PRICE FIVE CENTS.

"WELL-BRED" STATIONERY.

"The good breeding and good taste of a lady—much abused word—are subtly yet conspicuously shown in the stationery she uses."

It may seem strange to speak of stationery as "well-bred" but we take the liberty to employ the phrase as a compact one to designate the kind of writing materials used by well bred people in their correspondence.

We have just received a full line of Hard & Pike's correct styles in paper and envelopes. The prices vary but it is all "well-bred."

H. H. Stafford, Son & Co.

GRAND STEREOPTICON EXHIBITION.

Opera House, Monday Eve., Oct. 31.

Interesting and instructive views of Columbus and the World's Fair, by Rev. F. A. Holtzhausen, for the benefit of the Hancock Baptist church.

Tickets, 15c, 25c, 35c and 50c, for sale at H. J. Lobdell's store and the Bazaar. Reserved seats can be secured Monday morning.

MILWAUKEE'S BIG BLAZE.

Most Disastrous Fire in the City's History Rages All Last Night.

HALF OF THE THIRD WARD BURNED OVER.

Many Large Business Houses, Railway Freight Yards and Scores of Humble Dwellings Destroyed.

LOSS UP IN THE MILLIONS.

MILWAUKEE, Oct. 29.—This city was visited tonight by the most destructive conflagration that ever befell it. The fire started between 5:30 and 5:40 o'clock in the store occupied by the Union Oil company at 275 East Water street. At the time three fires in various sections of the city had called many of the engines out so it was fifteen minutes before a response was made to the alarm.

In a short time seven or eight streams had been directed upon the flames. There was a series of explosions but in half an hour after the fire tug Cataract with a dozen more streams was playing upon the fire and the belief was general that the flames were under control. It seemed as though the very current of the Milwaukee river was being emptied upon the red brick block.

It was stated that the fire was caused by an explosion of an oil barrel—how, it is not known. Thousands of people, attracted by the continued alarms had rushed to the vicinity, watched the fight of the great force of firemen and the puffing steamers, reached the conclusion that it was not such a fire after all and went home.

That was about 6:40 o'clock. Only black smoke issued from the buildings. Fifteen minutes later the tired firemen began to feel the enemy getting out of their grasp. Renewing their efforts they fought with every weapon known to the art. It was useless. A gale blowing fifty miles an hour driving the scorching heat and smoke of burning oil out into the faces of the firemen, defying all the water in the Milwaukee river and seeming only to gain in power as the stream was emptied into its jaws, was too much for them.

The fire gained a footing in the adjoining store of Dohman & Co. It was then it got beyond all human effort to stay it.

At 7 o'clock the big upholstery factory of Bub & Kip, fronting on Broadway, almost a full block away, began to blaze. The fire had started with the wind in the northeast but it had now veered to almost due east and merchants in the business section of the east side grew fearful.

Five minutes more and Jacob Wellauer & Co.'s wholesale grocery store on the east side of Broadway, directly opposite Bub & Kip's, was in flames. It seemed as if a mountain of fire rolled across Broadway. One instant not a building on the east side of Broadway was in flames and the next the rolling waves of fire swept across the street and descended on the buildings opposite. In a moment they were wrapt in flames. A thousand streams of water could not stay such a conflagration in its march of destruction toward the lake.

The walls of the three story brick building on Broadway, formerly occupied by the Cracker Trust, but now vacant, began to totter and warning voices urged the crowd back just in time. The whole front of the building pitched into the street. A few moments later the sides fell outward with a crash. The people in that part of the Third ward realized that their homes were doomed. There was a stampede of residents, all loaded with furniture, cats, dogs and all manner of household utensils and bedding and vehicles of every description were hurrying away with belongings of the people whose houses were soon to be in ruins.

Meanwhile the flames had gotten over the ground they had formerly missed in the store of J. P. Kissinger & Co. and the Milwaukee Art Glass works, opposite the block in which they had originated.

The Wellauer block, six stories in height, was soon in a connecting line of flame with the Milwaukee Chair company, a vacant building owned by the Pfister & Vogel Leather company and the wholesale grocery store of Roudy, Peckham & Co. all on Broadway. The next building to succumb was the National Distilling company, the Whiskey Trust supply house of the state, at 79 to 83 Buffalo street.

The wind was still carrying the whirlwind of seething flame on toward Lake Michigan in a direct line with its starting point and the scramble went on. Chief of Police Janssen ordered his entire reserve force to the fire and they assisted in getting out the furniture and household goods of the luckless families who were forced to flee from the path cut out by the flames.

Dozens of frame buildings along Milwaukee and Jefferson streets, between Detroit and Chicago streets, as well as on Buffalo and Chicago streets, were licked up as if they had been outcrops of paper. All these buildings were consumed within half an hour of the time when the flames leaped over Broadway and started in the Wellauer block.

Suddenly the wind swept around as unexpectedly as before. Where it was northeast when the first alarm rang it was now almost due south, cutting out a broad avenue of destruction toward both the Milwaukee river and Lake Michigan.

In its path lay the big freight sheds and yards of the Chicago & Northwestern road, together with the round house and its valuable contents of rolling stock. The end of the freight sheds

at the corner of Jefferson and Chicago streets was the first to ignite and the flames soon spread all over the yards, burning freight cars and everything before it. The company soon had a force at work saving its property. The locomotives and many freight cars were taken out of harm's way.

Having cut its path over the Jackson street from Broadway the fire was now following the south wind down Broadway, down Jefferson street, down Milwaukee street. Along Broadway it swept to the Weisel & Vilter Manufacturing company's plant at Chicago street and to No. 10 engine house on Broadway. When it reached the Weisel & Vilter plant the department had prepared an attempt to cut it off with dynamite. Three cases of giant powder were exploded in the building, having been stored there to await the coming of the flames.

The fire is now under control at this hour, 3 A. M. The damage cannot be estimated tonight but it will be enormous. Hundreds of families are homeless. Engines were sent from Chicago, Racine and Oshkosh.

MILWAUKEE, Oct. 29.—4 A. M.—The fire has finally been brought under control by blowing up buildings with dynamite. The aggregate loss will be well over \$5,000,000. Over three hundred buildings have been burned and as over two hundred of these were dwellings, mostly cottages, in the thickly settled eastern part of the Third ward it is estimated that over one thousand people are homeless.

COLONIZING VOTERS.

Griffin Alleged to Have Made Confession Before His Release.

DETROIT, Oct. 28.—John J. Griffin, who was arrested Wednesday afternoon on the charge of registering falsely, has been released by the police at the request of Lou Burt, chairman of the consolidated republican committee, to whom it is alleged the man made a full confession revealing a well organized scheme of wholesale colonization. Mr. Burt refused to say anything about the matter further than that he is in possession of information which will enable him to head off attempts at false registration hereafter. There has been a conference of the members of the executive committee of the republican citizens committee and there will probably be some more arrests in a day or two.

The registration for the first two days has been the heaviest ever recorded in a similar length of time in the history of Detroit. Up to 8 o'clock the total registration was 25,000, fully two-thirds the regular vote.

Attorney Warren, acting for the democratic committee, was in consultation this morning with some of the local leaders as to the best way to bring to time the registration boards who refuse to register foreign born citizens unless they produce their naturalization papers. The plan most favorably considered is to apply to the supreme court.

IRELAND NOT DISTURBED.

Says the Attack on Him is Vile and Mendacious.

ST. PAUL, Oct. 28.—Archbishop Ireland was shown the attack made upon him in an anonymous pamphlet printed at Rome. The author charges the archbishop with want of veracity in the Faribault and Stillwater controversy. The archbishop glanced hastily and rather contemptuously over the account and at first said:

"Oh, I can't talk about it. What is the use? It amounts to nothing; it is a vile and contemptible thing."

He was evidently aware of the existence of the pamphlet and was not at all taken aback. Quickly changing his purpose in regard to ignoring the attack completely, the archbishop said: "Here, you may say this: The pamphlet was written by an American ecclesiastic of an eastern state and was distributed in Rome, where it was received by all with supreme disgust, great regret being there expressed that a pen should have been found in America to write such vile, mendacious things for a vile, unworthy purpose. That is all."

DEMOCRATS' DUTY TO ENGLAND.

William Carson Says It is to Vote for Cleveland.

EAU CLAIRE, Wis., Oct. 28.—William Carson, the democratic millionaire of this city, today addressed a crowd on the streets from his carriage and closed by shouting: "I say to all you democrats, in the language of the immortal Nelson, that England expects every democrat to do his duty on election day by casting his vote for Grover Cleveland." Carson was recently compelled to resign as president of the democratic club because of his stand against the workmen when they wanted ten hours a day in his mills. He recently offered to pay \$100 to the republican club if Depew would deny that he made the "Typical American" speech about Cleveland and when Depew denied it backed down and wouldn't pay it. Carson has also made other remarkable wagers, offering to bet \$10,000 that Cleveland never wrote a free trade message. He is believed to be insane.

CHICAGO'S FATAL FUEL GAS.

Residents of Hyde Park Have Narrow Escapes From Death.

CHICAGO, Oct. 28.—The residents of Hyde Park are having much difficulty with their gas. Within the last seven days six people have been asphyxiated and ten times that number have narrowly escaped suffocation. The gas which is largely used for fuel is odorless and its presence cannot be detected save by the heaviness of the atmosphere. Early last night the pressure was so low that in places where people had retired leaving the gas burning the jets were extinguished. Later the pressure was increased and the houses became filled with gas. A dozen cases were reported where all the inmates of a house narrowly escaped death. A coroner's jury today censured the gas company severely.

SMOTHERED AND BLOWN UP.

Two Fires at Which One Was and the Other May Be Fatal.

CLEVELAND HAS EXCITING VARIETY OF BLAZES.

Girl Suffocated at One Fire and Several Persons Hurt By Explosion at the Other.

SUFFOCATED BY SMOKE.

CLEVELAND, Oct. 28.—Two fires which occurred today within an hour in the heart of the city caused the loss of one life and the serious injury of a half dozen persons. Shortly before 11 o'clock an alarm called the department to the works of the Cleveland Window Glass company on Champlain street. The three-story brick building was filled with smoke and the employees both male and female were rushing down the stairs. The fire was quickly extinguished and a search of the upper floor was made to learn if all the employees had escaped.

At the head of the stairway Michael Sullivan and Kittle Nolan were found insensible. They had been suffocated by the smoke and had fallen close together. They were carried down to the street and Miss Nolan died an hour later. Sullivan will recover. The loss by fire and water is estimated at \$10,000; fully insured.

Before this fire had been extinguished another alarm was sounded, calling the department to the big sash and blind factory of A. Teachout & Co., fronting on Michigan street and extending back to Canal street 300 feet. The fire started in the warehouse and before the firemen reached the scene the flames had spread to two other buildings connected with the warehouse by bridges and the fire was beyond control.

Soon after the firemen began work an explosion occurred in the paint room which blew the Michigan street front of the building across the street. A number of persons were standing on the sidewalk and the firemen were playing on the front.

Col. C. C. Devatore was thrown backward by the explosion and Harvey C. Beeson of Detroit was blown clear across the street and badly hurt. Fireman Charles Weller was badly injured internally. Fireman John G. Kelly was badly cut and Fireman Michael Maloney received severe bruises in the side and chest.

After the explosion the fire spread to the four-story brick block of M. Mittleberger & Son, dealers in hides, which was partially destroyed. L. C. Bardsley's tin can works and Wood Bros. tile works were also damaged.

The loss to A. Teachout & Co. is total and will reach \$200,000; insurance about \$100,000. Mittleberger & Son loss \$20,000; insurance \$15,000. Wood Bros. loss \$5,000; insurance \$7,000. L. C. Bardsley's loss is \$500; insured.

A strong wind was blowing at the time of the fire and great clouds of sparks were carried over the business streets. There is a belief that the fires were of incendiary origin.

DYNAMITE FACTORY EXPLODES.

Three Men Killed, Two Badly Hurt and Two Missing.

LIMA, O., Oct. 28.—A nitro-glycerine factory two miles south of here exploded with a terrific report at 11 o'clock this morning. The report was heard for twenty miles and the force of the concussion shook buildings and caused windows to rattle in all parts of the city. Three persons are known to have been killed and two badly injured. In addition two teamsters are missing and it is probable that their bodies are in the wreck. The killed and injured are:

ANDY SCHUTE, recently from Bradford, Pa.

BENJAMIN DOWLING, teamster.

HENRY SCHAPPELL, watchman.

WILLIAM POTTER, badly cut and bruised but not seriously.

TOM MATCU, probably fatally injured.

BEN DOWE, leg blown off.

The terrific force of the explosion can be imagined when it is stated that the farm house of William Hooker, 1,800 yards from the factory, was totally wrecked and a servant girl injured by falling debris. A farm house nearly a mile distant was badly damaged and a \$5,000 plate glass front in the Metropolitan block, fully three miles away, was shattered. There is a large hole in the ground where the magazine formerly stood. The cause of the explosion is not known.

STEAMER SINKS SCHOONER.

Crew of the Latter Rescued by a Passing Vessel.

LONDON, Oct. 28.—The steamer Northumbria collided today with the schooner Estremadura off Souther Point. The steamer returned to the Tyne. The crew of the schooner were subsequently taken off by a passing vessel and it is reported that the schooner sank, as she was leaking badly when she was abandoned.

The Canarder Etruria, from New York, which passed Broadhead at 7 o'clock tonight, has experienced violent weather. Owing to the severity of the storms she was unable to disembark either passengers or mails at Queens-town and proceeded directly for Liverpool. A tender was damaged in attempting to fasten alongside her and the Etruria's master-at-arms was drowned while the effort was being made.

Forecast of the Weather.

WASHINGTON, Oct. 28.—8 P. M.—The weather bureau reports the following as its forecast for the next 24 hours: For upper Michigan: Showers tonight, followed by fair weather; north winds.

First National Bank OF MARQUETTE.

DAILY MINING JOURNAL,

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to Upper Peninsula interests.

SUBSCRIPTION RATES. Per year, by carrier, \$10.75 Per month, by carrier, \$1.00 Per year, by mail, \$8.00

MARQUETTE, MICH., OCTOBER 29. Entered as mailmatter of the second class in the postoffice at Marquette, Mich.

THE Boston Herald of Wednesday says the copper market is decidedly more quiet this week and that it is now evident that "speculation in copper stols had a good deal to do with the recent advance in ingot copper."

THE Herald reports recent sales of Lake at \$1.00 cents, but says the market has settled to 11 1/2 and that possibly some copper could be bought for 11.70 cents.

A DELT paper states that the coke furnace at West Duluth is to be enlarged so as to double its present capacity, that it is to be run on Mesaba ore supplied by Kimberly and that its output will be taken by the steel plant at West Superior.

THE furnace now has a capacity of 160 tons of pig daily, and will be able to produce twice that quantity after it has been enlarged in accordance with the present plans of the company operating it.

THE Minneapolis Journal has a clever cartoon the point of which is that the "fool-killer" is the only assassin the Simpsons, Donnellys and Weavers need fear. Their followers have more occasion to fear that renowned but dilatory eradicator of clumps than do Simpson, Donnelly, Weaver, et al.

SOME 30,000 cotton mill operatives are about to strike in the Lancashire district in England. It does not occur to these misguided operatives that they have no business to strike, that strikes have no right to occur in a free trade country, but they have obviously neglected to read the democratic papers and are not aware that it is only in protected nations that strikes can be justified by the down-trodden condition of the workmen.

THE board of registration will meet at the fire engine house on Saturday, November 3. Voters who are not registered should bear the date in mind and get their names on the list or they will not be permitted to assist in choosing the next president.

LOUIS BAEKER is advertising for men, and as soon as he can secure a crew will commence logging on the Pecheekee for F. W. Read & Co. He expects to start in on Monday next.

DR. SCOTT of Hancock looked after Dr. Patterson's practice here and his friends were out for a few days recreation in the woods.

MICHIGAN people are catching the homeated fever, something not to be wondered at if they live so near the land that is soon to be opened for entry.

PETER LACROSSE commenced logging on the Pecheekee this week. He has taken a logging contract for the winter from F. W. Read & Co.

JOHN MILROY is back from Detroit, where he attended the Grand Lodge session of the I. O. O. F., as delegate from the local lodge.

MR. COURTNEY of Baraga, the present treasurer of Baraga county, was among his Michigan friends Thursday.

A. G. JOHNSTON has been appointed administrator of the estate of the late Alfred Dishno.

N. METZ, of Duquette & Metz, Marquette, was among our visitors this week.

POSTMASTER H. J. ATKINSON spent a few days visiting down-the-road towns this week.

MISS MARY O'BRIEN of Champion was among the visitors to Michigan yesterday.

MISS KATE BRIGHT of Humboldt spent Sunday in town with her folks.

PETER DUFREMONT will open his saloon on Brook street Tuesday next.

REPUBLIC MENTION.

Items of More or Less Interest from That Stirring Town.

One of Republic's English-speaking citizens who does not understand a word of Swedish recently attended a political meeting where the speaker delivered his address in the Swedish tongue. He came away from the meeting seemingly feeling very well satisfied. It is not your correspondent's purpose to intimate that the gentleman was "fill" or that he indulges in any beverage stronger than tea or coffee, but should the writer of this meet him out in the rain on any future occasion in a similar state he will take the erring brother by the hand and gently but firmly lead him to some convenient shelter.

ON the 29th inst. Mr. Ed. Foley and family were heretofore one of the number in the person of Patrick, who met with an accident in Butte, Montana, which resulted in his death. The remains will be brought to Republic for burial in this vicinity, all of whom deeply regret the tragic ending of his life.

THE death of Capt. Williams of Tower, Mich., caused considerable sadness in Republic, where he was widely and favorably known. Mrs. Gill, his daughter, received the sad intelligence on Monday. That lady and the whole family have the sympathy of their many friends in the affliction that has befallen them.

ON Monday morning last the remains of Mr. John Corbett, who shot himself accidentally while out hunting near Ishpeming Sunday, were met at the Milwaukee & Northern depot and were followed to their last resting place by a large number of sorrowing friends.

GEORGE GAMBLE, son of Wm. Gamble, who was gored by a cow is having a much more serious time than was at first anticipated. On Wednesday Dr. Lamb performed an operation on him, and it is to be hoped he will soon be about again.

PATSY GOGIN is suffering considerably with his knee and is likely to lose the use of the joint. A surgeon here performed an operation on it a few days ago and he has been doing fairly well since.

THE genial smile of S. N. Parsons is missed on our streets, he being on a visit to his old home in Canada. His place is being filled by Mr. Kilmer, relieving agent of the D. S. & A. railway.

A rousing republican rally was held here Thursday evening. Several prominent speakers were present and the band played Annie—number of patriotic selections.

DR. JACKSON of Cleveland, who had been leaving hereabouts for a couple of weeks, left for home last Sunday.

BARNEY LEVINE has been making extensive improvements around his place of business the past week.

DICK PASCOE left for Ishpeming Monday to accept a position with Messrs. Joachim & Co.

J. TERRY of Ann Arbor presides behind the prescription case at Munson & Peterson's.

JOHN GLOD went to Trout Creek Wednesday evening, returning on Thursday.

THOS. GIBSON has a large force of men at work on Sec. 18 getting out timber. Professor Crim is at Ishpeming this week furnishing music as usual.

CAPT. PASCOE paid Marquette a flying visit Tuesday of this week. The boys all report having had a jolly time at the French hop.

MISS BROAD of Negaunee is visiting Capt. Cowling's family. Minego says they can't get ahead of him on the coal "biz."

CARL PETERSON made a flying trip to Ishpeming Thursday. Mrs. Chas. Gundry is visiting with her son at Marquette.

JAMES CAREY of Ely, Minn., is home on the sick list. Mrs. Schnell is visiting friends in Hurley. Little Georgie is still on deck.

THE VOYAGERS.

Hol for Dreamland's happy harbor! Who's for Dreamland, by the ferry? Who's to breast the waves that bind it?

REPUBLIC MENTION.

Items of More or Less Interest from That Stirring Town.

One of Republic's English-speaking citizens who does not understand a word of Swedish recently attended a political meeting where the speaker delivered his address in the Swedish tongue. He came away from the meeting seemingly feeling very well satisfied. It is not your correspondent's purpose to intimate that the gentleman was "fill" or that he indulges in any beverage stronger than tea or coffee, but should the writer of this meet him out in the rain on any future occasion in a similar state he will take the erring brother by the hand and gently but firmly lead him to some convenient shelter.

WHICH ONE?

One of us, dear— But one— Will sit by a bed with a marvelous face

And clasp a hand, Growing cold as it feels for the spirit land— Darling, which one?

One of us, dear— But one— Will stand by the other's coffin tier

And look and weep, While those marble lips and nostrils keep— Darling, which one?

One of us, dear— But one— By an open grave will drop a tear,

And homeward go, The anguish of an unshared grief to know— Darling, which one?

One of us, dear— It may be you will slip from me, Or perhaps my life may just be done— Which one? —Old Song.

A German Baby's Adventure.

A party of German peasants set out for the christening of a new baby, the baby being swaddled and wrapped in the usual manner. The way was long to the church and the weather was cold; indeed, snow lay on the ground.

Instead of leading the van, we are from ten to fifteen years behind Europe. Even in our own field of electrical methods, as a prominent American electrician assured me in Paris, we are now five years behind the continent.

NOTED AT NEGAUNEE.

Prohibitionists Will Open Their Campaign Here With a Meeting at the Opera House Tonight.

Hibernian Social Club's Social a Large Success--Odd Fellows Feel Grateful--Married on the Quiet.

Those who attend the prohibition lecture at the opera house this evening are promised a most entertaining address. The speaker, J. S. Hughes of Elmwood, Ill., is an entertaining speaker and an earnest believer in the prohibition cause.

The grand ball and supper given by the Hibernian Social club of Negaunee at McDonald's Opera house last evening was a distinct success.

The members of the Negaunee Iron Mountain lodge, I. O. O. F., desire to thank the Sons of St. George for accommodations tendered them during the banquet given to H. H. Heilmann last Wednesday evening.

H. F. Hammill and Miss Jessie McEahan were married by Father Laughner of St. Paul's Catholic church Thursday evening.

There has been quite a good deal of betting on the outcome of the elections this fall during the last few days, among the young men who make their headquarters at the Breitung house.

The work of pumping out the Pendill shaft is now progressing satisfactorily. The water has been lowered almost eighty feet.

Charles A. Lamier, the nominee for probate judge on the democratic ticket, is doing some very tall hustling these days.

Mrs. Alexander Heyn is in Milwaukee where she went to attend the marriage of her cousin, Miss Clara Weinberg of that city.

Mayor Anthony has somewhat recovered from the severe fall he received at the Swanzey mine Wednesday afternoon.

The Escanaba River Land and Iron company's pay roll was squared at Swanzey yesterday.

ATHLETES OF THE PRESENT DAY. J. E. Sullivan, secretary of the Amateur Athletic Union, president of the Pastime Athletic club and athletic editor of The Sporting Times, writes:

"For years I have been actively connected with athletic sports. I always found it to my advantage to use Alcock's Porous Plasters while in training, as they quickly remove soreness and stiffness; and when attacked with any kind of pains, the result of slight colds, I always used Alcock's with beneficial results.

A CURE FOR CHOLERA. There is no use of any suffering with the cholera when Chamberlain's Colic Cholera and Diarrhoea Remedy can be procured. It will give relief in a few minutes and cure in a short time.

When a doctor considers it necessary to prescribe sarsaparilla, he simply orders a bottle of Ayer's, knowing full well he will obtain thereby a purer and purer preparation than any other which the drug store can furnish.

Improper and deficient care of the scalp will cause grayness of the hair and baldness. Escape both by the use of that reliable specific Hall's Hair Renewer.

Nat Goodwin's First Stage Experience.

Before I ever went on the stage I used to take part in amateur affairs in my mother's parlors in Boston, and I bothered Charlie Thorne to death to get me a place in some company.

My friends also said they were convinced I had talents. So finally Thorne secured me a position in a company then playing a piece called "A Bottle." Providence was to be the place where I made my debut, and the part assigned me was the old time gentlemanly villain, who comes to the village and captures the heart of the rustic beauty.

I had rehearsed several times and was sure I knew it all. The heroine was to rush on with a scream and I was to run after her; but she hadn't rehearsed the scream with me, so when she dashed on and gave an unearthly yell it nearly frightened me to death.

I stubbed my toe, fell sprawling and lost one of my sidewiskers. I couldn't utter a word, and didn't do so during the whole performance. They thought I would gain courage as the piece progressed, but during the third act the orchestra came in with a few thrilling bars of music and I completely lost my head, and I dashed out of the theater to find the depot and take the next train for Boston.

As I entered the cars with makeup on, a black streak on my cheek from a blacked eyebrow and my wig at one side, passengers thought I was staring mad. On reaching home I rushed in to my mother, who thought I was going to be a second Booth, begging her not to send me on the stage again, but to get me a position in some store.—Nat C. Goodwin, Jr., in New York World.

Æsculapius and His Profession. Æsculapius, whom Homer calls "the blameless physician," was the famous pupil of Chiron. The glory of Æsculapius' name is not dimmed as it has come down to us through the ages.

It has often been said of physicians that they have two kinds of medicine—one with which to cure the patient, the other to be used when it is desirable that the cure shall not be effected too quickly.

A "Queer" Preacher. Rev. Mr. Hagamora, to whose memory a slab has been placed in the church at Catsloge, Leicestershire, England, was a "little queer." It seems that the reverend gentleman died in January, 1886, leaving all of his property, valued at \$3,500, to a railroad porter.

When the inventory of his property was taken he was found to be the owner of 80 gowns, 100 pairs of trousers, 100 pairs of boots, 400 pairs of shoes, 80 wigs (although he had plenty of natural hair), 50 dogs, 96 wagons and carts, 30 wheelbarrows, 249 razors, 80 shovels, 50 saddles and 223 pickaxes and spades.

Treatment of Face Moles. A hairy mole which is still growing should be removed at once, even at the risk of some injury to the skin. It is now probably no more than a plexus of capillary vessels, with only a small supply of connective tissue.

Chamberlain's Eye and Skin Ointment. A certain cure for Chronic Sore Eyes, Tetter, Salt Rheum, Scald Head, Old Chronic Sores, Fever Sores, Eczema, Itch, Pruritic Scatches, Sore Nipples and Piles. It is cooling and soothing.

Unlike the Dutch Process No Alkalies. Other Chemicals are used in the preparation of W. Baker & Co.'s Breakfast Cocoa.

It has more than three times the strength of Cocoa mixed with Starch, Arrowroot or Sugar, and is far more economical, costing less than one cent a cup. It is delicious, nourishing, and EASILY DIGESTED.

Sold by Grocers everywhere. W. Baker & Co., Dorchester, Mass.

ABOUT WOMEN.

Interesting Facts in Regard to Their Peculiarities.

IN MANY WAYS THEY HAVE MORE NERVE THAN MEN.

Strange Compound of Timidity and Courage.

Women are nervous. There is no doubt of that, but are they more nervous than men? The nervous system of women is much more delicate, more highly strung, more finely toned than that of men.

But it is because their nerves have become weakened and prostrated. They are not well; something is wrong with them and they must have a renewal of nerve strength, power and vigor.

They are not well; something is wrong with them and they must have a renewal of nerve strength, power and vigor. A case in point was that of Mrs. Lila C. Root, who lives at 30 Elm street, New Bedford, Mass.

Special attention is called to our new and complete line of tooth, nail, bath and hair brushes. Tooth brushes for the children at 5, 10 and 15 cts.

Why I felt so miserable that I often thought I would take my own life. "But I at last took that wonderful medicine—Dr. Greene's Nervura blood and nerve remedy, and now I am well.

My kidneys were in a terrible state, I had awful pains in the back and side, and could not sleep at night. "My headache was a source of great annoyance, and I suffered much at certain periods.

DUST GIVEN UNTO DUST.

Caroline Scott Harrison Laid to Rest Yesterday Morning at Indianapolis.

ENORMOUS BUT QUIET CROWDS SURROUND CHURCH.

Thousands of People Watch the Funeral Train Pass in Silence and With Uncovered Heads.

RETURNED INTO THE EARTH.

INDIANAPOLIS, Oct. 28.—President Harrison and the members of his personal and official family arrived here this morning for the sad purpose of placing the remains of Mrs. Harrison to eternal rest in the place she lovingly called her home. The elegantly equipped train conveying the party arrived here at 9:30 o'clock, on schedule time, and was greeted by thousands of sympathetic friends and admirers. They occupied all points of vantage along the road and crowded the station to its utmost capacity. It was a quiet, sympathetic throng and manifested its appreciation of the sadness of the occasion by a grave and respectful demeanor. Although the president was personally known to a majority of the crowd all desire on their part to give vent to enthusiasm was generally repressed. His grief was generally respected and nearly all the men in attendance removed their hats and bowed their heads when he passed through the station to his carriage.

A delay of half an hour was caused in transferring from the funeral car the wealth of floral emblems that typified the love and devotion of hundreds of friends. Everything being in readiness the casket was lifted and slowly and reverentially the cortege moved through the Union Station to the carriages in waiting. The assignment to carriages being perfected the cortege moved toward the church.

The church was a thing of beauty in its somber and graceful decorations. The president's pew, No. 84, was not used during the services and was draped in black and white and strewn with flowers. When the procession arrived at the church a crowd of 50,000 people thronged the sidewalks and pressed into the streets but maintained great quiet. The police had no difficulty in keeping the crowds back and the casket was lifted and borne into the church without incident.

The services were characterized by the greatest simplicity. As the coffin was carried up the aisle and deposited in front of the chancel the organ pealed forth a soft melody. The choir then sang "Lead, Kindly Light" and Dr. Haines offered a short invocation and read a selection from the Scriptures. The funeral sermon was upon the text, "Wherefore comfort one another with these words." Rev. M. L. Haines preached the sermon. After prayer by Dr. Hyde, the choir rendered "One Sweetly Solemn Thought." Dr. Haines closed the service with a benediction and the cortege took up its line of march to Crown Hill cemetery.

Soon after the train arrived and in accordance with the request of the president the casket was opened. The face had a calm, peaceful expression and she seemed as though merely asleep. It was a sad moment for the president and he was nearly overcome.

Leaving the cemetery the president, Mr. and Mrs. McKee, Mr. and Mrs. Russell Harrison and Mrs. Dimmick and other relatives proceeded to the residence of Mr. R. S. McKee where they had luncheon and were visited by a few intimate friends.

The special train bearing the presidential party left here at 5:30 o'clock on its return to Washington.

WILL ALL MAKE SPEECHES.

Members of the Cabinet Decide to Take the Stump.

INDIANAPOLIS, Oct. 28.—It is learned that the members of the cabinet held an informal meeting tonight at the Denison Hotel for the purpose of deciding upon a course of action as regards their participation in the political campaign. As a result of their deliberations it was decided that Secretary Rusk should speak in Wisconsin, Secretary Noble in Missouri, Attorney-General Miller in West Virginia, Postmaster-General Wannamaker in Pennsylvania, Secretary Charles Foster in Ohio, Secretary Elkins in West Virginia and probably elsewhere. Secretaries J. W. Foster and Tracy are not likely to take any part in the campaign although it is possible that the latter may be induced to speak in New York before the election. The president, it is said, knew nothing of the meeting.

EMPEROR WILLIAM ANGRY.

Displeased by the Premature Publication of the Army Bill.

BERLIN, Oct. 28.—It is said on excellent authority that the kaiser is greatly angered by the premature publication of the provisions of the army bill which the government proposes to introduce in the reichstag. The kaiser had a long consultation on the subject yesterday with Chancellor Caprivi and the scene between emperor and minister is said to have been more exciting than dignified. The kaiser spoke in terms of unmeasured denunciation of the violation of confidence of which some one had been guilty in regard to the bill and seemed inclined to argue that the chancellor had some responsibility in the matter.

General Caprivi succeeded in convincing his majesty that nothing had been done on his part more than strict official duty required. A copy of the bill has been delivered, as was proper and requisite, to each member of the bundsrath or federal council, as the measure would have first to be submitted to this body for consideration. The copy so delivered was marked secret, and it was of course supposed that the contents would not be communicated by any member of the federal council to any one except to the sovereign or chief of the state he represented, or the min-

istry thereof, for the purpose of advice and consultation. It certainly was not supposed that any member of the council would so far forget the dignity and responsibility of his office as to reveal the provisions of the bill to the public press.

The kaiser, in his interview with the chancellor, is said to have vowed that he would ascertain who the betrayer of imperial secrets was and bring him to punishment. Suspicion is said to point to the federal representatives of one of the south German states, probably Bavaria or Wurtemberg. The chief representative of Bavaria in the federal council is Baron Von Crailsheim, minister of state and foreign affairs. The chief representative of Wurtemberg is Baron Von Mittnacht, also minister of foreign affairs for that kingdom. There has been a noticeable strain for some time past between the cabinets of Munich and Stuttgart, on the one hand, and of Berlin, on the other.

PARIS FUND AGREEMENT.

Timothy Harrington Accepts Archbishop Croke's Proposition.

DUBLIN, Oct. 28.—Timothy Harrington, the parnellite leader and member of parliament from Dublin Harbor, has given notice that he accepts the proposition of Archbishop Croke that the Paris fund should be released from the custody of the bankers in whose charge it now is and held by disinterested persons in behalf of the Irish national cause until a decision is arrived at as to the disposal of the fund. The apparent termination of the prolonged controversy over the deposition of the fund causes general satisfaction in Irish circles. It is presumed that Mr. Harrington has the consent of Mrs. Parnell in this step, as an agreement on her part would probably be necessary in behalf of the estate of Mr. Parnell, who had a claim against the fund. The fund now amounts, it is stated, to about \$200,000, and was originally raised by contributions in Ireland, America and elsewhere to aid the tenants evicted for non-payment of rent.

MEDAL FOR KLOEHR.

Chicago Bankers Recognize Bravery of the Coffeyville Liveryman.

CHICAGO, Oct. 28.—The courage of John J. Kloehr of Coffeyville, Kas., in helping repulse the efforts of the Dalton gang to rob two banks at that place October 5 was given formal recognition today. Holmes Hoge, assistant cashier of the First National bank of Chicago, acting for a number of well-known Chicago financial men, forwarded to Mr. Kloehr a medal commemorative of the event. Kloehr is credited with having fired the shots that laid two of the Daltons low. The medal is of gold, with a large diamond set in the center. The inscription reads: "John Joseph Kloehr—the emergency arose; the man appeared."

FIRE AT THE WORLD'S FAIR.

Tinner's Carelessness Results in Damage to Machinery Hall.

CHICAGO, Oct. 28.—The first fire of note in Jackson Park since the World's Fair buildings were begun started tonight in the main dome of the machinery hall. It was caused by live coals from a tinner's furnace which had been left upon the roof. The heavy wind prevailing blew the coals from the furnace. Several alarms were turned in and finally a city alarm brought half the fire department. The fire burnt for over an hour but because of the small amount of woodwork in the building the damage was not so great as it might have been under other circumstances.

BATTLE WITH OUTLAWS.

Desperado Rice Green Badly Wounded by Sheriff's posse.

MIDDLESBORO, Ky., Oct. 28.—A battle took place yesterday at Walnut Hill, twelve miles from this place, between Sheriff John Colson and posse and a band of outlaws headed by Rice Green. Green had shot and killed James Gibson in cold blood and Sheriff Colson was endeavoring to arrest him. About seven rounds were fired, resulting in the serious wounding of Green and Frank Lee of Harlan county. Green is the half brother of the notorious Charles Johnson, now serving a term in the Kentucky penitentiary.

TWO DISABLED STEAMERS.

They Both Were Sighted Yesterday Off Fastnet Rock.

QUEENSTOWN, Oct. 28.—A pilot boat which has just returned from a cruise off the Irish coast passed off this harbor a steamer belonging to the Johnson line bound for Liverpool which reported having passed two disabled steamers westward of Fastnet Rock. The Johnson liner could not ascertain the names of the disabled steamers and was prevented by the gale from giving them any assistance.

BUILDING BLOWN IN.

Damage Done by the Wind Yesterday at Superior.

SUPERIOR, Wis., Oct. 28.—A severe storm occurred this morning with the first snow of the season. The wind blew with great force. The front of the Culver building was blown in and other damage done. It is feared that there may be damage to shipping as numerous vessels are out in the storm.

FRANCE CAN BOMBARD DOVER.

London Paper Says Melinite Cannon Will Shoot Across Straits.

LONDON, Oct. 27.—The Morning Advertiser announces that it can state upon unimpeachable authority that the English war office has in its possession accurate designs of the new French melinite gun of terrific power which French gunners calculate will be able to bombard Dover from Calais and also designs for a light railway to shift the gun along the coast.

SEVENTEEN MEN DROWNED.

Steamer Louvre Wrecked Near Cape Finisterre Thursday Night.

LONDON, Oct. 28.—The steamer Louvre was wrecked at Farnach, near Cape Finisterre, last night. Seventeen persons were drowned. No further details have been received.

DOCKS ARE FULL OF ORE.

Cleveland Has No Room and Many Cargoes Are Going to Chicago.

ORE MEN THINK THE MONTH WILL SHOW WELL.

Dun & Co. Report Structural Iron in Great Demand, Pig Stocks Shrinking and Prices Firmer.

STATE OF THE IRON TRADE.

CLEVELAND, Oct. 28.—The Iron Trade Review says of the iron and ore conditions: Cleveland receipts of ore the past week were about 46,000 tons, or less than half the average throughout the summer. Shipments to furnaces from Cleveland docks, about 29,000 tons last week, are also less than the average. The docks are jammed with ore and this fact has compelled the sending of as many cargoes as possible to Chicago from upper lake docks. There have been some sizeable sales of non-bessemer hemtitites at figures as low as any for the season and sales of other grades have brought the transactions of the week up to a fair tonnage.

The better feeling in the steel market and in pig iron has not specially influenced the ore market except in the way of inquiries. Ore men have reason to think that there are wants aggregating a round figure, that furnacemen have not yet covered and are yet intimating that the round-up for a month here will show less unsold ore on the docks than has been counted on in some quarters.

DUN'S REVIEW OF TRADE.

Immense Harvest in the West and but Little Demand for It.

NEW YORK, Oct. 28.—R. G. Dun & Co.'s Weekly Review of Trade will say: There is a car famine from Pittsburgh to the Rocky mountains. This single fact shows the best and the worst of business. The west is marketing enormous crops, probably exceeding in quantity all official or unofficial estimates but Europe is buying but moderately, the demands of the east are not greater than usual, and all the elevators with grain and all the yards full of loaded cars.

Structural iron is in great demand and sheets are very active as well as plates but bar iron is not moderately active and rails remarkably dull. Stocks of pig iron are shrinking and prices firmer. Southern producers are finding less occasion to crowd down the market in order to dispose of their products. Copper is more steady at 11 1/2.

The business failures occurring throughout the country during the past seven days number 187, as compared with totals of 208 last week. For the corresponding week of last year the figures were 255.

JUSTICE BREAKS THE RECORD.

Ohio Man Commits Burglary in Morning and Sleeps in Prison.

CINCINNATI, Oct. 28.—A case of unusual promptitude in the administration of criminal justice was that of Charles Boyer, who committed a burglary at 5 o'clock this morning in this city and ate his supper this evening in the Ohio penitentiary at Columbus. Boyer was caught in the act. The grand jury indicted him. He pleaded guilty before Justice Wilson, was sentenced to five years imprisonment and taken to Columbus in the afternoon.

FERDINAND AND MARIE.

They Have to Get Papal Dispensation to Marry.

ROME, Oct. 28.—The pope has granted a dispensation for the marriage of Princess Marie, eldest daughter of the duke of Edinburgh, and Prince Ferdinand, crown prince of Roumania. The princess is a Protestant and the prince a Catholic. The dispensation does not depart from the absolute condition that all the children of the marriage shall be baptized in the Catholic faith and educated as Catholics.

OVER ONE HUNDRED LOST.

British Steamer Roumania Wrecked on the Indian Coast.

LONDON, Oct. 27.—The British steamship Roumania is reported wrecked at the mouth of the Brebho river near Peniche. It is said that one hundred passengers and all of the crew were drowned. The Roumania was an iron screw steamship of 3,367 tons and belonged to the Anchor line and plied between Liverpool and Bombay.

METAL PRICES.

New York, Oct. 28.—Pig iron, fairly active; American, \$13.00@15.50. Copper, easier; lake, 11.05@11.75c.

COPPER STOCKS.

BOSTON, Oct. 28.—Closing prices of copper mining stocks were as follows:

| | |
|------------------|--------|
| Allouez | 1 00 |
| Atlantic | 10 50 |
| Boston & Montana | 35 00 |
| Butte & Boston | 9 50 |
| Calumet & Hecla | 200 00 |
| Central | 7 50 |
| Franklin | 14 00 |

CHICAGO MARKETS.

CHICAGO, Oct. 28.—The way the markets broke today was simply Tomnysonian. After the record-smashing almost daily during the past week in the line of low prices, wheat this evening compared with 24 hours ago shows a decline of 1 1/2 cents for December and 1 1/2 cents May. Corn is 3/4c. lower for November and from 1/2 to 3/4c. lower for the later deliveries. Provisions with the exception of October ribs are also in the slough. October pork is 17 1/2c. lower, November 22 1/2c. and May 30c. lower. Lard for October dropped 17 1/2c.

WHEAT QUOTATIONS.

CHICAGO, Oct. 28.—The leading wheat futures ranged as follows:

| Opening | High | Low | Closing |
|-----------|--------|--------|---------|
| Oct. | 70 3/4 | 71 | 69 3/4 |
| Dec. | 72 1/2 | 72 3/4 | 71 1/2 |
| May | 78 1/2 | 78 3/4 | 77 1/2 |

Cash quotations were as follows: Flour, weak; buyers holding off. Winter patents, \$3.70@4.00; winter straights, \$3.30@3.50; spring patents, \$3.75@4.00; spring straights, \$3.00@3.50; bakers, \$2.50@3.00; No. 2 spring wheat, 69c; No. 3 spring wheat, 57 1/2c@62c; No. 2 red, 69c; No. 2 corn, 40c; No. 2 oats, 29 1/2c; No. 2 white, 1.0. b., 34 1/2c@35c; No. 3 white, 31c@31 1/2c.

CATTLE, HOGS AND SHEEP.

CHICAGO, Oct. 28.—Prices at the stock yards ranged as follows: CATTLE—Receipts, 11,000; shipments, 400; market active, steady to firm; No. 1 extra steers of the market, choice to prime, \$5.00@5.45; others, \$3.50@4.75; Texans, \$2.50@3.05; rangers, \$3.35@4.00. HOGS—Receipts, 25,000; shipments, 10,000; market, active, strong; rough and common, \$3.35@5.40; mixed \$5.50@5.65; prime heavy and butchers' weights, \$5.70@5.85; light, \$5.30@5.60. SHEEP—Receipts, 6,000; shipments, 5,300; market, slow, weak to 15c. lower; ewes, \$3.50@4.25; mixed, \$4.25@4.65; wethers, \$5.00@5.25; Texans, \$3.75 westerns, \$4.30@4.40; lambs, \$3.75@5.50.

A call will convince you of values we offer.

ALWAYS THE CHEAPEST.

Louis Grabower,
Leading Dry Goods, Carpet, Millinery and Shoe House.

GRABOWER

for November 17 1/2c and for January 15c. October ribs are 35c. up, November 50c. off and January 15c. off. The wheat trade seemed to have come to a full realization of the bearish conditions which have been steadily on the increase for some time and longs who have been holding on in the hope of some improvement in the outlook seemed to have lost all courage and began to drop their loads. This was more especially the case with holders of the near futures and December fell to 6 cents discount on May and October to 2c. discount on December. Short sellers also showed more boldness and the offerings were urgent while the demand was sluggish and shorts who took profits about the only buyers. Cables were lower, domestic markets heavy, the receipts everywhere large and the tracks crowded with cars waiting to go to store.

FREE

ISHPEMING TOPICS.

Lighting Company Receives a Fine New Engine to Drive Its Dynamos.

Druggists Think of Closing at Nine O'clock—Cloak Opening at Quinn's. See That You are Registered.

A FINE ENGINE.

The new engine ordered recently by the Ishpeming Gas & Electric Light company arrived here Thursday evening. It is an ideal compound of 250 horse power, built by A. L. Ide & Son, of Springfield, Ill., and was purchased through Agent J. G. Robertson of St. Paul, Minn. It has 14x22-inch cylinders with a 16-inch stroke. This is the very best engine built of that style, and it has many valuable improvements. It weighs fifteen tons and is said to be the largest engine of that make in use on the upper peninsula.

A bed of sandstone for the engine, 14 feet 7 inches in length, 4 feet 7 inches wide and 15 inches in thickness, has also been received from Furst, Neu & Co. of Marquette. It weighs seven tons.

The engine and stone have both been side-tracked near the company's engine house at Lake Angeline, where they will remain for a few days until the question of consolidating the company with the Negaunee & Ishpeming Street Railway company has been definitely settled. If the consolidation is effected the engine will be set up in the power house of the Negaunee & Ishpeming Street Railway company. The new dynamos ordered by the Ishpeming Gas & Electric Light company are expected here in a few days. Commenting on the proposed consolidation, the Daily Press of Tuesday said: "The capacity of the Ishpeming plant has long since reached its limit and no additional machinery has been ordered owing to the probable consolidation of the two plants." What motive the statement can only be conjectured, but that paper must have been aware of its falsity, for every paper in Ishpeming, the Press included, had previously noted that the Lighting company had ordered the new engine and dynamos.

To Close at Nine O'Clock.

Ever since the 8 o'clock closing system has been inaugurated in Ishpeming by the grocery, dry goods, and clothing merchants, the druggists have been considering the advisability of closing their stores at 9 o'clock each evening. Up to yesterday noon they had not come to an agreement, but it is certain that they will fall in with the early closing movement of making 9 o'clock their closing hour. The only thing in the way at present is the nearness of the holiday season. A proposition made by one of the druggists is to inaugurate the system on November 1, to continue until December 1, the rule to be operative during December and to go into effect again on January 1. This would seem to meet the situation satisfactorily, and there is a likelihood that the proposed arrangement will be adopted.

A Cloak Opening.

Beginning with today Mr. Max Goldman, representing Joseph Beifeld & Co. of Chicago, will open J. H. Quinn's cloak department for the fall and winter season. Mr. Quinn has been in Chicago the past week, together with Mr. Goldman, making a selection of goods suitable for his trade. A fine assortment of elegant cloaks, furs, plushes, seals and seal plushes, etc., have been selected, and will be displayed, as also a large line of the latest novelties in other lines that will interest the ladies. The sale will continue today and Monday, when special attention will be given the ladies who will favor him with a call.

Spoke at Republic.

Mr. G. Gjerston addressed a republican meeting at Republic Thursday evening. He was accompanied by Mr. Gad Smith of Marquette, nominee for county clerk and register of deeds, who also made a few remarks. Mr. Gjerston is an able speaker, and is doing effective work for the party in the places where he has addressed audiences. The Republican Scandinavian club of this city is endeavoring to secure Mr. Gjerston to address a meeting here tonight. He spoke last night at Florence, Wis.

Registration.

On next Saturday, Nov. 5th, the boards of registration of the several wards of the city of Ishpeming will be in session from 9 o'clock in the morning until 5 in the evening at the following places for the registration of voters in said wards: First ward, hook and ladder house No. 1; Second ward, Ishpeming hospital; Third ward, Nelson House; Fourth ward, No. 2 hose house; Fifth ward, No. 4 hose house; Sixth ward, Erick Anderson's store on Third street; Seventh ward, No. 3 hose house.

WILL BE GIVEN AWAY.

Our enterprising druggists, H. H. Stafford, Son & Co., who carry the finest stock of drugs, perfumery, toilet articles, brushes, sponges, etc., are giving away a large number of trial bottles of Dr. Miles' celebrated Restorative Nerve. They guarantee it to cure headache, dizziness, nervous prostration, sleeplessness, the ill effects of spirits, tobacco, coffee, etc. Druggists say it is the greatest seller they ever knew, and is universally satisfactory. They also guarantee Dr. Miles' New Heart Cure in all cases of nervous or organic heart disease, palpitation, pain in side, smothering, etc. Fine book on "Nervous and Heart Diseases" free.

ISHPEMING IN BRIEF

Work on the Ishpeming sewers was abandoned yesterday on account of the wet weather.

Miss Sarah Wright will entertain a number of young friends at her home next Monday evening.

First rain, then snow, then rain and snow combined was the way the weather came to us yesterday.

The Scandinavian Republican club held a business meeting at the club's hall last evening.

Mrs. C. Kennedy is quite ill with pleurisy. Her numerous Ishpeming friends hope for her speedy recovery.

Mrs. James McNulty of Marquette, who has been visiting in Ishpeming the past few days, returned home yesterday afternoon.

Mrs. C. R. Wightman returned home Wednesday from points in Illinois and Dakota, where she has been visiting relatives and friends the past six weeks.

The shipments of hard ore from the Cleveland Iron company's stock pile have been discontinued for this season, unless orders for more ore are received before navigation closes.

C. R. Wightman, who is now superintendent of the Negaunee sewer system, will send his resignation as city engineer of Ishpeming to the common council at its next meeting.

The funeral of John Puhto, who died Wednesday night of typhoid fever, was held yesterday afternoon under the direction of the Finnish National society, of which deceased was a member.

Meyers & McGuire have been appointed sole agents in Ishpeming for a celebrated brand of genuine whiskey that is said to be the "right caper" for colds, etc. The firm is enjoying a large family trade in the new article.

On Saturday night of next week the democrats and republicans will hold meetings in Ishpeming. At the City Opera house Colonel Atkinson and General Alger will speak in defense of republican men and measures, while Hon. T. E. Tarsney will hold forth at Gylling's hall on behalf of the democrats.

Baptist services will be held tomorrow at A. O. U. W. hall at 10:30 in the morning and 7 in the evening. Rev. J. H. Green officiating. The subject of the morning discourse will be "Christ's Temptation, or His Sympathy for the Tempted." In the evening the theme will be "God's Kingdom, and How to Get Into It."

The excellent paper put up by the "Monto Cristo" company is worthy of notice. The company's fine lithographs and hangers can be seen in the store windows in Ishpeming. The paper is all special and designed expressly for Mr. Felton's company. The date of the company's appearance here is Thursday next, November 3rd.

Effect of Cold and Accident on Hair.

Arctic voyagers and other travelers in frigid regions have frequently been subject to canities as the effect of cold, a circumstance quite in keeping with the fact that animals, such as the bear, fox and lemming, inhabitants of the extreme north, have hirsute coverings of white. The writer was once acquainted with a man named Sweeney, formerly a sailor, whose hair was jet black except a snow white tuft about the middle of the frontal suture, where the scalp had been taken off through a fall from a mast on shipboard. Where burns and severe local inflammations have resulted in a loss of a portion of the scalp, the injured part has similarly been covered in many cases with a growth of white hair.—Hyland C. Kirk in New York Times.

When a Man Flatters.

As many sirens as there are, so many are their ways of charming. There are assaults and there are sieges, open battles and ambushes. The platonic affection stalking horse is one of the most frequent. There is ever danger present when a woman listens with patience to a man's talk about himself. Woman flatters man on the qualities by which she enslaves him. A woman never tells a man that his will is of iron, save when she is bending it to her own uses. Some are attracted by the simplicity of a character; but to many the difficulty of understanding a character constitutes its greatest, perhaps its only, charm, so that when once they have probed it they throw it aside as of no more interest.—Murray's Magazine.

Not Cast Down.

"I have always held," said a cheerful man, "that a happy disposition and ample wealth would enable one to bear up pretty well under the ordinary misfortunes of life. Riding up town the other day on the elevated railroad I sat next to a fine looking couple, evidently husband and wife, and evidently possessed of abundant means. As they chatted along pleasantly together he mentioned incidentally the fact that he had that morning lost \$4,000 on stocks. She said, 'Did you?' and then they didn't bother about that any more, but branched off on something else."—New York Sun.

A Two Edged Argument.

Fraulein Silberstein—Why, papa, you might have advanced that money to Lieutenant Von N—!

Herr Silberstein—I know him too little.

Fraulein S.—Ach, that is only an excuse, for you refused Herr X— as well only the other day.

Herr S.—I know him too well.—Lustige Blatter.

One Horse Power.

When men first begin to become familiar with the methods of measuring mechanical power they often speculate on where the breed of horses is to be found that can keep at work raising 33,000 pounds one foot per minute, or the equivalent, which is more familiar to some mechanics, of raising 330 pounds 100 feet per minute. Since 33,000 pounds raised one foot per minute is called one horse power, it is natural that people should think the engineers who established that unit of measurement based it on what horses could really do. But the horse that can do this work does not exist.

The horse power unit was established by James Watt about a century ago, and the figures were fixed in a curious way. Watt found that the average horse of his district could raise 23,000 pounds one foot per minute. At that time Watt was employed in the manufacture of engines, and customers were so hard to find that all kinds of artificial inducements were necessary to induce power users to buy steam engines. As a method of encouraging them Watt offered to sell engines reckoning 33,000 foot pounds to a horse power. And thus he was the means of giving a false unit to one of the most important measurements in the world.—Rider and Driver.

The Crane Scarecrow.

The old clothes scarecrow in its crude state is merely a wooden cross over which is drawn a tattered coat. Usually about half of each sleeve's length dangles over the end of the short arm, heightening an aspect of lassitude that is heightened by the tipsy imitation, either given to, or speedily acquired by, the cross. You never saw a scarecrow standing bolt upright. An old hat slouched recklessly above the coat, never fails to give an air of demoralization to the figure.—Lewiston Journal.

Royal Fish.

Throughout the British dominions whale and sturgeon are royal fish, and those cast ashore belong to the crown. In old times the rule was that the king should have the head of the whale and the queen the tail, because the whalebone, which was useful in her toilet, was supposed to be in the tail; the truth being, however, that both the whalebone and the precious ambergris were to be found in the head.—Harper's Bazar.

Robert Barrett Browning, the poet's only child, is now a man of forty-two years. He is a water colorist of some repute and is married to an American lady.

CURE SICK HEADACHE

Sick headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, etc. While their most remarkable effect has been shown in curing

SICK HEADACHE

Headache, get Carter's Little Liver Pills and equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEADACHE

As they would be almost priceless to those who suffer from this distressing complaint, but fortunately their goodness does not end here, and those who ency they will find these little pills valuable in so many ways that they will not be willing to do without them. But after all is said and done

ACHE

Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Healing in all its stages thoroughly eradicated from the system without the use of mercury. Gonorrhoea and gleet cured in from 7 to 10 days. Syphilis and venereal diseases cured in from 10 to 15 days. Young and middle-aged men suffering from various forms of weakness, indigestion and general debility, a permanent cure guaranteed. No other treatment containing valuable ingredients and of such effectiveness (sealed) in plain envelopes.

It is an old-fashioned notion that medicine has to taste bad to do any good. Scott's Emulsion is cod-liver oil with its fish-fat taste lost—nothing is lost but the taste. This is more than a matter of comfort. Agreeable taste is always a help to digestion. A sickening taste is always a hindrance. There is only harm in taking cod-liver oil unless you digest it. Avoid the taste.

Scott's Emulsion, Chemists, 232 South 5th Avenue, New York.
Your druggist keeps Scott's Emulsion of cod-liver oil—all druggists everywhere do. [8-13-tf]

COPPER COUNTRY NEWS.

Little Geoffrey King Accidentally Killed at the Calumet & Hecla Smelter.

TYPHOID FEVER CLAIMS SEVERAL VICTIMS.

General Alger to Speak at Hancock Next Friday Evening—Personal and Miscellaneous Notes.

[All communications for copper country department intended for publication should be addressed to A. F. Ester, Houghton]

SOUTH LAKE LINDEN.
Geoffrey King, the 13 year old son of Mr. and Mrs. Eusebe King, was killed in the Calumet & Hecla smelting works between 9 and 10 o'clock Thursday night. The little fellow had climbed on top of a pile of poles such as are used for refining copper. He fell off the pile and one of the poles fell on him, killing him instantly.

CALUMET VILLAGE.
Mr. and Mrs. Ned Richards are sorely afflicted. Their daughter, Bessie about 11 years of age, died Thursday morning of typhoid fever. The funeral will be this afternoon. Mrs. Richards is very ill with the same disease. Thursday morning her mother Mrs. Barr, fell down stairs and broke two ribs.

CALUMET.
Will Lang, aged 21 years, son of Mr. and Mrs. James Lang, died at 3:30 o'clock Friday morning of typhoid fever. The funeral will be held tomorrow morning and the remains will be taken to Hancock for burial.

RED JACKET.
The funeral of Mrs. James James of Blue Jacket, who died on Wednesday of cancer of the stomach, will be held this afternoon at the Congregational church by the Rev. H. E. Wolfe.

A democratic rally will be held at the Calumet Light Guard Armory this evening. John Ribstone of Bessmer the "blacksmith orator," will address the audience.

The insurance firm of Holman & Fisher has been dissolved. Will Holman continues the business.

The young People's Society of Christian Endeavor of the Red Jacket Congregational church will give a concert in the Opera House on Friday evening, November 4.

The funeral of Mrs. Margaret Reynolds was held this afternoon at 3 o'clock.

Rain and snow fell quite heavily yesterday at this place.

DOLLAR BAY.
The new Catholic church at this place will be dedicated on Sunday November 6. Rt. Rev. Bishop Vertin will conduct the service.

HANCOCK.
The reporter had occasion to visit the Lake Superior Iron works yesterday and found that the sixth one of the 75 large castings for the solid foundations of the new Calumet & Hecla stamp mill had just been taken out the mould. It weighs eighteen tons and it will take 1,700 tons of iron to complete the contract. All departments of the works are running at full capacity. The frame work for the new foundry is finished and it will soon be enclosed. Entering into the warehouses for the storage of patterns the immense number of patterns that were systematically stored away in them was a revelation to the uninitiated. Over \$100,000 worth are to be seen. A single pattern of a fly wheel cost over \$150 to make while small patterns of intricate machinery only a few inches square cost from \$20 to \$30. The Lake Superior shops are very complete in every department.

Gen. R. A. Alger will speak only once in the copper country and that will be at St. Patrick's Hall on Friday evening November 4. He will be accompanied by Colonel Anderson of Detroit, one of the foremost of political campaign speakers.

J. Maurice Finn seems to think his chances of election depend on the voters in the copper country. Secret meetings of the party leaders are held daily and all are working like beavers to repair the leaks in the congregational water works.

Mr. L. Carrigan, superintendent of the copper shops of the different smelting works, was married Wednesday evening to Miss Mary Connors of this place.

HOUGHTON.
The fair given by the ladies of St. Ignace's church has been quite successful. The supper have every evening been very well attended and those who partook were agreeably surprised at the great variety of good things the ladies were serving.

ATLANTIC.
The railroad for the transportation of rock from the Atlantic mine to its new mill site at Salmon Trout river will be completed next summer and most of the timber used in the construction of the new mill will be handled on it. If allowed to take its time the company will take three years in building and moving. The expense has not yet been figured but it will probably fall within \$250,000. This amount is now in the treasury in surplus while the earning capacity at the present market price of copper is a out \$40,000 per year.

A very enthusiastic republican rally was held last night in which local and Houghton orators distinguished themselves.

THE GREATEST STRIKE.
Among the great strikes that of Dr. Miles in discovering his New Heart Cure has proven itself to be one of the most important. The demand for it has become astonishing. Already the treatment of heart disease is being revolutionized, and many unexpected cures effected. It soon relieves short breath, fluttering, pain in the side, arm, shoulder, weak and hungry spells, oppression, swelling of ankles, smothering and heart dropsy. Dr. Miles' book on Heart and Nervous Diseases, free. The unequalled new heart cure is sold and guaranteed by H. B. Stafford, Son & Co., also his Restorative Nervine for headache, fits, sprues, hot flashes, nervous chills, opium habit, etc.

Indigestion! Miserable! Take BEECHAM'S PILLS.

DR. W. H. KIRK,
OFFICE 112 Wisconsin St. - MILWAUKEE, WIS.
"ALL DISEASES OF MEN"
Healing in all its stages thoroughly eradicated from the system without the use of mercury. Gonorrhoea and gleet cured in from 7 to 10 days. Syphilis and venereal diseases cured in from 10 to 15 days. Young and middle-aged men suffering from various forms of weakness, indigestion and general debility, a permanent cure guaranteed. No other treatment containing valuable ingredients and of such effectiveness (sealed) in plain envelopes.

The Big Kimberley Mine.

No pen can adequately describe the appearance of the Kimberley mine. It is the largest hole made by man, and in the shortest space of time, for the incentive to work was there—the diamond. A spectator standing on the edge looks down and sees men at work looking like ants in size, and during the blasting hours he can in perfect safety witness the explosion of thousands of pounds of dynamite and note the rending of masses of blue and rock, which would fall far below him.

As an honor to the late "Chinese Gordon" when he visited the mines, the writer saw the Kimberley mine illuminated at night with thousands of improvised lamps, assisted with colored fires and displays of fireworks. The weird effect produced was grand, for the eye could not properly measure distance at night, and the twinkling lamps but served to heighten the effect.—Engineering Magazine.

When Woods Decay.

Tests have been made to determine the variations in the length of time that is required to produce decay in different kinds of woods when buried under the surface of the ground. The birch and aspen were both found to decay in three years, the willow and the buckeye in four years, the maple and the red beech in five years, elm and ash in seven, while the larch, juniper and arbutus were unimpaired at the expiration of eight years.—St. Louis Republic.

A recent discovery proves that pineapple is a remarkable digestive agent and capable of emulsifying and partially digesting beef.

ADULTERATED WINE.

In injuries, but nothing gives strength like a pure old port wine. "Royal Ruby Port" so called for its royal taste and ruby color, is particularly adapted for invalids, convalescents and the aged. Sold only in quart bottles, for one dollar, while cheap wine is sold by the gallon and give a large profit to the seller but less to the user. This wine is absolutely pure and has the age without which no wine is fit to use. Be sure you get Royal Ruby: \$1. in quart bottles only. Sold by H. H. Stafford Son & Co., Marquette, and J. M. Perkins & Co., Negaunee.

A REMEDY FOR THE GRIPPE COUGH.

A remedy recommended for patients afflicted with the grippe is Kemp's Balsam, which is especially adapted to diseases of the throat and lungs. Do not wait for the first symptoms of the disease, but get a bottle and keep it on hand for use the moment it is needed. If neglected the grippe has a tendency to bring on pneumonia. All druggists sell the Balsam.

NOTICE TO CONTRACTORS.

Bids for completing the new Methodist church at Houghton according to plans and specifications on file in the office of W. J. Pryor, architect on Sheldon street, Houghton, will be received up to November 3, 1892. The right to reject any or all bids is reserved. Plans and specifications will be ready for inspection on or after Tuesday, October 27. Address W. J. PRYOR, Architect, [10-25-11]

DR. SPEER & CO.,

SPECIALISTS IN

NERVOUS AND CHRONIC DISEASES.

Main office at 146 Washington St. (Mining Journal building) Marquette, Mich. Branch office at Saginaw Mich., and West Superior, Wis.

The physician in charge of the office is a graduate of the Medical Department of Harvard University.

YOUNG MEN

Who may be suffering from the effect of youthful follies or indiscretions will do well to avail themselves of this chance.

DR. SPEER & CO.
Will guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$250. They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience.

MIDDLE-AGED MEN.

There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting sensation and weakening the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits aropy sediment and sometimes small particles of albumen will appear or the color be of a thin or milkish hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness.

LADIES

Finding it not convenient to call at the office can be treated by mail by sending a full description of their case.

DR. SPEER & CO.

Will guarantee a perfect cure in all such cases and a healthy restoration of the organs. Examination and advice free to all. Remember the place, 146 West Washington street, Marquette.

P. S.—See our testimonials in the different papers from well-known people.

—HERE IS EVIDENCE.—

REMARKABLE SUCCESS.

I, James Stewart, of Marquette, have been unable to work for some time on account of epilepsy, which caused mental depression and great weakness; in fact perfectly unfitted me for any business. I got no relief until I tried Dr. Speer & Co. After two months' treatment I am surprised at the result. I have had no fits since. I sleep well, and arise in the morning refreshed, instead of feeling more tired than when I went to bed. I cannot recommend Dr. Speer & Co. too highly for what they have done for me.

JAMES STEWART,
Marquette, Mich.

TWELVE MEN MISSING.

Tug Edward Fiske Loses Her Tow About Twelve Miles From Here.

WENT HELPLESSLY DRIFTING DOWN THE STORM.

Life Saving Crew Has Gone on a Search Up the Beach With Their Surf Boat.

WHAT IS THEIR FATE?

The terrible storm that set in between 2 and 3 o'clock yesterday afternoon is not, it is to be feared, to be without its harvest of disaster on Lake Superior. About 8:30 o'clock last evening the tug Edward Fiske, from Duluth, put in here for shelter and reported that by the parting of her tow line she had dropped a scow, loaded with supplies and a crew of twelve men for a logging camp at Big Bay, some thirty miles up the shore, about half the distance between that point and Marquette. After the tow line parted the tug, which was commanded by Captain Fred Herbert, squared for Marquette and as soon as she reached here her captain notified the life saving crew of the condition in which the scow with its crew of men were left. The life saving crew at once started out to find the scow if possible and do all that could be done to rescue the imperiled men.

A reporter was at once dispatched to find the captain of the tug and obtain from him the particulars. From him it was learned that the tug had cleared from Duluth Thursday morning bound for Big Bay, and carrying supplies and a gang of about twelve men, as nearly as the captain could place their number, for a camp run by Hall & Munson at that point. Yesterday afternoon the tug and scow made Big Bay and were about to draw up there and discharge the men and supplies when the wind suddenly veered to the northwest and the gale set in with such force that the tug was obliged to put out to sea for safety, towing the scow. Captain Herbert squared for Marquette, the nearest harbor that promised shelter. The gale continued to increase in force and violence and when about half the distance between Big Bay and this port was made the line parted and the tug, under the pressure of dire necessity, made for Marquette, leaving the scow with her freightage of human life to buffet the wind and waves as best she might. On arriving here Captain Herbert notified the life saving crew, as stated, and did everything that he could do to send assistance to the scow, but with what result cannot be told at this writing.

Captain Herbert's opinion is that the scow would drive ashore, with the wind as it was when the line parted, somewhere between Thoney's stone quarry and what is known as False Presque Isle, about 12 miles up the shore from here and about 4 miles from land. With such a sea running as the gale raised he had but little hope that the scow would weather the storm and he feared the worst. He has sailed the lakes twenty-two years and he says the gale that came up so suddenly yesterday afternoon was the worst he has been out in for twelve years, and he has experienced some hard blows in that interval.

Superintendent Ward, of the street railway line was in the MINING JOURNAL office when news of the disaster was received, and though the last car had been run in for the night he at once ordered a car sent here to take men out to Presque Isle on the bare hope that they might be able to render some assistance to the life saving crew if the scow could be found. Mr. Ward, a MINING JOURNAL reporter and several others went out and went around the shore of Presque Isle to the extreme point but nothing could be seen of the scow. The sea was boiling furiously over the reefs off Presque Isle to the north, but no sign of the scow could be discovered upon the tumbling waters over which Granite Island light cast its steady beams.

As the party returned they met Captain Cleary and the life saving crew at the neck of Presque Isle. Their surf boat was following them on a wagon and Captain Cleary announced his intention of patrolling the shore northward until he found something. It is hardly probable that he will find any trace of the scow or crew nearer than Little Presque Isle and hence the crew is not expected back before daylight this morning, or probably later.

The scow was a flat bottomed craft with a small cabin aft and a derrick forward. If she is lucky enough to drift ashore on a good beach and the men are not washed off they may escape alive. But as the chances are about even for her striking some reef it is hardly probable that the dozen men on board of her will survive.

The Bishop-Elect of Northern Michigan.

The Rev. William Reed Thomas, D. D., who was on Tuesday last elected bishop of Northern Michigan by the general convention of the Protestant Episcopal church, is about 45 years old. He is the son of an Episcopal clergyman and was educated at St. Stephen's college, Annandale, N. Y., and at the General Theological seminary in New York city. He has been rector of the Church of the Holy Innocents, Highland Falls, N. Y., his first and only parish for about twenty years. He has a beautiful church and rectory, and as his parish is only one mile from West Point his congregation embraces many of the professors and cadets of the United States Military academy. He has also as a summer congregation some of the most influential men in New York who have summer residences in the Highlands. J. Pierpont Morgan is a member of his vestry. Besides his rectorship, Dr. Thomas has been for several years one of the five archdeacons of the great metropolitan diocese of New York. His district embraces a very rough country with mines and miners as well as the fertile plains of Orange county. As a missionary and president of his missionary convocation he has had marked success. He has distinguished himself by work among

the poor and his church is full winter and summer. His degree of D. D. was from his alma mater.

Dr. Thomas is strongly endorsed by Bishops Potter and Doane and many influential clergymen and laymen. Archdeacon Williams considers his the strongest nomination, perhaps, made for any one of the missionary dioceses this year. Personally he is a handsome, well-built, robust, blonde man, of most engaging manners, and a fine preacher. His wife is said to be a very delightful woman socially, and in every way they will be a great addition to Marquette society should they reside here, and also to the upper peninsula. The Rev. Dr. Diez of Trinity church, New York, who was president this year for the third time of the lower house of the general convention, has promised Archdeacon Williams a letter about him which will in due time be furnished to the MINING JOURNAL. Bishop Doane considers him an admirable selection, and says "You may all congratulate yourselves."

The Rev. Joseph H. Johnson, who was first appointed, is a priest of the first rank in the country. Probably his being obliged to decide so quickly, in order that the general convention might proceed to another election, had much to do with his declination. He is rector of Christ church, Detroit, which is the second parish of importance in the diocese, and president of the Detroit convention, which embraces nearly all the southern portion of the diocese. His specialty is, however, the detail work of large parishes, in which he is hardly excelled, and he has had less experience as a missionary than has Dr. Thomas. Dr. Johnson has, however, many warm friends in Northern Michigan who will feel sorry that he declined. He is doubtless destined, sooner or later, to the Episcopal purple.

One of the most important things accomplished by the great convention of the church just held at Baltimore was the final revision of the prayer book, this being the consummation of a task that has occupied fifteen years of research and labor. The new standard prayer book will be dated All Saints' Day, 1892. Next in importance was the adoption of an official hymnal. The new book contains 650 hymns. This gives the Episcopal church one prayer book and one hymnal. The revision of the prayer book was made in the interest of flexibility and enrichment of the service. The new book permits of the shortening of services and their adaptation to different conditions. The book has been enriched by the addition of services which it did not formerly contain. A service for Ash Wednesday is one of the additions. Some of the forms which were dropped at the time of the Protestant reformation have been restored.

A great missionary council of the church was organized at this convention. This council will meet annually. It will be composed of the bishops and the elected clerical and lay delegates from every diocese and missionary jurisdiction in the United States. At the meeting of this council held during the convention at Baltimore the Woman's Auxiliary also met and held a session in connection with it. During the past three years the women of the church have raised \$3,000,000 for missionary work.

The position of the clergy of St. Paul's parish is not in any manner affected by the change which has made the upper peninsula a missionary jurisdiction and the election of Bishop Thomas to have charge of the same.

On a Tour of Inspection.

Jefferson S. Conover of Coldwater, grand commander of Knights Templar of Michigan, paid a visit of inspection to Lake Superior commandery last night and was met by a large attendance of knights. Grand Commander Conover will visit all the upper peninsula commanderies, which are located here, at Calumet, at Menominee and at Crystal Falls. He was not accompanied by any of the other grand officers but found here Grand Standard Bearer Frank M. Moore of this city. After the conclave of the commandery all present sat down to a banquet and passed a very pleasant hour at the table with the usual ceremonies.

Grand Commander Conover's special mission to the peninsula, however, is to be present at institution of the new commandery at Crystal Falls, which has been named "Hugh McCurdy Commandery No. 43." The institution will take place next Tuesday evening in public and Grand Master Hugh McCurdy of this state, the highest in rank in the order in the United States, will be present together with most of the grand officers of Michigan. The Crystal Falls knights will celebrate the occasion with a reception and ball that will be the most elegant affair the town has ever seen. Considerable delegations of knights will be present from all the other upper peninsula commanderies besides the grand officers above mentioned. Grand Master McCurdy was elected at the recent triennial convocation of the grand encampment of the United States at Denver and holds that office for three years. The position is the highest honor to which a Knight Templar can attain.

Say They are Sorry.

Ledman and Hunter, the two men charged with having made a murderous assault on Kenneth Graham in Nesbitt's saloon Wednesday evening, were brought before Justice Cray yesterday forenoon for a hearing. The examination was postponed to this morning, when it is believed that Graham will be able to appear, his injuries not being as serious as was at first supposed. The pair of offenders were in a very penitent frame of mind yesterday when brought before the justice. Their statement is that they were so drunk at the time the row occurred that they did not know what they were doing. Neither of them had ever met Graham before, and they protested that they had no ill-will toward him—couldn't have, in fact, as they didn't know him. They were merely out for a good time and happened to get into an altercation with Graham, and in the course of it Ledman playfully tickled Graham with a big knife that he happened to have about his person. That was all there was of it in the opinion of the playfellow pair, and they appeared to think that they were misused because they had got into trouble out of their adventure. The presumption that a man is priv-

ileged to pick a quarrel with another and use a knife or revolver with impunity just because he happens to have a large-sized "jag" on may go in some places, but it hardly will in Marquette. From the facts obtained by the MINING JOURNAL it appears that Graham with his companions, McLean and Farley, had dropped into the place to take a social glass preparatory to attending a dance that was going on in one of the public halls that night, and there encountered Ledman and Hunter. Ledman was aggressively seeking trouble, and at once became engaged in an altercation with Graham. The companions of the latter were not under the influence of liquor to any unusual degree, and waited to see that Graham, who had been drinking rather freely, did not get harmed. When the fracas between Ledman and Graham developed McLean interfered to protect the latter, and then the cutting took place. The case will come on for a hearing this morning, when all the facts will be brought out and justice done. In the MINING JOURNAL'S report yesterday morning it was stated that Farley was intoxicated. The authority for this statement was McLean himself but as both McLean and Farley now insist that neither had enough liquor to affect them the statement in question would appear to have been incorrect.

November Weather.

The records of the Marquette station for the month of November for the past 21 years have been compiled by Observer McDonough. Some idea of the probable weather for the coming month may be deduced from these figures by those interested, as nearly everyone is. The figures follow: Temperature—Mean or normal temperature, 31 degrees. The warmest November was that of 1878, with an average of 38 degrees. The coldest November was that of 1880, with an average of 24 degrees. The highest temperature during any November was 69 degrees on the 1st and 2nd, 1888. The lowest temperature during any November was 9 degrees below zero on the 29th, 1875.

Precipitation (rain and melted snow)—Average for the month, 2.52 inches. Average number of days with .01 of an inch or more, 15. The greatest monthly precipitation was 5.43 inches in 1879. The least monthly precipitation was 0.65 inches in 1871. The greatest amount of precipitation recorded in any 24 consecutive hours was 1.71 inches on the 27th, 1877. The greatest amount of snowfall recorded in 24 consecutive hours (record extending to winter of 1884-5 only) was 5 inches on the 10th, 1887.

Clouds and weather—Average number of cloudless days, 3. Average number of partly cloudy days, 9. Average number of cloudy days, 18. Wind—The prevailing winds have been from the west. The highest velocity of the wind during any November was 44 miles on the 5th, 1880.

A liberal discount in merchant tailoring department. I. NEUBERGER.

The famous Burt shoe, \$4.75 at Neuberger's.

Hanan shoes going at \$4.00 at Neuberger's.

Great Sacrifice Sale OF FINE WOOLENS.

SAW WOOD

While others talk—that's our motto.

Others tell you about the wonderfully low prices they offer, but the people come to us right along. They know we give

them the very best goods and prices. Call and see our elegant line of Men's, Boys' and Children's

CLOTHING, HATS,

Men's Furnishing Goods.

Fine Shoes. We are sole agents in Marquette for the famous Knox Hats and Hanan & Son's Shoes.

GOODINS & ORMSBEE, Corner Front and Washington Streets.

All Sizes to Suit Your Purse

Your grandfather's shoes are not more useless than footwear that doesn't fit. Shoes must differ to suit different feet. Prices and variety differ too. We are making a big difference in these respects for favor of the buyer.

Serviceable Working Shoes, Elegant Dress Shoes, Comfortable House Shoes,

In felt, cloth and leather. Full line of rubbers and overshoes. Let us prove to you that we can save you money and supply you with shoes of the highest class.

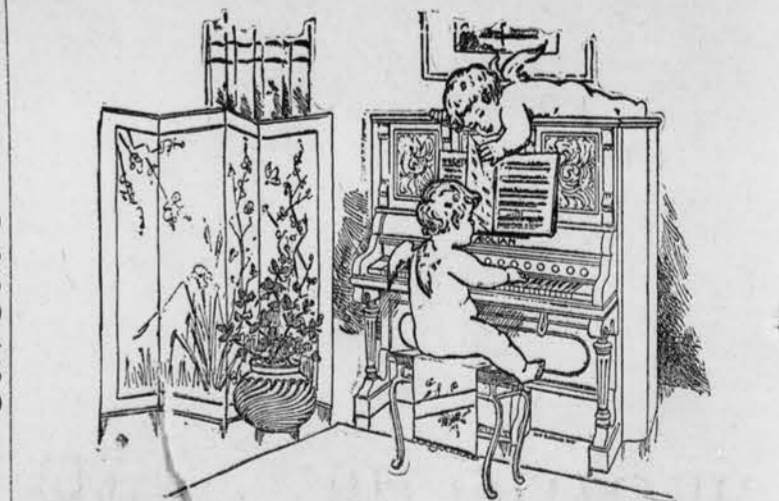

THE LEADER, H. F. Handford.

LADIES

See that you get your share of the THREE HUNDRED DOLLARS (\$300.00.) worth of goods I shall give away on January 16, 1893.

ALFRED THURTELL,

Coles' New Block, Cor. Third and Bluff Sts. Marquette, Mich.

There is no one instrument, unless, indeed, it be a large pipe organ, capable of the variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello; and, all the snap and brilliancy of the piano. See and hear them at Conklin's.
