#### IRELAND.

DUBLIN, Sept. 29.—The eyes of all the Nationalists continue to be fastened upon the court at Tipperary, where Messrs. Dillon, O'Brien and their fellow prisoners are undergoing trial on the charge of conspiracy to prevent the payment of rent to Smith Barry, landlord of Tipperary. The peremptory refusal of the court on Saturday to receive the affidavits of the defendants objecting to Magistrate Shannon's sitting in the case on the ground that he would be biased, was considered by the Nationalists as a further indication that a far hearing could hardly be expected before the court as at present constituted. They think that the affidavit is entitled to respectful consideration instead of being denounced by the crown prosecutor as an "infamous libel" on Mr. Shannon, and by the latter as an "attempt to make a scandal of justice." The defendants assert that they acted in entire good faith in presenting the affidavit.

At the resumption of the trial this morning Timothy Healy referred to the refusal of the magistrates to consider the drawing from the case, and announced that in view of this the defendants felt themselves constrained to refer the question to the high court of justice at Dublin. The defendants, he said, would apply to that court to-morrow for a writ to prohibit the present magistrates from proceeding with the conspiracy cases, on the ground of bias against the defendants. The counsel for the crown, Mr. Healy continued, ought now to decide as to the wisdom and propriety of going on with the hearing pending this application to the high court.

#### FRANCE.

PARIS, Sept. 29.—The delegates to the miners' federation of the department of Loire, in session to-day, have decided to inaugurate a general strike on October 5 if the men who were dismissed for taking part in the June strike are not reinstated.

#### ENGLAND.

LONDON, Sept. 29.—Slavin and McAuliffe, having been informed that the authorities intended to prosecute them for fighting, surrendered themselves to the police this morning and were arraigned on a charge of committing a breach of the peace. The prisoners were remanded until Friday. Each was required to furnish his personal surety in £1,000 and two persons who could each qualify in the sum of £2,000. The police inspector told the court, though the men wore gloves which appeared to be ordinary boxing gloves he noticed that the seconds worked the padding from the backs down to the points of the fingers while putting them on. The gloves were thus rendered useless as a means of protection against inflicting injury. The contest was not a scientific boxing match, but a fierce and furious fight.

A dispatch from Goa, India, says that the government has been successful in the elections. The excitement in the city continues and many leaders of the principal party have been placed under arrest.

#### SITUATION IN ARMENIA.

LONDON, Sept. 29.—A dispatch from Erzeroum says the situation in Armenia has become serious. The Russian government has massed 72,000 troops on the Armenian frontier. The Turks are expecting an attack and are rapidly supplying the Kurds with arms and ammunition and are making other preparations to resist the Russian forces. Russia is also increasing the frontier guards on the boundary line of Austria, Turkey and Persia. The alleged object of this increase is to provide for the more effective suppression of smuggling.

#### JOHN MORLEY'S ADDRESS.

LONDON, Sept. 29.—Mr. John Morley spoke at St. Helen's to-night to a large audience. He gave a graphic account of his experiences during his recent tour of Ireland, referring particularly to the condition of affairs in Tipperary and to the scenes in which he himself took a personal part. The speaker began by asking the coadjutors of St. Helen's and of the whole country whether the state of Ireland was what they had bargained for when they voted for the present government. Then he went on to give instances illustrating the arbitrary and tyrannical methods of the Irish authorities. He said that a week ago Mr. John Dillon went to address his constituents in East Mayo. Upon arriving at the town where the first meeting was to be held, Mr. Dillon found the platform of the stage surrounded by police and military, and he was told by a Unionist magistrate if he used illegal language it would be the magistrate's duty to disperse the meeting. Now, in the first place, this simply meant that the divisional magistrate would be the judge as to whether Dillon's language was legal or illegal and in the second place, what appeared to be almost incredible, it meant that if Dillon used language that the magistrate considered illegal it was

to disperse the meeting with baton and rifle. After four years of resolute government could not an Irish member of parliament be trusted to address his constituents without the adoption of such measures? Suppose that at that meeting he (Morley) had said something which the chief constable of the district chose to think illegal, was the constable, instead of arresting the speaker, to baton and shoot the audience? The Tipperary prosecution had cruelly blighted the hopes of the Unionists and given the lie to their rose-colored pictures. The proceedings of the last fortnight in Tipperary would have the effect of rallying every Nationalist, and of once more closing the National-

#### STALEY FOOLS 'EM.

PITTSBURGH, Sept. 29.—Staley's curves proved too much for the Phillies this afternoon and they fell easy victims to the home team. Attendance, 650. Score: Pittsburgh... 1 0 1 0 3 0 3 0-8 Philadelphia... 1 0 0 0 0 0 0 0-1

Base hits, Pittsburgh, 10; Philadelphia 5. Errors, Pittsburgh 3; Philadelphia 2. Two-base hits, Carroll, Staley, Fields. Three-base hits, Fields, Eisner, Shindle, Robinson. Time, 1:40. Umpires, Ferguson and Sauer. Batteries, Staley and Fields; Knell and Hollman.

#### AN EASY THING.

CHICAGO, Ill., Sept. 29.—The Chicago rather easily defeated the Brooklyn at the South side grounds. The weather was a trifle cold for comfort. Attendance, 714. Score: Chicago... 2 0 0 2 0 0 0 2-6 Brooklyn... 0 0 0 0 0 0 0 0-1

Base hits, Chicago, 8; Brooklyn, 7. Errors, Chicago, 6; Brooklyn, 1. Two-base hits, Kinslow. Home run, Ryan. Umpire, Knight and Jones. Time, 1:45.

#### HER EIGHT HUSBANDS.

A Woman Has One Arrested for Desertion But Fears to Prosecute. WILKESBARRE, Pa., Sept. 29.—A peculiar case came up in court when the case of Harry Molenbrook, charged by his wife Lavinia with desertion, was called. The prisoner was on hand and sat near his counsel, General McCartney. When the two entered court they were accompanied by seven men who immediately took seats among the audience. When the case was called the wife failed to respond. She was not in court and no attorney appeared in her behalf. "Whom does this woman want to prosecute?" demanded General McCartney rising to his feet. "Why, she has eight living husbands right here in this court."

"What?" she asked the judge sharply while the crowd listened breathlessly to the astounding revelation. "She has eight husbands in court," repeated Gen. McCartney. "They'll respond if you call for them."

"All the husbands of Lavinia Molenbrook stand," ordered the judge, "and remain standing until counted," he added, as the seven men arose and Mr. Molenbrook stood up to make the eighth. "Case dismissed," and the eight husbands marched slowly out of court. Some of the men live in Wilkesbarre and the others in surrounding towns in the mining region. The much married wife has disappeared.

Worthington Company Offers Reasonable Terms and Water Board Buys Another Big Engine.

NEW WOODWORKING ENTERPRISE WILL BE ORGANIZED TO-DAY.

Republican City Convention Elects Delegates. Hawley Mill Puts on Night Shift. Miscellaneous City News.

**Big Pumping Engine Bought.**

The much debated pumping engine matter took a new phase yesterday. An agent of the Worthington company suddenly appeared on the scene with a new proposition which the water board was prepared to consider. The absurd proposal contained in Mr. Worthington's telegram and letter, published in yesterday's MINING JOURNAL, had been definitely rejected as against the city's interest. The agent who now appeared bore a renewed proposal to furnish a Worthington low duty engine at \$11,900 and a contract in which the terms of payment were made very easy for the city. One half of the purchase price was to be paid on the acceptance of the engine and the other half a year later. A guarantee was also offered of sixty-five million foot pounds economic duty. This proposal and contract put a new face on the matter and the water board acted accordingly.

The board had previously determined to purchase one high duty and one low duty engine, desiring to keep the expenditure for pumping machinery inside \$30,000. A Holly-Gaskill high duty engine had already been contracted for at a cost of \$1,800. The question remained unsettled as to the make of low duty engine that should be bought. After mature reflection the water board, taking into consideration the guarantees and easy terms of payment offered by the Worthington people, decided to buy one of their pumping engines, on the terms set forth above, and a contract was signed accordingly.

Thus, although the rival pump manufacturers do not supply their engines to Marquette in a set competition the effect will be substantially the same and the action of the water board will redound to the city's advantage. The Worthington company will naturally feel compelled to put in the very best pump it can build of the type selected and the Holly company will feel the same necessity. Thus the city of Marquette will obtain at a reasonable price two of the very best pumping engines that these two celebrated manufacturers can turn out. With the starting of these two great pumping engines, each able to send through the mains three million gallons of water every twenty-four hours, the question of water supply for this city may be regarded as settled for eight or ten years to come.

The water board yesterday also located the new pumping station on the ground already secured, an engineer was set to running the lines and an architect to preparing the plans. The new building will be 44x80 feet in dimensions. When it shall be completed and the new pumps set going the present pumping station will be abandoned and its machinery sold. The board will erect the building by day's labor and ground will be broken in a short time. The massive foundations for the pumps will require special care and the whole building will be a substantial structure of stone. The new pumping engines will be delivered about June next and then Marquette will have a pumping station excelled by no city of her size in the country. The water works system has been a success from the start and well illustrates the benefits to be derived by a community in performing for itself necessary public services instead of permitting some private corporation to do that work for it. In the case of Marquette the profits of the water works remain in the pockets of the tax-payers instead of going to enrich a few stockholders.

**Completing the Organization.**  
The stockholders of the Michigan Polygonal Turning company, the plans and processes of which have already been described in these columns, will meet this morning to complete organization. In a short time a site for a factory will be selected and work begun upon the building. Mr. D. H. Bacon of Chicago, general manager of the National Lathe and Tool company, under whose patents the local company will work, is in the city, arriving yesterday. The work of starting the new industry has been delayed on account of his inability to be present but will now go forward rapidly. Half a dozen sites have already been offered for the new factory and as soon as the necessary preliminaries can be gotten through with one will be selected.

This enterprise promises much for Marquette, directly and indirectly. There will be established here the only factory in the state for the manufacture of articles which seem beyond question certain to meet with a large and increasing sale. It is believed, and with good reason, that the establishment of this will necessarily attract here other wood-working industries which must use its product. With men of enterprise and capital interested in the Michigan Polygonal Turning company seems certain of success and its establishment marks another step in the industrial progress of Marquette.

**Republican City Convention.**

The city convention to select delegates to the republican county convention, which will meet in Ishpeming tomorrow, was held in Justice Crary's office last evening. The various ward caucuses were held according to call and each sent in its full quota of delegates. Col. C. Y. Osburn was elected chairman of the city convention and W. A. Ross was chosen secretary. The committee on credentials, consisting of George Wagner, Joseph Bice, C. D. Blanchard, Sam Bennett and Hampson Gregory reported the following list of ward delegates:

First, J. B. Wilson, Joseph Bice, Thomas Dasey; Second, F. O. Clark, W. J. Adams, Sam Bennett, Carl Rohl;

John Selander; Third, C. Y. Osburn, C. D. Blanchard, E. O. Stafford, George P. Brown; Fourth, George Wagner, James W. Young, J. F. Neidhart, W. A. Ross; Fifth, A. J. Otterson, John Helmert, Wm. McComby.

The report of the committee on credentials was accepted and adopted and the committee discharged. The following delegates to the county convention were then chosen: C. Y. Osburn, Gad Smith, George Wagner, W. J. Adams, A. J. Otterson, J. B. Wilson, F. O. Clark, A. G. Youngquist, E. H. Towar, W. A. Ross, George A. Royce, Hampson Gregory, Joseph Bice, J. F. Neidhart, Edward Gilbert. The delegates present at Ishpeming were authorized to cast the vote of the entire delegation after which the city convention adjourned. The county convention at Ishpeming tomorrow will, besides the usual county officers, nominate delegates to senatorial and congressional conventions. The city convention and ward caucuses last evening were most harmonious but would have been much more largely attended had the city committee given anything like adequate notice of their holding. Among the positions on the county ticket about the only struggle seems to be over the shrievalty. Sheriff Adams is by law ineligible to re-election now and there are ambitious gentlemen from all over the county who aspire to succeed him. It is a sort of "free-for-all" race as yet with little possibility of naming the winner. The contest being a thoroughly good humored one the nominee of the convention is certain to receive the entire party support and be elected. The congressional convention will be held in this city on October 8th. The call for the senatorial convention has not yet been received here.

**Will Run Day and Night.**

The Hawley mill started its night shift force yesterday and from now on will run every one of the twenty-four hours. There is a large supply of logs on hand and more coming. The day shift now employs about eighty-five men and there are thirty-five to forty on the night gang. The mill thus employs a total of 125 men, many of whom have families. Quite a number live on the mill location but most of the married men are buying lots and preparing to build houses. The number of saws will be increased from two to four in the near future and the number of employees will be correspondingly increased. The Hawley mill is an important addition to the industries of Marquette both in the value of its product and in the increase which it brings to the city's population.

**Mr. Mathews' Sidewalk.**

TO THE MINING JOURNAL.—I desire to explain to those who are in the habit of using the sidewalk around my corner, that at the time I had the old walk taken up I had been informed that the stone for the new walk had been shipped, and had reason to believe that it would be here by the time I could get the ground ready for it. The delay has been a source of greater annoyance to me than to any one else and I am certainly grateful for the patience with which the people have borne the inconvenience I have caused them. I thought a fortnight at most would be as long as would be necessary to keep the walk up, but the stone is now on the ground and will be put in place just as soon as possible.

**Indorses the Exposition Plan.**

Under the heading "A Good Idea," the Newberry Independent reprints entire the recent article in the MINING JOURNAL suggesting the holding of an upper peninsula exposition, with the following introductory comment: "The following from the MINING JOURNAL, suggesting that an annual upper peninsula exposition be held, is worthy of consideration. In our opinion it would be an excellent thing and there is no doubt but what it would prove a great success."

**Don't Forget the Panorama To-night.**

The panorama of "Bunyan's Pilgrim's Progress" which will be given at the Casino Opera House, to-night promises to be a very delightful entertainment. It is something entirely new and novel to this region, not a magic lantern affair and from the way tickets are selling, there will be a crowded house. There are 9000 feet of canvass in the panorama, 60 immense paintings and 200 tableaux that cost about \$10,000. The accompanying lecture by Mr. Hawxhurst is very fine, and highly instructive to all who have not read the book which this panorama illustrates. The \$200 phonograph, which is an accompanying attraction is the only in the state of the kind, being Edison's Exhibition Talking Machine and adds greatly to the pleasure of adults as well as the children. We give below a commendation from the Superintendent of the largest Sunday School in the United States, numbering 4,500 scholars:
