MADE A START LAST NIGHT. Electric Street Lamps Burned for the First Time and They Proved Just What is Wanted.

GAS LIGHT COMPANY KEEPS ITS LAMPS BURNING ALSO. County Hospital Committee Holds a Session in Negaunee—Street Car Makes a First Appearance on Iron Street.

"AND THERE WAS LIGHT." For the first time since it had stricken the city of Negaunee had its thoroughfares perfectly illuminated last evening.

The lamps did their work remarkably well, considering that it was their opening performance. They give a strong and steady light and when they are doing business the shades of night have to retire to a place of "outer darkness" beyond the city limits.

Then there were the gas lamps also, the gas company having lit them at the appointed hour regardless of the council's notice that they would not be needed after the 1st inst. The reporter is not prepared to say that the gas lamps added much to the illumination of the streets, but it looked cheerful to see their yellow rays, at all events, and then there are future items of news for his clientele in the prospective contention between the gas company and the electric light company and the municipality over the disputed franchise question.

But to return to our effulgent subject: Negaunee is well satisfied with the new light, and now that it has been shown to be a success on the streets our business men who have need of better lighting will not be slow to secure service from the electric lighting company.

Gas Company Still "In It." For the past few weeks there has been considerable discussion of the validity of the charter granted the Negaunee Gas Light company in 1884.

Before the council granted the electric light company its franchise it obtained the opinion of the city attorney and other legal lights of the county, and they uniformly held that the charter was not valid. The ordinance granting the Negaunee Gas Light company its charter appears on the minutes of the common council of September 1884, and it gives the exclusive and irrevocable right to do lighting in the city to that company for a period of twenty-five years.

Mr. M. A. Gibbs, president of the Gas Light company, in regard to this charter, Mr. Gibbs states that the charter was for that period, but as to the validity of the contract he had nothing to say. He says that the people of this city have the privilege of choosing their light, but he thought that the Gas company could furnish just as good a light and as much light as the Electric Light company for the same money.

Heretofore the city was lighted by about thirty-four gas lamps, for which the company received something over a hundred dollars a month. The Electric Light company will receive \$10 per lamp, or \$300 a month for thirty street lamps, and for that amount of money the gas company would furnish seventy-two more lamps, which would make over a hundred gas lamps altogether.

Mr. Gibbs does not think the Gas Light company has had a fair show. In his opinion one hundred gas lamps would give more light and give better satisfaction than thirty arc lights. The gas company burned its street lamps last evening, although notified not to do so by the council, and is obviously determined to test its rights under the charter granted it by the city by taking legal steps to that end.

County Hospital Committee. A meeting of the committee appointed by the county board of supervisors to look into the advisability of building a county hospital was held at the Breang House Saturday for the purpose of gathering statistics and getting information generally. The committee will submit its report at the next meeting of the county board.

Took a Whirl on Iron Street. An electric street car made its debut on Iron street yesterday. The street was lined with the curious and all had their desire to see a car pulled by electricity satisfied. The motor worked perfectly and the car moved smoothly at the will of the motor man in charge.

At the Grant. Work will be resumed at the U. S. Grant in a day or two. This time the management will sink in a drift to the northwest from the bottom of the shaft where ore was encountered 50 feet from the shaft.

SHOES—Shoes, shoes by the car load arriving daily at Kuhlman's Shoe store.

LOGAL LACONICS. Sheriff Scully and Game Warden Foard were among the Marquette visitors to this city yesterday.

Mr. Jas. McDonald and wife, of Port Sarnia, Canada, left for their home in that city yesterday after spending a week visiting friends here.

Alfred Hanberg was the only Saturday night drunk to appear before his honor yesterday. He was ushered into Justice Primeau's court, the complaint was read and he pleaded guilty. His fine and costs amounted to \$7.34, and as he had the lucre he took 15 days in the county jail as its equivalent in the eye of the law.

The MINING JOURNAL's private detective who has been detailed to work him self into the mysteries of the D. B. club sent in his monthly report Sunday evening. At the last regular meeting of the club a very hot debate on the Chilean question took over the evening. From information that he gleaned it seems that the D. B. club sent a private message to the Chilean government demanding an immediate apology, warning the Chilean high-kickers that if they did not comply with the club's demand Captain Flannery, its military leader, and a company would be let loose on that nation.

A sailor on a coasting vessel which plies between Galveston and ports on the Gulf has some very interesting specimens which he secured while on the coast of Yucatan. Among them is a large jar filled with enormous spiders, which he says are looked upon with greatest fear by the Indians of the central portion of the country, and which are undoubtedly the largest ever seen.

A new form of baseball glove has in the palm an air cushion or pad which can be removed and inflated. It is made in compartments, connected by free but restricted passages, and surrounds a central portion which is unpadding. The arrangement of the glove is said to give admirable results.

When Mrs. Million goes to ride she travels forth in state. Her horses, full of fire and pride, go prancing from the gate. On this safe plan you can buy from our advertised druggist a bottle of Dr. King's New Discovery for consumption.

TOO FOND OF HIMSELF. So Much Interested in the Fair Passenger That He Paid Double.

A pretty young woman, dressed in the height of fashion, got into one of the Fifth avenue "busses" the other day to drive up to Central park. Some of these busses still run on the old "hobtail" system, that is, they have no conductors to collect the fare, and passengers must themselves drop their nickels into a box at the end of the conveyance.

Then she waited for her change. No change came, however. She looked at the box anxiously, evidently thinking that perhaps she needed to pull out a handle or press a button somewhere in order to see her change fall out, but all she saw was a little sign, "Put the exact fare in the box." The men whom she had overlooked only grinned. She appealed to the driver for change. He told her he could not open the box, but that if she would wait until another passenger got aboard she could have his nickel instead of his dropping it in the box.

Pretty soon a typical "chappie," with monocle and English covert coat much too large for him, stepped into the bus and offered the driver ten cents to be changed into two nickels. The driver explained to him the predicament the young lady was in and asked him to give her one of the nickels.

"Certainly, with all the pleasure in the world," said the young fellow, as with a "ain't-I-just-in-it?" smile he raised his hat, bowed profusely to the young woman and dropped a nickel into her little gloved hand. He beamed into her eyes as he did so in a way that evidently embarrassed her, but he grinned wider at her blush and looked around at the others as if to say, "Watch me mash her the first time." Then with a jaunty air he dropped the other nickel in the box.

Then several men snorted and the young fellow looked up surprised to see what they were laughing at. He could not help seeing that he was the object of their merriment. He could not understand it at first, but pretty soon it struck him that he had got rid of two nickels for one ride. Then he blushed up to the roots of his hair, got very hot indeed and went out on the roof to cool off.

A New Baseball Glove. A new form of baseball glove has in the palm an air cushion or pad which can be removed and inflated. It is made in compartments, connected by free but restricted passages, and surrounds a central portion which is unpadding. The arrangement of the glove is said to give admirable results.

The amount of temperance drinks consumed in England or exported annually reaches the enormous total of 250,000,000 dozens.

WONDREUL DISCOVERY. Great News for the Children.

At last the cure of St. Vitus' Dance, Epilepsy, and other fits has been discovered. The little ones need no longer suffer from these terrible nervous diseases. The remedy is the great nerve cure, Dr. Greene's Nerveura, and the enormous demand for this medicine in all nervous diseases of children has firmly established it as the great children's remedy. It is purely vegetable and perfectly harmless. Druggists, \$1.00.

"It affords me greatest pleasure to state that my daughter, who was a sufferer from St. Vitus' Dance, and who was treated for same by prominent physicians in Brooklyn without result, was completely cured by using two bottles of Dr. Greene's Nerveura. PROF. J. M. ELWOOD, 43 Cornelia St., Brooklyn, N. Y.

"My boy was very nervous and had 4 or 5 fits every day. After using Dr. Greene's medicine three weeks he began to get well, and has had no fits since. Ten doctors gave him up as incurable. The doctors and my neighbors can hardly believe their eyes when they see my boy full of strength and well. MRS. EMMA SWEENEY, 13 Ballard St., Fall River, Mass. Dr. Greene, the successful specialist, in curing all forms of nervous and chronic diseases, 35, 47, 11th Street, New York, can be consulted free, personally or by letter. Call or write him about the case, or send for symptom blank to fill out, and a letter fully explaining the disease, giving advice, etc., will be returned free.

BUCKLIN'S ARNICA SALVE. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price, twenty-five cents a bottle. For sale by H. H. Stafford & Son.

LAKE SHORE IRON WORKS. SPECIAL MEETING OF STOCKHOLDERS. Of the Lake Shore Iron Works, will be held at the company's office in the city of Marquette, Mich., on east Washington St., on Tuesday, the second day of February, A. D. 1902 at 4 o'clock P. M. of said day, for the purpose of electing directors and the transaction of such other business as may properly come before the meeting.

CARTER'S LITTLE LIVER PILLS. Cure SICK HEADACHE. Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured HEADACHE.

"TAKEN TO A COUNTY JAIL."

Proprietor and Editor of the Beaver Star Given Six Months Each.

PUNISHMENT FOR LIBELLING SENATOR QUAY.

Also Fined \$800 and Costs Each and Roundly Roasted by the Judge From the Bench.

HOW ABOUT NEW YORK WORLD?

BEAVER, Pa., Feb. 1.—The final act in the criminal libel suit brought by Senator Mathew S. Quay against the Beaver Star occurred this morning. The defendants, Messrs. John H. Mellon, proprietor, and William H. Porter, editor, who were recently convicted, appeared in court before Judge Wickham for sentence. The court imposed a penalty of six months in jail and \$600 fine upon each of the prisoners, the costs of the prosecution also being assessed against them. In imposing sentence Judge Wickham said a brief reference to the facts of the case would not be amiss. Among other things he said:

"John Bardsley misappropriated over a million and a half dollars of public moneys. No Pennsylvanian was ever before charged with such a gigantic embezzlement. The enormity of Bardsley's crime, in a degree at least, measures the gravity of the offense of maliciously connecting the name of an innocent man therewith. Without any more apparent cause than would exist in the case of any of the thousands who honestly received checks from Bardsley during his official career you boldly and sensationally charged the prosecutor with being an accomplice of the defaulter and a sharer in his plunder. Before the publication you had in your possession the prosecutor's denial, if any were needed. In his sworn information he again averred the falsity of the published charges." The judge reviews the evidence at some length and says: "In conclusion I may add that if you had libelled the humblest man in Beaver county to the same extent that you have traduced the prosecutor the same sentence that is here imposed would be inflicted."

"SHOT WHILE ESCAPING."

Trial Mexican Method of Disposing of Troublesome Prisoners.

CITY OF MEXICO, Feb. 1.—Colonel Hernandez, who was recently condemned to death by a court martial at Monterey for sympathizing with Garza, yesterday attempted to escape; he was shot by a guard. Prince Iturbide has decided to postpone his marriage with the daughter of Senator Stanford of California, owing to his mother's recent death.

TRAINMEN THREATEN A STRIKE.

Union Pacific Employees Irritated Because No Answer Is Given.

OMAHA, Feb. 1.—The grievance committee of the conductors and brakemen, who laid their demands before the officers of the Union Pacific nearly a week ago, have become irritated because of their failure to receive a reply. They intimate strongly that the road must accede to their demands and declare the strike, if it comes, will stop every wheel on the entire system. It appears that the conductors and brakemen are determined to force their claims to an issue and that they have carefully considered both the possibility and the practicality of a strike. They hope for peace but are prepared for war.

MURDERED A DEAF MUTE.

Wise Howard, Slayer of Fourteen Men, on Trial.

LEBANON, Mo., Feb. 1.—The case of Wise Howard, the famous Kentucky outlaw who is under indictment for the brutal murder of a deaf mute boy named McMichael, was called this afternoon. The prisoner is one of the most notorious and desperate criminals who ever appeared before the courts of Missouri, standing charged with fourteen homicides. It is said that McMichael was an important witness in the trial of a man named Jennings on a charge of robbery and that the latter hired Howard to kill the deaf mute.

PROBABLY ONLY A TORPEDO.

Alleged Discovery of Dynamite Bomb on Union Pacific Track.

KEARNEY, Neb., Feb. 1.—A dynamite bomb was discovered on the Union Pacific tracks near West Kearney this afternoon. The bomb had been placed on a switch in such a position that it would have exploded when struck by a train. Two boys found the bomb just before the east-bound passenger train was due and turned it over to the police.

WHISTLER GETS THE CROSS.

Well-Known English Painter Honored by the French Government.

PARIS, Feb. 1.—The decoration of an officer of the Legion of Honor, conferred upon Mr. James Whistler, the well-known etcher and painter, has been given by the government as a mark of its appreciation of Mr. Whistler's action in virtually presenting one of his pictures to the art gallery of the palace of the Luxembourg.

IVES BOBS UP AGAIN.

Detroned Napoleon of Finance After Some Bank Stock.

PITTSBURGH, Feb. 1.—Henry S. Ives, "the Young Napoleon of finance," today filed a statement in the suit brought against J. D. Callery and William V. Callery to recover damages in the sum of \$70,000. The plaintiff alleges that he bought 1,050 shares of the City Savings Bank of Allegheny at \$52 per share and paid to the late J. D. Callery \$10,000 on account; that he demanded the stock, offering to pay the balance due, but that Callery failed to deliver the goods. The plaintiff further avers

that the late J. D. Callery owed him \$70,000 for moneys advanced and to be expended for the use of the plaintiff.

PETER WAS PRECIPITATED.

Miner Disobeyed Orders and Went Home in His Coffin.

PANA, Ill., Feb. 1.—Peter George, an unmarried miner 23 years old, contrary to orders attempted to place some timbers across the mouth of the Pennville shaft to hold a water-box. One of the timbers tipped up, striking George in such a way as to precipitate him down the shaft 700 feet. He was picked up an unrecognizable mass.

SPURGEON'S FUNERAL TODAY.

Remains Will Be Placed in Mortuary Chapel at Mentone.

MENTONE, Feb. 1.—The remains of the Rev. Charles H. Spurgeon, the noted English divine who died here last night, are lying on the bed in which he died. The body will be removed tomorrow to the mortuary chapel in the cemetery. Mrs. Spurgeon is bearing up well under the great sorrow that has come to her.

SPARKS FROM THE WIRES.

United States Commissioner of Labor Carroll D. Wright began a course of eight lectures before the political economy department of the Northwestern University at Evanston, Ill., on "Studies in Statistics." The lectures are free to citizens as well as to students and the lecture room of the First Methodist church was well filled.

Representative Lynch introduced a bill authorizing the Marinette & Western railway company to construct and operate a line of railroad as well as telegraph and telephone lines in an easterly and westerly direction through the Menominee Indian reservation in Shawano county, Wis.

Steinitz won the thirteenth game in the great chess match against Tschigorin at Havana. The latter opened the game and selected the Evans gambit for the attack. There was a large gathering of chess players present.

Advices from Samoa say that Minihiti's followers have abandoned their cause and the danger of civil war is over. Baron Pilsach has withdrawn his resignation of the presidency of the Apia council.

Representative Simpson of Kansas introduced a bill to promote and encourage agriculture by authorizing the United States government to lend money on farm land at 2 per cent per annum.

A joint resolution requesting the president to return to Mexico the flags captured by the United States army during the Mexican war was introduced in the senate and house.

The annual assembly of the Nebraska Knights of Labor convened at Omaha. A grand reception and ball was given by the local assemblies.

The decrease during the month of January in the public debt was \$3,205,069.

No Animals in the Dry Parts of Caves.

No animals whatever are found in the dry parts of caves. Dampness, or a certain degree of moisture, seems to be essential to their existence. Under the stones one finds white, yellow worms, and in the damp soil about about are to be discovered blind beetles in little holes which they excavate and bugs of the thousand-leg sort. These thousand-leg bugs, which in the upper world devour fragments of dead leaves and other vegetable debris, sustain life by the excrements by feeding upon decayed wood, fungus growths and bits of dung. Kneeling in a boat on a path one can see numbers of them gathered about luscious drips of tallow from tourists' candles. There are plenty of crickets also.—Washington Star.

Queer Religious Sects in Russia.

M. Tsakni, a Russian writer, has published an interesting work upon the curious religious sects of Russia, from which it appears that there are not less than 15,000,000 followers of insane and cranky notions in that empire. These communities of devout and deluded Christians are constantly springing up in spite of all the efforts of Russian despots to keep them down.—St. Louis Republic.

Forecast of the Weather.

WASHINGTON, Feb. 1.—S. P. M.—The weather bureau reports the following as its forecast for the next 24 hours: For upper Michigan: Winds shifting to colder, northwest, with threatening weather and rain or snows; probably fair Wednesday.

CHICAGO MARKETS.

CHICAGO, Feb. 1.—The leading wheat futures ranged as follows: Open-High-Close. Feb. 85 1/2-86 1/2-86 1/2. Cash quotations were as follows: Flour, steady, unchanged. No. 2 spring wheat, 80 1/2; No. 3 spring wheat, 79 1/2; No. 2 red, 85 1/2; No. 3 red, 84 1/2; No. 2 oats, 29c.

CHICAGO, Feb. 1.—Prices at the stock yards ranged as follows:

Cattle—Receipts, 10,000; shipments, 4,000; market slow; lower; good to choice steers, \$4.00@4.25; others, \$3.00@4.25; stockers, \$1.75@3.25; cows, \$1.50@2.50.

Hogs—Receipts, 45,000; shipments, 10,000; market lower; rough and common, \$4.00@4.15; mixed and packers, \$4.25@4.40; prime heavy and butchers' weights, \$4.45@4.55; light, \$4.20@4.35.

Sheep—Receipts, 9,000; shipments, 500; market slow; lower; ewes, \$2.50@4.25; mixed, \$4.00@4.75; wethers, \$4.50@5.25; westerns, \$5.00; lambs, \$4.00@5.85.

METAL PRICES.

New York, Feb. 1.—Pig iron, dull and steady; American, \$15.75@17.75. Copper, quiet and steady; Lake, January, 10.70c.

COPPER STOCKS.

BOSTON, Feb. 1.—Closing prices of copper mining stocks were as follows: Allouez, \$1.12 1/2; Atlantic, 9 1/2; Boston & Montana, 33 1/2; Butte & Boston, 14 6 1/2; Centennial, 8 00; Calumet & Hecla, 266 00; Franklin, 11 25; Keamsburg, 10 25; Osceola, 25 3 1/2; Santa Fe, 25; Tamarack, 155 00.

GERMAN SOLDIERS' WRONGS

Prince George of Saxony Takes Measures to Check Brutality of Officers.

INHUMAN PUNISHMENTS FOR SLIGHT OFFENSES.

Socialistic Agitation and Discontent Fostered by Cruelty to the Helpless Men in the Ranks.

TREATED WORSE THAN BRUTES.

BERLIN, Feb. 1.—The socialist journal Vorwaerts today publishes a copy of an order issued to the Twelfth army corps by Prince George of Saxony calling upon the officers to put a stop to the inhuman treatment of the men by non-commissioned officers, the prince adding that socialism, which is a public danger to Germany, will only be strengthened by such treatment. The order instances nine cases of cruelty. In one case a sergeant drilled his men during meal times and sleeping hours until they were half dead with fatigue. In some punishment drills the men were compelled to present arms 500 times. In one case a recruit was obliged to raise and lower a can of boiling coffee until he became so exhausted that he allowed the can's contents to stream over his head and shoulders.

DIDN'T MISS MUCH.

Interesting Comments on the News of a Day by a Woman with No Glasses.

The man on the seat ahead of her was reading a newspaper, and after getting settled in the midst of her parcels and bundles and regaling herself with a pinch of Scotch snuff, she leaned forward and said:

"I don't get much time to read the papers nowadays, but I allow like to hear what's goin' on. Is there any news in particular?"

"Nothing very exciting," he replied, as he sized her up out of the corner of his eye. "Here's an item about a wife killing her husband."

"With an ax?"

"Law me! Well, she probably stood it and stood it until she couldn't stand it no more. It's awful how some husbands do carry on. Anything else?"

"Here's an item about a woman in this state who drove her husband to suicide by nagging him."

"Shoot! Jest kept jawin and complainin from mornin till night, I suppose, and he finally got so tired that he took pizen?"

"No, he hung himself."

"Wall, I don't blame her a mite. He was probably shiftless and lazy, and it split her temper to see things goin down hill. She'll have a chance now to get married to a better man."

"And here's a case," he continued, as he pretended to read, "of a wife and mother who ran away from home with a tin peddler, leaving a husband and several children behind."

"Shoot! Does it give the perticklers?"

"It says she is supposed to be a little flighty in her head."

"Wall, she ain't a bit flighty. She done jest right. I know party nigh how it was. She had all her housework to do and them young 'uns to take care of, and the husband was probably findin fault all the time on top o' that. She jest slaved and slaved till she couldn't slave no more. Some folks think a woman can bear everything, but they can't. I s'pose the youngest child was purty small?"

"Only seven months old."

"Wall, she probably hated to leave it, but it would have been weaned in a couple of months anyhow, and the father kin bring it up on a bottle. I'll serve him right if it squalls half the time. Anything else?"

"Why, I notice that a woman has just married her fifth husband, and isn't fifty years old yet. Her neighbors are so indignant that they talk of driving her away."

"La! Got her fifth, eh? Wall, if I was that woman the naysayers might talk and blow and be hanged to 'em. I ain't fifty years old, nither, and I'm a-livin with my fourth, and don't keer how long he goes. I was powerfully deceived in him."

"Do you say that you'd marry again if he should die?"

"Sartin, and I wouldn't wait over six months, either. Some folks think a woman has no rights, but she has, and she's a fool if she don't assert 'em."

"This may interest you," said the man, as he turned the paper over. "A St. Louis doctor declares that the feet of women are gradually but surely growing larger, and that in the next fifty years to come every one of them will want a No. 7 shoe."

"Shoot! He says that, does he?"

"Yes, 'em."

"And he's a doctor?"

"Yes, 'em."

The Progress of Volapuk.

It is a very interesting fact that the world language, Volapuk, is not only coming to be spoken conversationally by its enthusiastic votaries, but is to be made a medium of interlingual communication at the World's Columbian fair. A complete record of progress made in spreading Volapuk since that delightful national convention of its votaries was held in Boston, considerably more than a year ago, would astonish all but the few who keep closest watch on the movement. A significant circumstance is that recently the Young People's Society of Christian Endeavor of the People's church, Boston, formally adopted Volapuk as a study for that organization, and a class of forty members (expected to double shortly) was formed, to meet each Monday evening in the church's reading room for instruction.

Other noteworthy instances are as follows: The people of Newton, quite at their own request, are to have a lecture on Volapuk under the auspices of a ladies' association there. Salem and Gloucester are to have lectures in January, and the interest all over the country is similarly manifested. Newspaper lessons, published simultaneously all over the maritime provinces, Canada and the United States, have been given weekly since Oct. 10. The students write out the exercises of the lessons and send them to convenient points, as designated, for annotation, and immense numbers of young and old of both sexes are following the lessons.—Boston Advertiser.

Area of the Canadian Dominion.

In the last issue of the Statistical Year Book of Canada, compiled by Mr. Sydney C. D. Roper of the statistics branch of the department of agriculture, we find that the total area of the dominion is computed to be 3,456,393 square miles. In this estimate 140,736 square miles are assigned to water and 3,315,657 to land surface. The table which yields this total is said to be an entirely new one, having been specially prepared at the request of the compiler of the Year Book by the Topographical Survey branch of the department of the interior.

"The measures have all," we are told, "been made anew and checked, and may be depended on, in so far as warranted by the present geographical knowledge of the country. No change will be made in these figures unless based upon new information." As this is a question on which there has been a good deal of discussion and much difference of opinion, it is satisfactory to receive this assurance from what we may regard as the highest official and professional authority.—Montreal Gazette.

Dr. Talmage's New Year's Maxims.

Make it the best year of all your life—the brightest, the happiest and the best. Imbue your heart with the freshness of the morning, your soul with the sparkle of the dawn. Resolve by good deeds and thoughts to make this the most triumphant year of your life. As a series of short maxims to carry with you through this year, let me give you these: Make every day begin and end with God.

Be content with what you have. Have a hearty, joyful family altar in your domestic circle.

Fill your home with as much good reading and bright music as your means will allow.

Think ill of none, but well of all. If fortune favors you, think of others. Don't sham; be real.

Keep busy and you will keep healthy. Respect all sacred things. Love God.—Dr. Talmage in Ladies' Home Journal.

Something That Has Been Needed.

For some time past the public have been looking for an adjustable grille, with shelf attachment, upon which to place bric-a-brac, the whole to be arranged over windows or doorways to relieve this portion of a room, which is usually dependent upon a curtain pole. The great trouble has always been that they had to be made to order, as windows and doors vary in width. Now, however, a device is made narrow enough to go into the narrowest doorway. It is in two sections, running upon a sliding top bar. By drawing these pieces apart the case can be extended to the width of the door, and the open place left in the center of them is furnished with a short drapery.—Philadelphia Upholsterer.

The Boy Did the Job.

An East Dover (Me.) farmer had a mare something over 20 years old, and not thinking it advisable to winter her, spoke to some boys to take her out, shoot her and bury her for a money consideration. Boys No. 1 and 2 did the job all right, but No. 3, not knowing the mare had been killed, went the following day to the farmer's boy and inquired an animal in the stable, took him out and led him down to a piece of wood, shot and buried him. Imagine the farmer's surprise on coming home to find that boy No. 3 had shot and buried a nice 5-year-old, worth in the neighborhood of \$200.—Boston Transcript.

Beet sugar may be bought in certain stores in our eastern cities. To the taste it cannot be distinguished from the best cane sugar except by experts, who say it is richer in sweets than most cane sugar.

THE COMING MAN.

A pair of very chubby legs, Encased in scarlet hose; A pair of little stubby boots, With rather doubtful toes; A little kilt, a little coat, Cut as a mother can— And lo! before us stands in state The future's "coming man."

His eyes, perchance, will read the stars, And search their unknown ways; Perchance the human hand and soul Will open to their gaze; Perchance their keen and flashing glance Will be a nation's light!

Those hands—those little busy hands— So sticky, small and brown; Those hands whose only mission seems To pull all order down— Who knows what latent strength may be Hidden within their clasps, Though now 'tis but a taffy stick In sturdy hold they grasp.

Ah, blessings on those little hands, Whose work is yet undone! And blessings on those little feet, Whose race is yet unrun! And blessings on the little brain That has not learned to plan! What'er the future holds in store, God bless the "coming man!"

At a Marriage License Window. A marriage license window is a queer place, and one at which human nature is lured to official inspection as it seldom is in any other government office. Hither come the gossips to ask whether certain couples whose names were published the other day have yet got married; to ask what sort of a looking man it was who took out a license to wed with Susie Todd—was he tall and light or stout and dark? And hither come angry mothers to say that no permit should have been given for their daughters, who are not so old as was said. They ask how the law can be invoked to punish the offending bridegrooms. But there are other brides who appear to be forty or thirty, yet declare themselves thirty or twenty.

Back comes a man to ask if his permit number cannot be changed, because he wants to buy a lottery ticket of the same number as his wedding license, and cannot do so unless a change is made. Old men speak for girlish brides, and ancient wrinkled women lead up very young men, holding their arms as if they might escape. Once a girl came weeping, and said the man she meant to marry lay dying, and there was not a moment to lose. Indeed, it is a queer place, and the whole fillimitable gamut that novelists have spanned in many centuries is there at hand still sounding fresh notes and offering new chords.—Julian Ralph in Harper's Weekly.

How Muskrats Are Trapped.

Trapping is one of the modes by which muskrats are secured. The traps are made of boards about 6 inches wide and 3 feet long. These are nailed together like an ordinary box trap, the open ends being secured by swinging doors of wire network, fastened to the upper part of both entrances. These doors allow easy ingress to the trap, but once in the rat cannot get out without opening the door by pulling it to him, which secret they seem very slow to discover. These traps are put in the leads running from the houses to the water when the tide is at low ebb and the rats are out feeding. On the return they crawl up the leads, push against one of the wire doors of the trap, which immediately opens into the trap, but they cannot go further, as the next door opens toward them. Before they can gnaw out the tide makes up and they are drowned in the trap. By having a number of traps and watching the tides closely a trapper can capture a large number in this way.—Baltimore Sun.

Judged by His Appearance.

An amusing incident occurred some time ago which illustrates the scanty ceremony with which shabbily dressed people are often treated. A country magnate in the north of England was called upon with reference to a scheme for the furtherance of some local charity by a person whom the servant, judging by his timeworn habiliments, described to his master as "either a beggar or a tout for orders," adding that he had left him in the hall, not thinking it safe to show him into one of the rooms. The "beggar or tout" turned out to be no less a personage than the member for the district, and one of the richest men in the county.—London Tit-Bits.

He Couldn't Be Frightened.

A small boy on Sixth street hates the washing process worse than snakes. His mother was scrubbing him and he was kicking.

"Why don't you be a good boy," she begged. "Don't you know that you'll go to the bad place if you are not?"

"There ain't any water there, is there?" he asked.

"Not a drop," answered solemnly. "Then I guess I'll keep it clean."

And he kept on.—Detroit Free Press.

Fully 85 per cent. of artificial limbs made are legs, 15 per cent. arms. Of legs, 49 per cent. are right, 46 per cent. left, 5 per cent. both right and left. Seventy-eight per cent. of legs amputated are of males, 22 per cent. are females.

One of the tricks of the coffee trade is to sift the beans so as to get the small beans out of inferior Java coffee and mix them with Mocha, so as to sell at a higher price. Sometimes even experts will be deceived by this trick.

WANTED, A GREAT BIG TREE

No Toothpick Need Apply, Only the Biggest Tree on Upper Peninsula Desired.

HON. GEORGE WAGNER ON THE TOWNSHIP SCHOOL DISTRICT LAW.

The "S" Supper Tonight-January's Record Analyzed-A Masquerade Ball Announced.

TROT OUT YOUR BIG TREES.

Michigan's World's Fair commission wants to find a pine tree which will do credit to the state and sustain its reputation for giant pines at the great Chicago exhibition. It has heard from a number of big trees, the largest thus far being on the Sturgeon river on this peninsula. But to make sure of our laurels every upper peninsula cruiser who knows of a giant pine should secure its measurements and send them, together with the location of the tree, to Hon. Peter White of this city, the upper peninsula's representative on the commission. The peninsula's forest wealth in maple and birch ought also to be made known and anyone knowing of monster trees of these or any other varieties on this side of the straits would be showing the proper amount of patriotism by making their whereabouts known to Mr. White. Come now, the MINING JOURNAL is looking for information. Where is the largest pine, the largest maple and the largest birch in the upper peninsula and where are the three trees located? Come on with your figures.

Township School Districts.

The attention of all school district officers and voters and tax-payers in townships is called to the following circular from Hon. George Wagner explaining the purposes and advantages of the township school district law fathered by him at the last session of the legislature and now about to be introduced in many upper peninsula counties. The advantages offered by the new law will at once commend themselves to the parties for whom the circular is intended: To Township Officers and Voters of the Upper Peninsula: GENTLEMEN:-Act No. 176 of the session laws of 1892, provides for the organization of township school districts in the upper peninsula, leaving it optional with the electors of each township to adopt or reject the new system. In order to get the benefit of the new law it is necessary that a majority of all the voters, who voted at the last election, sign a petition to their respective township boards for its adoption. (The signatures of electors who did not vote at the last election will be useless on a petition for the purpose of such organization.) As the introducer of this measure, I deem it advisable to explain to the voters and taxpayers of townships in the upper peninsula, two of the main benefits to be derived from such organization. First-It does away with the school boards of the several school districts in your respective townships, and their powers and duties are centralized in one board to be elected for this purpose, called the board of education, and composed of the school inspectors, township clerk and two trustees, to be elected for the term of one and two years respectively. Second-As under the primary school laws of this state now in existence no school district can be composed of more than nine adjoining sections, the school taxes levied in such districts must be spread upon those nine sections only. Under the act above referred to, each organized township becomes a single school district (as in cities), and therefore all the lands comprised therein pay their proportionate share of school taxes as well as they pay now their share of the state, county, and other township taxes. In townships where this system has been adopted and in force for several years it works very satisfactorily, and I am glad to learn that many supervisors on this peninsula are already preparing to adopt the new system at the spring election. Yours truly, GEO. WAGNER, MARQUETTE, Feb. 1, 1891. (Upper peninsula papers please copy.)

The Sisters' Social Society expects to serve a scrumptious supper schedule at the Presbyterian church this evening from 6 to 9, all for 50 cents, can readily be furnished from the somewhat scanty selections from that self-same schedule for which the MINING JOURNAL can find space this morning: SOLIDS. Savory slices, sage-seasoned, skillfully spiced. Scalloped salt-sea oysters, served steaming. Smoked sausage strongly seasoned. Sandwiches smoothly spread, slightly salted. Stewed smoked swine sliced. Stewed scandal scatterer. Succulent substantial from a sister state. Sister Slagg's superior soul-satisfying Sineset biscuit, skillfully shaped, sufficient spread. SALADS. Sister Smith's shrimp salad. Sister Spencer's schicken salad. Sister Slow's sauerkraut salad. Sister Spry's salmon salad. SIPS. Specially selected coffee steamed and strained, sweetened with sugar squares, sipped from solid silver spoons. Simple, steeped, sleep-stealing tea, satisfactorily strong. Superior's sparkling specialty.

Bought It Back. Yesterday afternoon George Preston bought back his Washington street cafe from J. H. Lewis, paying him \$80 for his bargain, and the bill of sale executed Saturday was accordingly torn up and the purchase price refunded to Mr. Lewis. Mr. Preston made the change in deference to the wishes of his wife, who was greatly averse to his retiring from the restaurant business.

A Masquerade Ball. A grand masquerade ball will be given at the Casino on Friday evening, February 19th, by six well-known Marquette young men under the name, "The Marquette Masquerade club," and every effort will be made to render the affair a thorough success in every particular. Fifty dollars will be offered in prizes, the floor will be covered with canvas, the music will be furnished by the Marquette City band and supper will be served at the Hotel Brunswick. The six having the man-

REPORTORIAL PENCILINGS.

Effie Ellsler-seats-Armory-10:30 this morning. The first Rebekah dance takes place at Fraternity Hall this evening.

Attend the auction sale of seats this morning at the Armory and go prepared to bid. If you don't want to roost high then go early and secure your seats for the opera house opening.

Remember the "S" supper at the Presbyterian church from 6 to 9 this evening, the charge will be 50 cents.

Mrs. Mitchell died late Sunday night at her home on Rock street, near the Hotel Marquette, at an advanced age.

The monthly meeting of the Marquette Building & Loan association will be held this evening. Remember your assessments.

Be on hand promptly this morning at 10:30 o'clock at the Armory to secure your seats for the opening of Marquette's elegant new opera house.

The new bottling works at the Upper Peninsula Brewing Co.'s brewery are nearly completed. The new works will be a decided addition to the industries of the western portion of the city.

Capt. C. D. Blanchard has worn the honors of a grandfather for over a month now. A little girl arrived at the home of his daughter, Edna, now Mrs. Hill-ton, in Quincy, Mass., on the day after Christmas.

By a typographical error yesterday the word "Tuesday" became "today" and thus the MINING JOURNAL announced the advent of the state prison board one day sooner than it intended. The members of the board will arrive in the city today.

H. A. Harrison and Wm. Lipsett, two of the Soo's popular young men, are preparing to go into business at Ewen. They are now erecting a store building and expect to occupy it about the first of March with a stock of drugs, jewelry, lumbering goods, etc.-Soo News.

Attention is called to the candy announcement of the Toles Drug Co. on this page. One of the finest lines of fresh candies in this part of the state is now to be found at Toles' and everyone possessed of a sweet tooth will take pleasure in endorsing this opinion after once sampling the new lines.

Letters from Hon. V. B. Cochran show that he suffered a greater loss of appetite in his months of dread anticipation of his trip across the ocean than he did on the passage. The Fulda had a very lively time of it but he was one of the seven passengers who did not lose a meal.

Jacob Rose left yesterday for Chicago to order new goods for his spring trade. During his absence his store in the Greenwald block will be remodeled in order to accommodate a larger stock than he has ever before carried, the work being commenced in a few days. He expects on his return to make boots and shoes one of the leading lines in his store, greatly increasing his stock in that department.

Joe Smith struck something which was bigger than he was yesterday noon. It was a slippery sidewalk and it floored the amiable tonsorial artist with a wild, unfeeling alacrity which made Joseph apostrophize the antiquated smoking jacket of the renowned inmate of Potiphar's household in fathomless tones-he is still trying to discover whether he sprained an ankle in the scrimmage or not.

The Bright Side. Youngusband-You've made a fool of me. Mrs. Youngusband-That will be handy for you, now, my dear. You can do silly things to keep the baby amused. -New York Epoch.

STIMULATE THE BLOOD. Brandreth's pills are the great blood purifiers. They are a purgative and blood tonic, they act equally on the bowels, the kidneys, and the skin, thus cleansing the system by the natural outlet of the body-they may be called the purgative sudorific and diuretic medicine. They stimulate the blood so as to enable nature to throw off all morbid humors, and cure disease no matter by what name it may be called. One or two of them taken every night will prove an infallible remedy. Sold in every drug and medicine store, either plain or sugar coated. For postholstering and repairing of furniture, call on Hughes & Olson, Third street opposite postoffice.

His Hat Saved the Trestle. Saturday evening Ben Rivers, of Jacksonville, Fla., while walking the Western railroad track discovered that the trestle over Highland branch was on fire. He sent in an alarm to the officials, and remained to fight the fire as best he could. The only water to be obtained was from the branch, and Rivers carried it steadily in his hat for hours until assistance arrived from town in the shape of a locomotive loaded with employees. The opportune aid of Rivers undoubtedly saved the trestle from destruction.-Exchange.

The show of lotus in the lake on the west side of Central park near One Hundredth street, New York, continues, and there are thousands of seed vessels, full blown blossoms and buds. A young woman has been sketching the scene daily for some time past. The impish lads that infest the park stand upon the edge of the lake and lasso the blossoms.

Including approaches, the new London Tower bridge will be more than half a mile long, and 80,000 tons of stone, 20,000 tons of cement, 15,000 tons of steel and iron and 81,000 tons of brick will enter into its composition.

Eight thousand Jewish residents of Odessa are under notice of expulsion. The majority of these people own real estate in and about the city, and nearly all are engaged in business.

Clocks For Every Condition In Life.

If you are a millionaire you have Clocks which would grace a palace, and those from which ours are copied have long occupied such positions.

If you can barely make both ends meet and want a Nickel Alarm Clock, which will help you to do so, we have them.

If you wish a Clock suited to any room, or any period or style of decoration our stock can supply you.

Making It Hot for a Lover.

An advertisement for a wife brought several answers to the advertiser, a young gentleman of Tarentum, Pa. Among them was one signed "Cora," of Springdale. The writer's sentiments and chirography seemed to indicate a young lady of refinement, regular correspondence followed, and then the young man agreed to go to Springdale and meet his ideal. They met at the railroad station and started off together. Then a procession of 300 wags of the place followed the couple, and paralyzed the young Lothario by stepping up in turn and inquiring about the health of the bewitching "Cora."

It should here be stated that "Cora" was personated by a smooth faced young man, arrayed in his mother's toggery. Lothario soon realized that he was the victim of a practical joke, and deserting the giggling "Cora" he hurried to the train and started homeward. A telegraph operator had prepared for his reception in Tarentum by sending a telegram thither; and when Lothario arrived there the whole town had turned out in a body to make exasperating inquiries about his conquest of "Cora."-Yankee Blade.

"That Is Love."

In a small watering place in western Prussia a rich lady with her daughter, nineteen years old, hired a cottage for the whole summer season.

But the two ladies had not been six weeks in the place when they suddenly departed. The reason for this abrupt ending of their pleasure trip was a love affair between the young lady and a spruce fisherman, which the mother crushed in the bud. With this, however, the story does not end.

The inhabitants of the place, fearing that some more young ladies might fall in love with the nice fisherman, which would consequently lead to more abrupt departures, resolved to prevent such occurrences in future.

They held a meeting and decided that the fisherman should be punished severely for his imprudence in allowing himself to be the object of love for young ladies. A committee took the culprit to an open place and flogged him so unmercifully that the poor fellow had to lie in bed for several days.-Boston Globe.

The Price of Coal.

A gentleman who has given much thought to the price of coal said to me: "The owners of anthracite coal hope that when householders return to town in October they will lay in their full supply of coal for the winter. Now, if householders do this, they will simply play into the hands of the coal barons and make the price of coal higher. The sensible thing to do is to purchase from hand to mouth instead of filling their cellars."

"That would result in the large companies being compelled to carry along great quantities of coal and would gradually reduce the price of this much needed article. The earnings and the income of people nowadays are on the decrease, and an excellent way to curtail household expenses is to force down the price of coal to the level it ought to reach."-New York Epoch.

A Long Island Ghost.

A house on Long Island that long possessed the reputation of being haunted was rented by a man who had no fear of ghosts, and who was determined if any existed there to meet them. He succeeded, but the ghosts weren't of the kind we see represented in pictures. He heard a strange noise late one night and located it on the roof. Accordingly he armed himself with clubs and repaired to the roof. His coming did not cause the mysterious sounds to cease, and so he gradually crept along until he came down on the "ghost." It was a large vase that was being rocked by the high winds, causing the unearthly noises. He pitched the ghost to the ground, smashing it into a thousand pieces and then returned to bed.-New York Letter.

The Trouble an Umbrella Caused.

"An overturned umbrella blown from a room in the Hotel Ryan, at St. Paul, caused a peculiar flood recently," said H. C. Calkins.

"The umbrella blew so as to obstruct the corner catchbasin during a terrific rain. Down came the flood, and the gutters became swelled into young creeks. Slowly the water in the ditches increased, until it ran over and flooded the basements of the neighboring merchants, who found gallons of water in their cellars, and hundreds of dollars' worth of goods were destroyed, all because of an upturned umbrella."-Chicago News.

His Hat Saved the Trestle.

Saturday evening Ben Rivers, of Jacksonville, Fla., while walking the Western railroad track discovered that the trestle over Highland branch was on fire. He sent in an alarm to the officials, and remained to fight the fire as best he could. The only water to be obtained was from the branch, and Rivers carried it steadily in his hat for hours until assistance arrived from town in the shape of a locomotive loaded with employees. The opportune aid of Rivers undoubtedly saved the trestle from destruction.-Exchange.

THE CLEVELAND Iron Mining Comp'ny City of Ishpeming WILL PAY

WILL PAY \$1,000 REWARD For the apprehension of the murderer or murderers of

John Gleason, Cashier of the Cleveland Iron Mining company, who was shot in the mine office on the night of Jan. 4-5, 1892.

By order of the Common Council.

Wm. G. Mather, President.

T. F. Donahoe, Mayor.

CLEVELAND, O., Jan. 9, 1892.

WILLICK O. TISLOV DEAD.

Ishpeming Called on to Mourn the Loss of One of Its Most Valued Citizens.

FUNERAL TO TAKE PLACE TOMORROW AFTERNOON.

Inquest in Kenney Case Still in Progress. Foxdale Iron Co. Elects Officers. Street Railway Notes.

PIONEER PASSES AWAY.

At 6 o'clock yesterday morning Mr. Willick O. Tislov, one of the oldest and most highly respected citizens of Ishpeming, breathed his last after an illness that had confined him to his room for the past three months. About three years ago he contracted a catarrhal trouble, and that subsequently developed into consumption, which was the immediate cause of his death.

Twenty-three years ago Mr. Tislov came to Ishpeming from his native home at Trongen, Norway. For three years he worked at different jobs about this city and at the expiration of his third year here he engaged in the saloon business on his own account, which he followed until death called him hence.

For about ten years he was a co-partner with Mr. Ole Walseth in the livery stable and carriage and blacksmith shops on Pearl street, conducted under the firm name of Walseth & Tislov. Two years ago he withdrew from that business, selling his interest to Mr. Walseth. About one year ago, after the death of Mr. H. Asgaard, who conducted the furniture establishment on the corner of Cleveland avenue and First street, Mr. Tislov purchased a two-thirds interest in that business, Mr. Leraand securing the remaining third, and the concern has been conducted under the firm name of Leraand & Tislov since.

Mr. Tislov also held a one-fifth interest in the Ishpeming Harness factory, located on Pearl street. He held stock in the Negaunee & Ishpeming Street Railway company, the Ishpeming Gas & Electric Light company, and was also a shareholder in the Union Park association. He owned considerable property in this city, among which is that on Pearl street where his saloon business was conducted, and his fine residence property on First street. Besides the real estate and other business interests of Mr. Tislov, he had considerable means in money and securities, and died possessed of quite a handsome estate.

Mr. Tislov was one of the most public-spirited of Ishpeming's citizens. His countrymen always found him a true friend, as did the deserving of all nationalities for that matter. He was one of the organizers of the Ishpeming fire department, some nineteen or twenty years ago, and held the chief position of that organization at different times, and was its chief when he resigned and retired from membership in it two years ago. He also served as an alderman for five consecutive years, beginning with '78. He was a deputy sheriff of Marquette county during the entire two terms of the late Andrew A. Anderson's incumbency of that office. He was a member of the Scandinavian society, of which he was one of the founders, and at different times was its president.

Mr. Tislov made a will on Sunday night, a few hours before his death, bequeathing his estate to his wife and family. He leaves a wife and seven children, four boys and three girls, the oldest a young lady of nineteen. The funeral will be held Wednesday afternoon, at 2 o'clock under the direction of the Scandinavian society, which will turn out in a body headed by the Ishpeming City band. The religious services will take place at the Norwegian Lutheran church. The funeral will also be attended by the common council and fire department of the city in full force. A special meeting of the common council will be held this evening at half-past seven o'clock to make the necessary arrangements for attending the funeral, and the firemen took the requisite steps to that end at the meeting of Hose and Hook and Ladder companies No. 1, held last evening. Every honor that they can pay the memory of the dead who were loved and honored in life will be paid that of Mr. Tislov by the citizens of Ishpeming when his mortal remains are given back to earth tomorrow, for our people feel that in his death the city has sustained a loss that calls for general recognition.

Firemen Choose Officers.

Hose and Hook and Ladder companies No. 1 met last evening at Engine House No. 1 to elect officers and transact other business of importance.

The election of officers for the two companies resulted as follows: Hose company No. 1.—Foreman, James Gaynor; assistant foreman, John Pierce; secretary, P. Collins. Hook and Ladder company—Foreman, John F. Linney; assistant foreman, Otto Eger; secretary, A. W. Gibbs. The companies jointly elected the treasurer who will have the custody of the funds of both, Herman Jaedecke being the man honored with that trust.

It was decided that the two companies will unite in giving a dance at Anderson's hall on the evening of Easter Monday, and from the way the boys talk the Mining Journal is led to believe that they are going to outdo all their previous efforts as organizers of social events on that night.

The secretary of the Hose company was directed to notify all fire companies of the city that it is the intention of the officers of the department to have the entire department photographed at an early day and to hold themselves in readiness to be "in it" when the picture is taken. Ishpeming has a fire department that does the city proud, and the idea of having its strength and good looks shown in the manner proposed is an excellent one.

Chief Routhier informed the members of the Hose company that a dozen new firemen's hats had been ordered for the use of those of its members who were in need of them, and the news was received with evident gratification. The chief looks after the needs of his

men closely and in turn enjoys their esteem and confidence to an unusual degree. It was voted that the department turn out in a body to attend the funeral of their former associate and chief, W. O. Tislov, Wednesday afternoon, and all members are requested to report at Engine House No. 1 at 1:30 p. m. sharp on that day for that purpose.

The meeting was just on the point of adjourning when an alarm was turned in and the firemen turned out in response with their customary promptitude. The fire proved to be in the residence of Henry Cole, on Second street, where a lamp left too close to the wall in a hall upstairs had ignited the wooden ceiling, but the blaze was under control when the firemen got there. Mr. Cole having done the business for it with a few buckets of water expeditiously and judiciously applied.

The Inquest.

The coroner's jury in the case of the late Michael Kenney, who was killed at the Lake Superior mine at an early hour Saturday morning, met for the second time yesterday morning at 9 o'clock in Justice Kennedy's court. There were ten witnesses examined as to the manner in which Kenney met his death and the condition of the stope at the time of the accident. Among these were Capt. John McEnroe, of the Lake Superior hard ore mines, and Mr. Mike Powers, underground boss at No. 7, the pit where the accident occurred. Both of these men made an examination of the stope after the accident had taken place, and testified regarding its condition, etc., as they found it. They stated that it was not possible that a rock could fall from the hanging wall above, as everything was found safe and solid and that if rock had fallen some trace of it would be left in the hanging, as the wall is covered with a grimy deposit from smoke.

The jury adjourned at 11:30 o'clock until this morning at 10 o'clock. Capt. James Kenney, brother of the deceased, will go underground this morning and examine the wall in question, and will appear before the jury later to testify as to the condition of the ground, etc. The physicians of the Ishpeming hospital who attended to Kenney will also be examined as to the condition of the skull, etc. There is some doubt regarding the exact manner in which the unfortunate miner's death was caused, some holding that he was killed by a falling rock instead of one thrown out by the blast, but the jury will make a thorough inquiry before rendering a verdict.

Annual Meeting.

The first annual meeting of the Foxdale Iron Mining company was held yesterday afternoon at the office of the secretary, Mr. D. F. Wadsworth, in this city. The Foxdale property is located at Humboldt, about 12 miles west of Ishpeming, and was formerly held by the Enterprise Mining company. The latter company did some prospecting on the tract, but discovered nothing of value. As soon as the new company was organized a shaft was started, and is being sunk through a vein of fine hard ore. The principal owners of the mine are residents of this city, among whom are Captain Buzzo, of the Salisbury mine, M. B. Tontloff, D. F. Wadsworth and R. Maxwell. Eleven men are employed at the mine at present, and work is being pushed as vigorously as possible.

Street Railway Rattle.

The cars of the Electric street railway came into town yesterday, running as far as High and First streets. They attracted a good deal of attention and were much admired, both for their beauty and the ease and smoothness of their movement as they passed over the rails. It is evident that the system is going to fully meet the expectations of the public, and one does not need prophetic vision to be able to foresee that the line will be popular and will do a rushing business between this city and Negaunee when it is once fairly in operation.

The cars will be run for three or four days by the company that put in the system before being turned over to the local company that will own and operate the line in order that all concerned may be sure that everything is in prime working order. Until this transfer is made the road will not be open for traffic, so our people must possess their souls in patience a few days before they can take a "lightning" ride from here to Negaunee and back.

The railway company has decided to run the cars during the winter as far as the Ishpeming hospital, and the track will be cleared to there today. It was not intended to run the cars that distance during the winter season, but the company is going to give the people all the accommodation possible, hence this decision.

Kenney's Funeral.

The funeral of the late Mike Kenney, who was killed at the Lake Superior mine Saturday morning, was held yesterday afternoon at 2 o'clock p. m. The usual religious services were held at St. John's Catholic church, and the funeral was largely attended by friends of the deceased. The Ancient Order of Hibernians and St. Patrick's societies were also out in force, the deceased having been in life a valued member of both these orders. The Ishpeming City band, playing a dirge, headed the funeral procession, which was very imposing. The religious services were conducted by the Rev. Fr. Keul, of St. John's parish, and the remains were interred in the Catholic cemetery.

ISHPEMING IN BRIEF.

Born, to Mr. and Mrs. Verran on Sunday morning, a ten pound girl. J. B. Cole, of Marquette, spent Sunday in this city visiting his cousin, Mr. J. P. Jones.

Mr. Martin Ford, of Minneapolis, has been here the past two days visiting his mother and sister, who reside here. Attorney E. E. Osborn left on Sunday for Menominee, where he will attend the session of the circuit court of that county.

A return party will be given the married ladies who gave a leap year party to their husbands and gentlemen friends,

a few weeks ago, in the course of a week or two. Ishpeming gentlemen appreciate a good turn, and they can be depended on to "reciprocate" when they are the recipients of one—especially when it comes from the fair hands of Ishpeming ladies.

E. H. Fovle, who represents the hardware firm of I. E. Swift, left for Chicago Sunday. He will return some day this week.

Dr. D. W. Mack, veterinary surgeon, who has been visiting here the past week, returned to his home in Appleton, Wis., on Sunday.

Ed. Douglas, of Houghton, who looks after revenue collections in that region, was here yesterday transacting business with Collector Manville Jenks.

Messrs John Hosking, and Larry Butler gave up their "sits" in the cigar factory of Jaedecke Bros. Saturday, and will probably go to work at Marquette.

The lucky number that won the organette at C. P. Sodergren's saloon Saturday evening was 239. The holder of that number is requested to call and take the instrument.

Mr. Froding, with his son and daughter, who have been in Ishpeming the past month visiting Mr. and Mrs. John Dahlstrom, left for their home in Milwaukee yesterday morning.

Thos. Pierce returned Saturday from Mt. Clemens, where he had been undergoing a treatment for the past two weeks for paralysis. He is much better in health as a result of his visit.

The famous Calumet band will probably give a concert in this city some time the latter part of this month or first of next month, as they are going to make a tour of the upper peninsula. That band can give us a concert that will be a treat.

Mr. H. F. Ahlstrand, who has been conducting a jewelry store on First street, has moved his stock into the Eckre block on Cleveland avenue, between First and Second streets. The new stand is a neat one, the interior having today been remodelled, and will give Mr. Ahlstrand every possible chance to display his goods.

Shorthand, Business, etc., are specialties at Normal College, Ishpeming (new Anderson block), finest in city. [1-30-14]

Our display of white goods is the finest that has ever been shown in this city. Call and examine. [1-26-14] ANDERSON & KILSTROM.

Our wood is the best in the city. F. W. READ & CO.

Our white goods lead them all. Call and see for yourself. They will please you. [1-26-14] ANDERSON & KILSTROM.

Our wood is kept under cover and is kept perfectly dry. F. W. READ & CO.

HOME RUN TO HOUGHTON.
Two Mining School Students Go Out for a Drive and Come to Grief.

HORSE TILTS THEM OUT AND THEY WALK HOME.
Two Old Lady Residents of the Copper Country Pass Into Peace—Miscellaneous News Notes.

HOUGHTON.
Messrs. Burnham and O'Brien, two Mining School students, had a lively runaway on Saturday morning. Their horse started from West Hancock, went through Main street, upset them at the Superior bank corner and then made a successful home run to Houghton.

The grand annual masquerade carnival given by Manager Pfeifer of Miller's hall, will this year be held on the evening of March 1. The Calumet Cornet band will furnish the music.

The product of the Atlantic mine for the month of January was 183 tons, 1,940 pounds.

Tony Wendel at L. Hennes & Co.'s store wore a broad smile on Saturday morning, occasioned by the arrival at his home of the first-born, a daughter.

HANCOCK.
Mrs. John Wivell, an old resident of this place, died last Friday afternoon. The funeral was held Sunday afternoon.

Rev. Isaac Wilcox has returned from Canada where he had been called by the serious illness of his father.

Mrs. Bruno's team started on a runaway on Saturday morning while in front of Mason's grocery store. The sleigh tongue broke and the horses ran into a lamp post and were stopped.

Druggist Scott, who has been seriously ill for the past four days, is now out of danger.

RED JACKET.
McDonald's drug store is in the hands of the painters who are giving it a thorough renovating. When they finish the electric light men will wire the store for glow lamps.

Druggist Charles Fichtel was tendered the deputy revenue collectorship here but declined as he wishes to give his entire attention to his drug store here.

CALUMET.
Capt. Math. Knauff of the Hecla mine left for Wisconsin Monday morning, having been called away by the serious illness of his father and mother.

Capt. and Mrs. Thomas Hoatson and daughter Jean returned Sunday evening from Butte, Mont. The captain reported his son, Capt. James Hoatson, much better and out of danger.

Superintendent and Mrs. John Duncan returned from Duluth on Monday afternoon.

The Allouez stamp mill is now running three heads. The mine is looking better than usual underground.

Supt. James McNaughton of the Chapin mine, who was visiting his parents here, left for Iron Mountain Monday noon.

LAKE LINDEN.
Mrs. Catherine Davey, aged 67 and an old resident of the copper country, died at the residence of her sister, Mrs. John Rodda, at 8 o'clock Sunday evening of gangrene of the right foot. The funeral will be held this afternoon at the M. E. church.

Thomas Burgan, accountant at L. Hennes & Co.'s store left Monday noon for Detroit and Chicago.

Care for Musical Instruments.
Neither a piano nor an organ should be left open at night, or habitually when not in use. The changes of temperature are very hurtful to the tone of any instrument, and especially the gathering of dampness, which not only interferes with the tone and quality of the strings and reeds, but is very likely seriously to affect the works. Pianos in particular should be kept in as even a temperature as possible, since they are much affected by alternations of heat and cold, dryness and moisture; if thus exposed they require very frequent tuning, and are not satisfactory in action or tone. Care is also equally desirable in regard to other stringed instruments—the violin family, banjos, guitars and like. In all of these the strings are much affected by exposure to dampness and great changes of temperature. All fine instruments should be habitually kept in cases lined with baize or flannel.—Good Housekeeping.

A Murder Explained.
"Julie," remarked Brutus as he strolled into the great Caesar's tent, "did I ever tell you of the fight I once had among the Allobroges?" Gets off a long, windy tale involving the single handed slaughter of eleven ferocious barbarians.

"Brute, my boy," remarked Caesar solemnly when he had finished, "I admire Gaul, especially Transalpine Gaul, but still I must say that you remind me of a harp shattered by the lightning of great Jove."

"How so?" inquired Brutus, unwarily.
"Because you're a blasted lyre," answered Caesar. And from that day forth Brutus began to meditate on the Ides of March.—Yale Record.

Advice from Confucius.
That the use of tea was universal very early in Chinese history is borne out by one of the maxims of Confucius, the wisest man of China, when he said: "Be good and courteous to all, even to the stranger from other lands. If he say unto thee that he thirsteth give unto him a cup of warm tea without money and without price."—Philadelphia Times.

Cleaning Streets by Electricity.
An electric snow plow has been designed with a thirty horse power motor for propelling the car and independent reversible motors for running the brushes. It is intended for use on street railways.—New York Journal.

Robt. Stevenson, & Co.
Wholesale Druggists.
Chicago, Ill.

A. F. Isler, Upper Peninsula Agent,
P. O. Address, Lake Linden, Mich.
The following is from January, 1892, number Western Pharmacist.

If long experience in the wholesale drug business counts for anything, if a constantly increasing business bears witness to progress and enterprise; if a large and complete stock of drugs of guaranteed quality assure satisfaction in filling orders; if second stage and courteous business methods attract and hold customers; then with the assurance that such conditions will continue for the future, and in a greater measure if possible, these are good reasons why druggists should give the well-known Chicago house, Messrs. Robert Stevenson & Co., a trial if not already dealing with them. And they should also bear in mind, that NO OTHER is ever supplied by this honorable firm.

DR. SPEER,
-OF THE FIRM OF-
Drs. Speer, Emslie, Hubbard & Co.,
OF SAGINAW, SAGINAW.
Is now in Marquette and has established a branch office in the Mining Journal building at 146 West Washington street.
Dr. Speer is a graduate of the medical department of Harvard University, and is registered both here and in Saginaw.

YOUNG MEN
Who may be suffering from the effects of youthful follies or indiscretions will do well to avail themselves of this chance.
DR. SPEER & CO.
Will guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$250. They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience.

MIDDLE-AGED MEN,
There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting sensation and weakening the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits a rosy sediment and sometimes small particles of albumen will appear or the color be of a thin or milkish hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness.

DR. SPEER & CO.
Will guarantee a perfect cure in all such cases and a healthy restoration of the organs. Examination and advice free to all. Remember the place, 146 West Washington street, Marquette.
P. S.—See our testimonials in the different papers from well-known people.

To the Public.
I have great pleasure in adding my testimony to that of others as to the ability of Dr. Speer, and I do so voluntarily, believing it my christian duty as a member of the "Young Men's Christian association," and also of the "Epworth league," to give due credit to a physician of such marked ability as Dr. Speer, whom a friend of mine described as one who had skill, discretion and a wonderful power of healing; as the drowning man will grasp at the straw, so did I at my friend's suggestion.
After several weeks' treatment I AM CURED, AND AM IN FULL ENJOYMENT OF MY NATURAL VIGOR. I feel like working full time; eat well, sleep as peacefully as a child, and have that grateful sensation that only a man can have who is conscious of being literally snatched from the very jaws of death.

The skull displayed by Dr. Speer in the diagnosis of my case was simply to me—astounding, my ailment seeming to be to him as clear as day. This testimony I am willing to substantiate under oath at any time, and my feelings are of profound thankfulness that the hand of Providence directed me to such a physician.
FRED J. HAYEN,
10-31-14 315 Bluff Street, Marquette.

WELL WORTH READING.
DR. SPEER & CO.,
Marquette, Mich.
I am glad to write you that I am entirely cured of the distressing disease that has long made life a burden to me. When I began treatment with you I had for years been afflicted with severe pains across the back, my skin was yellow and discolored. I was nervous and constantly depressed in spirits, being unfit for work and knew scarcely a moment when I was free from pain. At our first interview you described my case so correctly that I was satisfied that you understood every symptom. Under your treatment I received relief at once and in a few weeks my pains and nervousness disappeared and my skin changed to a healthy color. I am now fully cured and gladly recommend other suffering as I did to consult Dr. Speer & Co. and give you full privilege to refer any afflicted person to me for reference.
ANTOINETTE ANDERSON,
12-9-24 Lake St., Marquette, Mich.

GIFT PROMPTLY ACCEPTED.

Mr. White's Offer to Swap Thurber Block for Council's Play House Taken With Alacrity.

MAYOR AND RECORDER AUTHORIZED TO RE-DEED BUILDING.

Tax Petitions Arrogate Local Solons More Sewer Petitions Come In—Need Not Run Cars This Month.

SPLENDID GIFT ACCEPTED.

The first business brought up at the regular meeting of the common council last evening was the proposition of Hon. Peter White concerning the gift of the Thurber block on Washington street to the city for a public library building. The informal letter outlining Mr. White's ideas was published in full in the MINING JOURNAL some time ago, and his formal proposition to the city, as read by Recorder Meads last evening, differed from it only in minor details. Briefly stated, by his proposition Mr. White offered to deed to the trustees of the Peter White Public Library the Thurber block, providing the city would re-deed to the First National Bank that portion of the bank lot now occupied by the city recorder's office; he also offered to give \$1,000 toward the remodeling of the block if it is raised and an elevator put in accordance with his recommendation to that effect and expressed his willingness that the council and city officers should share in the benefits of the gift temporarily though he hoped that the erection of a city hall would not long be delayed, when the room not needed by the library itself could be devoted to the gallery of painting and sculpture which the city must soon begin to have in mind.

Immediately after the reading of the formal proposition the council accepted the offer by a unanimous vote and authorized the mayor and recorder to issue a deed for the present building to the First National bank, only requesting that the council be assigned temporary quarters in the new library building for two years.

The present building having been a gift in trust for the old library, or rather the deed of gift prescribing that it could not be disposed of without the consent of the library trustees, the public library board and the trustees of the former Peter White library both submitted formal notices of consent to the change. This makes everything clear for the transfer and citizens can soon expect to see the city fathers moving up onto Washington street to be in the swim. The alacrity with which the council accepted Mr. White's offer and the feeling of hearty appreciation of his public spirit manifested by all reflected the feeling of the entire city when Mr. White's purpose was first made known by the MINING JOURNAL.

A remonstrance by Mrs. A. R. Harlow against ruining the famous Harlow park by an extension of Spring street was tabled and the petition of the Marquette County Savings bank asking for a rebate of the tax levied on its new block, it not being the custom to tax other banks here on their capital stock and building also, was returned with the notice that it was beyond the power of the council to rectify the error, it having no authority to remit taxes imposed by the assessor and board of review.

A numerous signed petition for a sewer on Third street from Ridge street to the new trunk sewer and a remonstrance against the same were referred to the street committee, a substitute providing that the matter be settled at once being lost.

The liquor bond of Adolf Anderson and Gustav Anderson, sureties J. F. Neidhart and Carl Werner, were approved.

A petition for a trunk sewer on Genesee street from Altamont street to Lake street and Lake Superior was referred to the street committee. Through its chairman, Alderman Hennessey, that committee recommended that the Lincoln avenue sewer assessment roll be extended to March 7th (adopted,) that the Adams street roll be confirmed (carried) and asked more time upon the Spring street extension petition and the petition of the Marquette City & Presque Isle R'y. which was granted, the committee being given until the next regular meeting. On motion the privilege granted the railway company of suspending the running of its cars until the committee reported upon the petition, was extended in accordance with the new time limit given the committee.

Alderman Desjardins of the finance committee reported that the committee had approved the November report of the Water Power & Electric Lighting board and Alderman Stafford, of the committee on parks, cemeteries and public grounds, reported that it had found that Park Commissioner White had expended the sums mentioned in his report and that they had been well expended but that the committee recommended, as a settlement of all questions between the commissioner and the council hereafter, that a regular appropriation be made for the parks each year. Alderman Moore approved of the report and promptly moved that \$1,500 be appropriated for that purpose yearly but no action was taken as it was thought that the matter should be deferred for a time and after considerable discussion upon the question whether the commissioner's bill should be paid immediately or wait until the city funds come in, it was voted to accept the report and defer the payment of the bill as indicated.

Alderman Powell of the special committee appointed to consider the petition of Manager W. A. Ross, of the Marquette Opera House, for a yearly license, reported adversely, but recommended that the whole subject be left to the ordinance committee with instructions to frame a new ordinance covering the matter. The report was adopted by the council.

Tax matters occupied the time of the council largely throughout the session. The Savings bank case was hardly out of the way when the petition of the Cleveland Saw Mill & Lumber com-

pany, asking for a rebate of its water tax came up and after considerable discussion the council finally, upon the advice of the city attorney, referred the petition back to the company with the reply that it had no power to make the rebate desired. This settled up came the Herlick case, in which the assessor rated a lot with a house upon it which was built after the roll should have been made out. The assessor reported that the error claimed had really been made and a lively scrimmage took place over the question of rebate. All conceded that injustice had been done but as the law provides that the property holder must look after the valuation of his property during the sessions of the board of review it was claimed that the city was not more to blame than the property holder and that it could not legally grant the rebate in this any more than in the other cases. Just as a motion authorizing an order for the amount claimed was about to pass despite the law and the prophets it was discovered that Mr. Herlick had not paid his tax yet, so there was nothing to refund and the matter was tabled.

The December report of the Water Power & Electric Lighting board was referred to the finance committee and after providing for the payment of bills amounting to about \$6,800, the council adjourned. The heaviest items were \$3,129.50 to R. R. French for the balance on the Front street rock cut contract (at 7 per cent interest from the date of the last council meeting to May 10th next) \$2,543.40 on O'Meara's trunk sewer contract and \$654.32 on Mitchell's Prospect sewer street contract.

January Weather.
The monthly meteorological summary prepared by Observer McDonough shows a strange January for Marquette. For the first six days the weather was warm and on the first three days 2.46 inches of the total precipitation of the month, 2.88 inches, came down in the shape of snow. Then came a radical change and for thirteen days hardly a flake fell, while the mercury only got as high as 20 above once, the minimum being below zero every day but three, and on those days it was only three above. The mean temperature varied from 2 below to 10 above zero, ranging from 0 to 4 on seven of the thirteen days. The minimum temperature of the month was 10 below on the 10th, while it was 9 below on the 15th, 16th and 19th. The maximum temperature was 49 on the 25th. There were 9 cloudless days, 11 partly cloudy and 11 cloudy.

Michigan Salt.
The Michigan Salt association has notified the Michigan World's Fair commission that it will undertake the preparation of the state salt exhibit upon its own account and that it has voted to furnish all the funds necessary from its own treasury. It has asked to have 1500 square feet of floor space assigned to it and the commission lost no time in granting the request. This ensures a salt exhibit for the state in keeping with its rank as the first state in the union in the production of salt. The salt men are entitled to credit for their public spirit and the freemanded way in which they have undertaken to meet the problem before them.

From the Soo.
Manager Shute, of the Soo Opera House, is a hustler and has written to the Marquette Opera House association asking about the price of tickets for the opening engagement of the Marquette Opera House, and the chance of securing reserved seats, stating that he is planning to get up a party of twenty-five to come up from Sault Ste Marie for the opening. Everyone will be glad to welcome the Sooiters if they come, and every one of them will get enough pleasure out of the trip to richly reward them for taking it. If they come they will probably get in on the 6 o'clock train in the evening and leave at 7:10 the next morning.

New Meat Market.
Jacob Urbach opens a new meat market today at 127 West Ohio street. Mr. Urbach has been in the business for years and can be depended upon to give his customers thorough satisfaction. He has always made a specialty of sausages and has a well established reputation in that line.

PERSONAL MENTION.
G. P. Cummings returned yesterday from a trip to Manistique.
F. W. Read left yesterday for Chicago to fulfill an important engagement.
A. L. Van Alstyn, of Carson, Pirie, Scott & Co., is interviewing Marquette patrons.
John L. Dana, the well-known Fond du Lac traveler, is in the city on one of his semi-annual visits.
R. M. Abel left yesterday for Muskegon to attend the grand lodge of the A. O. U. W. as a representative of Graton Lodge, No. 111, of this city.

STOOD THE TEST.
Alcock's Porous Plasters are unapproachable in curative properties, rapidity and safety of action, and are the only reliable plasters ever produced. They have successfully stood the test of over thirty years' use by the public; their virtues have never been equalled by the unscrupulous imitators who have sought to trade upon the reputation of Alcock's by mixing plaster with holes in them, and claiming them to be "just as good as Alcock's" and they stand today indorsed by not only the highest medical authorities, but by millions of grateful patients who have proved their efficacy as a household remedy. Beware of imitations, and do not be deceived by misrepresentations. Ask for Alcock's, and let no solicitation or explanation induce you to accept a substitute.
