MARQUETTE, MICH., DEC. 2.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

PRESENTLY the legislature will meet, and the "demonition grid" of turning out bad laws will begin again. As the democrats will control in both branches this year we shall be afforded an opportunity of judging of their capacity to make laws for the commonwealth. They have been insisting that the republicans had created a large number of useless offices merely to make places for political workers. How many of these will they wipe out? Time will show.

GENERAL ALGER is said to favor free coinage of silver. The general owns a silver mine in Canada, and may have a sympathetic friendship for the American producers of the metal for that reason. But whatever it is that induces him to cast his influence in the scale for free coinage of silver, he is not in accord with his party in this state on that question, and he cannot well afford to be on the wrong side of one of such importance if he wants the solid delegation from Michigan in the next national convention of the republican party.

The city of Marquette furnishes her people with water and light and does it for less than half the price Duluthians are compelled to pay. Couldn't Duluth do as well as Marquette if she had a mind to try? The News is inclined to believe so. It would do no harm to try, anyway.—*Duluth News.*

Of course she could if she were not so much in the power of the corporations that are rendering the service. It is much easier to get in the grip of an octopus than to break its hold after it has once fastened on you with its tentacles.

A PENNSYLVANIA paper states that it is known to the coal mine operators of that state that the miners there are preparing to move for an eight-hour working day next spring, and will unitedly demand it on the first of May next. Sanial, the New York socialist who was denied a seat in the Federation of Labor convention held lately at Detroit, claims to have advices from Europe to the effect that the miners there will inaugurate a similar movement on the same date, and it is thought there is a general understanding among the workmen here and abroad to make a determined fight for this concession next year. The Federation of Labor and the Knights of Labor have endorsed the demand for a shorter working day, and the signs denote that a stiff fight to secure it will be made next spring. As the same rate of wages is to be insisted on for the short day as is now paid for ten hours work, the change, if it comes, will add considerably to the labor cost of everything produced, and therefore to the cost of living. This will tend to further encourage the invention and production of labor-saving machinery, the employment of which will, in turn, reduce the demand for labor and thus impair its ability to dictate terms to its employers. It is just possible that the advocates of a shorter working day are working against their own interests, but it would be difficult to convince them of that. It may be stated as a fact that if a man who is employed in a mine or factory can earn a living working only eight hours a day, he can do much better than the average of business and professional men. As a rule, men attain success in life in proportion to the endeavor they are willing to make to secure it, and the man who starts out with the determination that he will have eight hours out of the twenty-four for sleep, eight more for play, and that he will devote only the remaining eight to the serious business of earning bread for himself and his family, will go down to his grave without having accomplished anything that will cause his name to be remembered. He may get more than his share of enjoyment out of life, but he will not lay up wealth or win glory if he is not willing to work more than eight hours a day.

IN A BAD WAY.

A gathering of representatives of the furnace interests in the Mahoning and Chenango valleys was held at Pittsburgh during the week for the purpose of ascertaining what the railroads and coke companies are able and willing to do for the relief of the furnace men in the two districts named, the latter claiming that unless they can get cheaper coke and lower freight rates they will have to close down their furnaces.

Committees were appointed to confer with the railroad managers and the coke companies in the hope that these could be prevailed on to do something for the relief of the distressed furnace owners, but it is not known what has resulted from the effort to secure better terms on fuel and transportation. That the condition of the furnaces in these districts is serious cannot be

doubted. Its gravity appears from what one of the furnace owners said to a reporter. "It is very plain to us," he remarked in response to a question put to him, "that furnacemen are in a bad way in our districts. We cannot make iron at the prices it now brings and come out even. If we get no relief from the railroads and coke operators we will save money by blowing out or banking our furnaces. If we fail in our efforts to reduce the cost of coke or freight furnaces will commence to go out after January 1st, and by February 1st not a furnace will be in blast."

The furnaces in the Mahoning and Chenango valleys are large consumers of Lake Superior ore, hence the situation there is one that concerns the iron mining industry in this region. The predicament in which the furnaces there find themselves arises from the development of iron manufacturing at western points and in the south, and the sharp competition that they are forced to meet from both directions. The furnaces there had a monopoly of the trade for a long interval, but that is no longer the case, and it is doubtful if they can be helped sufficiently by the coke and railway companies to enable them to successfully meet a competition that is constantly limiting the field in which they can find a profitable market for their product. The west is making more of the iron that it consumes every year, while the south is sending its iron into the north in increasing volume from year to year, the low cost of production in that region enabling the southern furnaces to compete successfully for a considerable share of the northern trade, despite the expense of transportation. While the eastern furnaces were able to establish quotations they found it smooth sailing, but with the south and west in control of the market to such an extent that they are able to make prices these furnaces are encountering a good deal of "squally weather," and hardly know which way to steer to avoid disaster.

Coke furnaces located at Marquette to reduce ores mined within less than fifteen miles of this city would obtain their supplies of ore at a less total cost than the freight on the ore to the Mahoning and Chenango Valley furnaces amounts to. The coke would cost them more than the valley furnaces have to pay for it, but the saving on ore would very much more than cover the greater cost of coke at Marquette, while the western market can be supplied to better advantage from here than from points farther east. These facts serve to explain the trouble that the eastern furnaces are experiencing, and to point out the necessity of having furnaces that depend on this region for their ore supply located nearer the mines, to contend with success against the cheap iron of the south. The day has gone by when they can be profitably conducted at points midway between the fields of ore and fuel supply.

PITY 'TIS 'TIS TRUE.

The Wall Street Indicator is quite bitter in its censure of the secretary of the treasury for his failure to do anything effective toward relieving the monetary stringency that has been felt in this country for several months, and criticizes congress for its apparent inability to give the country prompt legislation designed to ease the financial situation. It savagely declares that—
"There is not a single financier in congress—at least none has shown up—capable of separating his immediate constituents' wishes from the well-being of the whole country. Men with financial brains acknowledge that they are not laboring to the end their knowledge and conscience direct, but are holding their tongues in their cheeks, as any view not in accord with the immediate neighborhood in which they live would deprive them of votes.

The Indicator states a fact that cannot be disputed. Congress is made up of representatives of particular interests and communities, who work for these to the neglect, if not to the positive detriment, of the interests of the country at large. The time of the senators and representatives at Washington is given to securing special appropriations, and advantages of one kind or another, for their respective states and districts, instead of to the consideration of broad questions of national policy, and their attitude on any question that comes up is sure to be determined by what their constituents desire rather than by its merits. We have a pack of lobbyists for special interests at Washington instead of a body of broad-minded statesmen, and it inevitably follows that the country suffers from their work, instead of being benefitted by it.

The people are now complaining of a scarcity of money in the ordinary channels of trade, and what is congress doing to remedy it? It has done nothing as yet, while some of the things that senators and representatives want to have done would aggravate the trouble rather than cure it. The senators from the Pacific states think they see in the emergency that has arisen a chance to force the free coinage of silver—which might be a good thing for the silver mining districts but would be a very bad thing for the country generally—and are bending their energies to take advantage of the demand for an easier movement of money to secure for the producers of silver a certain market for all they can mine at a fixed and highly remunerative price. The bulk

of the senators have financial projects that have personal interests, or the interests of localities, behind them, and while they are struggling to advance these the monetary squeeze is pinching the life out of business enterprises and the prosperity of the nation is impaired.

There is a woful need of statesmen in congress, and it will continue to be felt while the people elect men to represent them in that body with reference to their ability to get appropriations and because of their smartness as politicians rather than on account of their capacity for public affairs.

MICHIGAN NOTES.

Mr. Richard A. Parker, of Marquette, was in town yesterday looking after the Imperial mine. The Imperial now employs a larger force than ever.

The two M. E. Sunday schools will give entertainments on Christmas day, the English in the afternoon and the Swedish in the evening.

Posters are already out for the grand opening of the new Old Fellows' opera house on the evening of January 1st. The committee in charge is doing its utmost to make this a most enjoyable affair. Professor Hughes' orchestra, from Marquette, has been engaged for the occasion. Super will be given by the L. O. O. F. ladies at the lodge rooms.

Photographer A. W. Werner is rushed with work at present, which shows that he is pleasing his patrons.

A man who has practiced medicine for 40 years ought to know salt from sugar: read what he says:

TOLEDO, O., Jan. 10, 1887.
Messrs. F. J. Cheney & Co.—Gentlemen:—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience have never seen a preparation that I could prescribe with as much confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of catarrh that it would not cure, if they would take it according to directions.

Yours Truly,
L. L. GORSUCH, M. D.
Office, 215 Summit St.
We will give \$100 for any case of catarrh that can not be cured with Hall's Catarrh Cure. Taken internally.
F. J. CHENEY & CO., Props., Toledo, O.
Sold by Druggists, 75c.

EUPEPSY.
This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters will cure the ailments to which they are so generally subject, such as cramp, colic, cholera infantum, dysentery, scarlet fever, indigestion, constipation, or that dreadful catarrhal erache. If you will send to the Peruna Medicine Co., Columbus, Ohio, you will receive free a copy of Dr. Hartman's "All of Life," containing full directions for the use of Peruna in all the emergencies and also the most satisfactory testimonials to its efficacy. It also shows what Man-a-Lin, the unrivaled system regulator and remedy for constipation, can do. These family medicines, which no household can afford to be without, are sold every where—only \$1 a bottle. For sale by H. H. STAFFORD & SON.

Are Your Children Sick?
If they are, we know how you are worrying. For we all children. Love their in nocent ways, their childish prattle, even their mischievous pranks. Without them the world would be cheerless indeed. The more it pains us to see them suffer, the more thankful we ought to be that in Peruna a medicine has been discovered that will cure the ailments to which they are so generally subject, such as cramp, colic, cholera infantum, dysentery, scarlet fever, indigestion, constipation, or that dreadful catarrhal erache. If you will send to the Peruna Medicine Co., Columbus, Ohio, you will receive free a copy of Dr. Hartman's "All of Life," containing full directions for the use of Peruna in all the emergencies and also the most satisfactory testimonials to its efficacy. It also shows what Man-a-Lin, the unrivaled system regulator and remedy for constipation, can do. These family medicines, which no household can afford to be without, are sold every where—only \$1 a bottle. For sale by H. H. STAFFORD & SON.

They All Failed
The following letter from Mr. W. A. Thomson, of Columbus, Wis., is peculiarly interesting: "My wife," he says, "has been troubled for her head, stomach and nervous prostration by three doctors in New York, two in Chicago, one in Philadelphia, one in Cincinnati, and at the large institute in Buffalo for 16 months. They all failed, one bottle of Dr. Miles' Restorative Nervine helped her wonderfully." This should be used in all headaches, backaches, changes of life, nervous disturbances, fits, rheumatism, etc. Ask at H. H. Stafford & Son's drug store for a free trial bottle and Dr. Miles' new book on the Nerves and Heart.

BUCKLEN'S ARNICA SALVE.
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, shopped hands, chillsblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale H. H. Stafford & Son.

For Sale.

Annual Meeting. FIRST NATIONAL BANK, Marquette, Mich., Dec. 10, 1930. The annual meeting of the stockholders of the First National Bank of Marquette, Michigan, for the election of directors and by other business which may properly and legally come before the meeting will be held at the banking house of said bank on Tuesday, the 14th day of January 1931, between the hours of 10 o'clock A. M., and 12 o'clock, noon, of said day. E. H. TOWAR, Vice President. GEORGE BARNES, Cashier. 12-41-1-13

ALL OF THE TOWN

Fair weather followed by snow; warmer, followed by colder.

J. Dolf has moved into his new residence on West Superior street.

Meeting of the Grant Literary society at the Y. M. C. A. building this evening.

There will be Christmas exercises at the Heman B. Ely school on Tuesday evening.

King got even at Iron Mountain for the deal Carkeek gave him at Ishpeming long ago.

Marquette chapter will work the Royal Arch degree this evening. All members and visiting brethren will be welcomed.

The banquet tendered to the bar of this judicial circuit by the bar of Marquette county will be given at the New Clifton this evening.

The Ohio street manhole in the Spruce street sewer was finished yesterday. The whole sewer will be in before the middle of the coming week.

M. J. Davis, of Hillsdale, R. A. Hawley, of Saranac, and Albert E. Miller, of Marquette, have been admitted to practice before the interior department.

To-day is the appointed time for the great Nester democratic pow wow at Ishpeming and the faithful are already gathering from all parts of the peninsula.

Captain Blanchard sent a boy down to Iron Mountain to his mother yesterday who had just returned from the Lansing reform school, where he was sent from this county.

The last reminder of the Iron Bay Manufacturing company has disappeared, the name having been effaced from the office buildings. The name of the new works goes up today.

The subjects of Rev. L. M. Waterman's discourse to-morrow at the Baptist church will be: Morning, "The Letter to the Laodiceans;" evening, "Sampson, or Shackled Might."

Eagle Mills had a Sunday school Christmas tree last evening, and everybody in the town, from the smallest tot to the most venerable patriarch, was remembered in the distribution of gifts.

The whistle of the Lake Shore Iron works sounded for the first time yesterday noon—just as the boys said it would. Steam was hardly up at 12 o'clock but they managed to get a good long blast out the same.

C. T. Andrews, of Painesville, is getting out a quantity of hardwood for F. W. Reed & Co. at Eagle Mills. The company will handle about 500,000 feet of hardwood during the coming season. Its shops are now running night and day.

A new connection is being made with the city mains at the Lake Shore Iron works and hereafter the water supply will come from Washington instead of Lake street. The Lake street connection was frozen up yesterday but the city hose cart was run down and by attaching the fire hose to a hydrant the boiler was soon filled.

On January 1st the Hager & Johnason Manufacturing Co., capital \$100,000, will succeed to the business of Messrs. Hager & Johnason. The present shops are over-crowded with work and the orders are coming in so fast that every effort is being made to hurry along the new building on West Washington street so that room can be secured for more machinery and more men.

Perkett & Perkett, whose headquarters are at the Armour Refrigerator building on Lake street, call attention to their advertisement on this page. They deal in produce of all kinds and are entitled to a fair share of the patronage of the people of Marquette, for their facilities for the business are unsurpassed. They make a specialty of fresh packed dairy butter. Telephone connection.

PERSONAL MENTION

J. E. Ball is here from Bessemer.

Hon. F. O. Clark is expected home from Detroit today.

E. A. Wetmore left for Chicago yesterday on business.

Dr. and Mrs. Freund, of Champion, were in the city yesterday.

Charles F. Orton is now in Menominee dealing in lumber as of yore.

Joseph Kirkpatrick, of Palmer, was in the city yesterday on business.

Louis Bral, clerk of the New Clifton, returned yesterday from his vacation trip.

The Armstrong boys arrived home from school yesterday for their holiday vacation.

P. W. Brown, purchasing agent of the South Shore, is expected back from Chicago today.

E. C. Wilkinson returned yesterday from Michigan University to pass the holidays at home.

Fred Braastad, state treasurer elect, passed through this city yesterday on his way home from Lansing.

F. W. Bosson, general manager of the Thomson-Houston's Lake Superior branch, has returned from Chicago.

Charles A. Hallam, who is still foreman for Mr. J. B. Swent, returned to Chicago yesterday after a short visit at home here.

General Manager Fitch returned from the lower peninsula yesterday and Messrs. Orr and Allen from C. & N. W. points.

General Passenger Agent C. B. Hillbard was in the city during the afternoon yesterday, going on to Duluth in the evening.

John O'Meara returned yesterday from Pittsburgh. He states that the estate of the late Captain Ward inventoried \$4,500,000.

John M. Robinson, traveling passenger and land agent of the Northern Pacific and W. M. Romine, traveling freight and passenger agent of the Great Northern, were in the city yesterday keeping an eye on each other.

Hon. Michael J. Doile, the well known attorney and democratic politician from Sault Ste. Marie, is here, accompanied by Col. N. G. Parker, known to fame as the editor of the Soo "Kicker," to put up the pins for the coming session of the legislature.

Queen City visitors yesterday were M. E. Harrington, of Ishpeming; S. W. Osgood, Sault Ste. Marie; Charles Johniton, Rock River; J. W. Wyckoff, Portage Entré; C. Palmer, Escanaba; Will J. Ridge, Au Train; Edward Robbins, W. W. Gowling and H. E. Riston, Ishpeming; G. W. Stannard, Rockland; Roger C. Williams and James Murphy, L'Anse; Frank and John Zoberlein, Negaunee; H. G. Lytle, Sidsnaw; W. H. Oakley, Trout Creek; E. H. Graham, Sault Ste. Marie; J. M. Carr, Shingleton.

WAS SALTED WITH LIME.

Physicians Say That Substance Was Used Against Parnell.

Sexton Expresses His Regret at Assault on Parnell—Archbishop Walsh Denies Fake of Parnell's "United Ireland."

ANTI-PARNELLITES CONFIDENT. DUBLIN, Dec. 19.—Mr. Parnell and his colleagues drove to Johnstown today. Mr. Parnell still wears bandages over his eyes. Mr. Redmond, alluding to the denials that lime was thrown into Mr. Parnell's eyes, declared that two doctors stated their reputation that it was lime.

Mr. Justin McCarthy addressed a meeting at Kilkenny to-day. He declared that Sir John Pope Hennessey would certainly be elected and that the only question was as to the extent of his majority. Mr. Sexton also made an address. He said he deeply regretted the violence done to Mr. Parnell, and that whatever his present feeling toward Parnell might be his gratitude for his past services to Ireland was unchangeable.

The Granard board of guardians has adopted resolutions advising Mr. Parnell to retire temporarily. The Athlone commission has voted against Parnell. Several tenants on Mr. Smith Barrie's estate were evicted from their homes to-day. There was no disorder.

"UNITED IRELAND" LIES Archbishop Walsh Denies Fake of Sheet Captured by Parnell.

LONDON, Dec. 19.—The Most Reverend William S. Walsh, archbishop of Dublin, has telegraphed to the London papers that the account of the meeting of the chapter of Dublin published yesterday by United Ireland is a shameful fabrication. The dean of the chapter has also written a letter contradicting the statement made in the publication regarding the action of the chapter. The article which drew forth these denials declared that the chapter had adopted a resolution urging the ecclesiastical authorities to abstain from taking any action on the Parnell matter as there was a wide divergence of opinion among the Catholic laity in regard to the question.

GOLDBURG HAS TO GO.
A Horseman Who Tried a Swindling Game at Ishpeming Gets His Deserts.

CARKEEK FAILS TO THROW KING THREE TIMES IN AN HOUR
One of Ishpeming's Bad Boy Captured. Deputy Marshal Peterson to the Fore—A Batch of Bummers Sent to Jail.

Got the G. B.
Mr. L. D. Goldberg, of Oshkosh, will be remembered by the people of Ishpeming. When engaged in honest business Mr. Goldberg runs a livery stable in the classic city from which he hauls. At other times he engages in occupations that are not quite so honorable.

Last August, at the summer meet of the Union Park association, Mr. Goldberg appeared early on the scene, and entered a black gelding under the name of "Black Frank" in the three-minute and two-forty classes. His driver was J. O. Gerrety, of Oshkosh, a well-known jockey.

After Mr. Goldberg had made the entries he opened a pool room here, and sold pools on the races. This speculation was not a howling success, as the people of Ishpeming are verdant in the ways of racing and gambling, and preferred not to invest their dollars where there was such an uncertain prospect of ever seeing them again.

"Black Frank" was an easy winner in the races that he trotted, but unfortunately for Mr. Goldberg information was filed against him before the American Trotting association, of which the Union Park association is a member. The board of appeals of the association met at Chicago December 4th. The following excerpt from the official minutes of the meeting sufficiently explain both the case and punishment:

The American Trotting association vs. L. D. Goldberg, of Oshkosh, Wis., and J. O. Gerrety, of Oshkosh, Wis., and the black gelding Dick Organ, alias Black Frank, for fraudulent entry and performance over the grounds of the members at Ishpeming and Menominee, Mich., and Green Bay, Madison and Stoughton, Wis., in 1900. It was shown that the defendants were present at the spring meeting at Erie, Pa., in 1900, wherein the black gelding Dick Organ performed in the 2:25 class; that on or about August 10, 1900, the defendant, L. D. Goldberg, brought to Oshkosh, Wis., said black gelding and substituted him for the black gelding called Black Frank, purchased by the defendant Goldberg of J. A. Montgomery, of Minneapolis, Minn., and started the said black gelding Dick Organ under the name of Black Frank at the place named; and when protested and called upon for identification had documents in his possession to prove the eligibility of Black Frank. It is since shown that the black gelding called Dick Organ has since been returned to his owner, J. A. Midgagh, of Paterson, Pa. Held that the defendant Goldberg had full and complete knowledge of the true name and identity of the horse Dick Organ, and substituted him for the purpose of fraud, and it is ordered: That said L. D. Goldberg, of Oshkosh, Wis., and the black gelding Dick Organ hereby are expelled from the grounds of all members of the American Trotting association.

That the case against J. O. Gerrety be dismissed.
Gerrety had a very narrow escape from expulsion, but was able to satisfy the board that he was unaware of the true name of the horse that he was driving.

The unwary weeding out of frauds and rascals of all sorts from the ranks of members of the American Trotting association has done much to elevate the sport, and cause honest men to take an interest in it, in the belief that justice will be done them, and that the best horse will win. The expulsion of Goldberg will give unalloyed satisfaction here, as well as at his home and in many other places where he operated.

Carkeek Failed
The wrestling match at Iron Mountain Thursday evening last excited much interest throughout this peninsula. Jack Carkeek the whilom champion of the world at Cornish wrestling, was thrown at the tournament held in Ishpeming last August, and had challenged his victorious opponent, John King of Iron Mountain, to another match, by the terms of which Carkeek was to throw King three times in one hour or lose the match. After a great deal of time and ink had been wasted the match was finally arranged, Carkeek going to King's own town.

The match is said by those who witnessed the contest to have been a very fine exhibition of skillful Cornish wrestling. Carkeek had been in training for the event, and King was not wholly unprepared. The sentiment of the crowd present at the match was in favor of King, but the affair was an orderly one throughout, and both men were given fair play. In spite of the great efforts of Carkeek who exerted his herculean strength and tried every catch and trick allowed by the laws of Cornish wrestling, he was unable to secure more than one fall in an hour.

It is generally thought by those who are well posted in wrestling matters that Carkeek is the better man of the two, but it was no surprise that he failed to throw King three times within an hour. King is a wonderfully strong man, and he weighs fifteen pounds more than Carkeek, while he is, without doubt, the most skillful Cornish wrestler in this country next to Carkeek. He goes in to do his level best whenever matched, and never "plays off" from any man against whom he is pitted. It is not probable that Carkeek will again try to do what he failed in doing at Iron Mountain, and if he does try there is little reason to think that he will win. What would interest lovers of the sport now would be a straight match, best three in five, between the two champions. It would be a contest worth witnessing.

It Must Be Stopped.
Marshal Scully this week arrested one of the boys living on Strawberry Hill who are in the practice of carrying concealed weapons. The boy so arrested was Benny Youren, a lad thirteen years of age. He carried both a revolver and a knife, and had on several occasions of late displayed his weapons very prominently, and in a manner rather trying to the nerves of those in the neighborhood. If milder measures fail to correct his evil ways it will be

necessary to send the boy to the reform school till he comes of age.
It is well known that there are many boys in town who carry revolvers. This practice is dangerous not only to the public but to the moral character of the boys themselves. It is not a usual thing for a boy who carries knives or guns in his hip pocket to develop into a very valuable member of society.

Election Postponed.
At the meeting of the council held last Wednesday night there was little business transacted beyond the allowance of bills. The resignation of Marshal Scully was received and accepted, but the election of his successor was postponed. This makes Mr. Gust Peterson, the deputy marshal, head of the Ishpeming police force for the time being, and it is not at all unlikely that the matter will be allowed to rest as it now stands, Mr. Peterson acting as marshal till next spring, when the new council will have a chance to elect a marshal for the ensuing year.

Went to Marquette.
Marshal Scully went to Marquette yesterday noon, taking with him as fine a collection of bummers as could well be run across in a winter's day. There were five in the gang, and they will stay at Marquette, as guests of the county, for terms varying from twenty to sixty days. Among the crowd were "Mickey Gow" and George Ballagher, both of whom will be assured of three meals a day and a decent bed to sleep on for the next sixty days.

MID-WINTER BUILDING.

The Hammer and Saw As Busy All Over Marquette As Ever.

OPENING OF BIDS FOR EXTENSION OF MARQUETTE BREAKWATER.

What Those Iron Mountain Fellows Want—A Voice From the Tomb—Minor Marquette Matters.

Winter Building.

Marquette has no "building season" now. Every month in the twelve sees new business blocks and new residences and new projects of every kind started here. The amount of building now in progress in the city is astonishingly large and carpenters are just as hard to secure as in mid-summer. Between fifty and sixty are employed on the huge building for the Hager & Johnson Manufacturing company and M. P. T. Co. on West Washington street, Marquette's \$75,000 opera block is still alive with masons, bricklayers, carpenters, tanners and painters, while right in the center of the city are the Coles, Bittner, Seaman and Mack blocks in process of construction and the Frederick Frei block undergoing the remodeling process.

At the east end of town building operations are in progress on just as extensive a scale. Stonemasons, masons and carpenters are still busy on Mayor Longyear's palatial residence and the plumbers and steamfitters have just commenced. The water board is hurrying up the mason work on Marquette's beautiful brownstone pumping station; Superintendent Collier reports day by day gratifying progress on the buildings of the United States life saving station; carpenters are still busy in the Mather, Mathews and Williams residences, and the Ideal rink is going up as fast as the lumber can be delivered.

The same condition of affairs is noticeable in the extreme northern part of the city where dozens of medium sized residences are going up and the sound of the hammer can be heard on every side. In the Nestor addition the Hager & Johnson house is just being finished and the beautiful residence of John F. Mack, Jr., is being hurried along as fast as possible, while across the divide the people of the First ward are showing the faith in the future of Marquette which is in them by the erection of new houses and the enlargement and improvement of old ones. It is the dead of winter but thousands of dollars are being paid out in the city monthly to masons, carpenters and other building mechanics. Marquette isn't "booming" but she is growing.

Marquette Breakwater Bids.

The bids have been opened at the office of the Major Quinn, at Duluth, for the construction of 240 linear feet of additional breakwater at this place. The following bids were entered: Charles Berner, Green Bay, \$28,800; Daniel W. Powell, John Mitchell and Ed. Mitchell, Marquette, \$28,058; John H. Gillett, Marquette, \$30,927; Jacob Zimmerman, A. H. Truax, John A. Moore, Duluth, \$32,040; Joseph Wolf, Duluth, \$32,562; Morrison & McGregor, Duluth, \$38,400.

The contract has not yet been awarded but it looks as if Marquette contractors had lost the plum by the narrow margin of \$3, for which fact there will be general regret here.

A Voice From the Tomb.

Marquette is trying to make people believe she is alive. Of all the dead holes in the state, Marquette is the deadest. She has been so long in that state that even her one paper, the MINING JOURNAL "is smelling to heaven" or the other place.—See Democrat.

What They Want.

The people of Iron Mountain are bound to have a new county. The report of the meeting held there to consider the matter is given below, as published in the Menominee Range. The twenty-six full and fractional townships wanted would give a square, compact county with Iron Mountain as the county seat, way down in the southeast corner. Six full townships are wanted from old Marquette, the mother of counties, as far as the upper peninsula is concerned. They are 42, 43 and 44, range 27, and 44 in ranges 28, 29 and 30. The first three would come off from Tilden township, 44-28 from Ely and 44-29 and 44-30 from Humboldt. It remains to be seen whether there will be much of a kick at this end of the line. The Range says:

The convention called to inaugurate steps for the erection of a new county out of portions of Menominee, Iron and Marquette counties was held in this city last Saturday. Delegates were present from Spaulding, Meyer and Breitung townships and from the several wards of this city, and organized by the choice of John Friedrich, chairman, and David Bergeron, secretary. Mr. Buel made a motion which at the request of the chair was put in writing. It was that a committee be appointed to draw up a bill to present to the legislature, and that they be instructed to select a name for the new county, and to incorporate in the bill that the territory of the new county shall comprise townships 39, 40, 41, 42, 43, 44, range 27, same townships in ranges 28, 29 and 30, and fractional townships 29 and 40 in range 31; that the bill shall specify that the county seat shall be located and the county officers elected at a special election by the electors in the new county. This motion was seconded and after some discussion was put to a vote and lost. Mr. Pelham then offered a resolution to the effect that the organization of a new county out of portions of Menominee, Iron and Marquette is advisable, which was unanimously adopted. Mr. Cook then moved that a committee be appointed to draft a bill and report at such time as the convention might determine, which was carried. It was then moved and carried that the chair appoint such committee, and that they report at 7 o'clock Tuesday, the 23rd inst. The chair appointed Messrs. A. C. Cook, H. McLanghlin, F. J. Trudell, J. T. Jones, of this city, and Patrick Flannigan, of Norway. The convention then adjourned. There was no opposition to the project expressed at the

convention, and probably no opposition exists. Messrs. Radford, of Meyer, and Hageron, of Spaulding, stated that they would prefer to have townships 39 and 40 of range 27 remain in Menominee county, because if they were taken into the new county it would divide their properties, and for that reason they believed would be detrimental to the interests. This is one of the matter, to be considered by the committee.

Let the Flags Fly.

MR. EDITOR:—Permit me to inquire through the medium of your valuable paper what has become of the flags donated to the public schools of this city?

We never see national colors floating in the breeze except on a holiday when no school is in session. Are those flags stored away to be mildewed and moth eaten? Was that the purpose for which the flags were donated? In my humble opinion it was not, and I believe the general public will sustain me in this assertion.

It would seem to me fitting and proper that those beautiful colors (the most beautiful of all the national colors in the world) should float over our schools every day during school hours; and I believe that was the intent and purpose of the originators of that patriotic scheme of national flags for public schools.

The bright stars and broad stripes of our noble ensign floating over the heads of our children every day would undoubtedly tend to nourish and increase the fire of patriotism in their young hearts, and thereby develop a love of country otherwise unobtainable.

Let the flags fly!

AN X SOLDIER.

Holiday Rates.

On the Duluth, South Shore & Atlantic and Minneapolis, St. Paul & Sault Ste. Marie. Round trip tickets will be sold between all points on above lines December 24, 25, 31, 1890, and January 1, 1891, at rate of one fare, good to return up to and including January 5, 1891.

Don't forget Gordon's D. F. cigars when you want a good smoke.

\$250.00, \$25.00 cash and \$10 per month will buy a lot in Chicago. Enquire of E. P. Wilbur, room 7, 336 Front street, Marquette. 10-1351
