second street
is being remodeled, and the first floor will
be made into a store.

William Lamin, an old resident of the
city, died last Monday, and was buried
Tuesday. He leaves a wife, daughter and
three sons.

"Ishpeming Boy" has been sold by John
Farm to Fred Braastad, consideration pri-
vate. The new owner will get out all the
"go" that there is in the animal, which is a
speedy one.

There is plenty of beef steak and pork
roast in town again, though the strike in
the Chicago stock yards made some of the
markets here rather short of meat for a
few days.

J. Russell, at present rusticated at
Kitchi, has been bound over to stand trial
at the next term of circuit court, the charge
of adultery being preferred against him by
Martin J. Gusten, the man who attempted
to carve Russell with a hatchet.

Says the Penninsular Record: "There is
but one sport in this city that will beat the
liveliest horse race, and that is Cornish
wrestling." The Record is eminently cor-
rect, as usual. Wrestling knocks the spots
off horse racing in Ishpeming, as far as
drawing a crowd is concerned, and it is a
noticeable fact that the spectators are com-
posed of all nationalities. Cornish wrestl-
ing is a fine, manly sport, and it will
always attract big crowds.

MICHIGAMME MATTERS.

MICHIGAMME, Aug. 29.—Jack Carkeek,
accompanied by his sister Nettie, spent a
few days in town the early part of the week
visiting friends.

Mr. William Peterson and Miss Mary
Olson were united in marriage at the resi-
dence of the bride's brother, Alfred Olson,
on Wednesday evening, Rev. Stolpe, of
Ishpeming, officiating.

Mr. William Zeltner, of Republic, travel-
ing agent for the Washington Life Insur-
ance Co., spent the week in town and
reports having done a rushing business.

Messrs. Alva S. Wright and Fred Croll
will leave on Monday for a two weeks
vacation. They will visit Detroit and other
cities while away. It is doubtful whether
Mr. Wright will return, but it is hoped that
he may.

Mr. Mike Casey, who has held a position
as book-keeper at the Imperial mine for
the past few months, has resigned the
position and will leave for Denver, Colo.,
Saturday. Failing health induced him to
take this step. He is succeeded by Mr. J.
C. Tremberth, formerly with R. M. Hoar &
Co., of Houghton.

Mr. J. C. Jacques, representing the De-
troit Saving and Loan association, has
been in town for the past week.

A ball was given at the opera house
Thursday evening by the Michigan Glee
Club. A small crowd was in attendance,
but those who participated report having
had a glorious time.

The Imperial mine paid off its employes
on Wednesday.

W. D. Rice and wife arrived on Wednes-
day. Mr. Rice will take charge of the
Spurr school, which will open on September
1st, instead of the 14th, as stated in last
Saturday's JOURNAL.

Capt. Jas. Pascoe, formerly of the Cham-
pion mine, was in town Monday.

Prof. B. J. Farnah and lady and Miss
Jones are expected to arrive to-day.

Thousands Poisoned.

In a recent work on heart disease, Dr.
Franklin Miles—the noted specialist—gives
many new and startling facts. Thousands
of people are slowly poisoning themselves,
weakening their hearts by the use of tea,
coffee, tobacco and alcohol. These are
heart whips, causing it to beat rapidly, thus
gradually wearing it out, producing short-
ness of breath while exercising, pains in
side and shoulder, hungry and faint spells.
Finally heart failure and sudden death.
For weakened and irritated hearts the press
everywhere highly recommend the new
heart cure discovered by Dr. Franklin
Miles, which is for sale at H. H. Stafford &
Sons.

ELECTRIC BITTERS.

This remedy is becoming so well known
and so popular as to need no special men-
tion. All who have used Electric Bitters
sing the same song of praise.—A purer
medicine does not exist and it is guaran-
teed to do all that is claimed. Electric
Bitters will cure all diseases of the Liver
and Kidneys, will remove Pimples, Boils,
Salt Rheum and other affections caused by
impure blood.—Will drive Malaria from
the system and prevent as well as cure all
Malarial fevers. For cure of Headache,
Constipation and Indigestion try Electric
Bitters.—Entire satisfaction guaranteed, or
money refunded.—Price 50 cts. and \$1.00
per bottle, at H. H. Stafford & Son's drug-
store.

Ask Your Friends About It.

Your distressing cough can be cured. We
know it because Kemp's Balsam within the
past few years has cured so many coughs
and colds in this community. Its remark-
able sale has been won entirely by its genu-
ine merit. Ask some friend who has used
it what he thinks of Kemp's Balsam. There
is no medicine so pure, none so effective.
Large bottles 50c and \$1 at all druggists'.

BY TALENTED AMATEURS.

Republic Witnesses a Very Clever Perfor-
mance of "Fanchon"—Personal and
Miscellaneous Notes.

The finest audience that the town hall
has held for years greeted the rendition of
the domestic drama, "Fanchon, the
Cricket," last Saturday, and the audience
was as pleased as it was large. Long be-
fore the hour of opening "standing room
only" was the word. The strains of the
Silver Cornet band filled the air, and the
elite of the city more than filled the hall,
while the performers filled the bill.

Mrs. Montgomery played the title role
and acted the wild, untamed but worthy
girl of the homestead to perfection. She is a
character performer and has a good deal of
voice and gesture that show patient train-
ing. The tableau of the "Shadow Dance"
with the horror-stricken twins on the dis-
tant bridge was as pretty as could be.
Fanchon's part called for three changes,
and each character was excellently given.

And those twins! How awfully alike in
form and unlike in fact. The serious,
serio-comic Dieder (J. Gibson) both "took"
with the audience from the start and the
interest was held to the close. These gen-
tlemen did themselves proud. The witch
was simply tremendous. Her own mother
would not know her (Mont) in her fright-
ful make-up, and Martineau (M. J. Gleason)
only expressed the general dread when he
acted in her presence as if he were scared
to death. The intensely dramatic part of
Fadet was well performed; and when one
considers that the one who acted as man-
ager, he ever found time to do it all so well.
Mother Barbauld (Miss Mamie Eytzberry)
did the patient, loving mother very nicely
indeed. She had a very long and difficult part
and calm him and to soothe poor Didier,
and most pathetically did she effect both
achievements. Grandmother Manon (Miss
Mamie Kuse) had a hard task to ap-
pease the cranky old crone, on
behalf of her beloved godchild.
Nothing but her caressing tones could have
touched the seared heart of the bitter,
wretched old rector, Madelon (Miss
Nellie Green), the proud beauty, acted
very prettily, and in spite of her gentle
face she looked as if she meant her wish to
chance the neck of the old rector (Calumet
Keen), Susette (Miss Annie Harrington),
Mariette (Miss Annie Parr), and Marie
(Miss Mamie Casey), the ladies of the chorus,
took their respective parts very neatly,
while their pretty darning and posing
added very much to the fine effect. People
wondered how Mont managed the change
from Fadet to Calumet so quickly, but it
was not Mont, it was J. Voegthel, and his
drone and tumbling brought down the
house. His friend Father Barbauld (P.
Whelan) had a very long and difficult part
to play, and had a quick change to handle
as well, but he came up to the mark every
time, and he out-did himself when he
brought down the house by deprecating the
prospect of having Fanchon for a
daughter. Etienne (T. Vanier), Pierre
(O. Walsh), Colin (A. Parr), Mathieu (N.
Sealy), and Compagnon (F. Perrault),
the chorus of the French, did their parts
very effectively. Much drilling must have
been practiced for the May-pole scene.
The grouping was fine, and the colors borne by
girls and boys, behind the main part
with the tints of the surroundings, made
such a scene as Republic has never had
before.

It was indeed a grand success, and Mont
had every reason to be proud of his man-
agement. The properties were handled by
Messrs. Voegthel and "Mac," and the
general "Tom and Will" did the graceful
in the French cast, and made the tableau
surely draw another full house.

Mrs. Joseph H. Onge, of Florence, Wis.,
is visiting her brother-in-law, Dave H.
Onge.

Our first base ball nine goes to Negaunee
to-night to tackle that city's crack nine.
Reduced railroad rates will prevail.

Wm. Allen returned from West Duluth
on Tuesday, where he has been investing
extensively in real estate.

Mrs. Russell, of Champion was visiting
Mrs. Jones last week.

A special train arrived here yesterday
via the South Shore, having on board W.
D. Rees, Secretary and general manager of
the Republic Iron Co., and the following
levelled gentlemen: Douglas Perkins,
Joseph Perkins, H. B. Perkins, the Hon. H.
Ely, also Peter White, of Marquette, Mich-
igan director. The party returned the
same afternoon, after inspecting the mines.

Captain and Mrs. Pascoe are expected
home from Detroit on Monday evening.

The Republic Iron Co. received 2,000 tons
of soft coal via the South Shore the past
week.

T. M. Beal, of the firm of Hart, Bros. &
Co., starts on Monday for Chicago and
New York to make full purchases.

Mr. Geo. H. Allure, who has been visit-
ing her son, W. H. Allure, here for the past
month, returned to her home in Ionia, on
Wednesday. She was accompanied by
Mrs. W. H. Allure, who will visit there for
a month or six weeks.

Miss Tillie Roberts, who has been the
guest of Mrs. Beal for several days, re-
turned to her home in Ishpeming on Tues-
day.

Messrs. F. H. and Arthur Kearney re-
turned from the west Thursday evening.

Angus McDonald is now assistant agent
with J. H. Murphy at Even.

Thomas Carey returned from Duluth on
Saturday last.

Miss Brown, of Michigan, who has been
visiting Miss Ida Jenkins, returned
home Wednesday.

Mr. Freedron took her departure for
Red Jacket on Tuesday to join her hus-
band.

John R. Hayes, Chicago & Northwestern
agent here is expected home from Chicago
to-day.

The Center of Population.

In 1790 the center of population was
twenty-two miles west of Baltimore. Since
that time it has moved westward at an av-
erage rate of about fifty-one miles in each
decade, never deviating a degree north or
south of the thirty-ninth parallel. The
greatest progress was between 1850 and
1880, when it traveled eighty-one miles
south of Chillicothe, O. This of course was
caused by the gold excitement and consequ-
ent settlement of the Pacific coast. In
1870 the center of population was forty-
eight miles northeast of Cincinnati, O.
The census of 1880 showed that it had ad-
vanced fifty-eight miles in the decade and
had deflected to the south, being near Tay-
lorsville, Ky. If this westward movement
continues at the present rate it will cross
the Mississippi near St. Louis in the year
1930.—St. Louis Republic.

"Shadowing" in France.

"Shadowing" is to be applied in the
southwest of France upon a grand scale to
travelers arriving from Spain. They are
to be closely watched, and if any symp-
toms of cholera should be detected they are
to be detained as "suspects." A room for
such unfortunate detainees is to be provided
at every frontier railway station. If
French officials would only take as much
pains to prevent the generation of epidem-
ics at home as they do to guard against
their importation from abroad their public
health would be a good deal better than it
is.—Exchange.

Ishpeming Wins One.

HOUGHTON, Aug. 29.—[Special.]—The
luck of the locals went back on them in to-
day's league base ball game. The contest
was close but the Ishpeming visitors pulled
out winners by a handsome majority.
Score: Ishpeming, 6; Houghton, 1.

HOUGHTON.
Louis Hannes arrived from Detroit on
Thursday evening.

Commencing Thursday, September 3rd,
the South Shore ticket office here will sell
round trip tickets every Thursday to Chi-
cago, until September 18th, for \$17.40.

C. F. Wright and bride returned Thurs-
day evening. C. F. reported for duty yes-
terday morning at the South Shore depot.

HANCOCK.
Mrs. Abbott, the Georgia wonder, left
the copper country Friday morning. Every
date she filled here gave her full houses.

The public schools open next Monday.
C. A. Wright is expected home next
week.

The local base ball team did not mat-
rialize.

Pitcher Rentenbach has gone to work at
the Peninsula mine.

S. E. Cleves made a flying trip to Ba-
raga yesterday.

RED JACKET.
M. Prutz leaves next Tuesday for the
east to study medicine, as he has made up
his mind to be doctor as well as druggist.

Rain and fog Thursday prevented the
league game between the Ishpeming and
Calumet.

Ira T. Whitney, of boot and shoe fame,
is in the copper country.

tion.

Mr. and Mrs. J. S. Dymock leave next
week on a visit to relatives in Strathburn,
Ontario.

Hoosking & Co. are doing business in their
new block.

LAKE LINDEN.
M. Neuman arrived from Chicago Friday
afternoon.

The body of Eddie Fisher had not been
found at 10 a. m. yesterday.

Prof. F. W. Arthur, assisted by Profes-
sor White, closed their session of the state
institute yesterday afternoon. It has been
very largely attended and was a very sat-
isfactory course to the teachers.

Commencing to-day the postoffice will
remain closed all day Sunday. The mails
arriving Saturday evening will be dis-
tributed and the office kept open to 10 p. m.

The Neuman block is closed up.

Notice.

In the "Calumet and Red Jacket News,"
of August 1st, number 24, appeared an item
concerning the sale of one-third part of the
Trinity church of Calumet to the Swedish
congregation to the Finnish congregation of
the same church; and furthermore, it
appeared that the "News" had been in-
formed of much dissatisfaction among the
Scandinavian Lutherans upon the subject
of the sale. And now again it appears
that a certain party, called "Suomi-Synod"
party, are trying to dispose of and sell the
first original third part of the above men-
tioned church. Therefore and in conse-
quence of the fraudulent intentions, treach-
erous notices, we, the undersigned, trustees
of the first and original and the present
original Finnish congregation, do hereby
object to all disposing of or transfer or sale
or mortgage of the property of the said
original and first Evangelical Lutheran con-
gregation of the Trinity church of Calumet
until further investigation in the matter
has been held and further notice given.

"PROGRESS" IS THE WORD.

Every Citizen Called by His Own Interest to Aid Vigorously in Marquette's Advancement.

FINE NEW STEAMER REPUBLIC ARRIVES HERE ON HER FIRST TRIP.

Description of the Swift and Costly Craft—Anna River Brick Company Will Open Large Yards Here.

Now is the Time to Act. The membership committee of the Citizens Association was doing some lively hustling yesterday and secured a good number of names. The missionary work will be continued to-day. Every business and professional man in Marquette, every workingman whose means permit him to make the small contribution asked, should have his name on that list and become a member of that association.

Now is the time to act and work for Marquette's advancement. Important enterprises are in the wind and will become accomplished facts if the men of Marquette will but stand shoulder to shoulder in the cause of industrial progress. The advantages of Marquette for manufactures of iron and wood are unsurpassed. The materials are at her doors, the market is the great and growing Northwest. Fuel has been assumed to be the stumbling block but charcoal furnaces are a success. It is demonstrable also that Ohio coal can be brought here and coked and iron made at a lower price than in the furnaces of Pittsburgh or Chicago. A large part of the enormous tonnage which comes here every year for ore could bring up coal at a very low rate but one which would be much better for the vessel owners than sailing with empty holds.

Marquette has enormous natural advantages for manufactures. Her own citizens have allowed these advantages to rest unknown or overlooked by the outside world. In these hustling times great cities are not built on natural advantages alone. The race is to the swift, the ready, the enterprising and the battle to the resolute and undaunted. The advantages of Marquette must be advertised and made known by the united efforts of her citizens. "If a man bloweth not his own horn, verily that horn shall not be blown" says the nineteenth century gospel of the rustler. If Marquette does not sound her own trumpet in resounding tones Escanaba and Duluth and Superior will certainly not supply the wind. These things it is the business of the citizens of Marquette to do. The Citizens Association can be made a most effective means of advancing Marquette. Then let everyone fall into line and aid in the good work.

The New Steamer Republic. The Republic Iron Co. swung fairly into line with its rivals in the matter of fine vessels when the new steel steamer Republic slid from the stocks at Cleveland. The vessel is one of the finest and fastest on the lakes and the thriving village for which she is named is complimented by the fact. The Republic, Joliet and Pontiac are the finest ore carriers that have run into Marquette this year. Captain Lanphear justly feels proud of the craft he commands.

The new steamer is built entirely of steel, except of course, her rail and upper works. Even her main deck is of steel plates and the boilers are enclosed in a steel house. She is a clean built and handsome vessel, measuring 308 feet over all, 292 feet keel, 40 feet beam and 24.6 feet molded depth. Her registered tonnage is 2316.38 gross and 1877.73 net. Captain Lanphear says she carries 2400 tons of ore when loaded to 15 feet, which draught is the greatest depth the Sault Ste. Marie lock will at present allow her. She can be safely loaded, however, to 17 feet, and would then take between 2900 and 3000 tons. Her motive power is furnished by two Scotch boilers, 124 by 14 feet, which are allowed to carry 160 pounds pressure of steam. Her engine is of the latest pattern tandem compound condensing, with cylinders 24.38 and 61 inches diameter by 42 inches stroke. She has steam reverse gear, which in fact is rendered necessary by the high pressure in the small cylinder and the great valve of the large one, the latter weighing over 1,500 pounds. Her shaft is of forged steel, 12 inches in diameter and her crank-pins of the same size. She is provided with steam capstans and donkey engines and steam steering gear. The latter is actuated by a fine double wheel and may be changed to hand power in a moment by the simple pull of a lever. Every modern device for the saving of labor and for increase of safety in her handling is made use of.

The Republic carries three light masts but is not fitted with sails. Her masts and funnel have a sharp rake, giving her a very jaunty appearance. The old Republic colors, black, cream and red, have been discarded, her funnel being painted black with a big white R on each side. Her cabins are very finely fitted up, the finish being all in polished cherry. The forward house is divided by a hatch over which are thrown removable bridges. In the fore peak are the rooms of the mate and wheelmen and the lamp room. The pilot house stands behind and overlooking the forward hatch. Just abaft the wheel is a large and handsome room occupied by the captain and Mrs. Lanphear. Below this, and on the main deck level, are Captain Lanphear's office and chart room, a cosy parlor and two large bed rooms with a bath room between them. In the stern house are the pretty dining room, pantry and kitchen and quarters for engineers and crew. The officers' quarters are handsomely and luxuriously furnished and those of the men are comfortable and roomy. All are heated by steam and furnished with running water.

Quite a party came up on the boat on

her first trip, including W. D. Rees, secretary and manager of the company, Douglas Perkins, one of the directors, H. B. Perkins, Joseph Perkins and George H. Ely. Accompanied by Mr. Peter White the party took a special train up the South Shore and spent the day at the mine.

The Republic made the trip from the canal in less than twelve hours and on Lake Huron ran seventy-five miles in 5 hours 5 minutes. When her engines get fully settled down to work this speed will doubtless be increased and the boat will be one of the fastest as well as one of the largest ore carriers afloat. Many persons came down to the docks to look at the new vessel yesterday and her handsome proportions were generally admired. She is commanded by Captain J. A. Lanphear, her mate is Henry Carker and her chief engineer James Murray. She was built at the Globe Iron Works, Cleveland, and cost all of \$400,000.

Will Open a Brick Yard Here.

The Anna River Brick Co., of which John F. Mack of this city is president, will about November 1st open a large yard in this city. It will be located on a tract of land already secured at the west end of town between Superior street and the railroad. The clay will be brought here by rail from the deposits at Anna River where the supply is practically inexhaustible. It has been found that clay can be hauled about as cheaply as brick and by locating the yards here less trouble will be experienced with men, many of whom are averse to burying themselves in the woods and having so little society. The chief market of the product is here and it would be an advantage to have the factory here also. The present yards will not be discontinued, however, but will go right ahead. The demand for brick is so great that the local supply is entirely consumed and many are imported from below. The product of both yards will find a ready demand.

The two yards will make different kinds of brick. That at Hallston will continue to use the steam drying process, turning out bricks of pure clay. At the city yard air dried bricks will be made, an admixture of sand being added to the clay. This latter variety of brick is considered better for some purposes and makes a handsomer external wall. Some of the kind which will be made here can now be seen in front of Mack Bros. office on Lake street, having been made at the Hallston yards as a sample. The new yard will employ over thirty men and will be a substantial addition to the growing industries of Marquette. This city needs more men of the enterprise of John F. Mack.

Circumnavigated Marquette.

J. F. Kehoe, the Washington street tonsorial artist, better known as "Jim" Kehoe, played quite a joke on himself the other day. He was coming down the road on the train which arrives here at 9 o'clock, lies here ten minutes and then returns to Republic over the old Marquette & Western tracks. Kehoe fell asleep before the train reached the city and unnoticed by the trainmen slumbered peacefully while it pulled out and started on its return trip. After a while the conductor came along and waking him asked him where he was going.

"Marquette," answered Jim with a yawn. "What's the next station?"

"Eagle Mills," answered the conductor, and with that the drowsy passenger was about to resume his snooze. Then the conductor intimated that he had better pay his fare for the return trip and sarcastically inquired if he was taking continuous rides for his health or for fun. When Kehoe at last learned the truth he was the most disgusted man in seventeen counties. He tumbled off the train at Eagle Mills and amused himself with contemplation of the scenery and in coining new theological expressions for a few hours, until the next eastbound train came along. Kehoe says the atmosphere will be intensely frigid when he circumnavigates Marquette in his sleep again.
