Secretary Carlisle Is Believed to Have About Decided on That Course.

HAS FULL AUTHORITY UNDER THE PRESENT LAW

But Folly of Congress Will Compel People to Pay Larger Interest Than They Ought.

DENVER BLUFF IS CALLED. few days the president has had the opcongress together immediately. The

power exists to issue bonds for the purpose of strengthening the treasury gold

bonds and has not indicated what pol- visitors. icy he will pursue.

AN APPEAL TO THE PEOPLE. President Cleveland's Probable Treatment of the Financial Question.

agreed that the earliest possible repeal of the Sherman act is both desirable and necessary for the party's welfare. They fear, however, that a majority for the repeal could not be secured at present in either house of congress and that a failure might have a disastrous effect. Hence it is thought the course to delay the assembling of congress till early in the fall in order that public shows supposed to have been an earth-quake at 12:30 o'clock this morning. At this place the shock was especially early in the fall in order that public early in the fall in order that public shows a special property of the street in their night robes.

exercise its influence in the meantime upon senators and representatives.

"The president and his cabinet are fully alive to the dangers involved in the delay in consequence of the apprehensions regarding the immediate future among business men throughout the country and propose to guard against them by early action in accordance with the assurance in the inauguration address that, so far as the executive branch of the government can intervene none of the meantime upon senators and representatives.

Difference in the meantime houses to the street in their night robes, supposing that their houses were settling or falling. The seisine disturbance lasted several seconds and then passed away in a southerly direction.

In 1863 he was promoted to the rank of eaptain. In 1864 he was appointed assistant secretary of war and assistant secretary of war and eastistant secretary of the was in the resigned his secretary of the washington. In 1864 he was appointed assistant secretary of the ward made to the rank of eaptain.

UNPROFITABLE CONTROVERSY. Most People Think Both Congresses Spent Too Much.

WASHINGTON, March 8 .- The controversy as to the comparative expendior as it was called, "the billion dollar congress," includes what are known as indefinite appropriations, made nec essary, it is claimed, by the legislation of that congress. It is upon these two matters that the committees do not agree, although the actual figures on direct appropriations are the same.

Mr. Allison, chairman of the senate committee, has prepared a statement in the second degree for his part in the

committee, has prepared a statement in the second degree for his part in the second degree for his part in the that shows that appropriations for the first session of the Fifty-first congress sentenced to imprisonment for hig. In amounted to \$463.398.510 and for the second session to \$725,018.682, making a grand total for that congress of \$988.

Death of a Plancer

CMICAGO, March 8 —Mary Montgomery, a domestic at the residence of Thomas W. Porner, in Pullman, was charge of four officers he was taken at strangled to death in her room before once to the state prison at Leavenworth.

Death of a Plancer

LIKELY TO ISSUE BONDS. tions by the Fifty-second congress ever the Fifty-first congress of \$38,404,005.

The real question for the people to consider, says Mr. Allison, is whether the appropriations are in excess of the revenues of the government and he answers by saying that they are not when the sinking fund is excluded. With all these appropriations he finds that the revenues of the government are sufficient to meet them.

Legislature Rejects Constitutional Amendment Fixing Salary of Its Members at \$750.

cient to meet them.

Mr. Holman is preparing a statement of the other side of the case.

HAD A NERVOUS SHOCK.

Interior Department Clerks Find Hoke Already at Work.

NEW NEGAUNEE INDUSTRY.

Andrew Henrickson About to Open Shop for Turning Wood.

Hint for Dog Owners-Winner of Rowe's Watch Finally Reveals Himself.

WOOD TURNING SHOP.

Andrew Henrickson is making preparations to open a wood turning shop on Silver street, next to Lucas' blacksmith shop. The boiler and engine formerly used in running the machinery in Griffey & Flynn's printing office has been purchased by Mr. Henrikson and is now being set in place. Wm. Henrickson, who recently conducted a meat market on Jackson street, is Andrew's brother, and will be employed as general manager about the place. The necessary machinery to turn out ordinary work will be put in as soon as possible.

Mr. Henrikson has had a large experience in the turning and mill busi-He has been employed by F. W. Read & Co. at Eagle Mills for a num-ber of years, and has the reputation of being a first-class workman.

A short time ago Mr. Henrickson de-

vised a couple of models in the shape of advertising bottles on which he re-ceived patents. One of the models rep-resents a beer bottle, the other a cut-sur bottle. They are separable into resents a beer bottle, the other a catsup bottle. They are separable into
three parts. The bottom can be used as
a tobacco holder, the center for cigars,
and the head and neck is designed to
hold matches. Wm. Henrickson was
in Milwaukee a few days ago showing
the bottle to the brewers of that city.
Mr. Pabst was favorably impressed
with it and said that he would immediately order 25,000 of them had it
not been for the enormous amount of
money he had to expend this year in
preparing for the World's Fair, where
his beer is to be exclusively used in the
exposition buildings. Mr. Pabst said
he would give Mr. Henrikson an order exposition buildings. Mr. Pabst said he would give Mr. Henrikson an order for a number of them at a near date. Both models are a perfect imitation of what they are designed to represent. They can be seen at the shop of Mr. Henrielson. Henrickson.

INDIVIDUALITY IN TYPEWRITING.

Many Little Peculiarities in the Work of

BEN K GUMBALL DIE KA

Many Little Peculiarities in the work of Different Persons.

The typewritten page has no individuality for most persons, but a study of the subject shows many characteristics by which the work of different machines and different operators can be distinguished. This field presents fewer opportunities than does that of the handwriting expert, but is, nevertheless, of some interest and impor-tance. In a legal ontest the whole case might hinge on the authenticity of a page

of typewriting.

For instance, it became necessary in a court not long ago to find out whether one page of the long typewritten document in evidence had not been replaced with another in which some of the words had been changed. In this case of course the suspected page was written on the same kind of a machine as the others. The difference between instruments of the various manuaged to go down stairs to facturers was therefore of no service.

An expert stenographer and teacher of typewriting was called as a witness. In reply to questions put by counsel he said that as a general rule it was not difficult for an expert to distinguish between the writing done upon different machines of the search of the searc

chine, but not consecutively.

The reasons given for this conclusion were, in the first place, that the type used on page seventeen was clean; on the others many of the smull letters were clogged up. The "e" and "s" were especially bad. The ribbon used for page 17 was not so much worn as that for the rest of the docu-ment, and the writing was more uniform in color; the latter fact was in part due to the superior skill of the writer of the single page. The letters were in better alignment on that page than on the others, in which the "t" and "e" were badly out of their

the "t' and "e' were badly out of their proper position.

In page 17 the "i" was accurately centered; in the rest it was to the left of where it should be. The "p" was upright on the suspected sheet, and leaned a trifle on the others, being turned in the bar. The one sheet, also, had a wider margin by two spaces than those which followed and preceded it. When asked why he believed that dif-

ferent persons wrote the sheets he said that the operator who turned out page 17 was more expert than the other. The former's touch was more uniform; none of three spaces between his sentences; the others only two. The first made a space after a comma; the latter did not. The writer of the bulk of the paper was

less acquainted with the rules of punctua-tion than was the other man. One man always put a period and a colon after the words "to wit;" the other used only a comma. For the figure 1 in the paging of sheet 17 a lower case "!" was used; on the other sheets a capital "I." The jury could hardly help agreeing with the expert's conclusions.—New York Tribune.

A Queer Custom.

ster. It is a dangerous enterprise, for the tower is 400 feet high, and the ascent is made from the exterior of the building. The steeplejacks in their ascent have to leap from stone to stone, often a yard apart, and one false step on the narrow ledges would be death. At the topmost pinnacle

day of the grand duke of Baden, three diseases, of 35 West Fourteenthstreet, New Men undertook the ascent. One of them W. E. Kingsbury, representing Johnson Bros., cracker dealers, of Milwankee, was in town yesterday, Mr. Kingsbury has been sick for the past two months, this being his first trip since before he was taken down.

A fall as a rule injures a drunken man much less than a sober one, because the controlling power of the mind being rendered nil through intoxication the body falls as an inert mass, and thus the chances of injury are lessened, for, strange though it may appear, it is no less a fact that the most comerous cases of injury arising from a fall are caused by the effort, volun-

fact to those who have to deal with such cases that whatever injuries are so caused heal much more rapidly than in the case of sane people, the mind having more to do with retarding or assisting nature's efforts than is generally known or real-ized.—Boston Herald.

A Foreible Lesson.

A great and most patent error in taste is A great and most patent error in taste is the habit of monopolizing the man who has tarried to pay his compliments to a girl in passing, until he and all lookers on are made aware of a certain apprehension on her part lest he escape. A severe, but useful, lesson was conveyed to a very young girl recently. An old friend of her father's family approaching under these conditions to give her gracious salutations, she exhibited such evident nervousness in answer, that the gentlemm laid a hand on the that the gentleman laid a hand on the young fellow's arm and remarked, with pleasant emphasis: "There, my dear, I have him safe, and he cannot get away. Now you may go on telling me what you began to say."—Ladies' Home Journal.

Compressed Tea.

A novelty for travelers who enjoy the cup that cheers is "compressed tea." This is put up by certain Russian firms resident in China. It is made of the fine dust of tea leaves, but is none the less expensive for all that, for it is compressed by the powerful force of steam machinery into compact tablets which take up about one sixth the space which the same amount of loose tea leaves would occupy. This tab-lets are in turn inclosed in tin foll, then in fancy paper wrappers and finally packed in metal lined cases.—St. Paul Pioneer Press.

DOES THIS MEAN?

What Power or Influence Stayed Her Hand?

Why Could She Not Burn the Book as She Twice Tried to Do?

Certainly This Is a Most Singular and Remarkable Letter.

Following is one of the strangest of letters. It is from the poetess and author Mrs. F. Helsten, who resides at 464 Bedford

"One day my door bell rang. I managed to go down stairs to answer it. On opening the door I found on the step a I picked it up, went back upstairs and laid it aside, not having life or energy to care to read it. I read very little else but the Bible at that time. I was so

sick. I was only just alive.
"I had tried different doctors, each tell-"I had tried different doctors, each telling me I had a different disease, till I was impossible to determine upon which of them a certain sheet was turned out. Still them a certain sheet was turned out. Still the sheet was turned out the sheet was the sheet was turned out. Still the sheet was turned out the sheet was turned out the sheet was turned out. Still the sheet was turned out the sheet was turned out the sheet was turned out. Still the sheet was turned out the sheet was the there a certain sheet was turned out. Still there were many little marks of variance in the writing of different machines, and even of the same one, at different times or when used by different persons. The witness old not believe that the page in question was written at the same time that the others were, nor by the same person. All might have been written on the same machine, but not consecutively. day, when I would lie down I felt as if I should never get up again.

"One day I started to make a fire; the the phamphlet lay in sight, I took it to use and as I went to put it in the stove it seemed as if a hand pulled my sleeve, and I could not do so. I again attempted to burn it and again it seemed as though a hand pulled me back. As I had been feel-

ing very much worse, as if I would die, fact so nervous and trembling, my head aching, I composed myself to read it. It was a pamphlet advertising Dr. Greene's Nervura blood and nerve remedy. I became so interested in what I had read that I decided to use this remedy.

"In one half hour after beginning its use I felt a change for the better. That A medieval custom prevails in Freiberg, in Breisgau. This is observed on the birthday of the reigning grand duke of Baden, and consists of a foolbardy trip to the topmost part of the tower of the minder of the state of the state of the state of the state of the state. I am well and enjoy good health. I wish all that suffer would use this wonderful medicine, for without it I should have been dead."

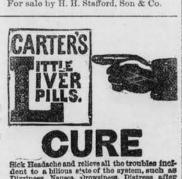

The above remarkable cure will influence thousands to use this wonderful medicine, Dr. Greene's Nervura blood and nerve This is the season of the year remedy. when everybody needs a spring medicine, and all who are ailing or who are out of order from spring debility can be immedipistol shots announce that the climbers have succeeded. VIRGINIA,

Is the most centrally situated town on the great Mesaba iron range. It has a great natural location, sloping gradually from the mines to the shore of two beautiful little lakes and surrounded by charming scenery. The Duluth, Mesaba & Northern has reached the place and building is going on at a lively rate. The townsite surrounded by one of the best groups of mines on the range, mines capable of producing anywhere from 1,000,000 to 2,500,000 tons of ore annually. The surrounding country is well timbered, pine predominating. A saw mill is now operating and a large one is about to be erected, the lakes affording excellent boomage. The village has a system of water works, a bank, feed stable, several stores, saloons, restaurants and hotels. A postoffice and newspaper is now established, the latter by Dr. Fred Barrett. Virginia is destined to have a population of at least 5,000 and people seeking new locations would do well to look it over. For further information write to

STRETCHED UNCONSCIOUS ON THE CARPET

Prize-Ring Frequenters Say Knock-Out Blow Was Hardest They Ever Saw Struck

FITZSIMMONS WON EASILY.

NEW ORLEANS, March 8 .- Fitzsim mons knocked out Hall in the fourth round of their fight tonight. Hall made a plucky fight but was clearly outclassed.

So close was the match considered that for a long time even money was vention at Cincinnati in 1876 that he suf-wagered. The pool rooms let the bettor take his choice and there was not much choice during the day. It was Blaine forces and nominating Hayes. nine to ten on Hall at nightfall and ninety-five to one hundred on Fitzsimmons. An influx of Fitzsimmons men and Fitzsimmons money appeared late in the evening, beat down Hall and made Fitzsimmons still the favorite. Wild rumors ran riot before the after-There was an authoritative threat of interference every hour of the day and when these had been effectually run to the earth there was a rumor that Hall had fallen out with his trainer, that the fight was fixed and that the purse would not be forthcoming.

R

Neither man worked on his last day before the fight. Each hugged his quarters except when Fitzsimmons drove in a carriage to the criminal court to become an American citizen and when Hall went around to Moreau's to get a bite with Charley Mitchell. The crowd was representative in character and was thoroughly cosmopolitan. The tough had a place in the gallery and in tough had a place in the gallery and in the lower seats but he was undemon-strative out of respect for a full force of police. In the Hall corner were Light Weight Champion McAuliffe, Charley Mitchell and Squire Abingdon Baird, with John Kline holding the watch. Fitzsimmons was attended by his brother, Billy Fitzsimmons, Martin Julian and Frank Bosworth, D. G. O'Malley keeping time.

The men entered the ring promptly at 0 o'clock, Hall leading the procession. Referee Duffy took his position sion. Referee Dury took his position and both he and Hall were cheered loudly. Fitzsimmons came in waving the United States flag and received a tremendous ovation. President Nocl and Chairman Joseph Short joined the men in the ring while Captain Barrett took charge of the pulies detail. Process. charge of the police detail. Referee Duffy made a neat speech.

THE FIGHT BY ROUNDS

First round-The usual handshaking marked the opening. Both men st-pped nimbly to center and feinted for an opening. Fitz attempted a left upper eut in the stomach but Hall backed away. He tried again for the head and failing clinched. Hall led for the stomach but received a tap on the shuolder. Fitz scored a heavy left on Hall's mouth and a right on the heart without return. The audience yelled. Hall made a wild left swing and Fitz smilingly dodged nway. Fitz landed a heavy left on the stomach and dodged a return from the same hand. Hall landed to be registed to the stomach and statement of the same hand. ed a heavy right on the ear and Fitz clinched, Hall hitting Fitz with the

Second round—Fitz tried for the stomach with the left, missed and backed away. Fitz attempted a right on the body, missing because of Hall's clinch. The men were extremely cautious but Hall received a heavy left on the stomach, responding with the left on the head. Hall landed a good left blow but received one on the head in return. Hall was trying to land his right and Fitz shifting. Hall slipped away, Fitz forced Hall in the corner and the latter clinched to avoid punishand the latter clinched to avoid punishment. Fitz tried the left but was neat ly stopped. Both men in a hot rally scored rights on the head.

Third round—Fitz was the agressor, feinting with his left which he landed on the stomach. Hall reveived a right on the body and the head. A moment later Fitz received two heavy lefts on the face and a heavy right upper cut. Fitz clinehed to save himself and Duffy had a hard time marting them. Both had a hard time parting them. Bota men were fighting hard when the round

Fourth round—Hall came up the ag-gressor. Fitz landed a heavy right on the jaw, knocking Hall into the middle of the ring. The blow was a tremend-ous right hand swing and landed full on the point of the jaw. Hall was a long time coming to but he finally drew his left band up to his nostrils and was helped into his corner by Fitz-immons,

referee awarded the contest to Fitzsimmons, who waving the United States flay over his head, was carried over to his opponent's corner on the seconds' shoulders. As he was leaving the ring he received a tremendous ova-The fight was the easiest Fitzsimmons

The light was the easiest rits immons had in America and the blow that knocked Hall out was universally said to be the hardest that any of the old ring habitues ever witnessed. The au-

shout went up.

Hall lay unconscious on the carpet
and the crowd feared he had suffered
serious injury. Hall's second with a
club official and Dr. Betts ran quickly to the prostrate pugilist and applying restoratives gradually brought him Fitzsimmon also ran to the center of the ring and pulling off his gloves, helped to re-suscitate his conquered foe. When Hall had been brought to be was carried limp to his chair where he remained until

able to go to his dressing room HE IS A DRUNKEN BRUTE.

Officer Who Strung Up Iams Will B PHILADELPHIA, March 8.-Captai Thurber Braser, commanding the Stat Fencibles of this city, tod y forwarde to General Robt. P. Dechert, charge against Lieutenant-Colonel Streater o the Tenth regiment, based on the latter's alleged improper conduct at Santa Fe 05
Washington last Saturday. The charges Tamarack 160 00

General Dechert will forward the charges to di-vision headquarters and from there they will be sent to Governor Pattison. Lieutenant-Colonel Streator is the of-ficer who ordered Private Iams strung up by the thumbs at Homestead last

> Blaine's Day of Fate. It is a curious fact that many of Mr. Blaine's friends and many of the news-

paper men here who have watched his career held firmly to the belief that he would die on a Sunday. Sunday was his day of fate. He was born on that day, and it constantly recurs in connection with the chief events of his life. It was on Sunday that he regained possession of the noted Mulligan letters, which that person was seeking to blast his career and drive him from public life. It was on the Sunday previous to the assembling of the Republican con-

It was on a Sunday that he prepared his celebrated Florence letter declining to be a candidate in 1888, and it was on the same day that he sent a peremptory cablegram to the same effect to Representative Boutelle at Chicago. on Sunday that his letter to Chairman Clarkson last February was given out in which he said his name would not go be fore the coming convention. His statements of the American side of the Behring sea controversy and the New Orleans affair with Italy were given out on Sun-

His resignation of the portfolio of state was twice determined on Sunday, the first to President Arthur and the econd to President Harrison, although the latter was not sent to the president until Monday morning. That his last illness was hopeless became known to the public Sunday, Dec. 18, and it was on Sunday, three weeks later, that his ators physicians finally admitted the hopelessness of his case.-Washington Cor. Chicago Inter Ocean.

The Woman Won.

An exciting race took place Monday afternoon in Walla Walla between Mrs. Mary E. Miller of Kennewick, Yakima county, and Frank Foster of the same place. They both came in on the evening train over the O. and W. T., and neither waited for the car to stop but jumped off and made frantic runs for The woman offered to buy the hackman's team if he would get her to her destination in time, and the man slipped a \$5 piece into the driver's hand in order to facilitate matters, and in less time than I take to tell it both backs were speeding up the street at a break-

What was the cause of all this? Why. it was a race between them to see who could get to the United States land offices first to file on a piece of land near Kennewick. The man arrived there first, but made a mistake and got into the wrong office, and in the meantime the woman had arrived and slipped in ahead of him. The woman also had her witnesses with her, while the man was unprepared in this important particular; Toledo, March 8.—The engineers consequently she "got there with both and firemen of the Toledo, Ann Arbor feet."-Washington Statesman.

"He Is a Lawier."

Washington, March 8.-Hon. Frank Lawler today presented to President Cleyeland his application for the office right on the head.

Second round—Fitz tried for the of postmaster of Chreago

AGITATORS ARE AT WORK

Plans Afoot to Organize Telegraphers to Get Higher Wages or Strike.

ONE M'CABE HAS BEEN WORK-ING IN MILWAUKEE.

Movement Starts With Railroad Op erators but Organizers Will Try to Make the Strike General

ARE ORGANIZING IN SECRET MILWAUKEE, March S .- If the efforts

of some of the leading agitators in the several organized bodies of telegraph operators throughout the country suc ceed there will be an extensive teleup a general strike of all regular railway telegraphers as well as of comthe Order of Railroad Telegraphers are these circumstances, can well afford to purpose of bracing up the boys and securing new recruits. They are quietly giving it out that a walk out of extensive proportions is being planned and that it will take place within two throughall the four quarters of the globe, months if the operators will be firm. A leading representative of the rail-

way organization, a man named McCabe

from lowa, who took an active part in

the great strike of 1882, spent several days in Milwaukee last week talking the matter up with operators. He then left for Cheboygan and other points and expected to make a complete tour of the state for a similar purpose. He worked strictly on the quiet while here but made the mistake of too strongly arging the matter upon operurging the matter upon operators who were not in sympathy with the movement and they in turn gave some valuable pointers to officials who are watching matters closely. While here McCabe made a strong effort to get all the operators in the city who do not be a strong of the contract of erators in the city who do not belong to the Order of Railroad Telegraphers to join at once, teiling them that there would be a strike wihch would win and they had better get on the loaded wag-on. He also stated, in strict confidence, that men were at work among the Western Union operators and that every in-ducation pointed to a general strike of the commercial men along with the railway operators unless the demands to be made were promptly complied

It is not learned just what the advance to be demanded will be but it is said it will be too large for the com-panies to entertain. In view of the possibility of the strong effort now being made to organize a winning strike it is said the railway companies are looking overtheir men who are now in other positions but who were formerly in the event of an emergency.

BROTHERHOOD MEN OUT.

the Ann Arbor

& Northern Michigan railway quit work this morning pursuant to the orof Locomotive Engineers and Chief Sargent of the Firemen. As yet the strike has had no effect upon the movements

if he expected the trouble would spread to the various connections of the Ann Arbor and replied that it all depended Mgr. Satolli in Baltimore.

BALTIMORE, March 8.—Archbishop Satolli arrived here from Washington last evening and will be the guest of Scent that a general strike is not only looked for but hoped for. If the non-days. This morning he began a series of lectures on the closing at work there would seem to be not continued to be readered capable of walking on to be readered capable of walking on to be readered capable of walking on to a platform, remaining there for a stated days. This morning he began a series of feetures on theological subjects to the students of St. Mary's Seminary.

ONUCAGO WARNEYS. employes of the connecting lines.

CHICAGO, March 8.—A meeting of railway general managers held today to consider the application of the switchmen for more wages adjourned until tomorrow withoutaction.

Curious and unusual sight seen from Vauxhall bridge, but one gentleman who had noticed it at Chelsea bridge followed it along the Thames embankment for some distance.

The area of the muss was several certs at which Marc Patti here to the property of the speculators have sent men armed with respect to the property of the muss was several certs at which Marc Patti here.

A Lost Sonn Plate Found.

I hear a story, but cannot verify it, to the effect that, in clearing out her old house preparatory to moving to the new one, Mrs. Stevenson actually found the missing gold soup plate that has prevent-ed her from asking more than 11 people to her state dinners. It was found, so 'tis said, stuffed way down into the back of one of the great sofas that adorned the middle drawing or music room. It is surmised that one of the indigent foreigners whom she so willingly entertains of a Sunday night managed to slip it into his lap at dinner, then into the back of his waistcoat and eventually down the back of the sofa, whence he hoped to extract it before going home. Foiled in this, he left the valuable piece of plate in its hidding place to become the source of Ineffable annoyance to its hostess.- New York Recorder.

Broke Into His Former Prison

The case of persons trying to escape from a prison is of rather common occurrence, but the fact of a man trying to force an entrance into one may be mique. This, however, is what hap-bened last week at the Plotzensee prison. ear Berlin, where at night an individ cal scaled the prison wall and safely landed in the yard. On being arrested ne was found to be a former inmate, come, as he said, to call upon a friend he had made during his involuntary seourn.-American Register.

English Ivy.

The English ivy attains so great an age that in England they say it never dies. There are ivy stocks ten or twelve inches in diameter which are known to have been lanted as slips 600 or 800 years ago,-American Farmer

Perhaps the greatest postal advance of recent times is that which England has just decided to adopt—penny postage for its vast empire. The British postof-the modern france, notwithstanding that a great deal of ridicule is cast upon it. Mine. Cheliga-Loevy, although not a ferrodwoman by highly started the presentation of the presentation of the presentation of the presentation. fice department, after much urging, has finally accepted this proposition, which has been pressed for years by that indefatigable reformer, Mr. Henneker Heaton, and as soon as the necessary arimperial postage of a penny—2 cents—will be established, and for that amount a letter can be carried from Engle. will be established, and for that amount a letter can be carried from England not only to Canada and the West Indies, but to India, Australia and even the center of Africa. This is the cheapest postage ever proposed.

The United States have been making.

this matter we must acknowledge, and it is a striking tribute to the success of which won the approval of Simon and graphers' strike between April 1 and the opening of the World's Fair. It is learned from the best authority that a learned from the best authority that a strong movement is now on foot to get a year to the government, whereas we cerns women's work. usually have a deficit in our postoffice accounts. The truth seems to be that way telegraphers as well as of com-mercial operators. Representatives of the profit. The United States, under at present scouring the country for the purpose of bracing up the boys and purpose of bracing up the boys and it will be repaid for them in a short time. It will strike every one at once that if eago Post. England can maintain a penny postage for its vast empire, scattered as it is it ought to be easily possible to secure a reduction in the rates now charged for foreign postage.—New Orleans Times-Democra

richer young men with whom he associates. Early in the winter, when it appeared that there would not be any cold weather, and he found himself in somewhat straightened circumstances, he pawned his overcoat. At the expiration that head; if self conceit is so large a share of the piedge, the weather still being of his natural makeup that he cannot be mild, he neglected to renew it. The coat mild, he neglected to renew it. The coat not being called for, the pawnbroker without thinking himself entitled by disold it to a colored man. Two or three days after, the dude wanted the coat. He was very much discomfited on learning that it had been sold. He ascertained the address of the colored man to whom it had been sold. He found the fellow, paid him the amount that he had paid the pawnbroker and took his coat. The fun of it is that the colored man is a retainer in a suburban family with whom the young man associates. young man doesn't know anything about this, but the family-through the colored man, who gave the thing away-know all about the overcoat.—Cincin-

A Great Season For Maple Sugar.

"Unless I am greatly mistaken." said Loren Cushman yesterday, "the coming raphers and who can be counted on spring will be a great season for maple sugar making. It is well known to those who have engaged in that business that a good season always follows a winter No Freight Trains Moved Yesterday on that furnishes abundance of cold weather. The maple sap is always sweeter after a period of intense frost and furnishes a larger percentage of sugar. Not only that, but the trees yield a larger quantity of sap after a cold winter than they do after a winter that has frequent ders of Chief Arthur of the Brotherhood thaws and periods of warm weather. The snow in our county is very deep, and unless remarkably warm weather should come it will be on the ground until well along in April. There is such should come it will be on the ground of the company's passenger trains but no freight traffic has moved all day. A number of new men have been placed at work and Manager Ashley claims to have applications from many more.

Chief Arthur was asked this evening the averaged that trapple would small make more of the toothsome sweet than the company of th eason, but when we get at it we shall Bazar we have made before in years."-Nor-

Porcine Longevity In Georgia

We heard yesterday of a hog being captured in the river swamp a few days ago that was marked by old Uncle Jack Hurst in 1870. This would make the hog 22 years old, which is a most remarkable age for a hog to attain.-Cor Atlanta Constitution.

If prayer and womanly influence are doing so much for God by indirect methods, how shall it be when that electric force is brought to bear through the battery of the ballot box?-Frances E. Wil-

it. Mme. Cheliga-Loevy, although not a Frenchwoman by birth, started the present movement, and she works unceasingly to ameliorate the lot of her poor sisters under the existing laws and regulations. She is the president of the International

The United States has been making many improvements of late in postal matters, but it has never been able to catch up with England, whose lead in this matter was marked to the catch up with England, whose lead in this matter was more able to catch up with England, whose lead in

tured. She claims absolute equality with men, neither more nor less, and is by con-viction a socialist. Her mode of life makes it almost impossible for her to go much literary and political circles.-Chi

The College Athlete.

It is a debatable question whether it is wholesome for a college youth to win the amount of attention and applause that falls to the lot of a successful athlete, secing that he must soon leave college and be A bude and His Overcoat.

A story is out on a certain young man whose purse is not the most plethoric, and yet he aims to dress as well as the story is out on a certain young man whose purse is not the most plethoric, and yet he aims to dress as well as the story is out on a certain young man whose purse is not the most plethoric, and yet he aims to dress as well as the story is one whose years are several things to be considered before deciding that such an experience is number of the ladder, where for a time at least obscurity will take the place of fame.

wholesome,
All, or a great deal, depends on what
sort of a youth he is. If his head is so soft
that the smiles and hand clapping of pretty girls who watch the finish of a boat race
or the wind up of a football game can turn what thinking innseri energied by the vine right to ride on other men's shoulders all the way through life, then very likely athletic eminence will spoil him; but it may be that it does not much matter, since he would be sure to be spoiled in one way. he would be sure to be spoiled in one way or another, there being so little of him to spoil, and that little such poor stuff

Otherwise it is fair to reason that in this, as in so many other things, a college is but a miniature world, and he is best fitted for the world who has best tested it be hand.—Boston Λ dvertiser.

Those living in portions of our country exposed to tornadoes will be glad to know that scientists tell us there is always warning of the approach of a tornado to those that are observant. Clouds may be seen hurrying together in the southwest and west, a low dull roar of the wind in those west, a low dull roar of the wind in those clouds may be perceived, while there is a great stillness and sultry heat in the air, all of which signs are sufficient to bid people look for safety.

This safety they will never find in any easterly direction. One who faces the cloud as it comes should seek safety to the right.

The only absolute safety, however, is to be found underground, in the cellar of the house, if it is a wooden house, as the storn will whirl off the beams and boards of the structure; but if it is a brick or stone house he shattered walls will only tumble it the brick or stone house, moreover, will fall sooner than the wooden one, which yields

In the tornado countries, especially in the more open portions, there should be an un-derground place provided for refuge, with its roof arched and strengthened by masonry and beams, so that it cannot be broken in by anything falling upon it.—Harper's

Will guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$250. They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience.

There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting sensation and weakening of the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits a ropy sediment and sometimes small particles of albumen will appear or the color be of a thin or milkish bue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness.

COUNCIL PROCEEDINGS.

A regular meeting of the common council was held Tuesday evening, with President pro tem Johnston pre siding and Aldermen Routhier, Rood, Beerling, Malloy, Swanson, Persons and Sterling present.

The minutes of the preceding meeting were read and approved. A com-munication was read from the fire department submitting for approval the recently elected officers of the department. On motion the action of the de-

partment was approved.

The resignation of Erick Anderson as alderman for the Sixth ward was read

Bills against the city were read and referred to the proper committee.

Alterman Persons, from the finance committee, to which was referred the petition of Mrs. Thomas Northy asking exemption from payment of taxes age of a bill to reduce the rate of radiative control of the passage of a bill to reduce the rate of radiative control of the passage of a bill to reduce the rate of radiative control of the passage of a bill to reduce the rate of radiative control of the passage of a bill to reduce the rate of radiative control of the passage of a bill to reduce the rate of radiative control of the passage of a bill to reduce the rate of radiative control of the passage of the p exemption from payment of taxes as age of a bill to reduce the rate of rational season of the season

meeting.
Alderman Rood read a communication from the fire department and a proposition from the Gamewell Fire Alarm company regarding the proposed repairs to be made on the city's fire repairs to be made on the city's are alarm system, the cost of which will be \$2,400. A motion prevailed to have the council take the matter up at a special meeting to be called for that purpose on the following Thursday avening.

Adderman Routhier offered the following resolution, which was adouted.

lowing resolution, which was adopted:

*Resolved, That in the opinion of the common council it has become necessary to provide a sewerage and drainage system for sewer districts numbered one and five, and that the committee on sewerage and the board of public works be, and are bereby, directed to report on a detailed plan for a sewerage and drainage system in said districts at the next regular meeting.

Alderman Beerling recommended, and moyed, that an arc lamp be substituted for the gas lamp at the corner of Superior and Third streets. The motion was carried. lowing resolution, which was adopted:

of Superior and Third streets. The motion was carried.

Alderman Beerling submitted a contract from the Negaunee & Ishpeming Street Railway & Electric Lighting company for lighting the city from March 1, 1893, to March 1, 1894. The contract was leaved back to the company for corrections of the contract was leaved back to the company for corrections of the corrections of the company for corrections of the corrections of th referred back to the company for correc-tion, it being the desire of the council to contract for the burning of the lights Internal, Blind or Bleeding Itching, Chronic, Recent or Hereditary Files, Female Weak-nesses and many other diseases; it is always a great benefit to the spenral health. The first discovery of a medical cure rendering an operation with the knife unnecessary hereafter. This Remedy has never been known to fail. \$1 per box, 6 for \$5\$: sent by mail. It yenfer from this terrible disease when a written guarantee is positively given with 6 boxes, to refund the money if not cured. Send stamp for free sample. Guarantee issued by our Agents, all night, not omitting moon-light

nights.

The council then adjourned.

Injured His Knee.

J. H. Brown, of the Grand Union Tea company, met with a very simple out painful accident Monday evening while scuffling with a friend. He fell, and in falling his weight came on one knee. It didn't appear as though it would amount to anything and so parwould amount to anything and ao par-ticular attention was paid to the in-jury until after a few hours time when Mr. Brown was forced to go home. Liniment was applied that night and the next day it became necessary to call a physician. The limb swelled con-siderably and a large water blister formed above the knee, which neces-sitated binding the limb in a plaster of paris cast. Mr. Brown is suffering conpariscast. Mr Brown is suffering considerable pain, but it is hoped his injury will not lay him up any length of

Not in the Business.

To The Mining Journal:—I would like to say that Mr. Gillis of Lake Linden didn't stick a thorn in my side when he claimed to be champion roller skater of the upper peninsula. When my name was mentioned in connection with the championship I knew nothing of it. I am not skating for a living and I don't think Mr. Gillis is hurting himself with hard work. If he was he would not skate for pleasure, let alone the championship of the upper peninsula. If I had the practice, or even half the practice, Mr. Gillis has had I would certainly take up his challenge and try to reduce his head a few sizes, for I think it is badly swelled. As it is I am dead willing to sign myself ex-champion of the upper peninsula. Not in the Business. of the upper peninsula.

HUBBELL IS NOM.NATED.

Twelfth Circuit Republicans Unanimously Choose Him to Succeed Judge Williams.

DEMOCRATS SHOULD ENDORSE THE NOMINATION

Extensive Alterations Will Convert the Houghton Armory Into Very Pretty Theatre.

All communications for copper country de-partment intended for publication should be addressed to A. F. Islor. Houghton]

нопентом.

At the Republican county convention held yesterday at Pleiffer's Hall William Bath was unanimously nominated iam Bath was unanimously nominated for school commissioner and the following delegates were elected to attend the judicial convention to be immediately held: John Clerg, A. R. Gray, O. W. Robinson, John Duncan, John Dymock, Victor Engstrom, F. H. Rogers, R. H. Shields, M. Dillon, Richard Edwards, J. H. Ring, A. E. M. Despal, W. E. G.

H. Rice, A. F. McDonald, W. E. Gray, P. H. Paine, C. A. Wright. The judicial convention being called to order O. W. Robinson was chosen chairman and Philip Voetsch of L'Anse secretary. The committee on credentials reported favorably on the above named gentlemen, together with E. L. Mason and Philip Voetsch of Baraga county and Samuel Bennetts of Kewce-

naw county. Nominations being in order Robert H. Shields made the best speech of his life in presenting the name of Hon. Jay A. Hubbell for circuit judge. The nomination was made unanimous and Mr. Shields was complimented on all sides

on his splendid effort. A committe consisting of John Dun-can, E. L. Mason and Samuel Bennetts was then appointed to escort Mr. Hubbell before the convention. Mr. Hub-bell appeared and in a neat little speech Mr. Hubthanked the convention for the honor bestowed. He was loudly applauded and three hearty cheers were given him. Messrs. Duncan, Bennetts and AND MECHANICAL Mason were appointed as committee for the Twelfth judicial circuit for the en-

> In a few days carpenters will begin In a few days carpenters will begin the work of placing a stage in the Armory. It will have a 27 foot opening, 24 feet deep, 15 feet high and will be equipped with everything necessary. It will have five drops and four flats which are now being painted in Chicago by Sosman & Landis. Electic lights will be used and dimmers, calcium and bunch lights will be provided. The antityring will be lighted by chandellers. ditorium will be lighted by chandellers instead of the hangers now in use. It will take about 200 lamps to light the

whole building.

The seating capacity will be over eight hundred. Five hundred and fifty opera chairs have been ordered; 300 of these will be plush back antique oak and 250 will be mahogany floish. All chairs will be supplied with hat and coat racks. The chairs will be arranged in sections of four and will be according to plans submitted the committee on its

recent visit to Chicago.

The star dressing room will be on the MENOMINEE, MICH. trances to the stage, two entrances to the auditorium and three extra exits to be used in case of fire.

The doors in the south end of the hall

will be used for main entrance until possession can be had of the part used by R. M. Hoar as a warehouse when veral improvements will be made in

A team attached to a load of cord wood got stuck on the Hecla & Torch Lake railroad road about midway be-tween here and Lake Linden just as the monster locomotive Kitchigamme, with its long train of rock cars, came along. Engineer Lang saw the team and stopped his train. There was lively hustling to get the wood off the sleigh. Mr. and Mrs. David Cavan of the At-

antic mine visited friends here yester Young Men's Christian union reading room will be opened to the public. The reading room is supplied with the lead-

ing papers and magazines.

George Francis Cobson a spiritualist of Muskegon, Mich., has perfected a scheme, he thinks, by which he hopes at death to be able to prove positively to short time ago and obtained a large gla cylinder, so constructed that it can be sealed airtight quickly. In this cylinder he has suspended with fine copper wire two pieces of metal so light that they may be brought in contact with each other by the slightest motion of air within the cylinder. Wires pass through the cylinder, one being connected with a battery and the other with a telegraphic instrument.

He has made arrangements for his friends just before the spirit leaves his bedy to seal him in the cylinder so that his spirit may be kept from departing, and at the same time is enabled by a series of systematic disturbances of the air within the cylinder to communicate with his friends through the telegraphic instrument. He is dying with consumption, and the public probably will not have long to wait for the test of his ex-periment. If it should prove successful, his friends are pledged after three days to unseal the cylinder and allow the spirit to depart and then seal up and bury the remains.—Pittsburg Dispatch.

Here Is a Farm With a History

Colonel Merit M. Missimer of the Falls of French Creek hotel has bought of Henry W. Watson of Bucks county the Urner farm in Warwick township, Chester county, 122 acres, for \$5,000. On this farm the old Seventh Day Baptist burial ground is located, an acre or more, the walls of which inclosure the colonel will repair. In this place of rest there were house in which the Seventh Day people worshiped, but it was torn down or removed long ago—none there for probably

70 years or more. Over two years ago the French Creek Valley Railroad company, or some of its promoters, bought this Urner farm of Eli Urner, administrator, for \$53 per acre. It was intended to crect a large hotel on the premises. Subsequently it changed hands and became the property of Mr. Watson. Colonel Missimer will The star dressing room will be on the sell a portion of his purchase in building left hand side of the stage while the lots, having 1,000 already laid out.—

CHOLERINE IN PENNSYLVANIA.

CHOLERINE IN PENNSYLVANIA.

Swickley, Penn.: We had an epidemic of cholerine, as our physicians called it, in this place lately and I made a great hit with Chamberlain's Colic, Cholera and Diarrhea Remedy. I sold four dozen bottles of it in one week and have since sold nearly a gross. This Remedy did the work and was a big advertisement for me. Several persons who had been troubled with diarrhea for two or three years were cured by a few doses of this medicine.

"ELEVATOR SICKNESS."

It Has a Serious Meaning and Is Described

UNHEALTHY MOTIONS

'Look Out for Dangers When You Fee Them," Says a Physician.

"I must get out of this. I feel sick and The speaker was a well known business

man who was going to his office on the fifth floor of the Mills building yesterday by means of the passenger elevator. He got out at the third floor and walked up the rest of the way. A physician who noticed this incident, in speaking of it afterwards, said: "That is a kind of sickness which is nore common than most people suppose those still in the material state that his spirit exists. He went to Pittsburg a am called upon to treat people who are am called upon to treat people who are suffering from it. I call it 'elevator sickess,' although it is not always due to riding in elevators, but arises from a disease which is made apparent by motion of that kind. As elevators are being more and more used the presence of this complaint is

"You speak of a disease which is shown by this tendency to dizziness and sickness in elevators. Will you explain what you mean, doctor?" the writer asked.

The doctor thought awhile before replying, and then said: "These symptoms show that there is too much bile in the system, and that means that the liver and kidneys are more or less out of order. For this reason people who feel this dizziness and sick ness should never allow it to pass unnoticed, but should take steps to remedy it without delay. If they neglect to do so interments dating back to 1669, and the whole number buried is probably over disease it indicates has gotten such a hold 100. There was once a frame meeting on them that they cannot shake it off, and doctors will be powerless to cure it.

Every one who has suffered from the painful symptoms so plainly described in the doctor's words will be interested in the following remarks on the subject which should be carefully read.

Mr. Francis McGovern, residing on 123d street, New York, says: "For several years I had strange symptoms, great pains and stiffness in my back, frequent headaches, poor appetite, irregular sleep and a contant desire to void. Motion of any kind was unbearable. Friends advised the use of different remedies but 1 found that there was only one thing that would help my condition. I am a well man today, due to the use of that great remedy, which is Warner's Safe Cure. It is the best medi-cine ever made and holds a high place in

D. H. Young, foreman of the shoeing shop eral months ago by order of government authorities, the charge against her being says: "I have seen the time when I'd have that she was working up a spirit of war-fare among the Indians, is making her home at Nogales, A. T., just across the Mexican line. She continues to perform exhaustion. I had suffered for twenty Chas. A. Mayworm will open an exclusive men's boot and shoe store about April 1, in the building now occupied by F. C. Mayworm as a jewelry store. A NEW TELEPHONE SYSTEM

Harrison Automatic Switch 'Phone to Be Introduced Here at an Early Date.

PHOTOGRAPHS OF THE WORLD'S FAIR LOAD OF LOGS.

High Street Is Nearly Ready-Pellier Won Easily-Running Night and Day.

WILL BUCK THE BELL CO. Mr. M. W. Murchison, who up to 1888 was a regular visitor to Marquette for many years and who is a brother-inlaw of Mr. A. Mathews, has been in the city for the past two days looking over the ground with the view of introducing the Harrison automatic switch telephone in Marquette and other leading cities of the upper peninsula.

The Harrison International Telephone company was organized only a short time ago after the long fight waged by the Bell company against Dr. Harrison, the inventor of the new larger and Kenneth McLeod, while on the ger and Kenneth McLeod, while on the Chicago and St. Louis.

Mr. Murchison has been selected as the organizer of the company for the states of Wisconsin and Michigan.

After looking the ground over he has determined to advise the division of Michigan and the organization of depth of 4 feet so that it would freeze the states of the feet so that it would freeze the states of the feet so that it would freeze the feet so tha lower and upper pen usual associations solidly. Then it was sprinkled fre-instead of one state organization, as in wisconsin to control the different sub-Wisconsin, to control the different sub-comp nies organized in the territory. Hon. R. C. Kerens, the noted St. Louis up in blocks behind the sleigh as the politician and multi-millionaire, Hon.

City, lawyer and ex-congressman, D. J.
Young of Forth. Smith, Ark., L. E.
Ingal's of Chicago and J. T. Blake of
the Armour company, Kansas City, are
the directors of the parent company
and Mr. Kerens has already organized
the state of Missouri, an order for
the consecution of the telephones for St. Louis edit the load with a
telegraph to tackle the load with a
camera. He took a number of excelclent views, \$x10, and has just received
an order for 25,000 mounted photographs of the great load from the Nester estate, which has copyrighted the
views. He now has thirty negatives
and has made arrangements to make
fifty orints a day from each negative
until the order is filled. It is undoubt-10,000 of the telephones for St. Louis having been placed after the new instrument had been carefully tested there. A number of exchanges have also been installed in Indiana.

Mr. Murchison returns to Chicago to
Mr. Murchison returns to Chicago to-

there. A number of exchanges have also been installed in Indiana.

Mr. Murchison returns to Chicago today but expects to return soon when he will probably organize here a company to control the upper peninsula and also a sub-company to put in exchanges in Marquette county. The new phone has been fully described in the papers throughout the country recently; by throughout the country recently; by means of an automatic switch the subscriber calls up the one whom he wishes to speak to by ringing the right number and if the person is not present in his office or house the message is written off on a type-writer.

on Feb. 6, 1893, the Patent Office allowed

cables, battery-material, etc., etc., at the lowest market price.

The World's Fair Load.

Yesterday photographs of the World's Fair load of logs, hauled eighty rods by the Nester estate near Sucker Creek on Feb. 26, were placed on exhibition in J. J. Byers' saloon. The photographs show an amazing sight, the load being ten tiers high and containing fifty 18foot logs, scaling, as stated in Mr. Nester's telegram to THE MINING JOUR-NAL, 36,055 feet and weighing 144 tons. The first tier contains six yery large logs, the next 8, then 7, 7, 7, 5, 4, 3, 2 and f, the driver being perched on the topmost log, 33 feet, 3 inches from the

The team of horses which hauled the great load are dwarfed by comparison. The load rises five tiers high before it begins to taper and the logs when loaded upon cars for shipment to Chicago made nine full carloads, a fact which will convey a more adequate idea of the size of the load than any other

'phone, had resulted adversely to the monopoly and the patent office had after years of delay granted his patents. It is capitalized at \$80,000,000 and is backed by some of the strongest men in Chicago and St. Louis thicago and St. Louis.

Mr. Murchison has been selected as runners being 7 feet long and 6 inches

message is written off on a typewriter and is reproduced at the other end so that it is awaiting Subscriber No. 2 on his return. The following memoranda cover tract, in the deep gully on the north most of the salient points in the new line of the Longyear addition which cut most of the salient points in the new enterprise:

The Harrison International Telephone company is organized under the laws of the state of Illinois for the purpose of introducing telephone and printing telegraph service in the United States and in foreign countries.

The telephone which will be used is a very superior instrument invented by Dr. E. M. Harrison, and patented May 31, 1892, after a long litigation in the United States courts, with the Bell Telephone company, in which the Harrison telephone was the victor.

In of the Longyear addition which cut off the improved portion of High street in that addition from the portion in the Moore & Sang and Smith Moore additions. If the block between Hewitt avenue and Prospect street could be opened this spring the whole street would be ready for use, extending from Ridge street to Fair avenue. People in that part of the city should take steps to have that block cpened.

Y. M. C. A. Notes.

Y. M. C. A. Notes,

On Feb. 6, 1893, the Patent Office allowed Dr. Harrison another patent on his improved telephone which more fully and completely covers his art of telephony, embracing a transmitter having edge contacts, a compound electro-magnetic receiver, a multiple intensity coil, novel signal generator and magneto-bells, making the most perfect telephone for commercial and general use that has ever been before the public.

The superiority of the telephone service

At Harvard or Yale the famous athlete moves in an enchanted atmosphere. A peculiar charm seems to ling-r about his college life, which lifts him to a place higher in the minds of some structure of the place highe ic.

The superiority of the telephone service offered consists in a perfect telephone, and, in an invention that obviates the necessity of a telephone girl, at the central office.

An automatic village exchange or switch will take the place of the telephone girl in the central office, and will automatically connect one subscriber with another. The automatic switch will save 90 per cent. of the expense of the central office as now operated, which is the chief expense of all telephone exchanges.

The new and perfected telephone and central office system will so reduce the expense of telephonic service that it will cause the use of nye telephones where one is now used.

Until the main patent of the Bell telephone avaires in January, 1894, the Bell telephone are the constant of the shoulders of jubilant admirators while half-delir our students jump up in benches or leap upon the fences as

pen e of telephonie service that it will cause the use of ave telephones where one is now used.

Until the main patent of the Bell telephone expires in January, 1894, the Bell company and the Harrison International Telephone company will have the exclusive right to the telephones in the United States, and in most foreign countries.

The valuable and fundamental patents granted Dr. Harrison for his art of telephony, and complete telephonic apparatus, as well as his invention covering a m st perfect automatic village exchange, which does away with the telephone girl, also a long distance electric typewriter, which does away with the receiving telegraph boy, are all owned and exclusively controlled by the Harrison company.

Sub-companies will be conveyed the right to use the Harrison telephone and other inventions used in connection therewith. All telephones will be manufactured by the Harrison company at its factory in Chicago and rented at a small royalty to the sub-companies.

These sub-companies will in turn form companies or sandicates in cities, towas and villages, so that every community will get its telephone expired from the shoulders of jutility and in the shoulders of jutility and in the shoulders of jutility and the field on the shoulders of jutility and history while half-delir our students jump in benches or leap upon the fences as fanxious to follow their hoarse cheers and in the clouds.

Football in every form has been positively prohibited at the University of Heidelburg, Germany. This institution draws the line at dueling and will permit nothing more barbarous. Yet few other events will attract 50,000 people—among them the gayest and most cultured—as does the annual Thanksgiving game in New York city and an interest, almost as i.tense, centres in the context which meet yearly at Springfield, Mass. Excepting a national political convention few other events receive so much space in the American newspapers and, doubtless Walter Camp. A. A. Stagg, Poe, Hovey, and Hallowell, all famous athletes from Y

the operation and maintainance of the service.

Main lines, over which printed telegraph messages or long distance telephone messages are sent, will be owned and controlled by the parent company. These lines may also be used by local telephone exchanges.

The Harrison company has a number of exchanges in operation in different towns and villages, one in Fort Smith that has been in successful operation for over seven years and others more recently established. These have practically demonstrated the utility and superiority claimed for the Harrison telephone. State or sub-companies can therefore, with assurance of larger profits, at once begin active work.

The Harrison company, will furnish state or sub-companies with estimates, covering cost of building plants and exchanges, assist them in establishing exchanges, the purchase of supplies, such as poles, wires,

Try to Argue

with some bright woman, against Pearline. She uses it-most bright women do. You'll find the arguments all on her side-what can you say against it? We are willing to leave the case in her hands. You'll end by using it.

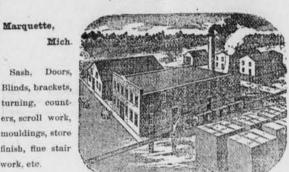

The fact is, every argument as to the easiest, safest and best way of securing perfect cleanliness is settled by Pearline. If you use it, you know that this is so.

Bewate "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, if your grocer sends you an imitation, be honest—send it back.

Solution The volume of the pearline is never peddled, if your grocer sends and initiation, be honest—send it back.
