

# THE DAILY MINING JOURNAL.

NUMBER 274

MARQUETTE, MICH., SATURDAY MORNING, APRIL 15, 1893.

PRICE FIVE CENTS.

## SARSAPARILLA

You read of various Sarsaparillas each claiming to be the only one. Think a moment. These people say so themselves and pay the papers for publishing their statements.

### SHURLIFF'S GIANT SARSAPARILLA

Is not excelled by any other similar blood medicine made. Suppose you try a bottle, you get value every time. Sold at

**STAFFORD'S,**  
220 AND 222 SOUTH FRONT ST.

## BABY CARRIAGES.

The world renowned  
**WHITNEY MAKE.**  
Superior in style, finish and durability to all others. Twenty-five styles to select from. Steel wheels with rubber tires and patent hub.

**A. H. PALMER'S  
BAZAAR,**

## Large Korns From

LITTLE TOE KORNS GROW.

For shoes that fit, wear, latest styles and lowest prices go to

**A SHOE STORE**  
—MORGAN'S—

Is the place to buy them. You furnish the feet we do the rest. Come and see our big Spring Stock if you wish to be well-fitted and buy at Eastern prices. We carry a full line of A. C. M'GRAW & CO'S, men's, women's, boys', misses' and children's perfect fitting Detroit made shoes. If you try them you will have no others. Everybody says MORGAN'S shoe, slipper and rubber depot is footquartars for anything in the shoe line. Cash and one price.

**A. R. MORGAN,**  
Wholesale Retailer, Front St. Marquette.

We mend leather, felt and rubber shoes.

Our new line of:

## FOLDING BEDS

Have arrived, ranging in price from \$12 to \$50. Call and see them.

## HAGER BROS. CO.,

(LIMITED)

118 South Front Street, Marquette, Mich.

## EMMONS BROS. HARDWARE CO.

Cotton and Rubber Hose.  
Hose Reels,  
Lawn Mowers,  
Screen Doors and Windows.

Sole Agents for Wisconsin Peerless Refrigerator Senour Floor and Mixed Paints.

## Jewel Stoves and Ranges.

LEIGHTON CASH REGISTERS.

Don't Fail to See the Large New Stock of

## WALL PAPER

AT HAMILL'S, 108 Washington Street.

## SEWING MACHINES

DOMESTIC, NEW HOME, and STANDARD.

**\$15.00 SAVED.**

Machines sold on monthly payments.

Cor 3rd and Ohio Sts.

## ROACH CORKS CHANDLER.

New Senator from North Dakota Requests Investigation of His Past.

DELAYED REQUEST IN DEFERENCE TO ADVICE.

Although He Had Wished to Make It as Soon as Charges Were Circulated.

### SENATE MAY ADJOURN TODAY.

WASHINGTON, April 14.—The senate was occupied during the greater part of the day with the resolution for the investigation of the charges against Senator Roach of North Dakota. Mr. Chandler had obtained yesterday unanimous consent that he should address the senate today in support of that resolution and he did so at much length. But all the point and interest was taken out of his speech by Mr. Roach rising, as soon as the journal was read and expressing his entire willingness and desire to have an investigation made.

Mr. Chandler was replied to by Mr. Voorhees and at the close of his speech Mr. Harris moved to lay the resolution and amendment on the table and only withdrew that motion because it was undebatable and Mr. Platt desired to reply to Mr. Voorhees.

As soon as the journal of yesterday was read Mr. Roach, who was at the moment occupying Mr. Blackburn's seat near the front aisle, rose and addressed the chair. He said:

"Mr. President—My colleague, the senior senator from North Dakota (Mr. Hamshworth), is reported to have said, referring to the charges in the resolution of the senator from Massachusetts (Mr. Hoar), that I told him that I desired to offer a resolution for an investigation; or that I thought it the best thing to do. I rise now to confirm that statement and to say that I am perfectly willing that the investigation shall be proceeded with."

"After the conversation referred to by my colleague I yielded to the advice of friends in the senate and did not act on my own impulse in the matter. Hence I did not offer the resolution which I desired and intended to offer. New to this body and entirely unfamiliar with its customs and usages I naturally attached weight to the advice and opinion of those old in the service and second in the practices and precedents of the senate. I was informed, or was given to understand that, however much I might desire or demand an investigation, it was not the practice of the senate to take notice or jurisdiction of alleged acts of conduct prior to the election of a senator not having connection with the legality thereof. Now I desire to say at this time that I am perfectly willing and desirous that this investigation be proceeded with. That has been my position from the beginning. I have been blamed for not speaking and have also been criticized because it is alleged that I did say something. I desire to say this much in justice to my colleague and to myself and with reference to what has been said in the newspapers—because this thing is proceeding so far on newspaper allegations."

Mr. Chandler—in view of the statement now made by the senator from North Dakota I venture to ask the senator whether there is any objection now to have Mr. Hoar's modified resolution agreed to without debate?

Mr. Vance—I can only speak for myself. Of course if the resolution be reported back to the senate from the committee on contingent expenses I shall have no objection to its adoption.

Mr. Chandler—Then I ask that the resolution may be reported and that there may be unanimous consent to its adoption without debate.

Mr. George refused unanimous consent and made a constitutional argument in support of the proposition that the senate has no power to make the proposed investigation.

Mr. Gorman gave notice that when the resolution should be reported back he would offer the following substitute for it:

RESOLVED, That the committee on privileges and elections be directed to inquire into and consider the question whether the senate has the authority or jurisdiction to investigate charges made against a senator as to conduct or offenses occurring or committed prior to his election, not relating to his duty as senator nor affecting the integrity of his election.

Mr. Chandler then took the floor and commenced his speech in support of the resolution offered by Mr. Hoar April 10. This resolution directs the committee on privileges and elections to examine into the allegations recently made in the public press charging William N. Roach, a senator from the state of North Dakota, with certain criminal offenses committed while cashier of a bank in the city of Washington and to ascertain the facts and circumstances so far as to enable the committee to determine what are the duties and powers of the senate in regard thereto.

After Mr. Chandler had been speaking a few minutes an effort was made by Mr. Hoar to have a time fixed at the present session for taking the vote on the admission of the three senators appointed by the governors of the states of Montana, Washington and Wyoming but objection came from Democratic senators who said, however, that they would confer upon it.

The resolutions for the investigation of the claim of Mr. Ady to a seat in the senate for the state of Kansas and for an inquiry into the conditions of the territories of Arizona, New Mexico, Utah and Oklahoma as to their fitness for admission as states, heretofore offered, were taken up and agreed to.

Mr. Chandler then proceeded. It was only possible, he said, to defeat the resolution by laying down the rule in the American senate, in the year 1893, that no matter what crime may have been committed by a person occupying a seat

in the senate—under whatever circumstances of atrocity and otherwise—it is not within the constitutional power of the senate even so much as to instruct a committee to make an investigation into the facts and circumstances of the conduct or the crime.

After several lengthy arguments by Mr. Voorhees and others the senate went into executive session after which it adjourned till tomorrow. The final adjournment of this extraordinary session of the senate may take place tomorrow.

### WANT UNIVERSAL SUFFRAGE.

Cause of Present Strikes and Riots in Belgium.

BRUSSELS, April 14.—Disorderly demonstrations were renewed today. The strikers who have left work as a protest against the action of the chamber of representatives in rejecting universal suffrage paraded the streets and twice came in conflict with the police. The strikers threw stones and bottles at the police and resisted orders to disperse. Several persons were hurt.

The strike is gaining ground in the district near Mons, in the province of Hainault, and more trouble is fermenting there. A battalion of infantry has been sent to the town of Dour, nine miles from Mons, where there is a disposition to violence. At Quaregnon, four miles from Mons, the strikers are a number of houses and wrecked the works of a colliery. As their numbers increase they have grown more violent and aggressive and at the latest advices they were threatening to cut the telegraph wires and thus prevent the news of their depredations and outrages being carried at once to the authorities. The greatest anxiety prevails.

At the meeting today of the committee of the chamber of representatives appointed to prepare a revision of the constitution Messrs. Janson and Feron announced that they and forty other members of the Left would accede to the scheme of Mr. Nyssen, based on the principle of plural voting. This would give the government, which has accepted Nyssen's scheme, the requisite two-thirds majority for carrying the revision of the constitution in the house and thus solving the electoral problem. It is hoped that this may result in calming the present agitation in favor of universal suffrage.

MURDERED BY A ROBBER.  
Atrocious Crime of Unknown Misanthrope Near Valdosta, Ga.

VALDOSTA, Ga., April 14.—A terrible crime was committed about sundown last evening seven miles south of this place, the victim being an old man named John F. Wisenbaker. Mrs. Wisenbaker was in the house attending to her domestic duties when she was suddenly accosted by a man. He commanded her to keep still and not make any alarm or he would kill her. The villain then took Wisenbaker's gun down from the rack and went into an adjoining room and proceeded to break open a wooden wardrobe in which the old man kept his money.

Mrs. Wisenbaker slipped out and called her husband, who was hoeing in a patch about fifty yards away. When told by his wife about the stranger's actions the old man, disregarding his wife's entreaties, entered the house and was met by a fusillade of bullets from the robber's pistol. None of them, however, took effect and the old man raised his hoe to strike. The stranger quickly seized the gun and sent a charge of shot into Wisenbaker's heart and he fell, calling to his wife to run and saying that he was killed. Mrs. Wisenbaker then ran to the nearest neighbors and gave the alarm but when help had arrived the robber had gone, taking with him what money he could find. There are three men under arrest on suspicion.

### ENGLISH DOCKERS' STRIKE.

Liverpool Men Will Quit—Support for Hull Strikers.

LIVERPOOL, April 14.—The notice given yesterday by the Dock Laborers' union to the Shipping federation that unless the demands of the workmen were complied with a strike would be inaugurated stated that the ship owners must give an answer by Monday morning next.

HARTLEPOOL, Eng., April 14.—The dock laborers at this port have resolved to support the Hull men and will refuse to unload vessels of the Wilson line while the strike is pending.

### DETROIT AFTER OARSMEN.

Wants the Foreign Crews to Race Over Her Course.

DETROIT, April 14.—Detroit is bound to have the foreign crews here for the national and international regatta this summer if possible to bring them. Fred D. Standish of the Detroit Boat Club left this morning for the continent to work in behalf of Detroit. Mr. Standish is a member of the executive board for the National association and he goes to England and France on the advice of both the National association and the Detroit citizens' committee of fifteen. He will sail from New York on Saturday.

### ENGLAND'S CONSTANT WARS.

Serious Uprising in Burmah Assisted by Chinese Troops.

CALCUTTA, April 14.—The Kachin rising in Burmah is becoming serious. Five hundred well armed Chinese have attacked two villages east of Zalan and have surrounded a detachment of fifty British soldiers. A strong relief force has been dispatched to the scene from Bhamo and other reinforcements have been sent from Madras. It is stated that the governor of Yunnan is arming the Chinese irregulars to assist the British soldiers. A strong relief force has been dispatched to the scene from Bhamo and other reinforcements have been sent from Madras. It is stated that the governor of Yunnan is arming the Chinese irregulars to assist the British soldiers. Chinese troops are engaged in suspicious movements on the Burmese frontier.

## STRUCK AN OBSTRUCTION.

Hammond Tries to Force the Traverse City Asylum Bill Through First.

THIS SELFISH CONDUCT RAISES A BIG ROW.

Which Results in All Three Asylum Bills Being Referred Back to Committee.

### HAMMOND WAS TOO CLEVER.

STATE HOUSE, LANSING, Mich., April 14.—[Special.]—The senate committee has raised the Mining school appropriation \$5,000, making the total appropriation \$110,000. The bill is now on the general order.

The house passed several appropriation bills and got into a wrangle over the Northern asylum and the Upper Peninsula asylum bills.

After a long and hot discussion the Traverse City, Kalamazoo and Upper Peninsula asylum bills were referred back to the joint committees on state affairs and ways and means.

The wrangle was caused by Mr. Hammond moving to pass on the Northern asylum bill first, from which course the friends of an asylum in the upper peninsula feared an attempt would be made by Hammond and others to defeat the new asylum bill.

Speaker Tateum and several prominent members stood solid by the upper peninsula. There seems to be no danger of not passing the upper peninsula asylum bill now.

The mandamus proceedings brought by Mr. Barkworth and others to compel the officers of the senate and house to have printed on in the legislative journal a protest of legislators which had been rejected by the respective houses, were dismissed by the supreme court today for the reason that the officials proceeded against were creators of the respective houses and could take no action against the latter's expressed directions. None of the constitutional questions raised were passed upon.

The following appointments were made by Governor Kirk today: State oil inspector, Neil McMillan of Rockford; lieutenant-colonel and assistant inspector-general, George H. Brown of Port Huron; captains and assistant inspectors-general, Wm. Smith of Detroit and F. McWilliams of Grand Rapids.

### HEALTH AUTHORITIES ALARMED.

Infected Immigrants Said to Be Smuggled Into Canada.

MONTREAL, April 14.—A startling cablegram has been received here to the effect that immigrants from Hamburg who started out of the infected districts are being smuggled into Canadian ports via Liverpool. The health authorities are thoroughly alarmed. The steamship men deny the truth of the cable. Dr. E. P. La Chapelle, head of the provincial board of health, said that he thought it quite possible to bring infected immigrants into Canada by way of England. He thought there was no immediate danger as far as Montreal was concerned as navigators had not opened here yet. As to the likelihood of such infected immigrants passing through Halifax Dr. La Chapelle would not express an opinion. A passenger agent of one of the railroad lines said: "Immigrant passengers from any part of Europe can book to Liverpool and London and not be stopped even if they are from infected ports. They can rebook there to Canada. The steamships and railroads will take their good money and stand the chance of their being stopped on this side."

### SMUGGLED INFECTED IMMIGRANT.

BUFFALO, April 14.—Julius Schelke, the immigrant from cholera-infected Hamburg via Canada who has been endeavoring to gain an entrance to this country from Fort Erie for several days past, succeeded in getting across the river in a boat last night and eluding the customs officials. He is in the city with his brother, John Briske. Both men were arrested today. A Canadian customs official named House is accused of complicity in smuggling Schelke across the river and complaint will be made to the authorities at Ottawa in his case.

### DEATH OF DAVID PRESTON.

Mechanical Superintendent of Canadian Pacific Passes Away.

MONTREAL, April 14.—David Preston, mechanical superintendent of the Canadian Pacific railway, is dead. The cause of his death is a curious one. Some time ago he bought a solution for the purpose of curing corns. He placed some of it on a bad corn. Soon after this blood poisoning ensued and to save his life it was necessary to amputate his foot. This, however, did not much improve his condition and after a few days it was found that his leg would also have to come off. The exhaustion from these operations caused his death. He was sixty-five years of age and was one of the best known railway men in the county.

### TWO POLICEMEN MURDERED.

Probably Slain by Tramps That They Were Moving On.

DUNDUQUE, Ia., April 14.—Officer Frith of the Milwaukee railroad police force was found dying in the company's yards about 5 o'clock this morning. A few moments later Officer Talcott was found in the same condition on the platform of a coach. Both policemen died soon after being found. The officers had been shot, it is supposed, by tramps whom they attempted to dislodge and the condition of the car showed that a terrible struggle had taken place. Frith was shot twice, one ball striking him in the back and the other in the neck, while Talcott was shot over the left eye.

First National Bank OF MARQUETTE.

Capital \$150,000 Surplus Fund 60,000

PETER WHITE, President; J. H. TOWAR, Vice-President; F. J. JENNISON, Cashier

Transacts a General Banking Business of Discount and Deposit.

DIRECTORS: P. H. TOWAR, J. G. LEVONOLA, M. LONGYEAR, ALFRED KIDDER.

The Marquette County SAVINGS BANK MARQUETTE, MICH.

Capital Paid in \$100,000 Additional Stockhold- ers' Liability \$100,000

BOARD OF DIRECTORS: M. W. O'Brien, President; Capt. Samuel Mitchell, Vice-President; W. F. Fitch, Cashier; Mrs. Mary Breitung, Treasurer; N. M. Kaufman, Secretary; C. H. Call, George Barnes.

Receives Deposits in sums from \$1 upward. Loans money on real estate and other approved security. Transacts a general banking business. Four per cent interest per annum paid on all savings deposits and interest compounded twice yearly.

James M. Wilkison BANKER, Marquette Mich.

Transacts a General Banking Business.

Interest Paid on Time Deposits. Special attention given to mercantile collections. Stocks and bonds bought and sold on commission.

PETERS & SHAULL, ATTORNEYS AT LAW.

Will practice in all courts of the State and United States. Special attention given to HOMESTEAD CASES. Savings Bank Bldg., Marquette.

PALACE SALOON, MATHER BLOCK, MARQUETTE.

V. B. COCHRAN, Chairman. J. E. RICHARDSON, Sup't, and Sec'y. A. H. PALMER, Treas. Marquette, Mich.

DAILY MINING JOURNAL,

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to Upper Peninsula interests.

SUBSCRIPTION RATES: Per year, by carrier \$9.00; Per month, by carrier \$0.80; Per year, by mail \$8.00

ADVERTISING RATES reasonable, and furnished on application.

MARQUETTE, MICH., APRIL 15.

THE IRON TRADE.

Under the above caption The Evening Post of New York in its issue of April 7 gives a general review of present conditions and prospects. The advantages of Marquette as a future iron making center are conceded. In fact the writer of this article was evidently strongly impressed by Mr. Richard A. Parker's recent contribution to The Iron Trade Review, published in full in these columns yesterday.

Statistics gathered by the trade journals show great changes in the relative output of pig iron on the part of England and the United States. In 1882 Great Britain produced 4,000,000 tons of pig iron more than this country, that year covering her largest output; but in 1892 the United States made 2,500,000 tons more than Great Britain, that country's production having declined while ours increased to over 9,000,000 tons per annum. This heavy increase in the yearly output of pig iron on the part of the United States has been accompanied by such low prices that none but a furnace exceptional in its economy has made any money. Nevertheless it is undeniable that great advances have been made in all branches of manufacture in the effort to reduce cost. Thus, during the decade just mentioned, the annual production of pig iron has doubled, while the number of active blast furnaces has declined one-fifth. Not long ago a furnace producing fifty tons or so of pig iron daily was recognized as doing well but now a production of 200 tons per day is not considered remarkable.

Not only has the average capacity of blast furnaces changed very much but the other elements in the problem of iron and steel manufacture are also different. To establish an iron center is not now so simple a matter. Other industries more or less directly connected with the production of pig iron or the manufacture of steel naturally and necessarily group themselves around the common center and in process of time come under a common management, thus greatly increasing the common efficiency and at the same time rendering the whole plant so formidable as to defy a competitor perhaps better located as to ore or coal.

The collapse of a number of real estate booms has clearly demonstrated that the growth of a "city" is not certain because a blast furnace has been built in the neighborhood. A hint as to this fact could have been drawn from the history of many older furnaces which have not collected around them any settlements of consequence. Pittsburgh is at a distance from the ore beds and Chicago is not near the coal fields. It will not do in these days of large output and low prices to count too confidently upon success because of nearness to particular mines. Then, again, the iron trade must turn towards specializing. Advances in knowledge of chemistry and in the demand for special kinds of iron composition compel the iron master to locate his plant where he can most readily avail himself of different kinds of material. Local iron ore mines have thus lost their advantage. Lastly the market must be considered. With the development of transportation and the art of adjusting railway rates to trade conditions iron plants compete though widely separated. Yet the available markets for different qualities of metal must be studied as never before.

The iron ores of Lake Superior furnish the principal material for the northern furnaces. It was at first supposed that the discovery of easily mined ores in the Mesabi region would much reduce the selling price for all the ranges, but further reflection shows another side to the question. Estimates of the growth of iron production in the United States made by Mr. A. S. Hewitt and others seem likely to be exceeded. The proportion of Bessemer pig iron is now about 43 per cent. of the total. The estimates of output for 1900 are put at 15,000,000 tons, of which 6,500,000 tons will be Bessemer iron, requiring 4,700,000 tons of 60 per cent. ore annually. These few hypothetical figures show that the amounts of Bessemer ore now in sight in the Lake Superior ranges are to feel a serious drain before many years are over, and that the prospective value of this ore is great enough to stop any important declines in present prices because of the Mesabi discovery; for the time seems approaching when lean ores now neglected will have to be utilized if we are to have the expected great annual output of pig iron in the next century. In view of such broad facts how petty becomes the tariff policy of the United States in putting a duty upon Cuban ore. Recent investigation shows that the output of Cuban mines will not exceed a million tons a year. The expert's report upon them says: "Cuban ores can never come into competition with Lake Superior ores in their natural markets west of the Alleghanies. It is neither natural, reasonable, nor equitable that the seaboard furnaces should depend upon Lake Superior supplies. If that were the case, the whole steel and iron industries of the seaboard would, in the course of a few years, become extinguished. Cuba pertains naturally to the North American continent, and Cuban ores ought to be considered as domestic and not as foreign ores." Exports of iron goods may in a few years become as necessary for us as now are exports of wheat and cotton, and if so the lowest cost of production is an essential factor.

Mr. John Birkinbine, president of the American Institute of Mining Engineers and an authority on the iron problem, said in a recent article in The Engineering Magazine: "Each year shows an increase in the average percentage of iron in the ore mixtures used in American blast furnaces, and longer distances covered by the rich ores in reaching points of consumption. It is probable that future advances may be in the direction of conveying fuel to meet these ores, particularly if the meeting points furnish good market facilities for the product." This is a valuable hint. The same idea was in the mind of a writer in The Iron Trade Review, who argues long and well in favor of Marquette, Mich., as an iron center, though his arguments are equally applicable to other points in the northwest. The great inland region which we know by that name shows an increase of 60 per cent. in population in 1890 over 1880. Its railroad growth has also been continuous, while geographical lines bring it as near the Atlantic seaboard as is the territory tributary to Chicago. This section of the United States, 2,000 miles long by 300 wide, seems certain in time to achieve industrial independence. Theoretically The Iron Trade Review seems to establish its case, and to show the possibility of the assembling of pig-iron materials somewhere along Lake Superior as cheaply as is now done at Chicago or Pittsburgh. The situation in the northwest apparently meets Mr. Birkinbine's conditions, yet the effect of climate and other drawbacks can be determined only by experience, and perhaps only after some losses. Such extensions of the iron and steel industries are to be expected, as, for example, in the south, where Alabama has doubled its output within five years. They do not at all imply a decline among the existing centers. Our Pittsburgh letter on Monday last reported the purchase by the Carnegie company of one machine costing \$1,000,000. It is well known in the trade that this wealthy company has lately been spending large sums—running into millions—in perfecting the mechanical appliances used in its plant so as to produce and handle pig-iron and steel with the least amount of human labor and at lowest cost. Perhaps nowhere else in the world can the manufacture of iron and steel be carried on with such small cost for wages per ton. Against such a rival it must be difficult for any new trade center to arise and to maintain itself; yet, unless all indications fail, such an iron center there will be somewhere on Lake Superior, and probably another near the Rocky Mountains. It is also possible that the iron industry of the country as a whole will by that time have reached the stage prophesied by Mr. Atkinson and Mr. Wells, when America will under free trade conditions not only lead the world in output, but will be the producer to whom the consuming nations will look for their supplies.

Of course THE MINING JOURNAL wishes to record its disagreement with The Evening Post's conclusions as to Cuban ores. The principal effect of the removal of the tariff from Cuban ores would be the further prolonging of the life of the declining iron manufacture of the Atlantic coast.

**OUR FLAG HAULED DOWN.**

**Commissioner Blount Seems to Be Acting Rather Strangely in Hawaii.**

**SECRETARY FOSTER'S INSTRUCTIONS ON THE POINT.**

**They May Be Construed to Cover the Case—Annexation Sentiment Growing Among the Natives.**

**MORE DIPLOMATIC RED TAPE.**

WASHINGTON, April 14.—The startling news from Honolulu via San Francisco of the hauling down of the United States flag was, it is said, the subject of animated discussion at the cabinet meeting today. Before going into the cabinet room Secretary Gresham said to a reporter that he had received no information whatever aside from that printed in the papers. When questioned further as to the truth of the statements contained in special dispatches to western newspapers that Mr. Blount was conveying at the restoration of Queen Liliuokalani and would support her return to the throne, if need be, by the forces of the United States ship Boston, he said he knew nothing about it and declined to express an opinion on the subject. In regard to the hauling down of the United States flag attention is called to these passages in the instructions issued under the previous administration by Secretary J. W. Foster to Minister Stevens under date of Feb. 11, 1893:

"The phraseology of your proclamation in announcing your action in assumption of protection of the Hawaiian islands in the name of the United States would appear to be tantamount to the assumption of a protectorate over those islands in behalf of the United States with all the rights and obligations which the term implies. To this extent it goes beyond the necessities of the situation and the instructions as heretofore given you. So far as your action amounts to according to the request of the de facto sovereign government of the Hawaiian islands, the co-operation of the moral and material forces of the United States for the protection of life and property from apprehended disorders, your action is commended. But so far as it may appear to overstep that limit by setting the authority and power of the United States above that of the government of the Hawaiian islands in the capacity of protector, or to impair in any way the independent sovereignty of the Hawaiian government by substituting the flag and power of the United States as the symbol and manifestation of paramount authority, it is disavowed."

It is contended in view of the statements from President Dole that the provisional government could maintain and protect itself against assault from within that the necessity for the presence of United States marines on shore and the flying of the United States flag has passed. There, it is argued, Mr. Blount was correct in ordering the marines to their barracks and the flag to be hauled down, especially if the presence of the flag over the government building in Honolulu, as stated, tended to impede diplomatic relations between the two countries and to embarrass negotiations.

Mr. Charles L. Carter, one of the Hawaiian annexation commissioners, was seen and asked if he had any news. He replied in the negative but stated that he fully expected to hear something in the course of a day. Speaking of the lowering of the United States flag by Mr. Blount's order, Mr. Carter said:

"I do not think it means a reversal of the long policy of the government as expressed by the late administration. Secretary Foster's attitude was satisfactory to the annexationists and he promptly disavowed the protectorate. The force of marines was posted on duty in response to the request of the provisional government to protect persons and property against assaults and danger from the natives. The necessity for this has passed; the annexation movement has gained strength and numbers and President Dole has announced that it was able to maintain itself if not assailed from without. Therefore, the forces of the United States were no longer essential and with their removal, of course, the flag came down. What we all regret is that events have made it necessary to pursue that course. We had hoped when it once was hoisted that annexation would be accomplished and that it might never again be hauled down."

Up to the hour of closing the department of state no information had been received there regarding the action of Commissioner Blount.

**NEGRO MURDERER LYNCHED.**

**Blacks and Whites Join in the Deed of Vengeance.**

BUFFALO, Ala., April 14.—Jeff D. Barnett, a young storekeeper near the line of Quitman and Clay counties in Georgia, was found in a pool of blood in his store yesterday. A posse of whites and blacks was organized and after a six mile chase captured the murderer, giving his name as Ed only. He fired several shots at the posse before he was captured. The posse tied him and shot him to pieces, then piled fence rails on the body, saturated them with oil and burned the remains.

**ONE THOUSAND HOMELESS.**

**Disastrous Fire in the Town of Veszprem, Hungary.**

VIENNA, April 14.—A fire in Veszprem, a town of Hungary, sixty miles southwest of Buda-Pesth and having a population of about twelve thousand, has destroyed 141 houses and damaged property to the extent of half a million florins. One thousand persons are homeless.

**SPENCE STILL ON TOP.**

**Had to Kill Five Mexicans to Keep the Peace.**

PHOENIX, Ariz., April 14.—Pete Spence of Sentinel yesterday killed another Mexican, making in all five in the last ten days. About a week ago Spence,

who is a Texan with no love for Mexicans on general principles, found it necessary to kill one while keeping a saloon at Gila Bend. After that the greasers formed a combination to do him up and so far he has kept on top. All the killings have been in self-defense.

**ROBBERY AT CHAMPION.**

**Personal Safe of Thomas Wallace Looted by Burglars.**

Some time between 12 o'clock Wednesday night and 6 o'clock Thursday morning the personal safe of Thomas Wallace at Champion was blown open and robbed. Mr. Wallace is in the hardware business and is also the agent of the American Express company and is the postmaster. He has two safes in use, one for his personal property and the other for express and postoffice business.

The burglar opened the safe by first breaking off the dial and then removing the pin leading to cross bars which worked the bolts. The money taken amounted to only a few dollars as it happened there was not much cash on hand that night.

After going through that the express safe was tackled. The thief succeeded in removing the hinges from the door but failed to get it open.

The entrance to the building was effected through a basement window. The door covering the stairway leading to the basement was fastened above by an ordinary hook. The hook was broken and the door opened without difficulty. No clue to the identity of the thief has been obtained.

**MICHIGAMME MENTION.**

The South Shore road has changed around operators considerably here this week. D. B. Buel who has held the position of night operator the past month, left Monday for Houghton. He is succeeded by Mr. Zephren. R. F. Seiby leaves for a few weeks' visit to his home in the lower part of the state Sunday. During his absence T. H. Mullin will fill his position as day operator.

F. W. Read & Co. will commence operating the sawmill if weather permits on Monday next. The prospects are that they will work double shift the coming summer.

Mrs. Law of Baraga will deliver a temperance lecture at the Methodist church Sunday evening to which everybody is welcome.

There is a report which come from pretty good authority that the Michigan mine is to be operated this summer.

People are moving away from this place one after another and yet there is hardly a single house in town to let.

Mike O'Neil leaves next week for West Superior with a view of locating. His family will follow about May 1.

A. F. Sundstrom attended a special meeting of the county canvassers at Marquette yesterday.

J. C. O'Neill and family of Chicago are visiting friends and relatives here for a few weeks.

Miss Susie O'Neil has returned from Chicago where she has been visiting the past few months.

Ed Dishnow of Milwaukee is home to spend a few months with relatives and friends.

Dr. E. B. Patterson made a professional call at L'Anse Wednesday.

J. L. McClear of Negaunee was in town on business Wednesday.

Miss Esther Levine is visiting friends at Marquette.

**President of the Mine Workers.**

COLUMBUS, O., April 14.—John H. McBride of Ohio was today re-elected president of the United Mine Workers of America by vote of 213 to 30 for S. L. Heron, 3 for J. P. Jones and 3 for Riley. H. H. Pence of Indiana was elected vice-president unanimously.

**Trouble in Central Asia.**

MOSCOW, April 14.—In consequence of news received here to the effect that China is gathering arms and other material in Chinese Turkestan adjoining the Pamir country Russia has sent a force of Cossacks and artillery to reinforce the garrison at Toulutche.

**Thieving Treasurer Caught.**

MADISON, Wis., April 14.—Secretary Gresham today wired Governor Peck that Peter Dyrone, wanted for theft of funds while treasurer of Rock county, Wis., is under arrest at Stockholm, Sweden.

**Black Brute Will Hang.**

COLUMBIA, S. C., April 14.—George Kipard (colored) has been found guilty of committing rape on Mrs. Addison, a white woman living at Irmo, and was sentenced to hang May 26.

**Forecast of the Weather.**

WASHINGTON, April 14, 9 p.m.—The weather bureau reports the following as its forecast for the next 24 hours, for upper Michigan: Generally fair; variable winds; slightly warmer.

**Money for Ireland's Cause.**

NEW YORK, April 14.—Engene Kelly, treasurer of the National Federation of America, has forwarded \$10,000 to Justin McCarthy, M. P., for the home rule fund.

**HO! FOR NORTH GALVESTON!**

A special excursion to North Galveston, Tex., will leave Marquette April 29, 1893. Remarkable inducements are offered. For particulars apply to M. E. Asire, Agt., Marquette.

**RUNAWAY CABLE TRAIN.**

**It Whirls Ten Blocks Through the Crowded Streets of Chicago.**

**SEVERAL PERSONS HURT BUT NO ONE KILLED.**

**Train Is Finally Wrecked in the La Salle Street Tunnel—Many Hairbreadth Escapes.**

**CAUSED BY BROKEN STRAND.**

CHICAGO, April 14.—A runaway cable train with many passengers aboard was whirled unchecked ten squares through the most crowded portion of the city this afternoon. Its wild career ended by a plunge down grade into the LaSalle street tunnel where the train was derailed and the wrecked cars strung across the track near the bottom of the sharp incline.

There was an exciting scene along Dearborn and Randolph streets as the runaway rushed along. Men, women and children made a frantic attempt to get off the train and many fell to the ground as they alighted.

Crowds attracted by the screams of the imperiled passengers and the clang of the car bells chased after the train and endeavored to get the helpless ones off the cars. Police officers pulled several women through the broken windows and landed them safely upon the ground.

Among the passengers on the cars were women with babies in their arms. They begged piteously that their children be saved from harm, but most of the men thought only of themselves. In the confusion several persons were trampled by teams taking fright but escaped serious injury.

Down in the tunnel the cars were in such extricable confusion and the grips and cable in such chaotic shape with so many cars from the North Side blocking the north end that it took hours to clear the wreckage away. The gas main running through the tunnel was broken and there was a chance for an explosion. The electric light wires were also cut, leaving the tunnel in darkness.

Four passengers were badly injured while a number of others were fearfully shaken up and bruised or scratched. The accident was due to a strand becoming broken in a Clark street cable. The seriously injured are:

FRANK BLACK, back and shoulders hurt. ANNE BOAS, head and shoulders hurt. MAX BOAS, internal injuries. UNKNOWN WOMAN, head and back injured.

**Steamer City of London Sold.**

RAY CITY, Mich., April 14.—Captain James C. Davidson, the ship builder, has sold to Captain James Reardon and other of Chicago the big steamer City of London, the consideration being \$125,000. This is the eleventh vessel sold by Captain Davidson since the close of navigation.

**THE PLEASANTEST PLACE IN THE SOUTH.**

A special excursion to North Galveston, Tex., will leave Marquette April 29, 1893. Remarkable inducements are offered. For particulars apply to M. E. Asire, Agt., Marquette.

**A LASTING POSITION.**

**What They Say of Paine's Celery Compound in the Treasury Department.**

"Paine's Celery Compound," says Daniel Macaulay, chief of the appointment division in the treasury department, "has attained a lasting position in the home of myself and family. We shall not consent to be without it."

General Macaulay, whose portrait is printed above, is one of the best known men in Washington and a prominent member of the famous Lafayette post, 140, of New York. His commendation of this great of all remedies, coming so soon after the hearty letter of Hon. James M. Shane, mayor of Montreal, and of the leading pastors of New York city, emphasizes the truth of the statement recently made by one of the first surgeons in the country, that Paine's Celery Compound is not a patent medicine, a sarsaparilla, or an ordinary tonic, but is as superior to all of them as the diamond is to ordinary glass.

The recently published testimonials from W. E. Anthony, M. D., of Providence, E. H. Jenkins, M. D., of Portland, Dr. J. H. Lindsley, C. E. Cole, M. D., and medical director of the Prairie du Chien Medical Institute, and hosts of prominent practitioners all over the country have resulted in the most extraordinary sale of the remedy that was first prescribed by Dr. Phelps of Dartmouth college, and has since come to be known to the medical profession and, in fact, the whole people as Paine's Celery Compound.

People of the highest standing in all classes of society in every city and town in the Union have been benefited by the use of this remedy for the cure of all the numerous ills that result from impaired nervous systems and impoverished blood.

It makes people well. In the spring when

the average person needs something for the nerves and brain, some nourishment for the blood, Paine's Celery Compound is the only remedy of all others that should be taken. Here is a plain statement from Mr. John H. Glover of The Telegraph Age, whose headquarters are in the Temple Court building, New York. Mr. Glover is a most able and conscientious worker, and his experience of the greatest interest can be read by everybody.

"My extensive duties and cares," he said, "can hardly be described. One who is interested in electricity almost forgets himself in pursuing its fascinating study. I finally almost became a complete wreck, so much so that on the slightest excitement I would be thrown into a semi-fainting condition that would leave me in a still worse state. Things reached such a state that I had to avoid everybody and live completely by myself. Upon the slightest excitement a cold sweat would break out all over me. I would have a great feeling of emptiness in my stomach, producing great weakness, almost fainting. I never knew what it was to sleep. Hour after hour would pass away and find me awake. In the morning I would arise with aching head and burning eyes. Food was a burden to me, my stomach failing to digest it. Such was my condition up to a comparatively short time ago."

"By chance I saw in the paper a statement from a young lady whose infirmities almost exactly coincided with mine. I did not suppose any one had ever suffered as much as I had, but I determined to try and regain my health in the same manner by which the young lady of whom I had heard regained hers. Frankly, the results at first

were disappointing, but nevertheless I continued. A change for the better occurred and thus encouraged I kept on. My strength gradually returned, my sleep improved, I began to eat with comfort, hope came back to me, my confidence was restored—in fact, I am a well man today and my restoration is entirely due to that great discovery, Paine's Celery Compound, which alone delivered me from the terrible condition I had been in for years.

"I have been investigating matters of late and I am convinced that there are many men and women who are, perhaps, not in so bad a condition as I once was but who still are sufferers from nervous disorders, headaches, insomnia, loss of appetite, and the thousand troubles which come in the train of a broken down, nervous condition. I believe that all of these people can be relieved and returned to a perfect condition by the same means I successfully employed."

"There is one point I wish to urge strongly: Do not expect too much from one bottle or from two or three, for that matter; but faithfully use the compound, confident of the fact that a cure will be eventually effected. I know little about this great compound aside from what it has done for me and others but I certainly do not believe that the greatest discovery of the nineteenth century for the physical, nerve and brain troubles to which the people of the nineteenth century are so subject."

The above clear and outspoken words of Mr. Glover require no comment. They are from a man of the highest standing and they tell their own story. There are thousands of men and women who will be glad to hear of them and profit thereby.

### REPORTORIAL PENCLINGS

Secretary Kern expects to start on the new Lake street main Monday.

Turner's English Gaiety Girls at the Marquette Opera House this evening.

Hughes' dancing class meets at 7:45 this evening in Fraternity Hall, with the usual social from 9 to 12.

The Winslow Comedy and Medicine company closes its two weeks' engagement at the Casino this evening.

Hughes' Ideal orchestra of eight pieces will play for the Assembly at Fraternity Hall Monday evening.

The Cyr brothers, the famous French athletes, are promised immense houses at the Casino next Monday and Tuesday.

G. R. Watts will be in the city today to do tuning and repairing of pianos and organs. Orders may be left at G. N. Conklin's.

The Daughters of Rebekah have engaged Hughes' Ideal orchestra for their next dance to be given on the 28th of this month at Fraternity Hall.

At the regular Y. M. C. A. afternoon service tomorrow there will be a vocal solo by Mr. Geo. L. Burtis and an address by General Secretary A. Y. Wilcox on "Daniel." Mr. F. E. Hixson will conduct the service.

Send the children to Hughes' rooms in the opera house block today at 2 o'clock. This will close the term and all will receive "favors." Another term will begin at once, for which names are already being received.

At the meeting of the Lake Superior Presbytery at Iron River this week Mr. Charles Kelsey of this city was selected as the lay commissioner to represent the presbytery at the general assembly of the Presbyterian church in the United States, which convenes at Washington, May 18. The assembly will be in session about two weeks.

A very pleasant surprise party, organized by Miss Mary Sullivan and Miss Hannah Vose, was given Thursday evening to Mr. and Mrs. H. A. Himes of 365 East Lake street. About forty couples were present and at 12 o'clock oysters and ice cream were served. Dancing commenced again at 1 and continued till a late hour in the morning. The wind-up of the party was a song and dance by Patrick Farley who scored a great success. The floor managers were Albert Harris and M. Farley.

### PERSONAL MENTION.

County Clerk August Boogren of Alger county was in the city yesterday.

John Parker will go below next week to be present at the launching of his new fishing tug.

D. H. Ball has returned from Lansing where he was kept a week or so by supreme court cases.

E. J. Mapes has returned from Lansing where he was called by a case before the supreme court.

Dr. W. H. Morse has decided to discontinue the practice of dentistry here and will leave for Detroit today.

Rev. J. B. Bonar has returned from Iron River where he attended the meeting of the Lake Superior Presbytery.

Hon. F. O. Clark returned yesterday from Lansing where he was kept for some time on supreme court business.

### MAKE IT A POINT TO GO.

A special excursion to North Galveston, Tex., will leave Marquette April 28, 1893. Remarkable inducements are offered. For particulars apply to M. E. Asire, Agt., Marquette.

### THE DAY NURSERY.

The day nursery in the Everett residence is now open. The object of the nursery is to take care of poor children while their mothers are out at work. Children can be taken there at 7 a. m. and left till 6 p. m. for five cents a day. There will be a matron and a nurse. The nursery has been established by Mrs. J. M. Longyear and she hopes the ladies of the city will take such an interest in the establishment as to give it their assistance; it is open to investigation at all times. It occupies the south wing of the Everett building. (4-6-15)

Mr. K. S. Ervin's the artist cutter at Neuberger's. A trial will convince you that you will appreciate style, comfort, durability and fit.

The Upper Peninsula Brewing Co.'s Beck Beer will be on draft in this city Saturday April 15. (4-13-15)

**BEECHAM'S PILLS** for a bad Liver.

Everybody is going to Neuberger's to get their suits and overcoats made. He has the artist cutter that can fit and please you. (4-5-15)

The finest line of suitings, overcoatings and trousseings. Neuberger's merchant tailoring department.

Try Neuberger's new cutter. You will never be sorry for it.

For a number of years I have been subject to violent attacks of inflammatory rheumatism which generally lasted about two months. On the first of this month I was attacked in the knee and suffered severely for two days, when I procured a bottle of Chamberlain's Pain Balm and it relieved me almost instantly. I therefore most cheerfully recommend it to those who are similarly afflicted everywhere.—R. D. WHITLEY, Martindale, N. C., Feb. 1888. Mr. Whitley is a very prominent man in this place as he suffered such severe pain. W. M. HOSKINS & Co., Merchants Martindale, N. C. 50 cent bottles for sale by H. H. Stafford, Son & Co.

### CATARH IN NEW ENGLAND.

Ely's Cream Balm gives satisfaction to every one using it for catarrhal troubles.—G. K. Mellor, druggist, Worcester, Mass. I believe Ely's Cream Balm is the best article for catarrh ever offered the public.—Bush & Co., druggists, Worcester, Mass. An article of real merit.—C. P. Alden, druggist, Springfield, Mass. Those who use it speak highly of it.—Geo. A. Hill, druggist, Springfield, Mass. Cream Balm has given satisfactory results.—W. P. Draper, druggist, Springfield, Mass.

**Coughing Leads to Consumption.** Kemp's Balsam stops the cough at once. Smokers of fine Cigars, read ad. of John E. Kenning & Co.

### HARDWARE HOUSE RETIRES.

Firm of I. E. Swift Will Sell Stock and Go Out of Business.

ENTIRE LINE OF GOODS FOR SALE TO CLOSE OUT.

One of Ishpeming's Largest Houses Will Retire—News That Will Cause General Regret Here.

#### GOING OUT OF BUSINESS.

In another column of today's MINING JOURNAL may be found the advertisement of I. E. Swift, hardware dealer, 112 to 116 Bank street, this city, offering his entire stock of goods for sale at reduced prices in order to close out the business as quickly as possible. For several months past Mr. Swift has been contemplating removal from this section of the country to another field. He has conducted business at this point on an unusually large scale for the past twelve or thirteen years and is today carrying the finest line of heavy and shelf hardware north of Chicago.

Besides his mammoth store on Bank street, which is packed from bottom to top with goods, Mr. Swift has seven large warehouses, occupying the property formerly used by the Ishpeming foundry on Lake street, that are also filled with goods. His business is conceded to be larger than any other house in the same trade in the Lake Superior district.

The stock consists of mine, mill and railway supplies, heavy and shelf hardware, bar iron, nails, wrought iron pipe, brass and iron fittings for steam, gas and water, waste, handles, bolts, nuts, washers, plate steel, cordage, rubber goods, packings, etc. The office furniture, fixtures, safe, etc., will also be sold.

The store building occupied by Mr. Swift is not his own property but all the warehouses belong to him and will be sold with the stock. He holds a lease of the ground on which the warehouses are located which has a considerable term of years to run.

All the buildings in use have been designed and constructed for the special purpose for which they are used. They are all situated alongside the railroad track and are convenient in every respect.

The city of Ishpeming in general will regret losing this most enterprising firm. It has grown up with the town, has its interests at heart and by its removal from here Ishpeming will suffer a big loss.

The stock will be sold in bulk or otherwise. The opening afforded by the retiring of I. E. Swift is an excellent one for some person acquainted with that line of business. The trade is here and will remain with the concern that takes the place of Mr. Swift.

#### Common Council Proceedings.

The common council held a special meeting last evening for the purpose of organization and election of city officers. Mayor Osborn made a verbal report of progress in the construction of sewerage last year, the efficiency of the police officers and street commissioner, and concluded by stating that he had re-appointed Gust Peterson marshal and John Nolan deputy marshal and recommended that the other police officers be retained. The mayor's recommendations were concurred in.

Mayor Osborn then stated that he had postponed the appointment of standing committees until the regular meeting, to be held Wednesday evening next.

W. H. Johnston was appointed president of the council.

On motion of Alderman Johnston the same order of business as prevailed last year was adopted for the ensuing year.

The first and third Wednesday evenings in each month were adopted as the council's regular meeting nights.

The election of city officers aside from the police force was follows: Librarian, E. W. Fiske; janitor of city building, Thomas Robinson; engineer of fire department, James Condon; driver of hose and hook and ladder teams, A. Trombley and J. Sullivan; janitors of hose houses 2, 3 and 4, J. McNamara, J. Healy and T. Wallace, respectively; health officer, G. G. Barnette; city engineer, T. N. Reiter; street commissioner, Joseph Richards; city attorney, H. O. Young; assessor, John S. Mennie.

The only change in the entire lists of city officials is in the office of assessor.

The bond of the city treasury was fixed at \$175,000; street commissioner, \$4,000; marshal and deputy marshal, \$1,000 each.

On motion of Alderman Olson Iron Ore was made the official paper. The council then adjourned.

#### Livery Sold Out.

Ole Waiseth, the veteran livery man, has sold out his business on Pearl street to Peter Adolph, who will take possession this morning. Mr. Waiseth will continue to conduct his carriage making establishment for the present at least but is desirous of disposing of that also.

Mr. Adolph has been in the livery business for the past three years with stables located on East Ridge street. He has a thorough knowledge of the business, is a hard worker and is well known by the people of Ishpeming. That he will do a better business in his new stand than he did in the old one is certain, as it is more centrally located and the stables will accommodate more vehicles and horses.

William Larson, the fruit and produce dealer, has rented Mr. Adolph's old stables and will convert them into one large warehouse. The property will make a splendid warehouse as it is situated alongside the North Western railway tracks.

#### A Special Sale.

F. Braastad & Co. will have a special silver ware sale at their dry goods store for the next week. Every package of silver will be sold at twenty-five cents each. See the advertisement in another column, then go to Braastad's and feast your eyes with the rare bargains these goods make. They are good goods and are being sold at less than cost as a special inducement.

A large improved hat rack, the latest

# STAR CLOTHING HOUSE!

"We are right in it" with our spring stock.

## LINE OF CLOTHING

In the Upper Peninsula. We invite all our old customers as well as new ones to come and look over our stock before purchasing elsewhere.

### BOY'S and CHILDREN'S CLOTHING.

Department, which cannot be equalled this side of Chicago. We give as a special inducement a PAIR OF STILTS with every boy's suit.

Bear in mind we are agents for the YOU MAN HAT, the best \$5 stiff and soft hat in the market.

For wet feet we carry in stock the NETTLETON SHOE.

### BLUMENTAHL & RUTTENBERG.

thing out, can be seen in the clothing department of Braastad's store. It will hold and display 500 stiff hats or 1,500 soft hats. The rack is constructed so as to open and shut in sections of six compartments each and when the sections are closed the goods are protected from dust. They have also put in place in their show windows a revolving shoe rack that is quite attractive. Braastad & Co. have laid in a tremendous stock this spring and they are doing a rushing business.

Additional Ishpeming. Additional Ishpeming local news will be found on the opposite (seventh) page.

### ANNOUNCEMENT.

We take this opportunity of saying that we are still with you and intend to stay. Our stock of dry goods is complete. Our line of spring millinery, in style and workmanship, is far superior to anything ever exhibited in the upper peninsula. We are showing an elegant line of capes and jackets. In conclusion we will say that we will meet any competitor's prices, no matter whether they are closing out or otherwise. Give us a call and save money.

Yours respectfully,  
T. GRABOWSKY.

**COPPER COUNTRY NEWS.**

Manager Mayworm's Bookings for the Armory Opera House at Houghton.

NO ICE TO BE SEEN FROM THE SHIP CANAL.

"Colored Four Hundred" Amateur Minstrels Will Also Appear at Lake Linden—Personal Mention.

(All communications for copper country department intended for publication should be addressed to A. F. Wetzell, Houghton.)

**Houghton.**

Manager Charles A. Mayworm of the Armory Opera House has booked the following companies: Cyr Bros., April 22; Calumet Musical Union in "Dorothy" April 28; Paris Gaiety Girls, May 6; John R. Franz Campson in "The Merry Cobbler," June 1 and 2; Lacy & Altman in "Blunders" August 5. Manager Mayworm tried to secure "The Spider and the Fly" and could have done so but received word from Manager W. A. Ross of Marquette that for the company to use its own special scenery the stage had to be 45 feet high. This knocked the plan in the head as the Armory stage is only 20 feet.

Cyr Brothers, champion strong men of the world, with athletic and slack wire performers, will be at the Armory Opera House April 22. The company will not play in Hancock owing to the fact that the stage is not large enough. They have a team of horses weighing about 3,000 pounds and about 2,500 pounds of weights which they use on the stage, throwing the latter around as if they were marbles. Louis Cyr, the older of the two brothers, is a native of Montreal, weighs 318 pounds and is a favorite with the ladies.

The funeral of the twenty-three months' old boy of Mr. and Mrs. John Broan of the Atlantic mine was held yesterday afternoon.

Fred A. Larsen of Red Jacket passed through here on his way home yesterday noon.

The Houghton String orchestra, accompanied by Charles A. Mayworm, went to L'Anse last night to play at the A. O. U. W. ball.

L. Hennes arrived home from Chicago Thursday evening.

The Houghton-Silver Cornet band will give a grand ball at the Armory May 5.

John Vertin of Red Jacket was in the city on business yesterday.

"Turner's English Girls" passed through here yesterday noon after a not very profitable trip through the copper country.

**Hancock.**

Captain George Smith of the life saving station at this canal has received orders to open the station April 25. He has his crew hired. Four of them were part of his crew of last season and the other four are new men. Captain Smith reports the ice out of the lake as far as one can see. It is probable that William McEne will be the lightkeeper, the same as last season.

George R. Sterling, representing the M. D. Wells Boot & Shoe company of Chicago, had quite a serious accident Thursday. In turning his horse around near the Franklin store one side of the cutter ran up on a bank of snow. Mr. Sterling was on the low side and tumbled out, hurting his hip. He will probably be laid up at his room at the Gutsch House for four or five weeks.

"Rebecca's Triumph," the charming little drama produced in Houghton St. Patrick's evening by the ladies of St. Ignace church, will by special request be reproduced at St. Patrick's Hall one week from tomorrow evening, Sunday, April 23. The entertainment will be given under the auspices of the Catholic club.

Men were at work yesterday cleaning out the catch basins. They had got pretty well filled up with sand but will now be in good condition for the next six months.

The funeral of the fifteen-months-old child of Mrs. Stanaway was held yesterday afternoon from the residence.

The skip at No. 4 shaft house, Quincy mine, was pulled through the roof yesterday morning. The damage is slight and no one was hurt.

Hon. William Harry returned yesterday noon from an extended visit to Chicago and Detroit.

The March product of the Quincy mine was 630 tons.

**Lake Linden.**

The "Colored Four Hundred" the great copper country minstrel company, entirely original and composed of over thirty people, each member an artist known to eclipse the best professional talent that has ever visited this section, will give an entertainment at the opera house next Monday, April 17. Reserved seats on sale at the postoffice.

Mrs. Gilbert, aged seventy-seven, an old and highly esteemed resident of this place, died at her home Thursday evening. The funeral will be held this afternoon.

**Calumet.**

The Osceola vein in the crosscut from No. 4 shaft has been penetrated about 14 feet from the point where it was first reached in the foot wall. The center of the vein is not as rich as when it was first opened.

Charles Briggs has returned from a business trip to Chicago.

**Red Jacket.**

The Osceola, Tamarack and Calumet & Hecla mines square their monthly pay rolls today.

Rev. S. T. Morris of Dexter, Mich., has received a call from the Congregational church of this place and is expected here tomorrow.

The Theatre Royal company opens a four nights' engagement at the Opera House tonight with "Ten Nights in a Barroom."

Dr. J. E. Scallon was in the city yesterday in consultation with Dr. McLeod concerning Engineer McGrath, who is sick with pneumonia.

Pharmacist A. F. Wetzell, who is ill with pneumonia, is somewhat better.

**UNPARALLELLED MAJORITY.**

Hon. Joseph Fay's Wonderful Run in Second Ward as Shown by Official Returns.

PLANS FOR LOUIS VIERLING'S HEWITT AVE. RESIDENCE.

Wills Won on the Record by One Vote—LaRoche's Millinery Opening—Other City News Notes.

**HE VOTED THE DIRECTORY.**

According to the official returns as published in the official paper of the city of Marquette, The Negaunce Times, Mr. Joseph Fay received the superb majority of 725 votes in the recent election as a candidate for supervisor in the Second ward, even surpassing the magnificent record made by Mayor Kaufman in the city at large. This strikingly illustrates Mr. Fay's popularity in the city where he has been proud to claim a residence for the last twenty years and insures short sessions of the county board for another twelve months, as with Joe representing the Second ward of Marquette the members of the board from even the remotest townships in the county are always desperately anxious to dispatch business so that they can hustle down to the popular Front street resort over which the name of Fay is suspended and put in an hour or two before train time.

In this connection THE MINING JOURNAL desires to call particular attention to Mr. Fay's wonderful ability as a campaign organizer and all round political wire-puller in addition to his worth as a citizen. He believes implicitly in the virtues of a still-hunt and never was his faith more strikingly justified than in the last campaign. A candidate who can roll up a majority of 725 in the Second ward alone is no slouch of a vote chaser, indeed, there are not wanting those who are ready to assert that the irrepressible Joseph was cute enough while acting as judge of election to vote a complete copy of the city directory in his own behalf and that this accounts for the wonderful majority he secured in the ward. In fact Alderman Hennessey is reported to be so chagrined at seeing another man get a majority in the ward 700 better than his own that he has about decided to shake the dust of the Second from his feet and abjure municipal politics henceforth and forever.

While THE MINING JOURNAL is gratified at Mr. Fay's wonderful vote, because it proves to certain Ishpeming friends that the move to divide the Second ward of this city was amply justified by the vote which is shown in the ward as it stands at present, there are other considerations which cause it serious misgivings. Mr. Fay has always been noted for his genial disposition and even a cold wave of the specific gravity of that which has depleted Marquette coal bins for the past two days has always been unable to overcome the sunshine of his presence but it was noticeable to many yesterday that after learning of his astounding majority he found it difficult to recognize old friends even when they passed on the same side of the street, his hat acquired a more acute angle over his right ear and a look of haughtiness and pride was fixed upon his face, instead of his usual smile, as he stalked majestically up and down the street with a copy of the Negaunce paper published on Superior street tightly grasped in his right hand—that majority is certainly getting in his work and it would not be surprising if he had the number of his place of business changed to read 725 South Front street.

**Handsome Hewitt Avenue House.**

Lovejoy & Demar are preparing plans for a handsome residence for Mr. Louis Vierling to be built this season on the lot on Hewitt avenue, west, adjoining the Russell residence. The house will be 55 by 32 feet in extreme dimensions and will possess many entirely new features of beauty in exterior design, some of its lines being Moorish in style. At the southeast corner an octagon tower will be the striking feature of the building while a swell front and a large bay on the west side for the full height of the building will be other attractive features. Above the first story shingles will be used. The veranda will have very graceful curves, as shown by its floor plan, while the stone piers will extend up through to the rafting, as in the J. J. Connolly residence, giving a very pretty effect.

The floor plans of the residence show a full basement with supply and fuel rooms, vegetable cellar, boiler room and laundry, the latter being at the rear where the grade will permit full length windows in the basement. On the first floor there will be a reception hall 9½ by 9½, with the octagon bay to make it doubly attractive. The parlor will be 14 by 15 with sliding doors leading to the hall and to the sitting room beyond. Besides a large plate glass window in the center of the front, windows of curved glass will give light at the front corners, making the swell front before mentioned. This is about the first use of curved glass in a residence in Marquette. The sitting room will have the advantage of the large bay on the west side of the house and will also be made more attractive by a large fire-place; it will be 16½ by 13½ and will have sliding doors leading to the dining room which will be 12 by 16, with double windows on the east side. An arch will connect the dining room with the library, a roomy apartment back of the sitting room. The rest of the space will be occupied by the usual china closets, pantries, kitchen, rear stairway and refrigerator room.

On the second floor there will be a handsome bed room in front, 13½ by 12, with an alcove, 14½ by 9½, connected, in which will come the octagon bay. Two other bedrooms, one 12 by 12 and one 12½ by 15½, a large bath room and a linen room will occupy the remainder of the space on this floor, the servant's room being finished off above.

The residence will be finished in quarter-sawn oak, heated by hot

water and lighted by gas and electricity. No pains will be spared in its construction and it promises to be a very decided addition to the long list of beautiful homes in Marquette.

**The Cold Couldn't Stop Them.**

There was a large crowd at LaRoche's all day yesterday and until late in the evening, the occasion being his annual spring millinery opening. Even the cold wave lost its terrors for the fair sex in the face of that announcement and they were out in full force to see those hats and bonnets. The array well repaid all visitors, Miss Campbell, who has lately arrived in the city from Chicago to take the position as trimmer in the establishment, having arranged one of the most artistic displays of beautiful millinery ever seen in the city. The sales during the day were surprisingly large and the success of the opening was very gratifying to the proprietor. Ladies will find the store well worth visiting today and every effort will be made to show all comers all due attention and courtesy while the invitation is again made general to the ladies of Marquette to come in and see the very latest styles in millinery in all the varied shapes and colors, even if they do not intend to pick out a hat immediately. All will be welcome.

**Wills Got It.**

The board of canvassers met yesterday morning pursuant to adjournment to consider the contest over the supervisorship in Ishpeming township. A committee was appointed to recount the ballots, the result being that the office was given to William Wills by one vote over George Weatherstone, the former supervisor, the first returns having made the result the other way.

**DON'T FORGET WHEN.**

A special excursion to North Galveston, Tex. will leave Marquette April 26, 1893. Remarkable inducements are offered. For particulars apply to M. E. Aaire, Agt., Marquette.

Continuation of last Saturday's meeting of Adventists, Disciples and Bible Christians at Alex Cameron's house, 128 W. Ohio St., Marquette, Mich., Saturday, April 15, 1893. Those who cannot attend respond by letter.

**"ROYAL RUBY" PORT WINE.**  
If you are reduced in vitality or strength by illness or any other cause, we recommend the use of this grand old Port wine, the very blood of the grape. A grand tonic for mothers, nursing, and those reduced by wasting disease. It creates strength; improves the appetite. Nature's own remedy, much preferable to drugs, guaranteed absolutely pure and of age. Young wine ordinarily sold is not fit to use. Insist on having this standard brand, it costs no more. \$1 in quart bottles of the Royal Wine Co., Chicago. For sale by H. Stafford, Son & Co., Marquette, and J. N. Perkins & Co., Negaunce.

**Chamberlain's Eye and Skin Ointment.**

A certain cure for Chronic Sore Eyes, Tetter, Salt Rheum, Scald Head, Old Chronic Sores, Fever Sores, Eczema, Itch, Prairie Scratches, Sore Nipples and Piles. It is cooling and soothing. Hundreds of cases have been cured by it after all other treatment had failed. It is put up in 25 and 50 cent boxes. For sale by H. H. Stafford, Son & Co.

**THE MUTUAL LIFE.**

The Mutual Life Insurance Company of New York has opened general agency offices in Milwaukee (Pabst Building) for the conduct of its business in Wisconsin and Northern Michigan.

This is the largest insurance company as well as the largest financial institution in the world. Its assets now exceed one hundred and seventy-five million of dollars. T. H. Howles is the general agent, to whom inquiries in regard to the company's plans of insurance should be addressed, and with whom special agency contracts may be made. [4-15-1w]

There is no one instrument, unless, indeed, it be a large pipe organ, capable of variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello and all the snap and brilliancy of the piano. See and hear them at Conklin's.
