MANY NEGRO OFFICIALS.

Senator Walthall Contrasts the Treatment of Negroes in the North and in the South.

ONE MISSISSIPPI COUNTY HAS 41 NEGRO OFFICIALS OUT OF 41.

Vest's Canistic Comments on Oregon Legislature's Discrimination in Favor of White Labor—Hoar Scores Butler.

NO NIGHT SESSIONS OF SENATE.

WASHINGTON, Dec. 12.—In the senate to-day a number of unimportant bills were referred from the committees and placed on the calendar, after which Mr. Plumb's resolution for daily meetings at 10 o'clock and for evening sessions was taken up. Mr. Hoar moved to amend the resolution by striking out the clause for evening sessions and making it take effect after to-morrow so as to leave the resolution to provide for the earlier daily meeting. The amendment was agreed to and then the resolution was agreed to without debate.

The resolution of yesterday by Mr. Dolph instructing the committee of privileges and elections to inquire and report whether the right to vote at any election for presidential electors, members of congress, state officers or members of state legislatures is denied to any male citizen of any state, or is abridged, except for participation in the rebellion or other crime, was taken up and Mr. Dolph stated that the reason which had induced him to offer it was that he desired the committee on privileges and elections to give special attention to whether some states had not provided in their constitutions or laws such voting qualifications as were not permitted by section 2 of the Fourteenth amendment to the constitution without an abridgment or representation.

Mr. Vest moved an amendment instructing the committee to inquire further whether, by any state legislation, any citizen of the United States was denied the right to work on any public improvements by reason of color. There was, he said, a right antecedent to and superior to the right of suffrage. That was the privilege of every human being to obey the divine injunction: "In the sweat of thy face thou shalt eat bread." It was the right of self-sustenance, of self-preservation. Mr. Vest read a clause from a recent statute of the Oregon legislature authorizing the building of a bridge and providing that none but white labor should be employed on the work. It might be said, Mr. Vest remarked, that the provision was intended to exclude Chinese labor, but the language of the statute was "white labor," and it excluded the Mongolian, the Indian and the negro. Not one of the 25,000 negro soldiers who fought in the union army could draw a dollar for his labor on a bridge authorized by the legislature assembly of Oregon.

Mr. Dolph replied to Mr. Vest and the discussion drifted into the question of the treatment of Chinamen on the Pacific coast. Mr. Dolph said that he was informed by a senator on his side of the chamber that the senator himself had threatened colored men in his employment that he would discharge them if they should vote the republican ticket.

The resolution then went over without action till tomorrow.

The elections bill was then taken up and Mr. Budgett addressed the senate in opposition.

Mr. Walthall also argued against the bill. In his remarks he referred to the stereotyped petitions in favor of the election bill that have come up from Mississippi and said that the largest number of names to such petitions came from the county of Bolivar. There were more negroes holding offices of the county of Bolivar than in any other county in the south or than in any state in the north. Out of forty-four officials in that county forty-one were negroes. It was a wealthy county where the white people were intelligent and enterprising and yet every colored man who came from the county to Bolivar was treated as a criminal. He mentioned these facts to contrast the treatment of colored people in the northern states in the matter of holding offices. Even in the senate of the United States, where such interest was professed in colored men, there was not one holding an office higher than that of laborer. He declared there was no state where the colored people were happier or more prosperous than they were in the state of Mississippi. The average negro in that state was reasonably content with his condition and realized that it was steadily improving.

When Mr. Walthall closed his speech Mr. Hoar rose and called attention to the remarks made to-day by Mr. Butler stating that anyone who said he had threatened to dismiss colored people from his employment if they should vote the republican ticket was guilty of a deliberate and willful falsehood. He sent to the clerk's desk and had read the official reporters manuscript of what took place and said: "A rule of my life long since formed does not permit me to reply to the senator from South Carolina in such language as he thought proper to utter. Whether I should be guilty of a deliberate and willful falsehood about a matter contained in a public document will be settled in the estimation of those who know me." Mr. Hoar proceeded to read from a minority report made to the house of representatives in 1875, signed by Mr. Lawrence of Ohio, Mr. Banks of Massachusetts, and Mr. Lapham of New York, in which Mr. Butler

is represented to have testified that colored men who did not vote the democratic ticket could not remain on his land. Mr. Jones (Ark.) took the floor on the elections bill, and the senate adjourned.

WILL INVITE THE WORLD.

President Harrison Will Issue World's Fair Proclamation 8-on.

WASHINGTON, Dec. 12.—Thomas W. Palmer, president, and Benjamin Butterworth, secretary of the World's Fair Commission and Ford W. Peck of the local directory called on the president this morning and requested that he issue formal proclamation inviting foreign countries to take part in the fair. They submitted documents to prove that all conditions prescribed by the act of congress had been fully complied with; that grounds and buildings are provided; that the Illinois corporation has secured the required \$10,000,000 and that necessary rules have been prepared. The president assured them that the proclamation would be promulgated as soon as the necessary formalities shall have been observed.

GOMPERS GETS THERE.

Federation of Labor Refuses to Restrict President's Powers.

Lively Debate Over an Amendment to the Constitution—Gompers Pays His Respects to the Socialistic Howlers.

SOCIALIST PAPERS SCORED.

DETROIT, Mich., Dec. 12.—At the federation of labor to-day on the question of the re-adjustment of the executive board and the power of the president the executive board reported back an amendment regarded by the friends of the president as of a restrictive tendency. Mr. McGuire opposed it in a fiery speech as having a tendency to tie the hands of the president and Mr. McBride advocated the amendment in strong terms.

President Gompers arose to a personal explanation of the bill he said he was not affected with "big head" and besides he knew the men on the executive board were not capable of crawling on their stomachs to Sam Gompers. A vote was taken and while it was being taken President Gompers resumed his personal explanation and read the heading of the German New York paper in which Gompers was charged with petty tricks in cutting off debates in favor of Sanial and that every way Gompers was against the social lists. He would ask if these things were true and whether he deserved the abuse. He would not quote socialist papers that said he was a fit candidate for a lunatic asylum. He claimed to have acted impartially but he would not ask the convention to take any action.

On the count of the vote it was found that the amendment did not have the necessary two-thirds vote and was declared lost. This was regarded as a success for Gompers.

WANTS STEPHENSON'S SEAT.

John Semer Will Contest His Opponent's Election.

ESCANABA, Mich., Dec. 12.—John Semer, the congressional candidate on the democratic ticket who ran in opposition to Sam Stephenson, has at last decided to contest the latter's seat. The grounds are alleged irregularities in the northern counties of the district. The leading democrats of this city claim that Mr. Semer has a good chance to unseat Mr. Stephenson and they are doing all in their power to help him get testimony.

LEONARD PERRIN ON TRIAL.

Father of Hurley Bank Robber in the Dock at Oshkosh.

OSHKOSH, Wis., Dec. 12.—The trial of Leonard Perrin on a charge of receiving stolen money began here today. Perrin's son is now serving a five years term in states prison for robbing a bank at Hurley of \$40,000 belonging to the United States Express company and the discovery of evidence, alleged to implicate the father, resulted in his arrest some time ago. The Perrins are a well known and respected family and the trial will excite much attention.

ATTEMPTED MURDER AND SUICIDE.

Louis Scott Wounds His Wife and Shoots Himself.

KALAMAZOO, Mich., Dec. 12.—A sensational attempt at murder and suicide took place in this city last evening. For some time past the domestic relations of Mr. and Mrs. Louis Scott have been very unpleasant. A month ago Mrs. Scott left her husband and went to work in the house of Miss Roberts. Scott went to the house last night, had angry words with his wife and ended by shooting her in the temple and then killing himself. Mrs. Scott may recover.

BANKER PRETTYMAN INDICTED.

His Bank Received Money After Its Insolvency Was Known.

CHICAGO, Dec. 12.—The grand jury this afternoon returned bills of indictment against Banker Prettyman, whose bank went to the wall a short time ago, and against his cashier, C. S. Johnson, on charges of embezzlement. Captives for their arrest were at once issued. The basis of the indictments is the receipt of money from depositors after the insolvency of the bank was apparent.

Forecast of the Weather.

WASHINGTON, D.C., Dec. 12.—S. P. M.—The signal service reports the following as its forecast for the next 24 hours: For Michigan and Wisconsin, fair weather, southerly winds; warmer Saturday and Sunday.

INDIANS ARE FIGHTING.

Factions of Hostile Sioux Amuse Themselves by Killing Each Other at Their Camp.

GENERAL BROOKE SAID TO BE DECEIVED AS TO INDIANS' PLANS.

Put Off With Promises While Wily Redskins Fortify and Provision Their Stronghold in the Bad Lands.

DANGER BY NO MEANS OVER.

PINE RIDGE AGENCY, S. D., Dec. 12.—Tired of waiting for the soldiers to come and get killed, the Indians in the bad lands have begun fighting among themselves. This news was brought in last night by both government scouts and friendly Indians and is reliable. The noble red man has been spoiling for a fight for weeks. Waiting bred disputes, and yesterday a battle took place in the amphitheater of Grass Valley. Two Sioux and his followers circled around Short Bull and his followers all the forenoon, actively skirmishing, each leader bound that his supremacy as high muck-a-muck of the whole gang should be acknowledged. The killed are reported all the way from twenty to forty.

The Indians promised General Brooke that they would come in at once and that they represented all parties camped in the bad lands. The general telegraphed this east, implying that it ended the war. He was told by many who knew the Indian that he was being fooled, but he refused to listen to a word that did not accord with his hopes and plans. The Indian in the meanwhile proceeded with his dances, strengthened his battle ground, filled up the commissary department, received reinforcements from other agencies and now laughs at the white man's way of pushing a campaign and fights just to keep his hand in and to see which chief shall have the honor of leading their forces in case the white chiefs by some mistake should visit the bad lands. The settlers along the Chayenne river appreciate the condition of affairs and are figuring how much apiece their grandchildren will get for the cattle they are losing daily.

MILES DOESN'T KNOW MUCH.

CHICAGO, Dec. 12.—At 10 o'clock to-night General Miles was seen at army headquarters and said that he had not received during the entire day any dispatches of importance from the northwest and had heard nothing beyond what he had read in the newspapers regarding the Indians fighting among themselves.

INDIANS HAVE THE GRIP.

Ghost Dances Are Giving Whole Tribes the Influenza.

PIERRE, S. D., Dec. 12.—Rev. Edwin Phelps, Indian missionary of Hump's band near Cherry Creek, arrived here today. Mr. Phelps states that Hump is not hostile and is very proud since re-enlisting as a government scout, though the rest of the band is still keeping up ghost dances with old-time vigor.

A letter has also just been received saying that a great many Indians who have been keeping up these dances are now coming down with something like the grip; also that lung and throat troubles are taking hold upon them. The dancing naked in the cold weather that recently prevailed was too much even for the toughened savages.

LYALL LOST HIS HEAD.

Intemperate Conduct of an English Consul Causes His Recall.

GALVESTON, Texas, Dec. 12.—Consul Lyall, representing the British government at this place, defended a man named Kelly, an Englishman, convicted of burglary in Houston. His efforts resulted in a correspondence which bids fair to cost Mr. Lyall his official head. On November 28th Governor Ross wrote to Secretary Blaine enclosing the papers in the Kelly case, together with Consul Lyall's letter. In that Lyall used such language as to make it necessary to call the attention of the British government to the matter. Lyall will be recalled.

BIG COTTON MILL BANKRUPT.

Druid Mills of Baltimore Assigns to Protect Creditors.

BALTIMORE, Md., Dec. 12.—The Druid Mills Manufacturing company has made a deed of assignment for the benefit of creditors to Skipwith Wilmer as trustee. The bond filed is \$600,000. The concern is one of the largest cotton duck factories in the country. The Druid Mills have been in operation since 1866 when the first mill was completed and put in operation. In 1872 a second mill building was put in operation as the largest cotton duck mill in the United States, which rank it has since held. The two mills operated a total of 16,000 spindles. They used about forty bales of cotton daily.

MILLINGTON COMES BACK.

Alleged Defaulting Clerk of Courts Denies Intentional Wrong Doing.

MILWAUKEE, Dec. 12.—John B. Millington, ex-clerk of the court, arrived in the city from Denver last night. He had come, he said, to investigate the report that he was \$2,300 short in his accounts and to straighten out matters, which, he said, would prove a very easy task. He will remain until that has been done. In his explanation of how he came to carry away the \$2,300, deposited with him as clerk, he admitted having been somewhat careless, but he denied any intentional wrong.

MARQUETTE, MICH., DEC. 13
Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The lot of the Irish patriot is usually a hard one, but that of William O'Brien is especially trying at this time. He is in the United States working for the Irish cause, while a sentence, rendered since he escaped from the minions of his English persecutors, hangs over him at home, and now his newspaper, United Ireland, has been forcibly taken possession of by Parnell, and will be used by that autocratic representative of a popular movement to launch unsparring denunciations at the anti-Parnellite wing of the Irish party, including Mr. O'Brien himself! Balfour treated O'Brien very badly, but Parnell has used him even worse, for the former only sought to imprison him bodily, while the latter aims to prostitute his paper, and O'Brien's career shows that he would sooner go to prison any day than have his paper turned into an agency for crippling the cause to which he has devoted his life and splendid abilities.

The Detroit Journal prints a Washington dispatch giving the particulars of a political "combine" alleged to have been formed by General Alger, ex-Senator Palmer and Senators McMillan and Stockbridge. By the terms of the compact, as stated, Alger is to have the Michigan delegation in the next national convention, with all the support that Palmer, McMillan and Stockbridge can give him in his struggle for the presidential nomination; Palmer is to be given the nomination for governor, and the two senators are to retain the seats they now hold in the United States senate. The combination, if it has been formed, is a strong one, and has "millions of capital" behind it. But we hope there is no truth in the report. The gentlemen named are all deserving of political recognition, but they should not forget that the republican party of Michigan is made up of intelligent and independent voters, whose political fealty cannot be traded on or subjected to insult with impunity.

It is positively announced that Mr. Semer will contest the right of Representative Stephenson to his seat in the next congress. If Mr. Semer is "in the hands of his friends" in this matter, his friends are handling his interests with lamentably bad judgment. It is not in the least likely that the democratic majority in the next congress will unseat any republican unless it can be shown beyond question that he owes his election to fraudulent work at the polls of which he was the direct beneficiary and had cognizance. Not that the democrats are too honest to make improper use of their power, but they don't need any larger majority in the next house than they are already assured of. Mr. Semer made a very good run, considering the late date of his entry for the race and the strength of the republican party in the district, and ought to be satisfied with that. The MINING JOURNAL thinks he is making an unwise move in engaging in a contest for the seat with the probability that he will secure a favorable decision so slight as it appears to be from what this paper knows of the facts.

THERE has been shipped from Escanaba since the report of shipments from there published last week was received 13,923 tons of ore, and from Gladstone 846 tons, this closing the work at both ports for the season, and bringing the total of lake shipments for 1890 up to 8,160,619 gross tons. Some of the mines are retreating working forces, being actuated to this step by uncertainty regarding next season's demand and prices. The furnace men have given out that they intend going cautiously in the matter of placing contracts for 1891 delivery, and the producers of ore are governing themselves accordingly. They are mining ore to supply demand, and not for fun or glory. If the consumers hold off from making contracts, the producers in the Lake Superior region will meet them half way, and will curtail operations while the market is taking form for 1891 to whatever extent may be found necessary. It is much easier for them to limit production than it may be for consumers to get ore next summer if a strong demand should develop.

DETROIT's common council held an unusually warm session the other night, when "Boss" Jacob excelled all his previous efforts as a bulldozer. The case of the republican alderman whose seat Jacob and his gang tried to steal came up for consideration and one of the democratic aldermen went back on the boss. This roused the rest of that red-faced ruffian to an uncontrollable pitch and he threatened the recalcitrant democratic member of the council with vengeance in the presence and hearing of the president of that body. The proceedings were marked by boisterous conduct and profanity to a disgraceful

degree. Jacob defied the presiding officer, expressed contempt for the authority of the courts and ordered a policeman whom the president commanded to quell the disturbance to go about his business—which that officer proceeded to do by retreating from the chamber with great expedition. The democratic alderman did not dare to start for home until a friend had procured him a revolver. It was a fair exemplification of the condition to which municipal government in Detroit has been brought by Jacob and the crew of brawling rascals that operate with him in the politics of that city and ought to set the better class of its citizens to devising ways and means to rid themselves of a domination so hurtful to its welfare and damaging to its good name.

It is thought that if Miller goes on the supreme bench General Alger stands a show of going into Harrison's cabinet, provided he is willing to accept a place in the president's political household. If this should come to pass it will mean that Alger is out of the presidential race, for the next heat at least, as he could not well be a candidate for the nomination against Harrison after accepting a cabinet position under him. It would also signify that the president intends to seek a second term, as Alger's appointment to a cabinet position would leave no construction other than that the president chooses him with a view to getting rid of a dangerous competitor and securing a valuable ally with one brilliant move. But it might be well not to waste too much time figuring on the probable results of Alger's elevation to a cabinet place until he has been offered and has accepted it. It may be that he considers his presidential chances worth more than even a cabinet position, and then, again, it is not altogether certain that the president intends offering it to him.

WISE IN HIS OWN CONDUCT.
Solomon was a wise man, but he couldn't hold a candle to President Gompers, of the federation of labor, in the soundness of his judgment, if the opinion which this latter illustrious personage entertains of his own sagacity is not unwisely held.
During the recent annual convention of the federation at Detroit, Gompers took part in the discussion over the question of admitting the socialist organizations to membership in the federation, opposing the proposition with such vigor as to anger some of the federation men who favored letting the socialists in. One of these took exception to language used by Gompers, remarking that the latter would yet be sorry for having spoken as he did. Gompers took the floor in reply, and declared that he had no retractions to make; that he was now over forty years of age, and that he could not recall a single thing that he had done or word that he had said in the whole course of his life that he would change or recall if he had the power to do so.

We have it on divine authority that even the just man falls several times daily, but Gompers, on his own statement, is such a preternaturally just and wise man that he has not erred once in a lifetime of over forty years. The federation of labor has a prodigy for its president. It is no wonder that he took it as a serious affront when one of the members of the convention compared him to Powderly for the purpose of enforcing some point in an argument that he was making.

THEY DON'T FAVOR IT.
The alliance scheme "to establish national pawn shops," as some newspaper critic of the project has aptly denominated it, does not find much favor in the eyes of the Minnesota farmers. General Baker, who was the alliance candidate for representative in congress against Lind in the late election, says that three-fourths of the alliance in that state are against the proposition to have the government go into the sub-treasury enterprise endorsed by the alliance convention at Ocala. He asserts that the scheme is not going to find much support among the northern wing of the alliance, and that it was forced through the convention by the southern branch of the organization. He very obviously believes that it will ultimately be dropped, in obedience to the better sense of the great body of American agriculturists, who can be depended on not to give encouragement to so crazy a proposition as that to which the alliance stands formally committed by the action of its convention.

But if the southern wing of the alliance insists on pushing the sub-treasury scheme against the determined opposition that it will meet from the northern branch, how is that going to affect the project of developing the alliance into a great national party? It is known that the farmers of the south are not as thrifty and progressive as their brethren in the north, and it is easy to understand why the proposition to have the government undertake to loan money on farm property and advance it on farm products would meet with favor among the farmers of that section in about the same proportion that it would encounter disapproval among the farmers of the north. If General Baker correctly states the case, there would seem to be danger that the new political power

that has arisen in this country will in time become a house divided against itself, and on sectional lines, though on an entirely different issue from that which has served to keep the north mainly republican and the south democratic since the reconstruction policy adopted by the former immediately after the close of the war broke down under the load imposed on it by the carpet-baggers and their colored allies.

MICHIGAN MENTION.

Mr. Wm. Zeitler, of Republic, traveling agent for the Washington Life Insurance company, was in town a few days of this week soliciting insurance.
Born on Monday, to Mr. and Mrs. Gust Olson, a son, and on Tuesday Mr. and Mrs. Fred Carlson were similarly blessed.
The Michigan mine department held its annual election on Friday evening last, and chose the following officers for the ensuing year: Chief, H. J. Atkinson; foreman, F. J. Lyhane; assistant foreman, C. E. Anderson; hose captain, Larry Hickey; assistant hose captain, John Veil; hook and ladder captain, T. J. Johns; assistant captain, Wm. Harrington; secretary, James C. Donnelly; treasurer, Gordon J. Murray; nozzlemaster, C. O. Stensrud; Ed. Muck, Geo. Hall, Joe Karpinsky.

The tax roll is now in the hands of Treasurer Atkinson, and those who have not yet paid up should call on him at once.
About seventy-five men were laid off at the Michigan mine on Monday last, which leaves only about fifty men working underground.

Amos Soladin, the Champion piano agent, was in town yesterday and closed a bargain for a fine piano for the new Odd Fellows Opera house, which will be on hand at the grand opening January 1st.

The public school was closed yesterday, the teachers being at Ishpeming in attendance on the teachers' meeting there.
The several Sunday schools are now busy preparing for Sunday school entertainments on Christmas.

Professor Hughes' dancing class will not meet this evening, as Mr. Hughes finds it impossible to be present.

Too Much Turkey Egg.
A party of Jacksonville mechanics were at work on the Matanzas river raising a sunken dredge boat. They lived on board of the lighter on which they worked in a small house on the deck. One noon their bill of fare was somewhat strengthened by some wild turkey eggs which had been found by some of the party while hunting on shore. After the hungry engineers had destroyed a heavy dinner they left their dining room and returned to work. The doors and windows were all open, and the cook did not clear of the table for some time.

In this interval a large water moccasin of nearly six feet crawled on board the lighter and wriggled into the dining room through the open door. In his prospecting tour he climbed the table leg, and here, with a snake's fondness for eggs, he went in for a feast. One of the turkey eggs lay alone by a plate, and the rest were in a dish on the other side of the table. In the center stood a large water jug, and right here the wily serpent slipped up.

After swallowing the lonesome egg he started for the main supper, and in his artless manner crawled through the handle of the jug. It was a rather tight fit, and he had to stop about half way through on account of the egg, which enlarged him somewhat. So stretching forward he bolted another egg, and thereby fastened himself.
On one side of the handle was an egg on his inside, and he could move neither backward nor forward, practically riveted in position. He was soon found in this peculiar situation by the cook, who speedily killed him.

The reporter was shown the skin of the snake with a crease still in the middle from the tremendous pressure, and he was also permitted to creep on the jug whose handle proved so fatal.—Florida Times Union.

WHY DO YOU PUTTING IN NEW RAILROAD TIES? I am sometimes asked, "Why do you become of the old ones. A long time ago the company had them saved up and they were burned. But that is not done now. As a rule these old ties are stacked up in the section where they are removed and used for posts. You know we are finding a great deal more posts. These ties are excellent posts. This use is a great saving to a railroad company.—Interview in Chicago Tribune.

Great Success Due to Diet.
Who were the great victors of the Eighteenth century? Voltaire, who lived on much food; Washington, who was spare and abstemious; and at the revolution the people of Paris, who were starving. Stanley greatly explains his success when he says that all he wants is a crust of bread, a mouthful of meat when he can get it and a cup of tea.—Mrs. Crawford in London Truth.

If the Ocean Should Dry Up!
The depth of the sea presents an interesting problem. If the Atlantic were lowered from 6,564 feet the distance from shore to shore would be half as great, or 1,500 miles. If lowered a little more than three miles, say 19,000 feet, there would be a road of dry land from Newfoundland to Ireland.—Ocean.

A False and Stupid Proverb.
There is a bit of proverbial philosophy added to the effect that "a watched kettle never boils." False philosophy, if never taken literally or figuratively. In the one case it is an idiotic superstition, in the other a stupid mistake; in either a humbug and a cheat.—New York Ledger.

BUCKLEN'S ARNICA SALVE.
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, shraped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale H. H. Stafford & Son.

Marvelous Endurance.
The vast amount of labor performed by the heart in keeping all portions of the body supplied with blood is not generally known. It beats 100,000 times, and forces the blood at the rate of 168 miles a days which is 3,000,000,000 times and 3,150,880 miles in a life time. No wonder, then, how many heart failures. The first symptoms are shortness of breath when exercising, pain in the side or stomach, fluttering, choking in throat, oppression, then follow weak, hungry or anorectic appetite, swollen ankles, etc. Dr. Franklin Miles' New Heart Cure is the only reliable remedy. Sold by H. H. Stafford & Son.

Miles, Nerve & Liver Pill.
An important discovery. They act on the liver, stomach and bowels, through the nervous system. They speedily cure a biliousness, bad taste, torpid liver, flatulence and constipation. Splendid for men, women and children. Small, mildest, and most effective. For sale by H. H. Stafford & Son.

NEGAUNEE NOTES

The Lobb Business Block Nearly Ready to Receive Tenants—Successful Social by the Epsworth Club—Wired for Electric Light.

The handsome Lobb block on Gold street is now receiving the finishing touches, and will be ready to receive tenants within a few weeks. The lower story, which is yet in the hands of the carpenters, has been spoken for by several, but Mr. Lobb is yet undecided what to do with it, as he may decide to occupy it himself. The second story is divided into four suites of offices. The front suite is now about finished, and will be occupied by Mr. Boney as an insurance office. There are three rooms, which are lighted by four large plate glass windows. The suite just back of this will be occupied by Mr. Hall, the deputy insurance inspector. These are lighted by two large skylights in the roof, as is also the next suite. Mr. Lobb will himself occupy the back suite. The building is heated by steam and piped for gas. On the second floor at the head of the hall, which extends on the north side the length of the building, are two closets. Every large room of the office suites has a fire place and handsome mantel, surmounted by a large mirror. The front of the building is of pressed brick. In the center of the front elevation, close to the top, is a plain marble stone with the inscription in gilt letters: E. Lobb, 1890.

The basket social given by the Epsworth club at the Methodist church last evening was highly successful. The attendance was large. During the entertainment the church choir rendered some very choice selections. Next Thursday evening a concert will be given at the church by the choir members, to which all are given a cordial invitation.

Mr. Charles Sundberg has just made quite a start in the way of electric-lighting in stores, offices, etc., by having his fine new block in Negaunee wired for nearly two hundred incandescent lights. J. D. La Due, of Marquette, was awarded the contract.

Alexander Maitland and family will start tomorrow for Florida, where they will remain during the remainder of the winter. Their new residence on Main street has been finished, and will not be occupied until their return.

The Stecker orchestra is practicing for the concert which it is preparing to give on the 15th of next month.

Attention is called to the advertisement of T. M. Wells in another column. It will repay perusal.

F. M. Boney will arrive home from Chicago tomorrow.

A man who has practiced medicine for 40 years, tried to know salt from sugar, read what he says:

TOLEDO, O., Jan. 10, 1887.
Messrs. F. J. Cheney & Co.—Gentlemen:—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience have never seen a preparation that I could prescribe with as much confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of catarrh that it would not cure, if they would take it according to directions.

Yours Truly,
L. L. GORSUCH, M. D.
Office, 215 Summit St.
We will give \$100 for any case of catarrh that can not be cured with Hall's Catarrh Cure. Taken internally.

A Professional Nurse

One who is thoroughly competent, who is neat tidy and quiet, whose every touch is medicine, who knows what to do, and when to do it, is a blessing indeed, but so few there are who are fully understood, and are able to use the requirements, the endorsement of a medicine by such a person should carry weight. They have practical experience, and opportunities to observe and note the effect of their treatment. The physician in charge, as they are with the patient day and night, and every change and symptom is noted and watched.

I have myself used and in my profession as nurse administered your Red Clover Remedies, and find that it does all and more than you say for it. I cheerfully recommend it for troubles of Stomach, Liver or Bowels, and have advised my friends to use it, which has been done and in every case with the very best results, and all speak of Loebe's Extract Red Clover in the highest terms.

MRS. E. OSBORN,
Marion, Ohio.

Are Your Children Sick?

If they are, we know how you are worrying. For we all children. Love their in innocent ways, their childish prattle, even their mischievous pranks. Without them the world would be cheerless indeed. The more it pains us to see them suffer, the more thankful we ought to be that in Peruna a medicine has been discovered that will cure the ailments to which they are so generally subject, such as croup, colic, cholera infantum, dysentery, scarlet fever, whooping cough, diphtheria, and that dreadful catarrhal entreaties. If you will send to the Peruna Medicine Co., Columbus, Ohio, you will receive free a copy of Dr. Hartman's "Bill of Life," containing full directions for the use of Peruna in all the emergencies and also the most satisfactory testimonials to its efficacy. It also shows what Man-a-Lin, the unrivaled system regulator and remedy for constipation, can do. These family medicines, which no household can afford to be without, are sold everywhere—only \$1 a bottle. For sale by H. H. STAFFORD & SON.

Fifty Spasms a Day.
Had Mrs. H. A. Gardner of Virginia, Ind lived two thousand years ago she would have been thought to be possessed by evil spirits. She was subject to nervous prostration, headaches, dizziness, backache, palpitation and forty to fifty spasms a day. Though having been treated by eight physicians for years without success, she was permanently cured by one bottle of Dr. H. H. Stafford & Son's Drug Store, who recommends and guarantees it.

A SAFE INVESTMENT

A STRANGE SYNDICATE.

An Odd Report About the Almond-Eyed Residents of This Place.

When we enter the modest establishments of the laundry kings of this city, and gaze in pity and wonder at their strange costumes, hen-track writing and queer decorations, this question naturally arises: "What becomes of their profits?" It certainly is not spent for clothes, furniture or food, and they have no large surplus in the savings banks. It has been suggested that rich and rare delicacies, as bird's nest pudding or falcon's eggs' livers, absorb the riches of these knights of the soap-suds.

But no. It's the same old story—"English Syndicate"—so say it. Every client's clean collar is put on, clink goes a coin into the Bank of London. But however far reaching a syndicate may be, there's one thing that can never monopolize—the acres and pains that are an unfortunate birthright of the human race. There's one way, however, in which they can be controlled, and fortunate is the man or woman who knows what means to pursue when the head aches, the muscles are weak, and the weary brain utters its protest against over-work and over-worry. That means is Faine's Celery Compound—a pure, pleasant, potent food for the brain, nerves and blood.

People of the highest social standing, eminent members of the learned professions and successful business men all endorse this scientific preparation, not from hearsay evidence, but from personal knowledge of its remarkable curative power.

It is no ordinary sarsaparilla, bitters, tonic or stimulant, but contains true food properties for starving nerves, exhausted brain, and weakened systems.

WE desire to say to our citizens that for years we have been selling Dr. King's New Discovery for consumption, Dr. King's New Life Pills, Boney's Anodyne, Sarsaparilla and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. H. H. Stafford & Son, druggists.

MERIT WINS.

Jay Hursley vs the schooner Zach Chandler, her boats, sails, tackle, apparel, furniture and other appurtenances.

District Court of the United States for the Western District of Michigan, Northern Division, in admiralty. Whereas, a libel was filed in said court against the schooner Zach Chandler, her boats, sails, tackle, apparel, furniture and other appurtenances on the 15th day of November, A. D. 1890, by Jay Hursley, claiming for salvage and services in the nature of salvage \$2,500 and interest from September 12, A. D. 1890, by John C. Shaw, his proctor, in a cause of salvage, civil and maritime, and praying the usual process and motion of the court that all persons interested be cited and admonished to appear, etc., and whereas, said schooner "Zach Chandler," her boats, sails, tackle, apparel, furniture and other appurtenances have been seized by me and is now in my possession, under the said process issued out of and under the seal of said court, and whereas the return of the said process is the first Tuesday of January, A. D. 1891, notice is hereby given, and the master, owner and claimants of the said schooner "Zach Chandler," her boats, sails, tackle, etc., and all other persons interested therein, are hereby cited and admonished to be and appear in the District Court of the United States for said district in the District Court room in the City of Marquette, Mich., on Tuesday, the 6th day of January, 1891, at 10 o'clock in the forenoon, if that be a day of jurisdiction; if not, then on the next day of jurisdiction thereafter, then and there to answer said libel and to make their allegations in that behalf.

Dated this 21st day of November, A. D. 1890.

NO STATE LOSES MEMBERS.

House Committee on Census Agrees on Reapportionment Bill Which Decreases No Delegation.

NUMBER OF REPRESENTATIVES IN CONGRESS INCREASED TO 356.

Ratio Is 173,901 Inhabitants to Each Member—Seventeen States Get an Additional One for Major Fraction.

MEMBERS OF NEXT CONGRESS

WASHINGTON, Dec. 12.—The reapportionment bill, based on a representation of 356 members of the house of representatives, was favorably acted upon by the house committee on census and was reported to the house. The report notes the changes that will be effected and says that from the aggregate population of the United States the committee subtracted the aggregate population of the District of Columbia and of the territories of Oklahoma and Utah. The remainder was 61,908,906. With this number different ratios were obtained by taking as a divisor any proposed number. Each number was taken from 332 to 377. Trials were made until a number was found that would give a ratio which, in application, would secure each state against any loss in its membership. This number was found to be 356. The ratio was 173,901. The number of members obtained on even division was 329. The additional seventeen needed to make 356 was secured by giving another member to each of the states having left to it a major fraction. These states and the fractions remaining are: Alabama, 121,820; California, 104,724; Georgia, 98,345; Indiana, 105,392; Iowa, 172,889; Kentucky, 119,625; Maine, 139,388; Maryland, 172,885; Massachusetts, 123,131; Oregon, 139,886; Rhode Island, 171,595; South Carolina, 107,748; South Dakota, 154,907; Texas, 148,711; Vermont, 158,521; Virginia, 90,871; Wisconsin, 121,771. The committee does not deem the number fixed in the bill an unreasonable increase in the membership of the house. A much larger increase, the report says, has been urged by many members. An increase in the members of the house has been made in every appointment act since 1789, except in that of 1843, when there was a reduction of 15.

TO EXTEND BONDED PERIOD.

Measure for Relief of Importers Introduced in the House

WASHINGTON, Dec. 12.—In the house today Representative Flower (N. Y.) introduced for reference a joint resolution directing the secretary of the treasury to extend the bonded period for goods in bond in custom houses from February 1st until July 1, 1901.

After the reading of the journal the house went into committee of the whole. Mr. Allen (Mich.) in chair, on the private calendar. Almost the entire afternoon was consumed in a discussion of the merits of a bill for relief for John L. Enea and Joseph B. Anderson, of East Tennessee. Notwithstanding a vigorous fight in its favor by Mr. Stone of Kentucky, and Mr. Hoak of Tennessee, the committee recommended its recommitment to the committee on war claims. The committee having arisen this recommendation was agreed to and bills were passed for the relief of Alhau, Crozier and Samuel Feis, the legal representatives of Peter Lyle, M. Cook, Ames A. Gregory, the estate of F. M. Murray and Warren Hall. The house then adjourned.

LAW FOR A LAWYER.

South Carolina's Attorney-General Prosecuted for Intimidation.

COLUMBIA, S. C., Dec. 12.—A warrant has been sworn out against Attorney-General Y. J. Pope for violation of section 2,552 of the general statutes, which provides that whoever shall assault or intimidate any citizen because of political opinions or for such reasons shall discharge such citizen from employment shall be deemed guilty of misdemeanor and be fined from \$50 to \$1,000, or be imprisoned three months to one year, or both. The attorney-general had discharged for political reasons Thomas Butler, a clerk in the engraving department who had acted with the Haskell bolters and was a candidate on that ticket for the legislature from Union county.

CRUSHED BY FALLING BRICK.

Whole Family Entombed and a Girl Killed at Brooklyn.

NEW YORK, Dec. 12.—During the high winds this morning a two-story and basement brick building, owned by Charles F. Butler and being erected at the corner of Fifth street and Sixth avenue, Brooklyn, was blown down. It fell on a one-story brick structure occupied by Nicolo Delpino, an Italian shoemaker, and his wife and two children. The family was buried in the ruins. All were rescued unhurt save Rosina, a 13-year-old girl, who was killed.

BROWNED IN A TUG.

Two Men Find a Watery Grave at Jersey City.

JERSEY CITY, N. J., Dec. 12.—The tug Vandercook, lying at the foot of Washington street, sunk in fifteen feet of water at 3 o'clock this morning. Captain Hugh Martin, fireman Farwell and Steward Brown were on the vessel at the time. Captain Martin heard the rushing water and succeeded in making his escape. Farwell and Brown went down with the tug and were drowned. Their bodies were recovered by divers.

DUN'S TRADE REVIEW.

Outlook More Hopeful Though Iron Production is Decreasing.

NEW YORK, Dec. 12.—R. G. Dun & Co.'s weekly review of trade says: "The business outlook is more hopeful but the past disturbances and continuing

uncertainty are felt in a reduced volume of business throughout the country which, though slightly larger than a year ago, no longer shows the material increase until recently maintained. The iron production increased in November, reaching 183,846 tons on December 1st, a gain of 6,000 tons for the month and over 14,000 tons compared with last year. Several new and large furnaces have gone into blast but later dispatches show that within two weeks a number have stopped production and one southern establishment has failed. Quotations are lower, \$18 for northern and \$17.25 for southern No. 1, while rails are lifeless and decidedly less demanded for bar iron and plates. It seems clear, also, that stocks of unsold iron at furnaces are increasing, so that a curtailment of production seems to be unavoidable. The business failures occurring throughout the country during the last seven days number 374, as compared with a total of 312 last week. For the corresponding week of last year the figures were 290.

PRINCESS TURNS PALE.

Princess Louise Finds a Sculptor Dead in His Chair.

Sudden Death of Joseph Edgar Boehm—Inquiry into Central African Atrocities is Demanded—Lacassin's Crime

NEWS FROM OVER-SEA.

LONDON, Dec. 12.—Joseph Edgar Boehm, the sculptor, died suddenly in his studio this evening. The artist was engaged on a bust of Princess Louise and the latter called at the studio in relation to the work. Upon entering the place she found the dead body of the artist resting in a chair. Mr. Boehm was born in Vienna in 1834. He had resided in England since 1862 and was elected an associate of the Royal Academy in 1878. He executed a colossal statue in marble of the queen for Windsor castle in 1869, bronze statues of the prince of Wales and all the royal family and a colossal statue at Bedford of John Bunyan in 1872.

CENTRAL AFRICAN ATROCITIES.

LONDON, Dec. 12.—At a conference held in this city between the Aborigines Protection society, a number of members of the house of commons and the leaders of several religious bodies a resolution was adopted demanding that the government institute an inquiry into the atrocities committed in central Africa by English explorers and other adventurers.

LIVERPOOL, Dec. 12.—Thomas Macdonald, a laborer, was to-day sentenced to be hanged. He was convicted of the murder of Miss Holt, a school teacher living near Bolton.

FRANCE.

PARIS, Dec. 12.—A horrible murder of a wife by her husband was committed in this city to-day. Mme. Lacassin, the wife of a workman who was recently released from jail after serving at three-month's sentence, refused to maintain marital relations with her husband. Her refusal enraged Lacassin who upon meeting her on the street to-day again requested her to assume her former relations with him. She again refused whereupon Lacassin drew a revolver and fired four shots into her body. He then drew a knife and attacked her with frenzied ferocity, horribly mauling her. He then attempted to kill himself, but was prevented and placed under arrest.

VERY BUMP PRIZE FIGHT.

Grand Rapids Sports Fumalel Each Other and Fighters Run.

GRAND RAPIDS, Mich., Dec. 12.—The worst apology for a prize fight ever witnessed here occurred in an old house at Rod's Lake this morning. The principals were Henry Baker of Detroit and Jack Blakeslee of Charlotte. The Charlotte man was taller and rangier, and was at once dubbed the "corn husk." The "corn husk" seemed scared from the start. Several times he climbed and tried to throw Baker and finally threw him. A cry of foul was raised and everybody became excited. The seconds began pounding each other and the spectators jumped into the ring. There was a regular Donnybrook fair for a few minutes and when quiet was restored the referee ordered the fight to go on but the "corn husk" had disappeared and the fight was given to Baker.

KICKING PUGILIST LOSES.

McHughes Leaves the Ring and Forfeits the Fight.

ABERDEEN, S. D., Dec. 12.—Jack Ingalls, late of Ionia, Mich., and Arthur McHughes, late of Kankakee, Ill., fought in the agricultural hall at the fair grounds at an early hour this morning for the heavy-weight championship of South Dakota, a purse of \$100 and 25 per cent of the gate receipts. In the fifth round McHughes claimed a foul which being disallowed by the referee he and his seconds left the grounds. The fight was then given to Ingalls.

WHIRLED ROUND THE SHAFT.

Horrible Death of an Engineer at Winona, Minn.

WINONA, Minn., Dec. 12.—A horrible accident occurred at the Western Industrial Fiber company's factory last night. The engineer, Christ Koepke, while oiling and wiping around the fly-wheel, was caught by the clothing and wound round and round the shaft and whirled to death. His body was found by the fireman soon afterwards horribly mangled. The bones were all broken and the head crushed.

"WITHOUT UNPLEASANT INCIDENT."

That is the Way a Canadian Execution is Described.

SHERBROOK, Que., Dec. 12.—William Wallace Blain had been hanged here this morning for the murder of Charles A. Calkins on November 18, 1889. The drop fell at 9:06 and at 9:30 the jail surgeon pronounced him dead. The execution was performed by Radcliffe, who hanged Blain, and the whole proceeding was without especially unpleasant incident.

HOT FIGHT ON PARNELL.

Anti-Parnell Committee Opens Offices in Dublin and Will Issue Newspaper at Once.

WORK OF ORGANIZING AGAINST DEPOSED LEADER GOES ON FAST.

Meeting Active Opposition in His Own Constituency of Cork—His Newspapers are Destroyed at Castle Island.

HOME RULE LOST IN THE SHUFFLE.

DUBLIN, Dec. 12.—A committee representing the anti-Parnell section of the nationalist party secured offices in Sackville street and held a preliminary meeting to-day. Numerous applications for membership were received from persons residing in the city and county. These include letters from clergymen and others expressing their readiness to subscribe funds, if necessary, for the organization of the contemplated newspaper. It was decided to publish the first number of a half-penny paper on Monday next under the title of "The Suppressed United Ireland" with the name of William O'Brien as publisher. It will appear until arrangements are completed for a regular morning journal on a more elaborate scale, of which the prospectus is already drafted and will be issued in a few days.

The work of organizing local committees proceeds apace in various districts. The league offices having remained in Parnell's hands the McCarthyites will form a central executive committee on league lines. The representative committee of the anti-Parnellites will also send speakers to assist in electioneering work. They say they are laboring under a disadvantage in being deprived of means of reaching nationalists throughout the country, but that they are confident that with their new organ they will cover the ground they lost in the early stages of the struggle.

The priests of Killarney and Bondefe have joined in denouncing the action of Mr. Parnell in refusing to retire from the Irish leadership. The Clonakilty poor law guardians have demanded of Mr. J. E. Kenny member of the house of commons for Cork county south, that he shall either support Mr. McCarthy or resign his seat. The committee of Cork city and county formed to oppose Parnell has received the names of a large number of priests, town commissioners and tradesmen from Queensdown, Youghal, Fermoy, Macroom and Bandon who pledge themselves to support the cause of the seceders.

On the arrival of Mr. Parnell's United Ireland at Castle Island today a crowd seized the papers and burned them. At a meeting in Skibbereen a resolution objecting to Mr. Parnell's leadership of the nationalist party was unanimously adopted.

PARNELL GOES TO KILKENNY.

CORK, Dec. 12.—At 2 o'clock this afternoon Mr. Parnell drove in an open car to the railway station where he boarded a train for Kilkenny. He was cheered along the road to the station. He arrived at Kilkenny at half past four.

ENVOYS LEAVE FOR HOME.

NEW YORK, Dec. 12.—To-morrow morning William O'Brien, Timothy Harrington and T. D. Gill will sail for Europe. Messrs. O'Brien and Gill go by the steamer O'daan, of the Netherlands Line and Mr. Harrington will sail on the Etruria.

Is the Dead Alive?

DETROIT, Mich., Dec. 12.—John Prince was supposed to have died last Saturday while under the influence of chloroform. His family refuses to have him buried, asserting that he is still alive. This is the sixth day since death occurred and the face of the dead man has a completely fresh appearance.

Strikers' Demands Refused.

DENVER, Col. Dec. 12.—General Manager Colbran of the Colorado Midland has notified the striking trainmen that they must return to work at once or their places will be filled. There are indications that the men are weakening and will return to work. The company claims that the wages the trainmen have been getting is as much as any road in the United States is paying.

Mississippi Steamer Sunk.

NEW ORLEANS, Dec. 12.—A telephone message to the Times-Democrat reports that the Anchor Line steamer City of Boston Rouge, from St. Louis for this city with a cargo of western produce, sank at 3 P. M. near Hermitage Landing. Boat and cargo are total loss. No lives are reported lost.

Said He Was a Murderer.

ROCKPORT, Ind., Dec. 12.—Just before death an unknown man at Tennyson, a few days ago, made the startling assertion that he was the murderer of John E. Bilderbach, near Fort Branch, twenty years ago, for which crime Thomas Camp, asserting his innocence, was hanged.

Hardware Men in Secret Session.

CHICAGO, Dec. 12.—The Heavy Hardware Jobbers National union, representing the large dealers throughout the United States, began its annual meeting here to-day with closed doors. The chief topic to be discussed is that of the relations of the manufacturers and the jobbers.

Shot His Son-in-Law.

DURAND, Wis., Dec. 12.—John Kries to-day went to the house of Joe Hill whose daughter he had recently married but who had left him to return to her father's home. In the altercation that ensued Hill shot his son-in-law in the head. Kries is not expected to live.

Death Reveals Embarrassment.

TIFFIN, Ohio, Dec. 12.—State Representative Brandt, who died two days ago, was \$6,000 short as treasurer of Venice township in Seneca county. He was also a bankrupt with liabilities of \$30,000 and assets of only \$10,000.

TALK OF THE TOWN

Fair weather; warmer.

Born to Mr. and Mrs. W. H. Kelly, yesterday morning, a daughter.

The teachers returned from Ishpeming at 11 o'clock last night by special train. Nearly a full carload went up from here.

The young men's meeting and song service at the Y. M. C. A. building to-morrow afternoon, will be led by Mr. B. O. Pearl. Bible class at 4:30.

At the Baptist church in the morning the subject will be "Following Christ as the Finality in Religion," and in the evening "Joshua, or Courage to Conquer."

A prisoner was brought in from Crystal Falls last evening for Marquette prison, term ninety days, for stealing an overcoat. He jumped the train at Iron Mountain on the arrival would have been chronicled at noon.

There was a very fair attendance at the Y. M. C. A. lecture room last evening the occasion being Judge Stone's lecture in the regular Y. M. C. A. course. The lecture was a very interesting one, commanding the attention of all present.

The contest of Davison vs. Nadon and Gellinas, affecting the south half of the south half of section 31, T. 48 N., R. 37 W., was on trial before the U. S. land office yesterday, F. O. Clark appearing for Davison and Hill & Cochran for Nadon and Gellinas.

We would suggest for a holiday present a detective camera or photographic outfit, which can be purchased of Allen Bros., Detroit, Mich., whose upside-down advertisement appears in our advertising columns and from whom prices can be had on application.

Superior Tent No. 28, of the Knights of the Maccabees, will give a grand invitation ball in Armory hall Tuesday eve Dec. 23th, music by the M. C. band. This promises to be one of the finest parties of the season. Refreshments will be served in the armory dining room. The committee of reception, E. T. Drew, J. C. Cosford, F. H. Herlick, E. Homeier, James Shaw and J. Mc Crutcheon; floor committee, Tom Sparrow, J. S. Ward, D. Lambert, E. Kellan, E. J. Ward, Geo. Shaw.

PERSONAL MOVEMENTS.

William Wyckoff is in town.

Philip Voetsch, of L'Anse, is in the city.

J. P. Andrews left yesterday for Chicago.

Chan Brown is up from Rock River on business.

R. R. Thomas was down from Champion yesterday.

Mr. and Mrs. P. Nester, of Baraga, are in the city.

Mr. and Mrs. Charles Johnston, of Rock River are in the city.

D. J. Marshall, the West Superior real estate agent, is in town.

J. A. McKay, of Ontonagon, is one of the lumbermen now in town.

Mrs. Dr. Freund, of Champion, was visiting in the city yesterday.

M. E. Asire has returned from his business visit to Iron Mountain.

C. H. Bradley and W. A. Rose, Bay City lumbermen, are in the city.

Ira G. Whitney and P. J. Van Romanin, two veteran Lake Superior travelers, are in the city.

Mrs. Judge Stone arrived in the city yesterday from Grand Rapids, accompanied by her youngest son.

Hiram A. Burt returned yesterday from the east, having stopped off at Detroit and other cities on the way.

F. W. Bosson, manager of the Thompson-Houston's Lake Superior branch, has returned from Iron Mountain.

Mr. and Mrs. Avery, who were the guests of Mr. and Mrs. C. W. Green, returned to their home in Traverse City yesterday.

Ira Curtis, Jr., and Major Wm. F. Grantee and wife, of Sault Ste. Marie, passed the day in Marquette yesterday on their way home from Crystal Falls.

W. W. Hathway, of Tonawanda, and R. R. Pringle, of Bay City, lumber buyers, left yesterday for Ontonagon, having concluded their business here.

Frank McGuire returned yesterday from a five month's sojourn in the woods with a surveying party and will proceed to catch on to the ways of civilization again.

Miss Rosa Patenande, city librarian, returned yesterday from a two week's visit to Detroit, she passed most of her time studying the workings of the large libraries there.

W. C. Maness, R. Esterling, and F. X. Provost, of Trout Creek, were in the city yesterday as witnesses in the Davison and Nadon-Gellinas contest before the U. S. land office.

Milo Davis, chief engineer and superintendent of construction of the Champion and Huron Bay R. R., and John Munroe, Jr., also of Arvon, were in the city a few hours yesterday.

Mrs. H. H. Taft is visiting in the city as the guest of Mrs. Charles Kelsey. Mrs. Taft will soon leave for Ann Arbor for the winter and her son, Harvey, will enter the high school there.

Mr. Alfred Meads, the veteran owner of the Ontonagon Miner, is the guest of his brother, Mr. T. D. Meads, receiver of the U. S. land office. His daughter, Miss Hattie Meads, has been visiting here for some time.

Mr. John Sellers, and his sister, Miss Blanche, are guests at the residence of Mr. and Mrs. Richard A. Parker, on East Ohio street. Mr. Sellers' father is largely interested in the Sampson mine of which Mr. Parker is the superintendent.

Mr. Ransom, who was the guest of Cashier Ames for several days this week, left for his home in Jackson yesterday. He is the orderly sergeant of the famous Jackson Guards, the private company which won the prize in the recent tournament at Detroit.

Ladies clean your kid gloves with Mather's glove cleaner, for sale only at Miss H. Howard's Millinery store. 11-4-111

SHOULD WAKE UP.

Ishpeming Business Men Must Get a Move on Themselves if They Desire The Town to Grow.

Kids Who Go Armed for Mischief—Concerning Charter Revision—Matters at the Michigan Gold Mine.

A Lesson for Our Business Men.

Ishpeming people are a little proud of the distinction that this city enjoys as the largest mining town east of the Rockies, and the largest city in the upper peninsula of Michigan. They are a little jealous of Marquette on account of its beauty, and Marquette is a little jealous of this city for its population. Mutual jealousy doesn't cut any great figure, or interfere with the cordial business and social relations of the two cities, but it has existed, and still exists to a certain extent.

There is one thing that the people of Ishpeming will do well to profit by, and that is the lesson set them by the energetic business men of Marquette. After a great many years of inactivity they have come to the front, and the board of trade, which is composed of the best and most progressive element in that city, has succeeded in securing a number of valuable industries for the town by the lake within the past six months. At least one of these industries—the Lake Shore Iron works—would have come to Ishpeming had not the board of trade of Marquette offered superior inducements. There is no occasion for hard feelings over this matter, but it will be just as well for the people of Ishpeming to look the facts squarely in the face as to quibble over them, and fail to see things in their true significance. If Ishpeming is to maintain its rank at the head of upper peninsula towns its citizens must exert themselves to secure manufacturing enterprises, and it is high time that something was done toward organizing a board of trade or something of the sort. At present all of the public spirit in the city is monopolized by a few individuals, and the united effort of all our people is required to keep the place advancing in importance as a business center, as well as in population.

They Carry "Pops."

It is a fact, known to those who are interested in the welfare of the city that a number of boys living here carry revolvers habitually, and are in the habit of using them frequently on cats, dogs and other helpless animated targets, and that some of these young candidates for the reform school, are not backward in threatening their companions with their weapons. Several instances of this latter dangerous practice have occurred within the past few days, and Deputy Marshal Peterson, who has been keeping an eye open for the juvenile offenders for some time, will endeavor to secure the arrest of some of the youngsters who are emulators of the wild west style of doing things. If there is anything more dangerous than a kid with a revolver, or anything more calculated to make a bad citizen of him when he arrives at the age of discretion, it is hard to point out. Let the kids be disarmed, and, if necessary, let a few of them be sent to the reform school as an example. Lawlessness in youth breeds hard citizens at maturity, and the matter has gone far enough.

The Ward Boundaries.

The committee charged with the important mission of adjusting the new ward boundaries of the city had another meeting at the office of the city attorney yesterday afternoon. The session was a protracted one, and ended so late that a report of its proceedings could not be published in this morning's paper. It is as yet undecided whether there are to be six or seven wards. There are, however, many good reasons for desiring that the number of wards should be increased to seven.

To Put in a Plant.

From Mr. David M. Ford, managing director of the Michigan Gold company, it is learned that the compressor plant ordered several weeks ago is expected to arrive here about the first of the new year, and preparations are already being made for setting it in place.

The plant consists of a seventy horse power steel boiler, air receiver, etc., and an Ingersoll-Sergeant air compressor with a 16 inch steam cylinder, 16x14 inch air cylinder and an 18 inch stroke. This compressor is capable of furnishing power for seven 3-inch drills, and can do it without crowding.

Arrangements are now being made for the reception of the plant, and it will be placed in a conveniently-arranged engine house. As soon as it is in working order at least five power drills will be set at work, and perhaps more, according to circumstances.

The Michigan is looking well and the work of development is progressing at a satisfactory rate. It is probable that a stamp mill will be put in next summer.

Will Stop Here.

Mr. Fred Collins, who was for a time a resident of this city, but who is now "on the road" as the upper peninsula representative of Burnham, Stoepel & Co., will arrive here in a few days, and will make Ishpeming his headquarters, staying here eight months in the year. Mr. Collins was a valued resident of the city while Ishpeming claimed him as her own, and will be cordially welcomed back.

ONE MORE ENTERPRISE.

A Twenty-five Thousand Dollar Shingle Mill the Next Industry for Marquette.

RECORD OF THE ROCK RIVER BROWNSTONE QUARRY IN PAST YEAR.

Special Meeting of the Common Council Last Night—Life Saving Station—Circuit Court Proceedings.

ANOTHER INDUSTRY FOR MARQUETTE.

Marquette is to have a \$25,000 shingle mill to utilize the waste product from the big Hawley mill at the mouth of Dead river, the details having been practically settled yesterday. The mill will be located in the city on the water front, such a location being considered more favorable than a site by the side of the mill at Dead river for the reason that the refuse of the mill, if located in the city, can be readily sold for kindlings.

Well known lower peninsula lumbermen have the project in charge and will put in a first class mill here in the spring if nothing interferes with the plans now made. The matter will be fully settled at Cleveland between the 25th and 30th of the present month.

Ever since the announcement that the Cleveland Saw Mill & Lumber company's great mill would be located here the MINING JOURNAL has expected that it would bring with it other manufacturing concerns to utilize its waste products. This big shingle mill is the first to materialize, and a box factory will probably put in appearance next. The shingle mill will employ a large number of men, and will be a valuable addition to the industry of the city while the advent of the box factory will also be warmly welcomed. The Queen City is on the upward grade and outside capitalists are beginning to appreciate the fact. The Lake Shore Iron works, adamant plaster factory and the big shingle mill announced this morning are enterprises enough for one week. More are ready for next.

The Rock River Brownstone Company.

The annual meeting of the stockholders of the Rock River Brownstone company will be held at the company's office in this city on the 30th day of December, the polls being open for the election of officers from 9 A. M. to 12 o'clock noon.

The company was organized for the development of a brownstone quarry at Rock River, Alger county, on a tract of land embracing 150 acres. The capital stock is \$500,000, divided into 20,000 shares of \$25 each. Charles Johnston is the president and George Barnes, the secretary and treasurer of the company, the directors being Charles Johnston, George Barnes, E. M. Watson and C. H. Schaffer, of Marquette, and I. W. Brotherton, of Bay City.

The company commenced operations in July, 1890, and notwithstanding the fact that it had its quarry to open, 10,000 cubic feet of No. 1 brown stone were placed on the market before quarrying was stopped by cold weather in November. The Au Train jail was built of stone from this quarry and as the season closed the contract for the stone for the magnificent Masonic temple at Bay City was secured by the company. Enough stone was shipped on this contract before the season ended to bring the building up to the water table.

A contract has been let for the construction at the quarry of a superintendent's house, 20x30 feet in size, with a kitchen, and five cottages for the workmen, making twelve dwellings on the location. A contract has also been let for the cutting of 500 cords of wood and the clearing of additional ground for quarrying purposes. The wood will be delivered at the mill for fuel.

The prospects of the company for the coming year are very bright. The contract for the Bay City Masonic temple, already on hand, will call for at least 25,000 feet of No. 1 stone. The quarry has been opened up so that there is now a working surface of 200 feet exposed, while the railroad track is in and the dock commenced. The work of filling in the cribs out beyond the reach of the icebergs is now in progress and as soon as the ice forms outside the dock will be extended 1,000 feet out into the deep water, either by sinking additional cribs or by driving piles. The quarry is now in such shape that an immense product can be achieved in 1891 if desired. The last work done this season was the breaking out by one blast of a block of stone fifty feet long, ten feet wide and four feet thick, or 2,000 cubic feet. Twelve holes were charged between the two channels and when they were fired by a battery the whole block of stone was moved forward about two feet. Experts say there is apparently no reason why quarrying cannot be carried on in the same way for a quarter of a mile back, as much of the ground is already stripped and the drill has shown up the solid stone all the way. A 4-inch diamond drill is now being used about the quarry opening to fully determine the thickness of the various layers of stone.

The Life Saving Station.

To-day the work of driving piles for the boat house of the life saving station will be finished and the quarters will be plastered. The timbers for the boat house are already framed, so that the building can go up at once, as soon as the foundation piles are in. It will be 24x40 feet in size, while the boat slide will reach out 44 feet in front of it, a total slide of 74 feet being arranged for the boats.

Meeting of the Common Council.

A special meeting of the common council was held last evening, Mayor Longyear presiding. A petition was presented from the Sisters of St. Francis asking that Fifth street be extended from Fisher beyond the limits of the hospital grounds, and that the water supply, sewer and gas connections be made on Fifth street from Rock street to said property, for the use and convenience of the hospital to be erected in the spring and that the city grant exceptions from the usual water rates in

consideration of the hospital being a public benefit to the city, was referred to the street committee, as were two or three other petitions of minor importance.

The special assessment roll for Park street was extended for sixty days. On motion the mayor and recorder were authorized to issue an order on the city treasurer for the sum of \$1,605.53 for the purpose of paying Burgh & Hettig's men the wages due them on work done on the trunk sewer in August, September and October. The council then on motion adjourned.

Circuit Court.

The motion in the case of Spaulding vs. Spear was taken up yesterday in the circuit court and resulted in the placing of the business of T. O. Hampton in the hands of the receiver appointed for the Spear stores, Richard Blake. In the "cow case" the judgement of the lower court was affirmed by the court and the lawyers' "nice point" was decided; the railroad will pay the \$60 for the cow. The court will meet this morning at 10 o'clock to clear up some minor matters and will then adjourn until the 22nd inst.

Looking This Way.

Within the past few days Chicago parties have endeavored to lease the Northern Iron furnace here, now ready to go into blast. The officers of the Northern Furnace company intend to operate the furnace, themselves so were compelled to refuse to negotiate with the Garden City people but this incident shows that the iron men of Chicago are beginning to recognize the importance of Marquette as a site for iron manufacturing industries, making it very probable that before long Chicago capital will be put into such enterprises here.

Officers Elected.

The following officers were elected for the ensuing year by Marquette chapter, No. 42, Royal Arch Masons, last evening: F. M. Moore, H. P. S. S. Ormsbee, K. H. J. Hopkins, S. J. W. Young, Treas.; W. B. McCombs, Sec'y.; D. W. Powell, C. H. W. F. Mitchell, P. S.; H. C. Russell, R. A. C.; John Mitchell, G. M. 1st V.; R. J. Wilson, G. M. 2nd V.; Hiram Calkins, G. M. 1st V.; J. N. Williams, sentinel.

Boston's Christmas Turkeys.

OTTAWA, Ont., Dec. 12.—A special freight train of seventeen cars laden with poultry will leave here to-morrow for Boston Christmas markets. The shipments is one of the largest ever sent from here. The duties are estimated at \$15,000.

The greatest pain-annihilator of the age is Salvation Oil. Price twenty-five cents. If you value your children's health and comfort, you must guard them against croup. Dr. Bull's Cough Syrup is the best preventive known. It is an infallible cure and costs but twenty-five cents.

Notice.

I have now on hand a lot of No. 1 four-foot pine and Norway slabs which I offer for sale at the lowest market price. Any of my customers or others wishing to purchase can order over telephone and orders will be filled promptly.

GEORGE E. FRENCH, South Marquette. \$350.00, \$25.00 cash and \$10 per month will buy a lot in Chicago. Enquire of E. P. Wilbur, room 7, 306 Front street, Marquette. 10-1217

DRY SLAB WOOD. Price \$2.50 per cord. Leave orders at stores of A. S. Westlake and Steele & Lobdell, or at my office. GEO. L. BURTON
