## NOTED AT NEGAUNEE. What Was Done at the Fourth Day's

Session of Teachers' Institute."

Classical Musical Program Well Rendered-School Board Holds a Meeting-Other Mention.

FOURTH DAY'S SESSION. The county teachers' institute whose ssions will close tomorrow has been

conducted on a different plan from any yet held; and, as was expected, better results are bound to accrue to the teachers who have attended it. The plan, as outlined, was to avoid profitless dispublic. cussion, and to stick closely to the consideration of practical subjects. As a result of this, vastly more information was imparted than at previous insti-

tutes of equal duration. Professors Davis and Bellows discoursed on the subjects of Grammar, Language and Arithmetic yesterday morning. The afternoon session was opened by Dr. C. L. Hurd, late of the Northwestern Theological University, who delivered a lecture on Psychology. He treated the subject in two parts, first considering the will and next the sensibilities. His lecture was quite lengthy, but is said to have been the finest heard but is said to have open the mest heard in this city on a scientific subject. Pro-fessors Bellows and Olcott followed, taking as their topics the common branches of study and the methods of teaching them. Professor Arbury was unable to be present yesterday morning as he has lately here engaged as superunable to be present vesterday morning as he has lately been engaged as super-intendent of the Battle Creek high school and was obliged to leave for that eity yesterday. Today is the last day of the institute and the time will mostly be taken up with a review of the subjects treated on at the previous cessions

#### DIED SUDDENLY.

It is the MINING JOURNAL'S sad office this morning to chronicle the death of Mrs. Peter Fitzpatrick, wife of Alderman Fitzpatrick, which occurred quite suddenly last evening about twenty minutes past five o'clock, at the residence of Mr. Dan Sullivan, on Euclid street. Mrs. Fitzpatrick had been making a

#### The Polling Places.

Tomorrow being special election day, when the question of issuing bonds to the amount \$50,000 to be applied to-most estimable and honorable gentleward paying for the construction of man the sewerage system will be decided, the MINING JOURNAL, for the benefit of its readers, again designates the polling places in the several wards and strongly urges every tax-paying voter to turn out and east his ballot in favor of the proposition. Following will be the olling place

polling places: First ward, hose house No. 1; Second ward, City Opera House; Third ward, basement of school house, corner of Ridge and Lake streets; Fourth ward, hose house No. 2; Fifth ward, hose house No, 4; Sixth ward, hose house No. 2 Maurice street. Seconth ward No. 2, Maurice street; Seventh ward, hose house No. 3.

#### An Erroneous Impression

A certain gentleman in Ishpeming is in a position to give considerable news to reporters, but scarcely ever does. When asked recently by the MINING JOURNAL reporter why he did not he gave the following unique answer, gave the following unique answer, which, if not satisfactory, was at least complimentary: "What's the use? you get all the news anyhow." The report-er had nothing to say in answer to this, but went away wondering what on earth he would do for news if everyone held this view of the matter. The gen-tleman's idea, while highly compliment-ary to reporters is not quite correct ary to reporters, is not quite correct. Granted that the news-gatherers do pick up most of the floating items, yet there are times, and frequently, when a piece of intelligence given voluntar-ily, or maybe in response to a request, will save him considerable trouble and at the same time aid in making his daily grist of news larger and more interest-ing to the public.
