A PROPOSAL.

Is always in order, and is especially interesting to the one who receives it. Everybody in Marquette is intensely interested in our proposal to furnish a house on the Installment plan. This is the most tempting proposal ever made, the culminating bargain offering in furniture, which the shrewd wouldn't miss for money.

Let the eye tell the story of our parlor and bedroom suits, the prices tell the story of economy which always supplies the magnet of trade. Our proposal is worth accepting at once. To refuse such an offer as ours means a lost opportunity. Would anybody miss the chance to buy a parlor or bedroom suit for \$10? We have none at that price but very near it. Give us a call as we sell on the Installment plan at cash prices.

INCOME FOR UNIVERSITY.

Michigan's Great Institution of Learning Will Have Some Definite Resources.

ONE-SIXTH MILL TAX BILL HAS PASSED THE SENATE.

This Will Give Present Annual Income of \$188,000, None Too Much for University's Needs.

WORK OF THE LEGISLATURE.

STATE HOUSE, LANSING, Mich., March 1.—[Special.]—The senate had a very heated debate over the McLaughlin bill, providing a one-fifth mill tax for the support of the University of Michigan. It was amended to one-sixth mill, which will bring an annual income of \$188,000, and passed by a vote of 18 to 11.

The World's Fair appropriation bill was then considered in committee of whole and Mr. Steele moved to amend the house bill, reducing amount from \$50,000 to \$20,000. After some discussion, in which politics figured to some extent, the committee rose without action and the subject will be considered at the morning session tomorrow.

The bill was also passed providing a board of control for the state public school at Coldwater. The appointments sent in by the governor were then confirmed in executive session.

The house passed the Gladstone charter bill and was occupied nearly the entire session with local bills. The judiciary committee reported favorably on joint resolution for a constitutional amendment establishing a county and state highway system.

TAKES CHARGE MARCH 8.

Warden Van Eyra's Bond Accepted by the Prison Board.

STATE HOUSE, LANSING, Mich., March 2.—[Special.]—The state board of inspectors, having charge of all the prisons in Michigan, was in session here today. The bond of John R. Van Eyra of Marquette, recently appointed warden of the branch state prison and house of correction at Marquette, was filed with the board and Mr. Van Eyra was telegraphed to assume charge of the prison on Wednesday, March 8, instructions to that effect being wired also to A. W. Malmberg, the retiring warden.

FLY WHEEL EXPLOSION.

Engineer Killed and Electric Road Power House Wrecked.

LOWELL, Mass., March 2.—An iron pulley on a dynamo at the power house of the electric street railway company burst today. A piece of the pulley struck the fly wheel of the engine, twenty feet in diameter, having a rim of iron three inches thick and making seventy-two revolutions a minute. It was smashed in an instant and the iron rim, which was made in sections, scattered in all directions, shattering the building.

A. H. Mead of Coriuth, Vt., the assistant engineer, was struck on the head by a piece of iron and died in a few minutes. George Langley, an oiler, had his jaw broken. Pieces of the wheel were hurled through the roof and fell 100 yards distant in the fields and the brick walls were torn out in places as though made of paper.

The moment the explosion occurred all the electric street cars in the city stopped and were unable to move until another dynamo and engine could be started up an hour later. A ton section of the fly wheel crashed through the brick wall of the engine house and the brick wall of the repair house.

CHANGE VISITOR KILLED.

He Was the Only Victim of Collapsing Building.

INDIANAPOLIS, March 2.—While workmen were today engaged in tearing down the brick building 25 West Washington street a portion of the third floor fell to the second and both carried the first into the cellar. Many alarming reports spread rapidly and soon an immense crowd had gathered. About twenty men engaged in dismantling the building escaped without injury and two were slightly hurt.

The one victim of the collapse was William Brockmeyer, who had stepped in to see one of the workmen. He was crushed into the cellar and timbers fell upon him. He was somewhat protected by the timbers but after two hours hard work he was released with both legs broken and fatal internal injuries. He was taken to the city hospital and died tonight.

SOLE LEATHER TRUST NEXT.

Tanners and Dealers Are Forming a Gigantic Combine.

BUFFALO, March 2.—For a long time past rumors have been current that a gigantic trust composed of the manufacturers of sole leather was about to be formed. The proposed sole leather trust represents \$70,000,000 capital and \$25,000,000 is assured. A dealer of the city was found by the reporter to be interested in the trust. Said he:

"I am pledged to join the trust and am working for it in a quiet way here in Buffalo. As the work is just beginning here I do not wish my name used in connection with what I say. The negotiations for the trust have been carried on with the greatest secrecy since the work began early in January. All of the leading tanneries in the eastern part of the country have been examined and appraised. Committees have traveled all over to see dealers and tanners in order to explain the scheme to them. There has not been much opposition except in the matter of appraisals. The combine will be modeled after the plan of the sugar trust. We

have not yet decided where the articles of incorporation will be filed. Only the manufacturers of union or hemlock tanned leather will be in the trust."

RIOTOUS HUNGARIANS SHOT.

People of Szoboszo Object Vigorously to Increased Market Dues.

VIENNA, March 2.—A riot attended by severe fighting and bloodshed has occurred in the town of Szoboszo, Hungary. The cause of the outbreak was the imposition of new market tolls which the populace of Szoboszo and of the Haiduck district generally strongly resented.

A multitude of people both of the town of Szoboszo and the adjoining country were gathered in Szoboszo yesterday, it being the regular market day. As the authorities feared trouble an extra force of gendarmes were stationed at the market place.

The people gathered in large numbers and began pelting the gendarmes with stones and mud. The latter were unable to resist the mob and retreated to the town hall. There the gendarmes were quickly surrounded. They barricaded the building and fired upon the furious multitude. The latter only grew more enraged and would probably have captured the hall and killed the gendarmes but for the arrival of reinforcements.

After a long conflict the rioters were dispersed, three of their number having been killed and many seriously wounded. A woman was among the killed.

CAUGHT IN A FIRE TRAP.

Six Girls Badly Hurt in Burning Colored College.

LITTLE ROCK, Ark., March 2.—The Arkansas Baptist college, established here six years ago by the colored Baptists for the education of girls, was burned about 2 o'clock this morning. About twenty of the students slept in the building and how any escaped from the burning wooden tinder box is inexplicable. All were compelled to jump and six were badly injured. Those hurt are:

FLORA NEELY, back broken; can live but a few hours.

BETTY TURNER, internal injuries; will die.

ADA HARRIS, Oerlin, O.; leg broken.

MARY PRATT, Little Rock, internal injuries; will recover.

LENNY REED, Dermott, Ark.; arm broken.

MARY NELSON, cook; slightly injured.

Nothing was saved, not even clothing. The loss on the property is \$8,000; insurance, \$4,000. The office of the Arkansas Vanguard was also destroyed. The fire is believed to have been incendiary as two previous attempts to burn the college have been made.

DE WALDEN DIVORCE CASE.

Manners and Morals of English "Society" Illustrated.

LONDON, March 2.—The long looked for De Walden case came up today in the divorce court before Judge Sir Francis Henry Jenne. It is regarded as the cause celebre of the year. Lady Howard De Walden brings the action for divorce and her husband has answered by a cross suit. Lord Howard is a man of very large wealth and is one of the great ground landlords of London. In the case on trial today his lordship accuses Lady De Walden of adultery with Count Jean de Madre and with Captain Winter and her ladyship seeks a separation on the ground of cruelty on the part of her husband. An illustrious array of counsel was present in the court today, Lord De Walden being represented by Sir Edward Clarke and Lady De Walden by Sir Henry James.

DEATH OF CAPTAIN RIERSEN.

Veteran of the Great Lakes Passes Away at Chicago.

CHICAGO, March 2.—Captain Andrew Riersen died here yesterday of bronchitis. Captain Riersen was born in Norway. He came to this country when twenty-one years old and for forty years has been identified with the vessel interests of the lakes. He assisted in the organization of the Vessel Owners' Towing company, of which he was at one time a director and superintendent. He retired from active business twelve years ago.

WILL RESIGN SATURDAY.

Several Foreign Ministers Will Step Out Very Promptly.

LONDON, March 2.—Minister Lincoln is preparing to forward his resignation on the 4th of March upon the inauguration of President Cleveland. Dispatches from Rome, St. Petersburg and Berlin are to the effect that Mr. Potter, American minister to Italy, Mr. White, American minister to Russia, and Mr. Phelps, American minister to the German empire, are all sending in their resignation.

INTERFERED WITH BUSINESS.

Mr. Stevenson's Appearance on the Floor Distracts Members.

WASHINGTON, March 2.—Vice President-elect Stevenson was on the floor of the house this afternoon. He is entitled to admission as an ex-member. When he was recognized he received a hearty welcome. The roll was being called at the time but there was a noisy interruption to the monotonous voice of the clerk and Mr. Stevenson held an impromptu reception in the rear of the chamber.

Printing World's Fair Tickets.

NEW YORK, March 1.—The American Bank Note company, which has the contract for printing the admission tickets for the World's Fair, struck off the first sheets yesterday. A million tickets will go to Chicago April 1 and the rest will follow at short intervals.

Fishing Tug Goes Down.

ALPENA, Mich., March 2.—The fishing tug Sea Wing sank in the river here this morning. She was in winter quarters. It is probable that ice pulled the oakum out of her seams. Unless she had been sold recently the Sea Wing belongs to S. H. Davis of Detroit.

JOY TURNED TO MOURNING.

Bay City's Big Ship-Builders Celebrate Beginning of One Hundredth Anniversary of One Hundredth Vessel.

LAUNCH LATER IN THE DAY ENDS IN DISASTER.

Dozen Men and Boys Swept Into the Ice Water and Two or Three Were Drowned.

SWEPT AWAY UNDER THE ICE.

BAY CITY, March 2.—F. W. Wheeler & Co. today laid the keel of the steel steamer Centurion, their one hundredth boat, with appropriate ceremonies in the presence of 6,000 people. In the afternoon the schooner McLachlin was launched and during this proceeding an accident occurred the exact results of which cannot now be told.

The steamer Forbes was lying in the slip into which the schooner plunged. On her upper deck were about a dozen men and boys. The sudden descent of the boat caused the steamer to careen and when she recovered her keel the shock broke the rail and threw the people into the water. They fell amid broken ice and planks that had been carried down by the schooner.

As soon as possible the work of rescue began and in five minutes the following had been taken from the water: GEORGE DOYLE, ankle broken, head badly cut.

FRED BARCOCK, left arm and leg broken, injured at the body, probably fatal.

WILLIAM BALDWIN, cut about face and hands.

LEO McCAULEY and WELLES McLEAS, injured about hands and feet by ice.

JEROME FRASER and GEORGE CLARK, cut by ice.

Eye-witnesses of the accident were positive that there were more people under the ice and a diver was sent down to the bottom of the river. An account of the disturbed condition of the water he was unable to do anything. If anyone was drowned the current has carried the bodies out under the ice in the river and recovery is impossible now. Three hats whose owners could not be found were recovered from the water. It is not known whether they were left by people in a hurry to get to a warm place or belonged to some unfortunate whose bodies are now in the water. The wildest rumors are in circulation but it is believed not more than two persons were drowned.

SAND BEACH SHUT OFF.

No Mails Have Arrived or Departed Since Monday.

SAND BEACH, Mich., March 2.—No mails or trams have arrived or departed since Monday on account of the snow melting and ice forming on the tracks. A train which left yesterday with a crew of men is only as far as Ruth, ten miles away. An engine and snow plow were ditched near Minden Wednesday and one section man was slightly injured.

PROHIBITION ON TOP.

Government of Manitoba Is Sustained on That Issue.

WINNIPEG, March 2.—The great debate on prohibition was concluded in the legislature last night when a vote was taken on the proposal of the government to memorialize the Dominion government asking for power to pass a prohibitory liquor law. The government was sustained by a vote of 28 to 16, four members of the opposition voting with the government.

HETHERINGTON'S GOOD JOB.

Failed to Kill Miss Klaus but Succeeded With Himself.

BRIDGEPORT, Conn., March 2.—Alexander P. Hetherington, a young Greek, this noon shot Miss Emma Klaus, a young lady to whom he has been paying earnest attention, and then shot himself through the heart. The affair happened at the establishment where Miss Klaus is employed. She is a homely girl about twenty-three years old and had twice rejected Hetherington. Her injuries will not prove serious.

ONE NIGHT IN ST. LOUIS.

Negroes Use Lead and Steel With Fatal Effect.

ST. LOUIS, March 2.—William Fennison, colored, was fatally shot at 1 o'clock this morning by an unknown negro in a row over a white woman whose affections each claimed. At the same time and near the same neighborhood James Kenrick was fatally stabbed in the abdomen by Harry Coffey as a result of a row over an old grudge. Both are colored.

GOING TOWARD THE GALLOWES.

Montana Horse Thief Identified as New Orleans Murderer.

ST. PAUL, March 2.—Gus Albers of New Orleans, who murdered Mrs. Louise Wyman in that city on November 4, 1889, and was arrested February 18 last for horse stealing near Butte, Mont., and a week later identified as the New Orleans murderer, passed through this city today in charge of two New Orleans detectives.

Roanoke Has Been Repaired.

MILWAUKEE, March 2.—The damage recently sustained by the steamer Roanoke at Grand Haven has been fully repaired and she is taking on a cargo of flour today.

Forecast of the Weather.

WASHINGTON, March 2.—8 p. m.—The weather bureau reports the following as its forecast for the next 24 hours: For upper Michigan: Light snows; winds shifting to northwest; colder.

MARQUETTE, MICH., MARCH 3. Registered as second-class of the POSTAL OFFICE at Marquette, Mich.

JUDICIAL CONVENTION.

A Democratic convention for the Twenty-fifth judicial circuit of Michigan is being called to meet in the city of Escanaba on Friday, the 10th day of March, 1893.

The several counties in the district will be entitled to representation as follows, being one delegate for every 500 votes, or majority thereof, cast for governor at the last election.

By order of the judicial committee. G. L. STURGEON, Chairman. Dated February 28, 1893.

JUDICIAL CONVENTION.

A Democratic convention for the Twenty-fifth judicial circuit of Michigan is being called to meet at the parlors of the New Lexington Hotel in the city of Escanaba on Friday, the 10th day of March, 1893.

The several counties in the circuit will be entitled to representation as follows, being one delegate for every 500 votes or majority thereof cast for governor at the last election.

By order of the judicial committee. R. C. FLANNERY, Chairman. Dated Feb. 28, 1893.

"AN AWAKENING or a wake," is what they must have at Escanaba, according to the Iron Post of that city.

Edwin Wilson has re-christened his paper, heretofore known as The Torch Lake Times, the new name given it being The Native Copper Times.

The Democratic nominee for justice of the supreme court is Hon. Geo. H. Denard of Flint, who was appointed to succeed Judge Morse when the latter resigned from the supreme bench last fall.

In Hancock county there has been a case of a Michigan Democrat if a Democrat is bound to get it, especially when that Democrat is as good a man as Judge Morse.

TIM NESTER was at the Democratic state convention as a delegate from this county and did service as a member of the committee on resolutions.

It may strengthen the confidence of some distrustful souls in the permanency of free institutions in this country to learn that Governor Cleave is not to be driven from the capital to the White House after the inauguration ceremonies.

The Saginaw Courier-Herald says that "organized labor throughout the state is bitterly opposed to the appointment of H. H. Apin of West Bay City, for commissioner of labor."

that the governor will consider Mr. Apin as a possibility in connection with the place. Well, we should hope not, particularly since there are in the party scores of better men than "Tip" Apin for that or any other office in the governor's gift.

In this issue of THE MINING JOURNAL will be found calls for Republican and Democratic judicial conventions for this, the 25th, judicial district.

It is now stated that President Cleveland has become convinced that there is no need for a special session of congress and that it will not be called.

WINONSKEN'S World's Fair commission is in a "frame of mind" in consequence of the decision of the joint committee of the legislature of that state on the appropriation asked for by the commission to enable it to make a suitable exhibit at the Columbian exposition.

The Biggest Panorama in the World. Within a few days there will arrive in New York for shipment to Chicago a painting valued at \$300,000 and of such huge dimensions that two freight cars will be required to bring it to this city.

When it reaches New York special rigging will have to be employed to take it from the vessel. The roll of canvas being 60 feet long, two freight cars provided with a device for turning short curves will be used for its transportation.

The Paris entomologist whose collection of insects attracted so much attention at the Paris exposition of 1889 is preparing an insect landscape for our World's fair.

Heavy Damages For a Demolished Nose. A jury in the circuit court has placed a definite value on a handsome nose in a verdict rendered in a case which has been in the courts for four years.

Picture Made of Insects. The Paris entomologist whose collection of insects attracted so much attention at the Paris exposition of 1889 is preparing an insect landscape for our World's fair.

Quick Decision. The London chamber of arbitration appears to be well established and working successfully along the lines laid down by its founders.

Government chemist writes: I have carefully analyzed your "Royal Ruby Port Wine," brought by me in the open market, and certify that I found the same absolute.

Indifference, Dismiss. Take BARNUM'S PAINS.

Agent Ayer thinks it probable that this amount will be equaled during the present fiscal year. The report says that the Temescal tin mine in Southern California and the Harney Peak mine in South Dakota have suspended operations.

TO A STOLEN PORTRAIT. As you gaze from my library table, Old manuscript, active and loquacious, To my easy chair you should be seated, To my study you should be seated.

Little Colonel. I had watched him every day for weeks. He always stood in the shadow of the American express office on Market street, and his poor little hunchback was so pitiful.

Some few used to buy from him; others more often would give him a nickel or a dime and let him keep his goods. To each and every purchaser he would say, "Thank you very much, and I hope I can keep my place on my back, 'cause if I don't, what can I get for you?"

After this I never passed without receiving a salute from the little colonel, and sometimes when out with a friend I was enabled to introduce a new customer to him.

Wonderful Little Padlock and Chain. In a curious old book entitled "The Wonders and Curiosities of London," there are the following particulars concerning a minute padlock.

Turkey Buzzards in the South. The turkey buzzards that are to be seen in New Jersey and that appear to be working their way northward in considerable numbers have changed, or rather extended, their habitat within recent years.

Removing Tumors Early. It is generally known among intelligent people that great numbers of innocent tumors sooner or later become malignant, and that malignant tumors often simulate benign tumors and remain quiescent for a great while.

Prof. Niel. Government chemist writes: I have carefully analyzed your "Royal Ruby Port Wine," brought by me in the open market, and certify that I found the same absolute.

Indifference, Dismiss. Take BARNUM'S PAINS.

NEGAUNEE NEWS NOTES.

School Board Held a Business Meeting Wednesday Evening.

Church and Sunday School Excursion—More Patrons for the Gas Company.

SCHOOL BOARD MEETING.

The Negaunee school board held a meeting Wednesday evening and considered quite a list of important business.

It was also resolved to suspend any pupil who is absent from school for five days in a term, without satisfactory excuse, for the remainder of the term.

The insurance on the High School building, which is \$25,000, having expired, it was voted to renew it and to divide the amount among three different companies.

A motion prevailed authorizing the directors to ask for bids for repairing the ventilating flues in the High school, as some of the flues now in use are defective.

The Easter vacation this year will be from March 24 to April 3, one week.

Went to Ishpeming. A number of the Palmer M. E. church congregation and members of the Sunday school went to Ishpeming Saturday evening last and paid a visit to their pastor, Rev. Henry Hosking.

Work solicited in any part of the country. Satisfaction guaranteed. Write for estimates and designs to 322 West Ohio street.

LOCAL LAONICS. A son was born yesterday to Mr. and Mrs. John Manning.

E. Lebeau has gone to Marquette, where he will work at his trade, that of blacksmith, in the South Shore shops.

J. L. McClear arrived home yesterday morning from Detroit where he had been as a delegate to the Democratic state convention.

C. L. Lawton, agent and superintendent of the Platt mine, left for the lower part of the state yesterday, to be absent a few days.

A force of men was kept busy all yesterday cleaning the snow off the street car line between Negaunee and Ishpeming. The cars will be running again today.

The Negaunee Snow Shoe club enjoyed a tramp last night. The turnout was large and the lunch served after tramp was appreciated by the participants.

Captain Wm. J. Officer, formerly of Tracy, Minn., but now of the Mesabara range, was in Negaunee yesterday. Mr. Officer has charge of one of the new mines on the Mesabara.

John Strabauer received a telegram Wednesday from a town in the lower peninsula announcing the serious illness of his father, Mr. Strabauer, who here on the evening train.

Parties desiring reserved seats for the Bryans Theatre company's performance at Ishpeming next Monday evening, or any other night next week, can procure the same by telephoning Tillson's drug store.

Joseph is the first name of the new captain of the Swaney mine. His christian name was unintentionally omitted in the item relative to his appointment to that position that appeared in yesterday's paper.

A number of Negauneeites received an invitation from their Palmer friends yesterday to join them tonight in a snuff shoe tramp. The invitation has been accepted and the Negaunee tramps will be met half way between here and Palmer by the Palmer snow shoists. A good time will certainly be had.

A horse belonging to Sam Oar, who runs a stage between Negaunee and Cascade, died on Tuesday. Mr. Oar drove a load of Cascade people to the funeral of James Conners, which was held that morning in Negaunee, and as he was returning home the horse dropped dead in the road.

IN MEMORIAM. At a regular meeting of Republic Hearts of Oak lodge No. 351, the following preamble and resolutions were passed:

Resolved, That the sympathy of this lodge be conveyed to his sorrowing widow and family, committing them to the kindly consolations of him who hath promised to be a father to the fatherless and a husband to the widow.

Resolved, That the name and date of his decease be placed upon the memorial tablet of this lodge and that the charter be draped in mourning for the period of ninety days.

and family and also a copy be forwarded to THE MINING JOURNAL for publication. Committee: PETER W. PASCOE, EDWARD TUCKER.

Great God alarm our every mind In this sad scene of woe, That may our souls henceforth be Thine Whilst through this world we go.

Death like a tyrant sweeps our land And visits every shore, Husbands and wives are torn away And children are no more.

Thus in the mine on Friday night, Three miners brave and true Descended low their bread to earn As they were wont to do.

While they pursued their arduous task The precious ore to find, So little thought that one must die, The others left behind.

The hour of midnight drawing near And everything seem'd well, The rocks did make a sudden move And on poor Joe they fell.

His partners they were working near But did not get a blow, The guiding hand of Providence Had said it should be so.

No mortal tongue can here describe The pain those boys felt, To see their brother thus entomb'd His life fast ebbing out.

New who can say in that dread hour He had not mercy found In answer to his silent prayer That went before the Throne.

Prayer has prevailed in ages past And brought the blessings down, The Patriarchs and Prophets too, Always an answer found.

His body in the grave is laid To moulder and decay, Till called by the trumpet's blast Upon the Judgment Day.

A family he has left behind With neither one to earn, The head and their support is gone For whom they long may mourn.

A mother with her four babes Must battle on through life, And may God guide them safely through All care and toil and strife.

Brethren, the storms of life being o'er And we too come to die, O may it be our happy lot To meet beyond the sky.

A Sliding Experience. The story comes up from below the city about a man who attempted to cross the Androscoquin on the ice and was swamped, together with his team.

As the water was up on the face of the ice he first thought to put off hauling it, but the thought that perhaps there would not be another chance to haul it made him go across.

When he looked back the top of the wood and the shafts could be seen sticking out of the hole in the ice. The water was not deep. He says that he would rather lose the wood than go near the hole again. It is frozen in now.—Lewiston Journal.

A Living Japanese Salamander. Thomas S. Hill, the young naturalist of Knoxville, Ia., who is spending the winter at Faso de Tont, Tex., has recently come into possession of a rare curiosity—a Japanese salamander—the gift of a friend who is now "doing" the orient.

It is exactly 3 feet and 9 inches in length, has four legs, like an alligator, and a very extensive caudal appendage. The head is broad and flat, very "snaky" in appearance; the eyes so small as to be hardly discernible. In color the creature is a muddy, dark brown above, and lighter underneath. The entire skin is covered with "warts," or excrescences like those on a toad. When pressed upon these warts exude a viscid, acrid fluid, which is probably its only means of defense.—St. Louis Republic.

A Noble Endowment. By the death of Mrs. John C. Gammon, of Batavia, Ills., the Gammon School of Theology, a Methodist seminary for negro students at Atlanta, comes into possession of \$750,000. Mr. Gammon founded the school some years ago with a gift of \$350,000, and the last will makes it one of the best endowed institutions in the south.—Springfield (Mass.) Union.

An Abundance of Fingers and Toes. There was born on New Year's morning to Mr. and Mrs. J. P. Norton, of Wyandotte county, Kan., a baby. Each hand of this baby is provided with six fingers and each foot has six toes. All the fingers and toes are fully developed and perfect, so that it is impossible to tell which are the extra fingers and toes.—Kansas City Letter.

Over \$500,000 was bequeathed to the poor of Boston by the late E. V. Ashton of that city, but the money has only just become available through the death of his childless widow at Cambridge Wells, England.

Keep out the cold by using Jos. Quinn & Co.'s underwear.

Secure an overcoat now while we have all the sizes. We are offering extra values.

Coughing Leads to Consumption. Kemp's Balsam stops the cough at once.

HUMPHREYS' This Precious Ointment is the triumph of Scientific Medicine.

Nothing has ever been produced to equal or compare with it as a CURATIVE and HEALING APPLICATION. It has been used 40 years and always affords relief and always gives satisfaction.

Cures PILES or HEMORRHOIDS—External or Internal, Blind or Bleeding—Itching and Burning; Cracks or Fissures; Fistula in Ano; Worms of the Rectum. The relief is immediate—the cure certain.

WITCH HAZEL OIL Cures Burns, Scalds and Ulceration and Contraction from Burns. The relief is instant.

Cures Boils, Hot Tumors, Ulcers, Fistulas, Old Sores, Itching Eruptions, Scanty or Scald Head. It is infallible.

Cures INFLAMED or CAKED BREASTS and Sore Nipples. It is infallible. Price, 50 Cents. Trial size, 25 Cents.

THE PILE OINTMENT

Looking Better feeling better—better in every way. Tired more consolation in that than will people stop to ponder. To get back health and spirits is every thing.

Scott's Emulsion Cures Croup, Whooping Cough, Sore Throat, Bronchitis, Asthma, Hay Fever, etc.

PROOF ALREADY, For the Doubting. Having been here long enough to perform what over thirty persons choose to call miraculous cures we are pleased to be able to state that we can refer you to these persons.

IN FIVE WEEKS we have placed 123 PEOPLE under treatment and every person is satisfied.

ELECTRICITY AND MEDICINES. We have secured 133 Patents on Electrical Devices, so that our treatments cannot be had elsewhere.

CHAS. JOHNSON, WHOLESALE AGENT, Iron St., Negaunee, Mich. 2-23-11

VIRGINIA, MINN.

Is the most centrally situated town on the great Mesaba iron range. It has a great natural location, sloping gradually from the mines to the shore of two beautiful little lakes and surrounded by charming scenery.

The Duluth, Mesaba & Northern has reached the place and building is going on at a lively rate. The townsite surrounded by one of the best groups of mines on the range, mines capable of producing anywhere from 1,000,000 to 2,500,000 tons of ore annually.

The surrounding country is well timbered, pine predominating. A saw mill is now operating and a large one is about to be erected, the lakes affording excellent boommage. The village has a system of water works, a bank, feed stable, several stores, saloons, restaurants and hotels.

A post-office and newspaper is now established, the latter by Dr. Fred Barrett. Virginia is destined to have a population of at least 5,000 and people seeking new locations would do well to look it over.

For further information write to

Kennedy & Gleason, VIRGINIA, MINN. 2-2-11

MRS. ALLEN'S PARISIAN Face Bleach. GOLDEN HAIR WASH, COLLAGINE, FACE MASSAGE CREAM, FRICKLE PASTE, CUCUMBER CREAM, KISSING POWDER, etc.

RUSHING THROUGH BILLS.

Both House and Senate Holding Night Sessions to Finish Their Work.

ABOUT AN EVEN CHANGE ON GETTING THROUGH

Speaker Crisp Has Much Trouble to Preserve Even the Simblance of Order in the House.

REGULAR QUADRIENNIAL RUSH.

WASHINGTON, March 2.—The sundry civil appropriation bill consumed the time of the house today. There was a fight over the New York custom house provision and over the World's Columbian exposition amendment.

Mr. Carey defended the amendment and replied to Mr. Vest's argument. The debate was continued by Messrs. Dabois, Peffer and Teller.

INDIAN WARS.

Mr. Sherman said that such a large claim, involving half a million dollars should come from a committee and made a point of order against it.

Cures Others

Will cure you, is a true statement of the action of AYER'S Sarsaparilla, when taken for diseases originating in impure blood; but, while this assertion is true of AYER'S Sarsaparilla, as thousands can attest, it cannot be truthfully applied to other preparations, which unprincipled dealers will recommend, and try to impose upon you, as 'just as good as Ayer's.' Take Ayer's Sarsaparilla and Ayer's only, if you need a blood-purifier and would be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equaled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

AYER'S Sarsaparilla

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilla. I was afflicted with kidney troubles for about six months, suffering greatly with pain in the small of my back. In addition to this, my body was covered with pimply eruptions. The remedies prescribed failed to help me. I then began to take AYER'S Sarsaparilla, and, in a short time, the pains ceased and the pimples disappeared. I advise every young man or woman, in case of sickness resulting from impure blood, no matter how long standing the case may be, to take AYER'S Sarsaparilla."—H. L. JARMAN, 23 William St., New York City.

Will Cure You

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

REPORTORIAL PENICILLINGS

Born, yesterday afternoon, to Mr. and Mrs. Samuel E. Byrne, a daughter.

Timber is beginning to arrive from Crystal Lake for the new breakwater cribs.

Mr. Charles E. Spencer has moved into the residence on Pine street recently vacated by E. L. Peck.

On Saturday night Glick will walk an hour at the Casino in the effort to break the record for that time.

"Sheriff Collins" of Dickinson county is now serving a ninety-day term in Marquette prison according to the delectable Mr. Sweeney, the pony-exploiter of its Timeslets.

Snooze—"How does the captain of the Mudsow keep warm this cold weather?"

Booze—"He crawls under his mortgages. Paper makes the warmest kind of cover."

The call for the Republican judicial convention is published in THE MINING JOURNAL this morning—likewise the call for the Democratic judicial convention. The discredited band organ on Superior street please copy—the latter.

There will be a hop at Fraternity Hall tonight with music by the full orchestra, inaugurating the new term of Professor Hughes' dancing class. A cordial invitation to be present is extended to the dancing men of the city and their lady friends.

Powell & Mitchell are dumping about eighty cords of rock per day off the end of the breakwater to form the foundation for the new cribs. The rock is dumped through holes cut in the ice on each side of the heavy timbered road laid out on the ice from the end of the present structure.

John E. Thomas is preparing to open a shoe shop in the basement of the Nester block where he will do all kinds of repairing. He is a practical workman who always gives satisfaction and in his determination to start in business for himself he is deserving of the encouragement of the public at large.

Tonight Cartwright, the famous pedestrian and runner, will run five miles at the Casino against five men, encountering a fresh competitor with each mile of the five. The relay race cannot fail to prove very interesting and in spite of the odds against him it's a pretty safe bet that old leatherlegs is ahead at the finish.

Joseph Wall, representing the Wisconsin-Michigan World's Fair Co. of Chicago, a company composed of Marinette and Menominee capitalists, is at the New Clifton. The company has erected a 500-room hotel on Seventy-third street near Stony Island avenue, Chicago, especially for upper peninsula visitors to the World's Fair.

If the ostensible proprietors of the mortgage-plastered Superior street Mudsow had put a dollar into the sand brick enterprise, or into any other enterprise intended in good faith to build up Marquette, that gutter-snipe would have less to say on the subject. The Marquette Sand Brick company has not asked for a receiver and is not insolvent. Its resources much exceed its liabilities and the men who know most about it are confident of the ultimate success of the enterprise.

PERSONAL MENTION.

Leo M. Geismar of Ewen is in town.

Carl Peterson of Republic was a Marquette visitor yesterday.

T. F. Donahoe and H. F. Heyn were down from Ishpeming yesterday.

W. E. Tyler of the C. M. & St. P. and the M. & N. was in the city yesterday.

Mr. N. A. Metz, of Duquette & Metz, leaves for Chicago Sunday to purchase his spring stock of goods.

Dr. A. Desjardins and LeRoy W. Midland arrived home yesterday from the Democratic state convention at Detroit.

Messrs. Fletcher of the Norwich Union, and Raymond of the Connecticut, were among the fire insurance men in the city yesterday.

Miss Bessie Brandon, of Mt. Pleasant, Mich., arrived in the city yesterday and will be the guest of her brother, Mr. W. C. Brandon of THE MINING JOURNAL, for a few days, when she will leave for West Superior to visit a sister.

Superintendent J. B. Montgomery and Superintendent F. D. Davis, of the county board of school examiners, were down yesterday to conduct the regular March examination. About a dozen were present for the first day.

Amid the Snow Drifts.

To THE MINING JOURNAL.—I note by this morning's paper that the Ne-graunce & Ishpeming Electric Ry. company is making heroic efforts to open its road and hopes to accomplish that purpose tomorrow after having been blockaded with snow since the 27th of last month.

How handy it would be for the public if the court house were located midway between these two towns as proposed.

On Yes. MARQUETTE, March 2, 1893.

TALKS FROM THE SHOULDER.

Gillies is Anxious to Meet Pellier on Rollers Once More.

To THE MINING JOURNAL.—I see by the Mining Journal that F. X. Pellier is posing in Marquette county as the champion roller skater of the upper peninsula. I would like to know by what right he claims that title, for if he will let his memory carry him back about a year he very likely will remember a race he had with the undersized Calumet in which he came off second best. Now this Alexander the Great on wheels need not go as far as Milwaukee to find new worlds to conquer, for I would be glad to favor him with another race at anytime or place—Marquette preferred—that is if he has any money to make his boast of championhood. I will skate him for from \$50 up. He can name the up figure, and I will gladly cover the amount. Should I secure a race with Pellier I would also like to make a race with some ice skater for the night following, race to take place at Ishpeming.

Yours etc., NEIL M. GILLIES, Champion Roller Skater U. P. LAKE LINDEN, March 2, 1893.

Mens fine shoe a greatly reduced price at G. Hallstrom & Co.'s shoe department.

MAKING LACE PAPER.

MINNEAPOLIS HAS THE ONLY FACTORY OF THE KIND HERE.

How a New Industry in Which Germany Excels Came to Be Established in This Country—As Yet It Is in Its Infancy. Nice Work For Women.

Minneapolis can claim a monopoly in at least one industry. There is none like it in the country. Germany is the nearest competitor. The lace paper factory here is the only one in the country. How the industry came to be established here and the development of certain possibilities in regard to it make quite an original story.

A certain business man tolerably well known in Minneapolis once upon a time loaned some money and material to a Russian immigrant who was trying to start a greenhouse in St. Paul. The florist was very grateful for the help, but at the end of six months had not repaid any of the loan. The business man hunted him up and inquired wherefore this negligence. The florist explained his difficulties at some length, and sorrowfully averred that in addition to other burdens he had to support his brother.

"Why doesn't your brother go to work?"

"Pardon, sir. He is honest and industrious, but can find no work at his trade."

"What trade can that be?"

"He is a lace paper maker and there are no factories of that sort here, and he has no chance at other trades where he has no skill."

An interview with the paper maker revealed some interesting facts, and after some investigation several Minneapolis capitalists concluded to start a factory to evolve the dainty confections that modern ingenuity says may be made from paper. The industry is still so new that its present condition may be regarded as only an earnest of the future.

The fad for fancy lamp shades makes a special department which was not at first contemplated. Crape paper, velvet, in all the soft, dainty shades of silk. Women are especially good at this branch of the industry, as it requires patience and that peculiar "touch" which no man ever had, and the woman who possesses it is luckier than if she had beauty, though she never thinks so herself.

Now, this business of making lamp shades and flower pots and paper flowers and dolls is light, clean work and pays well if a woman has the bent for that kind of work.

The prettiest lamp shades I ever saw were being made at the factory. The tobacco leaf forms the latest model. Two contrasting shades of crape paper form the leaf. It is cut in the proper shape, and a delicate wire forms the mid rib of the leaf and makes the shade substantial enough to stand wear. Four long leaves and four shorter ones droop from a common center and make the daintiest shade imaginable. I saw a tiny one of this same pattern for an incandescent light. The red leaves were lined with pale yellow, and how the electric light did glow through the blended colors! A skillful workwoman can only construct four or five of these shades a day. Their price consequently doesn't exactly bring them within the reach of all, but they promise to largely take the place of silk and illusion. The operative earns from \$8 to \$10 a week in the shade department.

Lace paper for lining the edges of boxes really forms the important part of this industry. Look at a bit of this dainty paper and see how faithfully it reproduces every thread of the lace from which it is copied. When people are told that these delicate patterns are stamped from engraved metal plates, they are apt to look incredulous. Still that is the process.

For many years Germany has controlled this industry. The consular at Berlin in his last annual report states that 7,000,000 pounds of lace paper are exported annually to the United States.

One fine day good fortune befell the industry. A man came in and asked for employment. He was a designer and engraver of plates from Germany. He declined to give any information as to how he knew the factory was in Minneapolis or why he came. He simply said they could try his work, and if they were satisfied he would stay. He has remained ever since. I saw him several times and didn't wonder that there was some hesitancy about engaging him. He weighs about 325 pounds. The face is intelligent and refined, but the bushy beard and long hair, combined with the muscular frame, give the man the appearance of one used to vigorous manual labor. Appearances are deceptive in this case, for he is an artist as well as an engraver, and knows every detail of the business.

He first sketches the design on paper, then takes a block of lead composition, similar to that used for newspaper cuts, and draws the exact pattern with a sharp steel point. Then, with finely graded chisels, he hammers out every little detail so exact that the thinnest thread of the finest lace pattern is visible.

To see the workman hammering out an intricate pattern one would think it an endless task. It is not, however, nearly so tedious as it looks. This engraver will make a plate 20 inches long by 2 inches wide in four days. All the edges of the pattern have to be made in sharp relief instead of being cut into the plate, as in ordinary engraving. This has to be done so that the sharp edges will perforate the paper when the cylinder passes over the plate.

Lace paper has its styles just the same as the real article. The young lady who gets her daily box of bonbons from the confectioner wants the lace edged holder to be in the latest mode. She can also select torchon, valenciennes, spanish, guipure, breton or any other style in the paper just as she can in the thread.

Among the pretty imported notions is that of a coruconia with a deep lace edge and closed with dainty bows of satin ribbons. This is to hold matinee or theater allowance of candy and will probably be very popular.—Eva McDonald-Vaugh in Minneapolis Tribune.

The Fault of the Moon.

In a small Vermont town the street lamps, which are few and far between, are under the charge of one of the oldest residents of the place.

"Why in the world weren't the lamps lighted tonight, Mr. Jacobs?" inquired a summer resident, who had stumbled down to the postoffice one July evening in the pitchy darkness of a heavy rainstorm.

"They ain't ever lighted on moonlight nights," responded the old man calmly.

"That's the rule, an the moon full last night, an this is one of best nights in the hull month."

"Best nights," echoed the other in considerable irritation. "What good does the moon do in a pouring rain like this?"

"I can't help that," said Mr. Jacobs.

"According to the almanac, this is a moonshine night, an the lamps hev no call to be lit. I hev 'em on the almanac's a good thing to go by."

"Why," continued the old lamplighter, surveying his critic with suddenly awakened surprise and disgust, "where d'you s'pose I sh'd fetch up of I was t' go by the weather stid of the almanac? I persume t' say likely I might hev t' go my round ev'ry night for a month in dog days. I don't callate to hev no sech works as that! Ef the moon don't do her duty, it's unfort'nit, but it ain't any of my look-out."

The bystanders murmured assent, and the summer resident was silenced.—Youth's Companion.

Iowa's Wonderful Ice Cave.

One of the greatest curiosities in the Mississippi valley is a natural ice cave which is located in the bluffs of the Iowa river within less than a mile of Decorah, the county seat of Winnebesh county. This unique curiosity is indeed a natural icehouse—a cavern in which great icicles may be found at any season of the year, being especially fine in summer, when the weather is hot and dry outside. The bluff in which the cave is located is between 300 and 400 feet in height, it being necessary to climb about 75 feet up the side of the bluff to reach the mouth of the cave. The entrance is a fissure about 10 feet in width and between 15 and 20 feet in height, from which a constant current of cold air issues.

Thirty feet from the mouth of the cave the passage turns toward the left and downward, toward the river bed. The slope is very gradual, however, and the walls and the roof are within easy reach all the while. After you have reached a spot 100 feet from the opening you entered, it is noticed that the walls and roof are covered with frost. Twenty feet farther a thin coating of ice is noticed, which increases in thickness as you go into the bluff.—St. Louis Republic.

FOR SALE

THE TUG ROSE

This tug is in first class shape and will be sold at a bargain. The owners reason for selling is that the tug is too small for his use. For further particulars apply to JOHN PARKER. (2-2-11)

ISHPEMING SENTIMENT.

An Expression of it in Favor of a Normal School for This Peninsula.

OFF ON A TRAMPING EXCURSION TO THE CAMPS.

Wood Train Ditched-World's Fair Quarters-Ice Rink Masquerade Again in Business.

FOR THE NORMAL SCHOOL.

At a meeting of the school board of Ishpeming held Tuesday evening the following resolution was adopted, a copy of which will be sent to our representatives in the legislature:

Resolved, That we are thoroughly convinced of the necessity for a normal school at some point on the upper peninsula of Michigan. We therefore most respectfully and earnestly ask the legislature of this state now in session to pass the bill now before that body making such provision; and we respectfully ask our representatives in the legislature, Hon. John Jones and Hon. Peter Pascoe, to use all legitimate means to secure that result.

Took a Day Off.

Messrs. John Connors, E. J. Gunville and J. R. Pearce took a day off yesterday and went to one of Channing's camps between Republic and Iron Mountain. They planned on leaving here at 7 o'clock a. m. over the C. & N. W. road but for some reason the train did not leave at that hour.

Wisconsin-Michigan Hotel.

Joseph Wall of Menominee, arrived in Ishpeming yesterday and will remain here for a few days laboring in the interest of the Wisconsin-Michigan Hotel, which is being built within six blocks of the World's Fair's main entrance at Chicago. The hotel is being erected by capitalists of Menominee and Marinette and will be held for the exclusive accommodation of Michigan and Wisconsin visitors to the fair.

Masquerade Party.

On Thursday evening next, March 9th, a masquerade party will be given at the Cleveland Avenue ice rink. Cash prizes will be given as follows: Best dressed lady and gent, \$2 each; best character lady and gent, \$2 each; best comic lady and gent, \$1.50 each; best comic boy and girl, \$1 each.

Resumes Business.

Harry Torrance of the late firm of Torrance & Conway, whose stock of goods were sold to Field, Benedict & Co. Wednesday to satisfy a chattel mortgage, purchased the goods from Field, Benedict & Co. and opened up business at the old stand in the Anderson block yesterday.

Ditched the Wood.

Yesterday morning as a train of box and flat cars, some of which were loaded with wood, was being taken from the Lake Superior mine over the C. & N. W. road, the rails spread directly opposite the Excelsior furnace and three of the loaded cars left the track and toppled over into the ditch.

Went After the Nag.

Dr. Kean of the Ishpeming hospital staff got caught in the storm Tuesday a short distance from the Saginaw location about four miles from Ishpeming and his horse was unable to get through to town.

Get out one of these fine days and take a walk down Main street, and call into Cahoon's and buy a pair of shoes while the sale is on.

LOOK AT THIS.

On and after today F. Braastad & Co. will sell Pillsbury's Best XXXX flour at \$4.90 per bbl., Washburn Crosby's Co.'s Best, \$4.90 per bbl.; Wisconsin Patent (Island City) wholesale, \$4.00; retail, \$4.25 per bbl. Rye Graham, \$4.00 per bbl.

Within the next thirty days the entire stock of boots and shoes that were formerly owned by Cahoon must be sold.

Lane's Medicine Moves the Bowels Each Day.

ISHPEMING IN BRIEF.

Tom Bennett is on the sick list. Sam Blumentahl is confined to home by sickness.

F. Braastad & Co. are making a special run on white goods these days. W. F. Swift went to Bessemer on business last night. He will return today or tomorrow.

"Tesh" Harrington left for St. Paul yesterday on a two weeks' visit to relatives and friends.

E. Givrold has been awarded the contract for remodeling and improving N. E. Skud's residence.

The street cars will be put in motion again today, the track having been cleared of snow yesterday.

Chas. Richards of Marquette has taken charge of the South Shore road's baggage department in this city.

Hugh Tillson, who sprained his ankle while ski riding a few weeks ago, is able to be out again with the aid of crutches.

Miss Annie Penglase of Negaunee, who has been visiting Mrs. James Tucker the past week, returned home yesterday.

There will be a meeting of the Clerks' association at the Sons of St. George Hall tonight. Members are requested to be present.

Thomas Hayes, a miner at the Winthrop, got his hand caught in a dumpcart door Wednesday and lost the end of his middle finger.

John T. Miners and Miss Crissie Trenbeth were united in marriage last evening by Rev. Mr. Joslyn, pastor of the Division street Methodist church.

Lempi Maria, the twenty months' old daughter of Mrs. John Malin, died of an attack of cramps Wednesday and was buried yesterday afternoon at 2 o'clock.

Mike Carey's saloon fixtures, etc., were sold at public auction yesterday and were purchased by W. C. Uren, who held a chattel mortgage on the outfit for \$700.

Alfred Anderson, tinsmith at Jochim's, has six children down with scarlet fever. Mr. and Mrs. Anderson certainly have their hands full attending the little ones.

Clinton B. Fisk Social Temple gave an entertainment at the Temple of Honor Hall last evening. A special invitation was given the members of the Temple and Juvenile Temple lodges to attend.

In another column of today's paper can be found pointers on the sale of goods formerly owned by F. E. Cahoon. The sale is attracting a great many buyers because of the low prices at which the goods are being sold.

The Uniform Rank Sons of St. George will hold a meeting at Sons of St. George Hall tonight, when four new members will be initiated.

The remains of Mrs. Owen Ryan, who died at Denver, Colo., about a year ago, reached here yesterday and will be given interment in the Ishpeming cemetery this afternoon. About three years ago Mrs. Ryan left Ishpeming for Denver, where she went to reside with her two sons, John and Martin, her husband remaining here. Martin accompanied his mother's remains from Denver.

STATE OF OHIO, CITY OF TOLEDO, LEAS COVEY.

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of one hundred dollars for each and every case of catarrh that cannot be cured by the use of Hall's catarrh cure.

FRANK J. CHENEY, sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1892.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.

If you want shoes at a bargain go to Robbins' block, Main street, where the stock formerly owned by F. E. Cahoon is being sold at a sacrifice.

I feel it my duty to say a few words in regard to Ely's Cream Balm, and I do so entirely without solicitation. I have used more or less half a year and have found it to be most admirable. I have suffered from catarrh of the worst kind ever since I was a little boy and I never hoped for cure, but Cream Balm seems to do even that.

It will cost you nothing to drop into Cahoon's and learn the low prices at which that stock is being sold. The goods must be disposed off quickly at some price. 33-4d

CHEAP RATES TO THE INAUGURATION.

For the inauguration of Cleveland and Stevenson at Washington on March 4th, excursion tickets, reducing via Baltimore and Ohio Railroad, "The Pictorial Route," will be placed on sale at the ticket offices of principal railroads of the west, as well as at the ticket offices of the Baltimore and Ohio company. The fare from Chicago will be \$17.50 for the round trip. These tickets will be sold from February 25th to March 3rd inclusive, and will be valid for return journey until March 8th inclusive.

The Baltimore and Ohio is the shortest route to Washington from nearly all points West. Its trains are vestibuled from end to end, and carry Pullman sleeping cars.

No railroad in America is better equipped than the B. & O. to transport with dispatch, safety, and comfort the large crowd which will visit Washington to witness the inauguration ceremonies. Its long experience in transporting crowds to former inaugurations, G. A. R. Encampments, Knights Templar Conclaves, and similar gatherings, on an extensive scale, will prove most valuable in arranging for the coming inauguration.

For more detailed information as to rates, time of train, etc., apply to L. S. Allen, Asst. Gen'l Passenger Agent, The Rockery, Chicago, or O. P. McGarry, Asst. Gen'l Passenger Agent, Cincinnati, O. (2-15-7c cod)

Lane's Medicine Moves the Bowels Each Day. In order to be healthy this is necessary.

Cleaned Out the Cobwebs.

We have just finished our Annual Inventory, which has brought the most flattering results. We have cleaned out the cob-webs, as it were from our stores and are now prepared to meet all competitors, whether great or small, as regards low prices, quality of goods or otherwise. We mean to maintain our former reputation as leaders in our lines. Our stock of fancy groceries, of which we make a specialty, cannot be surpassed by any concern in the county. Look to us for "way down" prices. We are "in it" ever and always.

ALL COVERED WITH SNOW.

Traffic Stopped for Nearly Three Days Between Calumet and Portage Lake.

HECLA & TORCH LAKE ONLY ROAD THAT KEPT OPEN.

Railroad Men Worked Both Day and Night and Raised the Great Blockade Thursday Afternoon.

ALL communications for copper country depertment intended for publication should be addressed to A. F. Fisher, Houghton.

CALUMET. The copper country railroads are again open for business. Too much praise cannot be given to the entire forces of the Mineral Range and Hancock & Calumet railroads.

On the same evening the Mineral Range road was blocked from Oscoda to Hancock, a distance of ten miles. At Skunk Hollow, near the Franklin, and at the highway and Oscoda drifts to twenty feet high were abundant and continuous.

Sixteen locomotives and 300 extra snow shovellers were at work. They worked all day, all night and all day again.

At 2 o'clock yesterday afternoon the reporter was aboard the first train that made the run to the mills from Oscoda. Superintendent W. E. Parnall of the Tamarack was on board.

The train was running over 30 miles an hour when she struck the drift. The glass in the cab was broken and Brake-man Murphy got four or five cuts on his face from it.

The Mineral Range reached Hancock at 2:30 o'clock. Engineer Shuler stood at his post all Wednesday, all Wednesday night and Thursday morning until relieved. Conductor Fred Leaman and his men staid right with him.

Not an accident of a serious nature occurred. Engine "Superior" while ahead of No. 6 Tuesday, jumped the track at the Oscoda and went ten feet clear of the rails so that by pushing the rear end of the tender a little the track was clear for other engines.

Superintendent John Duncan and the Calumet & Hecla company will ever be remembered for other engines. Transfer sent about a hundred fifty men with shovels under the guidance of experienced foremen to help raise the blockade.

The council room was filled yesterday afternoon with bidders on the sewer system contract. There were about a dozen bidders and the difference between the highest and lowest figures was about \$9,000.

Editor Wilson has changed the name of his paper from "The Torch Lake Times" to "The Native Copper Times."

Joseph Striager and Hugh Johnston came yesterday from Finn's lumber camp, six miles from the Cliff mine.

The passenger train on the Hancock & Calumet made a trip to Hancock on Tuesday morning but had to abandon its 11:30 a. m. and 5 p. m. trips on account of the storm.

The Brown Theatre company had hard luck as far as weather was concerned during their stay in the copper country but considering that this is the Lenten season when a great many persons do not attend amusements they have had very good houses and those present were well pleased with the company.

About twenty traveling men bound for Calumet reached here yesterday via the Hancock & Calumet and drove up with two teams.

HANCOCK.

J. C. Thomson, formerly agent of the Lake Superior Transit company's boats, will this year represent the Western Transit company and Anchor line with his office in this city as heretofore.

Hans Busch is busily engaged painting some new scenery for the Browne Theatre company.

The Franklin mine suspended operations for a half day on Tuesday, it being impossible for the teams to get wood to the boiler houses.

The funeral of Mrs. Conitte of the Franklin mine location was held from St. Joseph's church Wednesday morning. The interment took place in Forest Hill cemetery, Houghton.

Dr. J. E. Seaton reached home yesterday from Detroit where he had been attending the Democratic state convention.

Thomas D. Roberts arrived home yesterday noon from Baltimore on a visit to his parents, Mr. and Mrs. W. H. Roberts.

Charles Heise has changed the name of his hotel from "Lake View House" to "German House."

The revival meetings held at the Congregational church this week are largely attended both afternoon and evening.

The Calumet mail has been going there by way of Lake Linden and from the latter place by stage to its destination.

Another caucus was held at Fire Engine Hall Wednesday afternoon. It endorsed Hoar for president and Croze and Strobel for trustees.

Dr. W. S. Whisler was snowbound here on his way home from Marquette and did not get to Calumet till yesterday.

Rev. N. H. Martin of Christ church, Calumet, will preach in Trinity church this evening. In the same church the Ven. Archdeacon Williams of Marquette will preach both morning and evening next Sunday.

It took three men with block and tackle to get the bus back on the runners again. It is now making regular trips.

Captain E. F. Douglass and Charles A. Maygreen arrived home Wednesday afternoon from Chicago where they had been to buy scenery, etc., for the Army.

Several packages on their way to Red Jacket camped in the Mineral Range depot for a couple of days.

Do not fail to register tomorrow.

STOOD THE TEST. Alcock's Porous Plasters are unapproachable in curative properties, rapidity of action, and are the only reliable plasters ever produced.

Be aware of imitations, and do not be deceived by misrepresentation. Ask for Alcock's and let no solicitation or explanation induce you to accept a substitute.

THE POPULAR ROUTE TO CHICAGO. The Chicago & Northwestern railway is now running a daily line of gas lighted buffet sleeping cars between Northern Michigan points and Milwaukee and Chicago.

MICHIGAN'S MINING EXHIBIT.

Upper Peninsula Mineral Wealth
Given a Superb Frame at the Exposition.

PORTAGE ENTRY SANDSTONE USED IN ITS CONSTRUCTION.

Charlton & Gilbert's Plans Provide Unique and Beautiful Features for the Exhibit.

GIVEN THE PLACE OF HONOR.

D. Fred Charlton, of Charlton & Gilbert, arrived home yesterday morning from Chicago, bringing with him the plans adopted for the structure to contain the Michigan exhibit in the Mines and Mining building at the World's Fair. Michigan has been assigned the place of honor in the building and also the greatest number of square feet given to any state in that department of the fair. The Michigan section is at the intersection of the two principal avenues in the building and contains 3,038 square feet, the extreme dimensions being 62 by 49 feet. The plans for the utilization of this space were prepared by Charlton & Gilbert of this city and Superior and have been warmly praised by the officials in charge of the Mines and Mining building. The plans were prepared largely under the direction of Hon. Peter White of the Michigan commission who is in direct charge of the mineral exhibit of the state and were officially accepted by J. V. Skiff, chief of the mines and mining department.

The plan provides for a structure which will give the Michigan display a very unique and conspicuous setting. At the corner formed by the intersection of the two avenues mentioned will be the principal entrance to the Michigan section, a massive arch of Portage Entry redstone 25 feet high with an inside measurement of 14 feet and 8 feet clear in the opening. The top of the arch will support a group of statuary, life size, representing three miners at work. Near the top will be a broad panel bearing the name "Michigan" and surmounted by the coat of arms of the state while two medallions, inlaid with marble, and four shields will also ornament the front, several shields appearing within the arch. The style of architecture adopted is the Florentine and the arch will be very ornamental in all its details, the solid stone having elaborate cut moldings and carvings while handsome specimens of Michigan marble will be inserted in many places.

The arch is really the approach to a recessed vestibule with a dome possessing a very rich frieze showing cupids and gnomes playing at mining. The dome will be richly decorated but the most striking feature will be the stone work opposite the opening of the arch and forming the back of the vestibule, an opening on either side giving access to the main portion of the section. On this back the carving will be especially artistic, the central feature being a fountain with dolphins, etc., from which Michigan mineral waters will fall into a basin of solid rock. All the stone for the arch and vestibule will be furnished by the companies operating the Portage Entry quarries.

Flanking the arch on either side will be two obelisks of native marble or granite resting on pedestals, the base being of brownstone from the quarries of the Detroit & Marquette Brownstone company. The enclosing walls of the section on both sides will also be of brownstone furnished by the Detroit & Marquette Brownstone company. The panels will be of handsome native marble and the base of the walls as well as the caps will be richly carved. The walls will be 3 ft., 6 in. high and will end against stone piers 12 feet high, that being the height of the screen which will enclose the section on the inside end and side.

This screen will be constructed in staff, the material so largely used in the World's Fair buildings, and will be richly ornamented with moldings and capitals, the frieze being 3 feet in depth and painted with scenes at different upper peninsula mining locations in panoramic form.

Besides the entrance at the corner through the arch and vestibule there will be an opening on each side, giving two avenues which will divide the space in the section into quarters. At the intersection of these avenues will be a feature which in itself would attract great attention to the exhibit, this being a globe of finished copper 12 feet in diameter, the segments being fastened together on the lines of longitude and latitude and on the surface being drawn the continents, islands, seas, etc., which go to make up the surface of the planet on which Uncle Sam is already playing such a prominent part. Under this copper world there will be 10 feet of space, the globe being supported by regular sets of mining timbers which will serve to illustrate the methods employed in timbering the great mines of this peninsula.

At the right of the avenue dividing the section on the line of its shortest dimension will be two sub-sections devoted to copper and on the left three sub-sections for iron, one each for the Marquette, Gogebic and Menominee ranges, while in the divisions provided along the screen mentioned above will be cases which will all be filled with interesting and valuable collections.

To enable the floor to withstand the enormous weight of Michigan's mining exhibit it was found necessary to multiply many times the number of piers placed under it originally and the great arch will be sustained by cribs work.

Across the way from the Michigan section, or on the southwest corner of the two main avenues, will be the Missouri section while Great Britain will be directly across from Michigan in the other direction and Germany will be diagonally opposite.

Mr. Charlton was sick in bed all last week while in Chicago but nevertheless managed to let all the contracts so that the work might go right ahead, his sick room being turned into an office for the time being. As a result the work is already under way. F. A. Purdy, who did the stone carving on the Longyear residence in this city, will do all the modelling and stone carving; Young &

Farrell, the best known firm of stone cutters in Chicago, will do the stone cutting, and all the painting will be done by Sosman & Lanolis of Chicago, the celebrated scene painters who equipped the Marquette Opera House. Those in charge of this elaborate work for Michigan are very desirous of making a fine showing of the marbles and granites of the upper peninsula and all parties interested in such properties are requested to communicate with Mr. White or Mr. Charlton at once and state what they can do in the way of providing marbles or granites suitable for use in the structure described above.

A Full Blown Shipyard.
Captain Cleary of the Marquette life saving station is having a very busy winter. Having no crew to engage his attention during the winter months he has turned his attention to boat building and has a good sized fleet now ready for the water and the stocks are not yet clear. The flagship of the squadron is the crack little sail boat built by the captain last season for his own pleasure but a surf boat for the government and a steam launch for himself are among the additions built this winter while a 20-foot keel fishing boat for Anderson is now approaching completion. The steam launch is of about the same dimensions as the fishing boat and will be equipped with one of Thomas Kane & Co.'s famous launch engines, one-horse power and built to use either oil or coal as fuel. By the opening of navigation four new boats will be ready for the water and with both sail and steam craft at his disposal Commodore Cleary will be quite independent of the breeze department of the weather bureau.

A Day Nursery.
Mrs. J. M. Longyear will start a day nursery in the wing of the Everett house on the first of April, the object being to care for the children of working women during the hours when their mothers are engaged. Every working woman by paying five cents a day can have a child cared for, dinner and tea being given the children while their mothers are at work. Mrs. George Danson will be the matron of the nursery. Further particulars will be given later.

Y. M. C. A. Notes.
Mr. Eply will conduct the rehearsal of the chorus class tonight at 8 o'clock. Judge Brown's address before the young men next Sunday afternoon should attract a large crowd. Excellent music is promised. Cards will be circulated later announcing the particulars of the service.
Instructor Hoag's gymnasium class has about the regular number of attendants to say nothing of a dozen others who drop in occasionally. It is to be regretted that the rank and file of the business and professional men of the city do not find time for the delightful exercise which this class affords.

The rooms committee has shown excellent sense in the selection of periodicals to be placed on file during the coming year. The members will find in the parlor several attractive magazines which have never before been on the list.

J. J. Meehan,

112-WASHINGTON ST.-112

DR. SPEER & CO.
SPECIALISTS IN
NERVOUS AND CHRONIC DISEASES.

Main office at 146 Washington St. (Mining Journal building) Marquette, Mich. Branch office at Saginaw Mich., and West Superior, Wis.
The physician in charge of the office is a graduate of the Medical Department of Harvard University.

YOUNG MEN
Who may be suffering from the effect of youthful follies or indiscretions will do well to avail themselves of this chance.

DR. SPEER & CO.
Will guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$250. They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience.

MIDDLE-AGED MEN.
There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting sensation and weakening of the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits aropy sediment and sometimes small particles of albumen will appear or the color be of a thin or milky hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness.

LADIES
Finding it inconvenient to call at the office can be treated by mail by sending a full description of their case.

DR. SPEER & CO.
Will guarantee a perfect cure in all such cases and a healthy restoration of the organs. Examination and advice free to all. Remember the place, 146 West Washington street, Marquette.
P. S.—See our testimonials in the different papers from well-known people.
Never put off until tomorrow what you can do today. If you feel alarmed about you lungs take Dr. Speer & Co's, new lung treatment.
