## THE NEW ELECTION LAW.

It Will Receive Its First General Trial in Next Tuesday's Battle of the Ballots.

EVERY PROSPECT OF ITS SMOOTH AND SUCCESSFUL WORKING.

Some of Its Salient Features—Democratic Rally Monday Evening—New Primary Room—General City News.

### Features of the New Law.

The general election next Tuesday will be the first held under the new election law. Many towns adopted the forms of the new law at the spring election but as many others did not some resume of its provisions is timely and of interest. The law is designed to preserve the purity of elections, to prevent fraud or intimidation and to secure a free ballot and a fair count. To this end it is first required that every voter shall be duly registered. Anyone not registered simply loses his vote, as "swearing in" is no longer permitted. If not already on the poll list voters must register to-day. This is their only chance.

The only tickets that can be voted are those supplied by the secretary of state upon requisition of the committees of the several parties. Each political party is required to adopt a distinctive heading or vignette. Counterfeiting tickets or circulating spurious tickets calculated to deceive or mislead the voter, or carrying away or intentionally destroying ballots is punishable with a fine of \$1,000 or one year in the state prison, or both.

Every polling place must be provided with one or more booths or rooms where the voter may prepare his ticket secure from observation. The voter may make such alterations in his ticket as he may desire either by pasters or by striking out and writing in names but such alterations must be made on the official ticket, which is the only one that can be voted.

The republican county committee was busy yesterday sending out tickets to the several cities and towns. Chairman Osburn has issued a circular on the subject of the new law. The democratic committee has probably issued a similar circular and so one is here given for both. This circular reads as follows:

Under the new election law, inspectors are required to keep the booths supplied with tickets and slips that may be furnished. In order to comply with this provision, a reasonable number of tickets should be placed in each booth at intervals during the day as may be needed—not all at once lest they be fraudulently taken from the booth in violation of the law to deprive voters of their right to a proper ballot. [Sec. 11.]

No ticket shall be used or circulated on day of election unless furnished by secretary of state. [Sec. 8.] I send you the regular republican ticket, printed by authority of secretary of state. It has been filed in the county clerk's office. Imitating, copying, or in any manner counterfeiting the ticket is punishable by fine of \$1,000, or one year in state prison, or both. [Sec. 10.]

Any voter who is blind, unable to read, or unable to walk, may be assisted in the preparation of his ticket, and may be assisted to a booth; but the law punishes fraudulent acts and fraudulently inserting names in tickets. [Sec. 11.]

The board of election shall make a regulation limiting the time, not less than one nor more than five minutes, in which an elector may remain in the booth while preparing his ticket. [Sec. 30.]

No further supply of tickets can be had. Any person who carries away, except for his own use in voting, or shall intentionally destroy any ballot is liable to the penalty above mentioned. [Sec. 11.]

The law is admirably calculated to secure its purposes. All tickets being exactly the same in external appearance all chance of learning how a man votes is taken away. Each voter has a private room in which to prepare his ballot and can therefore express his honest convictions without fear. Deception of the ignorant is prevented and the "fine worker" is without occupation. He may buy votes but he can never be sure that the goods are delivered.

Fortunately the evils which the law is designed to prevent have been very uncommon in the upper peninsula. The prosperous workingmen of this region have voted as they pleased. There is no doubt, however, that the law was needed in some parts of the state of Michigan but fallen into the hands of the most progressive commonwealths in adopting it. The law is simple and easy in its operation. The only hitch that need occur may be caused by the failure of the local authorities to provide a sufficient number of booths to accommodate the electors. It is believed that this matter has been remedied to properly and hence the first general election under the new law will move off smoothly and quietly as possible.

**Democratic Mass Meeting.** A democratic rally will be held in the Casino rink on Monday evening. The Marquette City band has been engaged to furnish music for the occasion. Hon. Timothy Nester of this city, Hon. Bartley Breen of Menominee and other speakers will address the meeting upon the political issues to be passed upon by the voters on Tuesday next. Mr. Fred Braastad of Ishpeming, candidate for state treasurer, will also probably be present. Citizens generally, irrespective of party are invited to attend and hear the questions of the day discussed.

It is the duty of every citizen to register and vote. Register today.

**Will Open New Primary Room.** The pressure of children upon the primary grades of the city schools has become so great that the school board has been compelled to open another room. On the north side of town all the primary rooms are full to overflowing. It has been necessary to turn away fifteen children and in one room six children are without desks. It has therefore been decided to re-open at least one room in the old Washington street school. Miss Anna Mitchell has

been employed as teacher. The new desks began to go in yesterday and the school will be opened next week. Just what day the new room will be ready cannot now be determined but the fact will be announced in due time. It is a fortunate circumstance that the school board did not sell the Washington street property, as in that case it would now be necessary to rent quarters.

In this connection it is well for taxpayers to consider the rapid growth of the town and the practical certainty that increased accommodations will be needed within two years. The support and extension of the schools is by far the largest and to all intents and purposes most the only direct tax in this city. It is true that this year \$25,000 has been spread on the tax rolls for extension of water works against \$23,000 for school purposes but that is an extraordinary tax and one not likely to occur again in the next decade, it being estimated that the new pumping engine will afford a sufficient water supply for ten years to come. The school tax then remains the principal item and it is paid cheerfully, the people realizing that lack of proper education is not only a wrong to the children themselves but also a grave wrong to the state, whose future citizens these children will be. It is proper, however, to consider how the people may get the most for their money in this matter of schools. There is well grounded belief that it is the better policy to spend money rather in providing capable teachers and ample apparatus of teaching than in ornate buildings. It is considered better to erect two buildings costing \$10,000 each than one at a cost of \$20,000. School houses should be comfortable, healthful and numerous, that young children may not be compelled to travel long distances. Public sentiment undoubtedly demanded the erection of the Bluff street building and that handsome structure is an ornament to the town. The growth of the city will, however, make it imperative to erect one if not two more school houses in the near future and it is well to consider what shall be the character of the new buildings. Intelligent instruction is impossible when the teacher is burdened with too many pupils. There is no cause for present alarm but it is easy to see that in the very near future over-crowding will again occur. The solution of this difficulty would seem to lie in more teachers, fewer pupils to the teacher, more school houses and cheaper buildings. Let the matter be carefully considered in the light of common sense and then the people will be ready to decide when the hour of decision arrives.

It is the duty of every citizen to register and vote. Register today.

On Friday and Saturday, November 7th and 8th, 1890, Mr. Louis C. Lodell, of the old established firm of Walter Buhl & Co., will exhibit at the Clifton House a very large and handsome line of seal and other fine fur garments consisting of Alaska seal saques, ulsters, jackets, wraps, etc. All kinds of fancy combination fur capes, muffs, boas, ladies' and gents' caps and gloves, rugs and gentlemen's fine fur coats. Mr. Lodell will be prepared to take measurements for new garments, also for repairing and refitting old ones. The line is the largest ever exhibited in this city. Do not fail to call and see this exhibit.
