"WELL-BRED" STATIONERY.

"The good breeding and good taste of a lady—much abused word—are subtly yet conspic ously shown in the stationery she uses."

It may seem strange to speak of stationery as "well-bred" but we take the liberty to employ the phrase as a compact one to designate the kind of writing materials used by well bred people in their correspondence.

We have just received a full line of Hard & Pike's correct styles in paper and envelopes. The prices vary but it is all "well-bred."

The tariff, so democratic papers say, is the origin of a plutocratic government where wealth shall rule and poor men shall not get their rights. I shall venture to hallenge all such statements of that kind and I shall make the democrate make pledges in the case. A careful examination of the list of wealthy men in the country, often published, has demonstrated the fact to be quite the reverse. To such an extent, indeed, that in the city of New York, taking the first 150 fortunes, not three, not two, not more than one would be considered as deprived from manufacturing investments.

CONCERNING CATHOLIC TEACHERS.

The reply of the committee on teachers to the communication from a number of Catholic clergymen, who asked regarding the right of the committee to exclude graduates of St. Aloysius parish school from the examinations for admission to the teachers' training school, was received and read.

The strongest point made by the reply was felt to be that the training school was self-sustaining and, unlike the State Normal school, is necessarily

limited in the number it can receive.

But the most sensational feature was the charge that the Catholic clergy com-pel parents to send their children to the parochial schools by refusing them the sacraments of the church. The report was adopted by a vote of 10 to 4.

Was Buried Yesterday.

The funeral of Dr. J. E. Allen took place yesterday afternoon at 2 o'clock from the Finnish church, the Rev. Tolonen of Ishpeming officiating at the funeral service. His remains were escorted to the Union cemetery on Main street where the interment took place. It is now thought that the doctor's death was, due to heart disease instead of poison taken with suicidal intent, although a bottle that had contained chloral was found in his pocket after his death. Three or four brothers of his have died suddenly from heart disease and it is said that for some time past he had been complaining of heart trouble. The real cause of his untimely death cannot now be definitely determined, and it is useless to speculate further on the matter.

WATER WITHOUT END.

Only a few days ago it was surmised that the day and date could be named when the job of unwatering Lake Angeline would be finished, but now it appears to be no easy matter to reach the bottom of the lake where the suction end of the huge pump is located. Water accumulates at the mouth of the suction nearly as fast as the pump can take it away. The entire bottom of the lake is mud, running from ten to fifty feet deep, and it is from this mud that the water is coming. To get rid of the water in sight would be an easy matter for the contractors, but now comes the task of taking care of the quantity that drains from the mud in the bottom of the lake. The mud is so soft that a man can row a boat through it with ease. This was tried one day recently by Mr. Houself the contractor when he rowed.

This was tried one day recently by Mr. Houself the contractor when he rowed. Ishpeming Lodge, No. 314, F. & A. M., has lost a most worthy brother and agood member, the community an upright and worthy citizen, and his family a kind husband and father.

Resolved, That we deem it our solemn duty to extend to his family our heartfelt sympathy in the hour of their bereave of thirty days, that these resolutions be entered upon the records of our lodge; that a copy of the same be sent to the Iron Ore and the Datly Minns Journal for publication, and that ene copy be printed and sent to the family of our deceased brother.

Ishpeming Lodge, No. 314, F. & A. M. can row a boat through it with ease.

This was tried one day recently by Mr.

Howell, the contractor, when he rowed a boat a distance of 100 feet from the edge of the water into the mud. At some parts of the lake the weight of a man of ordinary size will sink a pole from twe ty to thirty feet into the mucky deposit. If the amount of water is sight to water in a receiving or tank in sight now were in a reservoir or tank it could be pumped out in less than forty-eight hours, but at the rate it is

forty-eight hours, but at the rate it is coming into the sump it may be several days yet before the entire bottom of the lake will be cleared of water.

For a time Mr. Howell made an effort to catch the fish in the lake by means of a net placed in the flume, but they have been coming through so rapidly of late that he is now allowing them to pass through without any attempt to take them. They are permitted to go through the launder, from which they will eventual. launder, from which they will eventually find their way into the Carp river and Deer lake.

the Peninsula division of the C. & N. W. R'y received a letter from his W. Ky received a letter from his brother, Mr. T. C. Miller, who is station agent of the same road at Marinette, Wis., exposing a chap who came into Marinette representing himself as an employe of the C. & N. W. road, soliciting advertising patronage from the merchants on a card which was to contain the company's time table, and which would be placed in hotels and other public places. His scheme worked well and he gathered in considerable money but no time table was printed of the kind he promised and the people who were gulled by him were out just what they invested in his "fake." Mr. Miller stated in his letter that the fellow was headed this way and that he would most likely strike Ishpeming in a few days; that he is a fraud and in no way connected with the C. & N. W.R.y. Will guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$250. They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience

MIDDLE-AGED MEN,

There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompained by a slight smarting sensation and weakening the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits a ropy sediment and sometimes small particles of albumen will appear or the color be of a thin or milkish hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness.

LADIES

Finding it not convenient to call at the office can be treated by ail by sending a full description of their ease.

DR. SPEER & CO.

Will guarantee a perfect cure in all such cases and a healthy restoration of the organs. Examination and advice free to all. Remember the place, 146 West Washington street, Marquette.

REMARKABLE SUCCESS.

I, James Stewart, of Marquette, have been unable to work for some time on pecount of epilepsy, which caused mental depression and great weakness; in fact aerfectly unfitted me for any business. I got no relief until I tried Dr. Speer & Co. After two months' treatment I am suprised at the result. I have had no fits since. I sleep well, and arise in the morning refreshed, instead of feeling more tired than when I went to bed. I cannot recommend Dr. Speer & Co. too highly for what they have done for me,
