FACTS OF THE CASE

On August 25, 1864, at Shepherdstown, General Custer having crossed at the head of the brigade. I effected the crossing and was the last man to ford the river. For several days I had been ill but on duty. I went into camp that night and not being able to march the next morning was sent with others who were sick to the hospital at Annapolis, Md. After remaining there a few days and recovering sufficiently to be around the camp I was detailed on court that if the letter was not delivered in martial at Washington where I reported and so served a little time and then resigned, as I was not abje to enter the field and did not like court martial service. My ordinary weight was 160 pounds but I was not abje to enter the field and did not like court martial service. My ordinary weight was 160 pounds but I was not soon suspected. I had never heard a word directly or indirectly up to that date, almost twenty-four years, that there had been any such recommendation, which I found afterwards to my surprise was true. There was never a more cruel or unjust act committed by man. I served three years, participated in sixty-six battles and skirmishes, was promoted to all the grades from captain to colonel and was brevetted brigadier and taajor-general without my application. I was never away from my command except on account of wounds or sickness. I never received a censure from my superior officer in any way, shape or manner during the war. Had I known of the existence of such a document during the content of the land of the existence of such a document during the meeting Jacob Furth and J. Beck, a clegates from the St. Louis. I never knew or suspected that there was the slightest question about my being properly sent with the large number of sick and wounded to Annapolis and, as I said, General Custer's recommendation if he knew the facts, was one of the most cruel outrages that was ever perpetrated upon a soldier I dislike very much to say anything against a dead soldier but these are facts. The records will prove that one stetement made by General Custer concerning myself in that document cannot be true. hunters in the Pocono mountains, said to the writer the other day: "Sixty-six years ago I went to school to Alexander Dunbar in a little log school house down in the Pocono valley, near where Tannersville now is. An odd character Dunbar was. He stood over six feet in his socks, he was lean as a crane and he ould run like a deer. He always kept a loaded rifle standing by his chair in had a great play spell. When it was time to go home, if Danbar didn't make his appearance, we dismissed ourselves After a while some of the parents found out how Dunbar was neglecting his school, and they hauled him over the coals for it. But they couldn't break Dunbar of his mania for chasing deer. Nothing could, and after that Dunbar told one of the big boys to take charge of the school when he dashed out with A NARROW ESCAPE

"One day Dunbar had a terrible fight with a wounded buck on Pocono creek. He came within an ace of losing his life. but he was just as crazy to chase deer after that as he was before. I'll show you what kept Dunbar from being killed,' continued Mr. Church, and he brought out an old bent and rusty rifle barrel that had once sent bullets flying after game from a flintlock. "Dunbar's gun was out of kilter," resumed the old hunter, "and I took this rifle to the school house for him to use. It belonged to my father, and Dunbar got a chance to use it before night. That afternoon he saw a buck trot down the runway, and he seized the rifle and gave chase. The buck was taking it easy, and the longlegged schoolmaster banged away at him near the creek. The buck plunged forward and plowed in the snow and Dunbar ran up to cut his throat. Just as Dunbar got to him the buck roused up and pitched at him savagely. He had been shot through the nose, and he was as full of fight as a wounded panther. There was no charge in the rifle, and Dunbar dropped his knife and went to beating the angry buck off with the gun. He soon brok stock and then he fought the buck with the barrel, bending it in the fight as you see it now. Every time the buck pitched at him Dunbar knocked a spike from his antlers, and when it was all over Dunbar had trimmed every spike from his horns. He finally stunned the buck long enough

Washington. Feb. 11.-At the special

searching investigation into the workings of the census bureau.

One of the things Secretary Noble is particularly interested in is a complaint from the merchants of St. Louis. It was signed by R. E. Lasher, president of the St. Louis Board of Trade and dated January 22. Mr. Lasher calls attention to the vast interests represented by the members of the board of which he is president. He says of which he is president. He says Superintendent Porter, when he made speech to the Commercial Club of St. Louis on November 21, gave in de been proven to be altogether unreliable and worse than worthless. There is some dispute as to whether the matter can be better reached by a repealing bill of the ways and means committee or by the appropriation com mittee merely cutting off the sugar bounty appropriation but Mr. Scott maintains that there is no dispute as to the position of the democratic party in opposing under all circumstances the sugar bounty as well as other subsidies and bountie

The resolution, which was referred to the ways and means com nittee, de clares that since July 1, 1891, the pro ducers of sugar have filed claims for

R. R. Thomas And your committee ask to be discharged from the further consideration of said claims and accounts. A. E. STERNE, E. F. BRADT. HENRY VANDENBOOM, J. R. VAN EVERA, The report of the special committee on county hospital, which is here given, was adopted by yeas and nays as follows: Yeas, Bradt, Brown, David, Fitch, Gill, Herring, Johnston, Maitland, Maxwell, J. H. Quinn, Jos. Quinn, Roberts, Sterne, Tellefson, Wells, Weatherstone, Chairman. Nays, Fay, Gorman, Mans, Moore, Ross,

Vandenboom, Van Evera. To the Honorable Board of Supervisors of Marquette County:— Gentlement:—Your committee to whom two was referred the matter of considering the 25 advisability of building a county hospital beg leave to submit the following report:
Your committee have by communication and conference with the citizens of the county, obtained a fair consensus of opinion bearing on the matter, and though there has been and is a decided opposition to the scheme from honored and respected citizens of the county, the greater majority is in favor of a county hospital, and your committee unqualifiedly, therefore, report favorably for the erection of such an institution.

favorably for the erection of such an institition, believing:
First—That its workings are practicable.
Second—That it would be a means of
economy for the tax-payers of the county
and prevent imposition thereon.
Third—That the safety and preservation
of the public health demand such an institution.

Fourth-That opposition is side-tracked on the contract plan with local hospitals, and if this plan is wise, the principle re-mains, that you can do your own business more satisfactorily and economically, than

mains, that you can do your own business more satisfactorily and economically, than by delegating it to some one clse.

Fifth—That public opinion is almost unanimous that 90 per cent of the poor can be taken care of at such an institution.

Sixth—That such an institution, large enough to accommodate 75 patients, built of solid brick, can be erected for from 55,000 to \$10,000.

Seventh—That among an inconsequental number, the idea of transportation is considered inhuman, but among the greater number and this is almost unanimous, it is considered a humane plan.

Eighth—That for the year between January, 1801, and January, 1802, this board has paid and have under consideration claims amounting to, in round numbers, \$10,600, and in addition to this your committee find upon inquiry of the superintendents of the poor' that the first poor district pays per contract annually, \$900, the second district, \$1,000, amounting to \$3,500, or a grand to tal of \$13,500, which is all disbursed for the care of indigent people and the preservation of the public health.

tal of \$13,500, which is all disbursed for the care of indigent people and the preservation of the public health.

Ninth—That by contracting with a staff of physicians, such as are found in the mining cities in the center of the county, the institution could be turned to profit and be a means of contributing towards the cost of maintaining the same.

Respectfully submitted.

That Sells Well-Jottings. SHIN FANES TO THE FRONT.

Ishpeming was taken possession of ast evening, with the unanimous consent of everybody concerned, by the that famous and fun-loving organization. The evening train from the city by the lake brought up fourteen members of the Queen City off-shoot of the home club, and the parent club was at the depot in full force and uniform to meet the visitors. After the members of the home club and their guests had fraternized for a brief interval they formed in line and took up their line of march to the club house in the northern part of the city. Arriving here the fun-began in earnest. The novices from Marquette were made full-fledged members of the club according to the mysterious and awful rites the club and were sumptuously feasted besides. Then there was a tramp that was immensely enjoyed, the snow being just right and the visitors and their hosts in the mode to get the greatest amount of pleasure out of the excursion. The Min ng Journal would like to give a detailed description of the evening's sport, but it lasted too long and there was too much of it for that to be possible in this number. The visit was a source of great enjoyment to both the local club and its guests from Marquette, and that it will be followed by other re-unions of the re-doubtable Shin Fanes goes without

Old Actors' Stage Fright.

One of the queer things in the dramatic profession is the nervousness that occasionally affects an entire company. A friend of mine who has been on the stage several years and on the road in the same piece for the last two years played last week in a Broadway theater. It was the first appearance of the company in New York, though most of its individual members had played here be-

To the Public.

I have great pleasure in adding my testimony to that of others as to the ability of Dr. Speer, and I do so voluntarily, believing it my christian duty as a member of the "Young Men's Christian association," and also of the "Epworth league," to give due credit to a physician of such marked ability as Dr. Speer, that others may be benefitted by his skill. For two years I have been subjected to the most terrible pain; I could not work or sleep; my constitution was so terribly impaired that insanity seemed imminent and life itself a burden.

Several physicians whom I consulted could do nothing, and I thought that earth had no cure for me. In my despair I consulted Dr. Speer, whom a friend of mine described as one who had skill, discretion and a wonderful power of healing; as the drowning man will grasp at the straw, so did I at my friend's suggestion.

After several weeks' treatment I am consulted time; eat well, sleep as peacefully as a child, and have that grateful sensation that only a man can have who is conscious of being literally snatched from the very jaws of death.

The skill displayed by Dr. Speer in the diagnosis of my case was simply—to meastounding, my ailment seeming to be to

At the Club House.

The M. S. S. C. club house was the day. The M. S. S. C. club house was the seene of a second social gathering last evening no less lively than that which marked its opening last week though of an entirely different order and under | deceased has been taken to Negaunee, entirely different management. It was where the deceased formerly resided a leap year party of the first magnitude and the members of the masculine sex present were given a whole encyclopaedia of pointers on the proper way to people, as he was well known and had manage such affairs. Superintendent Ward, of the M. C. & P. I. R'y power station, secured the club house for the ladies and N. D. Hodgkins arranged for the necessary transportation. There were about ninety present. Mesdames Ward, Bigelow and Hodgkins and Miss Sands acted as the reception committee. Hughes' orchestra furnished the music and in the quadrilles eight sets were danced at a quadrines eight sets were danced at a time with ease, six in the club room, one in the cloak room and one in the ladies' room. A bountiful supper was served shortly after midnight and then dancing was resumed with a determination that indicated an arrival home in the early dawn. The club house showed itself admirably adapted for a party even of that size and everyone enjoyed the occasion thoroughly though the ladies confessed, after the novelty wore off, that it wasn't quite so easy a task as they had anticipated hunting up their partners when the dances were called and they will undoubtedly have a clearer comprehension hereafter of the trials and tribulations experienced by the mas-culine sex in keeping track of partners, especially as the gentlemen last night showed as great a predilection for the smoking room as the ladies sometimes do for the dressing rooms so dreaded by dancing men.

The Perforated Man.

The MINING JOURNAL now has in its possession a photograph of John Saunders, the young man whose wonderful recovery from an injury inflicted by a falling tree was noted in yesterday's issue. The limb which pierced his side was a dry stub and is shown with the knot where it separated from the tree. The accident occurred about eight weeks ago and Saunders lay eighteen hours before he received a doctor's aid. Dr. Bond of Seney was the physician who was called to his assistance and after the stick had been removed and the

wound dressed Saunders had to be

Beaten by Guy.

A telegram from Sault Stc. Marie last night gave the information that Will Nelson, Marquette's champion ice skater, was beaten by three and onehalf laps in his three-mile race there last night with Guy, the Canadian champion. Nelson complained of a lame back before leaving for the Sault and was not in good condition for the race.

Thinks of it.

"While in Chicago I had the pleasure of hearing one of your Acolians, and the melody is still ringing in my ears. the melody is still ringing in my ears. It you could see me since I heard that wonderful and accurate music, you would see a different man. I am more hopeful. My victuals and my wife both agree with me, and in my once sad heart the little pee wees are singing. Seriously it is a most wonderful instrument."

Mr. Nye is only one of the many who are surprised by this wonderful instrument. If the Acolian had no other qualities than its beautiful tone and wonderful orchestral effects, it would be a marvelous instrument, but when to these are added that simplicity of operation that enables anyone to play it with a few days practice, it become
