A PROPOSAL.

Is always in order, and is especially interesting to the one who receives it. Everybody in Marquette is intensely interested in our proposal to furnish a house on the Installment plan. This is the most tempting proposal ever made. The culminating bargain offering in furniture, which the shrewd wouldn't miss for money.

Let the eye tell the story of our parlor and bedroom suits, the prices tell the story of economy which always supplies the magnet of trade. Our proposal is worth accepting at once. To refuse such an offer as ours means a lost opportunity. Would anybody miss the chance to buy a parlor or bedroom suit for \$10? We have none at that price but very near it. Give us a call as we sell on the Installment plan at cash prices.

CRANKS MAKE LAST KICKS.

House Occupies Its Final Hours With Attempts to Cripple World's Fair.

APPROPRIATIONS FOR GOVERNMENT EXHIBIT OPPOSED.

Men About to Disappear Into Well-Merited Obscurity Do All the Mischief They Can.

NO HEED FOR NATION'S HONOR.

WASHINGTON, March 3.—When the house met at 11 o'clock the galleries were crowded with visitors but the attendance of members on the floor was not unusually large. Mr. Sayers moved to suspend the rules and non-concur in senate amendments to the general deficiency appropriation bill, which was agreed to and the bill went to conference. Mr. Holman submitted the disagreeing conference report on the sundry civil appropriation bill and the report was a. reced to.

Mr. Durbin moved that the house recede from its disagreement to the senate amendment providing for the government exhibit at the World's Fair. He called attention to the fact that the appropriation was for the exclusive support of the governmental agencies at the World's Fair and had no connection with the local corporation at Chicago. Not one penny of the appropriation could be used by the Chicago corporation. It was disbursed by government agency for the purpose of carrying on government functions. The appropriation was needed. The honor of the government was at stake. It must provide for the support of those bodies which it had called into being in connection with the great exposition.

CHICAGO DOES HER PART.

Mr. Springer said that since the exposition had been authorized by congress the conditions on which that exposition was to be held had entirely changed. It was then supposed that \$15,000,000 was all that would be required. But a national commission was appointed. It was appointed for the purpose of conducting the fair. Chicago had nothing to do except to furnish the buildings and grounds. The city had complied with all the requirements of the commission. The state of Illinois and the city of Chicago disclaimed any responsibility for the holding of the fair, beyond furnishing the building and grounds. The fair was held under the auspices of the government of the United States and would be the greatest exposition of the kind ever known or that will be known for next 100 years. The people would be proud of it, not as a Chicago fair not as an Illinois fair, but as a national fair.

NO CHANCE FOR TOLLERS.

Mr. O'Neill said that if he had an opportunity he would offer an amendment providing for the opening of the World's Fair on Sunday. Mr. Morse suggested that the Massachusetts legislature had unanimously passed a resolution in favor of Sunday closing.

O'NEILL REBUKES BIGOT MORSE.

Mr. O'Neill—I represent the best thought and the best sentiment of the people of Massachusetts, my state, my native state, and it is not yours. In the interest of religion and morality I think that the fair should be open on Sunday. Mr. Bland opposed the motion to recede from the disagreement. He denied that the national honor was involved and denied that the national honor was entrusted to the representatives on this floor from the city of Chicago or to the lobbyists in the corridors and in the galleries.

MR. HITT SUPPORTED THE MOTION.

The appropriation was not to carry out any scheme of the people of Chicago or the people of Illinois. It was intended to keep the faith of the government and to keep pure and intact the honor of the people of the United States.

MR. TAYLOR (O.) OPPOSED ANY PROPOSITION TO OPEN THE WORLD'S FAIR ON SUNDAY.

REED SHOWS HARD SENSE.

Mr. Reed favored the motion to recede. This exposition was an enterprise of the United States. Congress had placed the exposition in a new character. As far as it was to be an exposition for the pleasure and profit of the people it was intrusted to a local corporation in order that the United States might neither have the advantage of a pecuniary success nor the disadvantage of pecuniary loss. But at the same time, inasmuch as it was a World's exposition, it was necessary for the United States to be an intermediary between the exposition and the people of foreign lands. It became essential to the dignity of the government that it should assume the control the opposition in some respects. A national commission had been appointed and it comported with the honor and dignity of the nation to provide for carrying out the plans of that commission. To refuse to sustain the acts of the commission would be to denationalize the exposition and make a local spectacle. Whatever complaints might be made about Chicago the magnificent appearance of the exposition buildings and grounds had surprised him. He was proud of the imperial city of the west and he believed that the people of the United States would stand by their representatives in making this exposition a spectacle suitable to the people of the world the grandeur of the United States (applause).

MR. TAYLOR (ILL.) IN SPEAKING FOR THE

motion to recede said that the Chicago local organization was not asking for one dollar nor was it asking for the repeal of the Sunday closing law. Personally he was in favor of the repeal but he was not asking for it.

CRANKS ARE ON TOP.

After further debate the question was put upon Mr. Durbin's motion to recede. The motion was lost—yeas, 128; nays, 411.

Pending further action on the sundry civil bill Mr. Herbert submitted the conference report on the naval appropriation bill. After a brief opposition by Messrs. Holman and DeArmond to the naval rendezvous section of the bill the report was agreed to.

MR. HATCH SUBMITTED THE CONFERENCE REPORT ON THE AGRICULTURAL APPROPRIATION BILL AND IT WAS AGREED TO.

Mr. Henderson submitted the conference report on the postoffice appropriation bill. In speaking of the report Mr. Loud took occasion to deny the statement made yesterday by Mr. Bankhead that there was a scandal connected with the selection of a site for the public building at San Francisco.

THE CONFERENCE REPORT WAS AGREED TO AND THE CONSIDERATION OF THE SENATE AMENDMENTS TO THE SUNDRY CIVIL BILL WAS RESUMED.

The World's Fair amendment was disagreed to and the bill was again sent to conference. The house then took a recess until 8 o'clock.

DISORDERLY EVENING SESSION.

Straggling through the corridors, overflowing the great capacity of the galleries, drifting into the committee rooms was a vast flood of humanity when the house met at 8 o'clock after the recess. On the floor there was not a quorum of members present and but for the loud buzz of conversation from the spectators the session might have been taken for one of the usual Friday night sessions for the consideration of private pension bills.

MR. SAYERS SUBMITTED THE CONFERENCE REPORT ON THE GENERAL DEFICIENCY BILL.

The main point of disagreement was the French spoliation claims. The conference committee reported a difference on this question but Mr. O'Neill moved to recede from disagreement to the amendment.

MR. O'NEILL'S MOTION WAS DISAGREED TO AND THE BILL WAS SENT BACK TO CONFERENCE.

The conference report on the Indian appropriation bill was then presented by Mr. Peel (Ark.). The chief item of dispute between the two houses was the senate amendment relative to the Cherokee Strip.

FRENCH CLAIMS MUST WAIT.

Pending discussion on the conference report on the deficiency bill was agreed to, the senate receding from the appropriations for the payment of French spoliation claims, the Pacific railway judgment and certain back pay for senate clerks of the first session of the Fifty-first congress. The senate added about \$6,000,000 to the bill as it came from the house and succeeded in saving only about 10 per cent of that amount.

THE CONFERENCE REPORT ON THE INDIAN BILL WAS AGREED TO, THE SENATE HAVING RECEIVED FROM ITS CHEROKEE STRIP AMENDMENT.

This leaves only one appropriation bill—the sundry civil—not agreed upon. That bill is again in conference with prospects of a deadlock over the provision for the government exhibit at the World's Fair.

AN ALL-NIGHT SESSION.

WASHINGTON, March 4.—2 a. m.—Both the house and senate are still in session but practically no business is being transacted. Both houses are waiting for the conferees to effect some acceptable arrangement of the provisions in the sundry civil bill for the government exhibit at the World's Fair, support of the national commission and other items. The Chicago members had dropped the Sunday opening proposition and are trying to get the house kickers to agree to vote for the appropriations provided for by the senate amendments. Many members are sleeping on sofas in the rear of the hall and in the cloak rooms and there are the usual scenes of an all-night session.

THE PRESIDENT THIS EVENING AFFIXED HIS SIGNATURE TO THE CHANDLER IMMIGRATION AND CONTRACT LABOR BILL.

SENATE KEEPS ITS FEET.

That Body Does Much Better Work in Final Rush.

WASHINGTON, March 3.—The last legislative day of the Fifty-second congress opened in the senate with crowded galleries and with a pretty full attendance of senators. The first business was the conference report on the legislative appropriation bill. The report was read in full without yielding much information as to what it all meant.

MR. TELLER IN ORDER TO PROVE THE ABILITY AND DESIRE OF THE WEST TO HELP THE GOVERNMENT READ A DISPATCH WHICH HE HAD RECEIVED FROM THE CLEARING HOUSE ASSOCIATION OF DENVER OFFERING TO EXCHANGE A MILLION DOLLARS IN GOLD COIN FOR ONE MILLION DOLLARS IN LEGAL TENDER NOTES.

He said that he had communicated this dispatch to the secretary of the treasury and had received this answer: "Will you please advise me in Denver. Amount of express charges on currency will be \$150, which Denver parties will have to pay. The gold will be sent through the postoffice at no cost to the government. If I should pay express charges it will be equivalent to paying premium on gold, a thing I do not like to do."

MR. TELLER'S RESPONSE TO THIS—ENTIRELY ON HIS OWN RESPONSIBILITY—WAS: "I DO NOT THINK THE DENVER BANKS WILL PAY THE EXPENSE YOU MENTION. I CAN SEE NO REASON WHY THEY SHOULD."

TELLER HAS PLEADED.

In view of that correspondence Mr. Teller thought that the pretense of a report of the treasury department was entirely unfounded. He was authoritatively informed that several millions of gold could be had in the same way from the extreme west if the treasury department desired it. If the west did not get all it wanted in appropriation bills

SENATE VERY PENURIOUS.

World's Fair Appropriation Cut Down and Then the Bill Is Defeated.

PROSPECT FOR ADEQUATE EXHIBIT RATHER SLIM.

Commissioners Ask for \$50,000 and Every Cent of That Is Needed for Proper Exhibit

THOSE MISERLY GRANGERS.

STATE HOUSE, LANSING, Mich., March 3.—[Special]—The senate had a very warm debate on the World's Fair additional appropriation bill at its morning session. The house bill was cut from \$50,000 to \$30,000 and then lost on its final passage by a vote of 16 to 12. Senators Flesher and Pascoe voted for the bill and Senator Sawyer was absent. The vote was reconsidered and the bill tabled. It may yet pass at the reduced figure but the outlook is not flattering. The senate committee made a favorable report on the bill establishing a home for the feeble minded and appropriating \$77,000, \$50,000 being for buildings on the cottage colony plan. The house passed the Soldiers' Home appropriation bill and a few local measures. An hour was spent upon the Rhines voting machine bill and pending its final passage it went to the judiciary committee for revision. The senate adjourned until Monday at 9 p. m. and the house until 2 p. m. tomorrow.

NO ONE WAS DROWNED.

Babcock Only Victim of Bay City Launching Accident.

BAY CITY, Mich., March 3.—It is now certain that no one was drowned in the accident at Wheeler's ship yard yesterday. All the missing have been found and the owners of hats floating on the river are accounted for. Frederick Babcock died this morning but all the others injured died this morning.

Ramses Howard, Louis Peters, Ross Bennett and Conductor Fred Peel of Detroit were reported missing but have since turned up. The injured are: GEORGE CLARK, freight handler; internal injuries. GEORGE DOYLE, filer; right leg broken and internal injuries. WILLIAM BATTISKILL, painter; head cut. GRANDMAISON, boy; arm broken.

SWEPT BY THE CYCLONE.

Great Distraction Wrought in the Interior of Louisiana.

NEW ORLEANS, March 3.—Red river steamers today brought news of a terrible cyclone in Avoyelles parish Tuesday evening. The only railroad in that direction only crosses the extreme southwestern corner of the parish while the country seat, Marksville, and the most thickly settled districts are along the Red river in the northern part. The general course of the storm was from west to northwest and it left death and destruction in its wake.

Its path presents a scene which is indeed pitiful and which baffles description. Scattered timber and uprooted trees now mark the place where once large residences stood. In addition to the violence of the wind was a rain which poured in volumes for about two hours. All who were left homeless were exiled to its fury as they sought to extricate those who were lying beneath the wreck. It is a strange fact that only two persons were killed, Maximilian Brouillette and a child of Mr. Laberde. About forty people were wounded, some seriously while others are slightly hurt. This is only in one neighborhood. Particulars from other parts have not come in but reports are that of other places in the path of the cyclone shared a like fate.

THEY HATE WORKINGMEN.

Cowardly Congressmen Insist on Closing World's Fair Sundays.

WASHINGTON, March 3.—The World's Fair managers in the house have become alarmed at the prospect that the appropriations for the World's Fair included in the sundry civil bill may fail and are working hard to save the items. They have abandoned the fight for Sunday opening. Mr. Powers of Vermont and other members who made up a part of the majority of twenty against concurrence in the senate World's Fair amendment told the Illinois members that about twenty-five votes would be changed if the Sunday opening proposition was absolutely out of the way.

FIFTEEN YEARS AS POPE.

Anniversary of Leo XIII's Coronation Is Duly Observed.

ROME, March 3.—Today is being duly celebrated as the anniversary of the late on which Leo XIII was crowned as pope in the Sistine chapel, March 3, 1878. The pope attended state mass today in the Sistine chapel. A brilliant gathering of members of the sacred college, patriarchs, prelates and foreign envoys added to the splendor of the occasion and there was a crowded general attendance of Catholics anxious to show their esteem for the venerable pontiff.

MICHIGAN CAN SYMPATHIZE.

Cheese-Paring Disrupts Wisconsin Fair Commissioners.

MILWAUKEE, March 3.—Members of Wisconsin's World's Fair commission announce their determination to resign because of the action of the committee on retrenchment and reform in cutting down their estimate of the amount of money required to make a creditable exhibit. The commission wants \$130,000 and the committee cut the figures down to \$65,000.

Entered as second-class of the second class in the postoffice at Marquette, Mich.

JUDICIAL CONVENTION.

A Republican convention for the Twenty-fifth judicial circuit of Michigan is hereby called to meet in the city of Escanaba on Friday, the 10th day of March, 1893, at 8 o'clock p. m., to nominate a candidate for circuit judge.

The several counties in the district will be entitled to representation as follows, being one delegate for every 500 votes, or majority thereof, cast for governor at the last election, viz:

Table with columns: COUNTY, VOTE, DELEGATES. Delta, 3,288, 6; Dickinson, 3,192, 6; Iron, 3,192, 6; Marquette, 7,319, 15; Menominee, 3,872, 8.

By order of the judicial committee. GAB SMITH, Chairman. Dated February 28, 1893.

JUDICIAL CONVENTION.

A Democratic convention for the Twenty-fifth judicial circuit of Michigan is hereby called to meet at the parlors of the New Ludington Hotel in the city of Escanaba on Friday, the 10th day of March, 1893, at 8 o'clock p. m., to nominate a candidate for circuit judge.

The several counties in the circuit will be entitled to representation as follows, being one delegate for every 500 votes, or majority thereof, cast for governor at the last election, viz:

Table with columns: COUNTY, VOTES, DELEGATES. Delta, 3,288, 6; Dickinson, 3,192, 6; Iron, 3,192, 6; Marquette, 7,319, 15; Menominee, 3,872, 8.

By order of the judicial committee. R. C. FLAGG, Chairman. Dated Feb. 28, 1893.

DEMOCRATIC DAY.

This is an important day in the annals of the Democratic party in the United States, for today at Washington will be consummated the victory won by that party at the polls in November last, when the people voted to once more entrust it with control of the general government.

The president then elected will be today invested with the authority and prerogatives of his great office at the national capitol, and the country will pass under the rule of the Democratic party for the next four years.

Eight years ago a similar transfer of power was effected and the Democracy entered on what then had the appearance of being a long lease of power. But though the administration given the country by Cleveland from March 4, 1885, to March 4, 1889, was clean, able and dignified, and though the country enjoyed unusual prosperity under that administration, he was defeated for re-election, and four years ago today was obliged to turn over the presidency to a Republican successor, when the party that today goes out of power again entered on the administration of the government. Not only that, but control of the house passed from the Democratic party at the same time, the Republicans coming into power under conditions that seemed to promise that they would retain it for a long term of years.

They now go out after four years of supremacy in national affairs, during which the government has been honestly and ably administered, yielding up to the Democrats not only the presidency, but control of the senate, in which branch of congress the Republicans have been in the ascendancy ever since the late war.

The facts here briefly recited serve to show the uncertainty of politics, the nice tact that a party in power must possess and exercise in order to retain popular confidence, and the folly of predicting a long tenure of power for a party that may secure control of the government, no matter how strongly entrenched in place it may appear to be.

But the Democrats are in to stay for at least four years, and for the sake of the common weal THE MINING JOURNAL sincerely hopes that they will make good use of their opportunities and give the people no reason to regret having placed in their hands the great trust that is now theirs to administer, for a stated term in any event, and with large possibilities in the way of extension of the limit if they meet the obligations which it imposes on them faithfully and well.

They should remember, however, that the people rule in this republic, and govern themselves—and the country—with that fact ever foremost in their minds.

The Portage Lake Mining Gazette, also, insists that we must have an asylum for the care and treatment of our insane on this peninsula. Closing a forcible argument for immediate provision for its establishment, the Gazette says:

The insane are numerous in this part of the state, and it seems highly important that a hospital be provided for them near at hand, instead of its being necessary to take them to a distance far away from their friends, and at an expense which numbers cannot afford. In the northern peninsula, also, both summer and winter, the air, whatever the degree of heat or cold, is always pure. Given a situation where the water is exceptionally good and the conditions would be as favorable here for the care of patients, either mentally or physically diseased, as are to be found anywhere. At this time, when more hospitals for the insane are an absolute necessity, and not to provide them would be to show an absence of the essential elements

of good will and charity, the demand for the immediate erection of at least one of sufficient size to meet all wants is imperative. And that one, by all means, should be given to the northern peninsula. Nowhere else is there so much need of it, and no other part of the state can furnish more desirable locations.

The Cleveland Iron Trade Review of the 2nd inst. has this in relation to the ore market:

The week has produced the usual rumor of ore sales. This time it comes from Pittsburgh, a daily paper announcing in its Saturday market report that from 300,000 to 500,000 tons of Bessemer ore had been sold during the week at prices from thirty-five to fifty cents below those of last year's initial sales. Naturally a Pittsburgh report of ore sales would emanate from furnacemen, but as the latter's ideas of opening prices this year cut the initial figure of '92 considerably more than thirty-five cents or fifty cents, there is internal evidence that the report is incorrect. No sales of Bessemer, outside of lots on the docks, have been made by Cleveland sellers of Bessemer ore, and there is no immediate prospect of any. A large Pittsburgh buyer took up the question with the ore men a short time ago, but found their views so much at variance with his own that negotiations were dropped. This buyer's relations to a well known producing firm make it certain that the latter's ores will be included in any purchase made, and the Pittsburgh report may be an anticipation of that fact. Furnacemen are making the claim that the reduction in ore prices should cover the drop in pig iron in the past year, but the ore interest, besides disclaiming responsibility for the course of the pig iron market, urges that there are other elements in pig iron cost that should share in the reduction—coke, for example, and freights. They point to the recent reduction in freights on pig iron as a measure of relief to the furnace interest, as against the firm attitude of the carriers of ore. Vessel men and ore men have had no interviews on the matter of season contracts, and all discussion on that subject has been the mid-winter gossip that precedes negotiations. The difference between their ideas on charters from the head of the lakes is fairly represented today by the difference between \$1.15 and \$1.20.

Ironwood's fight on the charter which the people of Bessemer desired for their tiny little city availed nothing when it came to a test of the influence of the two cities in the legislature, and the Ironwood lobbyists have departed for home discomfited, and defeated in their nefarious scheme to do up Bessemer. This is as it should be. The Ironwood people showed an ugly spirit toward their sister town in the effort they made to prevent Bessemer from getting such a charter as the people there desired, antagonizing the latter after the Ironwood charter had been given through the legislature, and THE MINING JOURNAL, through its love for fair play, is rejoiced at their discomfiture, though having no special interest in the quarrel between the two places. If these cities are wise they will now join in building a street railway to connect them, and locate the county seat midway on the line thereof, and thus settle their contention amicably and fairly. A connecting street railway is a great promoter or amity between rival towns, as witness the relations of Ironwood and Hurley, Menominee and Marinette, not to speak of our own cities of Ishpeming and Negaunee.

The Populists in the higher branch of the Kansas legislature do not take kindly to the decision of the supreme court of that state on the question of the legality of the Populist house. In discussing it the other day one of the state senators of the new political faith expressed a doubt as to the wisdom of accepting the decree of the court as final in the matter, declaring that he "despised the judges and spat upon their decision." A party that cannot abide by judicial decisions and evidences a disposition to override them is a safe one to keep out of power. The Populist party in Kansas, as well as in other states, has manifested a revolutionary tendency that ought to satisfy the honest voters who have been deluded into joining it that its success would be followed by disorder and tumult and a dangerous weakening of popular respect for constituted authority. It is fortunate that there is no probability of such a party ever obtaining anything more than local successes, and that its disintegration has already set in. There is no good reason for its existence and the sooner it passes away the better.

The Chicago Journal of Commerce takes quite a hopeful view of the outlook for the year. It remarks that "March is the beginning of activity in many lines of business, and judging by present indications it will prove a prosperous month and prove an earnest of many more of the same sort to follow. Unless all signs fail, 1893 will prove a busy and successful business year. Hardly a line of manufacturing can be mentioned that does not seem likely to pass last year in its output. Prices are low, and will doubtless continue so, but this circumstance will lead to a vastly increased consumption and the consequent making of more goods, which means employment for more men and greater general prosperity."

The Range-Tribune, a Republican paper printed at Iron Mountain, the county seat of Dickinson county, states that the Republicans there do not approve of the proposed re-christening of that county, though they do not relish having as reliable a Republican county as theirs named after a Democrat. The bill providing for having the name of the county changed to Blaine was introduced by a representative named Harwood, who was sent to the legislature from a lower peninsula district, and was not introduced at the request

of the Republicans of the county which it proposes to name anew. Representative Harwood must belong in the same class with that Detroit chap who wants to have a burdensome tax laid on the mining industry up here. They elect a good many cranks to the legislature from lower peninsula districts.

CARTER HARRISON'S nomination does not seem to be followed by much of a split in the Democratic ranks in Chicago, and the Republicans of that city have need to place the very best man they can select in the field if they would prevent him from capturing the mayoralty. It would be a disgrace to Chicago to have Harrison again elected its mayor, but there is a strong probability that he will be unless the opposition candidate is a man who will command the support of respectable Democrats in that city, for the wily Carter has enough of a pull on the Republican vote there that is neither respectable nor honest to give him quite an advantage as a candidate.

We take this regarding copper from the Boston Herald of the 1st: For spot copper the market is very quiet. With the companies still quoting from 12 1/2 @ 12 3/4, but with the understanding in the general market that lake copper is to be had at 12c, and that it would scarcely be possible to sell a great amount at that price. London is higher, however, at 44 1/2 for spot and at 44 3/4 for futures.

MICHIGAN MENTION.

Those who were possessors of snow shoes were in luck on Tuesday morning as it was almost impossible to get through the streets without them before the shovel brigade made its appearance and cleared the sidewalks. In many places the snow was drifted in solid banks from eight to ten feet high and packed hard at that.

J. Gottliebson is expected home from Chicago today and the new spring goods are arriving every day. After taking a look at the large stock that the Star dry goods and clothing store is receiving daily it is hard to believe that we are threatened with hard times.

Garnard Martinson, who has kept a livery stable here for the past few months, has sold out his stock and will remove with his family to Minnesota, where he will join his father-in-law in farming in a few weeks.

An infant child belonging to Mr. and Mrs. Grass Anderson of Greenwood, who died at that place on Tuesday, was brought here for burial Thursday, Rev. Borg of Ishpeming conducted the funeral services.

Gordon J. Murray, who represented Summit lodge at the annual session of the A. O. U. W. grand lodge at Battle Creek last week, arrived home on Monday and reports having had a good time while away.

Messrs. John Block of Marquette and George Block of Trout Creek visited their parents here on Monday.

John Donnelly of Ontonagon visited his brother, James C. Donnelly, here the fore part of the week.

Ladies should not fail to call and examine the new stock of dress goods at J. Gottliebson & Co's.

Miss Rena Backes of Ishpeming visited her parents and numerous friends here this week.

H. H. Heineman of Milwaukee called on his trade here Monday.

Born, on Sunday, to Mr. and Mrs. Gust A. Olsen, a son.

STATE OF OHIO, CITY OF TOLEDO, Lucas County. Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of one hundred dollars for each and every case of catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY, Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1888. A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.

When the hair begins to fall out or turn gray, the scalp itches, dandruff, and you know of no better specific than Hall's Vegetable Sicilian Hair Renewer.

AT BEDTIME I TAKE A PLEASANT HERB DRINK THE NEXT MORNING I FEEL BRIGHT AND NEW AND MY COMPLEXION IS BETTER. My doctor says it acts gently on the stomach, liver and kidneys, and is a pleasant laxative. This drink is made from herbs, and is prepared for use as easily as tea. It is called LANE'S MEDICINE. All druggists sell it at 50c, and if a package. If you cannot get it, send your address for a free sample. Lane's Family Medicine moves the bowels each day. In order to be healthy this is necessary. Address ORATOR L. WOODWARD, Le Roy, N. Y.

Nerve Tonic Blood Builder DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE. Send for descriptive pamphlet. 50c. per box. 6 for \$2.50. Dr. Williams' Medicine Co., Schenectady, N. Y.

WORTH A GUINEA A BOX. THE CITY'S BUSINESS.

Negaunee's Common Council Considered and Disposed of a Grist of It at Thursday's Meeting.

Fatal Accident at One of the Buffalo Company's Mines--A Claimant for the Championship.

COUNCIL PROCEEDINGS. Negaunee's common council held its regular monthly meeting Thursday evening, with Mayor Anthony in the chair.

The minutes of the preceding meeting were read and approved. A communication was read from Charles Schurman of West Superior, a brother of the late Lemuel Schurman, who came to the Dexter by an accidental shot from a revolver in his own hands about two months ago, asking that the body of his brother be removed from where it is now buried and placed in the lot owned by the deceased, at the expense of the city.

A communication was read from the Negaunee & Ishpeming Street Railway & Electric Light company demanding a renewal of the city lighting contract for the ensuing year. Alderman Sues moved that the contract be renewed. The motion found support but was lost, the majority of the members thinking that the renewal of the contract should be left to the new board of aldermen to be elected next month.

The committee on police and grievances presented a report for last month which was accepted and ordered placed on file. The committee on finance and taxation reported that the assessment valuation of Martin Hokenjos' land should have been \$200 instead of \$400. On motion a rebate of \$200, was granted.

The committee on sewerage submitted City Engineer C. R. Wightman's report for last month. A part of the report called for the adoption of an ordinance relative to parties filling with the city clerk plans and actions to property in the city. This was referred to the city attorney. On motion the report was accepted.

The reports of Justices Verran, Jones and Primeau were presented and referred to the committee on police and grievances. The report of the night watchmen was read and adopted. The hours in which the electric lights did not burn last month, as shown in the report, was 386.

By vote of the council Paul Webb's house was substituted for Mrs. C. J. Broad's as a place of registration for the Third ward.

John Stewart notified the council that he could not let the city use his house for registration purposes in the Fourth ward hereafter. The aldermen from that ward were instructed to secure a new place and report on the additions to the recorder. Principal submitted two blanks to be used in making out bills for presentation to the county board of supervisors. On motion the recorder was authorized to have the same printed.

A bill of Mitchell Bros. was referred back for correction. Chas. Peck's bill for attending Kangas, the insane man who was taken to Marquette a few days ago, was presented and allowed.

A bill of \$300, less \$10.70 deducted on account of dark hours, from the Negaunee & Ishpeming Street Railway & Electric company was allowed.

A bill from Griffey & Flynn for printing for loose company No. 2 was rejected but was afterwards allowed.

A grant of other bills were read and allowed. The council then adjourned.

Distressing Accident. Chas. Swanson, a miner working at the Prince of Wales shaft of the Buffalo company's mines, was instantly killed yesterday morning by a fall of ground.

Judge Primeau was called upon to empanel a jury to ascertain the facts concerning the death of the unfortunate miner. The jury selected consisted of Hans Peter Johnson, Sam Hooper, John Mitchell, George B. Mitchell, Thomas Mueky and W. J. Allen. After viewing the remains at 2 o'clock the jury adjourned to Justice Primeau's court where testimony bearing on the accident was taken.

LOCAL LACONICS.

Edwin Hall of Soudan, Minn., transacted business here yesterday. Miss Mammie Ryan of Hancock is in town, visiting Mrs. J. H. Quinn.

Fire company No. 1 will hold its regular monthly meeting Monday evening. Andrew Heinengo and Miss Sophia Heikala will be married in this city today.

F. X. Peller has resigned his position with the Jackson Iron Mining company. The Wassa Male choir will go to Ishpeming tonight to give a concert at the City Opera house.

Mrs. A. E. Brown of Marquette has been here the past few days, visiting Mrs. Joseph M. Hayden. The members of English Oak lodge, Sons of St. George, will hold a social affair at their regular meeting Monday night.

Henry Anderson was arrested yesterday morning for being drunk on the streets and making a howling nuisance of himself. F. W. Read & Co.'s mill at Eagle Mills closed down Tuesday noon and did not start up again until Wednesday morning on account of the storm.

The snow banks on the side of the street car line between Ishpeming and Negaunee are as high as the top of the electric cars in some places. Fred Karanen, editor of the Finnish paper printed in Ishpeming, left for St. Paul on business yesterday morning. He will return next Tuesday.

The members of the Negaunee Methodist church will give their annual Good Friday supper in the Sandberg block this year. Plans are already in order. Since Mr. Harvey Pearce has taken charge of the electrical work of the N. & I. S. R. and E. company the electric lights are giving much better satisfaction.

City Engineer T. N. Reiter returned Thursday evening from Red Jacket, where he went to bid on the sewerage system to be constructed at that place next summer. Herman Kuitamaki, a Finlander, working at the Buffalo mine, fell forty feet into a shaft yesterday afternoon at 3 o'clock and fractured a leg, besides sustaining other injuries about the body.

The past week has been one of a very interesting nature at the local barracks of the Salvation Army. Visitor from outside have been numerous. The number attending each night has been unusually large. Reserved seats for Browne's Theatre company, which opens a week's engagement at the City Opera House next Monday evening, can be had at Tillson's drug store. The opening play will be the "Gold King."

Canon Karl E. G. Oppen of Green Bay was in Negaunee yesterday morning laboring in the interest of the preparatory academy in connection with the Ishpeming in the afternoon. James H. Browne will give away a parlor suite to the person holding the lucky number next Saturday evening. Recorder Primeau submitted two blanks to be used in making out bills for presentation to the county board of supervisors. On motion the recorder was authorized to have the same printed.

Caleb Cushing's "Dog Case." Caleb Cushing's celebrated "dog case" with Fernando Wood went the rounds of all the papers in the country. Being much disturbed and unable to sleep on account of the barking of a dog owned by the latter, Cushing, after trying in vain to have the dog sent away, swore out a warrant against Wood for maintaining a nuisance and appeared in court both as a witness and attorney to prosecute him. After an extended trial and lengthy arguments, the animal was adjudged a nuisance and ordered removed. —Cor. Cincinnati Tribune.

On Time. First Commuter (at the ferry)—Our train must have arrived on time this morning. Second Commuter—Why do you think so? First Commuter—There is no boat in.

English Justice. In an English police court the other day a poacher, suspected of coming from land in search of game, received the same punishment as a farmer who took a red hot poker, and, after tearing the clothes off a poor, half-witted laborer, burned him on the legs, breast, arms and hands with it. —New York Evening Sun.

CHEAP RATES TO THE INAUGURATION. For the inauguration of Cleveland and Stevenson at Washington on March 4th, excursion tickets, reading via Baltimore and Ohio Railroad, "The Pittsburgh Route," will be placed on sale at the ticket offices of principal railroads of the west, as well as at the ticket offices of the Baltimore and Ohio company. The fair from Chicago will be \$1.50 for the round trip. These tickets will be sold from February 28th to March 3rd inclusive, and will be valid for return journey until March 5th inclusive.

The Baltimore and Ohio is the shortest route to Washington from nearly all points West. Its trains are vestibuled from end to end, and carry Pullman sleeping cars. No railroad in America is better equipped than the B. & O. to transport with dispatch, safety, and comfort the large crowd which will visit Washington to witness the inauguration ceremonies. Its long experience in transporting crowds to former inaugurations, G. A. R. Encampments, Knights Templar Conclaves, and similar gatherings, on an extensive scale, will prove most valuable in arranging for the coming inauguration.

For more detailed information as to rates, time of train, etc., apply to L. S. Allen, Asst. Gen'l Passenger Agent, The Rockery, Chicago, or O. P. McCarty, Asst. Gen'l Passenger Agent, Cincinnati, O. (2-15-7c eod) Keep out the cold by using Jos. Quinn & Co.'s underwear. Lane's Medicine Moves the Bowels Each Day. In order to be healthy this is necessary.

TRUE, EVERY WORD.

A Realism Terrible in Its Intensity. A Story Which Is Without an Equal in the World. The Exact Facts Told Exactly as They Occurred.

LEBANON, N. H.—As your correspondent I communicate the following remarkable story exactly as it came from the lady's own lips. Everybody in Lebanon, N. H., knows Mrs. S. R. Berry well; indeed she is a most highly respected resident here. The story is one which particularly interests everyone at this season.

"No one had any hopes of my being better. My doctor ordered a change of environment, but I was not equal to moving anywhere, indeed could not walk any to speak of, only drag about from one room to another. "And such dull, heavy feelings, as if I was about to meet some awful doom. All the time I was depressed in mind and spirits and could not cheer up. "My liver was swollen so I could not rest unless hot applications were used on my side, and my kidneys were very bad. "In my despair, I began the use of Dr. Greene's Nervura blood and nerve remedy, and I will say that this wonderful medicine is the greatest blessing that ever came into a family.

"I had some perfect wonders for me. I was soon on the right road to health and strength by its use, and I am gaining every day. After taking two bottles I could do more work than I had for over a year, and now I do all my housework and all my sewing. I can walk vigorously, indeed have walked as far as five miles in an afternoon. Yes it is true, you can ask any one here. "I can now eat better than ever, am strong again and have got back most of my former looks and good color. "I am a wonder to everybody who knows how weak and low I was before using this remedy. Our doctor met me a few days ago and said that I was doing wonderfully, that my eyes were bright and that I looked well. "Oh, words are useless! I cannot tell how much I prize this great and blessed medicine. All my family join me in one loud chorus in saying, God bless this great health giving remedy! I have told every one of my friends, far and near, and you see they cannot help believing for here I am a living witness to show what has been done for me."

Can anything be added to this? The sick and suffering should certainly use so marvellous a health giver as this great remedy appears to be. Especially should all use it now for it is the most excellent of all spring medicines to invigorate the blood, strengthen the nerves and regulate all the organs. It is purely vegetable and harmless, and druggists keep it for \$1 per bottle. Doctors recommend and prescribe it because it is the discovery and prescription of an eminent physician, Dr. Greene, of 35 W. 14th street New York, the successful specialist in curing all forms of nervous and chronic diseases. The doctor can be consulted free, personally or by letter.

MRS. S. R. BERRY.

Unlike the Dutch Process No Alkalies Other Chemicals are used in the preparation of W. Baker & Co.'s Breakfast Cocoa, which is absolutely pure and soluble.

It has more than three times the strength of Cocoa mixed with Starch, Arrowroot or Sugar, and is far more economical, costing less than one cent a cup. It is delicious, nourishing, and EASILY DIGESTED. Sold by Grocers everywhere. W. Baker & Co., Dorchester, Mass.

FIVE CHILDREN SMOTHERED

Parents Locked Them in Tenement Rooms and Went Out to Market.

BUILDING TAKES FIRE FROM EXPLODING OIL STOVE.

Their Mother Returns While the Flames Rage and Two Officers Have to Hold Her.

DEATH-TRAPS FOR THE POOR.

New York, March 3.—Five children were suffocated at 8 o'clock this morning in a rear room of the top floor of a tenement at 194 Henry street. The names are:

Altman Bernstein, eleven years old; Rebecca Bernstein, ten years old; Hayman Bernstein, six years old; Rachel Bernstein, six months old; Fanny Rosen, seven years old.

The children were alone in the room, their parents having left a short time previous to the accident, locking the children in.

The cause of the tragedy was the upsetting and explosion of a kerosene stove which belonged to Myer Membert, who occupies the apartments adjoining those of the Bernsteins with his family. The Membert woman's dress caught fire but she beat out the flames and with her two children made her escape from the room. The fire swept out into the hallway and up to the roof like a flash. There were twelve families in the tenement and all rushed for the fire escapes. The upper portion of the house was soon a mass of flame.

Just as the fire was under control the wild shriek of a woman came from among the throng in the street. A half-frantic woman came rushing through the crowd to the door of the tenement. It was Mrs. Bernstein, mother of four of the children suffocated. She had been out shopping and the first she learned of the accident was when she turned into Henry street near her home and saw the flames issuing from the building. She made desperate attempts to dash into the house and it took two policemen to hold her. The firemen went to the Bernstein apartments as soon as possible and on a bed in a rear room found the four children dead. The fire had not touched the room but the youngsters had been suffocated as they slept. The firemen continued their search and in another room on the same floor found the body of little Fanny Rosen, also suffocated by the smoke. She too had been left alone in the room while her mother went to a nearby bakery. The total property loss is small.

CROWDS AT THE CAPITOL.

Vice President-Elect Stevenson Does Hand-Shake Act.

WASHINGTON, March 3.—The crowds at the Capitol gave some token of the crush tomorrow. At times it was almost impossible to pass from one end of the building to the other. At the front door of the chamber of representatives the throngs were thickest and the cards went inside in streams. The honored congressmen grew short of temper and either refused to come out at all or else came with frowns and short words for the admirers who were anxious to see and shake hands with the great men of each particular district.

Vice President-elect Stevenson remained in his apartments at the Arlington all day and with but slight cessation there was a stream of callers. No formality of any kind was observed. The door was wide open and Mr. Stevenson had a hearty hand-shake and pleasant word for all. Fully 3,000 people paid their respects during the day.

Mr. Stevenson and his wife and daughters dined in the public dining room at 6 o'clock. After dinner they repaired to the public parlor where they held a reception. For an hour or more they were kept busy receiving the greetings of friends. Many ladies came in evening dress; others in street costumes. While some of the men wore dress suits, others wore their business clothes and still others their gaudy uniforms. The Illinois club of Bloomington called in a body and was warmly received. When the reception closed the vice president-elect had shaken by the hand nearly one thousand friends.

The hour for the departure of Mr. Harrison and his family for Indianapolis tomorrow afternoon depends entirely upon the time they return from the inauguration ceremonies. It is also possible they will return first to the White House with Mr. and Mrs. Cleveland and take luncheon with them.

Major E. W. Halford, detailed for duty as disbursing officer of the Bering sea commission at Paris, left Washington this afternoon for New York, where he sails tomorrow morning on the French line steamer Normandie for Havre.

Richard J. Olney, the new attorney-general, accompanied by a number of friends, arrived this morning. When Mr. Olney's presence became known he was the recipient of much attention and during the afternoon Governor Russell and the members of his staff called. Mr. Olney called at the Arlington during the afternoon and was cordially received by Mr. Cleveland.

SHE FOOLED WITH A PISTOL.

And Mrs. Andrew Sorenson's Funeral Will Occur Tomorrow.

RACINE, Wis., March 3.—While Mrs. Andrew Sorenson was examining a revolver her husband had purchased of an acquaintance the weapon was accidentally discharged. The bullet struck the woman in the forehead, causing instant death. She was twenty-six years old and leaves three children. The husband is a watchman in the Racine Carriage company's works.

SMITH KNOCKS OUT GODDARD.

Man Who Longs to Fight Corbett Badly Done Up.

NEW ORLEANS, March 3.—Joe Goddard and Ed Smith met tonight in the arena of the Olympic club for a purse of \$10,000, the loser to take barely enough from the fight to defray his training expenses. The vast arena was well comfortably well filled by at least 5,500

CRANKS MAKE LAST KICKS.

(Continued from Page One.)

It contributed more to the growth of the country than any other section.

The vote was then taken and the conference report on the legislative bill was agreed to—yeas, 42; nays, 21.

The conference report on the postoffice appropriation bill was presented. Mr. Gorman inquired what had been done as to the paragraph appropriating \$198,000 for the southeastern mail. Mr. Cullom, in charge of the bill, said that the paragraph had been restored as it originally came from the house, appropriating \$196,000 for special mail facilities from Springfield, Mass., by New York and Washington to Atlanta, Ga., and New Orleans.

IS THE NARONIC LOST?

Big Freight Steamer Is Now Eleven Days Over-Due.

NEW YORK, March 3.—The Naronic is still missing. The big White Star freight steamer is now eleven days over-due. Her continued absence is causing more than usual worry to the owners of the vessel and the consignees and shippers of freight on board. She carries over 4,000 tons of valuable freight, including several hundred head of live stock. A conservative estimate of the value of the cargo places it at \$350,000. The freighter is valued at \$500,000. The Naronic carried a crew, including Captain William Roberts and Engineer Robert Duncan, of more than seventy men and there were several cattle and horse dealers aboard when she left Liverpool February 11. Friends and relatives of the men have been greatly concerned about their safety.

House joint resolution authorizing the state of Wisconsin to place in Statuary Hall at the Capitol the statue of Fisher Marquette was reported and passed.

NAVAL BILL GOES THROUGH.

Then the conference report on the naval appropriation was presented and read. Mr. Hale, in charge of it, stated that the bill under the conference report was substantially the same as it passed the senate. The report was agreed to.

The McGarrahan bill was then taken up for consideration the vote being: Yeas, 46; nays, 8.

The credentials of William N. Roach, senator-elect from North Dakota for the full term of six years from March 4, 1893, were presented and placed on file.

House joint resolution authorizing the state of Wisconsin to place in Statuary Hall at the Capitol the statue of Fisher Marquette was reported and passed.

House bill to continue the duties of 35 per cent on linen containing 100 threads per square inch—the rate was passed with an amendment making it take effect in 1895 instead of 1894.

The McGarrahan bill was again taken up and Mr. Morrill moved an amendment referred the case to the United States district court for the Southern district of California instead of the court of private land claims.

Without disposing of the bill the senate took a recess. After recess the corridors and galleries were jammed with people. The conference report on the deficiency bill was read to the senate. It showed an agreement upon all points except the French spoliation claims, the Pacific railroad judgments and the clerks for senators, all those being reserved for further action.

SUNDAY CIVIL BILL TANGLE.

The conference report on the sundry civil bill was then presented, showing several points on which the conferees had been unable to agree. Mr. Allison, in charge of the bill, explained the report. The senate conferees had receded from the item of \$25,000 for the suitable entertainment of special guests invited to the World's Fair by the president of the United States. The senate conferees had also receded from the other item, \$25,000 for the entertainment by the government of the United States of such distinguished representatives of foreign governments as must be in this country during the year. Two other amendments from which the conferees had receded were those to pay a salary to the widow of Chief Justice Waite and Justice Miller of the United States supreme court. There were now in controversy only five amendments and after the senate should have agreed to the conference report he would move that the senate recede from these amendments and ask for further conference. The report was then agreed to and Mr. Allison proceeded to make a long statement as to the amendments relating to the Columbian exposition. The first of them appropriated \$201,000 for the completion of the government exhibit at the World's Fair.

HOUSE CRANKS OBSTINATE.

The house not only refused to agree to the appropriation for the government exhibit but also refused to make any further appropriation for the World's Columbian commission. And yet if the fair was to be a success the government was bound to make further appropriations. The states and the nation, and all the nations, were so intertwined with the matter that the committee on appropriations thought that the United States could not well recede its steps. It would not do, at the threshold of the opening of the exposition, to say to the nations of the world and the American exhibitors that the government of the United States would withdraw the obligations which they had a right to expect to see carried out. Mr. Butler inquired as to the amount involved.

Mr. Allison—About a million dollars. Mr. Sherman—We gave two and a half millions at the last session and now to hesitate about the expenditures of a million would be an act of folly which I trust this congress will not be guilty of.

Mr. McPherson said with emphasis that he would not vote another dollar for the fair.

Mr. Lindsay said that to refuse now to complete the work of the fair would be worse than repudiation. It would be a shame and a disgrace to the country.

The sundry civil bill was sent back to conference for a final effort to save the World's Fair items.

Senator Dawes presented the conference report on the Indian appropriation bill and it was agreed to without objection.

PASSED OVER THE VETO.

Senator Hoar then called up the message of the president announcing that it had passed over the president's veto the bill providing for the appointment of a district attorney and a marshal for the middle district of Alabama. The president vetoed the bill for the reason chiefly that, in his opinion, it would legislate out of office the two senators and two district attorneys now holding those offices without any provision for the discharge of their duties.

Senators Hoar and Pugh stated that the veto was based on a misapprehension of the provisions of the bill. It was passed over the veto—yeas, 58; nays, 17—and therefore becomes a law notwithstanding the veto.

By resolution the vice president was authorized to retain for his personal use the writing set and appendages used by him during his term of office.

As midnight drew near the senators slowly drifted out of the chamber until only about a score were in their seats and the crowded galleries lost most of their occupants.

McGARRAHAN BILL PASSED. On yeas and nays vote an amendment

WEEK, NERVOUS WOMEN.

Dr. Laury McHenry Gives Them Some Good Advice.

HEADACHE AND WEAKNESS.

The Doctor Tells How They May be Quickly Relieved—He Says Women Are Suffering Needless Pain—The Secret of Their Happiness.

"Oh, how my head aches!" Far too often is this exclamation made by some suffering woman. She is weak and nervous, and some excitement, some strain on the nerves, has brought on a racking headache. She has chilly feelings, a sickness at the stomach, and other painful symptoms, but above all she has this throbbing, this nerve-splitting aching of the head which nothing seems to relieve.

Can nothing be done to relieve this terrible agony?

"Yes," is the answer given by Dr. Laury McHenry, a celebrated physician who has devoted a life time to the study and cure of just such troubles as these. He says:

"Take things easier. Do not fret. Do what you can and don't worry about work left undone. Sleep more than you do. Now there are many means of speedy relief, but the cure that I want you to make is thorough, complete and lasting, and like all things well done, requires patience. To sum it all up: The radical, permanent cure for sick headache in weak, nervous women must combine the following: A general toning of the system, regular habits, and plenty of sleep at the right time."

Yes, you say, I would gladly try anything to be freed from the suffering I endure, but how is it to be done? What shall I take for it? There are so many remedies, how am I to choose the right one? These are reasonable questions; there are so many tonics, nervines, sarsaparillas, and other concoctions claimed to be ready reliefs, but which, in reality, only makes matters worse. Physicians will tell you that there is only one safe and reliable cure known to medical science that really does soothe and nourish the worn-out nervous, permanently cured headache of every kind, and strengthens the system. What this great remedy is and what it will do for suffering women is best told in the words of some who have tested it. Here is what a few well known women have to say about its wonderful powers:

"Helen Ashland Kean, who wrote, 'When the Tide Comes Again,' and many other popular songs, and who resides at Hartford, Conn., says: 'One year ago I lay at death's door, a complete mental and physical wreck. I had neither hope nor ambition to desire life. My dear little children had ceased to give me joy or cheer. I was moody by day, despondent and sleepless at night. At times I fell into a sort of trance, losing all power over nerve or muscle. My feet and hands were like ice and my heart almost pulseless. In such a state, my nurse and friend administered something for which I was profoundly grateful. The first dose imparted warmth to my body. I began to gain vitality, rapidly and steadily, day by day. I feel now as if I could endure everything without its tiring me, and it is all due to that grand discovery, that wonderful specific for the nerves that conquers all prostration, Paine's celery compound. My literary labors are such that I write sometimes far into the 'wee sma hours,' consuming the midnight oil, but not as of yore consuming brain, nerve and muscle without their being replenished. I would not be without this grand compound for its 'weight in gold.'"

To the same effect are the earnest, outspoken words of Mrs. C. E. Prescott who resides at No. 8 Worcester St., Cambridgeport, Mass., which are as follows: "There is nothing like Paine's celery compound. It has helped me wonderfully. For more than five years I have been troubled with constipation. My heart was so weak that I could not do any kind of work without a terrible throbbing. Ever since I can remember I have had nervous headaches of the worst sort. I have taken several bottles of Paine's celery compound and find it the only thing that helps me. I earnestly recommend it to all suffering from the complaint with which I was afflicted for this compound has done me such a marvelous amount of good that I want others to know of its value."

Can anything be more convincing than this? And if this great compound could do so much for these ladies, may it not be just what you require to prevent the coming on of untimely age, the withering of the energies, and drooping of life? If this great discovery has been so grand a friend of thousands, does it not stand to reason that it may also prove a friend to you?

People troubled with sick and nervous headaches will find a most efficacious remedy in Ayer's Cathartic pills. They strengthen the stomach, stimulate the liver, restore healthy action to the digestive organs, and thus afford speedy and permanent relief.

MOTHERS' RECOMMENDATION.

We are acquainted with many mothers in Centerville who would not be without Chamberlain's Cough Remedy in the house for a good many times its cost, and are recommending it every day. From personal experience we can say it has broken up bad colds for our children.—Centerville, South Dakota, Citizen. 50 cent bottles for sale by H. H. Stafford, Son & Co. Druggists.

Mens fine shoes at greatly reduced prices at G. Hallstrom & Co.'s shoe department.

This tug is in first class shape and will be sold at a bargain.

JOHN PARKER.

Cartwright Didn't Get There.

At the Casino last evening Cartwright, the veteran pedestrian and sprinter, attempted to run five miles against five Marquette boys in relay.

A Meeting Tonight.

There will be a special meeting of the Board of Health this evening, at the Recorder's office at 8 o'clock.

REPORTORIAL PENCILINGS.

E. L. Evans of Ishpeming was in the city yesterday.

Miss Carpenter of Sault Ste. Marie is visiting friends in this city.

Mrs. James Whistle of the Nester addition died yesterday morning.

One hour's walk against the record by Glick at the Casino this evening.

Take a look into the window of Dwyer Bros. store in the Opera House block today.

Chief Engineer Wenzell of the L. S. & I. R. Y., and party went out to Ishpeming yesterday for about a week's work among the mines.

The regular monthly meeting of the Ladies' Benevolent society will take place at the Washington street school house this afternoon at 3 o'clock.

Rev. Anthony Keller, secretary to Bishop Vertin, has been at his own request relieved of his office here and appointed pastor of the church at Republic. He left yesterday for his new post of duty.

Mrs. Brown, Salvation Army staff captain, and Lieutenant Gray will be at the Salvation Army headquarters tonight and all day tomorrow leading on the lines. All are invited to attend the meetings.

Charlton & Gilbert's sketch of the structure designed for the Mines and Mining building at the World's Fair are displayed in Dwyer Bros. window in the Opera House block and attracted great attention yesterday.

The cigar business of George Meeks & Co., Detroit, will continue as heretofore. The partnership papers provided for an unlimited term of years, and the interest of the late George Meeks, who died suddenly a few days ago, will remain undisturbed.

Delf, the grocer, is making a great record on green stuff. He now has lettuce, radishes and almost every variety of greens, fresh every day, and almost as cheap as you can get them in summer.

The services in the M. E. church on Sunday evening at 7:30 o'clock will be under the auspices of the W. C. T. U. The pastor, Rev. J. Frazier, will preach the sermon in the cause of temperance and all are cordially invited to be present at the meeting.

The Ladies' Benevolent society has recently had many requests for children's clothes. All those having children's wearing apparel in any form are therefore requested to send that which they can give a way to Mrs. D. H. Ball, president of the society, or else to the Washington street school building at 3 o'clock this afternoon, that being the hour for the regular meeting of the society today.

Nature and Deformity.

Nature is very particular to conceal her deformities, and all that is worthless or ungraceful generally drops off from a tree unless it be an injury to the trunk.

From such effects the tree never recovers. Go into the forests and how often we see deformed trees, some bent and twisted, some parted till the original trunk becomes like two--each crossing and recrossing the other. This was done by depression or injury to the tree in its young and tender years.

Nature has no power to right a broken law--neither in the animal nor the vegetable organism. Punishment follows, and deformity results.--Boston Transcript.

What She Should Do.

Bertie had been forbidden under severe penalties to play in the rain barrel, but the other day, sad to relate, his mamma and grandmother found him splashing in it in high glee.

His mamma's face hardened, but to the grandmother's kind heart led her to make a plea for the offender.

Bertie heard the plea, and when his mamma asked him sternly what she should do to a little boy who did not mind what was told him, he answered promptly:

"I think you had better mind your mudder."--Youth's Companion.

A Man's Nerves.

Mrs. Binks--Ooo! Doesn't it make you nervous to have the wind blow so this time of night?

Mr. Binks--Why?

"Just hear the windows! They rattle like everything."

"Um, it would make me nervous to hear the windows rattle if the wind wasn't blowing."--New York Weekly.

GREAT PROMISE FOR WOOD MANUFACTURERS.

It is only quite recently that manufacturers of furniture, wagons and wood work generally have become aware of the wonderful promise offered by North Galveston, Tex. Directly tributary to this young city, and not many miles distant, in Eastern Texas are over 46,000,000 acres of timber which comprises all of the high grade hard and soft woods.

Many people are coming in and are now doing business, but there is room for a great many more. With rail and water facilities for shipping, and markets in all directions, there should not be any hesitation about the outcome of manufacturing ventures. For further particulars call on or write M. E. Asire, the local agent. The address of the home office is North Galveston Association, Box 903, Minneapolis, Minn.

BUILDING WARSHIPS.

PIECE BY PIECE THE SMALL PARTS ARE PUT TOGETHER.

Iron and Steel Sections of a Big Battleship are Manufactured at a Distance from the Scene of Construction--Examples of Mathematical Exactness.

To say that the science of naval architecture and construction in its relation to ships of war has had unprecedented development in late years would not be in any respect an exaggeration. The fruits of the new era are already very apparent.

In fact, some have already come to take the place of old methods and old machines, and in their turn have been discarded for others that are now in a fair way to be superseded by the results of further scientific experiments. All this has taken place without any practical test of the merits of the innovations in actual fighting.

The introduction of heavily armored battleships might be said to date from the civil war, although there were a number of isolated examples before that time. With the monitor came a revolution in the logic of naval science, and the end is not yet, so the prophets declare.

The evolution of the modern floating fortress, as exemplified in the recently floated vessels in our navy, as well as those that fly the flags of England, Italy, France and Germany, might be described as a long race between armor plate and armament.

In other words, the makers of guns have been progressing as well as the makers of iron or steel plates that guard a ship from the heavy missiles of various kinds that are shot from the modern gun.

At times it has seemed as though the defense had triumphed in placing heavy steel plates at the most vulnerable points, but almost before the thought was spoken a new gun would be brought forth on some new boat of another nation that would render the steel plates no more serviceable in an actual engagement than so much pulp.

On these lines the game has gone on until the steel ship has developed into what seems to be perfection, and guns are made which will pierce wrought iron to the depth of several feet, according to the varying sizes of the projectiles.

While the effort to produce armor that will make any kind of armor useless has engaged the attention of workers in naval science, and while the effort to build ships that are almost a mass of solid steel has engaged the attention of others, still another complication has been introduced into the modern torpedo boat.

An English authority on the subject has openly declared his opinion that the present form of fighting with a few powerful and fleet battleships must eventually be abandoned, and that a fleet of such vessels attacked at night by torpedo boats is a fleet that has been asphyxiated.

It has been asserted by another man high in the ranks of naval science that heavy armor plate will be done away with on nearly all vessels, and that distinct styles of craft will be used for distinct purposes in sea warfare hereafter.

According to this idea there will be the lightest built and lightest armed cruisers of the highest speed that will be able to attack the merchant marine or unprotected coasts, and run away from the heavily armed battleships whose guns would finish them in short order. The torpedo boats and such craft also rank high in this prophet's estimation.

In accordance with this theory, in part, the navy of this nation is gradually taking shape. The navy battleship and the swift cruiser are combined, however, in the recent ships, and neither one nor the other has found its fullest development.

The new ship Cincinnati will very nearly realize the idea of the heavy battleship, combining the speed and sea-going qualities of the cruiser.

These ships not only carry heavy steel plates as a protection from the shot of an enemy, but the entire vessel is of iron. This causes, as may be readily understood, some important changes in the construction of the vessel.

As may have thought, it is true that a large part of the work done on these iron ships is done in steel mills and factories, and the yard is the place of putting together. In all the important parts of such a ship as the Cincinnati the iron forms are made and shaped in the mills, far from the place where the boat is being put together.

In such work the greatest accuracy is absolutely indispensable. In wooden ships the different parts are shaped and put together in the yards from which they are hauled, but iron cannot be sawed and nailed and cut to fit when it is to serve such a purpose as the backbone or ribs of a ship like the Atlanta.

Every piece is measured from the drawings with the most scrupulous care and with special apparatus in order that there shall be perfect accuracy.

In building wooden vessels the drawings are not nearly so exact as the plans for iron vessels, on account of the necessity in the latter for the elimination of anything resembling allowance in any direction. Everything is calculated down to the hundredth part of an inch, and as the plans call for the parts so are they turned out from the factory.

After the iron and steel parts leave the mills in which they are made the making of the ship is comparatively the same as if it were of wood. The blocks are laid in a line to support the keel, which is the first piece put in.

This keel is made of many parts, but to the eye it appears to be one piece, and at the stem of the stern of the ship that is to be. When the keel is laid the stem and stern pieces are the next to be added, and at about the same time the enormous ribs that form the frame are raised up on either side. All these timbers, as they are called, in spite of the fact that in these ships they are iron and not wood, are shored up as they are put in place. Each one of the ribs is patterned that is, it is formed like one-half of a groove, and in the lengthwise joint and the support on one side considerable strength is gained.--New York World.

Thought Transferred.

My father, Mr. A. C. King of Le Roy, Ill., was very sick with la grippe in January, 1892. On the 30th I was sent for and staid with him several days until he was somewhat improved. I then returned to my home, Decatur, Ill., some 50 miles distant, telling my brother Edward to write me every day and if necessary to telephone or telegraph me. For quite awhile the letters came regularly reporting everything favorable. Then they ceased. There had not been any letters for about a week, when, on the evening of the 15th of February I concluded that I would try the experiment of making Brother Edward write me by writing to him and then tearing up the letter, as suggested by Mark Twain in Harper's. I wrote the letter, commencing it, "Dear Brother Edward--I suppose that no news is good news, as if all were not well you would write."

After I had written the letter I concluded that I would send it, as if the mind influence had acted upon Edward by my writing the letter, the sending thereof would not interfere with it. He would receive it the next day. At 7 o'clock on the morning of Feb. 16, I received a letter from Edward, dated the 15th, saying: "Dear Brother James--I have not written you for several days, because I have had no news to report. Recollect, no news will be good news." As near as we can learn, he wrote this letter at the same time that I was writing to him. Is the fact that his thoughts, and even words, were the same as mine a mere coincidence, or something more?--Arenia.

Sunday Services by Wire.

For many years past, it is said, a Sunday school has been held every Sunday on a certain railroad. The superintendent propounds questions to the class over the wire at different places, prayers are said and a chapter in the Bible read--all by wire.--New York Tribune.

There are many small villages in the alkali districts near the Asiatic frontier where the blind predominate. In this region the alkali dust constantly fills the air, and those not actually blind have their eyes more or less diseased.

Australia is a great tea drinking country, and most of the medium sorts of black find a ready sale in the southern land. Very little green tea, and that usually for mixing, is imported there.

In a single season it is said that 5,000,000 dead birds were used by the milliners of our seaboard cities. Over 42,000 of these came from Cape Cod alone.

When the refrigerator is placed near the cook stove in the kitchen, the cook complains that the ice melts so rapidly that her milk sours every day.

Octavius Augustus had a mortal dread of thunder, and whenever a storm came he retired to an underground vault built for protection.

Indigestion, Dizziness. Take BEECHAM'S PILLS.

DR. SPEER & CO.

SPECIALISTS IN

NERVOUS AND CHRONIC DISEASES.

Main office at 146 Washington St. (Mining Journal building) Marquette, Mich. Branch office at Saginaw Mich., and West Superior, Wis.

The physician in charge of the office is a graduate of the Medical Department of Harvard University.

YOUNG MEN

Who may be suffering from the effect of youthful follies or indiscretions will do well to avail themselves of this chance.

DR. SPEER & CO.

Will guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$250. They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience.

MIDDLE-AGED MEN.

There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting sensation and weakening of the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits aropy sediment and sometimes small particles of albumen will appear or the color be of a thin or milky hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness.

LADIES

Finding it inconvenient to call at the office can be treated by mail by sending a full description of their case.

DR. SPEER & CO.

Will guarantee a perfect cure in all such cases and a healthy restoration of the organs. Examination and advice free to all. Remember the place, 146 West Washington street, Marquette.

P. S.--See our testimonials in the different papers from well-known people.

Never put off until tomorrow what you can do today. If you feel alarmed about your lungs take Dr. Speer & Co's. new lung treatment.

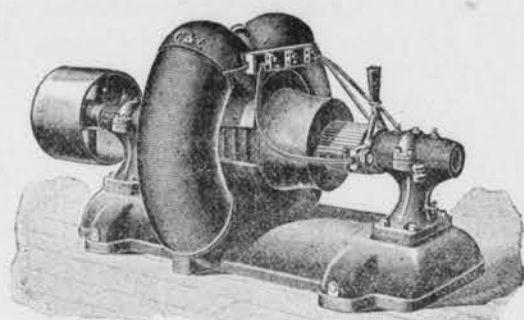

All around the world, from East to West, Pipe Smokers think Bull Durham best. How good it is, a trial will show. And make you smoke and praise it too. Get the Genuine. Made only by BLACKWELL'S DURHAM TOBACCO CO., DURHAM, N. C.

The products of the LAKE SUPERIOR SOAP COMPANY

Are fast becoming the favorite soaps of the housewife. Their goods can now be found in every town of the iron and copper country. Their brands are for laundry purpose, Housewife's Favorite; for toilet use and bath, Coco Castile. If you have never used them try them. We guarantee satisfaction. (12-14-eod)

MENOMINEE COMPANY ELECTRIC AND MECHANICAL

Electrical Supplies of every description. Office and factory MENOMINEE, MICH.

"PORTUANDO," The finest 10 cent cigar in the market. Sold by all first-class dealers. RUHL & BARRY, Houghton, Mich. Sole agents for the upper peninsula. Send for a sample and you will order again. (1-1-1m)

HANCOCK, MICH., is where A. PELTO, the Merchant Tailor, resides. His place of business is one door west of the Northwestern Hotel. He has an extensive stock of suitings to select from. He has earned the reputation of making stylish clothes and perfect fits, doing honest work and being prompt in executing orders. (12-24-eod)

C. BAUMANN, (Successor to Jas. A. Foster) MANUFACTURER OF FOSTER'S Patent Artificial Limbs, Trusses, Supporters and Apparatuses for all kinds of Deformities, Crutches, Elastic Stockings, Suspensory Bandages, Shoulder Braces and Metallic furnishings for Artificial Limbs. 29 and 31 Grand River Avenue. DETROIT, MICH.

Sturgeon River Lumber Co., Manufacturers of Timber, Lumber, Lath and Shingles, CHASSELL, MICH. Are prepared to furnish on short notice timber from 20 to 40 feet long. Also Pickets and Dressed Flooring, Ceiling, Siding and Clear Lumber. Also Hardwood and Hemlock for Mining and Railroad Purposes. Prompt shipment can be made by rail or water to any part of the country. Correspondence solicited.

F. W. READ & CO., LUMBER Mills at Eagle Mills and Michigamme. Manufacturers of ROUGH and DRESSED PINE, Hemlock, birch and maple. White pine and Norway bill timber, sash, doors, blinds, mouldings, shingles, lath, sheathing lath, etc. SPECIALTIES I. X. L. Polished maple flooring and basswood, birch and elm ceilings. WORLD'S FAIR PHOTOGRAPHS

Underground Workings of the Tamarack Mine Will Be Shown to Visitors.

FRANK OBEHNOFF GETS INTO A CURIOUS DIFFICULTY.

To Prevent Farm Hands From Losing Time He Sold Them Liquor and Gets Jerked Up.

James Reid of Port Huron, to whom was awarded the sewer contract, left last evening for home. He will commence work as soon as the condition of the ground will permit.

Locomotive No. 7 of the Hancock & Calumet road made a run at a big snow drift at the Pine street crossing yesterday morning. The rails spread and the engine was ditched. She was got on the track again about 4 o'clock.

Arno Miller, who has been manager of the L. Hennes & Co. store at this place for a number of years, will go to their Houghton store next Monday and Mr. Tony Wendell from the Houghton store will take his place here.

Register of Deeds Jaehning was in the city yesterday afternoon. Mr. and Mrs. D. D. Brockway arrived here yesterday en route for Ypsilanti. From there they may go to Tennessee, returning here about May 1.

A village caucus will be held at the opera house next Monday evening and another will be held Tuesday evening.

Rev. N. H. Mart'n went to Houghton last evening to officiate in Trinity church.

Civil Engineer Loweth of Minneapolis left for home today. John Trautla of the Star clothing store left Friday evening for Duluth, to be gone about ten days.

The funeral of Mrs. John Gerderich of Blue Jacket was held yesterday morning at the Austrian Catholic church.

The remains of Mrs. Ferdinand Halle, who lived near the Hecla dry, were buried in the Hecla Catholic cemetery yesterday. Services were held in St. Louis' French church.

Dr. E. H. Pomeroy, who accompanied Superintendent Hillary Messimer to Philadelphia, returned here Thursday afternoon.

Beef and beer were the commodities that were scarce during the snow blockade.

Express Messenger Thomas Van Ripper brought a telegram yesterday morning informing him of the death of his sister at Marquette.

Anton Sterling of Yellow Jacket had his right leg injured by falling rock in the South Hecla yesterday.

The missionary social at the Congregational church on Thursday evening was a very pleasant affair. The ladies had seven tables decorated in as many different colors and the electric lights were decorated to match.

The Osceola and Tamarack stamp mills are running again as rock is now coming abundantly.

The Quincy mill was not compelled to stop as the railroad to the mill was kept open during the storms.

Oscar Bone was up before Justice Finn yesterday on a charge of assault and battery preferred by Frank Obenhoff. He was fined \$10 and costs. Bone then got out a warrant for the arrest of Obenhoff, charging him with selling liquor without a license. Obenhoff waived examination and was placed under bonds of \$100 to appear at the next term of circuit court. It is charged Obenhoff kept liquor on his farm and dished it out to the men working for him so as to keep them from going to town and losing a great deal of time. He got into a row with Bone, had the latter arrested and Bone squealed on Obenhoff.

Brown's Theater company closed its two nights engagement here Thursday, playing to good houses both nights. Last night the company opened a two nights engagement at Houghton. "Fride of the Market" is the bill for tonight.

Hon. John Power of Escanaba has been engaged to deliver an address on "Home Rule" at St. Patrick's Hall on the evening of March 17. A grand concert will also be given in connection with the lecture.

The funeral of Aleck Siltla, aged 9 years, of the Atlantic mine will be held this morning from the Finnish church at the mine.

S. F. Wescott of Marquette was here yesterday. F. E. Jenks returned from the Democratic state convention yesterday. L. P. Rowland will speak at the men's meeting at Y. M. C. A. hall tomorrow afternoon. The concert and supper which was to have been given in the Methodist church on Washington's Birthday will be given this evening. A fine program has been arranged and the admission is free. There will be a small charge for the supper. The Hibernian Rifles expect to have their new uniform here on the 10th inst and will wear them for the first time on St. Patrick's Day. They expect to turn out fifty strong that day. Company A. Hibernian Rifles, will give a grand ball Easter Monday, April

3, at St. Patrick's Hall. Music will be furnished by the Houghton Silver Cornet band and the lady friends of the company will serve the supper. Special trains from Lake Linden and Red Jacket will probably be run.

HOUGHTON. The teachers' examination held Thursday and Friday was well attended, about sixty-three being present. The examinations were for all grades and some of the questions were very hard and kept the candidates busy thinking. The examiners will hold a meeting next Saturday to report.

E. G. Kiewe, agent for the Babst Brewing company, left yesterday noon for Milwaukee. He states that the company will erect a fine building here next summer. He has had plans drawn and has taken them with him for inspection at headquarters. He will also visit Chicago before returning.

The Atlantic Mining company was very fortunate during the late blizzard. Rock trains were only delayed a few hours in the morning and after the first trip regular schedule time was made. The mill was shut down a few hours only.

A little child of Mr. and Mrs. Choppers of the Atlantic mine strayed out during the recent blizzard and failing to show up at the usual time a search was made and the little one was found in one of the engine houses.

The second year class of the mining school will go underground in the Quincy today. Professor Denton will accompany them.

Frank Mayworm is disposing of his stock of jewelry and will retire from business the 15th inst.

Mr. A. D. Edwards has not yet accepted the nomination on the Democratic ticket for school commissioner. He says there are no politics in that office and if the Republicans put up a man he will not run.

Aluminum as a Coin. The Grenoble chamber of commerce, France, soliciting the demonetization of copper and its substitution by aluminum. The manufacture of the last named metal at the Froges works, it is stated, has of late experienced considerable expansion.—Baltimore Herald.

A Diamond Wedding. Irenos and Anea Elton of Vineland, aged respectively 95 and 92 years, celebrated their diamond wedding Wednesday, having been married 75 years.—Cor. Philadelphia Press.

STOOD THE TEST. Allcock's Porous Plasters are unapproachable in curative properties, rapidity of action, and are the only reliable plasters ever produced. They have successfully stood the test of over thirty years' use by the public; the virtues have never been equalled by the unscrupulous imitators who have sought to trade upon the reputation of Allcock's by making plasters with holes in them and claiming to be "just as good as Allcock's" and they stand today endorsed by not only the highest medical authorities, but by millions of grateful patients who have proved their efficacy as a household remedy.

Beware of imitations, and do not be deceived by misrepresentation. Ask for Allcock's and let the solicitation or explanation induce you to accept a substitute.

PROF. NIEL. Government chemist writes: I have carefully analyzed your "Royal Ruby Port Wine," bought by me in the open market, and certify that I found the same absolutely pure. This wine is especially recommended for its health restoring and building up properties; it strengthens the weak and restores lost vitality. Be sure you get Royal Ruby; \$1 per quart bottle. Sold by H. H. Stafford, Son & Co., Marquette, and J. M. Perkins, Co., Negaunee.

RHEUMATISM QUICKLY CURED. Three days is a very short time in which to cure a bad case of rheumatism; but it can be done, if the proper treatment is adopted, as will be seen by the following from James Lambert, of New Brunswick, Ill.: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right today; and would insist on every one who is afflicted with this terrible disease to use Chamberlain's Pain Balm and get well at once." 50 cent bottles for sale by H. H. Stafford, Son & Co., Druggists.

Chamberlain's Eye and Skin Ointment. A certain cure for Chronic Sore Eyes, Tetter, Salt Rheum, Scald Head, Old Chronic Sores, Fever Sores, Eczema, Itch, Prairie Scratches, Sore Nipples and Piles. It is cooling and soothing. Hundreds of cases have been cured by it after all other treatment had failed. It is put up in 25 and 50 cent bottles.

For sale by H. H. Stafford, Son & Co.

ROCKING AWAY HEALTH.

The Evil Effects of a Popular American Habit. SOME STARTLING REVELATIONS. A Great Trouble That Comes From an Unsuspected Cause—How It May Be Prevented—This Is Good Advice.

"Do you know that thousands of people are being rocked to death, slowly but surely?" These words were spoken by a well-known physician yesterday. He had just taken leave of a pale, sickly-looking woman who had come to him for advice.

"There is an example of it," he continued. "That woman has actually rocked her health away. 'Rock-a-bye-baby' looks very nice in verse, but it is a dangerous habit. It is one of the commonest causes of liver and kidney complaints. Yes, it is safe to say that the people of America are being literally rocked to death. In their hurry to get around quickly they are jolted on street cars, shaken up in the railroad trains or in carriages driven over badly paved streets or by running up and down stairs, and finally burn their systems out of order in the deadly rocking chair. In this way the whole body is shaken up, and impurities that ought to be removed from the system are circulated into every part of it and stay there. This lays the foundation for disease. Among the most common signs of ill-health that are brought on in this way are loss of appetite, sickness at the stomach, constipation, severe pains in the head, pains in the right side and under the shoulder-blade, dizziness, general weariness and debility. If you value your health and life keep a sharp watch for these signs, and when they become apparent check the danger at once by the use of a reliable remedy. In this way you can prevent the deadly effects of these troubles."

The doctor was right. He told a plain truth. Now, see what some others have to say: Mrs. Annie Jenness Miller, who is the acknowledged authority in America upon the subject of dress, lately said in the course of an interview: "What makes women brilliant? Vivacity, brightness and good health. Did you ever see a sickly woman able to entertain a party of bright people? It is impossible. Women must have proper food, freedom from care and a good friend in need. I mean by that some assistance physically. All women feel depressed at times, and all pleasure seems gone out of life. On all such occasions and indeed whenever blue and worn out she needs help. I know, because I have been in that condition myself. At such times I am assisted by the best friend that any woman ever had. It is Warner's Safe Cure. I mean it, and I have good reasons to speak as I do. You think I am a perfectly healthy woman; so I am, but I take several bottles of this great cure every season just as I take additional care in the selection of tonic-giving food. As you know, there are certain times when every woman needs assistance. At such times and before such times there is, so far as I know, but one thing that can help, and that is the great cure I have named."

This statement is fully endorsed by the well-known physician, Dr. S. Clark, who declares, "There was a time when any man or woman suffering from any form of kidney trouble had cause for despair. That time has passed away. For the past eight years I have treated every variety of kidney trouble in both men and women, and I do not believe there is a case so severe, no matter of how long standing, that cannot be relieved or cured by the careful and conscientious use of Warner's Safe Cure and Warner's Safe Pills."

THE POPULAR ROUTE TO CHICAGO. The Chicago & Northwestern railway is now running a daily line of gas lighted buffet sleeping cars between Northern Michigan points and Milwaukee and Chicago. Close connections is made at Negaunee with trains from Marquette, Houghton, Hancock, Calumet, Red Jacket and other points in the copper country, and passengers arrive at Chicago at an early hour in the morning, in ample time to make connections with trains of eastern and southern lines. To secure the advantages of fast time and the best accommodations, purchase your tickets via the Chicago & Northwestern railway. (3-24-1w)

THE BILL IN PRINTED FORM.

Marquette's Charter Amendment Bill Sent Up for a Final Overhauling and Endorsement.

SHEKEL-SEEKING FAKE MANUFACTURERS GETTING IN WORK.

Death of Joseph Price—From the Health Officer—Next Week's Social Events. Other City Events.

SHOULD BE RIGIDLY SCRUTINIZED

The amendments to Marquette's city charter have arrived from Lansing in printed form in the shape of House Bill No. 896 introduced by Representative Wagner on the 22nd of February and ordered printed for the use of the committee on municipal corporations. The common council meets in regular session on Monday evening next and should then go over the bill very carefully as many of its provisions have necessarily been modified since the rough draft of the bill was considered by the council. It must be remembered that for the next two years at least Marquette's municipal affairs will have to be conducted under the charter as amended at this session of the legislature and every effort should be made to render the instrument which is the organic law of the city as perfect as possible. Especially is this true at the present time when every indication warrants the belief that the next two years are to witness a wonderful development here and a time of great and rapid growth is always a very trying period in the administration of the affairs of any city. Let the charter amendments be rigidly scrutinized and then the bill can go back to Lansing backed by the assurance that it embodies fully the wishes of the people of Marquette as voiced by their direct representatives, the members of the common council.

Fake Correspondents.

For several years I have been given an unenviable reputation all over the state because of the sensational, damaging and altogether false reports telegraphed out to the leading newspapers of Michigan and the west by a small coterie of fake newspaper correspondents up there whom Bre' Newett, THE MINING JOURNAL and others have repeatedly attempted to "smoke out." It now looks as if the action so long visited upon Marquette's sister city were in store for the Queen City itself and THE MINING JOURNAL wants to serve notice right here that if a sudden halt is not called on a young man, at least, will learn very suddenly that this city is not to be lied about for the sake of "twenty-five cents a dispatch" by anyone.

These remarks are called for by a recent issue of the Detroit News in which appeared a very sensational dispatch about an epidemic of measles in Marquette, the closing of the schools, etc., and also a thrilling description of a terrific wind storm which blockaded all the upper peninsula railroads, unroofed a number of houses in Marquette and blew in the plate glass windows of Wilkinson's bank!

The report was so alarming that Marquette men who were in Detroit attending the Democratic state convention began telegraphing home to know if their families had escaped in safety—the unscrupulous leave who who sent out that report should be proud of his effort but a few more like it will insure an ice water bath for him and it wouldn't take a very large hole through the ice to admit him, either.

THE MINING JOURNAL is fully aware of the identity of the News' correspondent here and any further efforts on his part in the line of the examples given above will result in his receiving a roasting by name through these columns which will not leave enough cinders on his diminutive frame to cover a Columbian postage stamp.

Yesterday Morning.

Joseph L. Price died at his home, No. 131 West Arch street, yesterday morning at 8 o'clock of paralysis from which he had been a sufferer for about sixteen years. He was fifty-six years of age and leaves several children, one of his married daughters being the wife of Mr. T. Duquette, of Duquette & Metz. The funeral will be held on Monday morning with ceremonies at the French church.

By the State Board of Health.

At the request of the health officer THE MINING JOURNAL publishes herewith a letter recently received by him from Dr. Henry B. Baker, the secretary of the state board of health, together with an excerpt from the circular issued by the state board to the local health officers of the state and headed "The Work of Health Officers and of Local Boards of Health in Michigan," relating especially to communicable diseases:

STATE BOARD OF HEALTH, OFFICE OF THE SECRETARY, LANSING, MARCH 1, 1893.

Dr. G. J. Northrop, Health Officer, Marquette, Mich.:

Dear Sir:—I am informed that measles is present in your jurisdiction. Measles is a "disease dangerous to the public health," and therefore the law requires that it shall be reported. The state board of health has voted that, in accordance with the law, in all cases of measles, houses should be placarded, and after death or recovery, disinfection should be enforced as in other diseases "dangerous to the public health."

I send you by this mail copies of the revised document issued by the state board of health on the restriction and prevention of measles. I trust that you will distribute them where they will do the most good, and it is believed that if distributed to the neighbors of families in which the disease is present, the documents will be most likely to be read with interest and profit.

With a view to sanitary progress, we are trying to collect all the facts we can in regard to this disease, and this can only be done by the health officers reporting to us all such facts as come to their knowledge. Therefore, I trust that you will have the kindness to make weekly reports to this office (on blank sent by this mail) so long as the disease lasts, after which a blank for a final report will be sent to you.

Very respectfully,
HENRY BAKER,
Secretary.

The following are the directions re-

guarding measles given by the state board:

Measles—The question is frequently asked what shall be done in the case of measles? As in Michigan about 200 lives per year are lost by measles it is clearly a "disease dangerous to the public health" and, as such, the law requires that prompt notice of it shall be given by the householders, hotel keeper, keeper of a boarding house, etc., as specified in the law on page fifteen of this pamphlet. Not reporting is declared to be a misdemeanor punishable by fine or imprisonment, or both, in the discretion of the court. Act 137, laws of 1883, requires the health officer (unless otherwise ordered by the local board of health) to order isolation of infected persons, giving public notice of infected places, disinfect premises, etc., under penalty of a fine and imprisonment if the fine is not paid. Bearing upon the duty of local boards of health, which may be asked to make regulations modifying the duties of the health officer, specified in Act 137, laws of 1883, the state board of health voted, April 15, 1890, that, in its judgment, health officers should placard premises, as in outbreaks of other "diseases dangerous to the public health." The legal requirements for reports to the local health officer should, therefore, be enforced; and it is expected that valuable information will result from the reports by local health officers to the state board of health. The evidence thus far collected tends to prove that between the ages of ten and twenty years the danger from measles is much less than in infancy, childhood, or adult life, and it is quite possible that through a continuance of the reports information may be obtained which will permit of improvement in laws and customs so that the death rate from measles may be greatly lessened.

In a Burst of Glory.

The tenth and last dance in the present series of Masonic parties will be given at Masonic Hall on Thursday evening of next week, March 9, and the members of the committee, which has by its untiring efforts given to the series now drawing to a close the reputation of being the finest and most enjoyable series of dances ever given in Marquette, will exert themselves to the utmost to make this, the closing dance of the series, the most brilliant of them all and a fitting climax to the nine which have preceded it.

Hughes' full orchestra will furnish the music as usual and will bring out a number of new airs for the occasion, while the refreshments will be largely supplied from Milwaukee and will comprise many new features. At the conclusion of the party it is expected that "The committee" will be unanimously endorsed for re-election and its members authorized individually and collectively to sign themselves for all time to come, "J. G. F."—and they are that.

Y. M. C. A. Notes.

The following is a portion of the program to be given at the men's meeting at the Y. M. C. A. building tomorrow afternoon at 4 o'clock:

"God is a Spirit".....Sterndale Bennett
Methodist Church Choir.
"Seek Ye the Lord".....A. Baumbach
Male Quartette.
Address.....Hon. C. R. Brown
"Redeemed and Blest".....D. W. Whittle
Male Quartette.
"Lord Remember Me".....Lange
Methodist Church Choir.

The committee desires it to be generally understood that these exercises, which will be conducted by Mr. M. D. Crawford, will begin promptly at the hour mentioned above and will continue no later than 5 o'clock.

All the junior members of the association are requested to join the gymnasium class at 10 o'clock this morning.

Considerable study on the part of the members of the chorus class and a decided progress in the rudiments of vocal music is an evidence of the genuine interest which Mr. Eply's effort is creating in that department.

Better Try Again.

According to the morning paper Mrs. Longyear is about to start a nursery where children may be cared for while their "motters" are engaged. Now don't be mean enough to lay this bull to the compositor. You have all night to read proofs.—The Mortgage Times.

Poor old discredited Dizzy—long before the proof-reader who marked a correction from "motters" to "mothers" had discovered that a "u" instead of an "h" had been picked up by the compositor in correcting the proof, the compositor himself had acknowledged the error to his associates in THE MINING JOURNAL composing room and the joke of it is that he was the same ex-Times man whom Dizzy jumped on before. Try it again, old man, for just now you're the laughing stock of the entire MINING JOURNAL composing room force.

The National Union Party.

On Friday evening of next week Mesnard Council, No. 38, National Union, will give a dance in Fraternity Hall with Hughes' full orchestra to furnish the music. The refreshments will be served by Heppner and will be covered by the regular tickets which will cost only \$1 per couple. A limited number of cards have been issued and as the National Union dances have always been very enjoyable in the past everyone is anticipating a very pleasant time. The following committees are in charge of the affair: Arrangements—Jos. H. Bice, Dr. H. W. Banks, A. Thurtell; reception—H. J. Lobdell, R. M. Abel, M. J. Sherwood; Dr. A. M. York, B. O. Pear; floor—C. E. Marsh, C. E. Bice, Dr. C. O. Boice.

Hughes' Opening Night.

There was a large attendance at Fraternity Hall last evening, the occasion being the opening night of Hughes' dancing class. After the time devoted to instruction the full orchestra played splendid dance music until 12 o'clock and everyone had a very jolly time. The attendance was remarkably large, especially in view of the short notice given, and augurs well for all the hours in the series. The next social and meeting of the class will be announced in a few days and at it a new quadrille, the "Columbia," will be taken up. Hereafter the orchestra's regular caller will be present for the quadrilles.

Will Try Six Miles.

Glick, the remarkable square-heel-and-toe walker, will attempt to do six miles or better in an even hour at the Casino this evening in order to break the record, the distance being something never before attempted in that time on a hard wood floor. There will be skating as usual and a large attendance is expected.

KASSEL OSHINSKY,

WHOLESALE AND RETAIL.

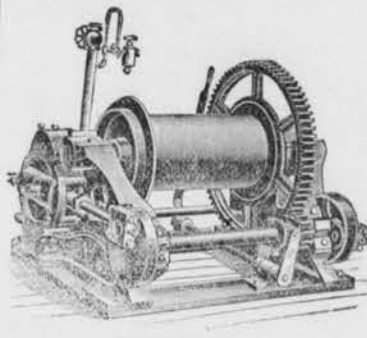

The only leader of low prices in the city.

There is no one instrument, unless, indeed, it be a large pipe organ, capable of the variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello and all the snap and brilliancy of the piano. See and hear them at Conklin's.

A NOTE IN MUSIC.

Energetic adherence to business principles has given us a favorable place in the esteem of the community. Good goods bring custom, and increasing patronage means a wider scope of action. A man on so secure a basis as this can figure intelligently and we have figured to give the customer the benefit of our prosperity. The prices we make will please you. A profit sharing that takes the substantial form of perfect goods at low margin of cost.

Our line of shoes, rubbers, pads and moccasins is complete. If you want good value for your money go to

THE LEADER, H. F. HANDFORD.
