## REFORM NECESSARY.

General Miles Advises Legislation Looking To Advancement of Common Soldiers

CHILI APPROVES RECOMMENDATIONS OF PAN-AMERICAN CONGRESS.

He Thinks Silver Standard Would Increase United States Commerce With South American States.

### WASHINGTON NEWS.

WASHINGTON, Oct. 29.—Major-General Nelson A. Miles, commanding the division of the Pacific, has submitted to the adjutant-general his annual report concerning military affairs within the division of the Pacific. He says that the tone and character of the service is most excellent and that no class or community of civilians can be found among whom fewer offences are committed or who live more temperate or exemplary lives. Yet there are many embarrassments in our military system. Any system is defective which leaves with little advancement and slight hope of recognition, citizens who devote themselves entirely to the military service cheerfully jeopardizing or sacrificing if necessary their lives for the honor and welfare of their country. This is particularly true in the ranks of the army and in the lower grades where the absence of recognition for valiant and valuable service often become disheartening. Legislative enactment should provide some system of more reasonable professional advancement. The artillery branch should be increased by at least two regiments and the same organization should be given the infantry that exists in the best armies of the world, namely three battalion organizations.

NO DRAWBACK ALLOWED. WASHINGTON, Oct. 29.—The secretary of the treasury has rendered a decision holding that imported bottles used in the bottling of fermented liquors made in the United States wholly from domestic grain and hops are not entitled on exportation of such bottled beer to a drawback of duty on the bottles.

Although it has not been positively settled yet it is now quite likely that the president will make a journey to Indiana to vote there on election day. He has cleared the important business on his desk and unless something now in sight should come up he will make the trip.

The amount of 44 per cent bonds redeemed to-day under the circular of October 9th, was \$339,900 making the total to date \$3,087,100.

### A DESPATCH FROM EGAN.

The department of state has received a despatch from Patrick Egan, United States minister to Chili, as follows: "I have the honor to inform you that in the course of an interview which I have had with the president of the republic, his excellency expressed the most cordial approval of the several propositions which emanated from the international American conference on the subjects of banking, uniform customs regulations, an international bureau for the dissemination of information concerning the American public, uniform weights and measures, uniform sanitary regulations, an inter-continental railway and especially of the proposed adoption of a common silver coin for circulation in all the American republics. The latter project, the president considers, by making silver the American standard of values in contradistinction to gold as the European standard, will do more than any other movement to extend and consolidate the influence of the United States and increase her commerce with the republics of South America."

APPROVED THE PROCEEDINGS. WASHINGTON, Oct. 29.—The secretary of the interior has approved the proceedings of the council of the Monominee Indians in Wisconsin assenting to the provisions of the act of June 12, 1890 for the sale of their timber, and has appointed George W. Gars, of Tomahawk, Wis., as superintendent of the logging operations of the Indians.

### A PLUM FOR MOORE.

WASHINGTON, Oct. 29.—Secretary Windom to-day appointed J. K. Moore, of St. Paul, to be chief of the appointment division of the treasury department to succeed T. E. Byrnes, resigned.

MARRIAGE OF MISS BUTTERWORTH. WASHINGTON, Oct. 29.—Miss Mary Butterworth, daughter of Ex-Representative Butterworth, of Ohio, was to-day married to Mr. Haughwath Howe of the state department. The marriage was to take place to-morrow. Last Friday Mr. Howe was taken ill at his rooms at the Metropolitan club chambers, and he has since grown rapidly worse. His illness has been very much aggravated by distress of mind and disappointment because of his inability to keep his wedding engagement to-morrow and when Miss Butterworth learned this fact she proposed that all formalities be dispensed with and that the wedding ceremony take place at once in Mr. Howe's sick-room.

LIVESTOCK TRADE WITH MEXICO. Practically Ruined By The Enormous Duty Imposed By That Government.

KANSAS CITY, Mo., Oct. 29.—There is considerable excitement to-day among Kansas City stockmen relating to advices received from Mexico to the effect that that country has placed a duty of \$500 per car on American cattle. If the advices are true, and they come from a reliable source, this practically ruins all livestock trade between this country and Mexico. The act of the Mexican government, purely a retaliatory one, was precipitated by the fear the Mexicans have of the McKin-

ley bill. Many cars of American cattle are now on the Mexican borders. About 500 bushels of grain have to be sent with every train load of livestock shipped from this city to Mexico, and the government will not even permit this to go through unless a duty of 30 cents per bushel is paid. It has been rumored among the stockmen of this city for the past three or four days that the Mexican government was contemplating a move of this kind, but there was thought to be nothing in it until dispatches received from agents there to-day apparently confirm the reports.

NEW ORLEANS, La., Oct. 29.—The Picayune's San Antonio, Texas, special says: The retaliatory policy of the Mexican government against the McKinley bill has begun and its effects will be severely felt all through the western states. Beginning with yesterday a tax of \$500 a carload on horses or cattle stock imported from the United States will be enforced in all Mexican ports.

IN HONOR OF ARCHBISHOP FECHAN.

Twenty-Fifth Anniversary of His Elevation to the Episcopacy Celebrated. CHICAGO, Oct. 29.—The opening ceremonies in connection with the twenty-fifth anniversary of Archbishop Fechan's elevation to the episcopacy were held this morning in the cathedral. About 400 priests and many church dignitaries were present and many persons were unable to gain admission to the edifice on account of the throng. Pontifical high mass was celebrated with the archbishop as celebrant, and the sermon was preached by Bishop Hogan, of Kansas City. At the close of the services the priests and prelates went in carriages to the Auditorium Hotel where a banquet was served. The following cablegram from his holiness, the pope, was received this morning: "Congratulations to the archbishop; apostolic benediction to the clergy and flock. (signed) Leo XIII."

AN ARCHBISHOP CHOSEN.

Another Report That Bishop Wigger Has Been Appointed to Milwaukee Archdiocese. NEWARK, N. J., Oct. 29.—The college of cardinals at Rome has chosen the Rt. Rev. Wyman Michael Wigger, D. D., bishop of the diocese of Newark, to succeed the late Most Reverend Archbishop Heiss in the Milwaukee archdiocese.

Bishop Vertin was seen last night concerning the foregoing report by a MINING JOURNAL reporter. As Bishop Vertin is the senior bishop of this province he should be and will be the first to receive official notice of the appointment of a successor to Archbishop Heiss. Bishop Vertin said: "I have heard nothing of such an appointment. I do not believe, unless something extraordinary has occurred, that Bishop Wigger will be chosen archbishop of Milwaukee."

BLAINE IN INDIANA.

Makes a Speech at South Bend and Then Takes Train for Washington.

SOUTH BEND, Ind., Oct. 29.—James G. Blaine reached here to-day at noon. A grand reception was arranged, but through some misunderstanding the band failed to put in an appearance until Mr. Blaine had been carried to the home of James Oliver for lunch. Snow was on the ground and rain was falling when he arrived, so there was only a few who ventured out to meet the distinguished statesman. His speech was delivered at 2 o'clock at the town skating rink to a large and enthusiastic crowd of South Bend and Gosport republicans. Immediately after speaking Mr. Blaine took the train for Plymouth, where he is to join his family in their private car on route to Washington.

MARRIED HER COACHMAN.

Miss Lizzie Phelps, a Wealthy Society Belle of Binghamton N. Y.

BINGHAMTON, N. Y., Oct. 29.—This afternoon Miss Lizzie Phelps, a society belle and heiress, who lives near this city, was married to William Slattery, the family coachman. Miss Phelps is a niece of the late Judge Sherman D. Phelps, concerning whom and whose relatives there has been unlimited newspaper gossip. The bride, who is one of three sisters, is about 27 years of age, and is worth \$100,000. The groom is illiterate, but of good appearance. He states that Captain L. L. Olinstead, of the Twentieth separate company, threatened to shoot him if the marriage occurred.

AFTER BALLOTING FIVE WEEKS.

Republicans of Sixteenth Pennsylvania Congressional District Name a Candidate.

WILLIAMSPORT, Pa., Oct. 29.—The republican congressional conference of the Sixteenth district, after balloting five weeks, early this morning succeeded in nominating A. C. Hopkins, of Lock Haven, Clinton county, a prominent lumberman. The democratic congressional conference met here this morning immediately after the close of the republican conference, and nominated Mortimer F. Elliott, of Tioga county, who was congressman-at-large in 1882.

SORRY, BUT HAD TO.

Miss Cora Sickness, a St. Louis Stenographer, Suicides by Taking "Rough on Rats."

ST. LOUIS, Mo., Oct. 29.—Miss Cora G. Sickness, a stenographer in the employ of Buchanan & Gowen, lumber dealers, whose offices are located in the Bank of Commerce building, committed suicide shortly before noon to-day, taking "Rough on Rats." She left a note stating she could not help it and asking forgiveness.

Forecast of the Weather.

WASHINGTON, D. C., Oct. 29.—S. P. M.—The signal service reports the following as its forecast for the next 24 hours: For Wisconsin and Michigan: Clouds, with light rain or snow; north westerly winds, becoming variable, and slightly warmer by Friday morning.

## A GEORGIA EXECUTION.

Tom Woolfolk Pays The Penalty For The Bloodiest Butchery In The History of Crime.

THE CONDEMNED MAN MAINTAINS HIS INNOCENCE TO THE LAST.

Convicted Twice of The Murder of His Father, Stepmother and Seven Others on The Morning of August 6, 1887.

HANGING OF TOM WOOLFOLK.

PERRY, Ga., Oct. 29.—Tom Woolfolk was hanged in the county jail here at 1:30 this afternoon for the commission of crimes that are not equaled in the bloodiest page of criminal history. Just before dawn on the morning of August 6, 1887, in Bibb county, eleven miles from Macon, nine people were brutally murdered by a single assassin: The victims of the awful butchery were Captain Orchard F. Woolfolk, Sr.; his wife, Mrs. Mattie Woolfolk; their children, Richard F. Jr., aged 20; Susan Pearl, aged 17; Annie, aged 10; Rosebud, aged 7; Charlie, aged 5; Mattie, aged 18 months, and Mrs. Temple West, aged 84.

DESCRIPTION OF THE MURDERER.

At that time Woolfolk was 27 years of age. He was about the average height, compactly built, but not stout, with dark hair and eyes and a black mustache. His expression was rather boyish than otherwise. He had always been of a sullen disposition and made few friends. His dislike for his stepmother and her children was known, and he had been heard to say that he ought to have the old man's property and he intended to have it some day. Woolfolk was charged with the murder of the nine members of his father's household by the coroner's jury and in December, 1887, he was brought to trial in Macon before Judge Gastin, of the Bibb county superior court. The

THEORY OF THE DEFENSE.

was that a crazy negro of the neighborhood had committed the crime, but the theory failed and was practically abandoned before the trial ended. The jury found Woolfolk guilty after being out but a few minutes, and he was sentenced to death. The supreme court granted a new trial, however, and in March 1889, he was tried at Perry, Houston county, a change of venue having been granted because a jury could not be secured in Bibb county. Again Woolfolk was convicted. Another appeal was taken, but the supreme court sustained the court below and he was finally sentenced to be hanged at Perry, October 29th. Woolfolk maintained his innocence through his three years' imprisonment, and up to the time of the execution. He never betrayed emotion of any kind. When he spoke of the crime he denied that he did it, but seldom expressed regret for the death of his relatives.

HURLEY HAS A HUGGER.

A Fellow Who Lavishes Huge and Endearing Words on Unprotected Ladies.

HURLEY, Wis., Oct. 29.—Hurley has developed a "Jack the Hugger" whose attentions have aroused mingled hope and fear in the breasts of Hurley damsels. The fellow has a way of sneaking up behind unprotected ladies and hugging them forcibly, at the same time lavishing terms of warm endearment upon them. A number of husbands, big brothers and lovers are on the war path, looking for "Jack the Hugger."

HORRIBLY MANGLED.

Body of a Brakeman Picked up on The Chicago, Milwaukee & St. Paul.

MILWAUKEE, Wis., Oct. 29.—An incoming Chicago, Milwaukee & St. Paul passenger train found the horribly mangled body of a man lying on the track near Brookfield this afternoon. The train men identified the body as being that of Frank Fallon, a brakeman on a gravel train. Fallon probably fell between the cars of his train, which passed Brookfield a few hours before. The body was brought to Milwaukee, and was taken to the morgue.

AMICABLY SETTLED.

Trouble in Western Union Office at St. Louis Adjusted—Operators Desert Brotherhood.

ST. LOUIS, Oct. 29.—The trouble which has existed here for the past few days between the Western Union telegraph operators who are or were members of the newly organized Brotherhood of Telegraphers and the Western Union company has been amicably settled. The members of the St. Louis lodge held a meeting to-day and it was officially announced that preliminary steps had been taken to dissolve the local lodge.

CAUSED BY POLITICS.

Lawrence Roach, of San Francisco, Shot and Instantly Killed by James Allen.

SAN FRANCISCO, Cal., Oct. 29.—Lawrence Roach, a republican, was shot and instantly killed by James J. Allen, a democrat, last night on Fourth street near the Tahama. The killing was the result of politics. Allen caused a number of voters to be called to appear before the election commissioners; and when Roach met him last night he was accused by Roach of being an informer.

Kentucky Farmer Murdered.

ADAIRVILLE, Ky., Oct. 29.—George W. Crim, a wealthy farmer and prominent citizen of a neighborhood about six miles northeast of here, was found dead near his residence yesterday afternoon, his body riddled with buck shot. Crim was a very positive and aggressive man and had many enemies among his neighbors. No clue to the murderer has yet been discovered.

MARQUETTE, MICH., OCT. 30.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

THERE was some anti-Bennett law democrats of Ashland county, Wisconsin. The chairman of the democratic county committee there, Mr. Thomas Cudihay, has come out in favor of the law, and will vote for Hoard and the rest of the fellows who are holding up the "little red school house." Mr. Cudihay's determination to stand by the Bennett law has raised him to a tremendous altitude in the estimation of the republican party in his state, but his former political associates are free to confess that he is no great shakes, and pretend to be immeasurably disgusted to discover that they happened to stumble on that kind of a man for their chairman of their county committee.

AT LAST one French duel has been fought that had a fatal termination. What gives added sadness to the unfortunate affair is the fact that the victim of the deadly bullet in the case was a journalist. It is possible that the chap who manipulated the pistol that dealt death to the unsuspecting newspaper man "didn't know it was loaded," but he will forever stand under the imputation of having taken an unfair and ungentlemanly advantage of his late adversary under a code which, when properly observed, brings both the principals from the dueling ground with their honor fresh-laundried and their anatomies intact. An amendment of the regulations of the code to provide against the possibility of similar misadventures in the future would seem to be demanded, if the duel is to continue to be the accepted method of settling personal difficulties between high-bred French gentlemen.

IT WAS given out a few days ago that Mr. Peters, the insolvent Manistee lumberman, would have a nice fortune remaining after his affairs were closed up, but later advices state that instead of there being a prospect that there will be anything left for him when all the claims against him are paid, the unsecured creditors will not get more than twenty-five cents on the dollar. Mr. Peters has acted with the utmost honor in the matter, everything that he owned having been placed at the disposal of the assignee, and it will be widely regretted that his financial entanglement is so serious as it now appears to be. He will have to begin the battle of life anew at an age when he should be in a position to spend his days in ease and comfort, and would be but for the fatal ambition to increase an already immense fortune that possessed him. His career and his unfortunate ending carries a moral for others whose appetite for riches grows as their wealth increases, and who are habituating themselves to take gambler's chances in business ventures without having even the poor excuse of the gambler's necessity.

THE English papers speak with grateful appreciation of the reception and treatment given the members of the Iron and Steel Institute of that country by the people of the places visited by them in the United States. The Iron and Steel Trades Journal, printed at London, observes of their visit to this country that it "has been a most successful one, and the visitors have seen much to interest and instruct, and in many instances much to surprise, in the progress made in the coal and iron industries of America." The same paper alludes to the sensational account of the trivial mishap that the train carrying the excursionists experienced at one of the Gogebic towns, where a couple of coaches were derailed, which was wired to the daily papers of this country, and which reached England in such an exaggerated form as to create "consternation" among the friends of the visitors. This was a sample of American newspaper enterprise that we have not especial occasion to feel proud of, but it may be useful in enabling our British friends to make due allowance hereafter for the coloring that so many American papers are accustomed to give their news matter.

IT IS not alone the iron and steel manufacturers of Pittsburgh who deplore the prospective return to the use of coal fuel in Pittsburgh furnaces and mills. The people generally are also disquieted by it, but for quite another cause. They are not worrying over the extra cost, but the prospect of having the town again shrouded in a pall of smoke after the exemption from that annoyance which they have enjoyed since the use of the gas came become common appeals them. Speaking of the matter, the Chronicle Telegraph, of that city, says:  
Many iron works are making preparations to return to the use of coal as fuel, and are long the dense clouds of unconsumed carbon will once more hang over portions of our city. This is to be regretted, but there is still reason to hope

that before long an artificial gaseous fuel will be manufactured and supplied to our mills at a cost which will render it more economical than coal. Meantime smoke consuming devices should be adopted, and thus much of the waste incident to the burning of coal under old conditions saved, as well as the grime accompanying its consumption prevented.

IF the Pittsburgh people are driven to discover a method of manufacturing a gaseous fuel that will be as unobjectionable as natural gas and at the same time cheaper than coal, the whole country will bless the day that imposed on them the necessity of seeking it. That is something we are all yearning for.

THE editor of this paper is in receipt of a communication from a resident of Escanaba who signs himself "subscriber," mildly criticizing it for what it has said concerning the aggressiveness of the Mirror, of that city, in its attacks on the A. P. A. The writer states that he is neither a democrat nor a "Romanist," but wishes to say that the Mirror has not told anything but the truth about the A. P. A. crowd in Escanaba, and he sends a copy of the "Loyal American," a sheet printed at Chicago and taken by the members of that society there, to show what a detestable thing the order is, and what bigots persons belonging to it must be. Judging from the copy received, this paper feels no hesitancy in saying that the "Loyal American" is a most vile and un-American publication, and that no one who is not saturated with bigotry would care to be caught carrying it home from the postoffice. The Mirror has charged that Postmaster Stephenson, of Escanaba, who is a relative of Congressman Stephenson, has busied himself in organizing the Escanaba branch of the A. P. A. If so, he is unworthy to hold an office that brings him into close contact with persons of every religious faith, as well as of all shades of political belief. If there are other persons in that city holding public positions who are connected with the miserable, mischief-breeding order, the sensible and patriotic citizens of the place ought to be able to properly rebuke them for their stupid liberality. The MINING JOURNAL has been of the opinion that the Mirror over-estimated the importance of the movement instituted by the small-souled creatures who organized the A. P. A. in its city, and is loth to believe that any citizen of Escanaba whose influence in the community is worth considering belongs to it, but it may be mistaken. No such order could obtain a decent foothold in Marquette, and a representative sent to Ishpeming to organize a branch of it there met with no success. If Escanaba is so far behind the cities of this country in the standard of its citizenship as the Mirror and our correspondent would have us believe, all the worse for Escanaba. It is, in that case, a promising field for missionary effort, whose benighted condition will excite widespread sympathy, and something should be done to educate its people to a higher conception of the true functions and duties of citizenship than they appear to entertain at present.

THE Duluth Tribune thinks that Editor Doyle, of the Gogebic Advocate, ought to be "disciplined" by the newspaper fraternity for having established a bad precedent by permitting rude and irreverent persons to buffet him with impunity whenever they feel inclined to indicate in that expressive manner their disapproval of his editorial utterances relative to themselves or their friends. The Tribune discusses the manner in a profound editorial, the tenor of which may be inferred from this brief extract therefrom:  
It reflects great discredit on the profession in general, when an editor gets licked three times in one year. It is hard to see how we can avoid making an example of Mr. Doyle. It is all right for an editor to get slugged once. It is a part of his experience, perhaps, and an era in his life. In aggravated cases he may have to take a second drubbing. But as long as dynamites, nitro-glycerine, Gatling guns, torpedoes, and armored battle ships exist in the world, there should be some means of rebuking an editor who permits anybody to give him slugging number three.

THE MINING JOURNAL will not say that the Duluth paper suggestion is not one that merits the consideration of the fraternity, but begs to call attention to the circumstance that Doyle has already had three trying experiences, and that there may be a limit to the amount of punishment which even a Gogebic editor can endure. But it might be well to warn him that he must in the future either not provoke people to trounce him, or make a fight when they undertake to do it. If he can't be valiant with his fists, let him be more cautious with his pen.

### GEN. ALGER HEARD FROM.

General Alger furnishes the Detroit Tribune with a communication bearing on the McElroy charges against Mr. Turner, which makes good reading at this time. The general says:  
The controversy between Mr. Turner and Mr. McElroy has been waged with so much personal feeling that it seems to me, in justice to all parties, I should state the following facts:  
During my term as governor, extending through the years 1886 and 1888, Mr. McElroy was superintendent of the school for the blind, and had been for several years previous, and Mr. Turner was one of its trustees.  
During those years I visited the school

many times, finding Mr. Turner there frequently, and I think Mr. McElroy almost invariably, as was his duty to be.

I discussed the question of needless expense in keeping up Mr. McElroy's residence at the expense of the state, which was separate from the institution, several times with Mr. Turner at the latter's suggestion, he saying frankly he thought there had been a mistake made in erecting that building. I agreed with him in what he said, but of course the building had already been completed and occupied by Mr. McElroy.

During those two years, Mr. McElroy never said one word to me criticizing Mr. Turner, nor did Mr. Turner criticize Mr. McElroy, except that the latter was inclined to be extravagant. I supposed from what I saw that they were personal friends.

If Mr. McElroy knew of the wrong doings of any member of the board (and if one was guilty all must have been), why, as a servant of the state, did he not make the facts known to the governor of the state?

I am not aware that at any time during the construction of the buildings Mr. McElroy ever made a complaint against a member of the board, as was his duty if a cause existed, he being a public employe, and, according to his own statements, was cognizant of the facts during that time. Does he not at least convict himself?

Why did not Mr. McElroy make his complaint, if a cause existed, to Gov. Begole, my immediate predecessor, who was governor during the greater part of the time of the construction? I am sure the governor would have attended to any matter deserving attention, very sharply, had it been brought to his notice.

Both Mr. and Mrs. Turner were devoted to that school as though it had been their own family, and should receive the thanks of every person in Michigan for their work connected with it.

It seems to me cruel beyond expression that such malignant attacks should be so persistently made, to try to blacken a man's character and blight his home, as is being made upon Mr. Turner.

I have had much dealings with him in the past three years, and have always found him honest and standing by his agreements to the letter. I do not believe the people of Michigan will, by their votes, endorse these attacks.

### Nursing as a Noble Work.

There are many women entering the profession of nursing whose sense of honor is not high, and whose appreciation of the dignity of labor is not great, but who see in nursing either the means of gaining a livelihood or a way to escape from the rather dull and petty routine of a single day's life at home. They like the idea of doing a noble work and the independence which is essential to it, but are unwilling to do more work than they can help to attain their desire.

There are, however, other women who, in taking up nursing, often as a means of livelihood, do so with the highest motives, and who, in rendering themselves independent, have at the same time the great pleasure of helping others in their struggle through life. From this class come all our best matrons, sisters and nurses, and to them is due the high position nursing holds as a profession for women.—Murray's Magazine.

A fortune awaits the inventor of an automatic dish washer. It was thought the problem would solve itself when, a few years ago, some genius invented paper basins, platters and bowls, but neither the paper nor the pine crockery filled the bill, and half the world is still wearing her life away scraping pans, scouring kettles and washing and wiping glassware and porcelain.

The young bicyclist he's in his bed,  
Not for him is the spring sun shining,  
He has been flung and is sore in body and head,  
But Salvation Oil will make him smiling.  
"I've got it at last," said a fellow who found his cough subdued by a bottle of Dr. Bull's Cough Syrup.

Woodward the piano tuner for reliable work (8-27-90)

### Deafness Can't Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing is lost forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.  
E. J. CHENEY & CO., Toledo, O.

### REMARKABLE RESCUE.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was.—Free trial bottle of this Grand Discovery at H. H. Stafford's Drug store, large bottles 50c. and \$1.00.

### A Fortunate Woman.

Mrs. Mary L. Baker, of Ovid, Mich., has reason to be very thankful. She was a great sufferer from heart disease for years. Was short of breath, had hungry spells, pain in side, fluttering, faintness, etc. After taking two bottles of Dr. Miles' New Heart Cure, she says, "I am better than for 20 years. My mind and eyesight have improved wonderfully. I advise all persons thus afflicted to use this great remedy." H. H. Stafford & Son, druggists, recommend and guarantee Dr. Miles' work on Heart Disease, containing marvelous testimonials, free.

### 100 Ladies Wanted.

And 100 men to call on any druggist for a free trial package of Lane's Family Medicine, the great root and herb remedy discovered by Dr. Silas Lane while in the Rocky Mountains. For diseases of the Blood, Liver and Kidneys it is a positive cure. For constipation and clearing up of the complexion it does wonders. It is the best spring medicine known. Large-size packages, 50 cents. At all druggists.

### Miles, Nerve & Liver Pill.

An important discovery. They act on the liver, stomach and bowels through the nerves. A new principle. They speedily cure biliousness, bad taste, torpid liver, piles and constipation. Especially for men, women and children. Constipated, indigestion, nervous, & diseased for 25 cents. Samples free at H. H. Stafford & Son.

## BIG DYNAMO RUNS WELL.

New Westinghouse Incandescent Machine Moves Off Without a Single Hitch or Kick.

### CHARACTERISTICS OF AMATEUR ACTORS NEATLY HIT OFF.

Most Enjoyable Performance at Snow Shoe Club—Winter Fairly Opened—First Snow Fall—General City News.

**Plenty of Incandescent Lights Now.**  
The new 1,500 light incandescent dynamo furnished illumination for users of that variety of electric lamps last night and the improvement in the lights was quite noticeable. The old dynamo was notoriously overloaded and this caused the lamps to burn dim at times. The new machine is amply able to carry all the lamps now in use and many hundreds more. The smoothness and perfection with which the new dynamo is working is no small compliment to its manufacturers, the Westinghouse company.

As soon as daylight yesterday permitted shutting off the current the work of setting up the new machine began. Superintendent Wilson of the electric plant, Mr. Cook, the expert from the Westinghouse company and several assistants worked hard and fast. The task was no small one, involving as it did the removal of the old machine, which weighs nearly five thousand pounds, and the setting in its place of the new dynamo, weighing over five tons, and all the necessary changes in shafting, pulleys, belts and wires. At 3:50 p. m. the last connection was made and the work pronounced complete.

The real hero of the evening was Francois, alias, Ambrose. The traditional thunder-bolt and clear sky combination, used as an illustration, hardly does the situation justice, when, in response to a call for "Ambrose," Mr. A. O. Jopling stepped into the ring, with a face blacker than the actor's, and calmly stood in broken order awaiting instructions. When the audience took in the situation it gave him four rounds of applause which he bore with christian meekness and never cracked a smile.

### The First Snowfall.

Yesterday brought the first snow of any importance here and the end of the blustery day saw the earth white with the flakes. It was a disagreeable day out for pedestrians, the sleet and snow turning to slush as it fell, but the children were delighted and genuine Lake Superior people welcomed the white flakes as the sure prelude of bracing winter. The snow fall here was about two inches but reports from the neighborhood of Ishpeming indicate that much more came down there. A number of railroad men report the snow as ankle-deep up the road. In the region about Munising the down-fall was probably greater still as that section has the reputation of getting the heaviest snows of the upper peninsula. Snow continued to fall during the night. As Sergeant Dent says "snow" for to-day only a good freeze is needed to bring winter comfortably in. With crisp, dry snow below and pure air and bright sunshine above the inhabitants along Superior's shores obtain a rest and enjoyment of life unknown to the catarrhal denizens of more changeable and less favored climes.

### Serenaders Come to Grief.

A number of acquaintances of Homer Cowden thought to celebrate his marriage to Kate Gorman last night by a serenade. Many of them were railroad boys, comrades of the groom, and no particular harm was intended. So they organized a band of horns, cow-bells, drums and banjos and started for the house. Several choice selections were rendered when the brother of the bride appeared. The bridegroom was demanded but was not produced. Then the orchestra started in to torture "Annie Rooney" but in the midst of the music the bride's father slipped out from the back door, slugged the band leader in the neck and also threw his shoe, with the foot in it, against the amplest part of the aforesaid chief musician's trousers. The leader struck a 2:10 gait down the street with the bass drum banging at his heels and the other members of the grand orchestra stood not upon the order of their skedaddling but adjourned at once. Afterwards the bridegroom came down town and did the honors and all was well.

### For His Soul's Health.

Martin Welch has been out of jail only two or three days. But Martin got altogether too hilarious and conducted himself in a very disorderly manner. When Marshal Maloney led Martin tenderly away to the cooler to rest and recuperate the latter failed to appreciate the kindness. He smashed the windows of the lock-up and called the marshal names that would not look pretty in print.

Recorder Meads gazed upon Martin with a sorrowful eye and the tender melody of "We've Both Been Before, Many a Time," floated through his brain. "Martin," remarked his Honor, "you are drunk, disgracefully drunk, not only drunk, but extremely disorderly. Your soul is perturbed with bad whiskey, Martin. You will not vote at this election for you will return into seclusion at the county jail for the next thirty days, for your soul's health."

### Died at the Hospital.

A. A. Rouse died at the Emergency hospital Tuesday night from the effects of an operation undertaken to remove a cancer at the root of the tongue. His malady was fatal in any event and several operations were made in the hope of relieving him. In spite of all efforts of the physicians the man failed to rally from the shock of the operations. The dead was about 55 or 60 years of age. He was a Mason in good standing and Marquette lodge, F. & A. M., has taken charge of the body pending instructions from relatives. A brother who lives in Grand Rapids and is a physician there is expected in town to-day or to-morrow.

### On Friday and Saturday.

November 7th and 8th, 1890. Mr. Louis C. Lodell, of the old established firm of Walter Buhl & Co., will exhibit at the Clifton House a very large and handsome line of seal and other fine fur garments consisting of Alaska seal saques, ulsters, jackets, wraps, etc. All kinds of fancy combination fur capes, muffs, boas, ladies' and gents' caps and gloves, rugs and gentlemen's fine fur coats.
