WITHDRAWS THE TREATY.

President Cleveland Calls the Hawaiian Agreement Back from the Senate.

DOES NOT NECESSARILY DEFEAT ANNEXATION.

Hawaiian Commissioners Still Hope for Annexation but Have Heard Nothing from Secretary Gresham.

REASONS NOT MADE PUBLIC.

WASHINGTON, March 9.—The senate discussed today for nearly an hour the question as to the reception, at the present extraordinary session, of any business of a legislative character. While there was some difference of opinion as to the abstract right of permitting the introduction of bills or joint resolutions involving legislation there seemed to be a general concurrence of views that it would not be desirable to have any matters of that kind acted upon or even presented. Nevertheless a resolution offered maintaining that sentiment was not acted upon but went over till the next meeting of the senate, which will be on Monday.

The feature of the day's proceedings was the presentation in executive session of the president's message withdrawing the Hawaiian treaty.

Mr. Harris asked Mr. Sherman whether he had found a single precedent in the whole history of the government where, when the senate was convened in executive session, any action looking to legislation had been taken. Mr. Sherman stated in reply that he had before him a statement of what had occurred in 1873 when the senate decided by two yeas and nay votes that it was not to receive any petitions. The precedents showed conclusively that at different periods from 1872 down petitions had been received and resolutions had been offered.

Mr. Harris remarked that the presentation of petitions fell very far short of the introduction of bills or joint resolutions requiring the action of both houses of congress and which were, in every essential respect, the beginning of legislation.

Mr. Dolph said that he was quite indifferent as to what rule the senate might adopt in regard to the introduction of legislative business. He had a joint resolution which he proposed to introduce.

Mr. Harris—Is it a joint resolution?
Mr. Dolph—It is a joint resolution.
Mr. Harris—Then I object to its being introduced.

Mr. Dolph—Let it be offered.

The joint resolution was read. It was one calling on the president of the United States to take such measures as may be necessary to consummate the agreement between the governments of Spain and the United States for the relief of Antonio Mora, a naturalized citizen of the United States.

The question was further discussed by Senator Platt, who believed it competent for the senate to transact any business; Mitchell, who said that the senate had not been convened in executive session but in extraordinary session; Vest and others.

Then Mr. Manderson offered a resolution declaring it to be the sense of the senate that at this extraordinary session the business transacted should be confined to executive measures and matters requiring the action of the senate only.

Mr. Cockrell objected to the immediate consideration of the resolution and it was ordered to be printed and to be left over.

Mr. Hale offered a substitute for Mr. Manderson's resolution, declaring that no legislative business shall be received or entertained at the present session of the senate. He subsequently modified it by inserting the words, "except treaties."

Mr. Harris asked Mr. Hale why he deemed it necessary to except treaties. Did he consider the action of the senate on a treaty legislative business in contradistinction to executive business?

Mr. Hale said that he put it in out of abundance of caution because there were senators who believed a treaty the highest form of legislation.

Mr. Harris—Nevertheless I hold that the form of the action of the senate on a treaty is purely executive.

Mr. Hale—The insertion of those words will do no harm at any rate.

Mr. Mills—A treaty may require the action of both houses.

Mr. McPherson called attention to the fact that it might be necessary to require committees to perform certain labor looking to legislation and he inquired whether Mr. Manderson's resolution or Mr. Hale's substitute would exclude that being done. Finally the whole matter went over until the next meeting of the senate. After an executive session the senate adjourned till Monday.

HAWAIIANS STILL HOPEFUL.

Commissioners Still Think That Annexation Will Win.

WASHINGTON, March 9.—Dispatches received today from Honolulu via San Francisco by the Hawaiian commissioners now in Washington indicate that affairs in that country remain in statu quo and a general feeling of satisfaction prevails with the progress of affairs in Washington as they existed when the telegrams were written.

The withdrawal from the senate of the annexation treaty by President Cleveland today is not believed by the commissioners to indicate that he intends to crush it as the commissioners say they understand the executive is inclined favorably to the general proposition to annex the islands.

They have as yet received no intimations from officers of the new administration as the course that will be pursued in the matter nor have they been in receipt of any communication of

the secretary state expressing a desire for further consultation regarding it.

GIVING OUT FEDERAL JOBS.

Several Democrats Are Made Happy by the President.

WASHINGTON, March 9.—The president today sent the following nominations to the senate: Isaac P. Gray of Indiana, to be envoy extraordinary and minister plenipotentiary of the United States to Mexico; Patrick A. Collins of Massachusetts, to be consul general of the United States at London; Josiah Quincy of Massachusetts, to be assistant secretary of state; Robert A. Maxwell of New York, to be fourth assistant postmaster general; E. P. Gayle of New Mexico, to be receiver of public moneys at Roswell, N. M.

The appointment of Judge Jenkins of Wisconsin to succeed Judge Gresham on the United States circuit bench, which is understood to have been decided upon, was not made today. It will probably be sent to the senate on Monday. At the same time the nomination of Frederick R. Conder of New York, to be minister to France, will also be made.

The nominations were received by the senate and laid over, inasmuch as they could not be referred until the committees have been organized. It was also agreed that nothing but executive matters should be transacted during the extra session and hereafter no attempt will be made in open senate to take up any business other than that which clearly relates to this function of the senate.

KEENE OUT FOR REVENGE.

He Is Trying to Get Even With Chicago Wheat.

CHICAGO, March 9.—James R. Keene stands to win or lose \$10,000,000 in wheat on the Chicago Board of Trade. That at least is the current gossip here tonight and the information is added that as the deal stands it is a toss-up whether he wins out or makes another huge contribution to the experience which has changed Chicago wheat. Fourteen years ago the Chicago wheat pit took from Keene between \$4,000,000 and \$5,000,000. Henry Clews says \$10,000,000. It is said that this adventure was started by Keene in the nature of a grim settlement of the old score. Operating through Sigmond Gruner, a stock cotton and sugar broker of New York, Keene has obtained control of about 20,000,000 bushels of the best wheat in western stores and has accumulated a prodigious line of futures. The cash end of the deal is in charge of "Sandy" Eggleston and the speculative end in charge of Cudahy, both masters in their specialties. Nearly all of the "contract" wheat in Chicago, amounting to about 10,000,000 bushels, is lodged with Eggleston and nearly as much more high grade property in St. Louis, Minneapolis, Duluth and other western centers is controlled by the same individual. Besides his immense cash holdings in this city Eggleston has cornered about all the elevator space in Chicago that can by any possibility become available for the storage of new grain. Receipts between now and the end of May. He has accomplished this feat by contracting with elevator companies to provide him room for several million bushels of grain which he expects to receive before the end of May. If by any chance he should not get the grain, the elevator companies will not care as Eggleston has contracted to pay full storage rates on the space.

AMERICAN FIREMEN INVITED

To Attend International Fire Congress at London in June.

WASHINGTON, March 9.—A communication has been sent to the state department by Horace S. Folger, general honorary secretary of the National Fire Brigades' union of London, through Minister Robert T. Lincoln, inviting firemen of the United States to attend the International Fire congress and exhibition to be held in Royal Albert Hall, London, from June 12 to 17. Secretary Gresham has forwarded a copy of the communication to the mayors of leading cities.

CHARGES AGAINST M'LEOD.

Efforts Will Be Made to Oust Him From Reading.

New York, March 9.—Reliable information here is that an effort is to be made to have A. A. McLeod removed as one of the receivers of the Philadelphia & Reading. One of the charges against him is that instead of buying control of the Boston & Maine and the New York & New England railways as the personal act of himself or associates the stock acquired was paid for out of the funds or with the securities of the Reading company.

DEAD MAN WOKE UP.

Judge David Lee Narrowly Escapes Being Buried Alive.

St. Joseph, Mo., March 9.—Yesterday Judge David Lee, an old settler of Troy, died after a short illness. Two physicians examined the body and pronounced life extinct. Three hours later Undertaker Byers had stripped the body and was dressing it for burial, when the supposed dead man opened his eyes and recognizing the undertaker exclaimed: "Byers, what in the name of God are you doing?" The old gentleman is yet alive and will probably get well.

"CATHOLIC EDUCATION DAY."

September 2 Set Apart for Celebration at World's Fair.

CHICAGO, March 9.—Secretary Culp of the World's Fair committee on ceremonies has set apart Sept. 2 as "Catholic Education Day." Festival Hall has been engaged for a celebration from 9 a. m. until noon. The ceremonies will be under the direction of Bishop Spalding. Archbishop Fehan will preside. Among the addresses will be one by Archbishop Ryan of Philadelphia.

VISITING THE UNIVERSITY.

Michigan Legislators Are the Guests of the City of Ann Arbor.

WILL INSPECT THE STATE UNIVERSITY TODAY.

Tonight They Will Proceed to Ypsilanti to Visit the State Normal School There Tomorrow.

SOLONS GONE ON A JUNKET.

STATE HOUSE, LANSING, Mich., March 9.—[Special.]—The senate passed the house bill providing for two voting precincts in Stephenson township, Menominee county. Mr. Flesheim had the vote on his bill for the consolidation of railroads organized under the laws of this state with those outside the state reconsidered and the bill tabled for the purpose of amendment.

Both branches adjourned at noon until 9 p. m. Monday and the members left in the afternoon by special train for Ann Arbor, where they are the guests of the city tonight. Tomorrow they will go to Ypsilanti, returning to Lansing Saturday morning.

NO NEWS OF THE NARONIC.

Some Hopes That She May Have Put Into Faval.

NEW YORK, March 9.—The Naronic has been out twenty-six days and has not been spoken once or seen since she left the Mersely early on the morning of February 11 for this port. Her agents are still hopeful that she may be heard from. The Maritime Register thinks that she will be heard from either at Faval or in tow with machinery damaged. That she has not been sighted proves nothing, it is affirmed as against either of those chances. Faval is a port in the Azores about 300 miles west of St. Michael and there is not, it is said, frequent communication between the two islands. St. Michael is a coal station and nearly all steamships out of coal obtain fresh supplies there.

CONSPIRACY OR INSANITY?

Young London Journalist and Politician Convicted of Theft.

LONDON, March 9.—A sensation has been created in journalistic and literary circles by the ignominious punishment inflicted today upon Mr. Frederick Henderson, a member of the London county council. Mr. Henderson is only twenty-five years of age and is a poet of such promise that Mr. Gladstone himself recently spoke of the young man in terms of hope and eulogy. Today Mr. Henderson was tried on the charge of robbing a prostitute of the sum of three shillings. The evidence was strongly against him and he was found guilty and sentenced to four months imprisonment at hard labor. He made a speech in the dock strongly protesting his innocence.

WANTED SOME SMALL BILLS.

Chicago Banks Not Giving Up Gold Very Extensively.

CHICAGO, March 9.—The report of an offer of half a million dollars in gold to the federal treasury from Chicago is probably based on the fact that the First National bank was short of \$5 and \$10 notes and telegraphed the treasury that it would exchange \$500,000 gold for bills of that denomination. By this transaction the bank saves the express charges of seventy-five cents per \$1,000 for transportation of the currency. Chicago banks, it is said, have at least \$30,000,000 in gold in their vaults. One bank has long carried in its reserve about \$6,000,000 in gold, sealed with the bank examiner's seal and unbroken for years past.

FLOODS ARE THREATENED.

Recent Rains Have Moved Ice and Caused Gorges.

KEOKUK, Ia., March 9.—An inch and a third of rain fell here yesterday and last night, starting the ice in the river, which gorged at Warsaw, damming the stream and causing a rise of four feet in two hours. The gorge is still intact and the surrounding country is in danger of overflow unless it gives way soon.

GALENA, Ill., March 9.—The heavy rains of the last twenty-four hours have carried away the last vestige of snow and the rivers and streams are flooded. The Galena river is out of its banks and rising rapidly and a disastrous flood is threatened. The railroad bridge has been swept away and traffic impeded.

TARIFF ON BLOCK TIN.

Some One Blundered in Closing Hours of Congress.

WASHINGTON, March 6.—It can now be stated definitely that the block tin bill failed of enactment after passing the house and being unanimously reported to the senate from the committee on finance. The bill provided for the continuance of block tin, tin ore and cassiterite on the free list. The M-Kinley bill provides that after July 1, 1893, a duty of 5 cents per pound shall be levied.

GOVERNOR MUST APPOINT.

Washington Legislature Fails to Agree on a Senator.

OLYMPIA, Wash., March 9.—After 101 joint ballots the Washington legislature today adjourned sine die without choosing a successor to Senator John B. Allen (Rep.), whose term expired March 4. The last ballot stood: Allen, 50; Turner, 24; Griggs, 8; Shaw, 15; Van Hatten, 9; remainder scattering. It is very probable that Governor McGraw will appoint Allen to succeed himself.

MARQUETTE, MICH., MARCH 10. Entered as mail matter of the second class in the postoffice at Marquette, Mich.

NOTHING TOO GOOD FOR HIM. The Detroit Free Press of Wednesday has it that an evening paper at Washington states that "Peter White of Marquette may be a candidate for a leading foreign mission."

The writer of this knows that a position of very high trust and responsibility under President Cleveland was tendered Mr. White when Mr. Cleveland was serving his first term as chief executive of the nation.

THE MINING JOURNAL will be heartily pleased by recognition accorded Mr. White, for it knows that he will do his city and state credit in any position to which he may be called by the president.

From a Democratic standpoint "nothing is too good" for Mr. White, and there will be no carping among Republicans up here over any honors bestowed in that quarter.

AN "ORGAN'S" STUPIDITY. When Carter Harrison was mayor of Chicago he notoriously "stood in" with the disreputable element in that city.

So discredited did he become that he was denied any recognition under the former administration of Mr. Cleveland.

In the last preceding contest for the Chicago mayoralty he was a stump candidate, entering the field after he had failed to obtain the regular Democratic nomination.

Now he is the regular nominee of the party whose candidate he botched in the last election, and the man whom he defeated for the nomination.

Mr. Hering, it will be easily remembered, is the man who was mainly instrumental in swinging the Lutheran German vote of Illinois for Cleveland in the election of last fall.

And yet, in the face of the facts here recited, the stupid sheet in this city which seeks to be regarded as the organ of the Democratic party, and whose editor is a candidate for an appointive position under Cleveland, indulges in this comment on the political situation in Chicago created by Harrison's candidacy:

The nomination of Carter Harrison by the Democracy is a victory for law, order and morality.

It is safe to say that if President Cleveland could decide the contest between Harrison and Hering he would decide it in the latter's favor.

When Harrison was in the field as a stump candidate for the mayoralty, Senator Palmer of Illinois, who had been then just elected to the United States senate by the Democrats of that state after a protracted struggle, visited

Chicago to do what he could toward preventing Harrison from drawing away enough of the Democratic vote to elect Washburne.

Will Senator Palmer visit Chicago this spring to labor for Harrison as he did for Crogier against Harrison in the last election?

And according to the dim Democratic luminary on Superior street, they are "bums" and the supporters of Harrison are the "order and morality" people in this World's Fair city.

THE MINING JOURNAL feels that it can congratulate the people of the Twelfth judicial district on the certainty of having so able a presiding judge of their circuit for the next term as Hon. Jay A. Hubbell will prove.

AN ERROR in engraving the bill providing something over half a million dollars for the payment of premiums and awards at the World's Fair places the entire matter of adjudicating between competitors for these under the control of the Woman's board in the management of the big exposition.

THE ANN ARBOR & NORTHERN MICHIGAN road has an ugly strike on its hands, growing out of a disagreement between the company and its engineers.

IT APPEARS that the Mexican mission was not General Bragg's plum. Governor Gray of Indiana has gathered it in.

EDITOR ROWLEY, of the Lansing Jo is said to be "slated" for the Lansing postoffice.

IT IS CONCEALED that Judge Stone will be nominated by the judicial conventions of both parties at Escanaba today.

PATRICK A. COLLINS gets a first class place under Cleveland, and he is well entitled to it.

THE LEGISLATURE must have become satisfied that the "Saturday session" is a failure.

ONLY THE FITTEST SURVIVES!

After a Successful Career of Nearly Nine Years

THE DAILY

Mining Journal,

Is still the only daily NEWSpaper printed in the Upper Peninsula of Michigan. From the First number issued up to date it has given a full Telegraphic Report and has Besides Maintained Ishpeming and Negaunee and Copper Country Departments,

All the News in Concise Form

It is by all odds the best advertising medium in the Upper Peninsula, having the Largest Circulation of any paper published in this part of the state and being read daily by at least

10,000 PEOPLE.

Published every week day morning by the Mining Journal Company (Limited). Terms:—75 cents per month, delivered by carrier; \$8 per annum by mail.

Book and Job Printing

Concern, supplied with the latest faces in type and improved presses and other printing house machinery. The quality of work turned out will compare with the best that can be done in the larger printing offices of Chicago and Milwaukee and prices will always be found reasonable.

NEGAUNEE'S NEW CITY MAP.

Its Preparation Was Not by Any Means an Easy Piece of Work.

Rink Managers Roast Sweeney—A Crooked Creek to be Made Straight. Quite a Cocoa Nut.

WAS A DIFFICULT TASK.

Preparation of the map of the city of Negaunee recently completed by City Engineer Chas. R. Wightman was a most difficult piece of work, owing to the way the city has been laid out in general. Many of the streets are awfully mixed up and some of them were duplicated in name, which had to be remedied by calling one an avenue and the other a street.

There are thirteen different additions to the city proper shown on the map, while the Sterling and Harvey additions in the eastern part of town are not given. The Jackson Iron company's addition was the hardest to formulate, as many of the buildings were erected regardless of block, street or lot. The streets in that portion of the city are numerous and some of them are only a few blocks in length.

Only one copy of the map has been made, that being for the city's use. Citizens desiring copies for their own use can get any number at just what they will cost for printing. Copies of the map will not be offered for sale by Mr. Wightman or the city, therefore there will be no extras to be had at any future time.

Mr. Wightman is also making a profile of iron street in order to establish a permanent grade. Ever since Negaunee has existed buildings have been erected and sidewalks put in at the sweet will of the persons owning the property thus improved. Some of the buildings are from two to three feet above those adjoining. Any building or sidewalk built on iron street hereafter will have to conform to the established grade.

Will Straighten the Creek.

Miller Bros. have let a contract to Christ Miller to straighten the course of Partridge creek, which runs through their farm in the eastern part of town. The new channel will be five feet wide by four feet deep, which will give a sufficient passage for the volume of water flowing through the creek at any time, as it is two feet deeper than the old channel. The old channel is very crooked and in its present condition the creek is a detriment to the property. The new ditch will be the entire width of the farm in length. Work was commenced on the job yesterday.

A Florida Cocoonant.

P. B. Kirkwood yesterday received a Florida cocoonant from his brother, A. J. Kirkwood, who has a grove at Lake Worth, Fla. It came by mail and the postage stamps were stuck on the outside of the box. The nut is in its natural form as it grew on the tree. Its weight is 3 1/2 pounds. Mr. Kirkwood has it in his store window where those desiring of seeing it can gratify their curiosity.

Those Rink Bills.

TO THE MINING JOURNAL.—In yesterday's edition of a paper called "The Times," printed at Marquette, the Negaunee correspondent of that organ intimated that the managers of the Adelphi roller rink did not pay their bills. Sweeney's motive in launching that slur is easily explained. A little over two months ago, Sweeney held a position on the defunct Daily Herald, published at Ishpeming. We had occasion to place an advertisement in that paper. One Saturday evening Mr. Sweeney came to the rink with a bill for \$4.10, payment of which he demanded. Previous to this Mr. Finn, the editor and manager of the paper, instructed us not to give Sweeney any money on the account, for reasons we do not care to state. Sweeney insisted so strongly on getting at least a part of the amount that he finally proposed to receipt the bill in full for \$1. In order to get rid of him we gave him the dollar and received his receipt in return. A few days afterward Finn came down and insisted on receiving the full amount of the bill regardless of what had been paid. Sweeney. In order to avoid further trouble with the begrudging set we paid Mr. Finn the amount demanded. Now Sweeney claims we owe him \$1.50, and has tried several times to collect that amount, which we invariably refuse to pay on the grounds that the bill is not a just one. In order to get even he now plays the part of a cur by telling the public we have not paid our bills, in which assertion he lies.

LOCAL LAOCINOS

NEGAUNEE, March 9, 1893.

W. O. Butler of Marquette, was in Negaunee on business yesterday.

F. H. Terry, of the Standard Paper company, Milwaukee, was in town yesterday in the interest of his firm.

John Campbell, local agent of the C. & N. W. road, got home Wednesday evening from a business trip to Milwaukee.

At the M. E. church supper to be given in the Sundberg block Good Friday night, fifteen and thirty-five cents will be the prices charged for the meal. Cheap enough.

The Fitzsimmons-Hall fight was the cause of considerable amusement Wednesday night among the local sports. Some money changed hands as a result of the mill. There were no very large bets made, however.

Browne's Theatre company will present the "Pride of the Market"—a drama that has never been put on the stage in this section before—at Ishpeming tonight. The company will give a matinee tomorrow afternoon.

We have an elegant line of spring suits and overcoats. Few goods arriving every day. (12-5-47) Jos. QUINN.

Don't fail to see our line of underwear, neckwear, shoes, and hats and caps, all the latest styles. (12-5-47) Jos. QUINN.

Coughing Leads to Consumption Kemp's Balsam stops the cough at once.

Call and see our line of gentlemen's shoes. (12-5-47) Jos. QUINN.

Indigestion, Dizziness. Take BERGMAN'S PILLS.

GERMAN JOURNALISM.

News of Berlin Published in America Before It is Known at Home.

The newspapers here are largely sold by women, and the small newsboy of America is unknown in Berlin. Now and then you see a man selling papers, but the greater part of the circulation of the journals is by subscription, and women always deliver the papers. There are many queer things about the newspapers, and few of the Berlin journals have large staffs of reporters. The local news is about the same in all papers, and one thinks of trying to make a scoop, as it is called, or to have the news in advance of his fellows.

The editors of the morning papers leave their offices at 9 o'clock, and the papers are in press at 11. By 12 o'clock even the printers have gone home, and when General von Moltke died at 11 o'clock one night some time ago there was only one Berlin newspaper that had a line about it in its issue of the next morning. The announcement of the death was published in New York and elsewhere in full, but the German newspapers right here at home knew nothing about it.

The newspapers here publish items from their contemporary journals which they should have had themselves, saying that the other paper says so and so, and there is no life in Berlin journalism. The papers have not a very large circulation, and they do not make a great deal of money. The biggest of them sells something like 100,000 copies, and this paper makes \$137,000 a year and thinks it does wonders. Men who write for the papers are moderately well paid, and editors in chief get from \$4,000 to \$5,000 a year.

The Germans are good advertisers, and there seems to be no reason why the papers should not do better. Everything under the sun is put into the papers in the shape of an advertisement. And there is a great deal of social news that we publish for nothing which is put in here at so much per line. Engagements are generally announced in the newspapers by the parents of the bride and also by the groom, and there are a large number of matrimonial advertisements in which men and women state their good qualities and ask for husbands and wives.

Sometimes men advertise, stating that they have a daughter whom they wish to get rid of, and in one year there were 400 advertisements in one paper of persons seeking better halves. Marriages are also published in the same way, and there is a fixed rate for births and deaths. The Germans are very proud of having children, and it is generally expected that a son or a daughter will make his or her appearance in the newspaper columns immediately upon his or her appearance in the world. There are a great number of death notices, and the official advertisements of the city amount to something. Advertisements of patent medicines have as much prominence in the Berlin newspapers as in ours, and altogether the German is a very good advertiser.—Berlin Cor. Washington Star.

The Manufacture of Chinese Goods.

An odd industry in Amoy is the making of tiny images, which are variously known as "figurines" or "little devils." They are statuettes ranging from 1/2 inch to 3 inches in length and are molded from a paste whose composition is a trade secret. The workers better to use the plural than the singular, for each community of modelers uses a paste different from that of the others. Among the ingredients employed are hard wax, insect wax, glue, vegetable gum, linseed gum, paper mache, burned amber, sepiolite, kaolin, ultramarine, yellow ochre, pulverized eggshells—rather a wide field to choose from.

The backbone of the figure is a stick of hard, dry wood left rough to give a better purchase to the paste. Upon this are molded the head, toes and one leg. The other leg and the arms are stiffened by wires or thin pieces of wood. The coarse work is done by boys, girls, women or apprentices, who are remarkably quick and skillful. They use their fingers in outlining, and a variety of little wooden tools in producing texture, hair, beads and ornaments. The figures are then handed over to the artists, who are always men. They finish the features, give an expression to the face and remedy any defect or mistake of their subordinates. The figures are then carefully dried. According to the composition of the wax, hair is dried in a warm room, a cool current of air, a kiln or the open sunlight. The best kinds are dried in a warm room and require from three to eight weeks before they are thoroughly done.—Philadelphia Press.

Accidents to Steamships.

In a paper on the transatlantic steamer traffic, read before the Liverpool Engineering society by Mr. Maginnis, the confident opinion is expressed that before many years the passage across the Atlantic will occupy but 4 1/2 days, because a speed of 26 knots is not all beyond the scope of advancing improvements. In 1878, he pointed out, the greatest horsepower of an Atlantic steamer was 6,000. Now 20,000 is within sight.

The future steamers will be mail and passenger carriers only, and Mr. Maginnis believes that commercial success would attend a fleet of such vessels. Attention is drawn to the great immunity from breakdowns of machinery which characterizes the vessels of the Atlantic, although the voyage is admittedly the wildest and most trying in the world. In the year from Oct. 1, 1891, to Oct. 31, 1892, there were only 1,500 repairs from each side of the Atlantic, nearly 4,000 departures from port, averaging nearly 74 sailings a week, but with all these the writer had only been able to trace seven breakdowns of machinery and only three total disablenents.—London Engineer.

Tooth Pulling Without Pain.

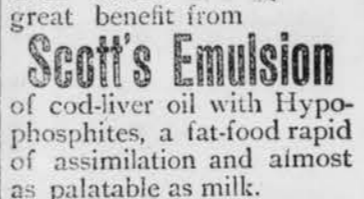

Many persons, especially women, have a strong prejudice against taking gas for the purpose of having teeth extracted. It is the commonest thing possible, according to a dentist, to have them refuse on the plea that they cannot endure the thought of deliberately seeking unconsciousness. As this is the one element of the performance which is of value, it cannot well be eliminated. The announcement, therefore, of the dental anesthetic which takes away sensation but not senses ought to be especially grateful to women. "I am meeting with great success in its use," says a dentist recently, "and the terrors of tooth pulling have really been conquered. It is applied about the doomed tooth, and the patient feels merely the pulling force; there is no pain or tenderness."—New York Times.

Withholding Proper Credit.

A young man at one of the North Side clubs said he was walking on State street the other day when he lost one of his overcoats. An A. D. T. boy picked it up, returned it to him and gave it to him in a polite way. "Of course," said another member, "the boy couldn't wear it." "And he couldn't sell it," put in another, "and had no object in being anything else than honest."—Chicago Tribune.

The Rugged Child

is largely an "outdoor" product. Fresh air and exercise usually produce sound appetite and sound sleep. Sickly children obtain great benefit from Scott's Emulsion of cod-liver oil with Hypophosphites, a fat-food rapid of assimilation and almost as palatable as milk.

VIRGINIA, MINN.

Is the most centrally situated town on the great Mesaba iron range. It has a great natural location, sloping gradually from the mines to the shore of two beautiful little lakes and surrounded by charming scenery. The Duluth, Mesaba & Northern has reached the place and building is going on at a lively rate. The townsite surrounded by one of the best groups of mines on the range, mines capable of producing anywhere from 1,000,000 to 2,500,000 tons of ore annually. The surrounding country is well timbered, pine predominating. A saw mill is now operating and a large one is about to be erected, the lakes affording excellent boogie. The village has a system of water works, a bank, feed stable, several stores, saloons, restaurants and hotels. A post-office and newspaper is now established, the latter by Dr. Fred Barrett. Virginia is destined to have a population of at least 5,000 and people seeking new locations would do well to look it over. For further information write to

Kennedy & Gleason, VIRGINIA, MINN.

Members of the N. Y. Stock Exchange. CAMERON CURRIE & CO. BANKERS & BROKERS 82 GRISWOLD ST., BUTLER BUILDING, DETROIT. Orders for Stocks and Bonds executed at all the Exchanges, either for Cash or on Margin. Special attention given to local and Foreign Securities.

South Shore Time Table

Table with columns for arrival and departure times from Marquette City and Sault Ste. Marie.

No. 1 connects at Mackinac City with Michigan Central and Grand Rapids & Indiana trains from Lower Michigan. Cincinnati, the south and east. No. 3 connects at Sault Ste. Marie with Canadian Pacific train from the east and at Soo Junction with train from St. Ignace and the east via Michigan Central and Grand Rapids & Indiana. Eys.

Table with columns for arrival and departure times from Sault Ste. Marie and Marquette City.

No. 4 connects at Sault Ste. Marie with the Canadian Pacific for the east and at Soo Junction with train for St. Ignace which connects at Trout Lake with the Soo Line for Manistowick, etc., and at Mackinac City (daily except Saturday) with the night trains of the Grand Rapids & Indiana and Michigan Central for Lower Michigan. No. 2 connects at Mackinac City with the Michigan Central for Lower Michigan, arriving at Detroit 6:55 P.M. connecting with the North Shore Limited for New York and the east. Connection made daily except Sunday at Mackinac City with G. H. & I. R.R. for Grand Rapids, Lansing, Cincinnati and the South.

Table with columns for arrival and departure times from Duluth and Marquette.

No. 4 connects at Duluth with trains from St. Paul, Minneapolis and the west and at Saxon with train from Marquette. No. 10 connects at Republic with M. & N. train from Chicago and Milwaukee. No. 2 connects at Nestoria (daily except Sunday) with day express from Duluth and Superior which connects at Saxon with train from Bessemer, Ironwood and Hurley.

Table with columns for arrival and departure times from Marquette and Duluth.

No. 1 connects at Nestoria (daily except Sunday) with through express from Houghton for the head of the lake, arriving at West Superior 9:50 P.M. and Duluth 8:50 P.M., connecting with night trains for St. Paul, Minneapolis and all points west. Connections made at Saxon with M. L. S. & W. R. for Wakefield, Bessemer, Ironwood, Hurley and Ashland. No. 5 connects at Negaunee with C. & N. W. and at Champion with M. & N. for Milwaukee and Chicago. No. 3 arrives at West Superior 6:50 A.M. and Duluth 7:30 A.M., connecting with day trains for St. Paul, Minneapolis and all points west. Connection made at Nestoria daily except Sunday with express for the Copper Country, arriving Houghton 10:40 P.M.

Trains 1 and 2 have Wagner Buffet Sleeping Cars running between Houghton and Detroit. Trains 3 and 4 have Wagner Buffet Sleeping Cars between Sault Ste. Marie and Duluth.

DEMANDS ARE REFUSED.

Chicago General Managers Decline to Grant Increase in Switchmen's Wages.

RATES ARE HIGH AND UNIFORM IN ALL THE YARDS.

Chicago Wages Said to Be as High as in Any City and Higher Than in Most.

CANNOT AFFORD TO PAY MORE.

CHICAGO, March 9.—The board of general managers of the roads centering in Chicago has made up its mind that the demands of the switchmen for an increase in wages cannot be granted.

Whether the men will strike is not yet certain. But whether they do or not there is no doubt that the roads are firmly bound together and better prepared to meet the difficulty than at any time in recent years.

The reasons for declining the demands of the men are given in the following circular, which is the reply given to the men by the general manager of each road:

"In answer to your application for an increase of wages I beg to hand you a copy of a resolution adopted at a meeting of the General Managers' association of Chicago on Wednesday, March 8, 1893, and to advise you that for reasons contained therein this company must respect fully decline to grant any increase over the present schedule of rates.

"Resolved, That this association has carefully examined the schedule of wages paid by the Chicago roads to foreman and helpers in the yard service and that it finds that the scale of wages paid on all Chicago lines is practically uniform; and we find that the switchmen of Chicago and vicinity are now paid the highest rate ever paid for a similar service and higher than is paid in any locality; further that the revenues from freight and passenger lists have constantly decreased and the cost of the service has constantly increased to the extent that no advance in wages can be granted and that no change can be made from the present schedule of rates affecting the compensation of men engaged in this service."

WHO STOLE THOSE PANTS?

Governor Osborne Says That Joke Cost Him Over \$200.

CHEYENNE, Wyo., March 9.—The local sports have had a world of fun over the misfortunes of Governor Osborne. A few days ago the governor got up one morning and found his pants missing. He thought that Dr. Olmstead, who occupied the next room, had played him a practical joke and so, robed in his night shirt, he called upon the doctor and told him to bring back his clothes.

After much search the missing garment was found in a closet in the bath room. The governor has not shown any disposition to talk about the episode but it got abroad and the rhytmeters and jokers of Cheyenne did full justice to the missing pants.

ENGLAND WANTS OUR BONDS.

Would Be Glad to Get Them at 3-1/8 Per Cent.

New York, March 9.—A cable to The Post states that further inquiries have been made on behalf of President Cleveland concerning the readiness of English banks, insurance companies and financial houses to take \$40,000,000 of government bonds, provided the bonds are kept here without realization for nine months.

JUSTICE FULLER'S DAUGHTER.

Mrs. Archibald Brown Buried at Grace-Land Cemetery, Chicago.

CHICAGO, March 9.—The funeral of Mrs. Archibald Brown, daughter of Chief Justice Fuller of the United States supreme court, took place this afternoon. During the obsequies the street was blocked with carriages.

OPPOSED TO ANNEXATION.

Union League Club of New York in a Wrangle.

New York, March 9.—The committee on political reform, which has hitherto quite generally represented the views of the Union League club on matters pertaining to government and politics, received a decided set-back tonight in its endeavor to have adopted a resolution favoring the annexation of Hawaii.

COLLIDED AT A CROSSING.

Engineer Phillips Killed and Conductor Cummings Badly Hurt.

PHILADELPHIA, March 9.—A passenger train on the Philadelphia, Wilmington & Baltimore railway from Oxford, Pa., due here at 9:30 o'clock this morning, collided with a freight train on the Wilmington & Northern railroad at Chaddsford Junction, about 8:45 o'clock.

CAUGHT BY THE ICE GORGE.

Ticket Seller at Niagara Falls Incline Fatally Hurt.

BUFFALO, March 9.—The weight of the ice in the gorge below Niagara Falls this afternoon crushed and destroyed the lower part of the incline railway building where the office was located. The crash came with great suddenness, overthrowing the stoves and setting the light wooden structure on fire.

DID HE POISON HIS PATIENT?

Massage Operator Charged With Murder for Laxacy.

CLEVELAND, March 9.—The sensational Smyth case was placed on trial today in the police court. Dr. Hamlin, a massage operator, is accused of poisoning his aged friend, Mrs. Betsy Smyth, with morphine in order to obtain benefits under her will.

RESUMES HIS LAW PRACTICE.

Ex-Secretary Noble Has Had His Fill of Politics.

St. Louis, March 9.—John W. Noble, ex-secretary of the interior, arrived home from Washington this morning and after breakfast proceeded to his office, where he was seen later. His old desk, which he left four years ago when he went to Washington, had been put in order for him.

Will Try to Prove an Alibi.

CLEVELAND, March 9.—The trial of Patrick Moran, charged with murdering James Fox and Theodore Blankenslee with a hatchet on Christmas morning, began today after three days spent in impugning the jury. The defense will attempt to establish an alibi.

CHICAGO MARKETS.

Wheat Quotations.

Table with 4 columns: Opening, High, Low, Closing. Rows for March, April, May, July.

Cash quotations were as follows: Flour quiet, barely steady; winter patents, \$3.70@4.10; winter straights, \$3.40@3.50; spring patents, \$3.50@3.70; spring straights, \$3.20@3.40.

Cattle, Hogs and Sheep.

CHICAGO, March 9.—Prices at the stock yards ranged as follows: CATTLE—Receipts, 15,000; shipments, 1,000.

METAL PRICES.

New York, March 9.—Pig iron dull, steady. American, \$12.75@15.50.

COPPER STOCKS.

BOSTON, March 9.—Closing prices of copper mining stocks were as follows:

Table with 2 columns: Stock Name, Price. Rows include Algonquin, Atlantic, Boston & Montana, etc.

CATARRH IN NEW ENGLAND.

Ely's Cream Balm gives satisfaction to every one using it for catarrhal troubles—G. K. Miller, druggist, Worcester, Mass.

"ROYAL RUBY" PORT WINE.

If you are reduced in vitality or strength by illness or any other cause, we recommend the use of this grand old Port wine, the very blood of the grape.

Lane's Medicine Moves the Bowels Each Day.

In order to be healthy this is necessary.

IRON MINES MUST LIVE.

Sales Agents Tell Buyers to Expect No Further Concessions on Bessemer.

PRODUCERS MAKE A STAND FOR LIVING PROFITS.

Might as Well Close Down as Cut Prices Further and Mine Ore at a Loss.

IRON TRADE REVIEWS IDEAS.

CLEVELAND, March 9.—The Iron Trade Review in discussing the ore situation says: "The discussion of prices for 1893 ore has opened between one large buyer and certain sellers of Bessemer ores but another month may come before another announcement of ore sales can be made.

MINERS WANT MORE PAY.

Their Association Will Demand Higher Wages After May 1.

PITTSBURGH, March 9.—Patrick McRide, secretary of the United Mine Workers of North America, was in the city today and stated that a general demand for an advance in wages would be made May 1.

TWO NEGROES SHOT DOWN.

They Thought Patton Spotted Their Luck at Cards.

LITTLE ROCK, Ark., March 9.—At Callaway, eight miles from here, E. J. Patton last night entered M. F. Jackson's store where some negroes were playing cards.

Forecast of the Weather.

WASHINGTON, March 9.—9 p. m.—The weather bureau reports the following as its forecast for the next 24 hours: For upper Michigan, generally fair in the interior, local rains at lake stations; southeasterly winds.

Laconia Car Works Burned.

LACONIA, N. H., March 9.—Fire broke out this evening in the Laconia Car works and destroyed the blacksmith and foundry building; loss, \$30,000, covered by insurance.

Jersey Lightning Broke Loose.

RAHWAY, N. J., March 9.—This city was shaken by an earthquake a few minutes after 8 o'clock this morning. Buildings swayed and the druggists sustained considerable damage by breakage.

Horses and Cows Cremated.

BALTIMORE, March 9.—Fifty blooded horses and several Holstein-Friesian cows were burned to death last night on the extensive stock farm "Riverbank," this county.

Respected a Wife-Murderer.

CHARLESTON, March 9.—Lavelle, the wife murderer who was to have been hanged to tomorrow, has been respected by Governor Tillman until April.

Must Go Without an Empress.

VIENNA, March 9.—The empress of Austria has decided not to go to America during the World's Fair.

The Will of the People.

The elections of last November, like those in November, 1890, were in the nature of a popular revolution. Mr. Cleveland is the man above all others upon whom the great majority of the American people rely to carry out the purposes and accomplish the objects of that revolution.

Cleanliness means more than washing the hands and face and body.

It means the keeping of one's surroundings free from influences which must taint the air we breathe, our food and our drink.

There is a chestnut tree in Mansfield, Conn., whose circumference at the roots is 54 feet, and the diameter of the spread of its branches in one direction is 100 feet. Its height is 80 feet.

Whisky will take out every kind of fruit stain. Tablecloths and napkins which have become almost ruined by stains may be restored by pouring whisky upon them before washing.

Eastport (Me.) sardine factories consume 8,000 barrels of cottonseed oil in a season in the process of turning small herring into sardines.

A Lover's Clever Trick.

John Kleumman has been working for John Miller in West Lincoln, Ills. Kleumman became enamored of a daughter of his employer, and the maiden reciprocated the affection, but Farmer Miller resolutely forbade the marriage.

A Solution of the Problem of Poverty.

The German system of poor relief known as "the Eberfeld system" is accepted by many of our greatest economists as the most satisfactory system that has ever been devised.

The leading facts about this interesting system are that the superintendent of poor relief is a trained expert who is chosen for life, is paid for his services, and is eligible to the pension list.

Unexpected Visitors.

Mr. and Mrs. Wayland had taken up their residence in a small village. Their arrival was duly chronicled in the local paper. The grocer and the milkman announced themselves punctually, but at the end of two months no other visitors had appeared.

Every afternoon Mrs. Wayland had confidently expected that some one would call, and had remained steadfastly indoors for fear of missing a visit.

"I declare, I won't wait for anybody to come any longer. Evidently I have got to be my own best company. I will go to work in the garden." So saying, she put on a worn gingham gown and occupied herself in raking up the small lawn.

She had hardly begun when there walked into the garden two ladies, who had evidently come to call. Mrs. Wayland had no time to retreat and walked forward to meet them.

The ladies introduced themselves, and seeing Mrs. Wayland's employment suggested that she should show them her garden.

"So we walked about that little grass plot and looked at my one rosebush," said Mrs. Wayland in telling of the visit, "and as it was pretty warm we sat down on the piazza steps, and not until they had gone did I realize that my first and only callers had not been inside my house.

"On the contrary, they had seen me in my very worst dress. And instead of discussing any subject of general interest, such as the characteristics of our neighbors, we had just told each other what was good to make grass grow, and how to keep rosebushes healthy, and what we thought of lawn mowers.

"I believe, though, Mrs. Gordon did speak about the lovely view from our front porch. Anyway we had a nice visit, and I feel as if they were old friends."—Youth's Companion.

The Armadillo.

The armadillo, as eccentric in his habits as in his appearance, does the duty of the domestic cat among the field mice, which are terribly destructive. Voracious in his appetite, he is sedentary by inclination, but he can find his game with very little trouble.

Mice are always more or less abundant, though periodically, and almost punctually, their numbers decline, but in certain years they positively swarm. Then the dogs subsist on them; they fatten the poultry, and great flocks of fowls of the air are perpetually on the hover over their breeding grounds.

As for the armadillo, he goes to work methodically, quartering the plain like a well bred beagle and sniffing the earth with preternatural acuteness. When his nose informs him that a mouse is near, he creeps up stealthily toward the spot; then, slowly drawing himself up and making his spring, he traps the mouse or a whole family of mice beneath his body.

But he does not confine himself to a mouse and insect diet, and in attacking a snake he uses his impenetrable bony armor as a weapon of offense. A friend of Mr. Hudson's witnessed one of these encounters. The armadillo rushed upon a snake, which vainly sought to escape, and raked himself to and fro on the body until the victim was cut up into sections under the sharp edges of the armadillo's bony covering.

Should animal food fall him the armadillo falls back upon vegetables, so that he need never take more than indispensable exercise and can always keep himself in comfortable condition.—Edinburgh Review.

Why the Girls Failed to Appear.

Not long ago there was a luncheon up town, given by a woman well known in New York's social life, whose guests were invited to meet "the Misses Blank." At the appointed hour a company of a dozen women was assembled in the hostess's parlor, completing the expected number of guests with the exception of the sisters in whose honor the feast was held.

Time wore on, the company grew hungry and the hostess had visions of a spoiled luncheon, but still the Misses Blank tarried. At length, when a full half hour beyond the hour had struck, luncheon was announced, and with a brief comment that the young women must have been suddenly and unavoidably detained, the hostess ushered her friends to the table.

The long luncheon was finished and later adieu spoken with no word from the missing guests of honor, and everybody went away curious to know what could have happened in these days of messenger boys and telephones to prevent the Misses Blank from at least making some sign of its import.

A few days later, however, this curiosity was gratified. A note from her late hostess reached each guest present, saying that in justice to the Misses Blank she hastened to explain that through a curious freak of absentmindedness she had neglected to send them any invitation to the luncheon intended as a compliment to them, which explanation fully exonerated the young women and proved amusing to all concerned, except perhaps the hostess.—New York Times.

Three Kinds of Rubies.

There are three kinds of rubies—the oriental ruby, the spinel ruby and the balas ruby. The first is the only true one. The latter differ considerably in comparison from the first. The true is composed almost exclusively of alumina. In the latter are only seven-tenths of alumina, the remainder being chiefly magnesia. The color, moreover, is due partially to the oxide of chromium, a substance of which the genuine ruby has not a trace.

In commerce the balas ruby has much inferior value to the spinel. This is generally of a vivid poppy red color; the balas is of a violet rose, although Pegu has furnished white and white violet spinels, and Sutherlandia even bluish gray ones. It can be seen at once therefore how extremely erroneous would be the classification of gems by color or general appearance alone.—Jewelers' Review.

DR. PRICE'S Cream Baking Powder.

The only Pure Cream of Tartar Powder.—No Ammonia; No Alum. Used in Millions of Homes—40 Years the Standard.

J. J. Meehan,

Going to Buy a Watch?

If so, buy one that cannot be stolen. The only thief-proof Watches are those with

Non-pull-out

BOWS. Here's the idea: The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the groove, firmly holding the bow to the pendant, so that it cannot be pulled or twisted off.

To be sure of getting a Non-pull-out, see that the case is stamped with this trade mark. It cannot be had with any other kind.

Ask your jeweler for pamphlet, or send for one to the famous Ross Filled Case Co., PHILADELPHIA.

Keystone Watch Case Co., PHILADELPHIA.

Can show you the latest styles in SUITINGS, TROUSERS and OVER COATS, OPERA HOUSE BLOCK

STAPLE AND FANCY GROCERIES

CANNED GOODS, Fresh, Salt and Smoked

MEATS, Butter, Eggs and Poultry.

E. RICHARDS,

AYER'S Cherry Pectoral
The first rain of the winter fell last evening. It looks as if the break-up were here in earnest.
Miss Davis has moved her studio to the parlors of the M. E. church where she will give lessons in proper production of tone, breathing and artistic singing on Thursday and Saturday of each week.
Marquette grocers keep right up with the procession every time. For instance Kellan has ripe huckleberries shown for sale in the glass refrigerator case in front of his store. That's not bad for March.
Hill's camp on the Yellow Dog broke up yesterday, the teams coming in to Marquette with the logging outfit. All but four of them will be sent back by Mr. Busch to help out in the other Hill & Munson camps.
The roads are breaking up all over the county. H. Blenhuber sent a team up to his homestead for wood but when it got back as far as the Garlic yesterday the driver had to throw off the entire load in order to get back to town at all.
George Droulett has been under the weather for the past few days, an attack of the grip having made a serious crack in his vitality. As he can still laugh at a joke providing it is a good one his friends feel hopeful of his complete recovery in time.
Powell & Mitchell were compelled to stop hauling rock yesterday at noon because the sleighing became so bad that teams could not handle the heavy loads. This necessitated laying off the force of men employed at the end of the breakwater.
The public is invited to be present at the novel "T. V." Friday evening the 10th inst. at the parlors of the M. E. Church. Ten served from six to eight. Each lady is requested to bring a box containing refreshments for two persons. Supper 25 cents per box.
Those who were anticipating the pleasure of hearing Mr. J. R. Findlay at the Y. M. C. A. gymnasium this afternoon, will be disappointed to learn that he has been unexpectedly called from town on business. He promises, however, to give his talk at a later date, of which notice will be given in due time.
The last of the ten Masonic dances in the winter series was given last evening and over 125 persons were present. The party was one of the finest of the season, the refreshments being particularly fine. The committee, Messrs. Salisbury, S. G. Brown, Pike, Rees and Delf, has been reappointed with a unanimous vote of thanks and is now preparing a series of three dances, to commence in about two weeks.

AYER'S Cherry Pectoral
taken for consumption, in its early stages, checks further progress of the disease, and even in the later stages, it eases the distressing cough and promotes refreshing sleep. It is agreeable to the taste, needs but small doses, and does not interfere with digestion or any of the regular organic functions. As an emergency medicine, every household should be provided with Ayer's Cherry Pectoral.
"Having used Ayer's Cherry Pectoral in my family for many years, I can confidently recommend it for all the complaints it is claimed to cure. Its sale is increasing yearly with me, and my customers think this preparation has no equal as a cough-cure."
—S. W. Parent, Queensbury, N. B.

REPORTORIAL PENCILINGS.
The first rain of the winter fell last evening. It looks as if the break-up were here in earnest.
Miss Davis has moved her studio to the parlors of the M. E. church where she will give lessons in proper production of tone, breathing and artistic singing on Thursday and Saturday of each week.
Marquette grocers keep right up with the procession every time. For instance Kellan has ripe huckleberries shown for sale in the glass refrigerator case in front of his store. That's not bad for March.
Hill's camp on the Yellow Dog broke up yesterday, the teams coming in to Marquette with the logging outfit. All but four of them will be sent back by Mr. Busch to help out in the other Hill & Munson camps.
The roads are breaking up all over the county. H. Blenhuber sent a team up to his homestead for wood but when it got back as far as the Garlic yesterday the driver had to throw off the entire load in order to get back to town at all.
George Droulett has been under the weather for the past few days, an attack of the grip having made a serious crack in his vitality. As he can still laugh at a joke providing it is a good one his friends feel hopeful of his complete recovery in time.
Powell & Mitchell were compelled to stop hauling rock yesterday at noon because the sleighing became so bad that teams could not handle the heavy loads. This necessitated laying off the force of men employed at the end of the breakwater.
The public is invited to be present at the novel "T. V." Friday evening the 10th inst. at the parlors of the M. E. Church. Ten served from six to eight. Each lady is requested to bring a box containing refreshments for two persons. Supper 25 cents per box.
Those who were anticipating the pleasure of hearing Mr. J. R. Findlay at the Y. M. C. A. gymnasium this afternoon, will be disappointed to learn that he has been unexpectedly called from town on business. He promises, however, to give his talk at a later date, of which notice will be given in due time.
The last of the ten Masonic dances in the winter series was given last evening and over 125 persons were present. The party was one of the finest of the season, the refreshments being particularly fine. The committee, Messrs. Salisbury, S. G. Brown, Pike, Rees and Delf, has been reappointed with a unanimous vote of thanks and is now preparing a series of three dances, to commence in about two weeks.

PERSONAL MENTION.
Miss Ada Mapes returned yesterday from an extended visit with friends in Chicago.
Manager Humes of the W. U. T. Co. and J. B. Cole of THE MINING JOURNAL returned yesterday from Marquette where they took in the inauguration ceremonies.
Mr. M. W. Murchison was detained by business yesterday and did not get away on his way back to Chicago as he had expected. He will leave today with the intention of returning to commence work in this field at an early date as possible.
Miss Grace Burrell has resigned her position in the city schools. Her resignation is greatly regretted by the parents having children under her charge as Miss Burrell has shown herself a thorough, able and accomplished teacher and was a great favorite with her pupils.
Improving the Ballot.
The Australian ballot system, while a good reform in the main, has several features which need amending before it can be accepted as an almost perfect and honest mode of voting. As it now stands, thousands of voters have been disfranchised by the misapprehension of not being allowed to stamp opposite a candidate's name after having once stamped the party emblem. Let there be but one way of voting, by stamping the square by the side of each person that you wish to vote for. A voter once instructed to stamp the square to the left of each person that he wished to vote for will not only not confuse, but actually expedite voting. Another feature of the law which should be changed is the ease with which a partisan board can throw out ballots as defective. As protection in the right of voting is secrecy, so should the ballot be protected after it is cast, so long as the intent of the voter can be ascertained.—Noblesville Ledger.

Over \$25,000 For Towing a Steamer.
The British steamer Ohio has received an award of £25,000 for her services in towing into Queenstown in December last the Red Star line steamer Noordland. The shaft of the Noordland broke while she was bound from New York for Antwerp, and while she was thus helpless she was taken in tow by the Ohio and brought safely into port.—London Letter.

A General Designation.
The negro editors of Georgia, representing 12 papers, have issued an address in behalf of the advancement of their race. They recommend that instead of "colored" the word "negro" be used and spelled with a capital letter.—National Advertiser.

Fannie's Spectacles.
Fannie's eyes were not strong, and the oculist that examined them advised the use of a prism. One day a lady asked Fannie how her eyes were. "Oh," said Fannie, "they are a great deal better, but I have to look through a prism every day."—Youth's Companion.

A Long Head.
Friend to Inventor!—Is it possible you have sold your interest in that patent for only \$200?
Excuse me—Don't you worry. I've got an improvement on it already. To patent that, you'll have to pay \$50,000 to get.—Texas Sittings.

A sack seiver in a Pendleton (Or.) flour mill challenges the northwest for the championship on his record of sewing up 600 50-pound sacks inside five hours, or about two sacks a minute.

PEOPLE IN HISTORY.
INDIVIDUALITY AS SEEN IN THE RECORDS OF THE AGES.
These Who Stamp Their Personality on the Public Mind and Their Characteristics—The Influence of Women in History—The Future Outlook.
The history of the world is that of tribes, races, peoples, nations, with here and there occasional great men and women, whose names stand out in enduring fame because of their distinct individuality. Years come and go and lengthen into centuries. Arts, sciences and industries rise and flourish and are lost again, and crumbling ruins mark the ancient places where busy men and women once walked in the active interest of swarming millions. The dim and misty traditions of these people of past ages interest a few whose business is scholarship, but the actual events of ancient history are of little vital interest to the great body of humanity except as they are epitomized in the lives of individuals. It is the character, thought, doings, of the few men and women of times past and gone whose individuality has become immortal in the minds of men.
In all history, sacred and profane, it is the individual that holds the living interest in the lives of individuals. It is the Biblical history, from Moses to the Nazarene, the lives of a few men embody the concentrated interest of that long period of spiritual evolution, and applied Christianity during the last 1,900 years is not so much the history of the uncounted millions who have succeeded in the active interest of that of the few men, priests and martyrs whose unconquerable enthusiasm overcame the gross superstition of ages and planted the standard of Christ amid the ruins of pagan idolatry.
Buddha, Confucius, Mohammed, are all great figures in the history of the world, but their unclassical followers. When we recall the marvelous period of Egyptian civilization—a period in which art flourished whose very names are lost—it is Cleopatra, the beautiful but licentious queen, her beauty, her love for Antony and her tragic death which are remembered by the grandeur of the pyramids and the sphinx.
The achievements of Greece and Rome live in the traditions of their philosophers, orators, statesmen and sculptors when the dust of 20 centuries has gathered upon the ruins of their ancient glory.
Each succeeding period of the world to the present has been marked by individual progress. Wars have been fought and tribes conquered and subdued, and the arts of peace are pursued on fields that once ran red with cruel carnage, but it is the generals who planned and led these resistless invasions, the statesmen who conceived the great incidents in America's history.
When we enter the realms of philosophy, literature and art we find individual names written upon the scroll of the centuries, and the lesson learned from all analogy leads us irresistibly to the consideration of the individual in the affairs of the state, of society and the universal life.
Sometimes the complaint is made that we have no longer great men, statesmen, orators, philosophers, poets and painters, as in former generations, and to superficial observation this complaint seems true. But comparisons prove that the general exaltation of the individual is leading up to higher standards of excellence for all, and where a few men formerly represented the interests of the nation, many among the masses to day are pressing forward shoulder to shoulder in the race of life.
The tendency of all modern thought is toward the recognition of the individual, his personal rights, his liberty, his elevation, his happiness, his supremacy as an entity—a man. When I use the word "man," I do it as embodying woman also, for there has never been a time in all history when woman has received the recognition accorded her today. One's sense of human right is seldom offended now, as formerly, by the limitations of woman's sphere imposed by old traditions. In the fulfillment of laws given by infinite wisdom men and women are rounded on the opposite sides of a golden sphere, and will eventually meet in the indissoluble union of the male and female in a common individuality of interests.
The limitations of sex in the narrow acceptance of the thought will have no place in the higher civilization. The future holds no more possibilities, and the woman's cherished ambitions. And yet, in this nobler community of human interests, the individuality of sex must be recognized as never before in the history of the world. Only the grossest stupidity would deny individual freedom of destiny to sex pure and simple, and before we can comprehend the eternal principles of human development who fears to trust the individual, whether man or woman, with the choice of his own destiny, all things being equal—and the choice governed by the soul within—by the moving principle of the divinely implanted instincts.
I have often thought that the great excess of women over men in civilized countries was nature's own declaration that women's influence is needed in the active fields of work outside domestic life, and the natural disinclination of certain women to the cares of maternity, but the evidence of a wise providence in nature to equalize the work of the world and set the mothers of the race apart during the child bearing period for these special functions, in order that a grander humanity might be evolved by the application of laws of scientific procreation. We are reaching out in every direction after the truth that shall set the individual free, and old superstitions and traditions fall before the steady march of progressive human science and are forgotten. And yet, amid the progress of the ages, time may be well spent in considering upon the one hand the aids, and upon the other the obstacles, in the way of individual progress.—Mrs. James Miller.

Souvenir Coins.
The Chicago people do not think that the Columbian souvenir coins are a success from an artistic point of view. We quote C. V. Turner, the artist who designed the dedication medal: "It is quite on a level with the usual work of the mint. A very similar botch was made of the dollar at the beginning of the year. A competition was announced, and hundreds of designs were sent in but the mint authorities rejected all and fell back on their own man. A good opportunity to produce an artistic coin was lost then, and a better opportunity has been spoiled now. It is no wonder that people are saying that the souvenir half dollar is not 'like Columbus.' They don't know, as a matter of fact, what Columbus was like, but they have a pretty clear idea that he was not the death mask the coin represents him to be."—Chicago Journal.

Among the strictly truthful advertisements found in the Hotel World is one inserted by Proprietor Volk of the New Clifton, Marquette. It reads: "The best hotel in Marquette, Mich. is the New Clifton."—The Hotel World March 4, 1893.

SEWING MACHINES.

—SPECIALISTS IN—
NERVOUS AND CHRONIC DISEASES.
Main office at 146 Washington St. (Mining Journal building) Marquette, Mich. Branch office at Saginaw Mich., and West Superior, Wis.
The physician in charge of the office is a graduate of the Medical Department of Harvard University.

YOUNG MEN
Who may be suffering from the effect of youthful follies or indiscretions will do well to avail themselves of this chance.
DR. SPEER & CO.
Will guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$250. They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience.

MIDDLE-AGED MEN.
There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting sensation and weakening of the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits aropy sediment and sometimes small particles of albumen will appear or the color be of a thin or milky hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness.

LADIES
Finding it inconvenient to call at the office can be treated by mail by sending a full description of their case.
DR. SPEER & CO.
Will guarantee a perfect cure in all such cases and a healthy restoration of the organs. Examination and advice free to all. Remember the place, 146 West Washington street, Marquette.

P. S.—See our testimonials in the different papers from well-known people.
Never put off until tomorrow what you can do today. If you feel alarmed about your lungs take Dr. Speer & Co's. new lung treatment.

ISHPEMING'S FIRE ALARM.

Proposal of the Gamewell Company for Repair and Extension of System in Use Accepted.

WORK TO BE STARTED AT ONCE AND COMPLETED SOON.

Somebody "Swiped" a Watch—Ishpeming Man to Start a Branch Business at Virginia.

ACCEPTED THE PROPOSITION. At the special meeting of the common council of Ishpeming last evening, held for the purpose of considering the proposition of the Gamewell Fire Alarm company of Chicago to put the city's fire alarm system in first-class order, it was decided to accept the same.

There will be six miles of new wire strung and eight new alarm boxes will be put in. A new indicator will also be placed in the fire engine house. In the proposition of the Gamewell company \$2,400 was given as the cost of the work with ten boxes, but with eight boxes the amount will be \$250 less.

On the 20th of last month the little son of Hans A. Anderson, who conducts a saloon business at the corner of Cleveland avenue and First street, took his father's watch from behind the bar and went out on the street with it.

Started a Branch Shop. William McNabb, the painter, took a trip to Virginia, on the Mesaba range, one day last week for the purpose of looking around with a view to opening a branch shop there.

Declared Off. The boys' ski race, announced to take place tomorrow afternoon by the Norden Ski club, has been declared off, principally because the weather does not promise to be favorable and also because a sufficient number of boys could not be induced to enter the contest.

The Pay Days. The pay days at the different mines this month will be as follows: Cleveland hematite and hard ore mines, today; Cliffs Shafts, tomorrow; Salisbury, Monday; Lake Snaft, Tuesday; Lake Superior, Wednesday; Lake Angeline, Saturday.

ISHPEMING IN BRIEF. The front of "The Lobby" received a fresh coat of paint yesterday. Aug. Kilstrom got home yesterday from a purchasing trip to Chicago.

The surface snow water is beginning to run in the direction of the sewer catch basins. "The Pride of the Market" will be presented by the Browne Theatre company tonight at the City Opera House.

A family matinee will be given tomorrow afternoon at the City Opera House at 2 o'clock by the Browne Theatre company. Admission at reduced prices.

Charles Erickson, an old-time resident of Ishpeming, left here Wednesday evening for Sweden, his native land, where he will remain for the next eight or nine months.

A mission meeting will be held at the Swedish Lutheran church next Tuesday, Wednesday and Thursday. Several clerical gentlemen from adjoining towns will be present and conduct the services.

members of the orchestra. The price is twenty-five and fifteen cents, according to kind.

The residents of the Sixth ward are elated over getting the four arc lamps that were recently put in place in that part of town. The lamps were put in service Tuesday night for the first time.

The Scandinavian Temperance society will hold a discussion meeting Sunday afternoon at 3:30 at the Swedish Methodist church. The society will also hold a meeting on Monday evening at 7:30 at the Norwegian Methodist church.

W. T. Cole, Ishpeming's bustling boiler maker, who has the contract to build forty 2-ton steel tram cars for the Lake Angeline company's underground electric tramway, has already begun working on the job.

Portable Franos. An invention, which would be a fortune to the inventor and manufacturer, is a portable piano—that is, a keyboard of six octaves, inclosed in a plain case 41 inches long, 18 inches broad and 8 inches deep; each note to be very faint, but pure, distinct and as correct in tone as the best pianoforte manufactured.

Such an article would be invaluable, as it could be placed on a writing table or dressing table in a bedroom, and the tone being faint its use could not annoy other people when the amateur was practicing. It could be carried about in a leather case as ordinary luggage, and when not in use could stand in a corner of a sitting or bedroom.

Our Lessening Trade With Spain. An old expert house with European connections, doing a large business in Great Britain and on the continent, has called our attention to the large falling off in trade between the United States and Spain.

ENTIRELY SATISFACTORY. W. J. Arkell, publisher of Judge and Frank Leslie's Illustrated News, writes: JUDGE BUILDING, Cor. Fifth ave. and Sixteenth street, New York, Jan. 14, 1893.

IRELAND'S PATRON SAINT. Three Houghton County Towns Will Hold Celebrations on St. Patrick's Day.

PROGRAM OF THE HOUGHTON CONCERT AND LECTURE. Village Elections Continue to Be Heated-Miner Hurt in the Tamarack. Miscellaneous Notes.

St. Patrick's Day will be celebrated in this city in its usual manner by the admirers of the patron saint of the Emerald Isle. Solemn high mass will be celebrated at St. Ignatius church at 9 o'clock and a sermon on the life and labors of the saint will be delivered. In the evening commencing at 8 o'clock sharp, there will be an entertainment, including a lecture on "Hibernianism" by the Rev. Father Manning, a three-act drama called "Rebecca's Triumph," and the following vocal and instrumental program:

- "Salute to Erin".....Lamotte
Messrs. J. Seifert and Mr. Fox.
Male Quartette.....Hooper Brothers.
Duet.....Miss Mauderfield and Mr. Fox.
Solo.....Miss Gardner.
Duet....."Minute Gun at Sea"
Messrs. J. P. Edwards, Mrs. Blandy, Mr. Trevettan, Mr. Rees.
Selection-Instrumental.....Houghton Philharmonics.
Solo.....Mrs. Datson.
Duet....."Il Trovatore"
Miss Davy, Mrs. J. P. Edwards.
Quartette....."Last Rose of Summer, Moore
Mrs. J. P. Edwards, Mrs. Blandy, Mr. Trevettan, Mr. Rees.
"Killarney".....Balfe
Quartette.....Mrs. J. P. Dedier.
Quartette.....Messrs. Croze, Jones, Cameron and Berryman.
Quartette....."Let Erin Remember".....Moore
Messrs. Dodge, Rees, Cappel and Sheldon.
Grand Finale....."Our Merry Play".....All Hands.

The cast of characters for the drama will appear later. On account of the length of the program the performance will begin at 8 o'clock sharp. Reserved seats may be secured at Kroll's without extra charge. Mr. A. D. Edwards has written a letter to the chairman of the Democratic county convention declining the nomination on the Democratic ticket for school commissioner.

The Portage Lake Methodist, the little paper published in the interests of the Methodist churches at Houghton, Hancock and Dollar Bay, was issued for the last time yesterday. There will be a social at the residence of Mr. and Mrs. C. A. Hall this evening under the auspices of the Epworth League. A fine program has been arranged. The prisoners at the county jail are busy cleaning the wood work and windows inside the court house.

The Eureka band of the Atlantic mine will give a grand concert, assisted by some of the best local talent, on Saturday evening, March 11, at the mine school house. The affair will wind up with a farce entitled "Homeopathy, or the Family Cure."

Painters are at work on the inside of Ed Haas' store. The contract for repairing the bridge has been let to William McCurdy. The driveway will be replaced and new timbers will be put in where necessary. Len. Teller, an old Houghton boy, now of Detroit, is here on a business trip reviewing old acquaintances.

L. H. Richardson's clothing store is now on the telephone exchange. Silverman & Levy are having the two store rooms in the Northey block connected by a large archway and bridge to occupy the whole about the 15th inst. The Democratic judicial convention will be held at "Fire" on Wednesday next. It looks just as present as if Jay A. Hubbell would be endorsed.

John Folkner and Floyd Comstock, the two boys who ran away from the mission at Baraga, have been sent back. A. J. Scott will leave today for southern Michigan to attend the funeral of an old friend. The funeral of the 3-months old child of Philip Pearce of Ripley was held yesterday afternoon from the residence, Rev. G. A. Walker officiating.

On several occasions THE MINING JOURNAL has failed to reach here by the noon train. Each time some important event made its many readers anxious to get their papers. The fault is in the transportation at some point. CALUMET VILLAGE. THE MINING JOURNAL reporter was informed last evening that fifteen buildings on one street would be started just as soon as the snow was off the ground.

The village election next Tuesday will be a very hot one. CALUMET. Mr. John Trelease arrived from Chicago yesterday noon. Landlord North of the Calumet Hotel is laid up with rheumatism.

A large mass of rock fell on the head of Peter Haskinen while at work in the Tamarack yesterday morning. His skull was fractured but the company's surgeon thinks he will recover. St. Patrick's Day will be celebrated here. There will be morning services at the church of the Sacred Heart at 9 a. m., sermon by Rev. Fr. Pacific. At 2 o'clock there will be a grand parade of the A. O. H. societies; grand marshal, John R. Ryan; aides, J. Dunningan, J. L. Sullivan and J. E. O'Neill; music by the celebrated Calumet Cornet band. In the evening there will be a lecture and concert at the Red Jacket Opera House. A free train will be run over the Hancock & Torch Lake railroad, leaving Lake Linden division, A. O. H., will take part in the parade. The lecturer

is John H. Vaughn; subject, "Ireland's Wrong and Glories." Well trained performers will take part in the concert. The proceeds will go to the Sacred Heart school. Hon. Frank A. Douglass of Houghton was in the city on business yesterday. The soft weather of the past two days has made it impossible to pass a loaded team on the Lake Linden road.

S. F. Brady has gone to Keweenaw county for minerals for the World's Fair. The large crystallized copper specimen which stood in Jeweler Herman's window was packed yesterday for the World's Fair.

William Coach of Baraga returned last evening from the Allouez company's lands, where he has been looking after John Franke's logs. The latter bought about two million feet.

Superintendent Fred Smith stated that the Wolverine would not start up its stamp mill until May. Some very good copper ground has been encountered in the drifts.

Natural Gas Raises a New Law Question. A resolution was introduced in the city council tonight to begin a suit for damages, involving several hundred thousand dollars, against the Northwestern Ohio Natural Gas company, which has its wells in this county adjoining those of the city, and which supplies the city of Toledo with gas. The resolution is the result of a long study of the legal aspect of the case by Mr. Alexander, who introduced it, and upon his recommendation it was referred to the city solicitor, who, it is understood, is in favor of vigorously prosecuting the suit. As the rock pressure has gradually decreased, the Northwestern company has introduced three immense pumps at a station six miles from the city, at a cost of \$50,000, in order to force the gas through the 40 miles of pipe and suck it from the ground. This has greatly injured the city's territory, and the claim will be made that the use of artificial means to get the gas from under the contiguous territory of the city is illegal. The question has never been raised in the courts. Findlay Cor. Cleveland Plain Dealer.

Another Airship Invented. Another airship has been projected by M. Grensfelder, who has just received his patent papers from Washington. The ship is a cigar shaped affair, 100 feet long and 20 feet in diameter. It will hold 35,000 cubic feet of gas and carry 2,800 pounds. The feature of the invention is that it can be steered. There are several mechanical innovations for which great results are promised. The invention varies from most airships in that it can float in the water. The framework will be of steel or aluminum, the ribs being covered by a light airtight cover, which will receive several coats of varnish. The gas will be stored in a chamber at each end, and there will be space left for a cabin in the middle. In this cabin the electric motor, anchor and all the other mechanism will find a lodgment. A strong partition will separate the machine and passenger quarters. St. Louis Letter.

General Butler's Famous Yacht. There is considerable speculation in yachting circles, now that General Butler is dead, as to into whose hands the old America will fall. Mr. Paul Butler told me that he had not the slightest idea as to whether he should retain it or not. Current opinion in Lowell has decided that he will not. His pet hobby is canoeing, and it is doubtful if he will change at this day. The general's last cruise, by the way, he told me, was taken with the New York Yacht club, when he sailed up with them from Newport, the America giving many of the new yachts a tussle. After that he took a number of short trips up along the north shore, but this was his last cruise. Boston Record.

The 1892 Fire Loss. The fire loss of the United States and Canada for the month of December, as compiled from our daily files, amounts to \$12,354,450. Added to the figures for the previous months of 1892 this shows a total for the year of \$132,704,700. The losses for 1891 were \$137,716,150, and for 1890, \$106,998,345.—New York Commercial Bulletin.

His Mother's Pudding. A man who did not keep in mind that in boyhood he ate his food with a better sauce than any cook ever invented was in the habit—a habit said to be common—of making his wife uncomfortable by a too frequent reference to his mother's wonderful culinary skill. Once, however, he was put to silence for a few days at least. "John," said his wife, "I wish you would tell me just how your mother made her plum pudding. Then perhaps I could suit you." "Why, she took some raisins and stirred 'em up with pudding and baked it. That's all." "But, John, real plum pudding is boiled." "Oh, of course. Mother always boiled it after she baked it."—Boston Transcript.

Saving Wealth for Royalty. It has sometimes happened that persons little deserving, and even rulers, have reaped the harvest which misers have painfully sown. The life of Vandille is a proof of this. This man lived upon bread and milk, with the addition of a small glass of sour wine on Saturdays. At his death he left \$200,000 to the King of France. Audley, the commonwealth miser, saved \$400,000, all of which reverted to the government.—Cassell's Journal.

DEAFNESS CANNOT BE CURED by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by druggists, etc.

Your Painter has often wasted time and material in trying to obtain a shade of color, and has even resorted to the use of ready mixed paints, the ingredients of which he knew nothing, because of the difficulty in making a shade of color with white lead. This waste can be avoided by the use of National Lead Company's Pure White Lead Tinting Colors. These tints are a combination of perfectly pure colors, put up in small cans, and prepared so that one pound will tint 25 pounds of Strictly Pure White Lead to the shade shown on the can. By this means you will have the best paint in the world, because made of the best materials—

Strictly Pure White Lead and pure colors. Insist on having one of the brands of white lead that are standard, manufactured by the "Old Dutch" process, and known to be strictly pure: "Armstrong & McKelvy" "Beymer-Bauman" "Eckstein" "Fahnestock" "Anchor" "Kentucky" "Morley" "Southern" "Shipman" "Red Seal" "Collier" "Davis-Chambers"

These brands of Strictly Pure White Lead and National Lead Co.'s Pure White Lead Tinting Colors are for sale by the most reliable dealers in paints everywhere. If you are going to paint, it will pay you to send for a book containing information that may save you many a dollar; it will only cost you a postal card. NATIONAL LEAD CO., 1 Broadway, New York. Chicago Branch, State and Fifteenth Streets.

"White and dazzling In the moon's fair light she looked." Nothing remarkable about that! She was fair to look upon, as a matter of course; and the dazzling effect was produced by her white robes—cleansed and brightened by a liberal use of KIRK'S AMERICAN FAMILY SOAP. That's one of the peculiarities of KIRK'S Soaps. Clothes washed by them always attract attention by their purity and brightness. JAS. S. KIRK & CO., Chicago. Dusky Diamond Tar Soap. The Soap for Cuts, Wounds and Bruises.

AT LAST NIGHT'S MEETING.

Proceedings Had at the Adjourned Regular Meeting of the Council Last Evening.

SPRING STREET WILL BE OPENED AFTER MANY YEARS

Fishermen of the Great Lakes Organize for the Preservation of Their Prey—Other Notes.

WILL MEET AGAIN TUESDAY.

The adjourned regular meeting of the council last evening was a rather uneventful session, so far as "scraps" were concerned, but several measures of great importance were acted upon, among them being the opening of Spring street through the Harlow property and the investigation of the occupancy of streets by George L. Burts and others in the Third ward.

The reading of the minutes was dispensed with. Upon request of the health officer the marshal was authorized to appoint one of his officers to attend to the posting of the placards indicating the presence of contagious diseases and he was also authorized to appoint an officer to take the place on the force of Albert Foubert, resigned.

A petition from the mail carriers of the city asking authority to carry revolvers and to be permitted to shoot within the city limits when attacked by vicious dogs on their regular rounds was granted, hence a sudden increase of mortality among the ugly dogs around town may be expected.

The matter of a change in the grade of Crescent street, now under contract, was referred to the city attorney for his opinion as to its effect upon the legality of the special assessment roll.

The D. S. S. & A. offering to compromise the tax suits brought against it on some of its water front property for one-half the amount levied the proposal was accepted.

The report of the electric light committee was referred to the finance committee and the reading of the annual report of the board of fire and water commissioners was deferred to the next meeting.

The city attorney reported in the Preston case that Mr. Preston was not willing to pay the assessment on 50 feet of his Ohio street front, let alone the 100 feet assessed and after several motions and amendments the officers of the city were finally authorized to proceed with the collection of the assessment according to law.

On motion of Alderman Siegel the bill of the stenographer of the road roller investigating committee was taken from the table. He then moved that it be allowed but by the adoption of an amendment offered by Alderman Desjardins it was referred to the committee on claims and accounts.

The city attorney was by resolution authorized to take immediate steps to protect the rights of the city in view of the encroachment by property owners in the Third ward upon street lines. This is intended to cover Lake, Ridge Arch, Michigan, Ohio and Walnut streets.

On motion of Alderman Hennessey, seconded by Alderman Desjardins, the offer of Mrs. Olive L. Harlow to accept the amount allowed by the jury in the Spring street condemnation case, \$1,500, was accepted and the mayor was authorized to issue an order for the amount upon receipt of the deed in proper form.

The street commissioner was directed to have street signs placed on all the streets where they may be found missing and also to direct property owners to number their houses in cases where that has been neglected.

The following places were named for registration and election in the various wards: First ward, Ryan's store; Second, recorder's office; Third, Hodgkins' livery; Fourth, vacant store in opera house block; Fifth, Gregory block, 426 West Washington street; Sixth, Martin Foad's store; Seventh, J. Q. Lewis' store; Eighth, George Rees' new house, Crescent street. The council then adjourned to next Tuesday evening, the second Tuesday in March being the close of the city's fiscal year and the time at which the annual reports of city officers must be submitted.

Working For the Future.

The fishermen of Michigan recognize the importance of keeping an eye open for the future and of the necessity of adopting more stringent laws to ensure the preservation and propagation of fish in the great lakes as a food product.

Through Mr. John Parker, one of Marquette's oldest, best posted and most widely known fishermen THE MINING JOURNAL has been informed of the proceedings had at the meeting held in Petoskey recently to organize the Michigan State Fishermen's association. Many of the best known fishermen upon Michigan were present, including A. Booth, the Connables and S. H. Davis and a great many not present were represented by proxies. The association was organized with the following officers: President, A. Booth, Chicago and Manistique; secretary and treasurer, R. Connable, Jr., of Petoskey and Grand Marais. The constitution provides for annual meetings in February of each year and for an executive board consisting of the president and secretary, ex officio, and two fishermen from Lake Michigan, two from Lake Superior, two from Lake Huron, one from Lake Erie and one from Lake St. Clair. The first executive board named consists of the following fishermen: Lake Michigan, H. Mullenhagen, St. Joseph, G. C. Geiken, Charlevoix; Lake Superior, E. J. Coffey, Whitefish Point, John Parker, Marquette; Lake Huron, Casper Alpena, Alpena, H. A. Benson, Bay City; Lake St. Clair, A. W. Selkirk, Port Huron; Lake Erie, J. E. Dewey, Monroe. The objects of the association as named in the preamble to the constitution adopted are as follows:

WHEREAS, We fishermen on Lakes Michigan, Superior, Huron, St. Clair, Erie and

Green Bay, bordering on the state of Michigan, believing that the present depletion of the fisheries should be arrested, and looking to the protection and perpetuation of the fishing industry, do hereby form ourselves into an organized body to use our influence to secure the enactment and enforcement of proper laws which will insure this end, and subscribe to the following constitution:

In furtherance of these objects a bill has been drafted, its terms being as nearly as possible those of a similar measure now pending before the Wisconsin legislature, and a strong committee will be sent to Lansing to urge its passage. The bill is entitled "An Act to Regulate the Fisheries in Lake Michigan, Lake Superior, Lake Huron, Lake Erie, Lake St. Clair and Green Bay" and is as follows:

The people of the state of Michigan enact: Sec. 1. It shall hereafter be unlawful for any dealer or other person to buy, or for any one to sell, or offer to sell, or any one to have in his possession in this state, or for any one to ship out of this state, any whitefish of less than one pound and a half, round or undressed weight, or any trout of less than one pound and a half, any pike, pickerel or bass of less than one pound each round or undressed weight, provided, however, that any one engaged in fishing as a business may be permitted to have in their possession only such amount of illegal sized fish as the warden in his judgment may think unavoidable, provided further, that such amount shall under no circumstances exceed twenty-five pounds. Any dealer or other person violating any of the provisions of this section, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished by a fine of not less than fifty dollars (\$50.00) nor more than one hundred dollars (\$100.00) and costs, and on a second or subsequent conviction for a similar offense, shall be punished by a fine of not less than one hundred dollars (\$100.00) nor more than two hundred dollars (\$200.00) and costs.

Sec. 2. Every person fishing for himself or for another as an employer, shall while fishing in any of the waters of Lake Michigan, Lake Superior, Lake Huron, Lake Erie and Lake St. Clair during the spawning season in every year, take the eggs from the female fish while alive, and the milk from the male trout while alive, and after mixing them together in a pan or pan as the fish commission may instruct, immediately cast them into the water where such fish are taken, or the fish commission may take the same for artificial propagation, should they so desire. Any person violating the provisions of this section, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished by a fine of not less than ten dollars (\$10.00) nor more than twenty-five dollars (\$25.00) and costs.

Sec. 3. It shall hereafter be unlawful for any person or persons to throw overboard from any row, sail or steamship or other craft, or throw into any of the waters mentioned in the title of this act, or any bay, stream, or stream emptying therein, any fish offal. Fish offal shall be construed to mean the cleanings of fish, such as heads, intestines, blood and dead fish. Any fisherman coming to the shore with fish in his boat, dressed, and having no offal in his boat, shall be deemed prima facie guilty of a violation of this section. Any person violating the provisions of this section, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished by a fine of not less than ten dollars (\$10.00) nor more than fifty dollars (\$50.00) and costs.

Sec. 4. It shall be the duty of the state fish and game warden to see that all the provisions of this act are strictly and faithfully complied with, and to aid him in doing so, he is hereby invested with all the necessary power and authority. During the months that the fishermen are engaged in fishing for whitefish and trout in any district, it shall be the duty of the warden or his deputy to visit the same district, and said warden is hereby given authority to examine any package of salt fish, that he may have reason to suspect may contain any fish of less weight than is allowed by this act.

Sec. 5. On or before the last day of December, in each year, it shall be the duty of the state fish and game warden to make out and transmit to the president of the commission of fisheries of the state of Michigan, on blanks to be furnished said warden by the secretary of state, a statement of all boats performed by him in relation to fishways and the protection of fish and game. The deputy warden shall report to the state fish and game warden, and he to the president of the commission of fisheries, the number of arrests made, the number of prosecutions commenced, the number of convictions secured, and the amount of fines collected, with day and date of same, together with the number of nets seized and destroyed by him, stating kind and value, with such other information as said president of the fish commission may deem necessary. Such statements and information shall be published with, and as a part of the several reports of said commission of fisheries and such additional pages shall be printed in said commission of fisheries' report as may be necessary to embody such statements and information in convenient form.

Sec. 6. Upon complaint made in writing under oath, before any magistrate or justice of the peace, charging an offense against the provisions of this act, in his county, it shall be the duty of the prosecuting attorney to prosecute the offender, and justices of the peace shall have the power throughout their respective counties to hear, try and determine any violations of the provisions of this act.

Sec. 7. One-half of the fines imposed under any section of this act, shall be for the benefit of the person or persons making the complaint and conviction of the same, and the other half shall be paid to the state treasurer, to be placed in the general fund.

Sec. 8. The board of fish commissioners, or their authorized agents, may take, at all seasons, and in any way, fish from the public waters for the purpose of artificial propagation.

Sec. 9. All laws in force which do not conform with the provisions of this act, shall be null and void.

Sec. 10. This act shall take immediate effect.

SPRING.

Although somewhat belated by snow drifts is with us again.

LENT

Will soon be past, then the festivities will commence. Don't you want a new

BUSINESS SUIT, DRESS SUIT, OVERCOAT

Or pair of trousers. Look through your wardrobe and see if old clothes don't need repairing with new ones. Remember the place for Merchant Tailoring.

PROMPT, GOOD WORK.

My wife suffered with such intense neuralgic pains in the face, she thought she would die. She bathed her face and head with ST. JACOBS OIL, and it cured her in four hours.

RHEUMATISM.

Mr. Willet F. Cook, Canajoharie, N. Y., writes: "Awoke one morning with excruciating pains in my shoulder. Tried various remedies for sudden pains without effect; went to my office; the pain became insufferable; went home at 11 o'clock and used ST. JACOBS OIL; effect magical, pain ceased, and at 1 o'clock went to work; cure permanent."

NEURALGIA.

LITTLE RAPIDS, WIS. My wife suffered with such intense neuralgic pains in the face, she thought she would die. She bathed her face and head with ST. JACOBS OIL, and it cured her in four hours.

KASSEL OSHINSKY,

WHOLESALE AND RETAIL.

The only leader of low prices in the city.

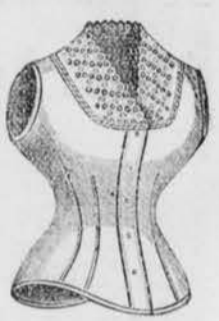

There is no one instrument, unless, indeed, it be a large pipe organ, capable of the variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello and all the snap and brilliancy of the piano. See and hear them at Conklin's.
