## THEY REPUDIATE PARNELL

Dillon and O'Brien Refuse to Parley With the Disgraced and Fallen Leader.

## PARNELL TRIES VAINLY TO WIN THEM OVER.

Persists in His Desperate Career. Parnellites Perceive That Their Leader Is Hopelessly Lost.

## PARNELL'S DOOM IS SEALED.

LONDON, July 31.—[Copyrighted.]—Messrs. Dillon and O'Brien's repudiation of Parnell, though a foregone conclusion, has profoundly depressed the parnellites who relied upon a belief that both would suspend a public pronouncement.

Parnell sought through private communications made on the eve of their release to resume negotiations but neither responded to these secret advances. Parnell hoped until the last moment yesterday that he would again entangle them in maneuvers for a reunion. Their prompt and decisive declarations as soon as they were outside the prison doors and their refusal to listen to any advances from the parnellites fell like a blow upon that faction. The last flicker of hope went out when the lord mayor of Dublin and other devoted parnellites vainly tried to induce O'Brien, who was supposed to be more ductile than Dillon, to reconsider his position. Mr. O'Brien bluntly declined a renewal of the Boulogne negotiations or any approach thereto.

When the attitude of the released leaders became definitely known the chief Dublin parnellites held a meeting privately and had a warm time in disputing over the course they should take. An intimation reached them of the desertion of the party organs in Dublin and Belfast and several members of the parnellite committee withdrew, leaving the steadfast adherents to pass a resolution denouncing Dillon and O'Brien and urging Parnell not to yield.

## DOESN'T KNOW HE IS DEAD.

Today Parnell telegraphed to the committee that defections on every side would not make him alter his course a hair-breadth. He proposes on Sunday to speak at Thurles, the strongest ecclesiastical center in Ireland, probably anew to hurl defiance at the bishops and to prophesy his future triumph. He will proceed to try and fill up the gaps left in the committee by desertions.

Another directorate is forming with the aspiration to found a daily paper on "Parnell Pence" capital. The one Dublin evening organ remaining to Parnell appeals to the party to rally and not to succumb to stage fright because they have lost O'Brien.

But the truth now penetrating the stoutest parnellite heart is that their cause is well-nigh extinct and that it will be useless to continue the struggle. If continued it will no longer have a constitutional character. The composition of the league sections now adhering to Parnell points to a reversion of the faction to the old Fenian type. It is safe to predict that Parnell will soon appeal for the support of revolutionary partisans at home and abroad.

## EXCITES PROTESTANT JEALOUSY.

The government training colleges bill, which practically proposes to endow two large Catholic colleges in Dublin and one very minor Protestant college, has caused a revolt in the conservative ranks. However just in principle the bill so raised sectarian jealousy that it threatened to obstruct the session and even to shake the position of the ministry. Mr. Balfour, however, skillfully resorted to a plan to provide the capital for the colleges from the fund at the disposal of the Irish education board. The bill therefore can be postponed.

## PARNELL DODGING HIS CREDITORS.

Mr. William O'Brien was finally adjudicated a bankrupt today at the instance of Lord Salisbury. He will come to London on Monday to try to arrange a conference with Parnell and McCarthy regarding the Paris fund. Mr. McCarthy, at the instance of Parnell, already agrees to the withdrawal of £5,000 to meet legal expenditures incurred when the party was united. Whatever Mr. O'Brien's plan may be there is small hope that Parnell will assent to the release of the fund unless he shall be permitted to control its disposal. His personal embarrassment does not appear to have been relieved by marriage. He has made an extraordinary claim against Captain O'Shea for £300 advanced between September, 1888 and November, 1890—partly during the period of the divorce proceedings. Captain O'Shea denies the debt. Curious disclosures are expected on Parnell's attempt to prove the claim.

## ENGLAND FEARS FOREIGN PAUPERS.

The officials of the board of trade are watching the methods of inquiry of the United States emigration commissioners. It is believed that the enquiry will result in the appointment of an American inspector at all leading English ports with some system of consular supervision. A high official of the board of trade says that the English government officials will be instructed to co-operate with the Americans to secure reforms for the regulation of immigration.

Although publicly protesting that there is no necessity for a special provision against the influx of destitute aliens the government is using the utmost rigor of the existing law to stop the settlement of foreign paupers in England. Customs officers refuse to allow a pauper to land unless able to produce proof that they have means of subsistence or can give the addresses of friends.

An official inquiry has resulted in the disclosure of systematic frauds on the

part of Jewish emigrants from Russia. False passports have been sent to Russia to enable Jews to evade the payment of £10 on each permit to leave Russia. Fraudulent addresses have also been sent to enable emigrants on arrival to evade investigation by the English officials. The facts connected with the inspection of immigrants to England are becoming widely known on the continent and assist in checking the influx.

## VON MOLTKE'S DIARY.

The late Count Von Moltke's diary will appear serially in an illustrated weekly. The privilege of making extracts from the diary was first offered to the London Times for £1,000.

## BANKS MUST LOOK OUT.

Must Either Continue 4 1-2 Per Cent or Deposit Others.

WASHINGTON, July 31.—The books of the 4½ per cent loan kept in the office of the register of the treasury will not be closed during the month of August for the preparation of the September schedule as has been customary heretofore. This change is caused by the fact that no schedules will be rendered until the final dividend of 1½ per cent on the loan, as the interest on the bonds now being received for continuance at two per cent will be prepaid to September 2, 1891, while the interest on bonds not continued will cease on that day and be paid only when the bonds are presented for redemption.

The redemption of 4½ per cent bonds will not begin until September 2, 1891, the date of their maturity. Up to date about \$11,000,000 of these bonds have been continued at 2 per cent. The comptroller of the currency has issued the following circular to national banks in regard to this loan:

"Your attention is respectfully called to the circular of July 2, 1891 issued by the secretary of the treasury authorizing holders of 4½ per cent bond to present them for continuance at 2 per cent.

This option will expire on the 2nd of September, 1891, after which day any of said bonds outstanding and not continued by request of the holder will cease to bear interest by virtue of the call for the redemption issued June 2, 1891, rendering them unavailable as security for circulation after that date. It will be absolutely necessary therefore (so far as the minimum deposits of bonds is concerned) for national banks having 4½ per cent bonds on deposit as security for circulation to (1) secure the continuance of these bonds, or (2) to deposit other interest-bearing bonds in their place. Banks desiring to continue should execute the papers which have already been sent them from the department and forward them, with the treasurer's duplicate receipts representing the bonds, to the office of the secretary and treasury. Banks desiring to substitute other bonds or retire their circulation notes should apply to the comptroller of the currency for the necessary blanks. Your attention is also called to the fact that under the act of July 15, 1870, the last bond issued thereunder must be first called and that there is, there, an advantage to be obtained by early application for the continuance of these bonds, as the new bonds will be issued in the receipt of perfected papers."

Adelaide Brown Resented Her Pastor's Refusal of Her Love.

ORANGE, N. J., July 31.—Rev. William C. Jason, pastor of St. John's Methodist Episcopal church here, was assailed yesterday by Miss Adelaide Brown, a member of his church, who was armed with a horse whip. Mr. Jason is a graduate of Drew seminary and has been in charge of the church for about a year. It is claimed that Miss Brown showed him a good deal of attention and sent him presents and love tokens. He wrote her a letter saying that he was not in love with her and she then asked to have her name taken from the church record.

## INSURANCE SWINDLER CAUGHT.

B. D. Wheldon Tried the Bogus Suicide Dodge in Vain.

PORTLAND, Ore., July 31.—F. D. Wheldon, alias E. S. Strong, is under arrest here as a fugitive from justice from Alabama. A year ago, while living at Birmingham, Wheldon or Strong had his life insured for \$30,000. A few days afterward his hat, clothes and shoes were found on the river bank where he had left them to create the impression that he was drowned. His wife applied for the insurance but the company refused to pay it, claiming that Wheldon was not dead. Suit was brought to recover the money and the case is still pending in the Alabama courts.

## WANTED A YOUNG WIFE.

Z. T. White, Aged 75, Elopes With Lulu Bissell, Only 14.

MEDINA, N. Y., July 31.—Zeppemah T. White of Shelby, aged 75 years, and little Lulu Bissell, who is now in her fourteenth summer, are now man and wife. The girl's parents claim that White persuaded the little maiden to elope with him and driving to a neighboring justice of the peace induced the latter to perform the marriage ceremony by claiming that the girl was over seventeen years of age. White was promptly arrested on the charge of abduction but released on his own recognizance and later made his escape.

## EWEN'S SHINGLE MILL GONE

Village's Only Industry, Clark, Farnham & Co.'s Shingle Mill, Totally Destroyed by Fire.

## FRED GARRAND SHOT DOWN BY CHARLES BIGELY.

No Cause Known for Detroit's Latest Murder—Marshal's Thieving Bank Cashier Arrested at Sedalia.

## FORTY MEN ARE IDLE.

EWEN, Mich., July 31.—[Special]—Ewen's only industry, Clark, Farnham & Co.'s shingle mill, was totally destroyed by fire tonight.

The fire originated in the boiler-room of the mill. The capacity of the mill was about eighty thousand shingles per day. The loss is \$10,000, with very small insurance. The mill employed about forty men, who are thrown out of work. Nothing could be saved as the village has no fire protection.

## SUDDENLY SHOT DOWN.

Charles Bigely's Causeless Murder of Frederick Garrard.

DETROIT, July 31.—Fred Garrard, foreman of the Hammond-Standish packing house on River street, was shot by Charles Bigely at 1:10 o'clock this afternoon. Bigely was at the side of the pen. Bigely suddenly seized the big 52 calibre rifle used for killing cattle and levelled it at Garrard.

"Look out, Fred," he cried, "I'm going to shoot you."

Before Garrard could turn the great ball struck him in the back and penetrating his body came out in front just under the navel.

Garrard was removed to a hospital with all possible speed but died immediately on arriving there. Bigely gave himself up.

Fred May, a workman at the packing house, says Bigely told him five days ago that he was going to shoot Garrard. No cause is known to exist for the murder.

## FUGITIVE CASHIER CAUGHT.

Embezzler Kirby of Marshal Under Arrest at Sedalia, Mo.

MARSHALL, Mich., July 31.—About six weeks ago Cashier Kirby of the City National bank fled, taking with him \$100,000 of the bank's funds. Nothing had been heard from him until yesterday when it was ascertained that he was arrested at Sedalia, Mo.

## DUN'S REVIEW OF TRADE.

Iron Very Low and General Business Is Dull.

NEW YORK, July 31.—R. G. Dun & Co's Weekly Review of Trade will say: Business continues dragging and dull. In commercial circles there seems to be very general and growing confidence that the business of the fall will be large and profitable and some improvement is seen but not enough as yet to justify sanguine views.

Copper is still depressed by the apathy of home consumers and there is very little trade in lead while speculation has lifted and again depressed the price of tin.

Philadelphia describes the iron market as frightfully dull and siles to realize are made at prices considerably below quotations. Structural mills are well supplied for the present and bar iron is steady, though the poverty of railroads makes the demand small. Plates are irregular. Buyers refrain from taking rails. The lower grades of pig iron are offered here below quotations.

The business failures occurring throughout the country during the last seven days number 247 as compared with a total of 254 last week. For the corresponding week of last year the figures were 189.

## AFTER SEAL THIEVES.

Commander Colton Reports Progress of His Guard Work.

WASHINGTON, July 31.—Secretary Tracy today received the following telegram from Commander Colton of the Thetis from Unalaska, Alaska, dated July 12, via San Francisco: "Thetis arrived at Sand Point June 29 and reached here July 3. Went to Pribyloff and returned July 10. Warned eight vessels. The Nymph arrived the 7th. The Mohican and Nymph go to Pribyloff today, the Thetis tomorrow and the Alert Tuesday for two weeks cruise. The Rush warned four vessels and seized the British schooner E. E. Marvin. The Marvin will be sent to Victoria by the British commander."

## SEATTLE'S FATAL FIRE.

Three Persons Were Killed and Several Buildings Destroyed.

SEATTLE, Wash., July 31.—Early this morning fire broke out in the Montana livery stables, completely consuming them, a saloon, a lodging house and three Chinese stores. George Williams, a butcher, was burned to death and a negro cook and his wife received fatal injuries. The loss is estimated at \$50,000.

## SECTION HANDS KILLED.

Three Track Workmen are Run Down by a Freight Train.

PITTSBURGH, July 31.—Three section hands on the Pittsburgh, Virginia & Charleston railroad were run down by a freight train near Turtle Creek, Pa., about 7 o'clock this morning. Marcus Manner, an Italian, was killed instantly and the two others fatally injured. They were Hungarians and their names are not known.

The League Standing. Calumet has taken two straight from Marquette and this morning leads the league. The copper country trip has been a disastrous one for Marquette. Going up there with a nice lead, she is now topped by Calumet. Ishpeming also has lost grand, while Houghton is gradually creeping to the front and is already only a length or two behind the other clubs. Another week or two of such ball playing as the past week has seen and the tail-enders will be dangerously near the lead.

Ishpeming has been badly crippled by the loss of O'Brien and Dixon but their places will doubtless be filled by men equally as good, though they are hard to get. The pitchers in all the clubs seem to be troubled with bad arms, though Renwick and Corbett are in the best trim. Rutter is pitching winning ball for Houghton. Ganss is doing all the catching on this trip of Marquette and doing it well. The trouble with the sluggers appears to be they have lost sight of the ball for the time being, but they'll get a peep at it again soon and hit it with their old-time regularity. Pedros made the only hit the club got off Renwick and Cull hasn't forgotten the knack of finding the ball. Following is the standing this morning:

Table with columns: Club, Won, Lost, Percent. Rows: Calumet, Marquette, Ishpeming, Houghton.

MARINE MATTERS. PASSED THE CANAL. SALT STE. MARIE, July 26. [Special.]—Down—Burkhead, Jones, Commodore, Iron Chief, Iron Cliff, Toledo, Vienna, Paige, Livingstone, Mecosta, Butteroni, Japan, O. B. Lockwood, Kirby, America, Iron Age, Morley, Owen, D. M. Peck, Artie, Ozarita, Hopkins, Lozen, Fay, Rhodes, Clyde.

Up—Nassau, Ames, Hesper, Maruba, Osceola, Republic, Manola, Masaba, Montana, St. Lawrence, Bradley, Woolson, Brightie, Goshawk, Munick, Colwell, Dobbins, Hope, Harper, North Star, Northern Light, Continental, Holland.

PORT LIST. Arrived—J. H. Devereaux, Wawatam, Vulcan, Forest City, Wm. McGregor, E. I. Pease, Leni Ellsworth, W. R. Stafford, J. A. Francome, Tug D. L. Hebard. Cleared—J. H. Devereaux, Wawatam, Leni Ellsworth, Forest City, Wm. McGregor, Cleveland, Havana, E. J. Pease, Ashtabula, Planet, Lorain.

REPORTORIAL PENCILLINGS. Hughes dancing school for adults will be opened in about two weeks, many names having already been handed in. Bella Larochele, the 10 year old daughter of Mr. and Mrs. E. Larochele, died early yesterday morning at their residence on Front street.

The converter for the Harlow block burned out last night and in consequence the tenants were in the same place that Moses was when his oil dip blew out. At the Baptist church tomorrow these topics will be considered by the pastor: In the morning "A Peerless Name Held Fast"; in the evening, "Reservoirs of Power and Joy."

Raphina Cameron, aged 16 months, daughter of Alexander Cameron, died yesterday afternoon of a complication of diseases. The funeral will take place Sunday afternoon at 3 o'clock. Invitations are out for an informal dancing party to be given in Armory hall Thursday evening next, August 6. Mr. Hughes has the management of the dance and with the Arion orchestra and a good promoter a most enjoyable party may be predicted.

A party of gentlemen will leave today for a couple weeks fun in the woods at Salmon Trout. Among the number are, George Shiras, Jr., and H. S. A. Stewart, of Pittsburgh; A. M. Bigelow, of New York, and Carter H. Harrison, Jr., of Chicago. The steam yacht shipped here, consigned to Ira F. Brainard, was taken from the car yesterday and put into the lake. It will be taken to Munising, where Mr. Brainard and a party of friends are spending the summer.

Mr. Albert Eckstrom, of the firm of Eckstrom & Co., and late of the firm of Movick Eckstrom & Co., leaves for Chicago tomorrow to purchase an entirely new and complete stock of dry goods. Eckstrom & Co. have secured a store in the Cole's block where they will open for business about the middle of this month. The dance given last night in Armory Hall in honor of Miss Philomene Longlade, who leaves today for an extended visit among relatives in Canada, was a very pleasant affair. About sixty couples were present and they found it difficult to leave the hall even when the small hours warned them that another day would soon be had.

Mr. A. Bechard, a journalist highly recommended by Hon. Mr. Mercier, prime minister of the Province of Quebec, will tomorrow, Sunday, at 7 p. m. in Macabee Hall, give a lecture on the following subjects: "1. Will Canada live long under its actual constitution? 2. Will it form part of the imperial federation? 3. Will it conquer its independence? 4. Will it be driven to annexation to the United States?" These topics are certainly very interesting not only to the French Canadians, but to every citizen of the republic. There will be music and French comical songs. There will undoubtedly be a crowded house.

manager of the works at Fostoria, Ohio, is in the city, the guest of his uncle, Judge Brown. E. J. Carey, of Negaunee, is registered at the Marquette. D. Fred Charlton returned yesterday from Traverse City. B. Culver, of L'Anse, looked over Marquette yesterday. J. A. McKay, of Ontonagon, is registered at the Clifton. Frank Pascoe and Mrs. Peter Pascoe, Jr., of Republic, are in the city. Mrs. Geo. P. Brown returned home from lower Michigan yesterday. L. E. Dunham, chemist of the Ashland Furnace company, is in the city. C. G. Griffey, of Negaunee, took in the beauties of the metropolis yesterday. Prof. Geo. P. Sihler left yesterday for Detroit to take in the G. A. R. encampment. Dr. A. Kline Thiel goes down the road today for a few days rest and recreation. Mrs. A. S. Westlake and daughter, Miss Lottie, leave today for an extended visit in Chicago and Detroit.

AN ORDINANCE. It is hereby Ordained by the Common Council of the City of Marquette: SECTION 1. No person, without lawful authority, shall dig up, fell, cut, girdle, peel, trim, prune or in any manner injure or kill, or permit any animal to injure any trees, shrub, brush or vine, or cut, dig up or remove, drive upon or in any manner injure any sod, grass, greensward or lawn, or any cultivated plant or flower, or dig, groove or remove any earth, gravel, stone or rock in or upon any of the public parks, cemeteries or grounds of the city.

SECTION 2. No person shall, without lawful authority, take down, remove, deface, injure or destroy any monument, sign, guide board, bridge, walk, steps, fence, railing, seat, stand, bower, booth, pavilion, building, trolly, fountain, lamp, swing, flagstaff or other structure or device in any of the public parks, cemeteries or grounds of the city. SECTION 3. No person shall make, build or start any open fire in any brush, grass, or other combustible material, or shoot off, fire or explode any gun, pistol or other weapon, or any explosive substance, or make or engage in any disturbance or improper noise, fight or riot, or become drunk or intoxicated, nor shall any person shoot, snare, trap or catch, or injure or kill any animal, bird or fowl, or destroy the nest or destroy the eggs of any bird, in any of the public parks, cemeteries or grounds of the city.

SECTION 4. No person shall commit any nuisance, or place, deposit or leave any garbage, refuse, rubbish, dead animal or vegetable substance, wood, lumber, stone or any other article or substance whatever, or cause the same to be done, in or upon any of the public parks, cemeteries or grounds of the city, and every day that any person guilty thereof, shall neglect to entirely remove the same therefrom, shall be deemed a separate offense. SECTION 5. No person shall ride or drive any animal, wagon, cart, carriage or other vehicle at a dangerous or immoderate rate of speed, or ride or drive or cause to be ridden or driven any vehicle with a greater or heavier load thereon than the hundred pounds for each wheel of said vehicle for each inch in width of tire thereon, in or upon any of the public parks, cemeteries or grounds of the city.

SECTION 6. No person shall, without lawful authority, make, erect, maintain or keep any sign, device, stand, bower, booth, pavilion, shed, building, platform or other structure or scatter, distribute or leave any hand bill, dodger or advertisement, or make or post up any notice, bill or advertisement, or cause the same to be done, in or upon any of the public parks, cemeteries or grounds of the city. SECTION 7. No person shall, without lawful authority, sell or offer for sale any goods, wares, merchandise or thing, or be engaged in any business, calling, trade, traffic or occupation for gain, except the transportation of passengers, or engage in any sport, show, entertainment or diversion for which pay is demanded or received, in any of the public parks, cemeteries or grounds of the city.

SECTION 8. Any person violating any of the provisions of this ordinance shall, upon conviction thereof, be punished by a fine of not less than ten dollars nor exceeding one hundred dollars, or by imprisonment in the county jail or jail of the city of Marquette for not more than thirty days, or both said fine and imprisonment in the discretion of the court. Adopted this 17th day of July, 1891. HOMAS MEADS, Recorder. Approved this 17th day of July, 1891. J. M. LONGYEAR, Mayor.

AN ORDINANCE. It is hereby ordained by the Common Council of the City of Marquette: SECTION 1. No person shall ride any bicycle, tricycle, velocipede or other wheel vehicle upon or along any part of any street, avenue or public way in said city unless such vehicle is provided with a good bell or other alarm, nor in the evening or night time unless such vehicle shall also be provided with and carry a lighted lamp which shall show a bright white light ahead of such vehicle and colored lights on either side thereof; nor shall any person while riding any such vehicle faster than six miles per hour approach or pass any animal ridden or driven by any person in or upon any street, avenue or public way. SECTION 2. No person shall ride any bicycle, tricycle, velocipede or other wheel vehicle upon or along any sidewalk within that portion of said city embraced in the line bounded or restricted, in any of the sidewalk in said city within twenty feet of any other person upon such sidewalk at a rate of speed faster than three miles per hour, nor shall any person ride upon or along any sidewalk with any such vehicle so as to prevent any person passing along upon and from occupying any such sidewalk at least one-half the full width thereof. SECTION 3. Any person violating the provisions of this ordinance upon conviction thereof shall be fined not less than (\$5) five dollars nor more than (\$25) twenty-five dollars; Provided that the provisions of this ordinance shall not apply to children under the age of 12 years. Adopted July 17, 1891. THOMAS MEADS, Recorder. Approved July 17, 1891. J. M. LONGYEAR, Mayor.

A COLLEGE FOR THIS CITY.

Scheme on Foot That Promises an Institution of Higher Learning for Marquette.

ESCAPE OF ANOTHER CONVICT FROM BRANCH STATE'S PRISON.

Shot at by Guard and Missed—Purse Pursuit—Test of the New Pumping Engine.

A COLLEGE FOR MARQUETTE.

A movement was inaugurated here yesterday which, if it bears such fruit as its instigators anticipate, means the establishment of an institution of higher education in the upper peninsula, most likely at Marquette.

Some eight or ten years ago the general missionary society of the Methodist Episcopal church conveyed to the Lake Superior Camp Meeting association forty acres of land in Baraga county, near Baraga. The camp meeting association was practically dissolved in 1885 and recently its directors were authorized to convey to an association, the Lake Superior Methodist Alliance, a deed in fee of this tract of land. Upon this forty acres there have been discovered recently valuable deposits of sandstone and it is the intention of the trustees of the new association to lease the land on a royalty.

Those in a position to know are confident that they have a valuable piece of property. Already many proposals for a lease have been received from parties thoroughly conversant with the property and in some cases so confident are the bidders that they offer to pay for a term of years as a minimum a large amount per year, whether a foot of rock is ever quarried or not. This, together with other facts in the possession of the trustees of the association, leads them to a strong confidence in the value of the property.

No lease will be given until after an expert has made a thorough examination of the property and made his report to the trustees. D. W. Powell, of this city, one of the trustees of the association, has been appointed to examine the land and receive proposals for its lease.

The objects of the new association are the diffusion of Christian knowledge and education, the erection and maintenance of churches and schools and other like work in the upper peninsula. The trustees are: Rev. A. R. Bartell, Chas. R. Brown, Sampson, Bice, D. W. Powell, F. E. Hixson, Chas. O. Payne, Rev. F. C. Pillsbury, of Marquette; Capt. Samuel Mitchell, of Negaunee; and W. H. Johnston, of Ishpeming.

Should the land in Baraga county prove to be what it now promises, the income will be devoted to the maintenance of a college at some place in the upper peninsula, and that means of course in its chief town, the Queen City.

Scouted For the Woods.

Another of the boarders at the branch state's prison took to the woods yesterday afternoon. It was one of the most daring escapes yet made from this institution. In sight of a guard, armed with a Winchester, and almost from the side of a keeper, also armed with a revolver, William McDonald, a three year man, made a dash for liberty and got there at least for a time.

McDonald was laying sod in the yard in front of the prison and, being considered a desperate fellow, was adorned at the time with a ball and chain, one of the heaviest and strongest used. Making a plausible excuse he obtained permission from the keeper who was with him to step around the east wall, and directly under an armed guard, who was stationed at that corner of the wall. McDonald was loaded down with a ball and chain and the keeper, thinking he could not get far with them, granted his request—he knows better now.

Scarcely had McDonald got around the corner of the wall when the guard noticed him, scouting for the wood between the barn and ice house. Instantly taking aim he fired, but on went McDonald. Again the guard let go at the fleeing convict, but it only served to put more speed into the feet of McDonald, who was doubtless somewhat annoyed at being taken for a target by such a poor marksman.

In the mean-time the keeper who had McDonald in charge took a hand in the shooting with his revolver. He sent several bullets after him, but as McDonald didn't stop they must have gone wide of the mark—or perhaps McDonald outran them.

The alarm was given at once and soon a posse armed with Winchesters was in hot pursuit. McDonald had such a few minutes start that the posse expected to capture him without much delay. Officers hurried in all directions, beating in bushes as they went, but the underbrush is so thick in the woods thereabouts that a man could scarcely be found were he to lie down unless his pursuer fell over him.

A cordon was formed and within it the officers thought McDonald must be as he could scarcely have got beyond it in the time he had. Up to dark last night, however, the cage was empty and there is great doubt expressed by knowing ones of the officers ever catching the escaped bird.

McDonald was sent here in December, 1890, from Grand Traverse county to serve a thirty months sentence for housebreaking. He would have been out in time to eat Christmas dinner with his family in '92, but probably he preferred being with them before that time, or he may have had a business engagement with some other crook that he did not care to break. It must have been something pressing, to cause him to make the bold dash that he did.

It's a Dandy.

Visions of more ruined blocks flashed into the minds of many yesterday afternoon at 3 o'clock when the bell on the hose house sounded an alarm. There was no occasion for alarm, however, as it was merely the signal for the firemen to assemble to test the capacity of the new Gaskill engine recently put in place

at the water works. The test was eminently satisfactory and proved beyond a doubt that Marquette has an engine that will be able to furnish all the water necessary to extinguish any fire ever likely to occur here. In order to ascertain just what the engine could do, hose were attached to the hydrants and the water turned on before the signal was given to the engineer at the water station. At the time the engineer received the signal, the steam gauge showed 60 lbs. The dampers were instantly opened, and in spite of the fact that additional hose were attached to other hydrants and all were playing, the steam gauge showed a rapid increase to 80 lbs., when the dampers were closed and remained closed during the balance of the test, the steam in the boiler never once marking below 80 lbs.

Six hose were put to playing and with eighty pounds of steam on the boilers the pressure at the hose was sixty pounds and at the works 120 to 125 pounds.

With eight hose playing, more than have ever been used at a fire in Marquette, the pressure at the hose was between fifty and sixty pounds, a pressure more than sufficient for all needs. During the time the eight hose were playing the engine was pumping at the rate of about 4,000,000 gallons and doing it easily. In case of necessity, this amount could be easily pushed up to 4,500,000 gallons, as was demonstrated by the way in which the engine stood the test put upon it, no effort being made to work it to its capacity.

The engine is pumping more water than did the old one, and is doing it at the consumption of four cords of slabs daily, while the old engine consumed seven cords of slabs and one ton of coal in the same length of time. The saving in this one item, fuel, alone, saying nothing of the increased fire protection, will amount to a snug little sum in the course of a year.

The water board will meet tonight when the Holly engine will probably be accepted. Since being put in place it has been run by the manufacturers. The Worthington engine remains to be tested, which will be done in a few days.

Marquette Weather for August.

The probabilities for August as deduced by Signal Officer McDonough from twenty years record are: The monthly mean temperature is likely to average between 69 (1878) and 58 degrees (1885); normal 62; the monthly maximum between 80 (1876) and 66 degrees (1885), normal 75 degrees; the monthly minimum between 60 (1878) and 51 degrees (1885), normal 54 degrees.

The daily mean temperature has only been above 80 degrees four times since the station was established, the highest, 85 degrees, occurring on the 30th, 1879, while it has fallen below 50 degrees thirteen times during the same period, falling as low as 46 degrees three times, 1883, 1884 and 1888. The maximum temperature has been above 90 degrees ten times, the highest, 98 degrees, occurring on the 9th, 1886, while it has fallen below 60 degrees on an average of one time for each year, with 52 degrees on the 31st, 1888, marking the lowest point ever reached. The minimum temperature has been above 70 degrees three times, the highest being 72 degrees, on the 2nd, 1881, while it has fallen below 40 degrees seven times, 33 degrees on the 23d, 1885, being the lowest recorded.

The total rainfall for the month is likely to come between 7.69 inches (1875) and 1.17 inch (1887), normal, 3.05 inches, while the greatest daily amount is not likely to exceed 2.85 inches (1875) nor to go below 0.35 inch (1890). The number of clear days is likely to range between 16 (1877) and 4 (1885), normal 10; fair days, 18 (1872) and 8 (1875), normal 13; cloudy days 13 (1875) and 2 (1877), normal 8; rainy days 19 (1872) and 7 (1887), normal 13. Normally August is 6 degrees cooler than July, has nearly the same amount of rainfall, clear, fair, cloudy and rainy days. The average cloudiness is about 50 per cent.

A New Superintendent.

D. L. Case has just returned from a visit to the stone quarries of Ohio, whether he went in search of a superintendent for the Keweenaw Redstone company at Portage Entry. While there Mr. Case secured the services of John Kern, who was in the employment of the Euclid quarry near Cleveland. Mr. Kern has had experience in the stone business in the upper peninsula, having opened the Malone quarry next to the Portage Redstone company's property at the Entry.

A side track has just been put in on the Keweenaw property, all the new machinery necessary to a proper working of the quarry is on the ground, a quantity of stripping has been done and the company is now ready to push things as soon as the new superintendent gets onto the ground.

A Good Suggestion.

The communication printed below is self-explanatory. The suggestion contained in it is a good one and if followed out will undoubtedly remove much of the trouble the band has had to contend with. There will be little difficulty in getting a sufficient number of sustaining members to place the financial affairs of the organization on a solid basis. One thing is sure, Marquette has a band of which it is proud and anything within reason which the business men of the place can do to assist it will be cheerfully done. It is hoped that there will be a large attendance at the meeting Monday night.

Those to whom I have spoken about it, are favorably impressed with the idea and think it would be well to organize at once such a committee as outlined above. I would suggest that a meeting be held Monday evening, time and place to be announced in Monday's Mining Journal, and let every one attend who is interested in this matter.
