"WELL-BRED" STATIONERY.
"The good breeding and good taste of a lady—much abused word—are subtly yet conspicuously shown in the stationery she uses."
It may seem strange to speak of stationery as "well-bred" but we take the liberty to employ the phrase as a compact one to designate the kind of writing materials used by well bred people in their correspondence.
We have just received a full line of Hard & Pike's correct styles in paper and envelopes. The prices vary but it is all "well-bred."

COLUMBUS' MONUMENT.

The United States of America the Great Result of His Faith.

SECRETARY FOSTER AT COLUMBIAN BANQUET.

Have Many Things to Be Proud of but Small Respect for Law Is Our Shame.

PROGRESS AND BARBARISM.

New York, Oct. 13.—The Columbian celebration was brought to a fitting close tonight by a grand banquet at the Lenox Lyceum. Several hundred of the best known men in the country were seated at the tables. The president of the United States was not present owing to the illness of his wife. He was represented by Vice-President Morton. The hall had been decorated with excellent taste.

Promptly at 8 o'clock as the band played "Hail to the Chief" Vice-President Morton and Mayor Grant were escorted to the platform of the stage. Mayor Grant took the seat as the presiding officer, the vice-president sitting at his side. On the same side of the table were Secretary of State Foster, ex-President Cleveland and Baron Fava. On the left were Governor Flower, ex-President Hayes, Gen. Horace Porter and Bishop Potter. Among the guests at the table on the main floor were many distinguished public men, including three Chicago aldermen.

The time for speech-making at length arrived and Mayor Grant rapped the company to order. The first toast was responded to by Vice-President Morton in a brief speech and at the conclusion Mr. Morton proposed a toast to the wife of the president and expressed a wish to her speedy recovery.

Secretary Foster responded to the toast "The United States." He said:

SECRETARY FOSTER'S ADDRESS.

To make the United States the subject of an after-dinner speech reminds one of the despair of the great philosopher Kant, when the versatile and would-be omniscient Madame De Staël demands of him an explanation of his philosophy at an evening reception and how his despair was turned to disgust when after patiently hearing him for ten minutes she interrupted him by saying: "That will do, that will do, I understand it all now."

I fear I may not have such thoroughly satisfied auditors as the great philosopher when my ten minutes have expired. However, I venture the thought that the fall of the great achievement which we celebrate in this banquet are most conspicuously embodied in that which is signified by the sentiment just announced—The United States—and it must be a source of sincere regret to you all that he who the duty was assigned should not be able to present to make fitting response.

No words of mine can add interest or impressiveness to that great act of faith and courage to which since the advent of the founder of the Christian religion stands unparalleled in its importance and usefulness to mankind. By means of it the human race has wrought and is working out a destiny which was not possible in the old world.

How well and how fully that destiny has been attained in the past four centuries may be most favorably tested by an examination of the social conditions and the physical accomplishments of the states united in the pre-eminant nation of the hemisphere revealed by Columbus.

It is not easy to separate from each other and to discriminate between the influences which operate in the old and the new world. But without attempting the task there are some features which characterize the United States to which on this occasion we may point with just pride. In no other nation in the world is religious faith, which is so efficiently extricated to the first voyage of the great discoverer, so potent in controlling society, enriching its charities and elevating the race. It was in the United States that civil and religious liberty experienced its new birth; here has its most perfect application, and whose reflex influence has been the most prominent factors in the last one hundred years in reconstructing society and government in Europe.

In no other nation is education so munificently fostered and intelligence so generally diffused throughout all classes.

In no other nation are the masses so fully supplied with good homes, so comfortably clothed and so well fed. When we turn from the social conditions to the physical accomplishments of the United States we find the contrast equally marked.

The colonies who followed the highway marked out by Columbus found the territory now embraced by the United States a wilderness or desert, rich only in the undeveloped resources of nature.

Today the sixty-five millions of people who inhabit this land possess an aggregated wealth far greater than any other nation of the world.

In the extent and value of their manufactures and industries they have no equal. In its agricultural and mineral productions this country is superior to any other.

But why should I repeat and extend these well known facts? Certainly not in order to impress upon this audience the appropriateness of the imposing demonstration witnessed this week in our great metropolis in honor of the man who made all of these improvements possible.

In the midst of our glorification of Columbus and of our own glorification it may not be in the best taste for me to hint at any shortcomings or defects of these United States. But it is plain to any intelligent citizen that we have not reached perfection in either society or government, yet I do not propose the unbecoming task of enumerating these defects tonight.

I trust, however, you will tolerate the mention of one, possibly not the most serious, but certainly of sufficient gravity to attract the attention of the thoughtful citizen.

In my residence abroad the criticism most frequently made to me by public men and intelligent observers was the lax and partial administration of justice in the United States. Too often have I been made to blush at the recital, unusually it is true, in exaggerated terms, of the riots, lynchings and lawless execution of punishment upon supposed culprits not infrequently in this country.

Usually it is the imperfect administration of justice by the constituted authorities which occasions but never justifies these lawless acts; and back of the delinquent

NEWS FOR HOMESTEADERS.

General Land Office Rejects Ontonagon & Brule River Railroad Applications.

SUSPENDED HOMESTEAD CLAIMS RELEASED.

Settlers in the Disputed District Can Now Proceed to Prove Up on Their Lands.

LOCAL OFFICERS SUSTAINED.

WASHINGTON, Oct. 13.—Acting Commissioner Stone of the general land office has rejected the applications of the Ontonagon & Brule River railroad company to select 60,000 acres of land in the upper peninsula of Michigan and directs the register and receiver at Marquette to receive entries therefor.

This will be good news to settlers on these lands as it relieves from suspension homestead applications which have been pending before the general office for many years. Other applications for selections are in progress of adjustment.

BLAINE AT OPHIR FARM.

Has Nothing to Add to Current Political Discussion.

WHITE PLAINS, N. Y., Oct. 13.—Public interest today centers about Ophir Farm, the home of Whitelaw Reid, the republican vice-presidential candidate, who is entertaining ex-Secretary of State James G. Blaine.

A reporter was received by Mr. Blaine during the day. His health being the first topic touched, Mr. Blaine said:

"I have fully recovered from the effects of my long rail ride and as I have been ill all summer I cannot but regard with pleasure the ease with which I have traveled over 500 miles."

His voice as he spoke was strong and steady and his smile indicative of profound satisfaction. Turning to the subject of politics, he said:

"My friends know that I am no longer a public man in any sense of the word and any utterance from me would seem uncalculated for. There is no reason why I should tell the republicans to do their duty. On all political subjects I have only to say what I have already said in my published letter to Mr. Manly. I see nothing to add. My health has prevented me so far from taking any active part in the campaign. I have not considered the object of entering the field as a speaker at this time."

Tuesday night next the republicans of White Plains will hold a mass meeting of White Plains addressed by Mr. Reid, Warner Miller and Gen. Horace Porter. Mr. Blaine will be present at this meeting and probably make a short address, if he is in White Plains on that night.

AN OPTIC DELUSION.

People of Canton, Minn., Still Think It a Miracle.

CANTON, Minn., Oct. 13.—Since the action of Bishop Cotter in ridiculing the miraculous power of the mysterious picture in the spire of the church here there has been a little abatement in the excitement. Pilgrims were forbidden the grounds but still the visits were so numerous that it was finally decided to remove the glass. It has already been told that this glass, when viewed from any other point than the ground, was perfectly plain. When removed today it was merely an ordinary pane of glass. A new pane was procured from the stock of a glazier and placed in the sash. The moment it was in place a loud shout went up from the crowd of people below. There was the same picture that had appeared in the old glass. The form of the Virgin with the infant Jesus in her arms was plainly discernible. Nothing short of a bull from the Vatican would now convince the people of Canton that they are not daily viewing a miracle.

EMERY IN HIS OIL.

Charles C. Jerome Charges Rival Firm With Conspiracy.

CHICAGO, Oct. 13.—Charles C. Jerome, a steam packing manufacturer, today sued the United States Metallic Packing company for \$100,000 damages. He charges a conspiracy to defeat him in securing a contract from the alley elevated railroad, the alleged conspiracy consisting in inducing engineers to put emery in the lubricating oil they used.

SHOT HIM FOR FUN.

James Kelly Badly Hurt in Returning From a Barbecue.

KOKOMO, Ind., Oct. 13.—James Kelly, a wood enamer of this city, was wantonly shot on a train this morning while returning from the Peru barbecue. One bullet cut through his right hand and entered his left side. Surgeons have probed for the ball but without success and his condition is critical. His assailant is unknown. He marched through the cars swinging a revolver and shot at random. It is said that he left the train at Bennett's Switch. The officers are looking for him.

CAN TEMPER ALUMINUM.

Canadian Blacksmith Alleged to Have Made Great Discovery.

QUEBEC, Oct. 13.—Blacksmith Allard of Levis, who has discovered the secret of tempering copper, has tempered a piece of aluminum. The test was made at the demand of a New York firm. It took the Canadian inventor only thirty minutes to temper the piece of aluminum, which was originally as soft as lead. Abbe Le Flamme, the well-known scientist of Laval University examined the tempered metal and gave Allard a certificate to the effect that the aluminum was tempered as hard as steel could be.

DISCOVERY OF NICKEL.

Rich Find Is Reported in the Gunflint Lake Region.

DULUTH, Minn., Oct. 13.—Word comes from the northern part of this land district, in township 65-4 and 65-5, that an extensive and valuable discovery has been made there of nickel ore. The find was, so it is reported, uncovered by operators of the Gunflint Lake Iron company, which is stripping for iron mining operations in that locality. The vein of nickel is said to be from eight to ten feet wide and to assay an average of 9 per cent nickel. This assay was made here of samples brought down by parties not at all interested in the property and is a remarkably high showing.

HOW WE ARE "FIXED"

There may be people in this country who think the nation is in a bad way financially, and that if something isn't done soon to reduce expenses or increase the revenues of the government.

An occasional fling is made at the United States treasury, with a view to getting up a scare as to the ability of the government to maintain gold payments.

Since June 30 the total receipts of the government were about \$100,000,000, and expenditures about \$98,000,000, making an excess of receipts of only about \$2,000,000 for the three months.

What is the most paying form of literature? Under certain circumstances, apparently, sermons. The sermon which Canon Fleming recently preached at Sandringham has already realized a profit of \$1,300.

John B. Snyder, of Barto, Berks county, the skillful watchmaker, was out after wild strawberries the other day on the premises of his brother, Jacob Snyder, above Forgevale, when he met with quite an adventure.

Just then down from a bush dropped the mate of the ugly reptile and at once showed fight, but this one also got a whack with the kettle and was soon killed.

Lowell people at Ocean Park had an experience that will enable them to tell about the largest fish story of the season. Soon after dinner it was discovered that the bluefish were driving mackerel in schools into Goose Fair brook.

Two twelve-year-old colored lads climbed a tree one day and proceeded to watch the ball game without liquidating at the box office. All would have been serene if they had not broken off several branches of the tree.

A young man came to the city this evening from Monterey on route northward and soon had crowds following him everywhere he went.

ENGLISH WOMEN OUT OF DOORS.

Where and When Most of the London Beauties Can Be Seen Abroad.

That part of the famous Hyde park—known the world over as Rotten row—which has received the name of the Ladies' mile, presents a splendid appearance when thronged with riders during the fashionable hours on each day during the season.

There seems no end to the gay procession of these ladies, who appear in countless numbers in "the row." During the hours appointed by society, and with their handsome faces, becoming high hats and well fitting habits, delight the onlooker and.

With the world with noble horsemanship. Love of outdoor exercise was at all periods a special characteristic of English women, as well as of their Scotch and Irish sisters.

This inn, known as Skindle's, was for years a favorite meeting place for select parties from London and from private country houses along the river. People of society came down there to dine and enjoy a few hours' boating.

There was no elaborate menu, and no stronger liquids than cider cup or sherry. The inn was conducted as it always had been, and this fact reaches above and below Maidenhead are of surpassing beauty.

THE CASE OF DR. ALLEN.

Belief Prevalent in Negaunee That He Brought About His Own Death.

More Political Pow-wows—Negaunee's Good Luck in the Republican County Convention.

WAS IT SUICIDE?

It is quite generally believed here that Dr. J. E. Allen committed suicide, but no steps have been taken to determine in what manner his death was brought about.

Dr. Allen was married in Finland some eight years since and about two years ago he came from that country to Negaunee, where he has since made his home.

Mr. Pelto, of the firm of Methonen & Pelto, was with him when he died. He was endeavoring to get him into the house off the street where he was making a scene.

Dr. Allen was a most amiable and popular gentleman but had an uncontrollable appetite for strong drink and when once he started to indulge it he could not be induced to sober up for a month or so.

Republican Rally Tomorrow Night.

The republican campaign committee has secured Senator J. H. D. Stevens and Mr. John Gjerston to speak at the opera house tomorrow evening.

Democratic Meetings.

A telegram was received by J. L. McClear of this city yesterday saying that the Hon. J. P. Irish of California will arrive in Negaunee today and will speak in behalf of the democratic cause at McDonald's Opera house in the evening.

Negaunee Secured Two.

Negaunee certainly has been very fortunate this year in securing such liberal recognition from the county convention which was held Wednesday afternoon in Ishpeming.

A Correction.

In Wednesday evening's issue of the Ishpeming Daily Press there appeared an article written by its Negaunee agent, charging Mr. Griffey, of the local republican committee, with being a "trickster" because he secured, as the article says, all the available rights at the opera house until election day.

LOCAL LAOONICS.

Jimmy Driscoll has again struck Negaunee after an absence of 15 days, which he spent in jail at Marquette.

GETTING SOMETHING TO DO.

A Few Practical Hints for Those Who Are Hunting for Work.

There is hardly a large establishment of any kind, whether it be a newspaper office, a manufactory or a trade establishment, that has not applications constantly from young men who want something to do.

The truth is that the world is slow to take any man entirely on trust. The greatest singers, the greatest painters, the greatest writers have had to convince the world that it had need of them before it was willing to give them a subsistence.

The question of "getting a position" resolves itself into two grand essentials—first, proficiency of some sort, which stands for dollars and cents in the world's market place, and, next, tact to demonstrate this proficiency in a way to attract the world's attention.

It is a mistake to depend on "influence" to get work in a legitimate calling; influence belongs more properly to the domain of politics.

The writer heard of a young man who, being in needy circumstances, went bravely to work at the first thing at hand—trench digging for a contractor.

It is another requisite of the successful worker that he shall be in love with his work. If he is a mechanic, he will take pride in his tools; if he is a book-keeper, he will plume himself on the merits of his pen and on the neatness and forwardness of his accounts.

A young lady who wished a place as typewriter got it in a common sense way. She wrote out a half dozen "replies," so to speak, brief, businesslike and respectful, setting forth her experience, qualifications and ideas as to pay, putting her figures rather above the market rate.

It is not true that the world is a better market for muscles than for brains. The difficulty is that brain matter, whatever its native brightness, is practically worthless without training and experience.

We find in the table at the Ramesseum distinct references to the bull, the lion and the scorpion, and it is also clearly indicated that at that time the star Sirius rose heliacally at the beginning of the rise of the Nile.

The word heliacally requires a little explanation. The ancients, who had no telescopes and had to use their horizon as the only scientific instrument which they possessed, were very careful in determining the various conditions in which a star could rise.

Therefore, what the ancients did was to determine a time before sunrise in the early dawn at which the star could be very obviously and clearly seen to rise.

Men and women who, with certain brilliant qualities, fail to realize this truth often fancy that the conditions of success are hard and limited. Yet theatrical managers, magazine publishers and many others are subject to the very same law themselves.

Finally, it is not necessary that a want should be proclaimed in order to exist. Sometimes it may be anticipated. Sometimes it may even be created. Whoever can create a want for his wares or his work is on the way to masterful success.

Breadcrumbs in Roquefort Cheese. The demand for Roquefort cheese has become so great that trickery now plays a part in the ripening process.

Rilla Kittridge, an expert microscopic penman of Belfast, Me., has written several of Gladstone's speeches upon a single postal card and sent the curiosity to the great Liberal leader.

Rose L. Clemens, of El Reno, O. T., though only eighteen years of age, is slowly dying of ossification. There is now scarcely any flesh on her bones, and she weighs only twenty-eight pounds.

Suicides in European Armies.

The Austrian army takes the lead in the matter of suicides. From 1875 to 1887 a yearly average of 122 suicides is recorded for every 100,000 effective troops.

There are some curious facts about these suicides. In the European armies, especially in Austria, it is the young soldiers who kill themselves during the first month of their service.

The most frequent method is shooting, though hanging and drowning are frequent methods. The infantry use fire-arms and usually aim at their heads.

There is a difference of opinion as to which of the seven wonders of the world deserves the title of the "most magnificent," and as the majority of these wonders have disappeared it is somewhat difficult to arrive at a true decision.

MORE KANSAS BRIGANDS.

Missouri Pacific Train Held Up at Caney and Express Car Looted.

FRIENDS OF DALTONS SAID TO BE CONCERNED.

Express Messenger Maxwell Is Wounded in the Arm-Railway Station at Winfield, Kas., Robbed.

GOT BUT SMALL BOOTY.

COFFEYVILLE, Oct. 13.—Warned by the fate of the Dalton band of desperadoes only a week ago two men held up a Missouri Pacific train near Caney, a small town in this vicinity, last night, shot Express Messenger J. N. Maxwell through the arm, broke open the express safe and secured all the money in the car. As the regular express money except what was destined for way stations had been transferred at Conway Springs the booty was of little value.

Just as the train drew up at Caney at 10:15 o'clock last night two masked men heavily armed with Winchesters and revolvers climbed on the locomotive tender from the front of the combination baggage and express car and covered Engineer Eggleston and his fireman with their revolvers. The engineer was ordered to pull slowly to the switch where all was darkness and where there was no danger of molestation.

This was done and at the whistling post the outlaws ordered the engineer to stop and made the firemen uncouple the express car from the rest of the train. All this was done so quietly that no one in the coaches was disturbed. The engineer was then ordered to pull ahead with the express car and obeyed, for the Winchesters held close to his head, looked unpleasantly dangerous. When a deep cut half a mile further ahead had been reached the engine was halted.

Express Messenger J. N. Maxwell, who had witnessed the uncoupling, had in the meantime blown out his lights, barred and barricaded the doors and made ready for desperate resistance. The order to open up the car elicited no response and the robbers began firing into the sides of the car with their Winchesters. Maxwell answered the shots with his revolver for a few minutes but finally received a bullet in his right arm which disabled him and he was compelled to surrender.

The robbers ordered him to light his lamp and open the car door and as soon as he had done so they entered the car with the engineer in front of them as a shield. Maxwell was then forced to open his safe and deliver up his watch and personal property. The robbers then backed off the car and disappeared in the darkness.

Messenger Maxwell, who is now here nursing his wound, which is not serious, declares that the robbers secured less than \$100 in all told. The men engaged in last night's work were probably the same ones who last week held up the station agent at Sedan, Kas. KANSAS CITY, Oct. 13.—It is reported from Parsons, Kas., that friends of the late Dalton boys were the bandits who held up the Missouri Pacific train last night; that they are preparing to again raid Coffeyville for revenge and then proceed to Independence to rescue Emmett Dalton.

ROBBED THE OPERATOR.

Bandits Raid the Santa Fe Station at Winfield, Kas.

WINFIELD, Kas., Oct. 13.—Operator Mosier was taking a short nap in the Santa Fe depot last night when he was suddenly punched in the ribs and told to straighten up. He did so and looked square into two revolvers held by masked men. They lifted up his hat from the table and took his revolver. They also pulled out a drawer and found another pistol, showing that they were familiar with the place. The cash drawer was then broken open and robbed of its contents, amounting to only \$25. An attempt was then made to open the safe but they did not succeed. Some persons waiting for a late train were searched and their valuables taken.

TROOPS LEAVE HOMESTEAD.

Sixteenth Regiment Departs After Ninety-Five Days Service.

HOMESTEAD, Pa., Oct. 13.—Camp Black was struck this morning and after ninety-five days service the Sixteenth regiment marched out of Homestead with flying colors to the sound of music and followed by the cheers of some non-unionists. About 1,000 strikers watched the troops depart but preserved strict silence. Homestead is now free from troops. The cost to the state of maintaining the National Guard at Homestead has been \$900,000. Chairman H. C. Frick visited the mill this morning. Nine new men were given employment by Superintendent Potter.

CHRISTIE CUTS HIS THROAT.

Outlaw Springs From His Burning Cabin and Outfits Officers.

TALQUAH, I. T., Oct. 13.—Ned Christie, the outlaw who fortified himself in his cabin in the Caney mountains and resisted an attack of United States marshals for two days, escaped today. Twenty Cherokee Indian police under six deputy marshals reinforced the government officers today. Failing to dislodge Christie from his stronghold the attacking party set fire to the cabin. The desperado leaped through the flames and made his escape.

CONFESSED THEIR GUILT.

Four Negro Murderers Shot to Death in Alabama.

MONTGOMERY, Ala., Oct. 13.—The four negro boys from 18 to 20 years old arrested for the murder of Richard Johnson and his grown daughter and the burning of their house near Bell's Landing on Monday night last confessed their guilt. They said that their purpose was rape of the young lady and robbery of the old man. They were

placed in jail at Monroeville but a number of respectable citizens took them from the jail to a point six miles east of the Alabama river and shot them to death.

HIS NAME IS DENNIS.

Would Have Been Indeed If Crowd Had Got Him.

STRAWN, Ill., Oct. 13.—Jessie J. Dennis today stabbed Frank Hoffman and Chris. Striplinman during a fight. The wounded men were brought to this place where Hoffman died. Fears of violence caused the town marshal to take the murderer to Paxton, the county seat of Ford county. A mob gathered at the depot and it was with difficulty that Dennis was placed on the cars before the mob could get him. All three men are farmers.

ELECTRIC WORKERS STRIKE.

Several Electrical Appliance Factories Tied Up at Chicago.

CHICAGO, Oct. 13.—The advisory committee of the National Electric Workers' union called out on strike today all employees of the Chicago Edison company, Western Electric company, Harter company and Comstock company, about 250 men. The trouble was caused by the refusal of the companies to sign the agreement presented by the advisory company, which calls for eight hours work at the old scale of wages and for all overtime as time and one-half.

STOPPED BY THE FOG.

Navigation on the Detroit River Suspended Several Hours.

DETROIT, Oct. 13.—Navigation throughout the Detroit river was entirely suspended from an early hour this morning until noon by the most dense fog that has prevailed here this season. The only disaster reported is the sinking of the small steam barge Richard Martini, in the vicinity of Bar Point. She is in shallow water and will be easily raised. The Martini registers 300 gross tons and is owned in Saginaw.

TELESCOPE AND OBSERVER.

Chicago to Have the Largest and the Most Famous.

CHICAGO, Oct. 13.—It is reported this afternoon that in addition to the greatest telescope in the world the University of Chicago is to have perhaps the most famous observer, E. E. Barnard of the Lick Observatory, who a few days ago discovered the fifth satellite of Jupiter. A project is afoot to save time in constructing the telescope by purchasing the great forty-inch disks designed for the Los Angeles observatory but not fully paid for by that institution.

TWELVE HORSES CREMATED.

San Francisco Dwellings and Stables Destroyed by Fire.

SAN FRANCISCO, Oct. 13.—An explosion of a lantern carried by a watchman this morning caused a fire which destroyed the large stables of the Stetson & Renner Drying company and of C. B. Bode, also fifteen dwellings adjoining. Twelve horses were burned alive. The aggregate loss is variously estimated at from fifty to sixty thousand dollars.

PROFESSORS' PAY RAISED.

University of Michigan Raises Scale to Keep Here.

ANN ARBOR, Mich., Oct. 13.—The regents of the University of Michigan have adopted a suggestion made by President Angell that the salaries of professors be raised to prevent other colleges from constantly robbing him of his best assistance. The raise is from \$300 to \$400 annually in each case, according to the length of service.

Forecast of the Weather.

WASHINGTON, Oct. 13.—S. P. M.—The weather bureau reports the following as its forecast for the next 24 hours: For upper Michigan: Generally fair; southeasterly winds.

When catarrh attacks a person of scrofulous diathesis, the disease is almost sure to become chronic. The only efficacious cure, therefore, is Ayer's Sarsaparilla, which expels scrofula from the system and the catarrh soon follows suit. Local treatment is only a waste of time.

EIGHT MINERS SLAIN.

Fatal Explosion of Gas in the Sterling Colliery Near Shamokin, Pa.

SIX MEN STILL IN THE MINE THIS MORNING.

They Are Probably All Dead Now but Rescuing Parties Are Working Frantically Toward Them.

IN THE BOWELS OF THE EARTH.

SHAMOKIN, Pa., Oct. 13.—An explosion of gas occurred today at the Sterling colliery this morning, supposed to have been caused by a fall of coal breaking a miner's lamp. One man was killed, four were injured and eight others entombed. It is believed that the latter are all dead. Up to midnight the searching party had been unable to reach six men, owing to so much "black damp." The following are the names of the dead and injured:

THOMAS OGARA, married. BENJAMIN THOMAS, married. SAMUEL COLLINS, married. PATRICK McDEVITT. ISAAC GANNEY, single. JOSEPH KETCHIE, married. MICHAEL WETCHCOCK, single. CHARLES BELLANAGER, single. JOSEPH WILNSTOCK, married. HORACE PRICE, leader, terribly cut and mangled. SAMUEL ROGERS, cut and bruised. WILLIAM MACK, cut and mangled. DANIEL REED, driver, skull fractured, burned and cut, will probably die.

News of the awful disaster was soon carried to the homes of the miners and a moment later the wives and mothers of the unfortunate men had gathered about the mouth of the pit. All were excited and most of the women were crying and wringing their hands hysterically. The pit boss and mine superintendent were awake to the necessity of prompt action and without loss of time gathered all the miners in the vicinity and organized them into squads that the work of clearing away the wreckage and rescuing the miners might be done night and day until it was accomplished. The women were tenderly but firmly urged to stand back that they might not in any way hinder the work.

In less than half an hour the task was begun. The first squad of rescuers, bared to the waist, entered upon the task with a zeal and determination that gave the weeping women hope that their loved ones might yet be saved. But determined though the men were they were frequently driven back by the poisonous black gas. Several of the rescuers were overcome by it.

The work has been in progress two hours when two miners who had been imprisoned in a new entry made their way, half dragging half carrying two others who were so badly overcome that they were unable to get out alone. The appearance of these men at the entrance of the mine was greeted with a shout of joy from the little gathering outside. The hysterical women had become cool by this time. The prostrated miners were quickly cared for and by the very women who a short time before were wringing their hands in despair.

An hour later the sturdy rescuers succeeded in liberating Irvin Edwards. He was hardly able to speak above a whisper. Some brandy was administered and he was in a little time able to tell the anxious wives, mothers and friends of the men still buried in the mine what little he knew of their condition. It is impossible to say how long it will take to dig the unfortunate miners out of the old entry where they are supposed to be imprisoned. Six mules were killed by the explosion.

At 10 o'clock tonight McDevitt and Bellecane were taken out in an unconscious condition and will probably die.

The Dog Got Away.

The dogs of Paris are giving a good deal of trouble to the police as well as to their owners, who scarcely dare let them go out of their sight lest they should be pounced upon and taken off to the Fourriere to be forthwith destroyed. There can be no question that in the very hot weather stray dogs constitute a certain danger. It appears, however, from all that is said on the subject, that the new police regulations concerning dogs are rather heedless severe, the consequence being frequent collisions between dog owners and the police. The other day, for instance, an almost serious scuffle occurred in Paris, the cause of which was a dog. The animal was noticed by a policeman in the street to be without the regulation muzzle, and was at once "arrested," if the expression may be used.

A woman claimed the animal as her property in presence of a crowd of 500 people. The affair took such a lively turn that the police officers were compelled to draw their sword bayonets in their own defense. The upshot of the matter was that one of the officers was rather severely injured, and that had it not been for the arrival of a party of constables on the scene it is probable there would have been serious fighting. In the course of the scuffle the dog, the original cause of it, escaped.—Levant

Cures Others

Will cure You, is a true statement of the action of AYER'S Sarsaparilla, when taken for diseases originating in impure blood; but, while this assertion is true of AYER'S Sarsaparilla, as thousands can attest, it cannot be truthfully applied to other preparations; which unprincipled dealers will recommend, and try to impose upon you, as "just as good as Ayer's." Take Ayer's Sarsaparilla and Ayer's only, if you need a blood-purifier and would be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equaled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

AYER'S Sarsaparilla

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilla. I was afflicted with kidney troubles for about six months, suffering greatly with pains in the small of my back. In addition to this, my body was covered with pimply eruptions. The remedies prescribed failed to help me. I then began to take AYER'S Sarsaparilla, and, in a short time, the pains ceased and the pimples disappeared. I advise every young man or woman, in case of sickness resulting from impure blood, no matter how long standing the case may be, to take AYER'S Sarsaparilla."—H. L. Jarmann, 23 William st., New York City.

MARINE MATTERS.

PASSED THE CANAL.

SAULT STE. MARIE, Oct. 13.—[Special.]—Up—P. M.—Montana, Sitka, 169; A. M.—City of Berlin, Celtic, Harold, Stafford, Francomb; P. M.—Panther, Massasoit, Mator, Maritana, Farwell, Rutter, Roman, Britton. The water still continues at 14 feet 4 inches and fifty of the larger class of vessels are waiting passage. The steamer Onoko, wheat laden from Duluth, struck heavily on the Middle Ground above the canal entrance filling her water bottom. She lies on the bottom at the canal entrance and will have to be lifted heavily to float through the canal. She does not interfere with navigation.

PERSONAL MENTION.

Henry Harwood, of Ishpeming, is at the Clifton. H. O. Young, prosecuting attorney, is in the city. Miss Anthony of Negaunee is visiting friends in the city. Mrs. J. V. Knapp and daughter are down from Negaunee. Mrs. W. F. Danbar is in the city from Sault Ste. Marie. A. Mailhand of Negaunee, is registered at the Hotel Marquette. W. D. Gordon, R. W. Warren and W. S. Pearce, all of Houghton, are in the city. Wm. O'Meara returned yesterday from Pittsburgh, looking none the worse from the trip.

REPORTORIAL PENCILINGS

The "Boys" of Ishpeming have engaged the Hughes orchestra to play for their dance tonight. Mrs. M. Hogan and a number of other ladies are arranging for a leap year party at Armory hall on the evening of Thursday, the 21st inst. The Marquette Rifles will give the first of this season's series of dancing receptions at the Armory on the evening of October 19. Hughes' orchestra will furnish the music.

Wonder if there are any Marquette aspirants for places on the democratic county ticket? If so they should promptly declare themselves or forever after hold their peace. Howard Kelsey shot a lynx opposite the door of his cabin on his shooting grounds Wednesday night. The brute measured from tip to tip, five feet, eight and one half inches.

Secretary J. B. Montgomery of the board of school examiners of this county gives notice that the next public examination will be held in the high school building at Negaunee on Friday, October 23.

The members of Marquette lodge, No. 101, F. & A. M., will give a series of the dancing receptions this winter for Masons, their families, and invited guests. The first of the series will be on the evening of October 21.

If Uncle Sam would replace the defective and worn out bricks in the walk around the government building with new ones he would make friends in Marquette. That brick walk was a mistake in the first place, but it would be endurable if kept in repair, which it isn't in its present state.

The democratic city convention to select the delegates who will represent this city in the county convention of that party Saturday will be held at the Cleveland club rooms this evening at 8 o'clock. Ward caucuses will be held in the evening at 7 o'clock to choose the delegates from the wards to the city convention.

The Marquette city delegation didn't carry a broom when it returned from the republican county convention Wednesday evening, but the boys are feeling better now and will stand by the ticket right manfully. There are no kickers among the republicans of Marquette, though they do like to have a little of their way once in a while.

The wire for the street railway's extension of its line to tap the residence portion of the city east of Front street in the Third ward has been ten days on the road from Boston but has not yet shown up here. The company is waiting its arrival anxiously, as the construction force is ready to lay the return wire between the rails.

The full official report of the proceeding of the county board at the annual meeting held this week is given this morning in supplemental pages. There was too much of it to be given in the regular edition of the paper and it is more convenient for filing away in this form. Much of the matter it contains is of great importance to the people of the county, and the report should be filed away and preserved for reference.

P. J. Gill, who lives on Prospect street between Third and Fourth streets, reports having seen a deer chased by a dog go by his place last evening about 6 o'clock. He was sitting on his doorstep at the time and the sight so bewildered him that the deer and dog had got out of range before he had time to think of getting his gun. Mr. Gill is a man of unquestioned veracity or the MINING JOURNAL would be disinclined to take his word for so strange a statement, but knowing him to be strictly truthful his story "goes."

On Saturday evening there will be another republican meeting at the rink, when the voters will be addressed by Rob't E. Frazer, of Detroit, the wit-tiest and most entertaining speaker who has visited Marquette thus far during the campaign. Mr. Frazer has spoken here before and no one who ever heard him will miss hearing him again where that is possible. He is convincing and instructive as well as entertaining, so that those who go to laugh will come away with added information on the subjects discussed as well as pleased with his address as a purely forensic effort. Don't miss hearing him Saturday evening.

The next political event in this city will be the democratic county convention, which will meet Saturday afternoon at the Hotel Marquette. The democratic party is the only one in the county that has held a county convention here this year, but that will make no difference with the voters of Marquette when it comes to choosing county officers. They have become so

used to seeing all the offices go to candidates from the other end of the county that they have come to regard it as quite proper that the conventions which nominate them should be held up-the-road. The democrats will realize nothing from their departure from a custom that has obtained in the county, but they are welcome to the city just the same.

MARE SERENITATIS.

There all is waste and wild and dark and drear. The deepest silence—still in death; No flying wing, no winding call—the ear Hears not the slightest breath.

All, all is wild; no sunshine falls. Alone, The very mountains seem to sleep. No moon From rock in that silence of the deep.

From Tycho's broad chaotic waste to where Gascon's crater spreads, There lurid, darkness mountains catch the glare Eternal o'er their heads.

Where are the souls that once those vales did fill— That poured their hearts above Once quenching steam, now dried up, wasted still. Once must so loved?

Oh, that deserted sward above! who knows What hand hath made it so? What epic strain could sweep in song its woes. Divine what cause hath laid it low?

Oh, nay, 'tis not for human art to soar That vast chaotic deep! When time and place and art shall be no more.

'Twill rouse from mystic sleep.—E. T. O'Loughlin in Godey's Lady's Book.

City Girls Water Their Horses.

W. W. Hall, a young farmer near Montpelier, enjoyed himself hugely a few days back in watching a couple of city girls attempt to water their horses at the trough at his place. The horses were checked up, and of course could not get their noses down to the water. This seemed to surprise the young ladies at first, but finally realizing the trouble they both got out of the buggy, and going behind lifted up on the hind axle and after raising the hind wheels clear off the ground peeped around the sides of the vehicle to see the horses drink.

Finding that the horses didn't seem to know enough to stick their heads down at the same time they raised the hind wheels a girl remained behind to hold the buggy up and the other went to the horses' heads and tried to pull their noses down to the water.

After laughing till he shook several boards off the side of the blacksmith shop from where he watched the girls lift on the buggy and pull on the horses' heads till they were red in the face and almost ready to cry, Will went to their assistance and unchecked the horses.

The young ladies gazed at first in bewilderment, and then with a kind of a don't-you-ever-tell look at each other calmly tucked the robe around them, leaned back in their seats, and after waiting for their horses to drink, drove off, leaving Will to sit down on the corner of the trough and ruminate over the city gal and her way of doing things.—Montpelier Herald.

The Mozartian System.

The all pervading principle of the Mozartian system was a conciseness of construction and an unmistakable geography of tonality. Before Mozart, melodic figures, subjects and keys, with all other theoretical addenda at the disposal of the creative musician, were confused. Mere bits of tune and jingle, with a brilliant passage here and there, constitute a movement, or even a composition.

Haydn had brought much chaotic and irregular theoretical lore into clear and definite shape, but Mozart simplified matters still more. Introducing the keenest outlines, the most beautiful figures, together with clear and lucid teachings, he defined the formal construction of the movement, section, repeat, etc., until now the musician or student can set out with his principal subject or theme, and having no misgivings concerning the dogmas of subsidiary subject, complimentary keys and the like.

Schooled in Mozart's principles of construction, the student could pilot himself safely through the intricacies of the most advanced symphony, and it is for his labors and the pattern he set in this direction that the world of music delights to do honor to the name of Mozart.—Blackwood's Magazine.

How the Mosquito Does It.

A mosquito's bill is an elaborate contrivance and consists of two sharp saws and a lance inclosed in a sheath which is also employed as a pump. The saws are bony, but flexible, and the teeth are near the end which is pointed. The lance is perhaps the most perfect instrument known in the world of minute things. It is first thrust into the flesh and the opening is enlarged by the saws, which play beside it until the sheath can be inserted. The sawing is what causes irritation when a mosquito is biting.—Rochester Democrat and Chronicle.

Politics and Presents.

A recent English bridegroom gave to the bridesmaids at his wedding brooches upon which were inscribed the number "933." This, it seems, was the majority by which he secured political preferment. If Americans should take to mixing politics with social events some curious results might be evolved.—New York Times.

Saratoga, Kan., has a \$30,000 opera house, but only the music of insects is ever heard there; there is not a resident in the town. It also has a \$20,000 school house, but merry little voices never echo there.

HUBBELL HEARD FROM

Ishpeming Voters Cram Opera House to Hear His Speech Last Evening.

Mischievous Urchins Brought to Bar for Misconduct—A Word to People Who Want to Buy Building Lots.

LAST NIGHT'S RALLY.

The republican rally at the City opera house last night brought out another crush, and the hall was filled to overflowing. Hon. Jay A. Hubbell, of Houghton, ex-congressman from this district, did the talking and did it well—so well in fact that he held the closest attention of all in the hall from the start to the close of his address. His speech was a strong, common-sense appeal to the voters, and especially to the laboring men, who heartily applauded him at frequent intervals. Mr. Hubbell spoke mainly on the tariff, but touched upon the other issues of the campaign in their order of prominence. The Harrison and Reid clubs were present and rendered several stirring campaign songs, while the City band was on hand and gave some good selections.

Pulled in by the Cops.

Three of the gang of youngsters who have been making their headquarters in the vicinity of the Division street M. E. church were pulled in by the police Wednesday evening for throwing stones through the church windows. After they had been in the bastle a short time their parents got word of it, and came to their rescue. They secured the release of their prankish kids by agreeing to pay all damages and keep the youngsters out of mischief in the future. The boys are quite young and were actuated more by a spirit of mischief than deliberate malice. It was they did, and the lesson they have received will probably cause them to mend their ways.

Take a Walk

To the new addition of the Cleveland Iron company and look it over before attending the sale of lots announced to take place at the company's office Monday morning next at 9 o'clock. The addition is only five blocks from the post-office, and a five minutes' walk will take you there. If you don't want a lot look the property over just the same as though you wanted half a dozen. If you intend purchasing one or more lots go out and make your selection, and when the sale takes place have the number of the lot or lots you want in your possession so that you will know what you are buying. The sale will open at the appointed hour and the best lots will undoubtedly go first; therefore, all who intend securing lots should be at the Cleveland office before 9 o'clock Monday morning. The terms are one-third cash down, the balance to be paid in five years. On these very reasonable terms the lots should, and undoubtedly will, be sold in quick order.

And Piggy Still Lives.

Henry Chapman was the victim of a queer accident yesterday. He and his brother Charles conduct a butcher shop on Sixth street, and during the day they had occasion to reduce a well-fed and active pig that they had in stock to pork. As a preliminary process it was, of course, necessary to slaughter the animal and they undertook to do this by shooting it with a revolver. His swinishship put in a strenuous objection to being done up in that way and moved about so actively that it was impossible to find the seat of his vitality with a bullet from the revolver. Thereupon Charles caught the pig and undertook to hold him by the ear while Henry did the rest. The latter's aim was about as good as that of the average policeman, and instead of lodging the bullet in piggy's brain he planted it snugly in his brother Charles' left shoulder. A surgeon was called at once and dressed the wound, which proved to be but slight. The pig is still "on deck" and laying up fat without thought of the wrath to come, but it is safe to wager that he will be made into a marketable article of pork soon, and without the agency of a revolver.

New Organist.

On Wednesday last Mr. W. A. Brooman, of Lindsay, Kansas, engaged with the Swedish Lutheran church, of this city, as organist, taking the place of Mr. N. Mortenson, resigned. Mr. Brooman comes well recommended as a musician, and will manipulate the keys of the large organ to the satisfaction of the congregation. Mr. Mortenson was organist for a number of years and always took especial interest in seeing that the instrumental and choir music furnished was of a high order of merit. He will continue to lead the Bethany orchestra, which ranks away up as a musical organization—and which, by the way, is at present preparing for a concert to be given in course of a month or two.

Democrats Elect Delegation.

Ishpeming's delegation to the democratic county convention at Marquette Saturday was chosen last evening at the city convention in the Branstad club rooms called for that purpose. The convention called Mr. John H. Quinn to preside over its deliberations and Mr. R. Hill was chosen to serve as

secretary. After passing on the credentials of the delegates selected in the several wards the convention proceeded to elect delegates to the county convention, naming as such the following list: J. H. Quinn, Wm. M. Nichols, Sam Blumenhahl, John Farm, Wm. McGinty, J. B. Tibor, D. McViechie, E. C. Cooley, Jas. Ames, H. F. Heyn, C. Meilleur, J. J. Voelker, Jos. Schilling, T. J. Dundon, John Welsh, Jr., Olaf Peterson, Thos. Pearce.

A Singular Accident.

A lad aged eight or nine years named Patrick O'Brien, son of Mr. and Mrs. P. O'Brien, who live on West Division street, together with two other boys of about the same age, erected a swing underneath the C. & N. W. R'y coal trestle in the western part of the city on Tuesday. A chain was used as a swing and was looped over one of the rails above. The O'Brien boy was seated in the swing when an engine came along overhead, and when the wheels of the engine struck the chain it slipped along the rail, throwing the boy out of the swing against the timbers below. The youngster received several bad bruises about the head and body and was terribly frightened, but sustained no serious injury. The engine passed over the chain without being delayed.

For the Supreme Lodge.

Messrs. James Trebilcock and Wm. Andrews will leave here today as delegates from Sir Humphrey Davy lodge, Sons of St. George, of Ishpeming, to the supreme lodge which convenes at Detroit on Tuesday next. Messrs. Richard Smith and T. M. Trenberth will also leave today as delegates from Ahmeek lodge No. 150, I. O. O. F. of Ishpeming, to the grand lodge assembly, which also meets at Detroit on next Tuesday. The four gentlemen will go to Detroit via Chicago, and will take in the sights of the World's Fair city before going to the state metropolis. They expect to return one week from today or tomorrow.

Monte Cristo Coming.

Fred Felton's "New Monte Cristo" will be presented at the City Opera house on Thursday evening, November 3rd. Mr. Felton is a manager of well known ability and has secured the play at a heavy expense. He is sparing neither money nor pains to present it, as it has never been seen before in this section, and the theatre-goers will find it a treat in the dramatic line such as is rarely their privilege to enjoy. The company carries sufficient scenery of its own to properly stage the piece in any opera house in the country.

ISHPEMING IN BRIEF.

"The Boys" and their friends will "trip the light fantastic" at the A. O. U. W. hall tonight.

E. Mousquette has engaged with F. Braastad & Co. as clerk in their clothing department.

Hon. Bob Fraser is the next republican orator booked for an address in Ishpeming. His date is Thursday next, the 20th inst.

The employees of the Barnum, Foster, Fitch and Cleveland Hematite mines will be paid off tomorrow for their last month's labor.

Thos. Nugent is now behind the Nelson house bar attending to the wants of patrons of the place with his accustomed skill and suavity.

Mr. and Mrs. Thomas Carlyon mourn the loss of Annie, their infant daughter, who died on Wednesday. The funeral takes place this afternoon at 2 o'clock.

The funeral of the late John Demerse will take place this morning at 9 o'clock from St. Joseph's Catholic church, under the auspices of the L'Union Canadienne Francaise society.

The funeral of the late William Heaton took place yesterday afternoon from the Grace Episcopal church, under direction of the Sons of St. George lodge of Ishpeming.

Dr. A. M. Miller, of gold cure fame, left yesterday for Red Jacket, where he expects to remain for two or three weeks, attending to several cases. He will return to Ishpeming after completing his work at Red Jacket, when he will start in here actively.

The Y. W. C. T. U. will hold a meeting at K. of P. hall on Monday evening next, to which the public is cordially invited. After the regular business coming before the meeting has been transacted, the "Old Curiosity Shop" will be produced. It will cost only 5 cents to see it.

R. Matthews, manager of Sellwood & Co.'s store, has a display of fruits and vegetables in the grocery window of that establishment which is worthy of special mention. A figure constructed of garden and orchard products is the center of attraction, and attracts much attention. It looks fine by electric light.

HEATH IN OLD AGE.

Edward Collinson, Queens, N. Y., says: "I commenced using Brandreth's Pills over fifty-five years ago. I first bought them in London, and have continued using them since I came to this country in 1836. I am now over seventy-five years old, hale and hearty, and attribute my wonderful health to the persistent use of Brandreth's Pills. Occasionally I have a bad cold or severe attack of rheumatism, indigestion or biliousness, but four or five doses of Brandreth's Pills always cure me. Whenever my children have been sick with scarlet fever, measles, acid stomach, disordered digestion or constiveness, a few doses of Brandreth's Pills restored their health at once."

A REMEDY FOR THE GRIPPE COUGH.

A remedy recommended for patients afflicted with the grippe is Kemp's Balsam, which is especially adapted to diseases of the throat and lungs. Do not wait for the first symptoms of the disease, but get a bottle and keep it on hand for use the moment it is needed. If neglected the grippe has a tendency to bring on pneumonia. All druggists sell the Balsam.

Steaks of Buffalo Meat. It is not often that Kansas Cityans have an opportunity to get a succulent buffalo steak, but they have it now. An East Twelfth street butcher has just received the carcass of an overwild buffalo from British Columbia, and yesterday the butcher's knife touched it for the first time.

That was before the animals began to be thinned out on the plains between eastern Kansas and the Rocky mountains. The few that escaped the slaughter of the hunter and the plainsman went north into the British territory, and even there it is a rare thing for one of them to be killed.

REMARKABLE SUCCESS. I, James Stewart, of Marquette, have been unable to work for some time on account of epilepsy, which caused mental depression and great weakness; in fact perfectly unfit me for any business. I got no relief until I tried Dr. Speer & Co. After two months' treatment I am surprised at the result. I have had no fits since. I sleep well, and arise in the morning refreshed, instead of feeling more tired than when I went to bed.

SOMETHING ABOUT STOVES.

One of Candidate Finn's Campaign Roorbacks Effectually Refuted.

A DEMOCRAT SAYS THE TRUTH IS NOT IN IT.

How Marquette Republicans Regard the County Ticket-Lodge Rooms to be Improved.

ABOUT THOSE STOVES.

One of the many startling statements that Candidate Finn has been making in the course of his speeches throughout the district since he set out to talk himself into congress is one to this effect: That the manufacturers of this country have one price for Americans, whom the protective tariff place at their mercy, and another for customers in countries where they have to sell in competition with foreign manufacturers. In proof of this he mentioned as a case in point the practice of the Michigan Stove company which, he asserted, sells its stoves in Canada at a price fifty per cent below what the same stoves are sold for in this country. A gentleman of Marquette who heard the statement had his curiosity aroused in the matter and asked Mr. Manhard, of the Manhard Hardware company in this city, to ascertain the facts for him. Mr. Manhard, who is agent in this section for the stove company named, wrote that company asking whether our Canadian neighbors got the benefit of a discrimination in their favor as stated by Mr. Finn, or not. The response to his letter is given below, the reply being signed by a member of the concern who is a democrat, it may not be improper to explain:

Mr. M. R. Manhard, of Manhard Hardware Co., Marquette, Mich.: DEAR SIR:—I am very glad that you called my attention to the matters contained in your favor of the 23rd. This is not the first letter I have had on the subject, but let me explain somewhat, or rather in the first place let me say that this position is a false one. No one can buy American stoves, I care not whether shipped to a foreign country or into Canada, unless they pay at least the duty, in addition to our regular price, which is 30 per cent. I have classed all foreign countries under this duty. I should except England.

I suppose this is some political "crank" lecturer who is trying to make a point with labor, and if this is being talked or advocated to any extent in your country, some of the public speakers on the other side ought to take it up and "nail" this statement so it cannot be misunderstood. I do not know what can be the object of any public speaker to refer in this way to foreign trade, because he must know that intelligent people know better, but you know that public speakers, especially at campaign time, gather all the straws they can, and make as much of them as they can.

In a nut-shell, this can be very easily and forcibly explained by any one looking into the duties which govern, especially in Canada, and I am free to say to you that we do not sell a dollar's worth of goods in Canada, and cannot with a 30 per cent duty added to our price, and we sell but very little in foreign markets.

I trust this explanation will prove satisfactory, and if at any time the question comes up again and you need any further letters from me I shall be glad to respond to your every inquiry.

Very respectfully yours,
GEORGE H. BARBOUR.

The Ticket is Satisfactory.

Though Marquette did not draw many big prizes in the political lottery whose biennial distribution took place at Ishpeming Wednesday afternoon, the republicans of this city are well satisfied with the ticket and will give it a cordial support at the polls.

The nomination of Mr. Broad for sheriff is conceded to have been wisely made, though the delegation from this city preferred and supported another man for that office. Mr. Broad represents a nationality that is entitled to consideration from the republican party, and this fact together with the conceded right of Negeance to that place on the ticket decided the contest in his favor. While it is probably true that a majority of the republicans in this part of the county would prefer to have Mr. Glode the candidate, it is admitted even by these that the convention did the most judicious thing it could do under the circumstances in nominating Mr. Broad, and the latter gentleman can rest assured of getting the full vote of his party in this city.

The nomination of Mr. Gad Smith for clerk and register of deeds was predetermined by that gentleman's wide popularity, his admitted integrity and marked fitness for the position that he has filled so acceptably for a succession of terms, and the absence of any earnest opposition to him in any part of the county.

The only other office that the republicans here had a candidate for was that of prosecuting attorney, and they urged the nomination of Mr. Hill for that office not through any want of friendship for or confidence in Mr. Young but for the reason that inasmuch as he has held the position two terms already they felt he could not complain if he should be aside this year for so good a republican and capable a lawyer as Mr. Hill. They didn't get their man for prosecuting attorney, but they are well satisfied with the nominee and will give him a hearty support.

Generally, the feeling among the republicans here is that the ticket is well made up and deserving of the support of every voter in all parts of the county who claims to be a republican. The Marquette republicans will do their full duty in it in the canvass and at the polls, and they expect to see every candidate upon it elected.

Contemplating Improvements.

A largely attended meeting of members of the Masonic fraternity was held at Masonic Hall last evening to consider the report of a committee consisting of one member from each of the three bodies relative to improving the furniture and fittings of the lodge rooms. The committee, consisting of W. B. McCombs, S. G. Brown and James Wallace, reported a series of estimates

to the meeting, of which Frank M. Moore was chairman and W. C. Brown secretary. Of course the meeting had no authority to come to a final decision but after a full discussion it was resolved to approve the report of the committee and to recommend to the several Masonic bodies the appropriation of the necessary amounts. The bodies interested are Marquette lodge, F. & A. M., Marquette chapter, R. A. M. and Lake Superior commandery, K. T.

The improvements under consideration involve a hardwood floor and sectional carpet of fine quality and new upholstery of all the furniture of the main lodge hall, new carpets, curtains, furniture and wall decorations for the parlors and some other improvements of a similar nature. The total expense will be in the neighborhood of \$1,200, it may be more or less. The action of the meeting last night will have to be ratified by the several Masonic bodies at their regular meetings but there is little doubt that some and probably all of the improvements named will be made. The Masonic bodies of the city are in a very prosperous condition and naturally desire to make their quarters as attractive as possible. They have the most commodious and best furnished rooms in the city now and probably the best in the peninsula. When the improvements contemplated are made Marquette's Masonic lodge rooms will rank among the finest in the state.

An Excellent Nomination.

The republican convention for this assembly district, held at Ishpeming Wednesday, paid pleasing regard to the wishes of the people of Marquette when it renominated Hon. George Wagner for member of the assembly in the state legislature. Mr. Wagner has already served two terms in the assembly with conspicuous fidelity to the interests of his constituents and with an ability that rendered him serviceable not only to his district but to the entire peninsula, and his nomination for a third term without opposition shows that the people of the district understand and appreciate his honesty and worth. The Mining Journal would have preferred to see Mr. Wagner "go up higher" this year, but since the convention for the senatorial district selected another man for state senator this paper is pleased to know that through the wise action of the assembly district convention Mr. Wagner is, nevertheless, booked for a seat in the next legislature. Of his election there can be no doubt, for besides having a party majority behind him in the district he will be supported by many democrats who desire to have him retained in a position that he has filled for two terms with such credit to himself and advantage to the people of his district.

Can Play Billiards.

With a view to making the Army as attractive a place as possible for the members to spend their leisure time the Marquette Rifles have purchased a billiard table and it was set up in the locker room yesterday and is now ready for use. This is only a part of the improvements contemplated in the company quarters. In Captain Kaufman the company has a vigorous and thoroughly competent executive head. The company also has a good class of members but needs a few more. The friends of the Rifles will be much disappointed if the close of the next year does not show greater progress than it has ever made before. The company is a recognized institution of the city and its business men are ready and willing to give it all necessary support. It only depends on the members of the company themselves to make it one of the finest military organizations in the state.

THE GREATEST STRIKE.

Among the great strikes that of Dr. Miles in discovering his New Heart Cure has proven itself to be one of the most important. The demand for it has become enormous. Already the treatment of heart disease is being revolutionized, and many unexpected cures effected. BOARD OF SUPERVISORS.

At the Annual Meeting of the Board of Supervisors of Marquette County, held at the court house in the city of Marquette, in said county, on Monday, the tenth day of October, A. D. 1922, the following business was transacted:

The meeting was called to order by the chairman at 10:30 o'clock a.m. Roll called by the clerk. There were present supervisors Bradt, Carmichael, Elliott, Fairbairn, Fay, Fitch, Gibbs, Gill, Hall, Johnston, Kellan, Lereger, Maas, Maitland, Maxwell, Menhennet, Moore, Pascoe, Read, Roberts, Ross, Taylor, Vandebloom, Van Evert, Weatherstone, Wells, and the Chairman.

Minutes of the last meeting read and approved. A communication from the Auditor General, apportioning state tax, was received and referred to committee on finance and taxation. The communication is as follows:

AUDITOR GENERAL'S OFFICE, Lansing, Mich., Sept. 28, 1922.

To the Clerk of the Board of Supervisors of the County of Marquette, Marquette, Mich. Sir—You are hereby notified that a State Tax has been apportioned to the several counties of the State, according to the last returns of the aggregate valuation of taxable property therein made to this office, and as equalized and determined by the State Board of Equalization, at their session in August, 1921.

The amount of State Tax apportioned to your county under various acts of the legislature, is as follows, to-wit:

Table listing various taxes and their amounts for Marquette County, including University-Aid, Normal School, and State Board of Equalization.

Total State Tax to be Apportioned \$23,303 00. There is also to be levied, as a portion of the county taxes, as required by Sec. 23, Act 200, Laws of 1921 (unless paid prior to October first), the indebtedness of your County to the State on the 1st day of July, 1922, then amounting to \$

The indebtedness of the county must not be added to the State Tax. You will cause the above to be laid before the Board of Supervisors of your county at their session in October, 1922. Please acknowledge immediately the receipt of this notice.

Very respectfully, H. R. PRATT, Dep. Auditor General.

The report of the auditing committee was then presented, and it was accepted and adopted by yeas and nays.

Yeas—Bradt, Carmichael, Elliott, Fairbairn, Fay, Fitch, Gibbs, Gill, Hall, Johnston, Kellan, Lereger, Maas, Maxwell, Menhennet, Pascoe, Roberts, Ross, Taylor, Vandebloom, Van Evert, Weatherstone, Wells, Chairman.

To the Honorable Board of Supervisors of Marquette County: Your committee to whom was referred the claims and accounts herein enumerated, having had the same under consideration, and being desirous to report the same back to the Board, with the recommendation that the sums set down in the last column, opposite the names of the respective claimants, be allowed and ordered paid, viz:

Table of claims and accounts, listing names of claimants and amounts, such as Henry Goran, labor and material on jail, and J. L. Cooper, painting material on jail.

Table of receipts for Gus Peterson, constable fees, and other items, including cash on hand and settlement 1921 taxes.

Oct. 1, 1922. Balance on hand, \$7,836 08.

General fund, \$8,030 65. Iron works, \$210 28. Estates deceased persons, \$288 05.

Respectfully, B. W. WRIGHT, County Treasurer, Marquette, Mich., Oct. 7, 1922.

The following report of the mine inspector was submitted and ordered placed on file:

To the Honorable Board of Supervisors of Marquette County, Mich.: GENTLEMEN—Herewith I submit my annual report as inspector of mines for the county of Marquette, Mich., as per information gathered from the various mines of the county, and the reports rendered me by said mines, said reports being a part hereof enclosed in the past five months.

By the reports above referred to can be seen the date of all accidents, name of person so injured, cause of such accident, occupation and nationality.

It will be found that the total number of men killed in the different mines of the county was twenty-six, of which only six have occurred during the past five months, or the time the present incumbent has filled said office of mine inspector, and only two permanently disabled, one of which occurred in the twelve months preceding October 1, 1921, and during my term (the past five months) it affords me pleasure as well as satisfaction to report that I have not observed any violation of the laws concerning protection to the lives and health of employees, and all demands made on the different mining companies have been promptly and faithfully fulfilled.

All of which is respectfully submitted. JAMES H. ROUGH, Inspector of Mines.

NEGAUERE, Mich., Oct. 1, 1922. The reports of the sheriff and the inspector of jails were then read and ordered placed on file.

The following report of the committee on county officers' accounts was read and ordered placed on file.

To the Honorable Board of Supervisors of Marquette County: GENTLEMEN—Your committee on county officers' accounts beg leave to report that they have compared the vouchers of the secretary of the board of supervisors of the poor with his books and found them to agree, and that they have checked all the vouchers in the county treasurer's office with his books, and find that they agree with his books.

We have also compared the orders drawn by the clerk and find that they agree with the amounts audited as shown by the statement of the auditing committee as being audited by them.

Respectfully submitted, WALTER FITCH, JENS LEREGGER, MARQUETTE, Mich., Oct. 10, 1922.

On motion of Supervisor Pascoe John Milroy was elected superintendent of the poor for the full term of three years.

On motion the chair appointed Supervisors Fitch, Johnston and Maxwell a committee to report on salaries of county officers.

On motion the meeting adjourned to 4:30 P. M.

The meeting was called to order by the chair at 4:30 P. M. with a quorum present.

The report of the committee on finance and taxation was then accepted and adopted by yeas and nays:

Yeas—Bradt, Carmichael, Elliott, Fairbairn, Fay, Fitch, Gibbs, Gill, Hall, Johnston, Lereger, Maitland, Maxwell, Menhennet, Moore, Pascoe, Read, Roberts, Ross, Taylor, Vandebloom, Van Evert, Weatherstone, Wells, Chairman.

To the Honorable Board of Supervisors of Marquette County: Your committee on finance and taxation, having had the matter under consideration, with respect to the recommendation that there be raised by taxation the current year as follows:

Table showing proposed tax rates for Marquette City, Negauere, and various townships, including State Tax and County Tax.

Table of receipts for the Board of Supervisors, including cash on hand, settlement 1921 taxes, and collection delinquent taxes.

Oct. 1, 1922. Balance on hand, \$7,836 08.

General fund, \$8,030 65. Iron works, \$210 28. Estates deceased persons, \$288 05.

Respectfully, B. W. WRIGHT, County Treasurer, Marquette, Mich., Oct. 7, 1922.
