NOTED AT NEGAUNEE. Recorder Primeau Makes a Guess That Won a \$35 Parlor Suite.

To Lecture Before the Y. P. C. E. Society—A Treat for the Breitung's Guests

A GOOD GUESSER. Judge Primeau is the lucky person who became the possessor of a \$35 parlor suite at a very small cost.

Lecture Monday. Rev. V. K. Beshretor of Newberry will deliver a lecture at the Presbyterian church, this city, next Monday evening under auspices of the Young People's society of Christian Endeavor.

Music for the Guests. Landlord Seas of the Breitung House has made arrangements with the Italian string band that came to town Wednesday to play every day during meal hours in his dining room.

Was Coming Here. Mr. Siegfried Lieders, proprietor of the Lieders hotel at Detroit, who died last Tuesday, had made arrangements with Negaunee gentlemen, (to many of whom he was well known), to visit here for a couple months the coming summer.

LOCAL LAONICS. Ed. Morrison of the Standard Oil company was in town yesterday.

The Detroit Evening News says the mayor of Negaunee, Mr. E. C. Anthony, is a Republican. The News man had better try again.

The "Deestriet Skewl" entertainment was attended by a fair-sized crowd Wednesday evening at McDonald's Opera House.

The Breitung House has been doing a big business the past few days. Traveling men are coming in thick and fast and Mr. Seass and his assistants are more than kept on the move.

While walking across the street opposite his livery barn Wednesday evening about 6 o'clock Mr. Con. Gorman fell and fractured his leg below the knee.

Stetson's Uncle Tom's Cabin company will appear at McDonald's Opera House tonight. A street parade will be given at noon.

Geo. Newhennie, deputy postmaster of Crystal Falls, an old Negaunee boy who left here about three years ago, was in town yesterday calling on old friends.

DEAFNESS CANNOT BE CURED by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies.

Sufferers from Piles Should know that the Pyramid Pile Cure will promptly and effectually remove every trace of them.

HOMEMADE PANTALOONS. Wool From a Sheep's Back Made Into Wearing Apparel In Forty Hours.

Late in the afternoon of one of the last days of May, in the year 1876, when I was a few months short of 15 years old, mother came to Townsend, Mass., where my father used to live, that 15 soldiers were wanted.

The training band was instantly called out, and my brother, who was next older than I, was one that was selected. He did not return till late at night, when we were all in bed.

The rest of the narrative the writer would abridge by saying that the wool thus obtained was duly carded, spun, washed, sized and dried.

The Work of a Millionaire. We were coming south on the Santa Fe from Denver a few nights before Christmas.

Actors Are Generally Clean Shaven. One class, however, in every civilized country has in the great majority of instances, and throughout its history adjoined both beards and mustaches.

Mme. de Lesseps' Paris Home. When the Suez canal bonds were first issued M. de Lesseps made a present of a bundle to his wife.

Darkness Under the Water. The discovery of a fish with imperfectly developed eyes made it probable that sunlight does not reach beyond a certain depth of the ocean.

Without a "Z." The Indians have not the sound of "z." All their s's are zibbent. The French missionaries and writers were always strictly phonetic in their transcription of words.

Peninsular Poultry Yards. ST. IGNACE, MICH. M. P. STELLWAGEN, Prop. 3-29-74

Your Painter has often wasted time and material in trying to obtain a shade of color, and has even resorted to the use of ready mixed paints, the ingredients of which he knew nothing, because of the difficulty in making a shade of color with white lead.

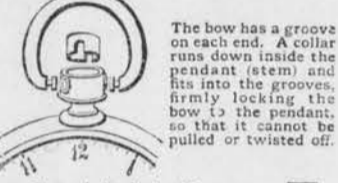

Pure White Lead Tinting Colors These tints are a combination of perfectly pure colors, put up in small cans, and prepared so that one pound will tint 25 pounds of Strictly Pure White Lead to the shade shown on the can.

Strictly Pure White Lead and pure colors. Insist on having one of the brands of white lead that are standard, manufactured by the "Old Dutch" process, and known to be strictly pure:

SESSIONS AND PHIPPS FREE

Editors of The Conglomerate Are Acquitted of Charge of Criminal Libel.

TESTIMONY IS NOT FIT FOR PUBLICATION

But It Shows That Frightful Immorality Exists in St. Anne's Academy at Lake Linden.

[All communications for copper country department intended for publication should be addressed to A. F. Fisher, Houghton.]

HANCOCK.

A jury in Justice Finn's court yesterday acquitted Sessions and Phipps, publishers of The Conglomerate, of the charge of criminal libel preferred by Edward Vauchesteing, a teacher in St. Anne's academy at Lake Linden.

The writer yesterday saw some of the scenery which will be used at the engineers' dance. One of the paintings is engine No. 8 and is the exact size of the engine in every way.

The county board of canvassers will be in session at the country clerk's office Tuesday next.

Mr. and Mrs. Brad Cooper are shortly to move from here to the lower part of the state.

The superintendents of Houghton and Keweenaw country will hold a meeting at the Rock school Saturday, April 15.

Mike McClosky of Hurontown was sent to the cooler for ninety days by Justice Miller.

The cotillon club will give a german at Miller's Hall Friday evening.

CALUMET.

The model of the shaft house, rock house and a portion of the mine which has been in course of construction at the Hecla carpenter shop for about six weeks was completed yesterday.

The funeral of Willie Bennetts, who died at his parents' home Wednesday morning, will be held Saturday afternoon at 2 o'clock with services at the Methodist church.

Tim Corry Harrington left for the west on Thursday evening.

The model of the shaft house built by the Tamarack Mining company for the World's Fair will be shipped this week.

RED JACKET.

Sheriff Mitchell of Keweenaw county who arrived here Wednesday evening to arrest Mike Sullivan, a teamster for Contractor James Finn, for having committed a criminal assault upon a woman at the Central mine, feels very foolish.

Stetson's "Uncle Tom's Cabin" company played to a packed house Wednesday evening.

A special train was run to Lake Linden Wednesday night on the H. & T. L. railroad to accommodate the mine officials who wished to see the World's Fair models before shipment.

THEY ALL SAID GOOD-BYE.

Aldermen Shake Hands and Part Wishing Each Other Well For the Future.

MONDAY'S VOTE FORMALLY CANCELED BY THE COUNCIL.

The Mining Journal Rescues the Mayor's Valedictory from Oblivion. Parker's Vote of Thanks.

THE CLOSING SCENES.

The common council met again last evening and in accordance with the requirements of the charter canvassed the vote cast at Monday's election. President Powell was again in the chair and call the aldermen were present except Williams, Young, Johnson and McGregor.

The reading of the minutes was dispensed with and on motion the president appointed Aldermen Hennessey, Werner and Stafford as a committee to canvass the vote, a recess being taken while the committee was at work.

When the council came to order again the committee reported the several candidates elected as heretofore made public and the recorder was instructed to notify them of the result of the election in accordance with the requirements of the charter.

The recorder then began to read a valedictory message from the mayor. He had just commenced when Alderman Hennessey asked "What's that?"

He was informed that it was a farewell message from the mayor. "I move that it be considered read and that it be ordered printed," responded the redoubtable alderman from the Second. The motion was seconded and carried and that ended the reading of the message. It is here given in full:

To the Common Council of the City of Marquette:

GENTLEMEN:—While the past year has been one of unusual business depression I desire to congratulate you upon what has been done during that time under your direction in the matter of public improvements and financial management of the city.

You will recall that within a short period prior to one year ago at this time a large amount of building had been going on in the city: The Ely school, the opera house block, the Savings bank building, the Nester block, Fraternity Hall, about twenty stores, the street railway, the Hawley mill and numerous private residences had been built, the Northern and Carp furnaces had been overhauled, the Lake Shore Iron works, Polygonal Turning company and other enterprises started, by which large amounts of money were expended in the city which gave employment to large numbers of our workmen.

Owing to the depression in the iron industry, the withdrawal of public moneys loaned here, and refusals of outside capitalists to place loans here, and the temporary cessation of building operations in the city the past year by which large numbers of our people have been deprived of employment and it has been difficult for them to make the payments on their new homes and keep up living expenses; as a result our people and merchants have felt the depressing influences of close times.

A year ago our city was \$10,000 in debt for current expenses besides a public indebtedness of \$10,000. The \$10,000 for current expenses had been paid during the year, and something like \$18,000 is due the city from special assessments now outstanding, so that the city is about \$20,000 better off at this time than it was a year ago. In the meantime \$25,000 has been raised and paid to the water board, \$3,000 to the Peter White library, and over \$2,000 to the street commissioner.

More streets, sewers and sidewalks have been built the past year than ever before in the same length of time on public property. Twelve thousand, eight hundred and twenty-six feet of new sewers and laterals have been laid, 7,102 feet of new streets have been graded, curbed and macadamized, 14,000 feet of new sidewalks have been built. A substantial stone culvert has been built in Lake street. The land for the opening of Spring street between Fourth and Fifth streets has been purchased. A new counter-shaft and pulley, costing about \$1,300, has been put in the electric light plant, and workshop erected therefor. The electric light plant has been put into perfect order and a large number of lights added to the number carried a year ago. Park improvements have been made to the extent of about \$2,000, \$1,200 of which was contributed by the mayor personally.

With all these expenditures and improvements taxation has been lower for the past year than the preceding year.

The work of the council and its committees has been performed in a creditable and business-like manner, and I desire to return my thanks to you gentlemen for the uniform courtesy with which you have treated me as your presiding officer.

With reference to the future, I have a few recommendations to make. A survey has been made for a reservoir for the electric light plant above the present pond. It seems practicable to get about 35 feet of head upon the city property without the purchase of any more land, and by the purchase of forty acres of the Butler land, a head of about 25 feet can be obtained. I would recommend that a competent hydraulic engineer be employed to investigate the subject of increasing the size and efficiency of the electric light plant with a view, if found practicable, of erecting a reservoir just below Forestville, and bringing the water down to a point just above the present plant, and the putting in at that point of another wheel to be connected with the present shafting of the plant.

The city is now furnishing for private consumers arc lights at a price, compared with its cost, very much less than is being charged for incandescent lights, and as the prices now charged for arc lights are about as high as consumers feel able to pay for them in preference to incandescent lights, I would recommend that the rates for arc lights be gradually raised, and as the lamps are given up by those using them that the same may be placed in the streets, where needed, and that thereby those who are now using arc lights in stores and elsewhere will be encouraged to use in their stead large incandescent lamps. By this plan the city will be enabled to use the arc lights for public lighting and the incandescent lights for private lighting, so that the profit from the private lights will contribute materially to pay the expense of the street lights.

The city will soon need a new city hall, but before undertaking the outlay required for an expensive public building, I would suggest that in view of the present uncertainties of the immediate future of the city, it may be wise to postpone for another year the erection of such a building. The truth is we must have permanent employment for the population now residing in the city very soon or the city will retrograde, in which case a large and expensive public building would be unwise. If, on the other hand, Marquette shall grow as rapidly as we all hope it may, such growth will warrant the erection of a better and finer building than otherwise, but in view of the present outlook I would advise conservatism in the matter of public expenditures and particularly with reference to the

erection of a city hall. The building now occupied may, perhaps, be leased for a year or two longer, but if not, other quarters could undoubtedly be procured.

As another public improvement which will be required in the near future, I would recommend the early paving of Front street between Superior street and Washington street, and the paving of Washington street from Front street to Fourth street. The sums of money constantly spent to keep these streets in repair each year would go a great ways towards paving them.

Hoping that the city is about entering upon a period of increasing prosperity and growth, and that the practicability of manufacturing of coke iron at this point with profit may soon be demonstrated, and that the city may grow rapidly in all that goes to make a beautiful and prosperous city, I am, Very truly yours, SIDNEY ADAMS, Mayor.

April 6, 1893. A communication from Mayor Adams, requested permission to connect his two dwellings on the west side of Front street north of Hewitt avenue with the Prospect street sewer through the so-called Marshall lot which was on motion granted.

In another communication the mayor urged at length the propriety of naming the driveway around Presque Isle White boulevard in honor of Hon. Peter White; the matter was referred to the park committee and the park commissioner.

The report of the trustees of the Peter White Public Library was accepted and ordered printed.

A motion was then introduced calling for the printing and indexing of the new charter and a long wrangle ensued. When the matter of calling for bids on it was under discussion the city attorney declared that that would amount to nothing as there was only one printing office in the city which had type enough to handle the job in any reasonable space of time. Finally after several motions and amendments had been voted down Alderman Hennessey moved that the matter be left to the committee on ordinances, by-laws and rules and the motion was carried.

On motion of Alderman Hennessey the thanks of the council were voted to Alderman Powell as the president of the council for his courtesy and fairness as a presiding officer during the year just ending.

Alderman Moore introduced an ordinance remitting the penalties for the delay in the payment of the special assessments for Crescent and Prospect streets and for the sewers on Third, Michigan, Arch and Front streets. On motion after a spirited debate the rules were suspended and the ordinance was passed and given immediate effect.

Alderman Moore then introduced the following resolutions, with the typewritten text of which he seemed strangely unfamiliar:

RESOLVED, That the thanks of the common council of the city of Marquette be and the same are hereby tendered to the Hon. Sidney Adams for the courteous and impartial manner in which he has presided over this body the past year; for the conscientious and faithful discharge of the duties of the office of mayor of the city of Marquette, and for the liberal expenditure of his private funds for the improvement of the people's park, Presque Isle; and be it further

RESOLVED, That these resolutions be engrossed at the expense of the city and certified to by the recorder, and that the same be presented to Mr. Adams with the best wishes of the members of the common council for his future health and welfare.

A motion to refer to the committee on ordinances and rules failed for want of a second and then a vote was taken, the ayes and nays being called for. The resolutions were adopted by a vote of 10 to 2.

Alderman Powell then proposed the following preamble and resolution, which were adopted by a unanimous vote:

RESOLVED, That the thanks of the common council of the city of Marquette be and the same are hereby tendered to Mr. Richard A. Parker for the able manner in which he is calling the attention of capitalists and the iron trade generally to the advantages of this city for the economical manufacture of coke iron, and we respectfully urge upon the attention of the capitalists of Marquette the facts and arguments advanced by Mr. Parker, with the hope that the same may lead to the early establishment here of coke furnaces under the control of our citizens, and be it further

RESOLVED, That every proper and possible encouragement should be given for the investment of capital in productive enterprises in this city.

A general chorus of farewells was heard and then on motion of Alderman Desjardins the council adjourned sine die.

Katie Putnam.

The appearance of Katie Putnam here in her new play, "An Unclaimed Express Package," and with the support of a very strong company will fill the opera house next Wednesday evening as it has been a long time since Marquette theatre-goers have been given such an attraction. Of the popular little actress in her new play the Atlanta Constitution speaks as follows:

Katie Putnam delighted a large audience of Atlantans at DeGivie's last night in her new play "An Unclaimed Express Package." The play is a comedy-drama, full of striking scenes from the deeply touching and ludicrous. Katie Putnam in her character of Dos Chick, the musical vagabond, who went from the life of a traveling musician to that of the pampered and petted daughter of Jethro Hardwick, the rich iron furnace owner, and back to her original life of a tramp, at discovering she had no claim upon the man who claimed her as a daughter, got everything out of the character that could be wished for. The bright little actress seems to improve each year, and the ovation she was given last night was a well-deserved compliment to one who has won her way into the hearts of the American public through tenderness and humor.

Miss Putnam's support is very good, and the play is worthy of the patronage of the theatre-going public.

"HA!—HA!—HARVESTS!"

A great man once said in speaking of a remarkable fertile spot. "If you tickle it with a hoe, it laughs with a harvest." This saying is indeed true of North Galveston, for the fruit growing lands of this region yield, in response to cultivation which is mere play compared with the arduous toil of farmers in northern climes, immense crops of pears, plums, figs, strawberries, etc., etc.

These "ripples of merriment" on the part of the rich soil are perennial crops—were never known to fail. The fortunate fruit growers laugh, too, at their good fortunes; manufacturers who are profiting by the splendid resources and shipping facilities, investors who see their dollars multiply and investors who have found health in this mild and equable climate join in the merry making; and it is with a laughing, happy, prosperous community. If you are interested in North Galveston as an investment or a home, or both, apply for full particulars to M. E. Asire.

A. MANTHEL,

DEALER IN: **Fresh and Salt Meats.**

I am now prepared to supply old and new customers with first-class meat. Orders by telephone will have very prompt attention.

Don't Fail to See the Large New Stock of

WALL PAPER

AT **HAMILL'S,** 108 Washington Street. 3-20-11

There is no one instrument, unless, indeed, it be a large pipe organ, capable of the variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello and all the snap and brilliancy of the piano. See and hear them at Conklin's.
