PROSPECT FOR CHARCOAL IRON.

0th prints this article on the outlook is \$11 per share. As the product is susception for the charcoal iron industry, a subject tible of increase, it will be seen that there that is of considerable interest to the is good reason for confidence of Quinc people of this peninsula: What the future has in store for the char-

nterest to a great many, and of special solicitude, of course, to those whose plants have been located and built with the view of producing this class of iron. That the prospects are none too rosy goes without saving, for the outlook in all the iron markets is not as encouraging as it might be. The situation of charcoal iron in the market today seems to be somewhat similar to that of puddled iron, although to a lesser extent, for steel is rapidly tak-ing the place of iron, but until there are radical changes in the manufacturing of ron, charcoal iron will not be superseded in the near future. The experiments in making car wheels out of coke iron, with very little exception, have not been successful, so that the demand from this line alone will represent a large consumption of charcoal iron. Then the chilled roll makers doubtless will continue to use charcoal iron in considerable quantities, while such special uses as for hammer dies, glass moulds, etc., will require a not inconsiderable amount. But outside of these lines, the demand will not spread and may be re stricted even within these lines by improvements in the manufacture of other and cheaper brands. The iron trade some twenty-five or thirty years ago required charcoal iron in almost all branches, but the improvements in making the cheaper coke iron have resulted in its substitution until today our mills use little or no charcoal iron, while its use in the foundries is confined to the lines mentioned.

The charcoal furnaces have to contend with a decreasing fuel supply as well as with the other hindrances, the former having been the cause of suspension at a number of furnaces, notably in the Lake Superior region. The tendency toward cheapness has reduced the margin on iron so that the weaker makers of charcoal iron have been forced out of the received the control of the microsity of the muccus surfaces.

We will give one hundred dollars for any case of deafnes, caused by catarrh) that cannot be cured by Hall's Catarrh Cure Send for circulars, free.

F. J. Chenky & Co., Toledo, O. MER, have been forced out of the race and the stronger ones on'y have continued in oper-Mich. ation but often at a loss. This has re-

stricted the furnace capacity, but notwith standing this stocks have shown a marked tendency to accumulate. Another thing tendency to accumulate. Another thing to lessen the demand for charcoal iron is ing every way possible to decrease the quantity of pig iron in their mixture and

ncrease the use of old wheels.

A prominent and well informed firm of pig iron brokers was asked as to the advisabil-ity of re-starting a charcoal furnace plant and what the proposed prospects were in that line. The reply of the firm was to the effect that the production of charcoal iron is not likely to be increased unless there is a decided revival among the railroads. Quite a number of Lake Superior furnaces viously named as the Citizens' candidate for mayor of Chicago at an immense not resume under present circumstances. No new furnaces are heard of in the south,

The one line in which there is a chanc the prospects none too bright, it would seem to be the wisest course, as no doubt there will be a legitimate demand for cold

blast charcoal iron for some time to come.
While the outlook, as we have just said, is none too rosy for charcoal iron m think the consumption of this grade of iron sane asyltm for this peninsula. It will in 1893 will be equal to that of 1892, as the be a great injustice to this section if car works seem to be well employed on orprovision for the establishment of both ders and anticipate a fairly profitable year, these institutions is not made, and it as the increase in rolling stock will be quite than car wheels probably will not fall far below the standard of last year.

COPPER SALES IN 1892

The Boston Transcript has been look ing over the reports of the Lake copper companies for the last calendar year with an analytic eye, and has this comoffice the run of the administration ment on certain facts which they dis close:

Late annual reports of Lake Superior copper mining companies for 1892 empha would withhold appointments in this size the singular fact that the Quincy, the state until after the spring election delargest of the mines which make full renotes that he is aware that the state of the Atlantic's report shows that the com-pany received an even better average than Michigan Democrats are not especially the Osceola. Probably the reason for entitled to favors at his hands. But he these differences in price received is to be found in the fact that some mines sold nore copper at the lowest prices of 1892 state for him last fall. They gave him a portion of the electoral vote of Michigan, and it was purtly because they have realized the best average price of the an unfair method of making that sure Its average was 11.9 cents per pound; the Osceola's 11.67 cents; the Kearsarge's 11:45 in the last election. Besides, he took in the early months of 1892 the price of reached in December. The average of the year was 11.56. Both the Osceola and the Atlantic got a better price than this; the Kearsarge and the Quiney did not do so THERE is now in the vaults of the government mint at Philadelphia an amount of silver bullion sufficient, with these companies, particularly the Quincy, must have made large sales of copper at the well and the manifest corollary is that the usual alloy, to coin 150,000,000 silver the low prices prevailing early in the year, dollars, and this is being added to at the and comparetively smaller sales at the

month under the silver purchase law which the last congress should have repealed but did not. The vaults of the mint are filled to overflowing, all the over eleven million pounds fine last year -at an exceedingly low cost doubtless ac counts for the great strength of the stock. sary to construct another steel-lined price which makes it yield on the basis of vault to hold the silver that continues last year's dividend payments of \$6 per to flow in. In addition to the bullion share only \$\psi_{\text{o}}\$ per cent., while Osceola, pay. The fact that this large accumulation construction charge, the Quincy's cost of of coined silver has been allowed to re- producing, treating and marketing its copmain untouched is in itself a pretty per in 1892 was only 6.8 cents per pound. strong argument against free coinage Allow for a moderate amount of new conof that metal, for where is the use or struction, which is normal under ordinary circumstances, and it is probable that the Quincy can make it market at a total cost of not far from seven cents per pound. On a copper market such as we now have, say twelve cents, the mine can be made to yield on no greater product The American Manufacturer of the than that of 1892 a profit of \$550,000, which

company when plant is improved and coal iron trade is a question of considerable brought up to highest point of efficiency. If the Atlantic could realize so good price as 11.9 cents per pound in so poor a year as 1892, the Quincy, with its mu lower costs, ought to do fully as well in 1892, and even if its construction continue heavy, it ought to be good for more than \$6 per share in 1893. However, the year is too young yet for much figuring of this kind. Despite its large construction cost, which figures at nearly two cents per pound in 1802, the Quincy's total cost was two cents per pound less than the Atlantic's, and three eighths of a cent less than the Osceola's. The Quincy appears to have got 34.37 pounds of fine copper per ton of rock treated, which compares 28.67 pounds in the Osceola's case, and 12.-31 pounds in the Atlantic's. This greater richness of its rock, greater product, and low cost of mining, treating and marketing, constitute the Quincy's great advantage When its construction expenses brought down to a normal basis, its ability to make a large profit, even on twelve cents per pound for copper, must be great.

stockholders in the dividend abilities of the

DEAFNESS CANNOT BE CURED DEAFNESS CANNOT BE CURED by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedles. Deafness is caused by an inflamed condition of the mucous lining of the custachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Coughing Leads to Consumption

tendency to accumulate. Another thing to lessen the demand for charcoal iron is that car wheel makers can secure old car wheels at such low prices, and they are trying every way possible to decrease the CONLY THE FITTEST SURVIVES!

After a Successful Career of Nearly Nine Years

3 THE DAILY &

Is still the only daily NEWSpaper printed in the Upper Peninsula of Michigan. From the First number issued up to date it has given a full Telegraphic Report and has Besides Maintained Ishpeming and Negaunee and Copper Country Departments, also receiving reports by wire and mail from all points in the upper peninsula and special service from Detroit and Lansing. Even the destruction of its office by fire a four mines which have reported thus far. little over two years ago did not cause it to miss an issue, and it is now better equipped than ever to give

NOTED AT NEGAUNEE

Kangas the Name of the Young Finlander Who Met Death Near the Blue Mine.

One of Heineman's Stories-Legacies of the Late Storm-A Dumb Disappointing Parrot.

KANGAS IT WAS. The unfortunate Finlander who so

nysteriously came to his death Monday Lewis? night near the Blue mine, as was related identified Kangas were not familiar with the pronunciation of his name and it was understood from them as Kongo. scertained to be, as stated, Kangas.

held yesterday morning at 10 o'clock has been postponed until tomorrow morning at the same hour on account of the illness of Justice John Jones, before whom it must be held.

And They Believe It !

The Grand Rapids Herald of Monday see the roofs of the houses yet, and won't be able to until we have another thaw. But here is something that is absolutely true. About a week ago we were snowed in on the South Shoreroad near Nestoria. The snow was on a level with the car roof. I climbed out on the car roof, stepped across the drift to the bank and made my way to a little cable that was there. The woman had a barrel of flour and was making fried cakes. That's all she had in the house. She had made 200 of them and we bought the whole outfit at ten cents apiece. They dug us out after a while, but if that woman had had another burrel of flour she might have been inbarrel of flour she might have been in-depently rich."

Had to Shovel It Out.

Yesterday morning S. Kearn, who Schindler in Arena. resides on Case street, had to hire a team to remove the snow from his barn door before he could get his own horse

LOCAL LACONICS

Sheriff Broad was in town yesterday. A son was born to Mr. and Mrs. J. J. veeney Tuesday night.

On Tuesday night a daughter born to Mr. and Mrs. Mike Ellard. The Swedish-American Concert com-

pany of Negaunee sang at Ishpeming, Braastad's Hall, last evening. Hold your breaths until after tomorrow as we are more than liable to have another old-time blizzard on the 17th of March, you know.

Rev. Broden, pastor of the Negaunee Swedish Lutheran congregation, has been attending mission meetings at the Swedish Lutheran church at Jahnania.

the past two days. Mrs. A. C. Seass left yesterday morning for Houghton, where she was summoned on account of the serious illess of Myrtle, the little daughter of Mr. and Mrs. H. S. Cannon of the Douglass

The Negaunee Snow Shoe club will indulge in its weekly tramp tonight. Members will meet at their hall in the Sundberg block at 7:30 and will start on the tramp as soon thereafter as possible. A lunch will be served after the tramp. The new will afford served. The new fallen snow will afford excel-lent tramping and no doubt a large crowd will turn out.

In another column G. H. Kuhlman In another column G. H. Kuhlman offers his entire stock of dry goods, furnishing goods, notions, underware, hosiery, gloves, mittens, hats, caps, boots, shoes, etc., for sale at a bargain as he is desirous of retiring from business. This is no bluff on Mr. Kuhlman of the stock man's part as he really intends getting out of business as soon as he can. After his stock is disposed of he will rent his store to any one desiring it.

A rehearsal of the play "Ancient Order of Hercules," was held last evening at the A O. U. W. hall. An orchestra of six pieces, under leadership of Prof. Blackwell, has been organized to prow. E. NEWMAN, J. M. WHITMAN, W. A. TERALL vide the music for the presentation of the piece. The orchestra was present at the rehearsal last evening. The for sale by H. H. Stafford, Son & Co.

music for this production will be quite an interesting feature and will alone be worth the price of admission.

How to Pronounce "St. Louis." "Of the many momentous local problems that are shaking St. Louis to its very foundation, and one in fact which agitates to a greater or less degree the entire country," said Colonel Dyer to a representative, "is the correct pronunciation of the name of my prosperous city. I have just arrived from St. Louis, and when I left there the discussion was heated. Shall it be St. Louie or St

SPRING NEEDS.

In Considering Your Wants Do Not Forget This.

If You Do You Will Make a Serious Mistake at This Season.

Something of Deep and Peculiar Interest Just Now.

There are many needs during the spring months, but none more necessary or ur-gent than the use of a spring medicine. The blood requires it and the nerves, liver kidneys and bowels must have it if you sire to keep strong and vigorous and maintain your good health. Those who are weak, tired and nervous must take it, and those who do not feel just right should do so, or serious ill health may follow.

Mrs. Charles Krueger, of 250 East 84th street, New York city, tells you what is by far the best remedy to take in the spring

'For several years I have been suffering a complication of malaria, kidney and liver complaints, and dyspepsia in its

worst form "I began taking Dr Greene's Nervura blood and nerve remedy. I have used six bottles, and now feel entirely relieved of all my former complaints, and do cheerfully recommend it to anyone who may be afflicted with any of the above troubles-Mrs. Jennie Anthony, who resides at 21 Green street, Lynn, Mass., says:

"I must tell what Dr. Greene's Nervura ood and nerve remedy has done for me. I had terrible headaches for thirty years At last they got so bad I felt that I should go insane and made my husband promise that he would not put me in an asylum. I took Dr. Greene's Nervura blood and nerve remedy, and now I have no headaches, sleep

VIRGINIA.

Is the most centrally situated town on the great Mesaba iron range. It has a great natural location, sloping gradually from the mines to the shore of two beautiful little lakes and surrounded by charming scenery. The Duluth, Mesaba & Northern has reached the place and building is going on at a lively rate. The townsite surrounded by one of the best groups of mines on the range, mines capable of producing anywhere from 1,000,000 to 2,500,000 tons of ore annually. The surrounding country is well timbered, pine predominating. A saw mill is now operating and a large one is about to be erected, the lakes affording excellent boomage. The village has a system of water works, a bank, feed stable, several stores, saloons, restaurants and hotels. A postoffice and newspaper is now established, the latter by Dr. Fred Barrett. Virginia is destined to have a population of at least 5,000 and people seeking new locations would do well to lock it over.

HIS DWELLING

Mother Hurt and Chartier Himself Fatally Injured

RATHER HARD ON ONE MAN. CHICAGO, March 15.-Fire started in Stephen Chartier's picture frame factory at 124 and 126 May street shortly before 3 o'clock this morning. The building was a brick structure, 150 by 125 feet and five stories in height. It was well stocked with picture frames and material and equipped with valuable special design machinery. The flames made such rapid progress that a dozen steamers were summoned to the scene. A short time after the fire come here such an enterprise would scene. A short time after the fire started the top of the south wall fell on the roof of Stephen Chartier's residence at 122 May street, adjoining the factory. at 122 May street, adjoining the factory, burying seven people. They were:

ly satisfied with its greatly impressed with the unusual agricultural and industrial resources of J. CHARTIER, uncle of Stephen the city.

bruised.

PATRICK O'CONNOR, pipeman engine company No. 7; crushed under fallen wall and bruised about head and lower limbs.

access of the fire to the upper stories easy. The floors and inside wall were weakened by the burning away of their rame supports and the firemen who were at work on the building became They Put Buffalo's Machine-Minde alarmed lest a portion of the building might fail. A part of the roof fell first but the firemen at work on the fifth floor had been previously ordered down Crashing down it carried with it great sections of flooring, thus weakening the joists that supported the south wall. This began to totter and soon the top

fell.

The mass of bricks fell about entirely upon the roof of Mr. Chartier's dwelling, which was a frame structure. This was completely demoished and in the rains were the bodies of the five people who had been sleeping there. The fire had been burning but a short time and Mr. Chartier had returned to the home to awaken those who were the nome to awaken those who were

Almost simultaneously with the col lapse of the Chartier residence a part of the front wall fell into the street. A number of firemen were at work at the base of the wall and already scores of people, attracted by the reflection of the flames, had begun to crowd close to the burning building. When the front wall fell they were driven back and not a few narrowly escaped injury. One fireman was struck by a falling brick and was taken to his home in an am-

The firemen and police at once began rescuing those known to have been buried under the Chart'er residence. buried under the Chart'er residence.
The cries of a man were heard and inanother moment Mr. Chartier was
brought out. He was in a semi-conscious condition, for in addition to his
broken leg he was badly bruised about
the head and body. He revived and
was taken to the sesidence of friends.

By degrees the great mass of bricks
and mortar was cleared away and a few

killed.

"I was aroused by knocks at the door," she said. "and had begun to dress when the wall fell. I do not remember anything else."

The dead bodies of S. J. Chartier and Lillie Chartier were recovered during the day. Stephen Chartier will probably die. The four other injured victims will recover. tims will recover.

PREFERRED THE HIRED MAN So Mrs. Shaw Had Him Murder Her Husband.

PORTLAND, Ore., March 15 .- A. W Shaw, a wealthy rancher of Grant county, was recently found dead in a stall in which a stallion was tied. His white, f. o. b., 36c; No. 3 white, 34%c. skull was fractured and it was supposed that he had been kicked to death by the stallion. The body was found by one of the hired men of the Shaw household. An inquest was held and upon the testimony of the hired man and Mr. Shaw a verdict of accidental death was rendered.

Facts developed vesterday, however, which implicate Gallin, the man, and Mrs. Shaw in Shaw's death and both were arrested on a charge of murder. Suspicion was first aroused by Gallin immediately taking Shaw's place at his bed and board, upon which the authorities determined to make a full investigation into the manner of Shaw's death.

The blood-stained floor of the barn had been covered with hay and proved condeciment that the stained floor of the barn had been covered with hay and proved condeciment that the stained floor is the stained floor in the stained f clusively that Shaw had been killed in another part of the barn and carried to the stall where the body was found. It is believed that Gallin murdered his employer at the instigation of Mrs. Shaw. Both are now in jail.

FRENCH ANARCHISTS JAILED

Two Accomplices of Rayachol and BRUSSELS, March 15,-The French police have arrested here two brothers named Schoup on suspicion of hatching an anarchist dynamite plot in connec tion with the notorious French anarchist Mathieu, who was accused of being concerned in Ravachol's crimes and

who is wanted by the French authorities for supposed complicity in the deadly explosion at the Very restaurant, the place where Ravachol was arrested. Two infernal machines and a quantity of arms were found in the lodgings occupied by the Schoup brothers and the police believe that Mathieu is in Brussels engaged in contriving some plot to WALL OF BUILDING FALLS ON

STRANGLES A GIRL WITH HER PARENT'S CONSENT.

One Child Killed, Another and Their Marquette Man's Opinion of That Thriv- His Prayers Prove Unavailing, the Parents Wake from Their Delusion and Cause His Arrest.

> THIS FELLOW SHOULD HANG. ST. PETERSBURG, March 15.-An Anabaptist fanatic has been arrested in Latrig, government of Saratoff, for

in order that he might demonstrate his pretended ability and bring her back to

After his prayers and exhortations had continued for two hours the parents of the girl became convinced that he was an imposter and complained to the authorities, who locked him up.

PHHSICIAN AS BANK-ROBBER. Trial of Dr. Wycoff and Others for Safe-Blowing

PITTSBURG. March 15.—The trials of Ryan, Sprague, Kreemer and Dr. Wycoff for the attempted robbery of the Leesburg bank and the killing of Coun-PATRICK O'CONNOR, pipeman engine company No. 7; crushed under fallen wall and bruised about head and lower limbs. The flames, which started is the rear of the first story, gained rapid headway before the first stream of water was thrown. Crowded into the large store rooms was a vast stock of materials and the dry and combustible stuff made the access of the fire to the upper stories easy. The floors and inside wall were eilman William Schaffer on Feb. 14 been accepted. The trials promise to be especially sensational on account of the prominence of Dr. Wycoff, who has hitherto borne a good reputation. It is alleged that the plot to rob the bank was concocted in his house and that he

Throat a Deal of Friction.

The old way of curing sore throat has been superseded by a method working from the mind side. All methods for training the voice or body—if of any value—must prevent friction. The body is the servant of the mind, and the best teaching is a development of that law. For example, try to pick up a marble and notice the way your hand unconsciously adapts itself to taking hold of the marble; then reach after a big ball and watch the way your hand shapes itself to the size of the ball, for the right thought then is the marble or the ball. The tongue is always an unruly member

The voice is always the same, whether singing or speaking, only the more the voice is used the greater will be the suffering from an improper use of it. Many injure the voice by trying to fill big places, when all that is necessary is to let the mind realize by a look what the voice has to do and then trust the voice to answer of itself and then trust the voice to answer of itself the unconscious appeal made to it by the mind. This plan takes away all strain from the voice. The difference between this and certain "faith cures" is that they say, "By thinking your throat is well it becomes well if you think strongly enough," whereas we say, "The right thought, if held long enough to become a habit and exertised upon will prevent the frigiton. practiced upon, will prevent the friction which causes sore throat, and the cause be-ing removed the throat becomes strong."

Dr. Morell Mackenzie says, "For those tho wish to speak well it is a good plan to earn to sing, as the greater includes the less." So if a teacher can show you how to bring out the tones of your singing voice, your speaking voice will be aided. I am a singer and studied this method five years singer and student this meeting they example, ago, when I had a chronic sore throat. It took faith and industry on my part and six months' work by my teachers to cure me, but my throat, from being my weak-test, has become my strongest point, and I have since had no trouble with it. They haven by making my page. began by making me bring my voice through my nose in a humming tone, to sound like a bee among the flowers, or a steambeat a long way off, first with the mouth shut, then with the mouth open, always keeping the same quality of tone; then adding articulation, always humming Marquette d with the constant thought of the tones sting before you, to which thought, if Blinds, brackets, on keep it long enough, the vocal organs vill adapt themselves. Every tone should be molded by a turning, counters, scroll work

TRAINING THE VOICE.

Hew Singing Through the Nose Saves the

Phroat a Deal of Friction

The tongue is always an unruly member and refuses to be driven, but fortunately can be led. If you bring the tones through the nose, not only do you get a finer tone, but the tongue automatically moves out of the way to allow the tone to pass through the nose, thus leaving a space at the back safety and profit. of the tongue and preventing the friction of the back of the tongue against the throat, which is generally the cause of sore At the end of his sermon he strangled the girl with the consent of her parents by our nose; No; a nasal tone is one that is caught in the nose, as when after pinching the nose you try to talk.

thought; a tene that is not born of thought mouldings, store is a body without a soul. The voice sho ild never be educated as an end, but as a means

How Little Kings Are Known It is a curious fact, considering the great interest taken in crowned heads, that of all the leading statesmen in Europe the kings are the least accurately known. Even Queen Victoria is scareely understood by her own people, and we shall probably find when the memoirs of her reign come to b published, that the best of constitutions MURDERED HIS MOTHER

Tory Lie in a Tory Sheet.

London, March 15.—The Rome correspondent of The Standard says that mother.

St. Louis, March 15.—Harlan Murray after a dispute with his wife attempted to shoot her, The bullet intempted to shoot her, The bullet ince in favor of home rule bill.

Tory Lie in a Tory Sheet.

London, March 15.—The Rome correspondent of The Standard says that Mr. Gladstone has agreed to restore diplomatic relations with the Vatican on condition that the pope use his influence in favor of home rule bill.

Cattle Plague in Berlin.

Sovereigns had many quanties, and many quanties, besides her devotion to duty, and the truthfulness, quite unusual in its degree, to which minister after minister has borne testimony. That the emperor of Austria is a great diplomatist, that he is devoted to the house of Hapsburg, and that he can patiently tolerate constitutional forms has long been widely known, but of the remainder of his character no one outthe remainder of his character no one out side a most limited circle has the least idea There are men who should know who say

A cow's age is indicated by her horns. At the age of 2 a ring of thick material forms at the base of each horn, and one ring is added every year after this becomes apparent. To find the age, therefore, count the rings and add two. In the case of a bull, however, the first ring does not appear until he is 5 years old, and one annual ring annears after that so, to the number.

CHARLESTON, March 15.—The base ball season opened here with a hot game between the Charleston and Pittsburgh teams. It resulted in a tie, the lightful tales will live long after she passes away, has stated that the study of botany has over been one of her best relaxatives,

TROUS HO S OVE ERS. H Z BLOC 0.0 ×

the clothes that are washed without Pearline. It's spelled differently, but it gets there just the same. Not with Pearline, though. The rub, rub, rub that makes all the hard wear and the hard work is left out. Pearline washes without it. Practically, it washes without you, and without any of the troubles, drawbacks and losses

that you want to avoid. But you can always depend upon three things that Pearline washes with. These are ease.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, if you grocer sends on an imitation, be honest—send it back.

NERVOUS AND CHRONIC DISEASES.

Main office at 146 Washington St. (Mining Journal building) Marquette, Mich. Branch office at Saginaw Mich., and West Superior, Wis. The physician in charge of the office is a graduate of the Medical Department of Harvard University.

YOUNG MEN

Who may be suffering from the effect of youthful follies or indiscretions will do well to avail themselves of this chance.

DR. SPEER & CO.

Will guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$250. They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience.

MIDDLE-AGED MEN.

There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting sensation and weakening of the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits a ropy sediment and sometimes small particles of albumen will appear or the color be of a thin or milkish hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness.

LADIES

Finding it inconvenient to call at the office can be treated by mail by sending a full description of their case.

DR. SPEER & CO.

Will guarantee a perfect cure in all such cases and a healthy restoration of the organs. Examination and advice free to all. Remember the place, 146 West Washington street, Marquette.

P. S.—See our testimonials in the different papers from well-known people. Office, 213 Washingon St.

HE WANTS A DIVORCE.

Why a Chicago Barber Has Been Pestering Ishpeming People for Information.

What Was Done With the Charity Fund-Unique Entertainment by Y. W. C. T. U. of Ishpeming.

COMING TO THE POINT.

Alfonse Bouland, a barber of 146 Clark street, Chicago, who has been sending numerous letters to many Ishsending numerous letters to many Ish-peming people during the past year en-deavoring to learn the whereabouts of Phillip Mertez and Annie Erickson, til morning. They departed on the Phillip Mertez and Annie Erickson, til morning. They dep who were married in this city Sept. 21, early train for Newberry. 1890, has sent another bundle of letters to different persons here which came to hand within the last few days. This Erickson are man and wife, and he is desirous of finding her in order to make application for a divorce. In one of his tters he says:

As I have a five-year old daughter to care for, left me by my first wife, who is dead, I want to get a divorce from Annie, so that she will be free, as she is not a fit mother to care for my child. Will you try and give me the name and address of someone who knows Phillip Mertez and Annie and knows of their marriage and where they were living together, and also send the address of the witnesses to their marriage?

In addition to this request, the letter.

Spring and Summer Goods
In addition to this request the letter seen by the reporter contained a thousand and one others. Annie Erickson is living in Ishpeming and Mertez has gone to parts unknown. If Bouland desires to fix up matters with Annie as badly as he claims he does in his nonsensical letters he had better buy at the latest in ticket and come this way, as his truant wife would undoubtedly be pleased to see him.

Delivered to the Poor

The committee appointed to distribute he amount, \$109, realized from the benefit concert given under auspices of the Star Cornet band on the 22nd uit. has submitted the following report:

Twenty families were visited and the following will give an idea of the kind of help given to different ones: Three cords

following will give an idea of the kind of help given to different ones: Three cords of wood, fifty yards of sheeting, twelve yards of fine sheeting, nine suits of good wool underwear, nine pairs of shoes, one pair of rubbers, over two barrels of flour, over forty pounds of butter and lard, \$4 worth of meat, seven pounds of tea, four pounds of coffee, two patterns dress goods, one new jacket, thirty-four yards of outling flannel, twenty-five yards of gingham, fourteen yards of calco and lining, two and shall pounds of yarn and many other sundries of various kinds.

In addition to this twenty-six children received donations of clothing and help in other ways. The committee donated one full week of its time in this work, during very-stormy weather, but felt fully repaid by witnessing the joy and gratitude of some of God's children who were very much in need of help. One sick man to whom we gave assistance asked first of all for a prayer and a Bible. He is now a child of God. Let us continue this kind of work to "bear one another's burdens and se fulfill the law of Christ."

Committee.

A Benefit Entertainment

A number of Ishpeming's Scandinavian residents are talking of getting up an entertainment for the benefit of the sufferers of Lufoten Islands, Norway In a recent gale one hundred of the male residents of these islands, most of whom were married men who were endozing," said a fellow clerk as the customgaged in fishing, were swept out of existence, leaving behind their widows and about three hundred orphans.

"Oh, that's all right," responded the other, "any 'ellow can sell a customer the Some of the gentlemen who are inter-ested in the work of getting up the benefit are personally acquainted with some of the men that were lost in the storm on the Lefoten Islands, as they storm on the L-foten Islands, as they lived in that vicinity when in their native land. The families left destitute have no means of support since their sole protectors have been taken from them, as they lived altogether on the fish caught from the sea by the husband, and their condition is regarded as most pitiable by those who are best acquainted with the circumstances.

At Chicaro and other cities through-

ers of that afflicted country. The entertainment if gotten up, should be well patronized here as there are many in Ishpeming who are familiar with the country and the people to whom the aid will be given.

Inkely to be lower than the last until there is none left.

The only remedy for this is the reforesting of the vast areas of the watershed of the stream, which the himberman has denuded of its growth, leawing nothing in its place. Health, the preservation of the

The Names of Books.

Good book titles are not necessarily reminiscent. Mr. Black is usually fortunate in his choice, although he seldom depends upon the authors for a suggestion. What could be better than "Madeap Violet" or "A Princess of Thule" or "Macleod of Dare" or the alluring simplicity of "Shandon Bells" and "Sunrise?" We must admit, however, that "Green Pastures and Piccadilly" is what Polonius would have called "an ill' phrase—a vile phrase." Mrs. Oliphant has given us a curious mixture of phant has given us a curious mixture of good and bad title—"He That Will Not When He May," "Miss Marjoribanks" (which we adjure our readers to pronounce "Marebanks") and "Within the Precincts" being among the former, and "The Rathew Man and His Children" being Radiway Man and His Children" being perhaps the worst example of the latter. Dickens was curiously infelicitous in his

choice of titles—unless we pardon the bad grammar of "Our Mutual Friend"—while Thackersy, on the other hand, made a master stroke in naming his first long novel "Vanity Fair." But far worse than a com-monplace title is a misleading one.—Providence Journal.

Where the Skill Comes In. "Have you black Hamp lace?" she in-quired, stopping at the linen counter. "No'm, we don't keep lace at this conn-ter, but I have some new damask linen". "Sin, you are impertinent. I did not ask

On and after today F. Braastad & Co. will sell Pillsbury's Best XXXX flour at \$4.90 per bbl., Washburn Crosby's Co.'s Best, \$4.90 per bbl.; Wisconsin Patent (Island City) wholesale, \$4.00; retail, \$4.25 per bbl. Rye Graham, \$4.60 per bbl.

The sacrifice sale of boots and shoes at Cahoon's continues to be as lively as it was the first day the sale was opened. People realize that they can save by buying there. Call early while the stock is unbroken.

You can't afford to miss the opportunity to buy your supply of shoes at "way down" prices, such as are offered on the stock formerly owned by F. E. Cahoon. 3-11-4d

Shoes without number at prices way be-low the wholesale mark is the order of things at the store formerly conducted by F. E. Cahoon. If you want footwear at a bargain don't neglect buying from our stock. The goods must go and at prices that will self them. RHEUMATISM QUICKLY CURED.

RHEUMATISM QUICKLY CURED.

Three days is a very short time in which to cure a bad case of rheumatism; but it can be done, if the proper treatment is adopted, as will be seen by the following from James Lambert, of New Brunswiek, ill:

"I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right today; and would insist on every one who is afflicted with that terrible disease to use Chamberlain's Pain Balm and get well at once." 50 cent bottles for sale by H. H. Stafford, Son & Co. Druggists.

MEETING. WONDERFUL

Took the Audience at Presbyterian Church Last Night Twenty Minutes to Disperse.

MAJOR COZENS HEARD WITH THE CLOSEST ATTENTION

He Gave an Interesting Outline of the Origin, Aims and Work of the Salvation Army.

RAISING THE FALLEN TENTH. AAISING THE FALLEN TENTH. them with a feeling of respect and admiration for the Salvation Army and of sympathy with its aims which they gathered together in Marquette was that which assembled at the Presbyterian church last evening to listen to the exposition by Major Wm. J. Cozens of the aims and methods of an organization which beyond all doubt is Isle line of the street railway yesterone of the wonders of the present day. day failed to be impressed with the difthe Salvation Army. Major Cozens is ficulties overcome by the management division of Michigan and Indiana with through the storm just ended. For an here in came Marquette the staff cap- to the north line of the Marquette the officers of the twelve other posts on through a narrow channel with the the upper peninsula, a captain and lieu- snow banks on each side reaching up as tenant from each, making, with Captain high as the car windows and higher in Marquette, twenty-six officers present in all besides the two superior officers.

Major Cozens' office corresponds largely to that of a bishop in other denominational bodies while the staff captain is like a presiding elder and the captain and isentenant are minister and assist-and isentenant are minister and assist-ant minister.

All that is needed to illustrate the sweep of the wind up Presque Isle aveant minister.

Superior streets where a short open air service was held, the members of the army forming in a great circle and plow north of Fair avenue the horses army forming in a great circle and army forming in a great circle and kneeling in prayer on the snow covered street under the glare of the electric light, the spectacle having much that was impressive about it and not an interruption coming from the great crowd gathered about. After these services salvation band and with the American and Salvation Army flags at the head of the line marched up to the church sing-ing all the way.

The church was packed to suffocation, even the aisles being filled clear to the front with people standing and finally the doors had to be locked and over two hundred denied admittance. The first part of the service consisted of songs, a reading from Regulations by mrst part of the service consisted of the service consisted of songs, a reading from Revelations by Major Cozens with comments and some wonderful musical features by "Colored George" of Poughkeepsie, N. Y. Major Cozens then commenced his address. He is an easy and cultivated speaker, impressive because terribly in earnest and interesting because he clothes his ideas in the simplest words and has a happy faculty of finding forcible illustrations in the ordinary

He started by describing the founder and present commander in-chief of the Salvation Army, General William Booth, first a Wesleyan minister, then a non-conformist Methodist, finally in 1865 branching off to found the Christian Mission, which became the Army of Salvation, now known as the Salvation Army which is singing its way around the world, which is flourishing in thirty-eight countries and colonies and has vernment grants of aid in two, which is daily singing and exhorting in thirty-four languages, which uses 5,000 buildings nightly, sells 45,000,000 copies of its "War Cry" and magazines annally, or over half a million a week, and which its London alone has over 15,000 soldiers tion of his services, free from all claims

English statistics to prove the greatness of the field open to this organization which aims first, last and all the time to reach the fallen tenth of humanity, raise if from its degreed the result of the result of the field open to the solution of humanity, raise if from its degreed the result of the result o raise it from its degradation and misery and prepare it for the life beyond. Great and prepare it for the life beyond. Great Britain has 3,000,000 people who are in the depths of degradation and sin; of these 1,000,000 have neither home nor work; London alone has 33,000 homeless vagrants, 200,000 starving people and 222,000 who are next door to starvation while there are 387,000 who are listed as very, very poor—in fact 20 per cent of London's population die in the work houses, asylums or hospitals.

thus the army already has in London and other parts of England one temporary refuge, two farm colonies out side the city, three over-sea colonies, 53 rescue homes, 53 slum homes, 15 prison Detroit News has put his foot in it rescie homes, 53 slum homes, 15 prison brigades, and 18 factories to give shelter, relief and work to the starving, it being the invariable rule that a man must give some return for the help given him if he is able to work at all. Last year 3,000,000 meals were given to the poor in London, 240,000 people were the poor in London, 240,000 people were lodged in cheap homes and 4,000 saved to become respectable members of so-

smaller scale in the great cities of this country and here too the army is giving its attention to the great work, bringing relief, sympathy and aid in one hand and the knowledge of the Saviour in the other—no place is too repulsive for its soldiers to enter, no man or woman too vile for them to take by the hand and attempt to lead to a better life. They glory in their work and as those whom they are trying to save are entirely beyond the reach of the ordinary church they believe that they are entitled to the sympathy and encouragement of every Christian denomination in their labors. "We rear no expensive church edifices, our 11,000 officers have no guaranteed salary, our uniform is always the same, we remain

MICH, Established 1865

Salvation Army with greater fairness, and in closing he returned his thanks to the pastor and trustees of the Presbyterian church for the use of the church edifice for the two meetings of the day. Totay there will be an officers' meeting at which all the officers of the upper

ing at which all the officers of the upper peninsula will be present, and then in the even ng there will be a grand rally at the barracks at which all the new Marquett-recruis will be sworn in, George Gadsby will give musical selections, and Major Cozens speak in addi-tion to the usual features.

There can be no boubt but that last

night's meeting had a great effect upon all present. The representative people of Marquette were there and it is safe to say that Major Cozens impressed would not have gained in any other manner.

How the Storm Was Fought. No one who rode over the Presque

ant minister.

On leaving their barracks the forces marched to the corner of Front and plow teams into it. The leaders simply turned around abruptly with their backs to the storm in spite of all that the snow plow crew could do. Left to their own devices the motor cars man-aged to buck their way through with the aid of the shoveling which was kept

up by the regular track gang.
On Fair avenue the drifts formed so that the fair ground fence just shows its top over them but they did not reach out far enough to block the railway.

Yesterday morning the wind kept up its face were not the looked as if the

its fie ce sweep and it looked as if the day would prove fully as bad as the two which preceded it but by noon the plow was retired, its work having been finished. In plowing out Hewitt avenue, especially west of Front street, t was found necessary to reverse the usual order of procedure. Instead of starting at the rail and plowing the street out to the curb the first furrow was turned at the curb and the snow worked over gradually into the opening thus made the amount of snow being thus made, the amount of snow being so great that it is now piled in three parallel lines, showing the number of times the plow had to go over each side of the street in order to move all the snow over to the curbs; as the plow has to make two or three trips in each time over it can be seen that there was big work done on the avenue.

Six barrels of sand were used through the sand boxes of the motor cars on Tuesday alone, the motormen baving to keep their sand valves open all the tim on the grades.

After Twenty Years

Yesterday Mr. C. B. Brubaker, who has been connected with Childs' Art Gallery in this city for twenty years and uses nightly 109 halls.

For those not familiar with General Booth's great work, "In Darkest England," read with interest throughout the civilized world, the major gave some and accounts against the business. "The Governor," as he has been known to all who have had the entree of the finishing rooms of the gallery for many years lives in the gallery and has been his post early and late with hardly years ago to reside in a milder climate but "The Governor" has remained and of London's population die in the workhouses, asylums or hospitals.

It is the mission of the army to raise these millions to the level of London cab horses at least. You cannot talk salvation to a *tarving man for he would laugh at such Christianity and thus the army already has in London gallery.

No Foundation for It.

the poor in London, 240,000 people were lodged in cheap homes and 4,000 saved to become respectable members of society.

What is true in London is true on a smaller scale in the great cities of this country and here too the army is giving its attention to the great work, bringing relief, sympathy and aid in one hand and the knowledge of the

no expensive church edifices, our 11,000 officers have no guaranteed salary, our uniform is always the same, we remain plain, unpretentious, approachable by the meanest of God's creatures," declared the major.

Although the service had lasted until after 10 o'clock Major Cozens held his audience splendidly and was listened to throughout with the closest and most respectful attention. In the course of his address he spoke most kindly of The Mining Journal, stating that no paper in Michigan had treated the
