THE NEW LOTTERY LAW.

The Instructions Issued to Postmasters in Regard to Enforcing their Provisions.

MORMON QUESTION THOROUGHLY DISCUSSED BY UTAH'S GOVERNOR.

Treasury Department Shows Honor to Hon. Philip Thomas of Maryland—Silver Purchases—Postal Service Reorganized.

WASHINGTON INTELLIGENCE.

WASHINGTON, D. C., Oct. 3.—Assistant Attorney General Tyler issued a circular to postmasters this morning covering instructions to postmasters in regard to the lottery law. The most important clause reads: "The term 'lottery' as used in this act embraces all kinds of schemes, general or local, for the distribution of prizes by lot or chance: Such as gift exhibitions, enterprises, or concerns, raffles or the drawing of prizes in money or property at fairs. Hence letters, postal cards and circulars concerning them and newspapers, pamphlets and other publications containing advertisements of them are unmailable."

WHITEFIELD QUALIFIES.

WASHINGTON, Oct. 3.—Second Assistant Postmaster-General Whitefield has qualified as first assistant and will assume his new duties to-morrow. Mr. Lowry Bell, the present general superintendent of the railway mail service, has also qualified as second assistant postmaster-general and will take charge of his new office to-morrow. These appointments are strictly in the line of civil service reform. With these changes the postmaster-general contemplates a reorganization of certain offices in the department. Offices which are in the same general line will be placed under one head. That is, the railway mail service and the railway contract office will be under the immediate supervision of the new second assistant, Mr. Bell. In other words, all matters relating to mail transportation will be under his charge.

Mr. Whitefield will have supervising charge of the salary list and allowances at the free delivery offices in addition to his other duties. These offices have heretofore been regarded as independent bureaus, their chiefs as a rule passing upon nearly all questions. It is expected by these changes to bring the several offices more under the direct supervision of the assistant postmaster general.

SILVER PURCHASES.

The amount of silver offered to the treasury department to-day amounted to 957,000 ounces. The amount purchased was 510,000 ounces, as follows: 40,000 ounces at \$1.1345; 100,000 ounces at \$1.137; 62,000 ounces at \$1.1375; 50,000 ounces at \$1.1380; 20,000 ounces at \$1.1384; 180,000 ounces at \$1.1385; and 55,000 ounces at \$1.1386.

THE MORMON QUESTION.

The Mormon question is discussed at some length by Arthur L. Thomas, the governor of Utah, in his annual report to Secretary Noble. He asserts that the Mormon people are governed by the priests and that in every political and business act the church is first, the country afterward. The population of the territory is estimated to be 230,000, an increase of 55 per cent during the past decade. The numbers of the Mormons are increased by immigration from Great Britain and Scandinavian countries. The report says that the average number of foreign born brought to the territory by the Mormons has been during the past nine years

ABOUT EIGHTEEN HUNDRED ANNUALLY

and that this average has probably been maintained during the past year. The governor says that political and official Mormonism deals in evasions and meaningless words or words of double meaning, hypocritical pretenses and false assertions, its attitude towards polygamy being delusive in the last degree. It knows that there has been no change on the subject but it seeks to convey the impression that there has been. Prominent church officials, the governor states, have declared that the church does not now grant

PERMITS TO ENTER POLYGAMY,

and the nominal head of the church has announced that polygamous marriages do not now take place. The governor adds that when the attention of the head of the church was called to a notorious case uncovered in the First district court he disclaimed any knowledge of it. Admitting that these statements are literally true, the governor says, it does not prove that the church has met the public sentiment of the nation as expressed in its laws nor does it prove that the church is

LOYAL TO THE LAW.

There is no reason to believe, the governor asserts, that any earthly power can exact from the church any declaration opposed to polygamy. He accounts for the how which Mormonism has upon the people by the fact that they are taught to keep aloof from all influence outside of the church, and that their lives are directed by the Lord and that priesthood is the only authorized medium to reveal and declare the will of the Lord, and obedience to its priesthood is practically obedience to the Lord. The governor says it is now over twenty-eight years since congress condemned polygamy in Utah. The laws of congress were ridiculed and treated with contempt so long as such a course was safe, and then

EVASION AND RESISTED

as far as possible and during all that time no change has taken place in the counsels or aims of Mormonism, and the conflict to-day is as clearly defined as ever. The governor recommends the passage of the bill reported in the senate by Senator Edmunds which authorizes the governor to appoint certain county officers and providing for a legislative reapportionment. He

states that if this bill becomes a law it will place the control of twenty-five counties in the hands of men loyal to the government. He also recommends the passage of either the Cullom bill or the Struble bill.

Mr. A. J. Caasatt, of Pennsylvania, and ex-Senator Henry C. Davis, of West Virginia, have accepted the office of inter-continental railroad commissioner to which they were nominated on Tuesday by the president. Mr. Pullman originally declined because of increasing responsibilities in connection with his business, but it is believed that he may be induced to reconsider his decision.

Secretary Windom issued an order this afternoon closing the treasury department to-morrow out of respect to the memory of the Hon. Philip F. Thomas of Maryland, who was secretary of the treasury for twenty-nine days in 1860, under President Buchanan, and whose funeral will take place to-morrow. The building will also be draped for a period of ten days.

Acting Indian Commissioner Bell has issued a letter of instructions to Indian agents in which he says that the department is informed that a company is preparing to obtain Indians from some of the reservations to join "wild west shows" in Europe. The agents are instructed to promptly refuse any application for this purpose, as it is now against the policy of the interior department to grant permits for such purposes under any circumstances whatever. The agents are further instructed to lay the matter before their respective tribes and advise them that if any of the Indians should hereafter attempt to leave their reservation for exhibition purposes it will be regarded an open defiance of the authority of the government and that prompt measures will be adopted to detain them.

Lieutenant Commander Reiter in the command of the United States steamer Ranger has been ordered home and will be relieved by Commander Wingate. The impression is general here that Commander Reiter is recalled because the secretary of state is dissatisfied at the course pursued by him in regard to the peace negotiations between Guatemala and San Salvador and also in regard to the Barrundia affair. The Ranger was in the harbor of San Jose when Barrundia was killed on the Acapulco.

THE ENGINEER TOOK CHANCES.

And as a Result an Engine and Three Cars Are Smashed.

GERMANTOWN, Wis., Oct. 3.—A peculiar railway accident occurred between 3 and 4 o'clock this morning on the Wisconsin Central railway at this station. A north bound freight train was being side-tracked to allow the passenger train, then due, to pass. Before the train could be run onto the switch, however, the passenger hove in sight under full speed. Three switchmen had been sent down the track to flag the train, but either the engineer did not see them or was taking chances that the freight would get out of the way in time to pass. Two cars and the caboose of the freight remained across the main track.

The passenger train, running at the rate of fully fifty miles an hour, crashed into the box cars and scattered them into kindling wood. The passenger train did not stop till it had cut through the obstruction on the track. When it stopped a few hundred feet beyond, the coaches were off the track and the engine was badly broken up, but examination failed to reveal any broken bones among the passengers. The engineer and fireman jumped and the latter sustained slight injuries. Had the freight cars been loaded it is safe to say that many lives would have been lost. One freight car caught fire from the engine and was destroyed by the flames.

BADLY BROKEN UP.

Ex-Postmaster Wheat's Condition Excites Sympathy—Cause of His Overthrow.

WASHINGTON, D. C., Oct. 3.—Ex-postmaster Wheat left for his home, Racine, Wis., to-day. He is badly broken up by the disgrace which has fallen upon him. When any of his friends talk to him about his troubles he cries like a child. His present condition excites some sympathy in his favor and there are people who think his punishment too severe. Although a candidate for door keeper of the house he got what was really a better position, but he destroyed himself by making his subordinates work as though they were working for him instead of for the government. He explained that he could not help being strict; he was that way when commanding men in the army. Wheat was cautioned months ago that if not more easy with his clerks they would combine and overthrow him. It is said that Wheat's ideas of discipline were contracted in the Illinois penitentiary, where he served as deputy warden, and his employees would not stand such discipline. C. J. McCord, son of Representative McCord, who made the original charges against Wheat, was subpoenaed as a witness, but did not arrive until too late.

DUN'S TRADE REVIEW.

Iron Market Singularly Sustained—Lake Copper Firm at 17 Cents—Failures.

NEW YORK, Oct. 3.—R. G. Dun & Co.'s weekly review of trade says: Never before has there been in any month so great an increase in the circulation or so large a payment on the public debt as in the month just closed. Domestic trade is improving in all directions. The iron market is singularly sustained, in spite of the unprecedented production, by the unprecedented demand. Lake copper is firmly held at 17 cents, notwithstanding raids on other grades; and lead is strong, some foreign having been bought for importation. The business failures occurring throughout the country during the past seven days number 197, as compared with 219 last week. For the corresponding week of last year the figures were 206.

A "SHADOW" ON THE STAND.

Trial of Messrs. O'Brien and Dillon Continued at Tipperary—Police Spy Testifies.

THE JUDGE ORDERS HARRINGTON TO WITHDRAW FROM THE CASE.

A Stormy Session—Court Room Cleared of Spectators—Blavin and McAuliffe's Trial. Count Kleist Attempts Suicide.

IRELAND.

DUBLIN, Oct. 3.—The hearing in the case of the government against Messrs. Dillon and O'Brien and the other Nationalists who were arrested on the charge of conspiracy, was continued in the magistrate's court at Tipperary to-day.

No evidence of moment was adduced. In the course of the proceedings a question arose as to the time the trial would occupy, and Mr. Ronan, the prosecutor for the crown, declared that he was entirely ignorant of the time it would take to present the case for the government or for the accused to make their defense. Mr. Healy, of counsel for the defendants, said he was in mortal fear lest the trial would last for six months. Mr. Healy's remarks excited the laughter of those present at the hearing.

Much excitement was occasioned in the court room by the evidence of one of the witnesses, a policeman, who testified that he followed several of the defendants into the vestry of the Catholic church and tried to overhear what was said there by them.

This testimony aroused the indignation of counsel for the defendants, and he demanded to know if the days had returned when the sanctity of the confessional could be invaded. The court room became a babel of cries and the confusion was so great that it was impossible to go on with the cases. The court was therefore declared adjourned for half an hour.

When court reopened the policeman witness was cross-examined by Mr. Harrington, who called the witness a "shadow." The magistrate called upon Mr. Harrington to withdraw the expression. Mr. Harrington refused to do so and was ordered to leave the case. An uproar ensued, Messrs. O'Brien and Dillon, commenting freely upon the manner in which the case was being conducted. Finally another half hour's adjournment was ordered.

During the adjournment Mr. Harrington's clients decided to defend themselves. When the proceedings were resumed Mr. Dillon had just begun to address the bench when a cheer was raised for Harrington. This so exasperated the magistrate that he ordered the court cleared, and the proceedings were adjourned abruptly amid the greatest confusion. A large body of policemen was massed outside the court. There was rioting.

ENGLAND.

LONDON, Oct. 3.—The hearing in the case of Blavin and McAuliffe, who are charged with assaulting each other and committing a breach of the peace, took place today in the Lambeth police court. Counsel for the crown said that if the contest between the two men was declared unlawful by the court those persons who arranged and abetted the fight would be prosecuted. After hearing the evidence for and against the prisoners, the court announced that it would reserve its decision for a week.

It is denied that cholera has appeared at Aden. Notwithstanding the denial quarantine has been established at the French and Algerian ports against vessels arriving from Aden. Forty cases of the disease were reported in Aleppo, Wednesday, twenty-eight of which proved fatal.

A terrific gale prevailed in the North Sea yesterday. Five vessels foundered during the storm.

One thousand men at Armstrong's shipyard struck as a protest against the employment of strikers to replace the joiners now on strike.

THE STANDARD, COMMENTING ON THE PROBABLE EFFECTS OF THE MCKINLEY TARIFF LAW, SAYS: "WE NEED NOT FEAR THE DEATH OR EVEN THE DIMINUTION OF THE ENGLISH IRON TRADE WITH AMERICA IF WE ONLY IMITATE THE AVIDITY OF THE AMERICANS TO TAKE ADVANTAGE OF EVERY IMPROVEMENT IN MANUFACTURING."

GERMANY.

BERLIN, Oct. 3.—Count Kleist, who is in prison for an attempt at manslaughter on Herr Albert, proprietor of a hotel, attempted to commit suicide by hanging himself with his suspenders from a beam in his cell, but was discovered and cut down before life was completely extinct. Until quite recently Kleist was engaged to the beautiful and wealthy daughter of Mayor Thompson, of Detroit, Mich. The motive for his attempt at suicide is supposed to have been mortification over his expulsion from the army. He had also been deeply affected by the suicide of his friend Count Schleinitz, the moral responsibility for which is believed to rest with Count Kleist.

A treaty has been signed by Germany and Zanzibar relative to the coasting trade along the east coast of Africa. The government pays the sultan of Zanzibar 4,000,000 marks for the concession.

PORTUGAL.

LISBON, Oct. 3.—Senator Ferrao is now meeting with more success in his efforts to form a cabinet, but he will be obliged to exclude progressists.

DISPATCHES FOR THE RUSH.

PORT TOWNSEND, Wash., Oct. 3.—The United States revenue cutter Wolcott has left here presumably to meet the steamer Bertha for the purpose of delivering dispatches to her for the revenue cutters Bear and Richard Rush, now in Alaskan waters. The Bertha left San Francisco for Alaska last Tuesday.

Total.....	38,955	79

By order of Congressional Committee.
C. Y. OSBURN, Ch'n.
Dated Sept. 15, 1890. 9 16-2w

The republican convention for this, the Thirty-first, senatorial district will be held at Iron Mountain on Saturday, the 11th inst., at 3:30 o'clock P. M. The district is composed of the counties of Marquette, Menominee and Iron, and under the apportionment of delegates this county will have just the same number of delegates as both the others, Marquette having 34 to 28 for Menominee and 6 for Iron.

A VESSEL was chartered this week to carry coal from Buffalo to Superior at the rate of 30 cents per ton. On the same date charters were made from lake Erie ports to Escanaba at 40 cents and to Chicago at 60. The immense grain trade at the head of the lake explains the low rate that the ports there get on coal, in comparison with Chicago, as the vessels have to go there after the grain, and not having their pick of loads going up, take coal for ballast at a trifle over what it costs to load and discharge it.

SHOULD Mr. Flesheim be made the candidate for state senator from this district by the action of the Marquette county delegation in the republican senatorial convention—and under the conditions that Mr. Flesheim makes, it rests with the Marquette delegation to say whether he will be the candidate or not—the Menominee Herald will have a text for another of those ringing editorials on the "hoggishness" of the leaders of the party in this balliwick. The republicans here have endorsed the second-term candidacy of Mr. Stephenson; they are willing to have the state senatorship go to Menominee also. With this as the text for a disquisition on their hunger for office, the Herald ought to be able to surpass all its previous efforts in the line of establishing that the Marquette county republicans are a greedy lot, whose appetite for office is insatiable, and whose disposition to gather in all the political good things within their reach should be effectually curbed.

BECAUSE the republican county convention held Wednesday at Ishpeming adopted resolutions endorsing the candidacy for another term in congress of Mr. Stephenson, and chose a delegation known to be favorable to him, the Negawnee Herald concludes that "the MINING JOURNAL's opposition to him cut an exceedingly small figure in the canvass." Bless the Herald's dear, delightfully stupid old soul, the MINING JOURNAL hasn't been "opposing" Mr. Stephenson. It has stated right along that he would get the delegation from this county, would be nominated without a dissenting voice, and surely elected. The MINING JOURNAL has passed some criticisms on certain things that Mr. S. did in congress, but it hasn't sought to prevent him from putting in another term at Washington, even a little bit. The Herald may be able to see a hole in a ladder when its attention is particularly directed to the opening, but the MINING JOURNAL isn't sure that it is capable of discovering even so plain a thing as that without assistance.

LAKE SHIPMENTS OF ORE.

Lake shipments of iron ore from the Lake Superior mines, given by range and ports, for the season of navigation up to date of Wednesday, Oct. 1st inclusive:

WITHIN the past week there has been a break in copper stocks which has set people to canvassing the cause behind it, and to wondering if it is not to be followed by a drop in the price of copper to correspond with the shrinkage in value of this class of securities. The Boston Transcript, which keeps a close watch on the movement of the copper market, and will be found, as a rule, a fairly reliable authority on all matters pertaining to that industry, has this to say regarding the "slump" in copper stocks, in reply to a correspondent who asked for information on certain points:

THE whole situation of our market has become such that it is the easiest thing in the world to depress prices. Hence, the copper shares have taken their turn. We often hear talk when prices are rising in a bull market that it is an sentiment to a large extent. Sentiment is a ruling factor in stock operations and sentiment just now is not rose-colored by any means. Traders have pounded the coppers, taking advantage of lack of support, and that is all there is to it. Of course there are rumors that copper will sell lower than seventeen cents per pound, and hints are made that the Calumet & Hecla may depress the price. The great company named has kept perfect faith with the smaller producers, and has sold no copper for delivery the rest of this year under 17 cents per pound. The only bad point in the outlook which we can see is the tightness of money in London, which may affect the price of copper there. But 17 cents is absolutely necessary for the companies to make money! And were the price to drop to 16 cents, are the dividends on copper stocks likely to be affected so much as current depression in the prices would seem to indicate? The copper situation is not the strongest in the world, but it by no means is the weakest. It is the condition of the general market which is weak, and which makes operators see profit in trading on the short side of almost everything. Copper shares are weak, not from the intrinsic condition of the copper market, but from the influence of general financial and general stock market unsettlement.

For the cure of this common trouble, Tutt's Liver Pills have gained a popularity unsurpassed. Elegantly sugar coated. SOLD EVERYWHERE.

AN OPEN LETTER
From a Well-known Druggist - Cure for Stomach Troubles.

To Whom It May Concern: In the summer of 1870 I was first afflicted with that most dreaded disease, dyspepsia, and for over fifteen years I suffered terribly at times. In the meantime I tried every so-called remedy imaginable, without finding relief. Having been in the drug business since 1863, I determined to help myself if I lay in the power of medicine. Two years ago I succeeded in discovering a remedy. It cured me. Until I had given ample time for possibility of doubt, however, I kept my secret almost to myself, putting up the medicine for only a few of my sorely troubled friends, every one of whom was cured. I now know the medicine to be a positive cure, and have decided to put it on the market, that my discovery may do humanity all possible good. It will be known as "Brusk's Positive Dyspepsia, Liver and Kidney Cure," which is guaranteed to cure all ailments of the stomach, liver and kidneys. I have a number of testimonials which afflicted parties may be interested in.

THE PROGRESSIVE PIONEER.

Negaunee's Big Furnace Plant to Be Provided with an Additional Stockhouse.

The Council Takes Another Whack at Municipal Business—Happenings Here and There About Town.

Will Build a New Stock House.

The Pioneer furnace company has decided to build another stock house, similar to the one now in use located on the east side of the engine house. It will be situated on the west side of the furnace. The lower floor, or crushing room, will be set, cellar-like, into the hill, which slopes towards the casting house. The work of excavating for the foundation is already in progress. The foundation will be very solid. The walls will be 7 feet thick, to give a firm support to the 18-foot high embankment. The main building will be 60 feet square, and will be roofed and sided with corrugated iron from the first story up. The first floor will be used for machinery to crush the ore, which will be let down through shutes from the cars above. The hoist will run just in front of the crushers and carry the ore a distance of 75 feet to the top house. The second floor will contain five separate tracks on open trestles for letting the ore from the cars to the stock piles near the crushers below. A narrow carriage passage-way will run along east and west in front of the hoist landing. From the top house an enclosed iron bridge will extend to the opening of stack No. 2. The engines for running the crushers and hoists will be enclosed in separate compartments in the crusher room, and will be similar in make to those now in use in the old stock house. The plans for the new stock house were prepared by Samuel Redfern, and are modeled very nearly after those for the present stock house. The electric plant now in use at the furnace has capacity for twenty more lights, and the new stock house will be lighted by electricity. Work will be started before the first of the year and about sixty men will be employed in construction of the building. It may be expected that, with their increased accommodations for stocking, hoisting and crushing ore, which in addition to the furnace plant will give the output of pig iron from the Pioneer furnace for 1891 will be very much increased.

Common Council Meeting.

A regular meeting of the common council was held Thursday evening with all the members present except Aldermen Pellew and Matthews. A lot of minor petitions were presented and were referred to the proper committees. The report of Superintendent Bernishek was read and approved. A resolution was then introduced by Alderman Callaghan setting forth that the franchise granted A. Seass, P. B. Kirkwood and three others to build and operate an electric street railway be delayed because of the failure of the parties holding it to begin the construction of their line within nine months from the date on which the franchise was granted. The resolution stated that as the holders of the franchise intended to commence the work at an early date the time granted for the construction of the railway be extended to June 1, 1891. This resolution was promptly adopted. A number of bills were audited and ordered paid. The mayor then stated that the assessment roll fixed the value of taxable property in the city at \$2,581,000. Alderman Callaghan then presented the following resolution:

Resolved, That one-half of one mill on the dollar be assessed and levied on the taxable property of the city to defray the expenses of the fire department, amounting to \$1,290.57.
Resolved, That one-tenth of one per cent be assessed and levied on the taxable property of the city for general expenses, amounting for the current year to \$2,581.
Resolved, That one-tenth of one per cent on the dollar be assessed and levied on the taxable property of the city for defraying the expenses of the street and highway fund for the current year, amounting to \$2,581.
Resolved, That one-tenth of one per cent on the dollar be assessed and levied on the taxable property of the city for defraying the special expenses caused by the building of the city hall, amounting to \$2,581.

The resolutions were adopted. A number of city bills pertaining to the special elections, which had been held over, were taken up and ordered paid. On motion of Alderman Brand, the city marshal was instructed to have Jackson street, which is in a very dirty condition, cleaned up. On motion the council adjourned to meet Monday evening.

The discipline at the Case street school is now well nigh perfect and would challenge the respect of any West Point student. The children have all been taught to give the regular military salute on coming out of the building and the effect is very pleasing when viewed from the entrance to the grounds.

A careless Finn had his scalp cut open at the Jackson mine Thursday afternoon by getting in the way of a fellow miner who was picking down ore from an overhanging ledge.

W. A. Mahara, manager of Dan McGinly's Troubles company, was in town yesterday completing arrangements for the appearance of his company here.

Yesterday had the honor of being a birthday for Mr. A. C. Seass, Mrs. T. Harris and Miss Hattie Anthony, and all three celebrated it properly.

Over two hundred of the children attending the public schools enjoyed their first half holiday yesterday afternoon.

R. Quinn, of Milwaukee, is in town. Justice Jones is reported quite ill.

I've been a sufferer from rheumatism for years and have been unable to obtain any relief at all. Salvation Oil gave me entire relief and I heartily recommend it. Henry Winkel, Baltimore, Md. What so wonderful, as a severe cough cured by Dr. Bull's Cough Syrup for 25 cents. Try it!

The State's Relation to Marriage.

To the state marriage is a civil contract between a man and woman. It can be nothing else or more than that. And the only interest of the state, as state, is that all the rights and duties involved in a civil contract shall be maintained to the end of public order. The moment that it attempts anything beyond this it is a trespasser on personal rights and works only mischief. It is hardly matter for dispute that those who have claimed to be acting for God in political matters in the past have been authors of cruelty and injustice.

Most writers on "divorce reform" assume that the one great end to be aimed at is to prevent divorce by any and all means. Their highest, their one ideal, seems to be to keep people tied together without regard to consequences.

But it is not a question of the ideal. It is to what the state has a right to do under present actual conditions. Men should seek the ideal in all departments of life, not in marriage only. But should the state decide on what that ideal is and enforce it always by pains and penalties? Is this not rather a matter for school and church and individual striving? It is not the right and duty of the state to force people either to marry or to stay married. Neither of these is the end, so far as state jurisdiction is concerned. It is for the state simply to guard the rights of the individual parties to this contract, precisely as in the case of any other.—Rev. M. J. Savage in Forum.

The Czar as an Art Collector.

The czar of Russia is one of the greatest art collectors in the world. The acquisition of a unique painting or a priceless bronze gives him more joy than the annexation of a slice of Central Asian territory. His study at Gatchina is a miniature museum, in which all branches of art are represented. His majesty is partial to the modern French school of painting, though he does all he can to encourage Russian artistic talent. In all that concerns art he has the full sympathy of his charming consort, who is herself not only a collector, but an accomplished painter and sketcher. The czarina admires Meissonier more than any other living artist, and is never tired of copying his pictures. The czar is a selfish amateur. Although he makes all his palace treasures houses of art, he still aids the public museums in money and in kind, and so crowded with objects are the existing institutions that his majesty is about to have built in St. Petersburg a national museum which shall be devoted to Russian contemporary art.—News and Post.

A Cross-Examiner Answered.

A story is being told at the expense of one of the leaders of the parliamentary bar. He was engaged in an Irish railway bill before a committee of the house of commons, and mimicking the pronunciation of an Irish witness whom he was to cross-examine, he asked if Waterford was spelled with two 't's in the witness's part of the country. "No," said the witness; "but I spell manners with two 'n's." This concluded the cross-examination.—Pall Mall Gazette.

Rosina Vokes and Her Maid.

Those persons who have had the good fortune to meet the vivacious Rosina Vokes may recall, along with the vivid impressions that the actress made, the less vivid impression that was sure to be left in the minds of those who saw her maid. This maid, who is especially devoted to her mistress, has not been liberally endowed by her Creator with those attributes that go to make up the sum of personal beauty—in fact, is that next best thing to being beautiful—being gloriously ugly.

A friend relates how, during her recent tour in this country, while the actress was performing in Chicago, she found herself in need of some article from the chemist across the way. It was late at night, after her return from the theatre. Hannah, the faithful maid, was asked to go and get it. But Hannah urged mildly that it was late, and she feared to go into the street alone lest some man might annoy her. "It will be your own fault if they do," said Rosina, who was tired and cross.

"Indeed, ma'am," expostulated Hannah, "nobody can say that I do not behave myself properly in the street. I always keep my veil down, ma'am."

"Precisely," said Rosina. "But for goodness sake, Hannah, if you want to protect yourself keep it up, keep it up."—New York Evening Sun.

100 Ladies Wanted.

And 100 men to call on any druggist for a free trial package of Lane's Family Medicine, the great root and herb remedy discovered by Dr. Silas Lane while in the Rocky Mountains. For diseases of the Blood, Liver and Kidneys it is a positive cure. For constipation and clearing up of the complexion it does wonders. It is the best spring medicine known. Large-size packages, 50 cents. At all druggists.

The World's Fair.

The excitement caused by this great event is scarcely equalled by that produced by the great discovery of Dr. Miles—the Restorative Nerveine. It speedily cures nervous prostration, change of life, pain, dullness and confusion in head, fits, sleeplessness, the blues, neuralgia, palpitation, monthly pains, etc. C. W. Snow & Co., of Syracuse, N. Y.; Talbot and Moss, of Greensburg, Ind.; and A. W. Blackburn, Wooster, O., say that "The Nerveine sells better than anything we ever sold, and gives universal satisfaction." Dr. Miles' new illustrated treatise on the nerve and heart and trial bottle free at H. H. Stafford & Son's Drug Store.

Cincinnati Moves Into Fourth Place in League Race—Kelly Blanked at Pittsburgh. Phillies Be Out a Victory.

BROTHERHOOD.

CHICAGO, Oct. 3.—The Chicagoans had no trouble in defeating the New Yorks to-day. In the very first inning the home club jumped onto O'Day and made three earned runs. Attendance, 718. Score:

Chicago	3	2	0	1	3	0	1	0	—10
New York	0	0	0	0	0	0	0	0	—0

Batteries, King and Farrell; O'Day and Vaughn; Base hits, Chicago, 12; New York, 7. Errors, Chicago, 1; New York, 2. Home run, Darling. Two base hits, Farrell and Duffy. Three base hit, Duffy. Umpires, Knight and Jones. Time, 1:45.

BOSTON SHUT OUT.

PITTSBURG, Pa., Oct. 3.—By superb fielding and good batting the Pittsburghers shut out Boston this afternoon. Attendance, 300. Score:

Pittsburg	0	2	0	0	0	0	0	—0
Boston	0	0	0	0	0	0	0	—0

Base hits, Pittsburg, 8; Boston, 5. Errors, Pittsburg, none; Boston, 5. Two base hits, Kuhnle, Beckley. Three base hit, Fields. Time, 1:15. Umpires, Ferguson and Holbert. Batteries, Staley and Quinn; Radbourne and Sweet.

NATIONAL LEAGUE.

CINCINNATI, O., Oct. 3.—By winning to-day's game from Boston the Cincinnati secured fourth place in the league race. Attendance, 862. Score:

Cincinnati	0	1	3	1	0	0	0	—8
Boston	0	0	0	0	0	0	0	—0

Batteries, Duryea and Keenan; Clarkson and Bennett. Base hits, Cincinnati, 15; Boston, 4. Errors, Cincinnati, 2; Boston, 2. Two base hits, Reilly, 2. Time, 1:35. Umpire, Strief.

BROOKLYN, 10; PITTSBURG, 4.

NEW YORK, Oct. 3.—The final championship game at Washington park, was played to-day. The weather was not conducive to good ball playing. Score:

Pittsburg	1	0	1	0	2	0	—4
Brooklyn	1	0	3	2	4	0	—10

Batteries, Day and Berger; Fouta and Clark. Base hits, Pittsburg, 9; Brooklyn, 11. Errors, Pittsburg, 12; Brooklyn, 4. Two base hits, Collins, Donovan, Sales, Berger, Laroque.

LUBY WINS AGAIN.

CHICAGO, Oct. 3.—Luby won his twentieth consecutive game to-day, although hit seven times while Rusie was only hit safely twice. Game was called at the end of the seventh inning on account of darkness. Attendance, 600. Score:

Chicago	0	1	1	0	0	—3
New York	0	0	0	0	0	—0

Batteries, Luby and Honan; Rusie and Clark. Base hits, Chicago, 3; New York, 7. Errors, Chicago, 2; New York, 5. Time, 1:50. Umpire, Powers.

BATTED OUT A VICTORY.

CLEVELAND, O., Oct. 3.—The Philadelphia National League team batted out a victory to-day. Score:

Cleveland	0	1	0	0	0	—0
Philadelphia	0	0	4	1	0	—0

Base hits, Chicago, 6; Philadelphia, 12. Errors, Cleveland, none; Philadelphia, 7. Two base hits, Davis, Meyers, Allen. Struck out, Wright 3; McKean, Smalley, Zimmer, Meyers, Mayer, Allen, Esper. Time, 1:45. Umpire, McQuinn. Batteries, Beatin and Zimmer; Esper and Schriver.

LONDON BROKERS SQUEEZED.

Doctor Warner's "Yankee Trick" Complained of to the State Department.

WASHINGTON, Oct. 3.—The London stock exchange has complained through Consul General New, to the state department of the United States that a Yankee trick has been played on it by Dr. Warner, of Rochester, N. Y., the patent medicine man, and it is affording much amusement. A year ago Dr. Warner went to London to sell his business for \$5,000,000 cash. The proposed purchasers found that he paid \$300,000 a year for advertising and cleared \$800,000 a year. But they failed to raise the \$5,000,000, and Dr. Warner went into the syndicate business himself, organized a company with \$5,000,000 stock in \$50 shares and got it listed on the London stock exchange. The stock, it was shown, would pay 10 to 15 per cent dividend and the British public fairly cried for it. The doctor meanwhile kept three-quarters of the stock himself. Soon brokers had sold more than they could get to deliver and there was a squeeze that carried the stock up to \$350 per share and many settlements were made on that basis. Dr. Warner intimated when asked for stock that he thought it worth about \$500 per share and has disposed of considerable on that basis. He will make from \$30,000,000 to \$40,000,000 on the deal, and the consular bureau of the state department is not worrying about it.

TIERED OF BEING A FUGITIVE.

Nathan S. Pienkney Walks Into St. Louis Police Headquarters and Gives Himself Up.

St. LOUIS, Oct. 3.—Nathan S. Pienkney, a well dressed and respectable looking man, walked into police headquarters here last night and said he was tired of being a fugitive from justice and gave himself up. He claims to be the ex-cashier of the Michigan Southern railway at Grand Rapids, Mich., and says he is a defaulter to a large amount, and has been hiding from the officers for the past eighteen months. City Marshal Kuhn telegraphed to the railway officials at Grand Rapids, and received instructions to arrest Pienkney and hold him until their arrival.

FAT FOR LAWYERS.

Proceedings Begun to Contest the Will of the Late John Crerar.

CHICAGO, Oct. 3.—The will of the late John Crerar, which disposed of an estate of nearly \$3,000,000, much of it being bequeathed to charitable and religious institutions in this city, is to be contested, and court proceedings will

soon be commenced in what will probably prove to be one of the most celebrated cases of its kind on record. The attorneys in the case are Messrs. A. W. Brown and Frank A. Stirtan. These lawyers, it is said, have found several weak points in the will, which they say cannot stand under the law. They say that the John Crerar library, for the erection and maintenance of which Mr. Crerar left over \$2,000,000, will never be built if the contesting heirs win their case. The heirs who will make the contest are living in this city and in different parts of Ontario.

A VERDICT FOR THREE THOUSAND.

Breach of Promise Case Goes Against the Rev. Peter Roberts, of Scranton.

SCRANTON, Pa., Oct. 3.—One of the most sensational cases ever heard in the courts of this country ended this morning when the jury in the breach of promise case of Annie Husaboe against the Rev. Peter Roberts of the Plymouth Congregational church came in with a verdict of \$3,200 for the woman. The case has been fruitful of surprising developments and has created a great sensation among the church-going people of the city.

The deacons of Roberts' church have clung to him and believed in him during the four years in which this case had been pending in court, but the evidence given has stunned them and in case the young man does not voluntarily withdraw from the pastorate of the church his resignation will be peremptorily demanded. Roberts is a graduate of Yale. He met Miss Husaboe at New Haven in 1886. He wooed and betrayed here and she demanded immediate marriage. He suggested a criminal operation to which she finally consented. While she was recovering from this he fled to Wales, whither she followed him. There he renewed his promise to marry her.

After further complications, both having returned to the United States, Roberts absolutely refused to fulfill his promise, and criminal action was taken to compel him to keep his promise. Roberts' attorney made offers to settle, once offering \$1,000 to that end, but Miss Husaboe would not consider it, although she once declared she would accept \$200 a year. While these negotiations were in progress, Roberts married a most estimable lady. The evidence of the plaintiff was very damaging and conclusive. It is said that Roberts deceived his counsel as well as the woman and his church, for they presented no testimony in defense of the charges.

IN JAIL AT BELLEFONTAINE.

Two of the Men Who Robbed Adams Express Messenger Behind Bars.

CINCINNATI, O., Oct. 3.—L. C. Weir, manager of the Adams Express company received a telegram from General Manager Moore, of the Cincinnati, Sandusky & Cleveland road saying that two of the robbers are in jail at Bellefontaine and the road detectives are after the third, who got away with \$600. The express company detectives, however, have not confirmed this news and there is nothing to show what proof can be found to convict the men arrested. Some clothing evidently dropped by the robbers has been found and is good for evidence possibly. In regard to the loss by the robbery, Colonel Weir says it appears now to be less than \$1,000 unless some of the jewelry packages should turn out to contain diamonds. Messenger Scudder is remaining at the scene of the robbery to assist in the identification of the thieves if they should be caught.

WHERE IS MURPHY?

Mysterious Disappearance of an Ohio Detective While Hunting for a Criminal.

SAN FRANCISCO, Cal., Oct. 3.—John E. Murphy, chief of police of Columbus, Ohio, arrived here yesterday accompanied by a boy named Eddie Boltinghouse. Murphy came here by Wm. H. Clark, a soldier at Presidio, who is accused of outraging Boltinghouse's little sister, and the boy was brought along to identify Clark. Murphy said that his brother, James Murphy, also a detective, left Columbus September 15th with the boy for San Francisco. While waiting for a train at Ogden, September 22nd, Murphy disappeared, leaving the boy at the hotel. The detective has not been heard from and Chief Murphy was compelled to come himself after the prisoner and is now looking for his brother. The missing man had a large sum of money and two railroad tickets.

RAILWAY CONSTRUCTION.

Figures Giving Total Mileage For Various States For the Present Year.

CHICAGO, Oct. 3.—The Railway Age will to-morrow publish a summary of the railway construction in the United States in the first nine months of 1890, which shows that 3,782 miles of new road have already been built in thirty-nine states and on 212 different lines. The states showing the largest amount of new mileage are Georgia, 323 miles; Montana, 312 miles; North Carolina, 226; and Washington, 207 miles. The only states and territories in which no track has been laid this year are New Hampshire, Vermont, Rhode Island, Connecticut, Delaware, New Mexico, North Dakota, Nevada and Utah. The Railway Age estimates that the total construction in 1890 will be from 6,000 to 6,500 miles against 5,200 miles reported in 1889.

DROPPED DEAD.

Traveling Salesman W. H. Spencer Dies at His Breakfast Table in Chicago.

CHICAGO, Ill., Oct. 3.—Wm. H. Spencer, a traveling salesman, dropped dead at his breakfast table this morning. He had a card in his pocket, dated July 27, 1889, reading as follows: "I am William H. Spencer, of No. 384 West Eighteenth street New York City. August 30, 1890. Am now rooming at 36 Pine street, second flat. Should I be taken ill, please send word to Mrs. C. Spencer 384 West Eighteenth street, New York; Miss Julia Spencer, care of Wm. Ellis, Shawville, Va.; Mrs. E. T. Hamont, care of Monroe & Co., No. 7 Rue Scribe, Paris, France. I am insured in the Metropolitan Life Insurance company, office No. 2 West Fourth and Fifteenth streets and Fifth avenue, New York. I wish to be cremated when dead, not buried. Be sure I am dead, first."

A DEADLY DECOCTION.

Circus Lemonade Gets in Its Work on the People of Portland, Ind.

PORTLAND, Ind., Oct. 3.—Great excitement was caused among the 10,000 people who attended the county fair here yesterday by the report that from the effects of drinking lemonade a family of seven persons were taken home in an unconscious state and fully thirty more required medical assistance. The trouble was caused by the extracts used.

A. Mason, keeper of a candy stand on the fair grounds, sent a small boy to a drug store for tartaric acid to be used in making lemonade. He was given tartaric acid and the mistake was not discovered until Eli Gerhardt and four children, Morris Erickson, Lilly Chapman and others had drunk a quantity of the liquid. Mason drank a small quantity and mixing the drink with water had a bad condition. Three of the victims cannot recover.

SURROUNDED BY ARMED MEN.

Indian Territory Legislative Hall Invaded By Men With Winchester.

GUTHRIE, O. Y., Oct. 3.—The excitement over the capital location continued to-day. S. R. Mitchell, city attorney of Oklahoma City, yesterday sent one of his friends at home the following message: "Your representatives were mobbed on the street to-day. Send 100 armed men." The armed men arrived on the first train this morning and secured seats of vantage in the hall of the lower house before the body met in its regular session. Fully twice as many friends of the Guthrie measure as equally as strongly armed, were also present. The Guthrie force is determined that its city shall also have fair play and unless both agree as to what constitutes fair play trouble will certainly follow.

BEATEN IN A TERRIBLE MANNER.

Mrs. Loisa Carbine, of Chicago, Horribly Pounded By Four Sneak Thieves.

CHICAGO, Ill., Oct. 3.—Last evening four men entered the room occupied by Loisa Carbine on the third floor of No. 184 West Lake street intending to rob her of \$160 which she had secreted in a bundle of clothing in a closet. The first article the thieves found was an old silver watch, which they appropriated. When they started to ransack the closet where the money was, Mrs. Carbine commenced to scream and the thieves set upon her and beat her in a terrible manner, leaving her upon the floor in her room in an unconscious condition. The robbers then escaped. Mrs. Carbine will die from her injuries.

A TIN PLATE FACTORY.

Plant Costing Five Million Dollars to Be Erected in Boston.

PITTSBURG, Pa., Oct. 3.—A number of eastern capitalists, principally from Baltimore and New York, have quietly been working on a scheme to establish an immense tin plate factory at Baltimore. The capital stock is \$7,000,000. Ground has been purchased on which the mills are to be erected. The mines have also been secured. About \$5,000,000 will be put into the Baltimore plant itself. It will cover several acres and will be the largest tin plate concern on the globe. Foreign capitalists are to erect a tin plate mill at Duquesne as a part of \$1,500,000 on the property of John A. Wood. About 600 men will receive employment.

CHICAGO MARKETS.

CHICAGO, Oct. 3.—The leading wheat futures ranged as follows:

	Open.	High.	Low.	Close.
No. 2 Oct.	96 1/2	96 3/4	96 1/4	96 3/4
Dec.	97 1/2	97 3/4	97 1/4	97 3/4
May.	1.04 1/2	1.04 3/4	1.04 1/4	1.04 3/4

CASH QUOTATIONS.

Cash quotations were as follows: Flour unchanged. No. 2 spring wheat, 96 1/2; No. 3 spring wheat, 95 1/2; No. 4 red, 94 1/2; No. 2 corn, 48 1/2 c.

CHICAGO, Oct. 3.—The Drovers' Journal reports as follows:

CATTLE—Receipts, 12,000; shipments, 3,500; market steady at a decline; steers, \$4.00; calves, \$3.50; Texas steers, \$2.30; rangers, \$2.80; hogs—Receipts, 21,000; shipments, 10,000; market steady to lower; rough packed, \$10.00; prime heavy and mixed, \$10.50; butchers' weights, \$4.30; light, \$4.00.

COPPER MARKET.

NEW YORK, Oct. 3.—Copper, neglected and nominal.

OIL QUOTATIONS.

OIL CITY, Pa., Oct. 3.—Opened 79; highest, 80 1/2; lowest, 78; closed, 80 1/2.

MINING STOCKS.

BOSTON, Oct. 3.—Allouez Mining company, \$1.50; Atlantic, \$1.50; Boston & Montana, \$3.75; Calumet & Hecla, \$300.00; Catalpa, \$7 1/2; Franklin, \$30.50; Haron, \$3.00; Kearsarge, \$17.00; Oscoda, \$4.50; Potosi, \$1.00; Quincy, \$17.00; Santa Fe, \$2 1/2; Tamarack, \$16.00; Centennial, \$4.00.

Death of Col. J. E. French.

BOISE CITY, Idaho, Oct. 3.—Col. John R. French, editor of the Sun, died last evening. Mr. French was prominently connected with the anti-slavery agitation and was the editor of the Herald of Freedom, one of the first anti-slavery papers in New England. He served as sergeant-at-arms in the United States senate.

Spooner as a Spouter.

MILWAUKEE, Wis., Oct. 3.—Senator John C. Spooner addressed 3,000 people here tonight and made one of the most magnificent speeches ever listened to in this city. Over 3,000 people were turned away.

Carriage Works Burned.

CLEVELAND, Ohio, Oct. 3.—The works of the Mansfield Carriage Hardware company burned this morning. The loss is \$30,000; insurance, \$10,000.

Deadlock and Key Lost.

PITTSBURG, Pa., Oct. 3.—A special from Apollo, Pa., says that the con-

gressional conferees of the Twenty-first district, after taking 350 ballots adjourned without making a nomination. The matter will now be referred to a committee of three non-residents of the district to be appointed by the chairman of the state committee.

Republicans Claim Idaho.

BOISE CITY, Idaho, Oct. 3.—The republicans claim the election of Shoup for governor and Sweet for congress by 1,800 and the entire state ticket by about the same majority. They claim that the legislature will stand forty-two republicans to ten democrats, with two members in doubt.

The Fireman's Tournament.

ASHLAND, Wis., Oct. 3.—The annual tournament of the Lake Superior Firemen's association, which includes the local departments of eight Northern Wisconsin and seven Upper Michigan cities, opened this morning with a grand parade. Mayor Wilmarth delivered the address of welcome. The town is handsomely decorated in honor of the visitors.

A Rear-End Collision.

JANESVILLE, Wis., Oct. 3.—A rear-end collision of two freight trains occurred on the North Western road one mile north of here this morning. The engine of the rear train and four cars were badly damaged.

Chinese Arrive at Vancouver.

VANCOUVER, B. C., Oct. 3.—The steamship Batavia arrived yesterday from China and Japan with sixteen Europeans, eighty-five Chinese and twenty-six Japanese passengers. She brought a full cargo of tea and silk.

Forecast of the Weather.

WASHINGTON, D. C., Oct. 3.—S. P. M.—The signal service reports the following as its forecast for the next 24 hours: For Wisconsin and Michigan: Light rains; winds shifting to cooler, north-westerly.

Two Million In Sight.

TUCSON, Ariz., Oct. 3.—Lemuel Banister and George Westinghouse, of Pittsburg, Pa., to-day paid \$5,000 for a silver mine twenty miles south of Tucson. It is claimed there is \$2,000,000 in sight.

Fatal Boiler Explosion.

PURDY, Tenn., Oct. 3.—Yesterday at Chewalta, five men were instantly killed by the explosion of a saw mill boiler belonging to Mr. Gorley. Gorley's body was torn into shreds.

The Corpse A. Use.

A John Bergen recently fell dead. Bergen was to be buried and had been laid out preparatory to being dressed in his burial robes. He was covered with a white sheet. Early in the evening "Bob" Roberts, one of the coroner's assistants, who had been working hard all day, lay down on a long bench near the corpse, and drawing a sheet over him to prevent the flies from bothering him went to sleep.

The dead and sleeping men were in the above position when one of Bergen's friends came in to pay the last tribute to his friend. The fellow on entering the morgue asked to see the remains of his friend. The men employed there were busy at the time, and one of them, pointing over to where the two forms were lying, said, "There he is." The visitor went over to the bench where Robert was sleeping, and giving him a hearty slap on the stomach said: "Poor Jack, it was only day before yesterday I was after asking him to have a drink with me."

The blow awoke Roberts and he hastily sat upright. The man's hair stood on end as he was faced by his supposed dead friend, and with a howl of terror which startled the clock he rushed through the building and down the street at a gallop which would beat the best professional sprinter in the country. He gave a yell every few jumps and the last seen of him he was nearly to the river and was still going. Friends were trying to find him, and it is presumed he will be heard from after he recovers from his fright. Roberts indignantly demanded to know why he was thus rudely disturbed, but every one was so convulsed with laughter that they could not answer him.—Denver News.

He Knew All About It.

Farmer Jenks is a man who is so desirous of being considered infallible that he will suffer great inconvenience rather than relinquish that claim. "He'd rather have his own way than eat when he's hungry," says his wife, who, after long years of contention and final yielding, has learned to know him well.

Not long ago Farmer Jenks injured one of his fingers so severely that he was obliged to leave his work and go home to his wife. "That finger 'll have to come off," said the doctor. "No, 'twon't either, father," said she soothingly. "I've seen plenty hurts worse 'n that."

"Jane, I tell you 'twill! Don't you s'pose I know what to expect of my own finger?"

The dispute ran high, and as usual the husband had the last word.

Days went on and the finger grew worse rather than better, until at last it reached such a state that the doctor was called. He had not been in the room fifteen minutes when Farmer Jenks summoned his wife.

"Jane," said he, "come here; come right here! What do you s'pose he says?"

"Well, I guess by the way you're smiling he says it's all right," said she, also beginning to smile in relief. "I must say I am glad! Your forefinger, and on the right hand! It didn't seem to me I could be reconciled if it had to come off!"

"But that's just it," interrupted her husband, still smiling in triumph and looking at her with sparkling eyes; "it's got to come off, and I told you so!"—Youth's Companion.

The Judge and the Sport.

Mr. Justice Hawkins was once taken to be a member of the P. R. He was waiting to take his ticket at a railway station in Paris, at which there were a number of English roughs returning from the races, one of whom was very rude to him. The judge remonstrated, whereupon the man became more insulting, and said that if he would come outside he would give him "what for." Sir Henry, who wears his hair cut very short, then took off his hat, thinking that as the men were probably of the criminal classes they would recognize him, and quietly remarked:

"Perhaps you do not know who I am?"

"But the man in awestricken tones exclaimed, 'Awkins, by thunder!'"

No. What he said was: "Step me bob, a bloomin' prize fighter! Not me!" and the judge was not further molested.—St. James' Budget.

Protection Against Tornadoes.

When trying to escape from a tornado never run to the northeast, east or southeast. Never take refuge in a forest or a grove of trees, or near any object that may be overturned by the wind. A frame building is safer than one built of brick or stone. The former is more elastic and holds together longer; the latter goes down in the first crash, and the debris is whirled into a heap in the center of the foundation. In a frame structure the cellar is the safest place, but in a brick or stone building it is the most perilous. In the former case the debris is carried away from the foundation, while in the latter instance the cellar is filled with it.

The tornado cave offers absolute security to life and limb, and no means of protection can replace it for that purpose. As regards protection to property, no building can be made sufficiently large, strong, high or low to resist the force of the tornado's vortex. There is no changing the path of the tornado by the employment of explosives or by any artificial barrier. To contemplate the dispersion of the cloud by the use of any electrical contrivance is also idle. All buildings should be constructed as would be done without the knowledge of the tornado, and then protected by legitimate insurance. Protection must be accomplished by organized capital, the safety of one being assured by the legitimate and successful co-operation of many. The writer strongly advocates this method of protection during his tornado investigations in the west in 1879, and now several million dollars' worth of property is thus insured every year.—Lieut. J. P. Finley in Forum.

Cut Through a Clerical Error.

Some years ago a barber was arrested in Paris for badly cutting a customer. There was no question about the gas, and what made it even worse the razor wielder said in a way, he had done it purposely.

After the testimony was in the judge asked the barber if he had anything to say. "Yes, monsieur, I have. I justify the cutting on the ground that it was merely a clerical error—a slip of the pen."

"What?" cried the judge, gasping with astonishment. "Permit me," continued the lather slapper. "For months the plaintiff has been getting shaved on trust at my establishment. I have no very convenient means of keeping accounts, so every time I shaved the gentleman I cut a little nick in his cheek in order to guide me in my charges when the long deferred day of payment came. So many nicks, of course, so many shaves."

The barber passed a moment and the whole court was on the tip-toe of expectation. "But how about the clerical error?" asked the judge.

"I am coming to that, sir. It so happened that the account had already arrived at the one hundredth nick, and my hand being somewhat unused to making ciphers the razor turned when I attempted them, with the result known."

The entire honesty and candor of the barber was so plain he was left off with a light fine.—Philadelphia Times.

Special Assessment Notices.

Notice is hereby given that the Common Council of the city of Marquette will meet in the council room on Monday the 6th day of October, A. D. 1890, at 8 o'clock, P. M., of said day, to consider the final confirmation of the following assessment rolls, to-wit: For grading, curbing and macadamizing Seymour avenue from Washington street to Ridge street.

Also, for grading, curbing and macadamizing Lincoln avenue from Washington street to Ridge street. The local assessment districts established and defined as being liable to and included in such assessment include all the lands and lots abutting on said avenues on both sides thereof, within the limits above specified. The said assessment rolls are now open for inspection and will remain open at the recorder's office until the aforesaid date.

THOMAS MEADS, Recorder. Dated, Sept. 25th, 1890. (9-25-100)

Notice to Contractors.

In pursuance of an ordinance passed by the common council of the city of Marquette on the 24th day of September, A. D. 1890, for grading, curbing and macadamizing Front street from north line of Prospect street to Fair avenue and for the payment of the work already performed to the parties interested.

And also in pursuance of an ordinance passed the common council on the aforesaid date, for grading and curbing and macadamizing Front street from Pine street to Third street sealed proposals will be received by the Recorder till 5 o'clock P. M. on 6th day of October, 1890 for the performance of said work according to the profile and specification to be seen at his office.

Said Front street and Park street must be graded to the full width thereof and macadamized to the width of thirty feet in the center thereof, with plank gutters on each side. The planks must be square at each end.

Said gutters and said macadamizing must be done in accordance with the requirements of the ordinances of said city in relation thereto. Each bid must be accompanied by two bonds, each in the penal sum of the total amount of the bid, one conditioned for the faithful performance of contract, if awarded, and the other conditioned for the payment of all labor and material claims arising under such contract.

The council reserves the right to reject any or all bids. THOMAS MEADS, Recorder. Dated Sept. 25, 1890. (9-25-100)

Notice to Contractors.

In pursuance of an ordinance passed by the common council of the city of Marquette on the 24th day of September, A. D. 1890, for the construction of a sewer along Hewitt avenue from center of Front street to the Trunk sewer, according to the grade heretofore established therefor—such sewer to be of eight inch pipe. Sealed proposals will be received by the recorder till 5 o'clock P. M., on the 6th day of October, 1890, for the construction of said sewer.

Said sewer must be built in all respects, except as to grade and size of pipe, in full accordance with the plans and specifications of the Davis sewer system of this city. Each bid must be accompanied by two bonds, each in the penal sum of the total amount of the bid, one conditioned for the faithful performance of contract, if awarded, and the other conditioned for the payment of all labor and material claims arising under such contract.

The aforesaid street must be left in proper condition after completion of contract. The council reserves the right to reject any or all bids. THOMAS MEADS, Recorder. Dated Sept. 25, 1890. (9-25-100)

ISHPEMING'S PROGRAM READY.

The Committee has Everything Prepared for the Reception of the Visiting Engineers.

Beware of the Fake Show—Democratic County Convention Called—Mine Agents Refuse the Request Preferred by Miners.

The Foreign Engineers.

The arrangements for the local committee for the proper reception and entertainment of the visiting members of the Iron and Steel Institutes of Great Britain and Germany during their short visit here on the 20th inst., have been completed. The visitors will be shown as much of Ishpeming's big mines as possible in the short time they will be in the city, and the local committee will take care that the gentlemen from across the big pond are properly impressed with the extent of what the greatest iron ore producing town in the world is like. There is so much of interest to be seen that much will necessarily be omitted. The program as arranged calls for a short visit to the Lake Superior, Cliff Shaft, Lake Angeline and Lake Shaft of the Cleveland line. At the latter mine especially the visitors will see much that will be new and interesting to them. The Lake Shaft of the Cleveland is the model iron mine of the continent, and a half day could be profitably spent there alone.

A Snide Affair.

Posters liberally distributed about the city announce the coming of Galloway's Empire Dramatic company. This troupe will be at the City Opera house one week, beginning Monday night of next week. The performance consists of farces and light comedy, and admission is free. There will be tooth-pulling matinees by a fellow who poses as a "D. D. S.", and who is presumably a quack, if a man can be judged by the company he keeps. There will also be auctions each night, at which persons in the audience will buy \$40 diamond rings and other valuable things for from ten to twenty cents each. The "Empire" company is strong on giving away snide jewelry and pulling teeth and very light in acting.

The whole affair is a self-confessed fake and fraud. If Galloway doesn't like this he knows what he can do about it. As for the good people of Ishpeming, they have been fairly warned, and if they rush in shoals to the show, as they probably will, they will have no one to blame but themselves. The Galloway show will take a lot of money out of Ishpeming, giving nothing whatever of value in return. The advent of this fake concern will be a god-send to the dentists, who have not had such a bonanza since the last fair. "Dr." Franz F. C. Goerss ruined the mouths of several hundred of Ishpeming's intelligent citizens by pulling out their teeth at the rate of ten molars a minute. Now let the band play, and suckers will flock to the packing place.

Democratic County Convention.

As will be seen by the call published elsewhere in this morning's issue of the MINING JOURNAL, a democratic county convention will meet at the Commercial club rooms, corner of Cleveland avenue and Second streets, Ishpeming, at 10 o'clock A. M., on Thursday, October 9th. The convention will nominate candidates for the various county offices, and also two candidates for the lower house of the state legislature, and will send fourteen delegates each to the senatorial and congressional conventions of that party, both of which will soon meet. A county committee, to serve for the ensuing two years will also be chosen, and miscellaneous business of importance will be transacted. The county convention to select the Ishpeming delegates to the county convention will probably be held Wednesday night of next week, but it has not yet been called by the chairman of the city committee.

Will There be a Strike?

The memorial of the "miners' rights" to the agents of the Ishpeming mines was printed in the MINING JOURNAL last week, and it will be remembered that the men asked that an answer to their petition be given yesterday. A negative answer was given, and it is more than probable that none of the miners in any of the city mines will go to work Saturday night, and it is possible that some of the men will lay off to-day. While this cannot be called a strike, it will be somewhat akin to it. For the benefit of both mines and miners, and the general public, it is hoped that a satisfactory settlement of the question can be reached without any resort to strikes or lock-outs. The people of Ishpeming have been very free from labor disturbances of any kind for years, and perhaps do not really appreciate what a strike would mean.

EUPEPSY.

This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the use persisted in, will bring you good digestion and out the demon Dyspepsia and install instead Euepsya. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at 50c and \$1.00 per bottle by H. H. Stafford & Son's, druggists.

Elevator Etiquette.

The matter of elevator etiquette having struggled to the top again the views of one man upon the subject may be interesting. "In the first place," said a man to whom the question was submitted, "I would say that under no circumstances should ladies expect men to remove their hats if there be the slightest suspicion of a draught in the elevator, and my own experience has been that they are seldom without it. To say nothing of lesser and simply annoying ailments, some of the most serious maladies are traced by physicians to a no more serious cause than a brief chilling draught. In the second place the question would be where the elevator is situated.

"If in a business building, where people are supposed to go for business purposes, and where the observation of social forms and ceremonial etiquette is not important, and perhaps not even sensible, I would say that men should not be asked to remove their hats, and I do not think that they are disposed to do so. When we come to a hotel elevator the question grows finer. There are hotels where it would be a little pretensions and almost out of place to indulge in such a ceremony. In the smaller country hotels, for instance, and in hotels generally where there is little pretension to social style, the removal of hats in elevators would hardly seem to be necessary. "In some places I think it would be even impolite, on the principle observed by the German prince, who, when his rustic guest poured out his coffee in a saucer, did the same thing himself, that the untutored fellow might not suffer from his blunder. On the other hand, in hotels, where there is a general observance of social forms, I think that if, as already said, there be no draught in the elevator, the hat should be removed in the presence of ladies, and my experience is that it is an invariable custom for men to do so in such places. I may add, however, that it is a custom which obtains only in America. In England and on the continent no gentleman thinks of doing such a thing."—New York Times.

How They Got Rich.

She—I could have married either Whipper or Snapper if I'd wanted to, and both of those men whom I refused have since got rich, while you are still as poor as a church mouse.

He—Of course. I've been supporting you all these years. They haven't.—New York Weekly.

THERE IS ONLY 1 S.S.S.

And there is nothing like it. Do not be imposed on with substitutes, imitations, etc. because the dealer makes a few cents more on a bottle.

Lead Poison Cured.

I am a painter by trade. Three years ago I had a bad case of Lead Poison, caused by using paint. I was cured in a short time by S. S. S. The medicine drove the poison out through the pores of the skin. My system was so saturated with poison that my underclothes were colored by the paint being worked out by the medicine through the pores of my skin. I was cured entirely by S. S. S., and have had no return since. C. PARK LEAR, Waynesville, Ohio.

HAVE SELECTED A SITE.

Michigan Polygonal Turning Company Will Erect Its Factory on the Old Tannery Grounds.

ENTERPRISE THAT WILL GREATLY PROMOTE CITY'S ADVANCEMENT.

Work on Life Saving Station to Begin Next Week—Y. M. C. A. Will Build Bowling Alley—General City News.

Great Wood-Working Enterprise.

The directors of the Michigan Polygonal Turning company yesterday decided upon a site for the factory. It will be built at once. A lot of eight acres, that formerly occupied by the old tannery at the west end of the city between Washington street and the railroad, has been secured. This is considered an excellent location, affording as it does ample space and switching facilities. Plans for the factory are being prepared by Architect Charlton and work will be begun as soon as possible. The first building will probably be about 50 by 100 feet, though its precise dimensions are yet to be decided upon. A full set of machines will be put in and at least forty men will be employed during the first year. When the company gets fairly to going and its product is on the market a boom in wood working may be looked for in this city. For reasons already set forth in these columns it will be highly expedient for furniture manufacturers to come here where materials are abundant and where they will save freight charges upon the product which they must buy from the Michigan Polygonal Turning company. The prospect for extensive wood working and furniture plants here grow better every day.

The Life-Saving Station.

H. G. Wright of Ionia, the contractor who will erect the life-saving station at this point, is in the city and will begin work in a few days. The plans of the three buildings to be erected have already been described in the MINING JOURNAL. They will be of the most modern and approved type for their use and will cost, exclusive of equipment, \$7,000. Mr. Wright is just finishing a life-saving station on Bois Blanc Island, near Cheboygan. As soon as that job is completed he will put his whole force upon the work here and push it rapidly. He is now getting materials together for the work. Mr. Collier of Frankfort, assistant superintendent of construction in the life-saving service, who has been here some days, will oversee the work on the part of the government and look to it that the buildings are strictly in accordance with the plans and specifications.

Healthful Exercise and Amusement.

"A sound mind in a sound body" was the ideal of the pagan Greeks and Romans and modern Christians are coming into that same belief. It is no longer "good form" for students, even young theologians, to be pale and emaciated and young women no longer take pride in a delicate appetite. The early religious enthusiasts who taught contempt of the body are perceived to have been mistaken and vigorous health is found to be the great promoter of good morals. The increasing attention given to physical training by schools and colleges, the gymnasiums established in every city by that great organization, the Young Men's Christian association, are in keeping with the spirit of the times.

Marquette in this matter as in others is at the front of progress. Her Young Men's Christian association has been in the past and continues to be noted for its attention to athletic training. More good has been accomplished among young men through the gymnasium than by any other single agency. The association is about to make another advance in this direction and is now preparing for the erection of a fine, large bowling alley as an adjunct to its gymnasium. Bowling is admitted by all physical trainers to be the very best sport in which either men or women can engage. Without being unduly violent it brings into play nearly or quite every muscle in the body. In addition to its value as an exercise it is a very interesting game, admitting of manifold variations and the attainment of scientific skill. The present bowling alley of the association has been too dark and limited in space to be attractive. Architect Charlton has prepared plans for a new one which will be erected in the near future, as soon as the necessary funds can be secured. It will occupy the space between the present association building and the MINING JOURNAL office and extend the full depth of the lot. The front will be brick, with a great arched window and across the cornice will be chiseled the words "Y. M. C. A. Bowling Alley." A large skylight will afford additional illumination to the two alleys. These will each be 39 inches in width and 70 feet in length, with double gutters, racks and all accessories of the best description. The alleys will be of hard maple and built in the most approved manner. The committee in charge has already met with very good success in raising the necessary funds and will push the work from now on. These bowling alleys will be the best in this region and a greatly increased interest in that fine sport may be expected among the young men of Marquette.

Renwick Doing Well.

James Renwick, formerly pitcher for the Calumet team, has been making a fine record with Milwaukee. He is thought by Manager Cushman to require training in the art of fielding his position but in battery work has showed up finely. The other day the Chicago National League team played at Milwaukee and the Brewers put in Renwick. He fooled Anson's boys in great shape. His admirers among the upper peninsula ball cranks will be very glad to learn of Renwick's success.

Provide for Your Children.

Cold weather is rapidly approaching and mothers are beginning to think of the comfort of their little girls as they

trip away to school over the snow. Good, warm and stylish cloaks are a necessity for the little ones. Grabower has them for all ages from the tot of 4 to the young lady of 18. The materials are excellent, the make stylish, the patterns numerous and the prices low. There is no excuse for not having your girls well and comfortably dressed. The line is the largest and the prices are the lowest ever known in Marquette and with these garments goes a guarantee that means satisfaction.

Something on shawls. Grabower has these too, all sorts of shawls. Cheap shawls and expensive shawls but all of first-class value for the money. Among woolen shawls the Badger State, made at Racine, Wis., is a famous leader. See Grabower's stock and your taste and purse will both be suited.

Convenient Vision.

A well-known local wag walked into Conklin's jewelry store yesterday and asked to see the expert optician. "I don't know whether I need glasses or not," he said. "I'll try to tell you just how I am afflicted. Some times I can see plainly and then again I can't. For instance, if a man comes into my store and wants to pay a bill I can see very distinctly the amount of the bill and can receipt it without the slightest difficulty. I can read a bill of fare with ease. If I go to the theatre I have no trouble in reading the program. Here is where the trouble comes. If a person comes to me with a subscription list my vision lets right down, or if I am asked to indorse a note my eyes instantly fail me and I can't see a blasted thing. I can read newspaper type all right, but Bible type blurs right up. I often want to read the Bible on Sunday but can't do it, and have to fall back upon common current literature. Now what I want to know is, would glasses help me?" Mr. Ostrander, who had never seen or heard of a similar case, was frank to acknowledge that it was beyond his comprehension, and could only advise him to take a vacation, drop all business cares, and give his brain a holiday, and above all things to abstain from glasses of all sizes.

Deafness Can't Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

E. J. CHENEY & CO., Toledo, O.

All money deposited in the Marquette County Savings Bank up to and including Saturday evening Oct. 4th, will draw interest from October first.

Don't forget Gordon's D. F. cigars when you want a good smoke.

\$350.00, \$25.00 cash and \$10 per month will buy a lot in Chicago. Enquire of E. P. Wilbur, room 7, 306 Front street, Marquette.
