HOPE FOR THE HOPELESS.

Remarkable Results Obtained In The Experiments With Professor Koch's Great Discovery.

EUROPE HAILS HIM AS THE GREATEST OF ALL GREAT HEALERS.

Extraordinary Demand For The Secret of His Treatment—Thousands of Foreign Physicians Already In Berlin.

PROFESSOR KOCH'S DISCOVERY.

BERLIN, Nov. 15.—Professor Koch holds supreme sway over public interest. The publication of the professor's statement yesterday has intensified the excitement both here and abroad, and from every center of Europe and America telegrams of inquiry are pouring in on Koch, Pfuhl, Gornel, Bergmann and the other medical men who are known to be engaged in treating patients by the new method, Koch's clinic in Albrechtsstrasse, the Imperial Institute, Reiches-Gesundheitsamt, where Gornel and other Kochists are at work are swamped with letters and personal applications. Many medical men, including a number of English and American physicians, have been studying the process under Dr. Levy in the small wards of a private hospital at No. 26 Preuzlauser strasse, where Professor Koch first achieved striking results, with small means. Here, since October, eight prominent cures of consumptives have been in progress. Dr. Levy every morning shows his patients to the visiting physicians and illustrates the peculiar features of the new method as visible in individual cases.

Addressing a group of physicians in his private laboratory, Dr. Levy said: "The remedy not only attacks particularly the lungs and the glands, but rapidly annihilates all tuberculous bacilli with which bodies are infested. We know that the curative matter acts equally upon all groups. The first is to free the organism from bacilli. To attain this end we apply massage at an early stage of the treatment to the glands, joints, etc., affected by tuberculosis, in order to force the bacilli, which have encased themselves in cysts, into the blood channels where we can more easily reach them than where they are in those parts where the circulation is hindered. After the massage and the injection subcutaneous bacilli all that remains to be done in cases of tuberculosis of the bones, is to remove the dead pieces of bone and to restore the general health of the patient."

In order to meet the pressure of cases, another hospital is about to be established in the Alexander platz, where the Hotel Germania is being transformed into wards, having 150 beds, for consumptives.

A REMARKABLE CURE.

Dr. Pfuhl reports a striking rapid cure of lung tubercles. The patient was a man aged 42 years. He had been ill for six years and his case was apparently hopeless. The first injection was made Nov. 5th. The usual symptoms followed after the injection. The increase in fever and sickness were followed by a distinct change in the character of the sputum, and a notable cessation of the characteristics of consumption. Dr. Pfuhl promises the patient that, though it cannot replace the parts of the lung that are gone, the remedy will ensure a healthy retention of the smallest portion left. The secret of the composition of the lymph has been communicated to Professors Bergmann, Fraentzel, Briezer, Levy and other intimates of Prof. Koch here; also to Prof. Wiegart, of Frankfurt; Dr. Rast, chief of the Hamburg hospital; and Prof. Nothnagel, of the Vienna university.

Prof. Nothnagel, addressing the students of the university, said: "We face one of the greatest intellectual achievements in the province of medicines for centuries past. Prof. Koch's discovery has a higher scope than Jenner's, and is perhaps the grandest feat in the history of our science. What inspires me with admiration is not so much the actual discovery as the method of bacteriological research, which must serve as the basis of all future discoveries in that line. The present moment is among the most sublime that humanity has known." The students shared the fervor of Prof. Nothnagel and cheered him to the echo. Prof. Brillroth holds that Prof. Koch's method places it beyond doubt that a remedy will be found before long for cancer, which is still the greatest mystery in medicine, as experience indicates that carcinoma has a bacillary origin.

SCPTICAL OPINION.

The only sceptical criticisms of Koch's discovery come from French medical men. Prof. Bronardel, of the Paris Medical faculty, is reported to have written a letter in which he advises incredulity regarding the efficiency of the remedy until its nature is fully known and scientific proof given of its effectiveness. "Until we know," says Prof. Bronardel, "the composition of the remedy, the history of the experiments on animals and the prolonged therapeutic effect on patients, no one ought to pronounce definitely on the method." M. Pasteur and Prof. Bouchard are said to be withholding their opinion for similar reasons. Their attitude, however, does not affect the medical fraternity outside of France, who have personally watched the progress of the cures by the new system. Prof. Bergmann lectures to-morrow to physicians only on "External Tuberculosis." Dr. Rast will begin the treatment of patients by the new method in the Hamburg wards next week, preparing the lymph in his own laboratory. Prof. Koch has entrusted Dr. Weyl, of Frankfurt, with the treatment of cases in the institute of hygiene there. Prof. Koch is also receiving communications from English and American medical men re-

garding the method of distributing the lymph. Dr. Gornel has received the fourth-class decoration of the order of the Red Eagle. This is the first decoration given in connection with the discovery. The rush for Prof. Koch's statement increases. A quarter of a million copies have already been sold. The publishers refused 10,000 marks for early proofs. The sanitary council of Austria will send two of its members to Berlin to procure the lymph, and will test the treatment in the Vienna hospitals.

AN INFLEX OF DOCTORS.

BERLIN, Nov. 16.—A large number of foreign doctors went this morning to Dr. Levy's private laboratory in Preuzlauser strasse, where Dr. Levy exhibited a number of patients cured of tuberculosis. The Borsen Courier states that there are 1,500 foreign doctors already here. The supply of Professor Koch's lymph has been temporarily exhausted. Professor Koch has suggested that the remedy be called "Paratoloid" in prescriptions to be handed to chemists.

ATTACKED BY A LUNATIC.

An Iowa Farm Laborer Goes Insane and Attempts To Commit Murder.

Marcena Stone and Wife Frightfully Cut With a Hatchet In The Hands of F. L. Pelbean, a Hired Man.

MARSHALLTOWN, Iowa, Nov. 16.—Today a bloody affray occurred at the home of Marcena Stone, a wealthy farmer living four miles southwest of here. Stone has a hired man named F. L. Pelbean. This morning after the chores were done, the farmer and hired man sat down to read while waiting for breakfast. Suddenly and without provocation or warning Pelbean grasped a small blunt hatchet which he held secretly under his coat, leaped to his feet and struck Stone a violent blow on the top of his head. The latter fell to the floor, stunned and bleeding. He assailed repeated the attack dealing six more

BLOWS ON THE HEAD

of his victim. At this juncture Mrs. Stone appeared from another room. Pelbean turned upon her and struck her five times with the hatchet, and would doubtless have killed her but for the fact that her husband rallied and seized him by the throat, keeping him under subjection till the neighbors who had been aroused by the screams of the woman and her two small children, arrived upon the scene. Pelbean then fled, but a number of neighbors pursued him for half a mile and captured him. They then discovered he had cut his own throat with a dull pocket-knife, which nearly severed his wind pipe, but did not inflict, necessarily, a fatal wound. He was brought to town and jailed. He is evidently insane. The physicians say Stone and his wife are dangerously injured, but both will probably recover.

FOREIGN MISCELLANY.

ENGLAND.

LONDON, Nov. 16.—Professor Waldstein has had an interview with the Greek minister here relative to the Delphi excavations. The minister expressed sympathy with the American claim and promised to use his influence to secure for America the privilege of conducting the excavations. The schooner Vine of Love has foundered off the Devonshire coast and six persons were drowned.

GERMANY.

BERLIN, Nov. 16.—The Duke of Clarence arrived here to-day to attend the wedding of Princess Victoria. He was met at the station by Prince Leopold on behalf of the emperor. It is stated that a bill will be presented to the reichstag to grant 1,000,000 marks to Professor Koch.

The organ of the miners in the Bohemian district announces a general strike. Under Secretary Marcard will have charge of the ministry of agriculture until a successor is appointed. The imperial budget submitted to the bundesrath makes the revenue and expenditures balance at 1,134,491,942 marks.

A St. Petersburg despatch to the Borsen Zeitung says that the Bank of England is negotiating with the Imperial bank for £1,000,000 gold.

BRAZIL.

RIO JANEIRO, Nov. 16.—Congress met yesterday. The president's message, after reviewing the work of the provincial government, formally transferred the powers of the government to the chambers. A committee was appointed to prepare an address of congratulation to the president, Dodo da Fonseca. The first anniversary of the proclamation of the republic was celebrated yesterday with fetes and a review of the troops.

IRELAND.

DUBLIN, Nov. 16.—Colonel Turner has just returned from a visit to the district of Skibbereen which Mr. Balfour was prevented by illness from visiting on his recent tour. He gives a very gloomy report of the condition of the district. The inhabitants, he says, are for the most part in a state of abject poverty, especially in Schull, where the greatest destitution prevails.

ITALY.

ROME, Nov. 16.—The Riforma gives a formal denial to the statement that Prime Minister Crispien and Chancellor Von Caprivi at their recent interview arranged for the formation of an international league in opposition to the new United States tariff.

CONFESSES HIS GUILT.

Junior Partner of a New York Brokerage Firm Languishes at Police Headquarters.

PLEADS GUILTY TO FORGERIES AGGREGATING HUNDREDS OF THOUSANDS.

Exposure Due To an Accidental Discovery Made By a Clerk—Firm Forced To Make an Assignment.

BERT SMITH'S DOWNFALL.

NEW YORK, Nov. 16.—Bert H. Smith, the junior partner in the brokerage firm of Mills, Robeson & Smith, at No. 65 Broadway, is a prisoner at police headquarters, charged with over seventy forgeries aggregating \$350,000. Smith has acknowledged his guilt to Inspector Byrnes, and has turned over all his property to W. A. Watson for the benefit of his creditors. The discovery of the forgeries, which cover a period of six years, was accidentally made on Saturday morning by a stock clerk in the employ of Mills, Robeson & Smith. In his confession, Smith says he used the money obtained by his forgeries to reimburse customers of the firm, who had lost money on his suggestions. Before his arrest he

MADE A CLEAN BREAST

of his doings to his associates in the firm. Although the case is not yet complete Inspector Byrnes, aware of the excited condition of the money market, determined to make public the real facts of the case. Smith's method was something akin to that of Bedell, the clerk of the firm of Shipman, Choate & Larocque, who was sent to prison for a long term recently. The loss resulting from Smith's misdealings will fall upon the firm of Mills, Robeson & Smith, which has been in existence since 1872, and which has been held in the highest repute. About six years ago Smith became embarrassed and to save himself adopted the scheme which has led to his downfall.

HIS PLAN WAS SIMPLE.

He would buy seven, eight or nine shares of first-class stock and by adding a cipher raise the order to seventy, eighty or ninety shares. Those he deposited with the firm as a private account and this made his partners responsible. The shares in the course of time he hypothecated with the Union Trust company, the Central Trust company, the Chemical bank, Phoenix bank, Mechanics' bank, Fourth National bank, Nassau bank of Brooklyn and Russell Sage, until the amounts secured reached between \$20,000 and \$30,000 in each case. Smith's forgeries

MIGHT HAVE CONTINUED INDEFINITELY

if Stock Clerk W. A. Watson had not discovered that the figures in a certificate turned in by Smith on Saturday had been raised. An investigation followed and showed that Smith had purchased but seven shares instead of seventy as appeared on the face of the certificate. This led to an overhauling of the books of the firm and then all came to light. At a subsequent conference with his associates Smith made a full confession and then went to his home, No. 204 Columbia street, Brooklyn, where he was arrested. Smith is a prominent church man and a member of several clubs. Knowing that

EXPOSURE WAS INEVITABLE

he sent his resignation to all the clubs previous to his arrest. The stocks which Smith bought were St. Paul preferred, Omaha preferred, Michigan Central, Lake Shore, Illinois Central, Cincinnati & St. Louis preferred, and St. Louis & San Francisco. Some of these were also deposited as collateral with the Washington Trust company and the American Loan & Trust company. Smith's crime is forgery in the first degree, and as he has confessed his guilt he cannot escape a long term of imprisonment. He is 45 years old and a childless widower. All of Smith's forgeries are not a total loss to the firm, as about one-fourth can be recovered. The net loss will be \$270,000. Smith was arraigned at the Jefferson market police court this morning and was remanded.

MILLS & CO ASSIGNS.

NEW YORK, Nov. 16.—Lawyer Walter Logan, of the firm of Deanning, Logan of 41 East Tenth street, who are counsel to the firm of Mills, Robeson & Smith, says this evening that the firm has made an assignment to W. A. Watson to whom Smith yesterday made a personal assignment.

A Disastrous Blaze.

PITTSBURGH, Pa., Nov. 16.—A special from Dubois, Pa., says: The most disastrous conflagration in the history of Luthersburg, a small farming village of about four hundred souls, six miles from here, occurred last evening and destroyed every store but one in the town. The fire broke out in the rear of H. H. Carlisle's grocery store, burning the postoffice building, the office and residence of Dr. J. A. Gregory, B. H. Moore's residence, the general store and residence of J. K. Seeley, the residence and a large hardware store of J. H. Ehinger, in which was the telephone office, and Dr. R. V. Spackman's office and residence. The loss is between \$35,000 and \$40,000, with little insurance.

Literally Burned to a Cisp.

CHARLOTTESVILLE, Va., Nov. 16.—A tailor shop and a grocery store were burned at the University of Virginia at 5:30 this morning. Edward O'Hara, a tailor and an agent of Wanamaker, of Philadelphia, was burned to death. His body was recovered, but the arms, legs and the knees, and head are missing. The fire was of accidental origin.

Forecast of the Weather.

WASHINGTON, D.C., Nov. 16.—S. P. M.—The signal service reports the following is its forecast for the next 24 hours: For Wisconsin and Michigan: Rain; preceded by fair; no change in temperature; variable winds.

Marquette, Mich., Nov. 17.

The launch of the two new 'whalebacks' was successfully accomplished at Superior Saturday.

The report that reaches us about the Parnell case places the Irish leader in a distressing light before the public.

One of the greatest financial failures that has taken place in many years is that just announced from London.

In its weekly report on features of the ore market, the Cleveland Iron Trade Review of the 13th says:

Unless all the signs are at fault, there is good ground for belief that the ore trade is going to experience, during the season to come, a complete change of front.

NEWS OF NEGAUNEE.

The Finger Nails.
 No hand can be perfect when the nails are not properly attended to and well kept. They ought to be most carefully cut with a pair of scissors made for the purpose which rounds them off at the corners. The skin at the base of the nails should be pushed down with a soft towel each time the hands are washed. Never force the skin down with a knife or any sharp instrument. If the above plan is adhered to there is no chance of "rag nails" appearing; they only come when one omits to push down the skin. The nails ought to pass beyond the finger points and not be cut too short. Clean them with a piece of fine flannel well rubbed with soap. This is a far better plan than using a nail brush.

A Pretty Baby Basket.
 I should like to tell how I made a very pretty baby basket at a cost of only a few cents. Procure some stiff pasteboard, cut two eight sided pieces as large as you want the bottom of your basket to be, cover both on one side with pink or blue lining cambric and overhand them together neatly. If desired more delicate, use thin white muslin to cover the cambric. Now cut sixteen pieces to be covered in the same way for the sides, having the bottom of each piece just wide enough to fit on the eight sided piece, and slanting it out toward the top to make the latter about an inch wider than the bottom. After these pieces are covered overhand them together to form a circle, sew the bottom in, add cushions and pockets to please the fancy and cut the top with cord, plaited ribbon or lace. One can make the basket as dainty as she pleases, but as described it is easily enough for a princess. -Cor. Housewife.

The Funds Resulting from the recent Scandinavian church fair being more than sufficient to meet the expense of decorating the Cyr street church of that society, it has been decided to apply the surplus toward similarly decorating the large chapel adjoining. The amount over not being quite sufficient for that purpose, it has been decided to give another fair and festival on Thanksgiving eve to realize the balance required. A meeting of the ladies of the parish was held a short time ago and it was decided that a combination fair and festival would be the best way of raising the desired funds. Already their busy fingers are at work making fancy and useful articles which will be placed on sale, and at the end of the entertainment whatever remains unsold will be auctioned off. The affair will be held in the meeting room, or chapel, as was that recently held, and no admission fee will be charged. Artist Schrottky was occupied all last week putting the canvas in position and coating it with oils preparatory to executing the 12 by 14 feet oil painting of the "Holy Family," which will be the finest piece of artistic work of its kind in the upper peninsula.

Philip B Kirkwood has got out a novel advertising scheme in the shape of a paper named the Negaunee Courier, many copies of which were circulated about town Saturday. A hasty glance at the folio sheet would deceive one into the belief that it was a published newspaper, but an examination discloses a plentiful sprinkling of patent medicine "ads." A few were deceived into the belief that it was the initial number of the much-talked-of new local democratic paper.

Notwithstanding the frequent appeals made to the county board of supervisors and villages south of this place, for needed repairs to the stretch of road between here and Goose Lake, no work has been done on it yet. It is now impassable in many places, having been rendered so by the recent thaw.

J. C. Dougherty left Saturday for a week's pleasure trip among friends in Chicago and vicinity. He will be joined by his son Fred, the MIXING JOURNAL'S former correspondent here, at Milwaukee, and they will make the trip together.

Prof. C. A. Fohmann arrived home from Chicago, yesterday, and will immediately begin work drilling the local musicians who are to take part in the concert to be given by the English Oak band on Thanksgiving eve.

All who have not procured tickets for the J. G. T. club dance should do so at once, as the boys are striving hard to make it an enjoyable social event.

The Negaunee shooting club is having the house on its grounds repaired and the premises about put in order for the shooting match to be held there on Thanksgiving day.

Mrs. Manning, widow of the late Michael Manning, has been prostrated since her husband's death and is not expected to live.

Four saloons in this city now have orchestras in attendance to cheer their patrons Saturday evenings.

The first display of raw and prepared furs ever seen in this city may be seen at the Bazaar to-day and to-morrow.

The D. S. S. & A. railroad new time card went into effect yesterday.

Rev. Langham left for a short visit to St. Paul, Minn., yesterday.

Ladies and Gentlemen:
 You are cordially invited to examine the elegant display of the celebrated Wolf & Periolat Fur Co., of Chicago, at M. C. Quinn's dry goods house. The exhibit consists of the largest stock of furs ever shown in this city, and includes ladies' seal garments of all sizes and styles, capes, muffs, boas, caps, gloves, gents' fur coats, sleigh robes, etc. Mr. S. Philip, the representative of the above named firm, is a practical furrier and will make all necessary alterations to insure a perfect fit while here. Estimates on all kinds of repair work carefully furnished. Remember this exhibit will last two days only, November 17th and 18th. Catalogues furnished on application.

Good Advice in a Nutshell.
 There are four organs in the human body which are vital in their functions and delicate in their structure, and which give us an immense amount of trouble. These are the Heart, Stomach, Kidneys and Liver. If they give us trouble it is because we neglect or abuse them, and of course we must take the consequences. The diseases of these organs are very numerous and often dangerous. Luckily we now have a remedy which has proved just the thing for this class of ailments. It is P-r-u-n-a, a purely vegetable compound, that strikes right at the root of the whole trouble. This preparation was used by Dr. Hartman most successfully in his general practice for years before it was placed before the general public; and it was its remarkable success in his private practice that led him to place it before the public for the benefit of mankind everywhere. As a Tonic it is unexcelled, building up the system weakened by constant toil, either mental or physical. As a remedy for Lung Troubles, such as Consumption, it has accomplished wonders. Its action on the Kidneys is mild and effective. Its use will keep the blood pure. Regulate the Bowels, if necessary, with Mannin. Price per bottle, 6 for \$5. For sale by H. H. Stafford & Son.

ELECTRIC BITTERS.
 This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters the same song of praise. A purr medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood. Will drive Malaria from the system and prevent as well as cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters—Entire satisfaction guaranteed, or money refunded. Price 25c per bottle, 5 for \$1.00 per bottle, at H. H. Stafford & Son's Drug-store.

SICK HEADACHE.
 LOOSE'S RED CLAYER PILLS CURE Sick Headache, Dyspepsia, Indigestion, Constipation. 25c per box, 5 boxes for \$1. For sale by H. H. Stafford & Son.

CHARTER REVISION.

Shipping People Should Interest Themselves to See That The City Charter is Revised.

THE SCHEME TO INCREASE STATE TAXATION UP HERE

Heavy Local Taxes This Year—Program for the Pythian Demonstration—Diphtheria Among us Again.

Charter Revision.

The common council, which will hold a regular session on Wednesday evening of this week, has already appointed a committee on charter revision. The suggestion of the press, that a number of leading citizens be added to this committee, and a charter-revision commission thus formed, is a good one, and should be acted on. There are many things that the city needs which cannot well be secured without material changes in our charter. At the time shipping became a municipality the place was a big mining camp, with some three thousand people—about as large as R. public or Champion at the present time. It's now a city of 12,000 population, and growing rapidly. With increase of population has come increased responsibilities and greater needs, and the common council frequently finds the charter an obstacle rather than a guide. There are many provisions in it that should be changed. The city should have six wards in place of four, and it should be given power to borrow money for necessary improvements, without being restricted to \$30,000 per annum, when at least three times that amount will be needed for several years to come, in order to build a sewer system, complete the city hall and make other necessary improvements.

A board of public works would be a good thing, and there are a number of other changes for the better that might be made. Those who have suggestions to offer should come forward with them now, and not wait till the legislature has adjourned next spring.

The Recent Election.

In matters political there is often more than appears on surface. This is the case in regard to the recent election. The official canvass of the votes shows that Mr. Soper, secretary of state elect, and Mr. Braastad, treasurer elect, received pluralities of about two thousand each, running three thousand behind their foe. What the reason for this was in Mr. Soper's case the MINING JOURNAL does not know, but in Mr. Braastad's case the cause is not hard to find. In the upper peninsula, where Mr. Braastad is known, he led his ticket, and his gains were largest in his own city and county. In the lower peninsula, Moore led his ticket in nearly every county. Personal popularity—for Mr. Moore is an estimable gentleman, and well liked wherever he is known—was not the only reason for this. More work was done, perhaps, for the republican candidate for treasurer than for any other man on the ticket. And why? Because the state treasurer is, by virtue of his office, a member of the state board of equalization, which holds quadrennial sessions. Four years ago the city of Detroit worked a confidence game on the upper peninsula, and managed to get the valuation of the upper peninsula about doubled. The result was so satisfactory in every way to the taxpayers of Wayne county that they have planned to do it again, and the program is to add ten per cent to the valuation of Marquette county alone. Had Detroit succeeded in getting her own man on the board there would have been no trouble in doing this, regardless of the protests of the people up here. This is the true secret of the success in bagging votes that attended Mr. Moore's campaign. It requires but the very briefest consideration to see the injustice of adding to the already high valuation of this county for purposes of state taxation. The principal wealth of this county is in its mines, and the mines already pay a specific tax direct to the state treasurer on the gross amount of ore produced each year. There is no justice in a further increase of the valuation of property in this county for purposes of state taxation. The county is already paying more than its share of state taxes, and it will be a trifle rough if the burden is still further added to.

The Taxes.

The first of December is near at hand, and then taxes will be payable. Assessor Tibor is engaged in making out the tax roll, and property owners will soon be asked to go down in their pockets and fork over the cash required to run the machine for another year. The tax list for this year is \$116,187.77, as against only \$90,192.75 last year. The difference is caused by the amount of bonds maturing, the purchase of new school houses, the purchase of Deer Lake falls, providing additional buildings and companies for the fire department, and by improvements generally. So far as can be learned, there is little dissatisfaction with the assessment, as but three complaints were made to the board of review while it was in session last June, and changes of less than five thousand dollars all told were made in the assessor's list by the board.

At three o'clock this afternoon members of Zenith Division No. 42, U. R. K. of P. will meet at the Armory, in full uniform, to escort the arriving delegations to the Armory and quarters. The delegation of Uniformed Knights in attendance will be from Saint Ste. Marie, Manistique, Ironwood and Marquette, while there will be knights in attendance from half a dozen other peninsular towns.

At eight o'clock this evening there will be a regimental meeting at the Armory, when the Fifth Regiment of Michigan, U. R. K. of P. will be organized, commissioned and officered. Following the business at the Armory, there will be a banquet at the Urban House at which there will be a surfeit of good things, liquid and solid. The Knights never do things by halves, and

so, consequently, the banquet will be one of the finest ever given in Ishpeming.

At nine o'clock to-morrow morning, knights will report in full uniform at the Armory, preparatory to the parade. The following line of march has been adopted:

From Armory south to Division street, west on Division to Pine street, south on Pine to Lake Superior office, counter-march and right oblique to Main, north on Main to Euclid, west on Euclid to Oak, north on Oak to Ely, east on Ely to First, south on First to Canda, east on Canda to Main, south on Main to Armory.

Following the parade there will be a review by General Hastings and staff. It is expected that there will be nearly 150 swordsmen in line.

Diphtheria.

Typhoid fever and diphtheria we have with us a large portion of the year. The fever is due principally to lack of sewerage, but the diphtheria apparently comes because it has a fancy for this locality. At present there are a number of cases here, but the disease is not epidemic, and is apparently under control. Two children of Mr. Joseph Winnen the city treasurer, died of this dread malady last week, and there are other cases, but no breaks out rigorous measures are taken to prevent its further spread, and these are usually successful. As there are always a number of outbreaks each winter, parents should exercise more care in watching their children, to guard against both infection and catching cold.

He Was No Idiot.

Cheery John Maclean made his first appearance in London at the Surrey somewhere about 1831 as Peter Purcell in "The Idiot of the Mountain." Shepherd and Creswick were the managers of the theatre then, and Maclean was standing one day at Rockley's, when a kind friend pointed out the newly engaged actor to Shepherd, who, having been ill, had not yet seen him.

"You're playing in my theatre, Mr. Maclean?" Shepherd bawled. "I'm playing in 'The Idiot of the Mountain,' sir," Maclean replied half timidly. "Glad to hear it, sir; glad to hear it!" Shepherd exclaimed; "you're not the idiot, surely?" "No, sir," Maclean answered with a serious face, "the manager who engaged me is the idiot."—San Francisco Argonaut.

Delicious Indian Tea.

As you near Durjuling you find many of the hard woods of our American mountains, the rose begins to bloom, and there are tea plantations by the hundreds of acres. The tea of the Himalayas is the best in the world, and I would advise American housekeepers to try the Indian tea. There is a tea in Tibet which has the flavor of mint, to such a degree that when used it has all the properties of Jersey cream. This Himalayan tea has the flavor of flowers. It is pure and clear, and it is supplanting the Chinese tea in the English markets.—Frank G. Carpenter's Lecter.

Pin Money.

I've heard a good many explanations of the term "pin money," as applied to the periodical dose given by husbands to their wives, but nobody yet has hit on a theory I have long cherished.

What is that? The place where a woman's pins are always put for safe keeping while she is getting ready to use them is her mouth. Do you see the logic? The more pins the less talk. So an ancient trick has passed, as it were, into a proverb.—Kate Field's Washington.

The Coming Woman.

Mrs. De Style—What is the matter with that poor girl? Bystander—We don't know, mum. She just lays there helpless, and can't stand up at all, mum.

Mrs. De Style—Poor thing! I presume her corsets are too loose.—New York Weekly

WHY NOT SETTLE FOR CASH?

Grocerymen's Attention Called to Evils of Credit by Inroads Made on Their Trade.

ONE MILWAUKEE FIRM SELLS \$1,000 WORTH PER MONTH HERE.

His Customers Say They Save Money—Grocers Claim That Hard Cash Does It.
General City News.

Should Try a Cash Basis.

The other day it accidentally came to the knowledge of a MINING JOURNAL reporter that one agency alone was forwarding from this city a monthly average of \$300 to one Milwaukee firm for groceries. That is to say the people of Marquette are buying outside groceries to the extent of probably \$800 to \$1,000 per month. There are two offices here where express money orders are sold, the postoffice and three banks. It will therefore readily be seen that if one of the six money forwarding agencies and that not the most important, sends out to this one Milwaukee firm \$200 per month, the total paid by Marquette people cannot be for from \$1,000 per month.

This state of things appeared to the reporter to indicate a bad condition of affairs somewhere. The majority of persons would decidedly prefer to patronize home merchants unless they find it decidedly to their interests to do otherwise. The question then was, why does so much money go out of Marquette for groceries when the stores here carry extensive and well-assorted stocks?

Information was first sought from the buyers and several patrons of this Milwaukee firm were interviewed. The general reply was "It is cheaper. We can buy our supplies for less money and pay the freight than we can buy them here. We would prefer to patronize home merchants but the grocery men of Marquette want too much profit. Have you ever heard of a Marquette groceryman falling who stuck to legitimate business? Yet that trade sees frequent failures elsewhere."

One young married man who has a comfortable, but not large salary, went into details a little more. "I find after a series of careful experiments and calculations that I can save 15 per cent on my yearly bills by buying every article I can of food for myself and family outside of this city and in Milwaukee. You have a pretty good idea what my salary is and if you want to know precisely figures I will show them to you. Here are summaries of my table expenses for two periods of three months each. By comparing these you will see that I save by buying groceries outside very close to \$75 a year. That is, I save over three weeks wages. This you can easily see, is a very pleasant addition to my income."

Half a dozen grocers were then seen and a statement of the facts laid before them with questions as to the cause. At first some seemed inclined to treat the matter lightly and laid it to fashion, instancing the notorious habit of certain ladies of this city of sending below for dress goods when by insisting upon getting them here they could soon have larger assortments than now carried by any firm in the city and be made as good prices. They were soon shown, however, that while this argument might do in the case of the wealthy and fanciful and their clothes, it did not apply to people in moderate circumstances and their food supplies. The latter are standard, the country over and a comparison of prices in detail in the matter of canned goods was a clinching argument.

Space will not permit the reproduction of all the talk of the various grocerymen of this city. When all side issues were cleared away and the question presented squarely one and all substantially agreed upon this statement:

"If everyone would buy in as large quantities of us as they do of this Milwaukee firm, if they would pay cash on the nail, we could afford to sell just as cheap as they can in Milwaukee. In fact we could sell a trifle cheaper. The Milwaukee man must make his profit and we must make our profit. But by bringing goods here in a lump for one hundred families you can easily see that our freight charges would be less proportionately than would be paid by those hundred families ordering separately. A strictly cash business is what we need in Marquette."

"Then why don't you do a strictly (c) business," asked the reporter.
"How can we? There are firms here that have enormous accounts outstanding. Many of our best customers and surest pay never have current money to settle their bills. If all the grocerymen in town would agree to a cash basis we could do it. But one alone cannot. We should lose half our trade. There are many men here whom we carry through the winter when work is scarce and they pay up in summer when work is plenty."

Such was the burden of the song all around. There are undoubtedly obstacles in the way, but the grocerymen, if they are alive to their own interests, will take active steps to overcome them. It is a serious thing that there should go out of this town to a retailer 300 miles away enough money each month to maintain a well stocked store here. And this outgo will not diminish; it will increase. The credit system is an injustice to the cash buyer who is overcharged to make up for other people's failure to pay. This enterprising Milwaukee grocer's business extends all over the upper peninsula and Wisconsin. He employs thirty clerks. He gives good goods and saves money to his customers. Every day brings its receipts in hard cash. He can buy to the best advantage and is accumulating a fortune. All this is because the grocerymen of Marquette and fifty other towns lack the backbone to say "cash or no goods."

One thing that retards Marquette's growth is the reputation it has of being a very expensive town to live in. It is

than it ought to be. The chief and primary cause of this over-expensiveness is the baneful credit system prevailing in all lines of retail business. Let us get down to a cash basis.

One Runaway Recaptured.
James Peters, one of the two convicts who legged it away from the prison Friday afternoon was recaptured yesterday morning at Champion. He was hiding in a barn when discovered and pulled out by the heels. He was brought down the road yesterday and is once more behind the bars. By his captors Peters simply forfeited his "good time" and will have that much longer to stay in prison.
Warden Tompkins said last night that officers were on the track of White, the other fugitive, and expected to run him down in a day or two. White and Peters committed a series of daylight burglaries in Chippewa county and were sent up by Judge Steere for two and one-half years each. They were out in a party of thirty-four convicts working on the clay bank beside the road to the prison when they made their break for liberty.

Work on Life Saving Station.
The life saving station buildings are gradually going up and will be, like most government work, neat, substantial and comfortable structures. They include quarters for the crew and boat house, besides flags staffs, dock and approaches. Mr. Collier, the superintendent of construction for the life saving service, says the work will be finished in about sixty days. There is not such a large amount to do but as they are not required to finish before the opening of navigation the contractors are naturally taking their time. During the winter the crew will be enlisted and the necessary boats and other equipments provided. The past season has been notably free from marine disasters in this vicinity, there having been no occasion for the services of a life-saving crew. But there might have been need of the life boat any day and the establishment of the station here is a wise and humane move.

South Shore's New Time Card.
The South Shore's winter time card went into effect yesterday. Few changes are made in the running of passenger trains. The most important is that of the train from Republic which brings in passengers leaving Chicago the night before. This now arrives at 10:10, instead of 9:10, and starts on the return trip to Republic at 10:40. This has been a very convenient train, both for through passengers and for those having a few hours business in the up-the-road towns.

The train for Sault Ste. Marie leaves now at 7:35 A. M. instead of 7:47. The afternoon train for Houghton leaves ten minutes earlier, at 2:55. The evening train from Houghton and Bessemer arrives at 6:20, five minutes later. No change is made in the other trains.

They Were Disappointed.
Quite a number of persons who expected to see in the Girard minstrels at the Casino Saturday night a variety show such as flourishes in the dives of Hurley were disappointed. The costumes were no more abbreviated than is commonly the case in "Bluebeard" and similar spectacles. The show was not indecent but it was decidedly dull. Britton and Downey make a pretty clever black-face team and Ryan is a good Irish character actor. Hattie and John Leslie gave a lively sparring exhibition but beyond this the entertainment was decidedly sleep-provoking and far from amusing.

\$350.00, \$25.00 cash and \$10 per month will buy a lot in Chicago. Enquire of E. P. Wilbur, room 7, 206 Front street, Marquette. 10-131f
